Screwworm Vigilantes Song Is Introduced To Boost Fund Drive

A Screwworm Vigilantes song has been introduced to boost the screwworm eradication fund drive, according to L. B. Burnham, Mills County chairman for the program.

Everyone has heard the song, "The Blue Tail Fly." Well, now comes the new song, "The Screwworm Fly," which is to be sung to the tune of "The Blue Tail Fly." The new song was composed by Tom Lasater, formerly of Falfurrias, Texas, and now of Matheson, Colorado. Here it is:

THE SCREWORM FLY
When I was young I used to rope
—and carry a lot of screwworm dope,
And dream about the sweet bye and bye,
—when there would be no screwworm fly.

REFRAIN
Bring your money and put it there!
Bring your money and put it there!
Bring your money and put it there!
Breed screwworm fly away!

And when the flies no longer glow,
—livestock will grow and grow and grow,
And we will reap a harvest fair,
—for all the money we put there.

REFRAIN
Bring your money

Mr. Burnham announced Monday that contributions in Mills County are still coming in for the program.

Farmers, ranchers and sportsmen of Mills County contributed \$12,412.60 through Monday, November 26, Burnham announced. This is about one half of the estimated amount that would be received if all Mills County producers would contribute on the suggested amount on the per animal head count in the county.

During the past week 73,560-550 sterile flies were released in Texas, New Mexico and Mexico under the eradication program. A total of 1,371,856,010 flies have been released since the beginning of the program.

SOLILOQUY

THIS MAKES SENSE—An article with that title appeared in the October issue of Texas Tax Journal. It was reprinted from the Voice of New Mexico Taxpayer. It came from an article by columnist Howard Preston in the "Cleveland Plain Dealer."

County Judge Cecil Egger called it to our attention and we feel it is worthy of consideration, so we present it here for our readers.

"Of all the lost causes I have pushed I think none is recalled more often than the unsuccessful attempt to do away with the expressions "at government expense" or "paid for by federal funds" and similar phrases.

Scarcely a day passes but what the newspapers report on some project which the "government will pay for." Quite often a politician will explain gleefully to his constituents how he has saved them money. The new bridge or highway or municipal building or what have you will not, says the politician, cost his beloved taxpayers anything but a simple fee.

"The big expense," he tells the audience, "will be taken care of by federal funds."

Now, except for their own contribution through personal tax, politicians don't spend their own money. When the President or the Congress approves a gift or a loan of millions or billions of dollars, inside the country or outside, the money being spent doesn't belong to them.

It isn't President Kennedy's money that's being spent, any more than it was President Eisenhower's money or President Truman's money or George Marshall's money under the Marshall Plan.

The money is the taxpayers' money. It is your money and mine and for a long time I have scroched with a slow burn when the loot is referred to as government money.

The implication is when there is a joint financing of some project, any part contributed by the federal government is "found" money. As long as "federal funds" are used, nobody has to pay.

It seems to me it is about time somebody put to use the known facts of financial life, the most prominent being that there are no such things as federal funds in the sense the government doesn't earn a dime unless you include some of the unintentional profits it makes from its intrusion into business.

Because of this, I have suggested more than once that the phrase "federal funds" be changed to "taxpayers' money." Instead of accepting a statement that the United States government is spending \$500,000,000 for developing of a river, I think the American Society of Newspapers Editors ought to agree to print such an item as follows: "The taxpayers of the United States today spent, etc."

Instead of telling how the federal government is paying for some new buildings in Catchall, Kansas, through generous loans at low rates, the item ought to read, "The taxpaying citizens of 50 states today chipped in \$43,000,000 so that the people of Catchall could have a new downtown development."

In the first place, I think the people who come up with the scratch, not the gents who spend it, should get proper credit. In the second place, drumming home the point, day after day, that there are no "federal" funds but only taxpaying citizens' contributions might cause more people to zipper up the national purse strings. At least it might get recognition abroad for the hard-working folks who make it possible for our agents to play Santa Claus.

Federal Funds? Nuts. That's our dough.

Holiday Workers Reminded To Get SS Account Number

Students, housewives, and others who plan to earn extra cash by working during the Christmas shopping period are reminded to avoid possible delay by getting a social security account number now. Having the social security card available will make employment easier to obtain.

Durelle L. Allen, district manager of the Temple Social Security Office, 909 First National Bank Building, advises students and others who have never had a social security account number to obtain an application for one from their local post office to be mailed to the Temple district office for processing, or the application can be obtained by writing the district office.

The housewife who has a social security card should check to be sure it is in her married name. If the card is in her maiden name, an application should be made to change it.

The key to the benefits which are paid to workers who retire or become disabled, and to dependents and survivors, is the number on the worker's social security card. If a person has lost his or her social security card, an application for a duplicate should be made; the duplicate will bear the same number originally assigned to the worker.

State Capitol News— By VERN SANFORD

Eight Days Again
Texas Railroad Commission has set an eight-day oil allowable for the 11th month in a row.

January was the last month that oil producers were allowed to operate prorated wells on a nine-day allowable.

Texas Independent Producers and Royalty Owners proposed fractional-day orders.

A spokesman for the Texas Landowners and Independent Producers Association said his group will ask the Legislature to change the market demand law so the Railroad Commission can set allowables on a basis of Texas' share of national oil reserves.

But Chairman William J. Murray Jr. stated that the commission believes it now has the authority needed "to set allowables as high as the market will take." He added the commission would go to fractional days, or to a percentage, if such a step is needed.

Murray also said that a plan for tougher new test requirements in the East Texas field is needed.

Murray also said that a plan for tougher new test requirements in the East Texas field is being devised by the commission.

THEIRS IS A
BIG JOB . . .

Results with the cowherd ARE NOT as easy to measure as in the feedlot but just as important. Purina public feeding demonstrations conclusively have proved top results in the feedlot.

The same principle applies on range—in fact, nutrition for the mother cow is more critical than that for a steer. And the most critical time for the cow is from now until calving time.

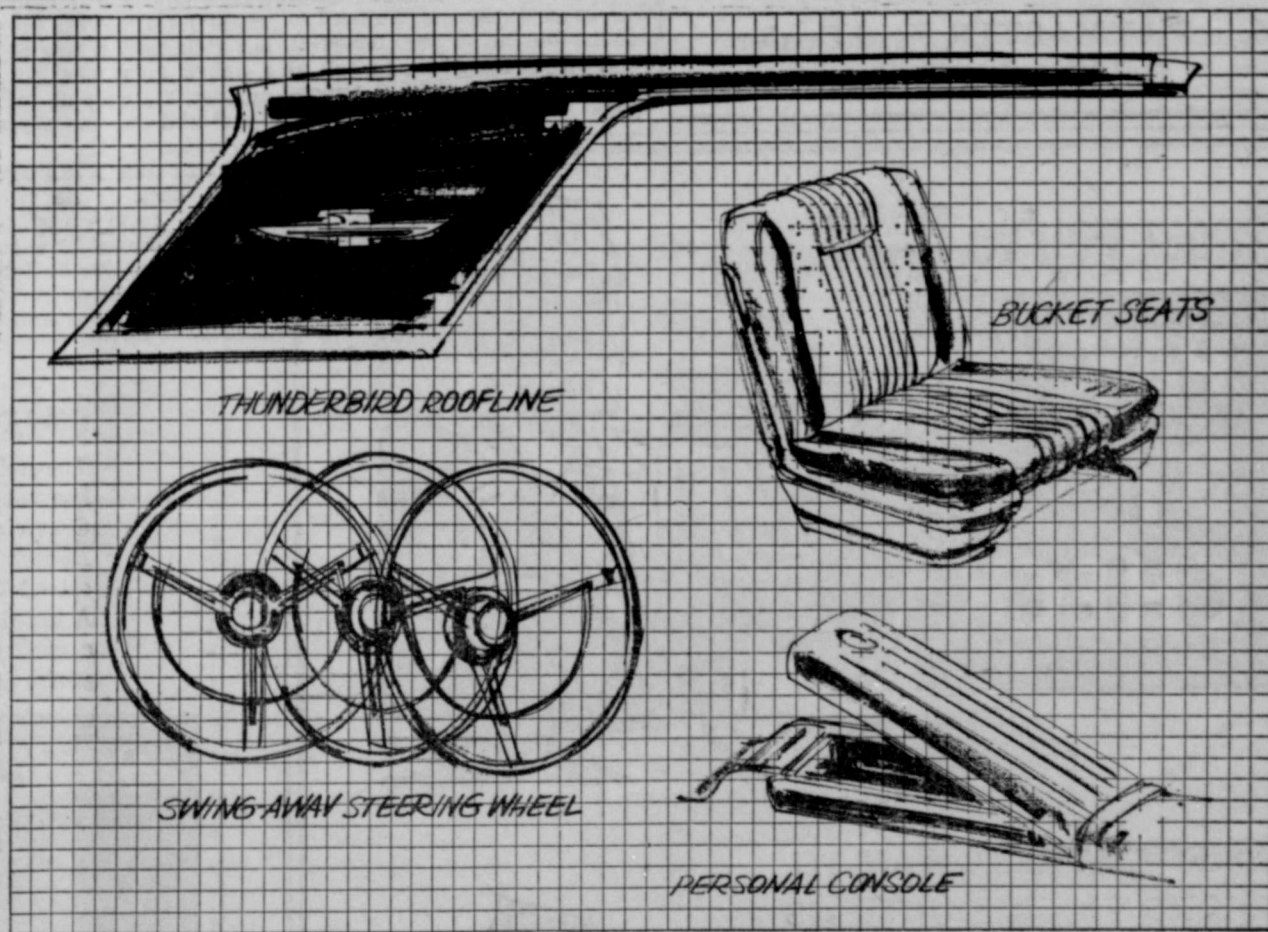

She must not only maintain her own body but build the unborn calf, too. Rely on Purina Range Checkers to furnish heat and energy, vitamins and minerals cows need to build a husky calf and maintain their own bodies.

Ford ideas so contagious they started a new trend in cars!

If you think today's cars have a lot in common, credit the Ford sketches above. For these ideas sparked a revolution in car design that's reflected wherever you look on the American road.

Ford ideas have a habit of being exciting—practical, too. Consider the innovations found only in our '63s. There is Ford Galaxie's smooth new velvet ride. It cost Ford \$10 million to bring it to you, but costs you not a penny extra to enjoy. There is

Ford's full twice-a-year or 6,000-mile maintenance* schedule that cuts service worry and expense to a minimum. There's a new manual transmission that lets you shift down from second to first without coming to a stop. And for '63, there's the biggest choice of models ever offered—44 in all!

Only Ford offers all these advantages now. Other cars will eventually catch up—but if you can't wait, here's a tip. See your Ford Dealer today!

Here's America's most contagious roofline as seen on the 1963 Ford Galaxie 500/XL.

Scallorn News

By MRS. ORA BLACK

A light rain is falling here this (Monday) morning. Moisture is badly needed on grain crops and we hope to get a good rain in the next few days.

By the time this communication comes off the press, you and I will have observed another Thanksgiving for which we are truly thankful. Thanksgiving and Christmas are the two most joyous days on our calendars. So let us celebrate each in their own special way.

Mr. and Mrs. Dick Hughes of Hot Springs, Arkansas arrived here Thursday at the C. H. Black home for a two week's visit.

Rev. Ray Rodgers has been called as pastor of the Scallorn Church. Rev. Rodgers is a student at Howard Payne College. He and family were luncheon guests Sunday of Mrs. Silas Burk.

Billie and I visited Thursday in Lampasas with relatives, Mr. and Mrs. H. N. Evans.

Mrs. Dick Hughes and Mrs. C. H. Black visited Friday afternoon with Mrs. Tom Hale.

Visitors Sunday in the John Harris home were Mr. and Mrs. Boyd Leverett from San Saba, Mr. and Mrs. Dutch Smith, San Saba Peak, and Mrs. Bud Conradt from Long Cove.

Tara, little daughter of Mr. and Mrs. James Teague, was carried to a Temple hospital last week for medical treat-

We are really having winter this week. Along the road to town Friday the sumachs were ablaze. And the yellow leaves on the big China tree in Mrs. Dwyer's back yard and the elms along the road resembled the Aspens at Cloudercroft.

We had a community revival at the Ebony Schoolhouse from Monday, Nov. 12, through Wednesday, Nov. 14. Alvie Egger brought his pastor, Brother Jimmy Kinsey, from Nolan who did the preaching. The attendance was good and all seemed to enjoy the messages.

Mr. and Mrs. Bud Tippen of Galveston visited his sister, Mrs. Effie Egger, from Friday to Monday.

Orvel Egger and his son, Leighton, of Bentonville, Arkansas, visited the Cecil Eggers and went deer hunting over the weekend.

Friday morning as we were going to town just a little way

ment.

Tuesday a cousin of ours from Lampasas came by for Billie and I for a visit with Mr. and Mrs. Charles Wright in Mullin.

Mrs. Wayne Henry is helping care for her aunt, Mrs. Fannie Bebout, who is quite ill at the home of her daughter, Mrs. Ed Wetterman. The Wettermans moved recently from Scallorn to their new home west of Goldthwaite.

We called Monday afternoon with our new neighbors, Mr. and Mrs. Piker. The Pikers are here from Ruidosa, New Mexico.

Mrs. James Teague and girls visited Sunday afternoon in the C. H. Black home.

Hillside Mission

By LIDA BYRNE

"With God all things are possible," we are told by our Lord Jesus Christ in the 19th chapter of St. Matthew. We need to have unwavering faith in our Maker who can change things for us as He chooses. We need to do all we can to keep ourselves and others from hell. In hell to get things done right is impos-

beyond the bump gate out of Mrs. Dwyer's pasture, a doe bounded across the road in front of us. In spite of all those signs along the road saying, "Watch for deer" it was the first deer we had seen since the Government put them in the Maneuver Area.

Mrs. Ynelle Goodwin and her children, Duke and Diane, of San Angelo spent the weekend with her parents, Judge and Mrs. Cecil Egger.

John went to town early Monday morning to have some work done on his car. He usually gets back by dinner, but he didn't this time. By the middle of the afternoon he still hadn't come. I began to get uneasy. Finally it was almost sundown. I knew something had happened to him; or he would have been at home. I began to call the neighbors. No one seemed to take me very seriously. There was to be church that night and several were planning to attend. I hated to see dark come and nothing yet done to try to find what had happened to him.

Hubert Reeves had once told me that if at any time I needed him, day or night, just to call him and he would come. I felt that this was the time I needed him. I called him. He said, "Do you want me to go to Brownwood and look for him?" I said, "Yes, I think it is time someone was going. Don't you?" He went immediately. He asked me if I wanted to go with him. I would have gone, but I had to stay with my sister. Later Mrs. Charm Whittenburg and Clint came to stay with me.

Hubert called in others to help him. They checked the hospitals and the police station. They put it on the radio. Hubert called Mr. Stubblefield from Goldthwaite. He came with his equipment. When church was over I think all the men of the community and some of the women went on the hunt. I wasn't any help. I didn't know where John had his work done, but I thought it was at Ford's. I didn't know our car license number. We were at the Dwyer house and our car papers were over at home.

By this time I felt that John wasn't hurt. If he had been hurt we would have heard it. I felt that he was just lost. I'm always saying he has no sense of direction. He is just as apt to take the wrong end of the

road as the right end. I felt that they would surely find him. Finally about eleven o'clock Helen Egger called me. She said, "They have found him. They are bringing him home and everything is all right." I believe that was the sweetest message I ever got. When she said everything was all right then I was happy. When we got the message, Verla and Clint went home. After they left Mr. and Mrs. Alvin Hanna came and stayed with me until they brought John. Hubert and his son, John, brought him home. He was rather totterly and he looked

bad. He was very embarrassed, but he was truly grateful for all that had been done for him. He was just overcome with the kindness of everyone.

Hubert had contacted the man that fixed his car. He said he had his car ready for him at one o'clock. He said John got in the car and said he thought he would go straight home. That he felt bad. When he got to the subway, it was blocked and he had to hunt another road. That threw him off and he said he traveled all afternoon and never could find the right road. Once he thought he went nearly to Santa Anna.

We wish to thank everyone who helped. And we will be grateful for such hearted kindness.

THE GEHL MIX-ALL
● GRINDS
● MIXES
● DELIVERS

LET'S YOU BE YOUR OWN BOSS
The Gehl Mix-All with the swinging auger and optional crusher-feeder gives you the fastest, finest grinder-mixer in the field. You can lower your feed costs by doing your own feed formulating, grinding, and mixing and do it cheaper and in far less time than it takes to haul it back and forth.

Control the quality of your mixture with your own grain, antibiotics and other additives. You can own a PTO Feedmaker that mixes the exact amount of feed you need, when you need it... then hauls it where you want it and unloads it into bunks, bins or bags.

The four-speed auger lets you select the speed of feed to keep the mill full... provides positive delivery of feed to the crusher. The optional crusher-feeder with sure-grip action speeds grinding of ear corn, baled silage or small grains. And continuous circulation gives you a uniform formula and top quality mixture every time. It's the perfect way to lower feed costs and increase profits on every type of livestock feeding.
