ANOTHER HALLOWEEN-Another Halloween season has

Youngsters, and maybe a few that are not quite so young, seemed to have a good season this year with their usual pranks.

There was the usual amount of window marking and moving things from their rightful places to the most unusual places, for such items.

From all indications though, there was little or no really distructiveness during Halloween night activities in Goldthwaite.

There is a possible exception however. It has been reported that some person, or persons, tried to play with Uncle Sam's the Indiantown Gap Military mail box by pouring water in it. This happened at the outside deposit box at the curb by the Post Office.

Those who took part in this little fiasco might well be reminded that this goes a little farther than a Halloween prank. This is fooling with the U. S. Mail and is quite more serious than just Halloween play. There is a pretty stiff penalty for molesting the mail and it wouldn't look very good if it became necessary for Federal agents to come to Goldthwaite to investigate Halloween night ac-

#### A Moment With The Bible

"And certain men . . . . taught the brethren, and said, Except ye be circumcised after the manner of Mo ses, ye cannot be saved' (Acts 15:1). Some still ask today, Is circumcision bind ing on Christians?

The answer is, NO! Read earefully Acts 15; you will note in verse 24 that the Apostles said, "We gave no such commandment," Paul said in Gal. 5:6, "For in Jesus Christ neither circumcision availeth any thing, nor uncircumcision; but faith which worketh by love." This is the Apostiles teaching (Acts 2:42).

An all-new Ford . . . right size ... right price ... right between

Galaxie and Falcon

# Some cars have new names... this name will have a new car!

The name is familiar\_the Ford Fairlane 500. The car itself is totally new\_so new you'll see nothing else like it this year. It is one of Ford's milestone designs\_and will be as influential in its way as the first mass-produced car (a Ford Model T), the first popular station wagon (a Ford Wagon), the first four-passenger luxury car (a Ford Thunderbird), the world's most successful compact (a Ford Falcon).

Right between Galaxie and Falcon in size and in price, the 1962 Ford Fairlane 500 about everybody; you have never been able to buy anything so right before.

Big in room, ride and performance, it is still priced under most compacts. It nurses a nickel as though it never expected to see another. It moves like a rabbit on roller skates.

New unitized body a foot shorter outside . . . full-size inside

Ford engineers have changed the proportions of the automobile: a completely new unitized body gives you more room inside with less bulk outside. A foot shorter than previous Fairlanes, the new Fairlane 500 is pleasantly parkable, de-lightfully driveable, easily garageable. At the same time it packs into its neat and nifty 197 inches as much passenger room as you had in some of the biggest Fords

Twice-a-year maintenance

Service is reduced to a minimum-30,000 miles on many items, twice a year on the rest. You go 30,000 miles between major lubrications, 6.000 miles between oil changes and minor lubrications. You don't have to touch the engine coolantantifreeze for two years—or 30,000 miles—at a time. Brakes adjust themselves.

> All-new economy Eight from world's V-8 leader

The hand that honed the Thunderbirdand sped the Falcon to all-time Economy Run honors – turned to a new problem here, the world's first economy V-8. Made possible by new Ford foundry methods, the new Challenger V-8 is as strong as iron-and a lot lighter than iron's ever been before. As lively as you'd like . . . thriftier than you'd expect a V-8 to be ... it's a natural powerplant for America's first eat-your-cake and have it car.

For those who want even greater thrift, there's a new Fairlane Six. Its economy

would be gratifying in a smaller car. In a car this size it's a downright delight.

Preview America's newest car now As part of Preview Run U.S.A., new Fairlane 500's are riding the nation's highways and main streets right now. Watch for them. See what thousands have already seen - and raved about. Take a turn at the wheel-and perhaps do a little
