## School Board Votes Against Building Purchase

Goldthwaite School Board meeting in a call meeting Saturday night voted not to purchase the building from Kelly Force Base, it was announced this week by Charles Conrad, president of the board.

The building had been offered to the school district on a priority, or first choice, basis.

Conrad said that the matter was thoroughly investigated and considered and it was turned down because the board felt the purchase would be too high. To move the building and place it back in its original state in new location would have cost \$30,000, not to mention an untold amount of modernizing the building to meet the needs.

This case has been found to be one of the most economical to construct and very serviceable. ## No Premises Will Be Quarantined In Screwworm Eradication Program

Individual premises on which screwworms are found will not be quarantined, advises Dr. R. G. Garrett, executive director of the Texas Animal Health Commission in Austin.

State and federal animal health authorities must have reports on all suspected screwworm infestations to conduct the eradication program properly. Livestock owners who make such reports will get the earliest and most thorough relief, Dr. Garrett said.

A screwworm transport patrol line has been established by the Commission across Texas from Del Rio generally east to Columbus and south through El Campo and Bay City to the Gulf of Mexico. This action was taken to contain known infestations in the southern part of the State, where their presence has been confirmed, and to prevent their transportation by truck or rail to the free area north and east of the patrol line.

Dr. Garrett requests that all animal handlers be especially watchful for animal wounds. He suggests, that where possible, such wounds be treated immediately with screwworm remedies and fly repellents so they will not become infested.

If worms are found in animal wounds, their identity should be established as quickly as possible, Dr. Garrett said. Free mailing kits may be obtained from county agricultural agents, livestock inspectors and local screwworm control committee. Samples of the worms found will go to Screwworm Identification, ADE-USDA, Box 969, Mission, Texas. Identity of the worms will be made known to the owner immediately.

BENJAMIN FRANKLIN MAHAN

**100 YEARS OLD ON MARCH 2**—B. F. Mahan, retired farmer and long time resident of Mills County, quietly celebrated his 100th birthday Friday, March 2, at his farm home in the Rock Springs community about five miles west of Goldthwaite. Open House which was planned by his children for the occasion was postponed at his request when he told them: "until it gets a little warmer, I might catch a cold."

## B. F. Mahan Has 100th Birthday; Relates Trail Drive Experiences

B. F. Mahan quietly observed his 100th birthday on Friday, March 2, while relating some of his experiences on cattle trail drives and asking his children to wait until spring gets here to have open house in his honor.

He felt there was no rush to have open house when the early March weather was cold and disagreeable. He told them to: "wait until it gets a little warmer, I don't like to get out in this kind of weather, I may catch a cold."

Mr. Mahan has lived more than half of his one hundred years on his farm in the Rock Springs community about five miles west of Goldthwaite.

Benjamin Franklin Mahan told some interesting history on his one hundredth birthday. He purchased the old Whitaker farm in 1905 which was home-

stead by Judge George Whitaker, a pioneer lawyer who settled in Williams Ranch, then in Brown County.

Mr. Mahan was born in Hunt County in 1862. His father, a native of Tennessee, was a Confederate soldier; his mother, Susie Lee, was a daughter of Daniel Lee, the brother of Gen. Robert E. Lee, the Commander of the army of the Southern Confederacy.

## TRAIL DRIVE

As a young man Ben Mahan broke wild horses for the ranchers and rode the vast ranges of the West as a Texas cowboy. On April 15, 1884, Mr. Mahan began a Trail Drive of 3,000 steers from Baird, Texas, to Kit Carson, Colorado. The owner of the herd was a Company made up of Mr. Fleming, a large ranch owner in Callahan County, and Messrs. Donahue and Ringo.

Jim Vaden was foreman in charge of the herd, assisted by six cowboys and a cook. Each cowboy was furnished three horses, one to ride at night and two for trail drive herding. There were four mules to draw the grub wagon with flour, bacon, beans, and coffee. This was the complete crew.

The drive was slow as the cattle grazed on the luscious grasses in order to live and the herd could make only about ten miles per day. The herd passed near Seymour, a new town of eight tents. Throckmorton had five tents. Vernon was a large town for that area as it had one log house, several adobe houses, some dugouts, several tents, and a blacksmith shop where the cowboys had their horses shod.

On July 3rd the herd reached Red River and they camped in the valley before attempting to cross. The next morning, July 4th, the rain came down in

### Community News From Mullin

By MRS. JOHNNIE HOLLAND

Mrs. Jack Cooksey and Mrs. Tom Cooksey Jr., have had the news from their brother, Harold R. (Dick) Roberts and wife that they have triplet daughters, born February 17, 1962. The little girls have been named for their aunts—Rebecca June for Mrs. Jack Cooksey, Beverly Dean for Mrs. Tom Cooksey Jr., and Margaret Frances for the sister of the mother. I believe this might be a record. The mother of the Roberts children had a twin sister, Mrs. Tom Cooksey Jr. had a twin sister, Mrs. Jack Cooksey is the mother of twin boys, and now their brother has triplet girls. Mr. and Mrs. Roberts are now living in Saumur, France, where he is with the Army. They have four other children.

Capt. and Mrs. B. J. Chancellor and son, Gary of Elgin A. F. B. in Fort Walton Beach, Florida, have recently been in Mullin visiting with his parents, Mr. and Mrs. G. W. Chancellor. This is the first time Mr. and Mrs. Chancellor had seen their little grandson. Their daughter, Mrs. E. F. Postlewaite, and Mr. Postlewaite, Terri and Mark, of Santa Fe, N. M., also visited with Mr. and Mrs. Chancellor while Bill and family were here.

Mr. and Mrs. Eugene Tyson and family of Brownwood visited here last weekend with her parents, Mr. and Mrs. W. T. Lee.

The supper served at the G. I. Building last Saturday night drew a big crowd. The Quilting Club sponsored the supper. They sold every thing they had and then some, I understand. Money is being raised to do some improvement on the G. I. Building, which is badly needed. The building to be used for the Community Center is looking very nice. I think Mullin will be real proud of it once it is completed.

The students will receive their new Yearbooks today at school. This is always a big day in the life of the students.

Mrs. Albert Spinks and Mrs. Alvin Spinks attended funeral services in Comanche last Monday afternoon for Mr. Bernice Swindle, an uncle of Mrs. Albert Spinks.

Funeral services were conducted at two o'clock from the First Baptist Church in Comanche for Mr. Swindle. Burial was in the cemetery at Indian Gap.

Mr. Swindle had been a teacher in the Comanche School for several years. He was a brother of Mrs. Jim Hays.

Mr. and Mrs. Talmadge King had the following visitors in their home last Sunday: Mr. and Mrs. Tom Sides and family, Mr. Judge Nance and Miss Lue Nance, all of De Leon, Mr. and

Mrs. Loy Miller and family of Zephyr, their son Dennis who is a student at Tarleton State College in Stephenville and Miss Sue Oliver of Priddy.

Mr. and Mrs. Ernest Johnston of Lometa and Mr. and Mrs. Roy Johnston of Belton were last Sunday visitors with their sister, Mrs. Bob Collier, and Mr. Collier.

Mr. and Mrs. Edwin Baskin of Overton visited here last weekend with Mr. and Mrs. G. W. Chancellor, Rev. and Mrs. Geo. Henry and Miss Lillian Baskin and Mrs. W. H. Baskin.

Last weekend visitors with Mr. and Mrs. Tom Cooksey Sr. were Mrs. Max Cooksey and family of Irving, and Mr. and Mrs. Jack Cooksey and Bill Mac of Savoy.

Mrs. G. Earl Hutchings has returned to her home in Truth

Or Consequences, N. M., after spending two months in Mullin helping care for her mother, Mrs. J. S. Kemp.

Miss Corrine Henry of Kermit and Miss Lucille Henry of Killen were weekend visitors here with Mr. and Mrs. Clint Henry.

Mr. and Mrs. Francis Leineweber of Hyattsville, Maryland, are visiting this week in Mullin with his mother, Mrs. Lena Leineweber.

There will be a Sports Banquet held next Saturday in the high school gym in Mullin. This will be new for Mullin, I'm sure they will have a nice crowd and plenty of good food, also the Junior and Senior Classes at Mullin have plans in the making to serve a Sunday dinner in the high school gym in the near future.

The Rev. G. C. Henry was

called to Crews (Runnels) last Tuesday for the funeral, A. B. Stovall.

Benny Harris received a broken arm last week while trying to crank a tractor.

We are still trying to get rain in Mullin but it just doesn't seem to get started. This cloudy weather we keep having sure is nice on rheumatism.

## SOIL CONSERVATION DISTRICT NEWS

By ELGIN SMITH

The Brown-Mills Soil Conservation District Board of Supervisors held their March meeting Tuesday at Blanket with representative landowners of the Blanket Creek Watershed attending. Those present were Macon Richmond, James Allridge, W. J. Bettis, Earl Stewart, Finley Williford, Herman Jones, C. A. Keeler, Frank Switzer, and Thomas Levisay.

E. J. Hughes, Area Conservationist with the Soil Conservation Service, outlined to the group the steps necessary in carrying the Flood Prevention Program to completion. He explained that it was the responsibility of the local people to provide the easements for some 20 to 24 potential sites in Brown, Mills and Comanche County portions of the Blanket Creek Watershed. When easements are secured, the Soil Conservation Service will carry out the construction work with the local Soil Conservation Districts and County Courts assuming responsibility for operation and maintenance of the structures and other works of improvement.

The group present for the meeting was optimistic regarding the future development of the program. Scott Lanford, Chairman of the Board, pointed out that as soon as additional information is secured, another meeting will be held for all landowners who may have land affected by one of the potential F. P. structures. At this time, plans will be made for securing of easements which will be the next logical step by the local people in moving the program ahead, Lanford said.

In addition to the Flood Prevention discussion, the Board approved holding District Sponsored field day programs on "Crop Residues Use" in July, a Bermudagrass field tour in August, and a Range Management Field Day in October. The District will also recognize Outstanding Conservation Farmers and Ranchers in each of the five zones of the District during November. Finally, the Outstanding Conservation Farmer or Rancher of the year will be selected to represent the Brown-Mills Soil Conservation District in the Annual State Conservation Awards Program which is sponsored by the Fort Worth Press.

Lanford also pointed out that the Board will hold other meetings during the year as announced at other places throughout the District—namely Goldthwaite, Priddy and Bangs. Brownwood is the regular meeting point of the Board.

torrents flooding the valley. Fearing that the whole outfit, cattle and all, would be swept into the raging river, the cowboys, during flashes of lightning, herded the cattle to higher ground. "We waited three days before the water ran down. There was a small store near the camp operated by a Mr. Doem who sold groceries and whiskey," Mr. Mahan recalled.

On the fourth day of the wait at 2 p. m. with the crack of whips and cowboy yells, they drove cattle into the river. As a precaution to save the grub they tied the wagon bed to the running gear of the wagon to prevent it from floating down stream. It was a hard crossing for the cowboys and cattle; the smaller steers had to swim and all had to dodge the floating debris coming down the river. Part of the time the cowboys herded swimming cattle on swimming horses. They had crossed into "No Man's Land," the Indian Territory in the area of the Arapahoes and the Cheyennes.

Tired out from the hard work of crossing the river they made camp. Two of the cowboys returned to the river to cool off with a swim. Just as they came up from a dive they saw a gang of Indians standing on the bank looking down on them. The Indians began shooting but the boys managed to get behind trees. When the Indians passed on they grabbed their clothes and ran nude into camp yelling, "Injuns." There was no sleep in the camp that night as the crew thought the Indians might return to stampede the cattle. They drove three days and night stopping occasionally to eat and rest the herd. They were in search of a watering place. Cold Water, Oklahoma, was the location of a running branch from a big spring. They stopped the herd about a mile from the spring and no army general could have more skillfully maneuvered their soldiers for battle than these cowboys placed their steers in six divisions and drove 500 head at a time to drink and drift out of the way.

By this time there were seven herds following to Kit Carson,

**J. D. Jordan Is Guest Speaker At Farm Bureau Supper, March 12**

A large crowd of Membership chairmen, workers, directors, officers and their wives enjoyed a covered dish supper at the Goldthwaite High School lunchroom last Monday night, prior to the annual Farm Bureau Membership Drive which began Tuesday morning.

Invocation was given by J. D. Jordan, Area Field Representative from Mason.

W. G. Bishop, president, welcomed the group and called on J. D. Berry, County Chairman, to introduce his Precinct chairmen and their workers. All precincts were represented. Mr.

Colorado, where the cattle were to be sold.

"When we arrived at the Arkansas River the United States Marshals held up the herd for eight days for clearance to cross the river and deliver the herd. The seven herds following us could not cross until our herd was out of the way," continued Mr. Mahan in relating his experiences.

Mr. Mahan said, "After three days I boarded the train on a bald prairie for Baird, Texas, carrying my saddle which was my pillow at night and one blanket on which I slept for 4 months and 4 days, the drive ending on August 19, 1884." Mr. Mahan was the only cowboy that started with the drive and went all the way. By train he had to return to Texas by the way of Topeka, Kansas to Fort Worth.

After many more adventurous cattle drives, Mr. Mahan settled down to the life of a farmer and on March 25, 1887, he married Miss Mary E. Lang of Hamilton County. The home of Mr. and Mrs. Mahan was blessed with eight children; two died in infancy and Mrs. Mahan passed away at the age of 67 in 1937. Mrs. Mattie Florence Scott, a daughter, passed away in 1925.

Relatives still living are: Bud Mahan of McKinney, Texas, a half-brother; three sons, Thomas V. Mahan, retired from U. S. Army after 30 years service, Pasadena, California; Wiley L. Mahan, ex-Sheriff, Tax Assessor and Collector of Mills County, and rancher, Goldthwaite; Rex C. Mahan, rancher and farm implement dealer, Brownwood, Texas; two daughters, Mrs. Ada Cox, Haskell, Texas, and Mrs. Agnes L. Smith, Brownwood, Texas.

Mr. Mahan has 14 grandchildren living, 39 great-grandchildren, and one great-great-grandson.

Bishop announced that the goal this year is 260 members and the quota is 249. Membership as of March 1, was 244.

Mr. Bishop then introduced Mr. Jordan, who talked on Farm Bureau Legislation. He read an article from the National Policy booklet on Democracy and a Republic and explained the difference. He also explained about several things the Mills County Chapter had done since organizing and commended the chapter on sending a student to the Seminar this summer. Mr. Jordan spoke briefly on Free Enterprise and said that Free Enterprise is based on Christian principles.

Several points on Turkey Marketing and the Dairy program were brought out by Mr. Jordan. He also explained about several bills before the house and told which ones Farm Bureau is for and which against.

After Mr. Jordan's talk, Mr. Bishop called on Homer McCasland for explanation of Students Safety Driving Clinic to be held at Mullin and Priddy Schools on March 20.

A motion was made and passed to change the date for the Students contest from April 9 to April 12.

After the business meeting, workers by precinct gathered to plan their work for the next day. Results of the Drive will be announced at the April 12 meeting at the Goldthwaite High School auditorium.

**Forty Attend Safe Driving Clinic**

Forty people attended the Driver Safety Clinic, where Miss Eudora Hawkins of Abilene, emphasized the challenge in safe driving by the following remarks, "this challenge is especially true when you realize that some 40,000 people die each year in traffic accidents from causes that might have been prevented if one or more persons involved had had proper driver training."

"Statistics back me up on this," she added. "Studies that have been made by law enforcement officials show that the vast percentage of accidents are caused by drivers who have not been exposed to proper driver training. WE KNOW THAT 95% OF ALL AUTO ACCIDENTS COULD HAVE BEEN AVOIDED."

Miss Hawkins believes very strongly that every youngster should receive training in driving an automobile in a high school driver education program.

She pointed out that only about 25 per cent of the high school students are able to take the course because of the limitation of funds that exist for this program in most school systems.

Sgt. Joe Perry, Department of Public Safety, Waco, Texas, assisted by Bill Harrison, brought a 5 point program on "How To See." First, how to see in driving, including what to look for; second, selective seeing habits, including how to blend your vehicle in traffic; third, common distractions in seeing; fourth, faulty seeing habits can be overcome, and fifth, concluded with the rules of seeing. (a.) Get the picture but always see the ground around objects, (b.) keep your eyes moving to avoid yielding to distractions (c.) make other drivers and pedestrians see you and know your intentions. "See what all you miss." The clinic was held in Youth Center last week Monday and Tuesday nights and Monday and Tuesday nights of this week.
