FOOTBALL TIME-This week marks the opening of the high waite without having to get out school football training season and that is the time when we turn to thinking about Fall, school, athletics and other related rarge standing-size mail box

Little as you think about it, summer is almost over and everyone will be getting into the swing of school activities, or getting the family ready for school.

While there are still a few who are vacationing, or still planning a vacation, most vacations are over now, except the recovery period. Because just as sure as a family takes a vacation, there is a recovery period. There is always a period of recovery, or recuperating, and that takes in a lot of territory, depending how much one travels, how much sunburn one brings back, or how much money one spent. (Especially if one didn't have it.)

Back to football. We are looking forward to a good year in high school football. Last year was a little on the weak side when you consider it from the victory standpoint. But then, you can't have a winning year every year.

As we go into the annual football season, let's get ready to give our support to the Eagles in their battle to do honor to their

INCENTIVE PROGRAM-A scheme to titillate a submerged urge.

* 4 "HOW TO LOSE JOBS"-The Altoona, Pennsylvania, Mirror, recently devoted an editorial to the highly important topic of

"How to Lose Jobs." A proposed law in Maine would raise the employer taxes which are used to meet unemployment benefits from one-half

per cent of payroll to an eventual 2.7 per cent, An iron works in that state says that this would increase its cost of doing business by \$230,000 a year. Recently the works, as low bidder, received a \$72 million contract.

However, its bid was less than \$90,000 below that of an out-of-state competitor. Had the newly proposed unemployment taxes, with their influence on overhead costs been in effect, it would have lost the contract. And numbers of its 3,000 employees would have joined the ranks of the unemployed.

This is just one of the many examples that could be listed of taxes and tax rates that are self-defeating and destructive by Glenmore Drive, San Angelo, at their very nature. This country wants and needs more job opportunities. The over-all tax picture has a great deal to do with whether or not those opportunities will be created.

THE MOMS AND POPS-It's always good to read in the Goldthwaite last Sunday night paper, or hear, of a little league team winning the champion- after a 17-day trip that took ship. We are always glad to hear about it and to congratulate the boys and girls who are a part of these stories.

But, for every such event there are a good many moms and pops who are playing a vital part behind the scenes. Let's not forget these Moms and Pops, they deserve a hand too.

By ELGIN SMITH

A new publication designed to help city and urban dwellers understand soil erosion problems on their lots, gardens, and small farms, has just been released by the U.S. Soil Conservation Service. It is called "Soil Conservation At Home," and interprets the Service's experience in working with farmers and nonfarm people. A copy may be obtained from the local SCS office in the Goldthwaite Courthouse

The publication consists of 30 pages of suggestions on what the homeowner can do to reduce the amount of water runoff from his lot and cut down on soil erosion.

FREEDOM ISN'T FREE!

Individual freedom is the backbone of democracy.

Thomas Jefferson said: "The Price Of Freedom Is Eternal Vigilance."

Our Army is the fist of our freedom.

Are we muzzling our freedom? Are we thinking as individuals or as a few would have us think,

Has my Army hurt me as an individual? Am I doing right by not making a personal decision?

Maneuver or no Maneuver, let's do what deep down in us we know we should do.

Let's make a personal decision, then our conscience will be clear.
