This was the highest number of points ever made by a girls' team.

VIC'S . . .

SOLILOQUY

Life is much like Christmas — you are more apt to get what you expect than what you want.

☆☆☆

A TIME TO REMEMBER—Another Christmas is nearly here. In the spirit of humility, the American people should count their blessings, the greatest of which is freedom, as they think of the slavery and helplessness of hundreds of millions of individuals in other parts of the world.

It is time to remember some of the things that make life worth living here.

The right to go to the church of our choice.

The right to read any newspaper, magazine or book he chooses.

The right of choice in a free market.

The right to congregate with our relatives and friends, without fear.

The right to travel when and where we please over three million square miles of country without asking anyone's permission. (So long as we can afford it). And countless other rights too numerous to mention.

Last but not least we should be thankful for each Christmas day when the children gather 'round the Christmas tree with its pungent evergreen scent; the quiet and peacefulness of the outdoors compared with the rush of the business day; the sound of church bells in the distance; and the voice of friends wishing "Merry Christmas."

Christmas in the United States is a leavening influence that draws families and citizens closer together.

Peace on earth, good will to men should be the prayer of every person in the world on Christmas Day 1961.

A MAN AT HIS BEST —

A man is at his finest towards the finish of the year; He is almost what he should be when the Christmas season's here;

Then he's thinking more of others than he's thought the months before.

And the laughter of his children is a joy worth toiling for. He is less the selfish creature than at any other time; When the Christmas spirit rules him he comes close to the sublime.

When it's Christmas man is bigger and is better in his part; He is keener for the service that is prompted by the heart. All the petty thoughts and narrow seem to vanish for awhile. And the true reward he's seeking is the glory of a smile. Then for others he is toiling and somehow it seems to me That at Christmas he is almost what God wanted him to be.

If I had to paint a picture of a man I think I'd wait Till he'd fought his selfish battles and had put aside his hate. I'd not catch him at his labors when his thoughts are all of self.

On the long days and the dreary when he's striving for himself.

I'd not take him when he's sneering, when he's scornful or depressed.

But I'd look for him at Christmas when he's shining at his best.

Man is ever in struggle and he's oft misunderstood; There are days the worst that's in him is the master of the good.

But at Christmas kindness rules him and he puts himself aside And his petty hates are vanquished and his heart is opened wide.

Oh, I don't know how to say it, but somehow it seems to me That at Christmas man is almost what God sent him here to be. —Edgar Guest.

Food Marketing Information
Want to save time and money
while shopping for food this
week? Here's some marketing
tips. Harvest of citrus fruits is
swinging into full season now
with good supplies of grapefruit
available, good juice oranges
as well as Navel oranges, more
tangerines and heavier
supplies of tangelos. Cranber-
ries continue an excellent value,
as do bananas, apples, fresh or
dried dates and figs. Good sup-
plies of produce items are avail-

able with many coming from
local truck farms. Collards,
mustard, turnip greens, cab-
bage, new crop red potatoes,
sweet potatoes, radishes, squash,
cucumbers and carrots are
among the better values. Meat
supplies are abundant. Some
fresh pork cuts are retailing at
very low price levels. Boston
butt roast, fresh hams and end
cut pork chops are good values.
Prices on smoked hams and
bacon vary quite a bit. Beef
steaks are featured items at
some markets. Eggs, turkey and
fryers offer much for the mon-
ey spent on them.

March of Dimes Clinic Head Forecasts Pre-Marital Tests for Birth Defects

Before most thoughtful young couples marry, they do a great deal of planning for the future. They ponder about jobs, homes of their own, saving money for their retirement years.

All well and good, but—
The pediatrician-in-chief at famed Johns Hopkins University Hospital, Baltimore, Md., wishes they would invest as much thought—before marriage—in their planning for healthy children.

Dr. Robert E. Cooke predicts the development of pre-marital tests which would forewarn of genetic deficiencies or flaws in either or both parties to a marriage that could cause their children to be born with serious defects due to heredity.

Dr. Cooke speaks from extensive knowledge of the problem. In addition to his academic position, he is responsible for the Birth Defects Special Treatment Center at Johns Hopkins, which is financed by March of Dimes contributions from the Baltimore City and County chapters of the National Foundation.

The genetic tests which Dr. Cooke sees for the future would bring to light gene patterns in potential parents that could cause their children to be born deaf, blind, mentally retarded or malformed.

By the same token, the tests when adequately developed would also reassure the vast majority of young couples of the likelihood of their having normal, healthy families.

What if a young couple agrees to undergo these searching tests, and the results show they might have babies with congenital malformations? Would such a marriage be forbidden?

Tests Are No Bar To Marriage

"By no means," Dr. Cooke said in a recent interview. "The tests should be voluntary. An unfavorable prognosis or prediction should not provide, in my view, either legal or moral grounds for advising against marriage."

The results of biochemical examination of their blood and cell enzymes should be made available to prospective parents and the outlook for their offspring made quite clear. But ultimate decision as to marriage should be left to the individuals themselves.

Dr. Cooke added that genetic defects in the husband and wife may also be the cause of childlessness. Pursuing his line of thought further, Dr. Cooke said that our young people should be given a better understanding of this subject. Proper instruction would minimize anxiety and permit them to plan their futures in a mature manner. The noted pediatrician would like to see more genetic investigation and counseling of patients by physicians—he calls it "anticipa-

tory medicine." He feels that medical students should become much more knowledgeable about human embryology.

"More than a quarter of a million babies with significant birth defects are born every year in the United States—almost 700 daily. Until scientific research can develop means to prevent these tragedies, young people who are the mothers and fathers of future generations should understand how and why they happen," he said.

Such premarital tests as Dr. Cooke advocates are not practical today on a widespread basis because of a lack of appropriate laboratories. "But with increased research in birth defects, and with improvement in our medical technology and our laboratory facilities, genetic tests will soon become practical and feasible," he predicted.

"Through them we may well come to the actual detection of future birth abnormalities and possibly prevent many by proper handling of the pregnancy."

He Defines 'Birth Defects'

Dr. Cooke says there is a great confusion regarding the term "birth defects." Medically, these are congenital anomalies caused by genetic factors or by injury to the embryo during its life in the womb. Most of the general public mistakenly believes that birth defects are limited to those apparent at birth, such as missing extremities, an enlarged head (hydrocephalus) or open spine (spina bifida). But many more subtle birth defects are not disclosed until maturity and even middle age.

For example, severe high blood pressure appearing in later life has been shown in many instances to result from congenital malformations of the blood vessels of the kidneys, a disorder present at birth but unrecognizable at that time. Birth defects also account for many cases of diabetes, urological disorders and gout that do not become apparent until middle life. The list could be substantially lengthened, Dr. Cooke pointed out.

The Birth Defects Special Treatment Center at Johns Hopkins is one of a rapidly growing number of centers in various parts of the nation financed by National Foundation chapters using March of Dimes contributions. They provide comprehensive medical care for victims, with emphasis on early diagnosis, prevention of disability, rehabilitation and expansion of knowledge concerning birth defects.

In addition, the voluntary health organization has established university-affiliated birth defects clinical study and research centers in Columbus, Ohio, Oklahoma City, and Nashville, Tenn. A similar program of March of Dimes-supported treatment and research centers in arthritis is also in effect across the country.

"Birth defects cause 21,000 deaths each year in the United States," says Dr. Cooke. "That's twice the toll taken by tuberculosis and ten times the annual number of deaths from whooping cough, measles, polio and infectious hepatitis combined."

"The National Foundation—March of Dimes is taking a historic forward step in searching for a preventive. Until it is found, one thing we might do is to determine, before marriage, what types of family genetic histories are likely to lead to the calamity of major birth defects. The means to do it are within our reach."

Underwater Land Sale Questioned

Attorney General Will Wilson has asked the Navigation District at Rockport to postpone sale of 127 acres of submerged land "until the Attorney General and the Land Office can check out certain facts which raise questions as to the legality of the sale."

It's possible that the Navigation District acquired some of the land from the state for \$1 per acre. It now proposes to sell this land to Carl Krueger & Associates of San Antonio for \$67,000.

Asst. Atty. Gen. Houghton Brownlee says there's a question as to whether land purchased at a nominal sum for public purposes can be resold for private development.

Short Snorts

Associate Justice Jake Tiry of the 10th Court of Civil Ap-

peals in Waco has filed with the Secretary of State for election. District includes Bosque, Brazos, Coryell, Ellis, Falls, Freestone, Hamilton, Hill, Johnson, Leon, Limestone, Madison, Navarro, Robertson and Somervell counties.

W. D. (Bill) Noel of Odessa has been reappointed by Governor Daniel to membership on the Liquor Control Board.

Personals

Mr. and Mrs. Norman Upham, Randy, Beverly Ann and Teresa of Ozona visited her mother and brother, Mrs. Annie Armstrong and Jack Burns, the past weekend.

Mrs. D. A. Solomon of Waco spent Sunday with her mother, Mrs. Tom House.

STATE CAPITAL
Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

Austin, Tex.—Objections are being raised over the specially called session of the Texas Legislature, scheduled by Governor Price Daniel for January 3.

Atty. Gen. Will Wilson says he hopes the Governor will reconsider his call for the third special session.

Actually, the attorney general doesn't object to the session nearly as much as he does the selection of bank escheat legislation as the prime object. Wilson feels that loan shark legislation should be the first order of business.

Sen. Dorsey Hardeman of San Angelo contends that the special session is unnecessary and will cause "undue expense" to the State.

Hardeman doesn't think that the session's purpose — which

is escheat enforcement, maintenance of farm-to-market roads, and small loan legislation—will get acted upon in a 30-day session.

Rep. W. T. Oliver of Port Neches claims the Governor called the special session strictly for "political reasons and publicity."

However, Governor Daniel has indicated that if his program isn't passed he will be running again in 1962.

Taxes Not For Teachers

Teachers are not to blame for the 2 per cent sales tax, as many claim, says the Texas State Teachers Association.

According to the teacher's organization a sales tax would have been necessary to meet other needs.

Only \$140,000,000 out of the \$360,000,000 to be raised in new revenue will go for teacher pay raises, says the Association. Of the remaining \$220,000,000 a total of \$70,000,000 will be used to retire the state deficit while \$150,000,000 will finance services other than schools.

Education Committee Named
Speaker James A. Turman has appointed five legislators to a Special Interim Committee on Education to serve as a consulting group to the Legislative Council. They will make a study of state teacher certification.

Rep. Herman Yezak of Bremond heads the committee, which consists of H. O. Niemeyer of Knippa, Miss Maud Isaacks of El Paso, Pete Snelson of Midland and Vidal M. Trevino of Laredo.

Textbook Picking Lengthy Process

Texas Education Agency says school boards must select local textbook committees by December 15.

Samples of selected texts are mailed to the committees about January 1, and they must ready their reports for local boards by March 1.

This step in state textbook selection is one of the quickest in a process that begins every May and ends sixteen months later.

By the time a local committee is selected, publishers have submitted bids and books to the Commissioner of Education; the texts have been studied by the 15-member State Textbook Committee, assisted by about 1,500 advisors; and the State Board of Education has passed on the committee's recommended list.

Approximately 11,000 school teachers will assist the local committees in picking school books to be published in time for pupil consumption next fall.

Farm Roads In Sight?

Texas' \$15,000,000 Farm-to-Market road fund, vetoed by Governor Daniel earlier in the year, may be freed for construction spending during the special session.

Restrictions which would prevent proper maintenance caused the veto.

Now it appears that the Governor and the State Highway Commission have worked out a road program compromise with organized interests.

Mrs. U. S. Savings Bonds of 1962

Blonde, blue-eyed Mrs. Emily Terrall, of St. Helens, Oregon, is the new "Mrs. United States Savings Bonds of 1962." As a Treasury volunteer Goodwill Ambassador, she will tour the nation during the coming year in the promotion of Savings Bonds. The 37-year-old housewife won the title from among 51 state contestants for the "Mrs. America" title in competition just closed at Fort Lauderdale, Fla., where she appeared as "Mrs. Oregon." The Terrall family is no stranger to Savings Bonds. Husband of the new "Mrs. Savings Bonds" is an industrial engineer, and buys bonds regularly on the Payroll Savings Plan. Mrs. Terrall, an alumna of the University of Washington, has been active in the PTA-sponsored school stamp program. And needless to say, their three sons—aged 7, 9 and 12—are all avid stamp buyers. Mrs. Terrall is the fifth winner of the "Mrs. Savings Bonds" title. She succeeds Mrs. Vivian Ackerman, of Tucson, Arizona.

In Memoriam

MA BURNETT
By Marvinne Weatherby
Out of my window and Up to the star
For over ninety years I have wondered How far you are I've seen the horse and buggy come And the horse stay I've crossed the country in a wagon Without a complaint each day And I've crossed in an air-conditioned car With a stone face I would pray
Out of my window and Up to a star.
I've learned the true beauty of education Through reading, although there been No formal training or special mission I've seen the birth of telegraph, telephone, Radio and television— The birth of grandchild to grandchildren in My vision. The farm and country I understood So with cooking, sewing, and gathering wood.
So now, I am going out of my window To the Great Beyond Do not think life has been hard Nor Death a bond. I've been sick less than one week Per year of life. Remember the deeds and Forgive the words of strife. As I go out of my window Go to the Great Beyond To join your Pa and My John. 12-14-1tc.

HOTTEST NOVEMBER IN FORD HISTORY!

And here's what started the heat wave!

Last month more Americans bought Fords than in any November in history. The blazing success of the long Ford line was end-to-end, all across the country and up and down it, too. ■ Everywhere the people flocked into their Ford Dealers and bought smart new Falcons, and the new Falcon Squire, the glittering swift Galaxies, the famous Ford Station Wagons and the hot Thunderbirds. And they poured in to see and buy up the brand-new Fairlanes just introduced. ■ There are four magic reasons—why behind the smashing success of the long Ford line for 1962. First of all is utterly modern styling, the fresh crisp lines that are now being so widely copied by other car-makers, the smart look that dominates the industry. Second is absolute power in eleven kinds of engines, giving you anything you could want in engine

options. Third is total economy—every Ford model is priced directly at your pocketbook, and every Ford, large, medium or small, gives you gasoline mileage outstanding in its class. Fourth is the service-saving concept—every Ford car is built to cut down maintenance worries and problems, with service-saving features other cars may have some day. ■ Ford leadership from Falcons to Thunderbirds is founded on trend-setting innovations. . . . The hot ideas come from Ford. And at the heart of Ford success is an almost revolutionary new concept of quality . . . most serious and direct concern with the actual part-by-part quality. For the hot trends in the hot cars, for a new experience in quality, and for the best buys on the American Road, see your Ford Dealer.

PRODUCTS OF Ford MOTOR COMPANY

NOW THERE ARE FOUR CLASSES OF CARS . . . AND ONLY FORD HAS ALL FOUR!

This class includes cars with 106- to 114-inch wheelbase. Most popular by far (a million happy owners) is the Ford Falcon. Falcon is America's lowest-priced* 6-passenger car, set a 25-year record for Sixes or Eights in last spring's Mobilgas Economy Run, gives you a choice of 13 models, including the Futura and new Falcon Squire wagon.

The Ford Fairlane is the first member of a new class which combines the advantages of both compacts and big cars . . . you get big car room, ride and performance . . . compact savings and maneuverability. Priced below many compacts, Fairlane even rivals some in gas economy. Has twice-a-year maintenance introduced by the Galaxie.

The class for families who want big car comfort, performance and prestige. Value leader is the Ford Galaxie—which has every essential feature of far costlier fine cars. With the optional Thunderbird 390 V-8 engine, a Galaxie will outperform America's most expensive luxury cars. Requires servicing only twice a year, or every 6,000 miles.

The top class—cars for people who want the very finest. First of the trim-size luxury cars, the 4-passenger Thunderbird is the most distinctive car in this class. Its styling set the trend for an entire generation of cars and now finds a new elegance in the Landau. And Thunderbird's performance is just this side of flight.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

Thanksgiving has come and gone and Christmas is well on its way, so time is passing plenty fast. Tonight I'm baby-sitting with a little boy who lives just three doors from us.

We had a wonderful Thanksgiving with all the traditional Thanksgiving dinner. We really had two of them. Bernice and Warren Clendenen and their two boys, Leon and Gary, came down from Alamogordo Friday before Thanksgiving and spent the night with us. It had been planned before hand. The Beliches and the Clendenens attended the Ice Capade that night at the Coliseum. They said it was a beautiful show. Then when Thanksgiving came around on Thursday we had Thanksgiving dinner all over again.

We had plenty of bad weather in November, but lately we have been having some beautiful days. It snowed some Nov. 13, 14 and 15. The radio said altogether we had 7.2 inches of snow.

A letter from Mrs. Edna Dwyer tells me that she is now staying in Brownwood at the home of Mrs. Kington. Miss Otie Willson of Dulin is also staying there. Mrs. Dwyer says she and

Otie have good times talking together. They like to have their friends visit them too. I think the address is 601-6th Street.

Carol Jean wrote on Larry's 4th birthday, Nov. 13. She said they celebrated it by taking 7 children to the Zoo then to their house for lunch and birthday cake. She said, "I wish that 7 grandmothers could have heard 7 little voices vigorously singing 'Happy Birthday' completely in Portuguese. But they also sang several songs in English, so don't worry, Grandmothers."

She said, "The Zoo here in Sao Paula is filled with animals living in their natural habitat—mostly the same zoo animals you can see in Texas, with a few unusual exceptions. The city also has an enormous snake farm."

"It is supposed to be spring or 'prima vera' in Brazil now, although we never know just what to expect in the way of weather. The rainy season is beginning here, and I wish we could send some of it to West Texas."

"We had previously wondered if the Christmas season would be celebrated here the same as there. Well we know now—it is. The stores are filled with tree decorations, toys, and easy-payment plans. I've even heard 'White Christmas,' although 'Hot, Rainy Christmas' would be more appropriate."

"All the men of our group are taking part in some park preaching each Friday and Saturday night in the downtown area. All of us are thrilled to finally begin communicating in our new tongue. We are expecting great results in the growth of the Church in the coming

She further adds, "Gracie, I wish you and Grandmother could see the plants and flowers here in Brazil. Nearly everyone's yard is full of beautiful plants. You've got nine Chevy II models to choose from. This is the Nova 400 Sport Coupe.

Luxury and low price were never blended so beautifully

Who but Chevrolet could've done it? Price, spice and everything nice! A car that's bustin' with room, zoom and richness. One that's deep in convenience and comfort. One that won't let you squander a thing but affection. Look over the beautiful new Chevy II Nova here, and light out in it at your dealer's.

NEW CHEVY II NOVA

A SIX WITH V8 SCAT. You design a throaty Six (120 hp. strong) with special refinements like seven main bearings. You take your Six and team it with a car that is hundreds of pounds lighter than the big jobs—and, partner, you've got Go!

EASIER GOING RIDE. New Mono-Plate rear springs take the place of old-fashioned multi-leaf springs. Tough but ever so gentle, they help give you a ride that reminds you of the big Chevrolet—and you know how smooth that is.

RICH REFINED INTERIORS. Here's where you sit in the lap of luxury. Leatherlike vinyl upholstery. Foam-cushioned, of course. Carpeting and seuff mats. Vinyl overhead and chrome trim—the works!

EVEN BUCKET SEATS IF YOU LIKE. Comfortable, contoured for full support, padded with thick deep-foam cushioning, covered in rich leather-grained vinyl. Yours at slight extra cost in the Nova Sport Coupe and Convertible.

Body by Fisher

STRIKING NEW STYLING. Any way you look at it, the Chevy II Nova is a neat, nifty fashion plate. The lines are so crisp and clean we're tempted to call them "elegant" (except that sounds downright expensive and, as your dealer will happily show you, Chevy II is anything but!).
