STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Belli Blasted

Flamboyant Melvin Belli, defense attorney in the Jack Ruby murder trial, who bad-mouthed Dallas and the trial court there, received a return blast from Attorney General Carr. Said Carr of Belli's repeated anti-Dallas talk:

"An example of professional ethics which should shock all our members from coast to coast. . . . It is almost a certainty to state that, had Mr. Belli acted so irresponsibly in the courts of his state or in the federal courts, he would have promptly been held in contempt and heavily fined and/or placed in jail."

The president of the American Bar Association, in a speech at San Francisco, Belli's home town, said: "That he (Belli) should so flagrantly disregard the code of professional ethics, and his oath as an attorney, is a discredit to him and to his profession."

Belli, who has resigned from the American Bar Association, anyway, retorted: ". . . Being barred from the ABA would be like being banned from the Book of the Month Club."

Connally Threatened

The FBI filed charges in Nashville, Tenn., against two women alleged to have made telephone threats on the life of Gov. John Connally the day Jack Ruby was sentenced to death.

Connally told newsmen threats and "vile" letters had increased since the Ruby verdict. Most of the letters and calls come from out of state. Actually, he has been subject to numerous such threats since the assassination of President Kennedy in Dallas on November 22, when Connally was seriously wounded.

April Oil Allowable

Texas oil production will be held at 29 per cent of potential during the next month, highest figure for April in five years.

Texas Railroad Commission, which heard predictions of nine major oil purchasers that demand for oil will increase from two to three per cent this year, set April allowable at 2,931,746 barrels daily. March production was 2,983,222 barrels a day, also under a 29 per cent order.

Twenty-four executives, delivering their annual state-of-the-industry reports, said there were 177,800,000 barrels of crude oil on hand in Texas on March 1. This is some 1,480,000 barrels more than they figured desirable.

Railroad Commissioner Jim Langdon reported that substantial progress is being made toward re-organization of the Commission. He also stated the Commission will move to curb water pollution due to faulty well engineering.

Appointments Announced

Governor Connally named D. M. Skidmore of El Paso and E. Earl Merrell Jr. of Bryan to the State Board of Architectural Examiners.

Hugh M. Patterson of Houston was designated a member of Texas Civil Judicial Council, and Wallace Scott of Austin

was named to the State Board of Canvassers.

Crime At New High

Major crime in Texas reached a new high last year, with a felony committed every two and a half minutes, Department of Public Safety records show.

Crimes reported to DPS in 1963 totalled 229,254—a 5.8 per cent increase over 1962 and 88.6 per cent above 1953. Seven major felonies tabulated showed these rate increases: murder, up 8.5 per cent; rape, up 14.2 per cent; robbery, up 10.6 per cent; burglary, up 4.9 per cent; aggravated assault, up 4.4 per cent; theft, up 6.6 per cent; and auto theft, up 2.8 per cent.

Funds Dwindling

Screwworm eradication funds will be spent by July 1, reports the Southwest Animal Health Research Foundation. Maintenance of the barrier zone of sterile screwworm flies between Mexico and the U. S. will depend on congressional appropriation.

Two new screwworm cases have been confirmed — one in Medina County, another in McCulloch County near Brady.

New Shell Suit Filed

Coastal interests have filed a new suit seeking to thwart Parks and Wildlife Commission orders permitting close-in shell dredging in Galveston and Trinity Bays.

Suit urges that dredgers be moved back 1,500 feet from live oyster reefs. Commission voted to permit dredging as close as 300 feet under supervision.

Agency News

By MRS. J. A. JONES

Beginning a new month this week it is cloudy and warm. It will rain, sure would be the small grain.

The cemetery working turned out quite a few folks came to work.

It was a quiet affair at Regency. Most everybody came home to the holidays with their families.

Mr. and Mrs. Ross Rowlett and children of Cross Plains and Mrs. Frank Scott and children were guests of their parents, Mr. and Mrs. A. R. Edington.

Mr. and Mrs. Edington of Stephenville and Mrs. Edington of Lubbock visited their parents, Mr. and Mrs. Willard Edington, of the Shropshire of Colorado and Mrs. Edington was also a visitor of the

Edingtons.

TIPS for OUTDOORSMEN

Free Hands of Gas
It's a wise fisherman who carries a small jar of soap powder in his tackle box. The odor of gasoline on your hands will be transferred to the bait and will be offensive to any fish.

Spray Gun Starts Fire
Here's a good tip for the camper. Take along an old hand pump fly sprayer filled with kerosene. Propitious squirts help start stubborn fires.

Trapping the Ant
A glass jar, or several of them, buried to the neck around the camp traps ants and keeps the ant population under control.

Use Seine For Duck Blind
Don't throw away your old minnow seine. It will make a good portable duck blind this fall. A few streaks of dark paint help camouflage it.

Bind 'Hoppers To Hook
Live bait like grasshoppers and worms will stay alive longer on the hook if you fasten them with small rubber bands rather than hooking them the conventional way.

Double Your Warmth
If your sleeping bag isn't warm enough for extremely cold weather, just put on a suit of insulated underwear before climbing inside. The combination of the two will keep you warm as toast.

Keep Matches Dry
Druggist's snap-lid pill boxes make good containers for carrying a waterproof supply of matches in the field.

To Quick-Dry Boots
For a quick-dry job on a pair of hunting or fishing boots in camp, try heating rocks and dropping them in the boots. Repeat until the interiors are entirely dry.

Simple Coon Trap
Put a 55-gallon steel drum next to a tree and bait it with corn. A coon can jump into it from the tree but can't jump out. Makes a good trap!

Buy Red Bath Towels
Deer hunters, why not ask your wife to buy some red bath towels? They are perfect for use in the woods as scarfs, seats and for rub downs.

Furthermore, when tied around the horns of the buck you're lugging from the woods, they make good insurance against being shot.

And of course the towels can be used in the home when you are not in the field.

Plastic Tubes Hold Maps
Those plastic tubes that new golf clubs come packaged in make perfect containers for nautical charts or topographical maps.

A-1 Fish Stringer
Take an old (or new) brass chain, a box of high grade shower curtain rings and you've got the makings for a store-bought fish stringer. Fit the rings through the

Mr. and Mrs. Jimmy Smith of Hall Valley visited us Saturday.

Debra Adams of Mercury is with her grandparents, Mr. and Mrs. Butch Rowlett, and is a bed patient with the measles. Her mother is working at Brownwood.

Mrs. Taylor Duncan was hostess for a wedding shower Saturday afternoon for Mrs. Robert Allen Graves, the former Marianna Egger. She received many nice gifts. I want to wish the couple a happy life. Mrs. Graves is a student at Texas Tech.

Mr. and Mrs. Bill Newsom and daughter, Carol of Arkansas, visited us Thursday and Friday. They were on their way to San Angelo to visit his father, Webb Newsom.

Personals

Mr. and Mrs. Archie Collier had as their guests the past weekend their children and grandchildren, Mr. and Mrs. Millard Collier, Benita and Jimmy of Cleburne; Mr. and Mrs. Richard Collier and son, Timothy of Midland; and Mr. and Mrs. Jerry Collier and son, Jeffrey of Abilene. 65th District Approves State Representative Terry Townsend

★ ★ ★ ★

IT WAS TOWNSEND 3 TO 1 IN 1962!

This support ranged from 67% to 87% of total vote, and even in McCulloch County, where opposed by a highly respected member of a pioneer McCulloch County family, Terry received 48% of its vote; in his last race against three out-of-county opponents, Terry received 86% of the vote.

RECORD ENDORSED IN 1964

An outstanding record of service says the Brady City Council*; the best rural voting record in the Legislature says the Texas Farm Bureau; dependable legislative experience as shown by present chairmanship of House Highways and Roads Committee, so important to this District.

RE-ELECT REP. TERRY TOWNSEND

Terry appreciates your support and pledges continued unselfish attention to your legislative business.

*Watch for the McCulloch County Caravan for Townsend on Saturday, April 25.

Sheep And Goat Field Day Set At McGregor

Results of experiments in which lambs were weaned at nine weeks will be featured at the Sheep and Goat Field Day scheduled next Thursday, April 16, at the Livestock and Forage Research Center, McGregor, according to County Agent George Reese. He pointed out that most ranchers wean their lambs at six months. "Though weaning at nine weeks is a radical departure from standard methods, results at McGregor indicate that many ranchers will find

the practice profitable," the agent said.

Though the early weaning experiment will be a highlight of the field day, other experts will discuss wool marketing, the domestic and foreign mohair situation, and the problem of freeze loss in goats.

The afternoon session will include a tour of the station and presentation of research results.

Stockmen who will attend the event should plan to arrive at the station between 9 and 9:45 a. m. to be on time for registration. A "Dutch treat" barbecue will be served at noon and the tours will be over by 3:30 p. m.
