MISS MOHAIR ELECT—Miss Nancy Friend of Ozona, Texas, a freshman at Texas Tech, has been named Miss Mohair of 1962-63 by the Texas Angora Goat Raisers' Association. Miss Friend has been chosen to represent the Mohair industry as its official ambassador and will begin her reign immediately after her coronation August 2, in Fredericksburg, Texas.

Selected from a court of 20 entrants, Miss Friend was sponsored by the Ozona Lions Club in the Miss Mohair contest held last August in Fredericksburg. She is a native Texan and the daughter of Mr. and Mrs. Bill Friend of Ozona.

The new Miss Mohair is an 18 year old green eyed burnette, 5'5" tall with a winning smile that matches her outstanding personality. She is a graduate of the Ozona High School. Among her achievements, she was Cheerleader, Most Beautiful, and represented her District at the State "Make it yourself with Wool" contest.

At Texas Tech she is major-

ing in elementary education, a pledge to the Zeta Tau Alpha sorority, and had the honor in January of this year, of becoming Pledge Sweetheart of Sigma Alpha Epsilon.

She is an accomplished rider and her favorite hobbies are barrel racing and pole bending. In these events, she has won many trophies in the Junior Rodeo events of West Texas.

Her program will be under the direction of a committee, selected by the Woman's Auxiliary of the Texas Sheep and Goat Raisers' Association. This committee will function under the supervision of Mrs. James Baggett of Ozona, Texas, President of this Auxiliary, with Armer Earwood of Sonora, Texas, Chairman of the Miss Mohair Committee of the Texas Angora Goat Raisers' Association, assisting her in an advisory capacity.

The Miss Mohair program and contest is entering its eighteenth year and was originated by the Texas Angora Goat Raisers' Association, appropriately so, as Texas produces over 40% of the World's Mohair. RULES FOR KITE FLYERS—Budding astronauts and jet pilots, who begin their careers in the sky flying kites these windy spring days, have a few "don'ts" to remember. This point is being stressed by electric companies around the country. They're now publicizing such safety rules as these:

1. Don't use tinsel string, wire, or any twine with metal in it.
2. Don't fly a kite with metal in the frame or tail.
3. Don't fly kites in rainy weather.
4. Don't run across streets or highways while flying kites.
5. Don't fly kites over television or radio aerials.
6. Don't touch fallen electric wires.
7. Don't fly a kite near electric power lines.
8. If a kite does become entangled in electric power lines, LEAVE IT THERE. DO NOT TOUCH the string, or in any other manner attempt to get it down.
9. Use only DRY cotton string and DRY cloth in kite tails. Remember, Benjamin Franklin didn't face modern hazards when he flew his kite!

☆☆☆

PROCEDURE—Everyday routine rigmarole.

☆☆☆

LETTER OF TRANSMITTAL—A way of passing the buck.

☆☆☆

NEW VERSION OF THE TWENTY-THIRD PSALM

The Government is my shepherd, therefore I need not work. It alloweth me to lie down on a good job, it leadeth me beside still factories; it destroyeth my initiative. It leadeth me in the path of a parasite for politics' sake. Yea, though I walk through the valley of laziness and deficit spending, I will fear no evil, for the Government is with me. It prepareth an economic Utopia for me, by appropriating the earning of my grandchildren. It filleteth my head with false security; My inefficiency runneth over. Surely the Government should care for me for all the days of my life. And I shall dwell in a Fool's paradise forever.

☆☆☆

REFERRED TO A HIGHER AUTHORITY—Pigeon-holed in a more sumptuous office.

☆☆☆

END RESULT OF DICTATORSHIP—When government owns almost everything, bosses everything, and makes all the decisions, what do the masses of plain people get?

Answer: The short end of an ever-shortening stick.

Take, for example, the new Cuban rationing system recently announced by Fidel Castro. Most Cubans will be allowed—according to a Reuters dispatch from Havana—three-quarters of a pound of meat per month per person, half a pound of fish for 15 days, six eggs a month, two ounces of butter a month and, to make up for this incredible diet, larger quantities of the bulk foods, such as beans, rice and potatoes.

According to Castro, this is, primarily, the result of a "brutal economic blockade"—imposed, of course, by the United States. A more accurate description is that it results from the imposition of bureaucratic fiat, with the inevitable waste and incompetence, on a nation, an economy, and a helpless, terror-ridden people. Dictatorship always produces one thing—scarcity for the masses.

☆☆☆

TO MASTERMIND—To avoid blame for not doing while getting credit for the doing of others.

Annual Masonic Banquet March 29**

Members of the Goldthwaite OES Chapter held their annual Masonic banquet on Thursday night, March 29 at the American Legion Hall.

Carl Letbetter acted as master of ceremonies in the absence of Hugh Williams, Worthy Patron of the Chapter. The welcome address was given by Mrs. Sadie Burns, Worthy Matron, and the response was given by Horace Brooks, Worshipful Master of the Masonic Lodge. The group was entertained by a trio of girls, Janell Jernigan, Pam Berry and Marjorie Spradley, accompanied at the piano by Lynetta Duren.

Following the dinner, the

group heard from different members and Mrs. Edna Earl Winters, District Deputy Grand Matron of Evant.

The decorations carried out the Worthy Matron's colors of pink and silver with the head table being centered with a lovely arrangement of pink carnations and heather in a crystal container. The side tables were centered with trailing English ivy and pink rosebuds. Place cards and menus carried the Masonic emblem.

Benediction was given by Cecil Williams after which the crowd began taking leave, thanking the Eastern Star members for a wonderful time.

**Art And Civic Club Hears Program
On "Education" At Meeting Tuesday**

The Art and Civic Club met in the home of Mrs. Thurman Johnson, April 10. Mrs. Johnson introduced the speakers, Mrs. Robert Long, Clarence J. Duey, principal of Goldthwaite High School, and Mrs. W. G. Saylor, for the program, "Education."

Mrs. Brooks named her committees for the installation which she plans to have on June 8. At the conclusion of the meeting refreshments were served in the dining room.

also told of some changes which will be made in the local high school next year as a small step in educating for the Space Age. She also pointed out that another math course (trigonometry) would be taught, that general science would be replaced by physical science and two years of science would be required for graduation.

Mr. Duey spoke on "The Twelve-Month School: Advantages and Disadvantages." A few advantages listed by Mr. Duey were, students could take more enrichment courses; the gifted child could take harder courses; it would tend to keep delinquent children out of trouble; the buildings would be in use the year around and teacher would earn more money. A few disadvantages, the cost would increase more than it is; taxes would be raised; no opportunity for teachers to further their education; and too much of a strain on some teachers.

Mrs. Saylor's topic was "Comparison of European and American Schools." She pointed out that America is behind in education and must face it. Also that a child in Russia has a working vocabulary of 7,000 words by the time he is in the 6th grade. In our country a high school graduate has a working vocabulary of from 3,000 to 5,000 words.

A short business meeting was conducted after the program.

Our little town looks much better than it did a year or so ago. There are so many new roofs, paint jobs and other improvements. To me a town is just like a home. If one lets their house go without any repairs whatsoever it will soon fall down. If a town just quits it soon becomes a ghost town. Why not keep it looking as well as we can?

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

I haven't written for a long time. I've been too rushed with baby-sitting and other things to find a chance to write. But time passes swiftly. It will soon be time for us to go home again. Though spring is supposed to have been here for some time, we're still having cold winds that make working in the yard not too pleasant.

My crocuses, pansies, and violets have bloomed beautifully and generously. I've had a long row of large-sized golden daffodils. I now have a round bed of blooming tulips, and the irises are budding. My roses are growing. Even the Ebony Rose. I got out the camera we got on our Golden Wedding Anniversary last May. I have it equipped with colored films and other aids for taking pictures of flowers and people. Now I'm all set to take the kind of pictures I want.

John had a letter from Clayton Egger today. You know I saw the Ebony Rose advertised in a magazine by Peterson and Dering, Rosegrowers of Scappoose, Oregon. I wrote to tell them about Ebony and why I had to have that rose. In their reply was this little note: "Mrs. Clementine Wilmeth Briley:—

"Mr. Dering enjoyed your letter so much that he has asked us to send you an extra Ebony Rose that you might wish to

WHY ARE VICON HEARING INSTRUMENTS MADE TO PRESCRIPTION?

Eyeglass lenses are ground to prescription to fill the needs of a particular person. A prescription for one person will not be the same as that required for another. This is true, too, of hearing. All hearing needs differ. That is why Vicon hearing instruments are custom-built to prescription.

WHAT DOES THE METRICON DO FOR YOU? ... The Vicon-Metricon is a calibrated decibel meter that enables your dispenser to specify what properties must be built into a hearing instrument so that it fills your special need.

With the Vicon-Metricon, you can hear in advance how you will hear with your new instrument—before it is made for you. You know what to expect—before you buy!

HOW IS VICON'S MADE-TO-PRESCRIPTION PROGRAM CARRIED OUT?

A complete audiometric evaluation must be performed by your Vicon dispenser. Use of the latest audiometric and otometric equipment, including the Vicon-Metricon, enables him to thoroughly evaluate your hearing. He thus gets a prescription for your hearing. Your Vicon instrument is built to match that prescription.

WHAT IS THE VICON GUARANTEE?

We guarantee that the properties of each Vicon hearing instrument are known and controlled accurately, to meet the requirements of a scientifically defined prescription. We further guarantee each instrument to be free from defects of material and workmanship for a period of one year.

HOW CAN YOU FIND OUT MORE?

Mr. Edmond H. Nance, Certified Master Acoustician, will give you a complete hearing evaluation and a sincere effort to help you with your problem. There is no cost or obligation so plan to attend his regular hearing clinic at:

the Mauney Courts in Goldthwaite, Tuesday, April 24, from 10:00 a.m. to 1:00 p.m.

If you cannot attend the clinic, call Mr. Nance and he will arrange to come to your home for free consultation. Batteries and supplies for all makes.

We had a letter from Carol Jean from Brazil a few days ago. She said, "I guess I'm getting old, but every once in a while something will remind me of Ebony and the good times we had there. Maybe it is the cool morning air. Or the birds singing. It was always the high spot in every year to me to go to Ebony. I hope Mother and Daddy will retire there so their grandchildren can enjoy the country too."

I remember how Ruth (Carol Jean's mother) used to dote on going to Mills County. She and I always went home every summer and stayed quite a while. There was always all of Aunt Callie's children for her to play with. John would usually go with us on the Interurban to Fort Worth. Then we would take the train to Brownwood and John would go back to Dallas. For a streetcar motorman had to keep on the job pretty steady. We got there and were fixing to get on the train. Ruth ran on ahead of us. When she got to the steps the conductor said, "Where are you going?" "To Mills County," she said.

Referendum Set For June 18-22 On Proposed Turket Market Order

Secretary of Agriculture Orville L. Freeman on April 5 called for a referendum of turkey growers June 18 through June 22 on the proposed national marketing order for turkeys.

The order can be made effective by the Secretary if it is approved by two-thirds of the growers voting in the referendum, by number or by volume

of production.

F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, said two significant changes were noted in the proposed order as released on April 5. First, the base period—for determination of allocation bases to be used in one method of supply - management - in 1965 and thereafter will be computed by using the average marketings of the preceding 3 years rather than the average of the highest marketings of the previous 3 out of 4 years, and secondly, that producer-growers, who produced turkeys under contract with contract-producers who assume or share the risk of loss, will have as their allocation base one-half of the turkeys so marketed, and the contract - producers, regardless of number, will share the remaining half.

Eligible voters, the specialist said, will be producers, including contract-producers, whose annual volume of production is large enough to be affected by the order, and who engaged in the production of turkeys during 1961. Qualified cooperative associations are eligible to vote for their members.

Turkey growers who produced and marketed less than 3,600 pounds of turkey (live-weight) in 1961, or producer-handlers who produced and handled not more than 100,000 pounds of turkeys (live-weight) in their own handling facilities and who bought or sold not more than 5,000 pounds from or to other persons are not eligible to vote.

Voting will be for or against the proposed order and will begin on June 18 under the direction of State and County Agricultural Stabilization and Conservation (ASC) committees. Ballots may be cast in person or by mail during the June 18-22 voting period.
