CONGRATULATIONS—Congratulations to the winners in the Mills County Stock Show last Friday and Saturday are in order.

We want to extend our sincere good wishes to the boys and girls who won the top honors in exhibiting their projects at the county show. It is our hope that some of them will continue and take some of the top honors at the big shows coming up in the next few weeks.

Also we want to commend all those who had exhibits and helped to make this 24th annual county show the success that it was. Everyone of them played an important part in the success of the show and they did a fine job.

Officials are to be congratulated for their efforts in behalf of the county stock show. It takes a lot of work and you will know how much pay they get for time spent on the project. Officials and all committee members deserve a hearty thanks.

PAY YOUR POLL TAX—Pay your poll tax, is something that needs to be stressed, to the fullest, during the next two weeks.

In fact, there is just a bit less than two weeks time left during which citizens of Mills County can pay their poll tax and be qualified to vote in the elections coming up this year.

To date poll tax payments are unusually slow, records of the tax assessor's office reveal. Only about one third of those who are eligible in the county have paid their poll tax.

Time is short, the deadline is January 31, which is also the last day on which one can get an exemption certificate.

The first primary election will be held on May 5th. There will also be the city and school trustee elections coming up in April. So election wise there is every reason for everyone to be qualified to vote this year.

The only way to do it is to have that poll tax paid.

ROOM FOR IMPROVEMENT—The Goldthwaite School Board is advertising for bids on scrap iron and other salvagable items including sheet iron from the burned out school bus barn.

The bid is to include a clean-up job of the lot down to the concrete slab foundation.

One could say, that is clearing the way and making room for improvement.

A year ago the old band practice hall was gutted by fire. Remains of that building have been cleared away. Now the bus barn which was located on the next lot has been destroyed by fire. When the debris from this fire is cleared away there will be a nice large lot for some school improvements.

The school board is still faced with the problem of providing additional and improved facilities for the Band and the Vocational Agriculture department.

Screwworm Eradication Program Is Expanding, According To Reports

The planned screwworm eradication program in the Southwest moved a step forward with the announcement that the Southwest Animal Health Research Foundation's board of trustees is being expanded and that an advisory council has been created.

C. G. Scruggs, recently elected president of the Foundation, said that each county which has an organized committee will be represented by one man on the advisory council, and that additional advisory council members can be appointed.

Scruggs pointed out that 216 counties in Texas now have organized committees and that other counties in the state are in the process of organizing. "Interest in the program also is growing in other states," he said. "Seven parishes in Louisiana have organized."

The Oklahoma Cattleman's Association passed a resolution at their annual meeting in December calling attention to the screwworm eradication program being activated in the Southwest and resolved to "join with other southwestern states to

adopt and foster a program that eventually will lead to complete screwworm eradication."

Scruggs said the selection of Harry Jersig of San Antonio as a trustee brings the total number of trustees to 16 at this time. Jersig will represent Wildlife and Sportsmen's clubs.

In their latest meeting the trustees emphasized — through the following statements — that every penny collected would be used solely to bring about a screwworm eradication program. "That it be the policy of the board of trustees that all funds received from producers shall and will be held in escrow to be expended only in the event funds are available or authorized to initiate the screwworm eradication program and in the event that efforts to secure sufficient funds fail, all monies in such escrow accounts shall be returned to the individual or organization from which they were received."

The screwworm eradication program is literally one of self extermination. It is based on the fact that the female fly mates only once. The native population is overwhelmed by systematic release of screwworm flies which have been sterilized by irradiation.

The foundation reports that as of January 10, 210 Texas counties had met, organized and begun collecting funds. By January 15, at least 225 to 235 counties were expected to be underway. A count of 42 counties, informally received, showed an average of nearly \$7,500 per county with none complete.

L. B. Burnham, Mills County chairman, announced Tuesday that contributions in Mills County to date are approximately \$3,000.

Candidates File With Democratic County Chairman

With the deadline less than two weeks away, six candidates for office have officially filed with Mills County Democratic Executive Committee Chairman, Claudia Cockrum, to have their names placed on the official ballot in the primary election on May 5th.

They are: Louis Crump, San Saba, State Senator, 16th district; Terry Townsend, Brady, State Representative, 65th district; Penrose B. Metcalfe, San Angelo, member of State Board of Education, 21st district; O. C. Fisher, San Angelo, U. S. Representative, 21st district; John C. Phillips, Austin, associate justice, Third Court of Civil Appeals, Third Supreme Judicial District and Walter R. Koch, Austin, Associate Justice, Third Court of Civil Appeals, Third Supreme Judicial District.

A number filings are expected in the last few days before the deadline, on Tuesday, February 5.

Six have announced their candidacies in the Eagle for various county offices. They have until February 5, to file with the county chairman.

Community News From Mullin

By MRS. JOHNNIE HOLLAND

Everyone at Mullin is busy trying to get their windmills, pumps, etc., back into running condition after the extreme cold weather we had last week. We were fortunate at our house. Everything froze, but no breaks of any kind.

Once again I'm going Wednesday, after over four months in a cast with a broken ankle, to see if I can get rid of it. I thought I would be out of it before Christmas, but the doctor sent me home for four more weeks.

Matt Kyle, son of Mr. and Mrs. Francis Kyle of Brownwood, has been severely injured recently due to the explosion of a tank of jet fuel. Matt teaches in the Science Department of the schools at Pecos. The last report we heard on the radio the doctors were afraid that he would lose his eye sight. He and his parents are well

known around Mullin. They owned property in the Pompey Creek community and were close neighbors of ours when we lived in that community.

Mrs. Almira (Williamson) Adams of Lovington, New Mexico, passed away at her home recently. Mrs. Adams was a retired school teacher. She was ninety-eight years of age, and she was an aunt of Mr. A. L. French of Mullin.

Visitors last Friday with Mrs. L. J. Vann and Mrs. W. H. Baskin were Mrs. George Gollightly of Hamilton, and Mr. and Mrs. Allen Forsythe of Brownwood. Also Sunday Mr. and Mrs. Darrell Shelton of Brownwood visited with Mrs. Vann and Mrs. Baskin. They also visited with Mr. Frank Shelton, and Mr. and Mrs. Dew Shelton.

Mr. and Mrs. Kenneth Baskin and Rosadene of Fort Worth were also weekend visitors in

Mullin with relatives.

I have just recently learned that we have an oil well being drilled just a few miles east of Mullin on the Henry place. We need some excitement around Mullin. Maybe this will help.

Darryl Kirbo, who is attending Nixon-Clay Business College at Austin, was a weekend visitor in Mullin with his parents, Mr. and Mrs. Fred Kirbo and family.

News is not too plentiful in Mullin this time. Too much weather I guess.

Personals

Mr. and Mrs. Olen Simms of Grand Prairie visited Sunday with her parents, Mr. and Mrs. W. W. Williams. They also visited Mr. and Mrs. Hershell Williams and family at Shive.

Mrs. W. P. Weaver visited last week in Dallas with her son Clyde and family.

After spending two weeks here in the C. H. Black home Mr. and Mrs. Dick Hughes left Tuesday for their home in Arkansas. While here they went to Georgetown for their new car. 1962 Peanut Support Level Is Announced

On January 8, Secretary of Agriculture Orville L. Freeman announced the minimum national average support price for 1962 crop peanuts at \$221 per ton. This is the same as the 1961 support price. The announced support reflects 85% of the January, 1962 peanut parity price of \$260 per ton.

The above information was telephoned to the office of Southwestern Peanut Growers' Association from the Department of Agriculture in Washington on last Tuesday.

Association officials worked diligently in 1961 for the \$29 per ton increase in support levels. They had again this year repeatedly expressed the hope that it would not be necessary to decrease price support levels due growers on 1962 crop peanuts.

The announcement by the Secretary that the 1962 support level would not be lowered is therefore heralded by Association officials and is expected to result in extreme satisfaction when received by growers over the Southwest area.

Through continuation of the relatively high support level on peanuts, major producing counties in the Southwest will be aided tremendously in maintaining a desirable level of economy.

The support price of \$221 per ton as announced is the mini-

imum average price at which in August depending upon the 1962 crop peanuts will be supported on a national basis. This figure could be adjusted upward in no event will the announced figure be lowered.

MILLS COUNTY STATE BANK

GOLDTHWAITE, TEXAS

STATE CAPITAL
Highlights
AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS — Talk of ending the special session of the Legislature on its opening day turned out to be just talk. When the lawmakers got to town at Gov. Price Daniel's call, little support could be mustered by Sen. George Parkhouse of Dallas and Rep. Charles Ballman of Borger, for immediate adjournment.

So, the show is on—and already moving at a fast pace. Governor Daniel immediately laid out his proposals for solving some long-standing problems. Included were the following:

BANK ESCHEAT—

Here a compromise with bankers was sought, under

which banks would advertise locally each year for the owners of accounts which had as much as \$25 in them and which had been inactive for seven years. Balances under \$25 would be sent to the State Treasury which would seek the owners, and if they appear, pay them from a \$100,000 revolving fund which would be kept in the Treasury for that purpose. Rep. Charles E. Hughes of Sherman, who has worked for 10 years to get laws to enforce the escheat laws, felt that ground had finally been found on which the state and banks could agree.

RURAL ROADS—

Governor Daniel's veto last summer of the \$15,000,000 appropriation for farm-to-market road construction during the year starting next Sept. 1 was designed to bring another long discussion to a head. It did.

Where \$60,000,000 was available in 1961 (\$50,000,000 in state taxes and \$10,000,000 in federal aid) for construction and improvement of rural roads, Daniel proposed only about \$42,500,000 be used next year. The other \$17,500,000 would be used to maintain the rural roads.

Daniel got agreement from the Texas County Judges and Commissioners Association and from the Texas Farm Bureau. But some rural legislators think this is too big a cut all at once, and are talking about the Daniel proposal as the "minimum."

INTEREST RATES—

Daniel made no specific recommendations to the lawmakers on interest rates and loan regulation, except to say that the rates proposed by the Texas Legislative Council were too high.

Here is tremendous difference of opinion among legislators, over two issues.

First question is—"what is a small loan?"

Some think interest ceilings should be held to 10 per cent on all loans over \$500 while others think higher rates should be allowed up to \$3,000, to include the auto loan category.

Latest proposal would regulate rates up to \$1,500 or \$1,000, thus hold interest to a 10 per cent maximum on all loans over that amount.

This issue will be hard fought and many legislators do not expect it to be settled when the 30-day session is over.

TOURIST ADVERTISING

Daniel urged a \$300,000 appropriation for advertising Texas to tourists. Proposal is backed by numerous organizations who feel that the investment will pay big dividends to the state, especially since the state now has a sales tax.

JUVENILE PAROLE—

Last year the start was made on a system of state-paid parole officers to supervise boys and girls released from the juvenile schools. But money was provided to pay only six men, including a state director.

Daniel asked for 17 more parole officers. Most legislators agreed on the need, but worried about where to get the money.

One thing is certain—this Legislature won't raise taxes again—not this year.

It is an unusual Legislature in another respect. It has two Republican members.

Kenneth Kohler of Amarillo took office first, so he is being called the "minority leader" of the House. His GOP colleague from Texas City, George Korkmas, makes it the largest Republican membership in the Legislature since back in the 1870s, when there were many Republicans in office in Texas, including a governor.

CANDIDATES ARE BECOMING ACTIVE

Politics is perk' up! Former House Speaker Waggoner Carr is at the rail and ready to run for Attorney General. Actually the Lubbock attorney, a Democrat, has been campaigning for the office for several months.

Austin Attorney Walter Koch is an announced candidate for Associate Justice of the Court of Civil Appeals, Third Judicial District.

Judge William A. Morrison of Cameron has announced for reelection to the Court of Criminal Appeals, on which he has served for 11 years. District Judge Otis Dunagan of Tyler has announced against him.

RECIPROCAL PRIVILEGES

Texas Game & Fish Commission has decided to revive efforts to get reciprocal fishing privileges on the border rivers and lakes.

Neither the Texans on Lake Texoma nor the Louisianans on Lake Caddo can tell where the state line is. Sometimes they get fined by the other state's game wardens for not having a fishing license.

Time and again negotiations have begun, only to have the idea shelved when officers were changed and the new ones didn't pick up the ball.

This time, Chairman Frank Wood of Wichita Falls will go to Oklahoma to start talks there. Henry LeBlanc, president of the Sportsmen's Clubs of Texas, will try to get things rolling in his position as Southwestern director of the National Wildlife Federation.

INDUSTRY BOARD PICKS CLARK

Texas has an industry-seeking agency—the Texas Industrial Commission.

TRIAL COMMISSION.

It got a new director in Harry W. Clark, who has been head of industrial development for the Texas & Pacific Railway Co. He replaces Walter Dickerson.

Commission decided to center its efforts on coordinating and complementing the work of community industry seekers. Also to serve as an information center for facts on industry and its needs. And to help advertise Texas nationwide. Legislature provided them \$55,000 for these purposes last year.

AIRIED UP BREAD—

Agriculture Commissioner John White sent word to all bakeries that the "ballooned loaf" of bread is illegal under the state law.

White said that this new "over-sized" loaf has appeared in several parts of the state.

It actually weighs a pound. But if filled with air it bakes into a loaf the same size as the pound and a half loaf. Weight is printed in small type, so shoppers find it hard to tell the difference.

The state's grocery policeman said if bakers don't cooperate by stopping the practice he'll stop them.

BACK TO THE BLACK—

State revenues will begin to pull into balance this month, as the first full quarter of returns on the new sales tax reach Comptroller Robert S. Calvert.

Since the new law took effect, only \$22,000,000 has come in, and it just about held things even on the state deficit of \$75,000,000 or so.

Quarterly payments by stores, on sales for the last three months of 1961, are due Jan. 31.

They should total about \$45,000,000, less the \$11,000,000 merchants paid in advance in November and thus got a 3 per cent discount.

But it will be summer of 1962 before the new sales tax wipes out the deficit, if all goes as predicted.

One effect of the sales tax has been to get stores located so they will pay the "store tax" which has been in effect many years.

A year ago at this time, only 81,109 stores had paid this tax.

This year, 116,393 have paid. It all came about when stores were required to get permits collectors of the new sales tax. Comptroller Calvert cross-checked their names, and collected the "store tax" from them when he was at it.

Childress Clinic and Hospital this week released a report of activities for the past year, which is the second full year of operation. The new hospital was opened here in April 1959, and a new wing was opened the later part of 1960.
