## Frank W. Lohn Of Brady Enters Race For State Representative

Frank W. Lohn of Brady this week authorized the Eagle to announce his candidacy for the office of State Representative for the 65th district, subject to the democratic primary election.

District 65 comprises seven counties. Mills County became a part of this district in the redistricting made by the legislature to be effective with the next regular session.

Mr. Lohn was born on a farm at Waldrip in north McCulloch County, and attended West Texas State College. He enlisted in the army in April 1917 as a private and was discharged as a Sargeant after the end of World War I. He was employed as Deputy County Clerk of McCulloch County in early 1919 and left that position to reenter college. In 1922 he became principal of Calf Creek School in McCulloch County which job he held for two school terms. For the next two school terms he was Superintendent of Gould-busk School in Coleman County.

In 1926 he successfully passed a civil service examination for Special Agent of the Treasury's Intelligence Unit, and was one of three men appointed to that position in a five state area including Texas, in 1927. In 1937 he was made Assistant to the Special Agent in Charge of the Dallas Division.

In 1941 he was promoted and transferred to Seattle, Washington, as Special Agent in Charge of the Seattle Division.

In 1942 he was promoted and transferred to a larger division with headquarters at Kansas City where he directed the activities of more than 90 Special Agents stationed in four states.

In 1951 he was transferred to Washington, D. C., as Chief of the Intelligence Unit where he directed the activities of more than 1,200 Special Agents assigned throughout the United States. Mr. Lohn remained in this position until 1952 when the Internal Revenue Service was reorganized. The United States was divided into 17 Internal Revenue Districts each headed by a District Commissioner. Secretary Snyder appointed him to the position of District Commissioner of the Denver District covering five states.

On July 1, 1953 the 17 Internal Revenue Districts were consolidated into 9 regions. Lohn was named as the new Regional Commissioner in Omaha of a nine state area. In this position he directed the

SOLILOQUY

**THERE IS ALWAYS SOMETHING**—An elevator operator grew weary of constantly being asked the time of day, so he hung a clock in his cage.

Now everybody asks him, "Is that clock right?"

☆☆☆

**EVERY LITTLE BIT HELPS**—Senator Louis Crump, San Saba, extended his greetings to Mills County candidates by making a small contribution to the Democratic Executive Committee, according to Mrs. Raymond Cockrum, chairman.

Crump is one of the few State Senators being blessed this year by not having an opponent.

When he forwarded his check to Mrs. Cockrum for his filing fee, (his assessment is small) he enclosed a check for \$10.00 to help defray election expenses.

So as mentioned above, we feel sure the local candidates who have to foot the bill for holding the primary election feel that every little bit helps.

Assessments made for the various candidates to hold elections is no small item. It is high enough, just for the first primary, without having to conduct the run-off primary which seems a sure thing again this year with the number of contests on the state level, even though there is no county run-off contest.

There is a move underway on the state level though that may remedy the situation. It appears now that the state Legislature will take some action before long with respect to cutting down on the number of voting boxes in all counties which is the primary object in cost of holding elections.

☆☆☆

**POLL TAX PAYMENTS UP**—It is interesting to note that poll tax payments in Mills County this year are up a little. That of course is to be expected, considering the fact that this is election year.

Records reveal that 1,174 poll tax receipts were issued this year compared to 943 last year. That is a nice increase, but is still considerably below the number of two years ago when 1,566 were issued.

Of course, Mills County, as many other rural counties, is gaining more voters each year who are exempt from paying poll tax.

The voting strength of Mills County is something over 2,000, it appears, since the vote in the last presidential election was 2,221.

Let us hope that there will not be too many who will wake up to the sad realization when primary election day comes in May and find that they did not pay their poll tax.

☆☆☆

**FFA WEEK**—This week is being observed as FFA Week in Texas and throughout the nation.

Briefly, National Future Farmers of America Week seeks to focus attention on the work of the Future Farmers of today, who will be the successful farmers of tomorrow.

**A FEW BAD ONES**—If you happened to be one of our good subscribers who received a copy of the Eagle last week that wasn't in the best of condition, accept our apology.

We feel certain that several copies went into the mail to our subscribers which had a tear in one of the pages. How many went out we don't know since the tear was inside of the folded paper as it came out of the folder.

As is the case with most businesses we had our problem the past week while making certain repairs and adjustments on the press and folder with a net result that a few copies of the paper were not up to par. We hope to get you a better one this week.

**UN-NERVED**—"Do you guarantee results in your nerve treatment?" asked the prospective patient.

WHAT?  
BUILD A PICKUP TRUCK  
SPECIALLY FOR TEXAS?

YES SIR—THE '62 FORD!

IT STARTED IN TEXAS—when Ford engineers came here to track down exactly what Texans need in a pickup. They drove Texas roads . . . talked to Texas truck owners . . . and produced a truck that fits Texas to a "T." Drive the '62 Ford pickup and you'll agree!

The wheelbase is long—114 easy-riding inches (122 for 8-foot bodies). There's little chance of bumper-scraps on inclines because of the short front overhang—and more ride stability. The ride is smooth. To the long wheelbase, add easy springing—and the ride's as soft as a Texas draw!

The frame is strong. It's built to stand the twisting of high-crowned Texas roads.

The savings are BIG—and they start right today! You save now on Ford's pickup prices—the lowest of any leading make.\* And you save from now on! Save on gas with Ford's modern engines, Six and V-8. Save on oil—go 4,000 miles between oil changes, thanks to Ford's Full-Flow oil filter. Save on tires because Ford's I-beam suspension keeps front tires tracking true. In certified tests against pickups using independent front suspension, Ford front tires lasted up to 83% longer!

Stop in and drive a '62 Ford pickup today. It's built for Texas, built in Texas. Let us show you why Ford's full-time economy only starts with low price!

**The Southwestern States Telephone Company**

Austin, Texas—Texas newsmen quizzed seven candidates for governor at a session of Sigma Delta Chi, professional journalism society, and fanned early-season campaign sparks.

Gov. Price Daniel took the center position, weathering attacks from nearly all the other candidates, both democratic and republican. All candidates took part except John Connally and Edwin Walker.

A little fire even developed between the three republican candidates. Harry Diehl of Houston said Jack Cox of Breckenridge was "not a Republican—just a conservative candidate."

But two days later, Diehl withdrew from the race, leaving Roy Whittenburg as the only republican primary opponent for Cox.

Don Yarborough and Marshall Formby attacked the Daniel administration as "tired" and "lacking vigor." Daniel came back with a recital of his five-year accomplishments in education, industrialization and other fields.

Will Wilson's approach was that Daniel's entry collapsed the Connally bandwagon by splitting Vice Pres. Lyndon Johnson's organization, and that the only way to get an uncontrolled candidate was to elect Wilson.

Candidates got in more punches in answering tough questions posed by nine newsmen. All of Daniel's opponents made the Governor's unprecedented four-term try a central issue. In the course of questions, Daniel came out for a two-term limit, but with four-year terms for governor instead of the present two.

**FRIENDLESS INSECT**  
A big-hatted crowd of ranchers gathered at an Austin hotel to get more facts on the stockman's dream—the elimination

of the screwworm. There was no one there to defend the insect.

Ranchers learned from Floridians how that state was swept free of this costly scourge by a dramatic program. Florida ranchers covered the state with sterile male screwworm flies thus wasting the female flies' single mating period. First airplane distribution of flies in South Texas started the day of the Austin meeting.

Texas stockmen are raising \$3,000,000 by voluntary contributions to match an equal amount of Federal money put up by the U. S. Department of Agriculture. The screwworms cost Southwest ranchers an estimated \$40,000,000 a year in losses.

**LIVESTOCK RAISERS GET HELPERS**

A committee of five legislators held its first meeting after hearing plans of the Southwest Animal Health Research Foundation.

Speaker James A. Turman appointed Representatives Ray Bartram of New Braunfels, Steve Burgess of Nacogdoches, Stanley Boyesen of Yoakum, Glenn Kothmann of San Antonio and Gus Mutschler of Brenham to assist the SWAHRF in planning its attack on the screwworm fly.

**Horse Of Another Color**  
Stamford oilman Keith Wheatley seemed to get off the track in his campaign for Railroad Commissioner when he told Austin pressmen that Texans should be able to cast a vote on the return of horse racing to the state.

Wheatley said he is neither for nor against racing, but believes "tax profits from horse racing could do much to aid the old people and the children of Texas."

Gubernatorial candidates are

interested in regulating another kind of race. They think limitations should be set on the number of times a governor can run for re-election.

Marshall Formby based his objections to the present lack of limits on the fact that most state projects are operated by commissions whose members are appointed by the governor on a rotating basis. Formby figures that by the end of a second term, a two-time governor has made every state commission appointment and it's time for him to take a rest.

John Connally seconded the charge of commission domination, and said that by the end of a third term, every one of the more than 800 commissions have been appointed by a three-time governor. He promised that he would ask the Legislature to limit a governor's tenure to two terms if he's elected.

**Migrant Study Set Up**

State Board of Education appointed R. P. Ward of Edinburg to head a study on the education of children of migrant parents, after Commissioner J. W. Edgar called this "one of the critical problems facing the Texas public school system."

Ward, former president of Pan American College, will develop a guide for teaching these children, who form a large percentage of the enrollment in Rio Grande Valley schools.

**Teachers' Time Tabulated**

State Board of Examiners for Teacher Education and the Texas Education Agency sent out about 80,000 questionnaires, asking how Texas educators spend their time on curricular, co-curricular and extracurricular activities.

So far, more than 20,000 answers are in. Agency researchers are anxious for the other replies. They want to feed them to computing machines. Purpose is to get an analysis to help the Texas Legislative Council prepare a full report on teacher certification and the status of education in Texas.

Other facets of a report to be presented to the 58th Legislature in January will include the public view of education; a history of teacher education and certification in Texas; personal characteristics and social and economic data of teachers; a look at the current class of education majors and an analysis of their college course work.

When the "portrait of a Texas teacher" is completed, educators think it will represent the most comprehensive study of public education ever undertaken in this state.

A teachers' pay survey revealed that the West Texas towns of Crane and Kermit pay the highest salaries to new teachers—\$4,900 a year, and that practically all districts with 2-

**GOP Primaries Under Fire**  
State democratic committeeman Walter Sterling opened another argument in the inter-party battle when he accused republicans of dodging their responsibility by not holding a primary in every precinct in the state.

Sterling and the State Democratic Executive Committee question the legality of a republican primary nominee who has not been voted on by every republican. Executive Director Clyde Johnson said, "The republicans should not be able to avoid legal and financial responsibility in these primary elections."

Republicans counter-charged that democrats failed to hold primaries in 24 counties during the 1960 special election. But Johnson promised the party will "follow the law as usual" and hold primaries in all 254 counties this May.

## Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

I'm baby-sitting tonight with some new customers. There is only one child, Ted, eight years old. He is a very nice child. He is now fast asleep.

I had wanted to write my letter for the paper, but I was just about to give it up. It is so hard to find something to write about. But this evening I got three letters. One from Mrs. Effie Egger, one from my sister-in-law, Mrs. Jim Wilmeth, and a surprise letter from my great-niece, Mamie Lowry Woodruff. My brother, Charlie Wilmeth's granddaughter. So after all that, I felt that I just must write. So I brought my typewriter and writing material with me and I hope the folks will stay off long enough for me to get the letter written.

Gertie (my sistre-in-law) said that our sister, Mrs. Edna Dwyer, is still staying at Mrs. Kington's in Brownwood and is doing fine. Her broken arm is out of the cast, and the doctor says it is just all right.

Gertie also said that Joe Wilmeth, son of Mr. and Mrs.

Wayne Ratliff of Fort Worth spent the weekend with his parents, Mr. and Mrs. W. W. Ratliff and Steve.

Mr. and Mrs. Ted Goodfield of Brownwood and several of their grandchildren were Sunday visitors of Mr. and Mrs. A. R. Whitley and Mr. and Mrs. C. V. Whitley.

Mrs. William Ivy and Lewis and Pearl Crawford visited Mr. and Mrs. J. S. Ivy Thursday afternoon.

Mrs. C. V. Whitley was a Tuesday visitor at Brownwood. Her mother, Mrs. White, accompanied her home for a visit.

Mrs. G. L. Mason and Mrs. Ol Brown visited Mr. and Mrs. Curtis Koen at Eastland last Monday. Mrs. Mason remained for a longer visit as Mrs. Koen had been on the sick list with flu.

Mrs. W. P. Oxford and Billy were Brownwood visitors Friday.

Ralph Wilmeth of Fort Stockton, called them the day before from downtown Brownwood. He had come to attend a funeral. His coach's child had died and was brought to Brownwood for burial.

My niece, Mamie, says they live in Safford, Arizona and her husband, H. E. Woodruff, is District Entomologist there and they go to El Paso every month or so to the William Beaumont Hospital. Next time they come she is going to give us a ring.

Effie and Gertie both told me that Frankie and Jenks Martin of Brownwood did not move out on the Wilmeth Place, so the Taylor Duncans are still there. I'm happy to find out that they are still there, because Taylor and Vada wanted so much especially to stay there till Annette graduates from school at Mullin.

Effie and I had just crossed letters. The day she got my letter she had mailed one to me. In my letter I told her all about the Ebony Rose for us. So today I was really happy when I got her letter and she was just delighted with the idea. She has already been to Brownwood and got the peat moss and the bone meal and had talked to Miss Davis at the Davis Floral Co. and asked her all about setting out roses in that part of the country.

Effie also told me a lot of interesting things about Ebony. She says Dale and Evelyn Reid are coming back out there to live on their land. And it sounds like Marguerite and Edward Egger are coming back out there to live. Effie says they are remodeling their house. Building two more bed rooms and sheetrocking the house. A family is already living on the Mahan place. Perry Day is going to build on his land. Forest Perkins is also talking about building on his land. If all this happens, Ebony will be just like a new community.

Also Effie and I are going to give the Auld Lang Syne Party this spring. We are going to have it at her house since she has the room. She wants me to set the date. I want to confer with the Luther Jernigans first. I know they used to say it was hard for them to get off early in June.

## Bond Sales For January

January Savings Bonds sales in Mills County totaled \$1,200, according to W. P. Duren, Chairman of the Mills County Savings Bonds Committee. This figure represents 0.75% of the 1962 sales goal of \$160,000.

Total January sales in Texas were \$15,310,631, which is 9.3% of the 1962 state goal of \$165,100,000.

"The highlight of our 1962 sales activities will be the Freedom Bond Drive held in May and June," Chairman Duren reported.

"The Freedom Bond Drive will be the first nation wide Savings Bonds campaign held since the Korean War. This campaign was personally inaugurated by President Kennedy at a meeting in Washington on January 19th. I feel confident that the citizens of this County will respond to the Freedom Bond Drive and our 1962 Savings Bonds goal will be met," Duren concluded.

Miss Clara Karnes of Brownwood spent the weekend at her home here.

Mr. and Mrs. Bill Armstrong of Wichita Falls visited his mother, Mrs. Annie Armstrong and family during the weekend.

Mr. and Mrs. Grover Boatwright and Mrs. Tom House visited Mrs. Jim Rudd, a patient in San Saba Memorial Hospital, Sunday.

Mrs. Frankie Joyce of Crane is visiting her parents, Mr. and Mrs. D. W. Williams.

Mrs. H. W. Batsell of Fort Stockton spent Monday with her sister, Mrs. R. V. Littlepage and Mr. Littlepage.

You  
need not  
walk  
alone

When was the last time you woke up in the morning and said to yourself  
"It's a great day to be alive"?

When was the last time you tossed a cheery "good morning" to your  
bus driver... or smiled at a stranger on the street?

When was the last time you felt that the world was really for you—  
helping you celebrate the good days and standing behind you when  
things were not so smooth?

You need not walk through life alone and annoyed with it. The strong  
companionship of deep religious Faith can be yours through regular  
weekly worship—with others who believe as you do.

In the peace of your church or synagogue, in the ritual of the service,  
in the quiet assurance of prayer you'll find the way to whatever is  
missing in your life.

### Dividend Income Must Be Reported

Dividends received by taxpayers during 1961 must be reported on federal income tax returns, Virgil W. Newman,

Administration Officer, for Internal Revenue Service, Brownwood, Texas, said today.

He explained:

"If you own stock in a corporation, the payments you receive out of the company's earnings and profits are called dividends and must be reported in your tax return.

"Usually, dividends are paid in cash, but if paid in merchandise or other property, they are taxable at their fair market value.

"You must report those dividends credited to your account as well as those which you actually receive.

"You also must report the dividends on your stock which is held in the name of your broker.

"Your distributable share of dividends from partnerships, estates and trusts must also be reported."

Taxpayers with questions on this subject may get Document N. 5060, "Investment Income," by calling MILton 2-7639.

## Doe Reports Needed From Landowners

Landowners who received doe permits for the 1961 hunting season are expected to make their reports to the Game and Fish Commission at once, according to H. D. Dodgen, executive secretary of the Game and Fish Commission.

These doe permits were issued to landowners for removal of surplus doe deer during the hunting season, with the understanding that unused tags and reports of the kill should be made by February 1.

There were no checking stations in the state during the past hunting season, and these reports are needed to make an accurate record of the kill of antlerless deer in those counties where the antlerless harvest was authorized by proclamation under regulatory authority.

In some counties, the killing of a third or bonus doe was authorized, where there was an unusually heavy population of doe. The effectiveness of this program can be determined with a study of the reports.

The landowner should send the report to the biologist in charge of the area.

**CORVAIR MONZA** Sports Car spice without a sports car price. At rear is the Monza Club Coupe.

**CHEVY II NOVA** The frisky family-sized Chevrolet with a low, low price tag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvair Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that

won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

We were all so thankful for the good shower we received Saturday night. The grass has begun to green up right nicely.

Quite a few in our community have planted some garden. If there is anything to be said, "If it thunders in February, frost in April," it may get all the early gardens.

This Saturday night (the 24th), will be our regular singing night. We are expecting a good singing. Everyone come and bring someone with you. We are looking for the Manning children trio from the Congregational Methodist Church at Brownwood to be there. ## Operation Screwworm Control Is Underway; More Funds Are Needed

Texas' multimillion dollar screwworm control program is underway. It was launched last Wednesday morning when sterile male screwworm flies were air-dropped over Hays County.

The release—first of its kind in the Southwest—was timed to coincide with a meeting of the Southwest Animal Health Research Foundation in Austin. More than 400 livestock producers and sportsmen from Texas and adjoining states attended the kick-off meeting. The fly release climaxed the efforts of thousands of stockmen and sportsmen who have worked on the program for many weeks.

C. G. Scruggs, president of the SAHRF, said the program involves the U. S. Department of Agriculture, Texas Animal Health Commission, Texas A&M College and the research foundation. He reported that contributions by stockmen and sportsmen now totaled approximately \$1,400,000. An intensive drive will be continued, SAHRF officials said, until the \$3 million goal is reached. Scientists, capitalizing on freeze-out of overwintering screwworms in January, believe there is an opportunity for lowering—if not totally eradicating—screwworms from Texas this year.

The program will follow the pattern of the successful eradication effort in Florida and the Southeast. Millions of artificially raised male screwworm flies, made sterile by exposure to radioactive material, will be released in the overwintering area in South Texas and in a "buffer zone" along the south-

ern border of the state. A giant screwworm producing plant will be constructed in South Texas with an expected capacity of 50-75 million flies per week. Facilities at Kerrville Lab will eventually produce 20 million flies each week. Dr. S. Gartman, who has charge of the Kerrville fly facilities, will head operations at the new plant.

Release of sterile flies is only half the job. The remainder is up to the stockmen. If maggot infestation is found, stockmen are asked to remove 10 from the bottom of the wound and report to their county agent for a positive identification.

L. B. Barnham, chairman and Glynn Collier, secretary-treasurer, of the Mills County Committee, attended the Austin meeting last week. Burnham announced this week that the drive for funds in Mills County is progressing although it is still far short. A number of farmers and stockmen who have expressed themselves as being in favor of the program and indicated they would support it financially have not made their contribution to date.

Now is the time for all to get their checks in to either Burnham or Collier at the bank.

If stockmen in Mills County support the campaign according to the agricultural census record for the county a total of more than \$24,000 would be realized.

Mrs. Olivia Taylor and son of Hamilton spent Sunday with her mother, Mrs. C. A. Simpson and other relatives here.

## FRANK LOHN

(Continued from Page One)

State of Kansas in reorganizing its Commission of Revenue and Taxation. When this job was nearing completion in early 1959 Mr. Lohn returned to Texas. Since that time he and his wife have operated a ranch at Brady.

In announcing his candidacy for State Representative Mr. Lohn stated:

"I feel that the broad experiences I have had both in the Federal and State tax fields will enable me to work toward the elimination of existing inequities in the present Sales Tax Law. Moreover, I feel that my tax management experience has equipped me to render to the people of Texas a real service in helping work out a sensible and effective program to insure that all sales taxes collected from the consumer reach the state's treasury."

"During the next few weeks I shall attempt to personally meet as many voters of the district as possible to acquaint them with my qualifications for the office I seek."

## Know Your Schools!

By EUNA V. BARNETT  
Third Grade Teacher  
Goldthwaite Schools

Where am I falling my child? Am I doing enough for him? Or am I doing too much for him?

What parent hasn't asked himself that question again and again. The United States Secretary of Health, Education, and Welfare, Abraham Rubicoff, says that all parents must take their share of the blame for the indifference of the American people toward education.

It is with this thought in mind that the local Parent-Teacher committee on parent education has developed a twelve hour study course for all parents interested in meeting their responsibility to their child. The first of these two-hour sessions was held in September when our own local Mr. Julian Whitley brought before the entire organization a program on safety with particular attention to some outstanding local hazards. Follow-up activities have done much to eliminate these hazards.

The second program of the year which was done by Mr. Ed Devery of Brownwood contributed another two hours of the twelve hour course. His title was "Dangers of Communism."

On Monday night of March 5 the Cen-Tex Study of American Heritage has extended an invitation to the members of the Parent-Teachers Association of our school to attend a lecture at Lampasas High School at 7:30 p. m. Those of us who have attended any of the American Heritage programs can assure you that they all are outstanding programs.

The speaker for this particular program is Dr. Walter Kerr, a Methodist minister, graduate of Texas University and George Peabody University. He is now working with the "Youth For America" and "Youth For Christ" organizations. His title for this program will be "Americanism vs. Communism." There will be a dinner served at six o'clock in the Lampasas gymnasium to which all are invited provided you contact Mrs. Hawley Jernigan, Mrs. Albert Tully or Mrs. Don Geeslin by February 25th to say that you wish to participate in the free meal.

The fourth program is planned for the following night, March 6th. This is a scheduled P-TA meeting and the date was set thus to bring you an excellent program on "Know Your Schools" during Public Schools Week. Mr. Noble Prentice with whom many local people are acquainted, will be the out-of-town speaker.

The fifth program of the series will come on Monday night, March 12th with Superintendent Harley Black, County Superintendent of Brown County, discussing Current Legislation affecting our schools of today as well as the future. Federal aid to education, new college entrance requirements, changes in the fields of guidance and counseling, and many other current problems will be discussed.

The sixth and last of the series is in the planning stage. There have already been two programs in our town this year that anyone who has had to

miss one of the sessions already held may substitute for them. The Helen Poe program and the Sargeant Schlichter program may count for two hours.

"Whole communities of parents let their children down by not keeping up with what goes on in their schools," Mr. Rubicoff says. May each of us not be guilty.
