Carl Letbetter And DeWayne Henry Partners In L & H Welding Shop

Carl Letbetter and DeWayne Henry this week announced the formation of a partnership business to be operated under the firm name of L & H Welding Shop.

According to the announcement appearing on another page of this paper, Letbetter has sold one-half interest in the Letbetter Machine Shop, welding and steel fabrication business to Mr. Henry.

The business will continue to operate in the same location just north of the Post Office on Parker Street, where Letbetter constructed a new modern building especially suited for this type of business last year.

This partnership will pool a number of years experience in the welding and steel fabrication work.

DEWAYNE HENRY

Mr. Henry has been with Letbetter since January. He is a native of the Scallorn community, the son of Mr. and Mrs. Wayne Henry.

Since 1955 he has been doing welding on pipe line construction work that has carried him over a wide section of the United States. During the winter season he has been working in machine shops in San Angelo and Waco.

Mrs. Henry is the former Wanda Kirby of Lometa. Mr. and Mrs. Henry have three daughters, Marcia Elaine, 3, Karla Renee, 2, and DeAnna Wynette, eight months of age.

Letbetter has been in the welding and steel fabrication business in Goldthwaite for more than fifteen years, operating in different locations. He purchased business in present location from the late W. H. Linken-hogier 10 years ago.

Mass Immunization For Polio Is Planned For Mills County

Ranchers Meet Monday Night To Oppose Maneuver

A special meeting of farmers and ranchers, to oppose as a group the granting of maneuver rights to the U. S. Army in this area, has been called here for next Monday night, August 20.

The meeting will be held in the district court room of Mills County Courthouse starting at 8 o'clock, according to announcement by Malcolm Jernigan.

Jernigan stated: "I am opposed to military maneuvers in our area," and said that all farmers and ranchers of Mills County are invited to the meeting Monday night.

Goldthwaite Will Be On Atlantic Microwave System

Goldthwaite is scheduled to be on the Atlantic Pipe Line Company Texas Microwave System, according to article published in the Pipe Line News for July 1962.

Copy of the story was mailed to W. C. Barnett, Goldthwaite City Manager, one day last week by Bobo Hester from Fort Worth.

Along with the story there appeared picture map showing the 1,000 mile Texas system as planned by the company. For this area it includes Microwave station on pump site at Evant and Zephyr and Microwave Repeater Station at Goldthwaite and Brownwood.

HOYETT BROWNING

NEW PRINCIPAL — Hoyett Browning is the new principal of Goldthwaite high school. He was elected at the last meeting of the school board. He has been a teacher and assistant coach in the San Saba schools since 1948.

Browning received his B. S. degree at Howard Payne in 1947. He and his wife, the former Maxine Faulkinberry of Brownwood, taught one year at Bangs prior to their moving to San Saba in 1948. In 1953, he received a Master of Education degree at Southwest State College at San Marcos, with a major in administrative education and a minor in history.

He and his wife have four children. The family will move here about the middle of this month.

Downtown Bible Class Will Move To New Location

The Men's Downtown Bible Class will move to new location starting this coming Sunday, it was announced this week.

Meeting place has been changed from the Meiba Theatre to the Community Room of Mills County State Bank.

The class has been meeting in the Theatre for the past 12 years.

Meeting time for the class remains the same, 9:30 a. m., Sunday.

August Quota For Draft Call

Four men will fill the August quota draft call for Selective Service from Local Board 84 which takes in Mills, Burnet, San Saba and Lampasas Counties.

Lester Paris Geeslin, Goldthwaite, reported August 14 for induction.

Wayne Harlan Frank, Lampasas; Joe Edgar Dawson, Burnet; and Pablo Ybarra, Briggs, are scheduled to report for pre-induction on August 29.

MRS. A. D. WELCH ATTENDS WORKSHOP

Mrs. A. D. Welch, supervisor of the Goldthwaite school lunchrooms, attended the annual School Lunchroom Workshop at Texas Woman's University in Denton last week. The workshop was conducted from Monday through Friday and had 185 in attendance.

The workshop covered problems of school lunchroom workers and directors, plus menu planning, nutrition and food selection.

Mr. and Mrs. John L. Patterson of Waco are spending their vacation at their home here.

Hot Dry Weather Continues; Water Situation No Better

Hot and dry weather continues and the water situation for the City of Goldthwaite remains the same—still short.

The city has experienced one of the hottest summer seasons on record with 26 days from July 1 through August 14 having temperature readings over the 100 degree mark. These high readings which were chalked up officially over the 100 degree mark ran as high as 109 degrees.

July had 14 days with over the 100 degree readings while during the first 14 days of August 12 days were over the 100 mark.

On the last four days of July official temperature reading was 104. The high was reached

on August 11 and 12 when the temperature went up to 109 on both days.

ONLY .14 INCH OF RAINFALL

During the same period, July 1 through August 14, only .14 inch of rainfall was recorded here. This was recorded on the first day of July. So Goldthwaite has had 47 days without a trace of rainfall which is leaving its mark due to shortage of water.

There are some complaints about water in stock tanks running low over the county although most of the ranchmen still have water in their tanks.

CITY WATER STILL SHORT

In the city the situation is still critical with residents in some sections virtually out of water around the clock.

Some households are able to get a small amount of water pressure from midnight until five or six o'clock in the morning. There are times when even this much is not available for those living on higher elevations and they are without water day and night.

In the meantime city officials and water department workers are keeping on the job around the clock keeping close watch over the wells and pumping facilities, hoping that there will be no breakdown in equipment and hoping that there will be no fire.

The water department keeps a reserve of 50,000 gallons in small storage tank for fire protection. Otherwise, the large storage tank is empty and wells are being pumped right into the distribution system. This

supply falls far short of the demand and leaves some areas without water.

PEOPLE STILL SIGNING PETITION

Residents of the city who are interested and anxious for the City and Water District officials to again start working on a possible solution for providing an adequate water supply for the city are still signing the petitions that are to be presented to officials.

Petitions were started about three weeks ago on a voluntary basis. They are not being carried around by any committee, but are available in convenient locations where they may be signed.

Copy of the Petition may be signed at Little's, Yarborough & Duren, McLean Coffee Shop, Campbell Gas Company and Mills County State Bank.

The City Council and Water District Board presented a plan two years ago to go to the Colorado River for water. Voters turned it down by a big margin.

If residents of the city want City and Water District officials to move ahead and try to come up with another plan they may express their sentiment through these petitions.

Many people are beginning to realize that an adequate water supply will cost money, and if they are to get water it must be paid for.

Childress Clinic & Hospital, in order to provide for the majority, or if possible, all the citizens of Mills County, is planning to give the three (3) oral polio vaccine, starting Saturday, August 25, it was announced this week.

As has been practiced in larger counties, a contribution of 25 cents, or more, will be appreciated.

This vaccine as most people probably know is taken by mouth and is a vaccine against polio.

Polio, though it occurs more often in children, can also occur in older people.

It is believed, with the present generation receiving vaccine against polio, if the older citizens do not take it, in the future the number of cases in the older age group will increase. It is therefore advisable that everybody, regardless of age, should take the oral vaccine.

There will be three doses at six (6) week intervals.

Booster has to be taken on some future date after the first three doses.

In order to know how much vaccine is necessary, everyone is requested to register in one of the following places: Hudson Drug Store, Woody Rexall Drug, Childress Clinic & Hospital, or Mills County State Bank.

It is important that people who want it should register so that hospital officials can order the right amount of vaccine.

Last day that you may register will be next Tuesday, August 21, 1962.

Football Season Tickets On Sale

Football season tickets for the five home games for the Goldthwaite Eagles are now on sale. Tickets may be obtained at the Production Credit Association office.

Season tickets for five games are being sold this year at a one game discount price which was approved by the school board when plans were made for the season. Fans can purchase season ticket for five games for the price of four.

The Eagles will start their workouts next Monday, August 20, according to Jackie Williams, head coach.

Coach Williams stated that about 46 fighting Eagles are expected to report for workouts.

There will be two sessions daily. Morning session will start at 7:30 and in the evening there will be a "Skull" session at 5:30 and field workout starting at 7:00 p. m.

First game of the season will be on Friday, September 7, when the Eagles will be host to the San Saba Armadillos on Eagle Field.

All-Stars Take Second Place In Llano Tournament

The Goldthwaite Little League All-Stars took second place in the Llano tournament played there last week.

On Tuesday night Goldthwaite defeated Mason 13 to 8; Friday night Goldthwaite beat Marble Falls 27 to 8 and then in the finals on Saturday night Goldthwaite lost to Llano 3 to 5.

MAC ROWLETT GETS PITCHER'S AWARD

Mac Rowlett, son of Mr. and Mrs. Homer Rowlett, pitcher for the Goldthwaite All-Stars, was named the best pitcher of the tournament. He received the Best Pitcher's Award Trophy.

HONORABLE MENTION — After all honorable mention is something to strive for, isn't it?

Of course there might be exceptions, depending on conditions, etc.

Take the case of a greased pig race, for instance.

Two boys were overheard the other day when they were in a rather serious conversation—which happened to be about a greased pig race that was to take place at the local rodeo.

Joe Dan Hardgrave, young son of Mr. and Mrs. Allen Hardgrave, was telling his friend about the race.

The friend wanted to know: "What do you get if you catch the greased pig?"

Joe Dan said, "You get the pig."

"What if you don't catch the pig," asked the friend.

"Then," said Joe Dan, "You get honorable mention."

TO VISIT TEXAS—Mrs. Floyd A. (Gale Tullos) Hart, writes from San Fernando, California, about plans for visiting Texas, as follows:

"My two single daughters, Andrea and Pamela, and I plan a trip 'down Texas way' leaving within the next few days.

"Besides all the Goldthwaite relatives of Tulloses and Shaws, and the Mullin relatives, Harts and Wootens, we will be visiting others in San Antonio, Dallas and Kilgore.

"Need I say we wouldn't think of missing 'Six Flags Over Texas,' — the history inspired new park. We hear it's fabulous.

"Though years have elapsed we still look forward to each issue of the home-town paper. Especially enjoyed is 'Vic's Soliloquy' and the 'Years Ago' section. Too, as a school teacher, I have thoroughly enjoyed the articles as written by the school pupils and printed in your paper.

National Essay contests on Americanism, etc., are participated in by students here, there and everywhere—just another means of binding us closer to each other.

"Please find my check enclosed for the renewal of the Eagle." Sincerely, Gale Tullos Hart.

"P. S.: With us will be my mother, Mrs. B. H. Tullos of California,—but who at present is visiting her sister, Mrs. Fred Crenshaw in San Antonio. Her brother is Niles Wooten of Mullin. My husband was the late Floy Hart, son of Emma Hart, Mullin."

INVEST IN AMERICA—A million new jobs a year call for at least \$17,000 new capital investments per job—seventeen billion dollars per year. And at least another twenty billion dollars a year is needed to maintain the plants and machinery providing the 67 million jobs we now enjoy. Where is the money coming from?

The answer: From the same source of capital that has provided it in the past—savings in the form of retained earnings of business enterprises and the savings of the American people—your savings.

You don't have to own stock in a corporation to be a capitalist—an investor. That's only one way. If you put your savings in a bank or savings and loan institution, or take out life insurance or buy real estate, your money—your savings—is put to work by business and industry to develop jobs, production of goods and services. That's what investment means—putting money to work.

Let's voluntarily and wisely invest in America: our funds and our faith in our future. We are all capitalists—investors of our savings.

☆☆☆

IT'S YOUR MONEY—Too often the citizen, preoccupied with making a living, does not take time to inform himself about his government. Yet history teaches that democracy survives only as long as the people take an active part in the making of governmental decisions.

One-third of the average citizen's income goes to pay various kinds of taxes. That makes government his biggest cost.

Businessmen who spend many sleepless nights trying to figure how to cut unit production costs by a fraction of a cent, or reduce overhead by a few dollars, are prone to ignore one of their greatest single cost factors—taxation.

Husbands and wives perspire and argue over family budgets but are unwilling to pay any attention to one item—government—which is now costing them more than food, clothing and medical care, according to the Citizens Public Expenditure Survey of New York.

Once started on the path of growth, many governmental agencies are like Topsy—they just grow whether there is any reason or not.

Citizen interest in government is sorely needed now. Without a sound economy, and that means government on a solid financial base, we will pay a dear price.

Koen Descendants Meet For Annual Reunion At American Legion Hall

By MRS. B. C. WICKER

The annual Koen family reunion was held at the American Legion Hall in Goldthwaite, Saturday and Sunday, August 4 and 5, with an attendance of 161 descendants of the late F. D. L. and Susan (Kirkland) Koen, originally from Northern Tennessee, near Nashville.

The late Benjamin Franklin and John Wesley Koen (brothers of F. D. L.), were not represented.

Six of the late F. D. L. and Susan Koen children were represented by grandchildren — Carl Koen of Gurdon, Arkansas; a great-grandson represented the late Milton Green Koen. Mrs. Almata Horner of Brownwood represented the late William Levi Koen, Thomas Huckabee and others of Star represented the late Oregon Koen Huckabee. Elizabeth Koen Rhodes of Hamilton represented the late Albert Perry Koen. Elmer E. Koen and family of Fort Worth represented the late Wayne Koen, and Mrs. Mary Koen Dodgen of Brownwood, and others were representatives of the late C. H. Koen.

Since the 1961 reunion six have been claimed by death: Coanthea Cullins, Mangum, Oklahoma; Georgia Whittenton, Hamilton; Walter Koen, Hale Center; Wayne and Dorothy Koen of San Angelo; and Mrs. Claude T. Koen of Memphis, Tennessee.

Our "first time" visitors of kin were, Mrs. Angie (Couch) Orwin of Los Angeles, Calif., and Mr. John Koen of Nashville, Tennessee.

Saturday night for our supper we had homemade ice cream and sandwiches. Sunday noon, our regular basket lunch. About 20 prepared and ate our Sunday morning breakfast at the Legion Hall. "Wonderful" visits all through the time — singing, taking pictures, swimming and memorial drives.

Sunday morning, just before lunch, our business meeting was called to order by our chairman, Floyd Koen of Lubbock. Invocation was by V. M. Bleeker of Brownwood. O. V. Koen, our assistant chairman, of Austin, introduced our guest and speaker, John Koen of Nashville, Tenn., principal of Hillsboro high school, (son of W. L. and the late Mrs. Koen of New Orleans, La., formerly of Koenton, Ala.). He spoke to us concerning his hobby, "Searching the Records, Far and Near," from across the waters — Germany, Holland, Ireland and etc., to the present time of the "Koen" name, which was very interesting very informative for the Koen families throughout the states.

We plan to meet again August 3 and 4, 1963 at the American Legion Hall for our 16th year of reunions. Those who attended this one are as follows:

Dates And Limits Announced By Game And Fish Commission

The Texas Game and Fish Commission at their quarterly meeting in Austin, July 20, established a number of seasons and bag limits for the regulatory counties of the state.

DEER AND ANTELOPE SEASONS EXTENDED

Probably the most important changes occurred in the Panhandle and Trans-Pecos districts where the prong-horned antelope season was increased two days over last year and the mule deer season was extended to Dec. 15. Biologists suggested the deer increase because of a surplus which needed to be removed. The Trans-Pecos deer season will run from Dec. 1 through Dec. 15. Antelope may be taken from Sept. 29 through Oct. 7.

The antelope hunt in the Panhandle will run the same from Sept. 29 through Oct. 7. Both doe and buck pronghorns may be taken in the Panhandle this year, but only one antelope per season. A special antelope permit is required. Landowners in areas designated by the Commission for antelope hunting will issue these permits.

All counties under regulatory authority in the Panhandle where approved by the Commission, will have antlerless deer hunting by special permit. Two bucks will be the limit in counties of the Southeast District, except that antlerless deer may be taken by permit, and a person may not kill or possess more than three deer in the aggregate.

Sept. 29 through Oct. 7 has

been set for the Antelope hunt in the Possum Kingdom District. The deer season in the district for Borden, Nolan and Taylor counties will be Nov. 16 through Dec. 5. Bosque, Brown, Ellis and Mitchell season will be Nov. 16 through Dec. 31. All others will be from Nov. 16 through Dec. 15.

The deer bag limit in Possum Kingdom District has been increased to two bucks in all counties except Borden, Nolan and Taylor.

For the next season, antlerless deer in the Southeast District will be those with no hardened antler protruding through the skin. The bag limit in this district will be two bucks, except that antlerless deer may be taken by special permit, but a person may not kill or possess more than three deer in the aggregate.

The bag limit on deer was increased to three in Bell, Colorado, Coryell and Williamson counties in the Trinity-Brazos District. The third or bonus deer must be a doe and can be taken by permit only. Falls, Milam, and McLennan counties will have a limit of one buck only.

Hunters will not have to worry about the metal antlerless deer tag this year. The Commission agreed with biologists that the metal tags were no longer necessary since an adequate harvest control can be accomplished through the use of hunting license tags and antlerless deer permits. Bonus deer tags must be used on antlerless deer only. Hunting antlerless

This column is going to be about Old Micropterus Salmoides.

He's better known as the black bass, and is called the largemouth by many.

But "black bass" more nearly expresses the intimacy of affection with which he is held by almost all Texas anglers.

In other states he is known by such names as the bronze-back, the green trout, just plain ole trout, linesides, or bigmouth.

He's a scrapper—peculiar, temperamental, greedy—but a real prize on any fisherman's line. There's no mistaking what's got your bait when Old Micropterus latches on and heads for the nearest cover.

and/or doe deer shall be by special permit only and only in those areas designated by the Commission. Landowners will know where these areas are.

Any person having an antlerless deer in his possession must have a special GFC authorized permit on which appears the hunter's name and the landowner's or his authorized agent's signature. Landowners are instructed to keep the stubs from used permits which will be returned to the issuing officer not later than Feb. 1, 1963.

For complete information about the regulations in your area, check with a warden or contact the district office nearest you. A complete law digest and supplement will be available at the place where you purchase your license as soon as all dates and limits are available. Pick one up.

PHEASANT SEASON CHANGES

The wild pheasant season for the Panhandle District has been changed from two weekends to seven consecutive days. This year the season will run from Dec. 1 through Dec. 7 with two cock pheasants the daily limit and four cocks the possession limit.

TURKEY DATES AND LIMITS ALTERED

Frio will be the only county in the South Central District to have a three-gobbler limit per season. Other counties in the district will have a two-gobbler limit because the populations in these counties do not justify a greater bag limit.

In the Possum Kingdom District, most counties will have a turkey season to conform with their deer seasons. Nolan and Taylor counties will be open to turkey hunting Nov. 16 through Dec. 5. Borden County will not have an open season. All other counties in the district will have a season from Nov. 16 through Dec. 15. The bag limit for the season will remain one gobbler.

SOME CHANGES IN FISH REGULATIONS

The limit on channel, blue and flathead catfish in the Edwards Plateau District will be 25 per day, with no possession limit. Lake Travis, in Burnet County, will have a 25 per day limit on crappie. All lakes in the district, including Travis, will have no possession limit on crappie. The limits on black bass will be 15 per day and no possession limit except on Lake Travis where the daily bag limit is set for 15 a day, none of which can be under seven inches, and not more than 10 over 11 inches long.

Texas lakes, rivers, creeks and tanks harbor uncounted millions of black bass. Far too many of them are much too smart to be caught. Everybody wants to catch them but not everyone is successful. And no fisherman catches blacks every trip out.

Large or small, black bass put up a battle that tires a strong man's arms and breaks good tackle.

Black bass are found nearly everywhere. In Canada, the Mississippi Valley the plains of North Carolina, the swamps and glades of Florida, south of the Border down Mexico way, and in most all the lakes and rivers of the Lone Star State.

He gains enormous size in Florida. Even though the world's record black—22½ pounds—was caught in Georgia, Florida is known as the Black Bass State.

You'd never guess it, but the black bass is related to the sunfish family. However, he doesn't look very much like his pee-wee relatives.

The black bass is a pot-bellied rascal with a large mouth. His jaw extends back beyond his eyes. He has vertical bars and dark spots on his sides, and soft spinous dorsal fins that are almost separated.

When taken from clear-water-lakes and streams, black bass are dark green on back and sides, shading to silver and a yellow-white belly. In clear water the broad black band on each side is very distinct. If the water is muddy, however, all colors are paler and the stripes rather indistinct.

Black bass usually spawn in Texas during the second year of life. Slow developing fish may hold off until the third year. They spawn in two to six feet of water.

Like many fish, the male takes charge of the family raising. For a nest he fans out an indentation in the sand or mud two or three feet wide and about six inches deep. Once the nest is completed the male defends it ferociously.

Only when the water reaches 65 or 70 degrees temperature does spawning begin. Two to seven thousand eggs are laid to each pound of female, with the large females producing the larger number in proportion to body weight.

Spawning is irregular, but when the nest is filled with eggs the male takes over during the eight to ten days of hatching time. He doesn't eat, but lies still, or gently swims back and forth across the nest, watching for any predators.

During the nesting period the black bass is especially susceptible to lures dragged across the nesting area. He will attack with unusual force and ferocity.

Ordinarily a nest produces about 5,000 young. Papa takes charge of the small fry until they are about an inch long, then turns them loose on their own. After that they are not only the lawful prey of other fish, turtles, garfish, and other predators, but also supply their own brothers and sisters with easy meals.

Black bass eat all sorts of things as a natural diet. These include insects, crawfish, small fish, frogs, mice, and sometimes

little ducks and goslings. The small fry, however, eat insects almost exclusively.

Most fish grow rapidly, and black bass are no exception. On the average they grow to about five inches during the first year.

In an environment where there is lots to eat, a young bass may—in one year—reach up to eight inches, sometimes even more. After three years, most bass, unless in an overcrowded lake, will tip the scales at more than two pounds.

Black bass are perhaps the anglers most prized catch. Certainly so if you exclude such localized species of game fish as rainbow trout, pike, salmon, and a few others.

Because the black bass is so widely distributed and is so well known by so many fishermen, live-bait and artificial-lure devotees alike, he is the first one thought of when game fish are mentioned.

Artificial lure anglers take black bass on just about every sort of tackle. Bait casting rods from five and one-half to six

feet were once very popular. Now, however, the spinning rod has found wide acceptance. Then, of course, there is the fly rod.

Bait-casting rods should be equipped with fast-tip action, a lightweight reel and 10 to 20 lb. test nylon line.

Spinning rods of six and one-half to seven-foot lengths, with fast-tip action, and 6 to 10-lb. monofilament line are popular among bass fishers.

As for fly fishers—tubular glass fly rods from seven and one-half to nine feet in length with either fast-tip or power-plus action are recommended.

Proper bait covers a wide range for this voracious fish. All the live baits previously mentioned, plus the following artificial lures and flies are sure-getters: wet and dry flies, bass bugs, sinking lures, floating, diving and surface lures. Also pork rind. And let's not forget—the plastic worm—the most successful bait for many big-bass fishermen.

Fish the deep holes under rock ledges, backward sluggish tributaries, where dead trees, glass pads and brush abound. Daylight to 8 or 9 a. m. and 4 p. m. to dark, ordinarily the best hours to fish.

WWI VETERAN TO MEET FRIDAY NIGHT

World War I veteran meet at 7 p. m. Friday at the Legion Hall, for the evening will be a special dish supper and pictures will be shown.

Learn to be a good black fisherman and you will be considered tops among your contemporaries. More practical attached to having black know-how than to any form of Texas fresh-watering.

It takes a lot of casting time, many days of fishing, a concentrated study of bass habits to make you a pert black bass fisherman go out and start fishing black bass now.

The Class also wishes to thank other property owners, who offered a place of meeting, without charge.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

of Carrizo Springs, Hal Woodward of Coleman and Charles F. Hawn of Athens were among those making complimentary speeches.

Hawn stated that he had known Greer ever since the highway engineer began his career in Athens.

His and Greer's association was unique, said Hawn, since he was the groom and Greer the bride when the two took part in a "womanless wedding" in Athens about 40 years ago.

Veterans' Insurance Planned

Land Commissioner Jerry Sadler announced that the Veterans' Land Board had concluded preliminary arrangements to provide group creditors life insurance for some 30,000 veterans who have purchased land under the state's \$200,000,000 program.

Great American Reserve Life Insurance Company of Dallas will be the insurer if the Texas Insurance Commission approves the plan.

Sadler said the plan is to guarantee full ownership of land to a veteran's widow or heirs at modest annual premiums.

Land board will send details to veterans included in the program when it is fully authorized.

Big Schools "Cool"

Mass air conditioning programs at the University of Texas and Texas A&M College will account for seven per cent of the \$28,767,006 of state funds earmarked for construction in the year starting September 1.

Money to air condition old classroom and lab buildings on the Austin and College Station campuses comes out of revenue from University Permanent Fund investments, as does all the \$15,588,683 to be used for new buildings, renovation and additions at the two schools next year.

Air conditioning projects at the University include the chemical engineering building; Garrison Hall; Sutton Hall; and T. U. Taylor Hall engineering building.

A&M plans to air condition its agricultural building; animal industries building; biological sciences building; chemical building; engineering building; Francis Hall; and physics buildings.

Daniel Names Appointees

Gov. Price Daniel named new board members for three of the state's 19 colleges and universities.

Ennis Favors of Stephenville, a former state representative, was named to the Board of Regents of Texas Woman's University; and Jack Hughes of Abilene to the Board of Regents of Midwestern University. Charles D. Mathews of Dallas will succeed Jim Lindsey of Midland as a director of Texas Technological College.

Governor Daniel also appointed Rep. J. W. Moore of Ballinger and Claude K. Robinson of Vernon to the interim house committee to study salt water pollution to the soil and surface water of Texas.

Population Zooming

State Health Commissioner J. E. Peavy estimates that Texas' population passed the 10,000,000 mark Friday.

He based his prediction by computing births, deaths and migration since April, 1960.

At that time Texas had a population of 9,579,677. Then Texas registered 570,250 births and 176,500 deaths or a natural increase of 393,750.

Assuming that the 1950-1960 rate of migration has continued, 26,500 more people have moved into the state than out, during the calculating period. That would give the state a total population of 9,999,927 on July 26.

Dr. Peavy figured Friday was "10 Million Day," since more than 400 people are added daily by the excess of births over deaths.

Legislators' Librarian Leaving

Miss Doris Connerly, the 1919 University of Texas law graduate who has directed a reference library for State representatives in the Capitol for 34 years, won't be in the statehouse when the 58th Legislature meets next January.

She will retire on September 30.

Miss Connerly became director of the Legislative Reference library in 1928 when Dan Moody was governor.

She and the late Gov. Beauford Jester were former classmates and friends. However, she won't pick a favorite among the Texas governors she has worked with. But she does say that she considers herself fortunate to have served during the terms of Coke Stevenson.

Allan Shivers and Price Daniel. "These men played an important role in Texas' growth in economics and culture," she says.

Texas' legislative library was established by the Legislature in 1909 to furnish legislators with factual and historical material. But thousands of state workers and citizens interested in state business have used its services, including the file on "State Statutes and Session Laws." These date back more than 150 years and relate to all 50 states in the union.

Wilson Cites Odd Cures

Attorney General Will Wilson noted the recent U. S. District Court's refusal to allow naturopaths to prevent the State of Texas from prosecuting them for practicing medicine without meeting qualifications of the Medical Practices Act.

Wilson called the decision "a valuable tool with which the people of Texas can fight uneducated charlatans and quacks who prey on unfortunate people when they have troubles."

He cited state's evidence including:

One naturopath who treated patients by sending catnip, parsley and strawberry leaf tea through the mail without having seen the patients.

Another who claimed to be qualified to give psychiatric treatment by an extension course from the University of California. U. of C. denied any knowledge of such a course.

Another claimed to use an electronic machine to detect cancer, cataracts, arthritis and hardening of the arteries from urine specimens sent to him through the mail. Members of the department of electrical engineering at Texas A&M College found the machines incapable of detecting vibrations or diagnosing any form of illness.

James L. McNeese Jr., attorney for the naturopaths, said he would appeal the ruling against his clients to the U. S. Supreme Court.

The naturopaths have filed a \$1,000,000 slander suit against the attorney general, but no hearings have been held.

Courts Take A Holiday

Justices of the Texas Supreme Court and the Court of Criminal Appeals have shed their long black robes for the remainder of the summer. The massive doors to their elegant chambers in the Texas Supreme Court Building won't be opened again until they reconvene on October 1.

Both courts are "supreme courts" because of a unique judicial set-up that Texas shares with the State of Oklahoma and England. Civil cases appealed from lower courts come to the Supreme Court. Final hall of appeals for criminal cases is the Court of Criminal Appeals.

The Other Person's Boy

Having served on the draft board for the last few years, without pay, I feel that I should write a few lines expressing my views on the maneuvering question. We ask the boys if they were willing to go into the service, neither could we (the draft board) promise that they would be reimbursed for any damage.

Realizing what a tremendous sacrifice they and their families are making without a word of complaint, I feel that anything I can do, or any sacrifice I could make is too much.

I don't know how necessary it is to have the maneuver, but one thing I do know is if our attitude shows the boys that we care and will not "let them down," it will help to brighten many long hours and days when they are longing for the time, they can be back home. Helping the chances of coming home because of the experience gained through this maneuver.

If you haven't signed a contract I think you will, for the boys' sake.

Card Of Thanks

CARD OF THANKS
 Words are inadequate to express our sincere thanks and appreciation to our friends for their expressions of sympathy, kindness and friendship shown us in the bereavement that has been ours in the passing of our loved one. For every word, for each kind deed, for the beautiful floral offerings and for each kindness we are deeply grateful.
 The Family of
L. W. "Jack" Dennard. 8-16-1tc

IN APPRECIATION
 May we take this means to thank each of you for the sympathy and kindness you have shown us in our life's greatest sorrow, the loss of our beloved son.
 Though Goldthwaite and San Saba are small towns, in number, we know now that they have the best and most understanding people on earth. No other cities in the world, regardless of size, could have done more.
 In these days of searing pain, emotion evades expression and we cannot put into mere words the depth of our appreciation to you. We can only ask God in his mercy to bless each of you and to say, "Thank you, Friends."
Mr. and Mrs. R. L. Pruitt. 8-16-1tc

CARD OF THANKS
 We are deeply grateful for every prayer and every act of kindness that has been extended to us since the tragic accident in which we were involved.

HOUSE JOINT RESOLUTION NO. 43 proposing an Amendment to the Constitution of the State of Texas to be known as Section 49-c, providing for the acquisition and development of storage facilities in reservoirs, shall be known as Section 49-c, and shall be known as Section 49-c, and shall be known as Section 49-c.

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 44 proposing an Amendment to the Constitution of the State of Texas to be known as Section 49-d, providing for the acquisition and development of storage facilities in reservoirs, shall be known as Section 49-d, and shall be known as Section 49-d.

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 45 proposing an Amendment to the Constitution of the State of Texas to be known as Section 49-e, providing for the acquisition and development of storage facilities in reservoirs, shall be known as Section 49-e, and shall be known as Section 49-e.

water and are willing to pay for it. Then the revenue can be used to pay off the long-term bonds the Board issues.

Two samples of the need are in the news these days.

Lavon Reservoir near Dallas was built mainly for flood control by the U. S. Army Corps of Engineers. Now more space is needed for water supply purposes.

Today, however, the North Texas Municipal Water District, which supplies water to 10 cities in the area, will have to pay about 60 to 70 per cent more than it would have cost them in the first place.

Cooper Reservoir on the Sulphur River is being delayed, right now, because cities in the area just can't raise the money to build it to full size.

The Legislative Beach Study Committee, headed by Sen. Robert W. Baker of Houston, endorsed the creation of a national seashore area on Padre Island during a meeting in Galveston. He urged immediate legislation to implement the recent law passed by the U. S. Senate.

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 46 proposing an Amendment to the Constitution of the State of Texas to be known as Section 49-f, providing for the acquisition and development of storage facilities in reservoirs, shall be known as Section 49-f, and shall be known as Section 49-f.

PUBLIC NOTICE CONSTITUTIONAL AMENDMENT NUMBER FIVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 47 proposing an Amendment to the Constitution of the State of Texas to be known as Section 49-g, providing for the acquisition and development of storage facilities in reservoirs, shall be known as Section 49-g, and shall be known as Section 49-g.

Sen. Culp Krueger, El Campo; Sen. A. R. Schwartz, Galveston; Rep. Neal Caldwell, Alvin; Rep. Don Garrison, Houston; John Mehos of Galveston; Jack E. Walker of Baytown; George T. Camp of Beaumont, and C. T. Parker, Jr., and W. B. Edwards of Houston.

They expected to meet again in the fall to prepare a report for the Legislature.

Safety Plan Lauded

Governor Daniel credited organizations such as the Junior Chambers of Commerce and the Texas Federation of Women's Clubs with awakening public interest in the use of safety belts in automobiles.

He said that Texas Department of Public Safety statisticians have informed him that their accident reports show that, "500 lives could have been saved in Texas traffic in 1961 alone if drivers and front-seat passengers, in particular, had been wearing seat belts."

This would have reduced that year's traffic toll by nearly one-fourth.

Jaycees and members of TF-WC have been conducting safety belt campaigns.

Water Worries

Joe Carter of Sherman, H. A. Beckwith of Eagle Pass and Otha Dent of Littlefield, have been worried about the future of water for small communities.

"The big metropolitan areas can see after themselves," said Judge Dent, "while many smaller cities find themselves with a decreasing source of ground water. We've come to the point where we wonder if we should shift from focus on larger communities to smaller communities."

Commissioners talked about a guidance plan with the State Water Development Board and the State Soil Conservation Board. They agreed that many crossroads communities don't know what their water situation is, and some that know they're running low don't know where to turn for a new supply.

Reluctance to spend \$2,000 to \$5,000 for a hydrology (water resources) study prevents many smaller communities from taking steps to insure water supplies for their people.

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in... then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

CHEVROLET CHEVROLET TRUCKS Quality trucks always cost less!

Committees Named And Plans Made For Farm Bureau's Queen Contest

Committees have been named and plans completed for the annual Queen's Contest, Mrs. V. Z. Cornelius, chairman of the Women's Committee, has announced. The meeting will be held on Thursday night, August 23, at the Goldthwaite High School auditorium, beginning at 8:00 o'clock.

Raymond Winkle of Llano, will be the Master of Ceremonies and Mrs. Velma Slaughter, HD Agent of Brown County, along with two others from out of county, will be the judges.

Mrs. Cornelius has announced that several girls have already entered for the contest and it is hoped that more will enter before the deadline which will be Monday noon August 20. The

deadline has to be set in order for the committees to complete the arrangements and program. All contestants are asked to attend a practice meeting at the school at 4:00 o'clock Thursday afternoon, August 23, prior to the contest that night.

All Farm Bureau members, their families and friends are asked to attend the contest and program and enjoy the refreshments to be served after the meeting, according to announcement by W. G. Bishop, president.

Mr. and Mrs. Ernest Ince and Mrs. Ozella Jones and children spent Sunday in New Braunfels with Mr. and Mrs. Royce Brown and children.
