Livestock Meet Set For Monday In Brownwood

An area meeting to discuss livestock problems will be held Monday, July 13, at the Chisholms Restaurant in Brownwood, according to Allen Hardgrave of Goldthwaite, president of the Mills County Farm Bureau.

Farm Bureau officials urge all interested livestock producers in the county to attend the meeting which is one of eight being sponsored over the state by the Texas Farm Bureau. The meeting will begin at 10 a. m. and adjourn by 3 p. m. the county Farm Bureau leader added.

Main purpose of the meeting is to evaluate the current livestock situation and to give producers an opportunity to express their ideas on solving the various problems, Hardgrave said. Among subjects to be covered are: beef imports, declining prices, build-up in cattle numbers, present USDA actions to alleviate the problem, proposals for government programs for livestock, voluntary promotion programs, and related farm programs affecting the industry.

Discussing and evaluating these subjects will be Ed McKay, TFB assistant legislative director, and W. C. (Bill) Wedemeyer, TFB research and education director, both of Waco. District 7 Director B. J. Oist of Abilene, will preside.

Tactical Air Command Flies Low Over Central Texas Area

Dyess AFB, Texas — A giant C-130 Hercules assault airlift aircraft rises from the Dyess runway, and soon, it is over the Goldthwaite area. It, and many others like it, will make their presence felt during the next few months to many West Texas residents.

Word from Col. Bill Richardson, Deputy Commander for Operations at the Dyess-based 516th Troop Carrier Wing, confirms what many Mills County residents already know — that large four-engine cargo airplanes are flying low over the area almost daily. Colonel Richardson states that these flights, in the interest of national security, must go on, and that every effort is being made to minimize disturbances for the folks down below.

"We call our new technique 'Close Look,'" says Richardson. "We have been flying these missions for about a year, but recently we've had to step our program up by a large amount."

The Close Look maneuver causes C-130s to fly at 300 feet above the terrain along a regular pattern. Practice runs, to qualify Tactical Air Command crews from Dyess, are made along a route that overflies sparsely-settled areas near Stamford, Albany, Cisco, Stephenville, Hamilton, Lometa, Brady, Eden and Ballinger.

By flying so low, a TAC assault plane with its load of Army paratroopers, or heavy equipment could fly under enemy rada beams until just before the drop zone. Then, a swift climb brings the aircraft to the 1,000-foot drop altitude. The practice runs are to show Dyess pilots' low-level.

Full clearance has been obtained from the FAA for flights, which are made under VFR (Visual Flight Rules) conditions. The flights have been ordered to be made in their routes, altitudes and times. The C-130s gross weight is powered by four engines.

Our Sincere Thanks! "Neighbor"

For Allowing Us To Help Move

Your 1964 Wheat Crop

We want to express our sincere thanks and appreciation to the farmers in the Priddy Community for allowing us to move your 1964 wheat crop.

Your cooperation during the 1964 harvest season as we moved two million pounds of wheat was certainly appreciated.

MOVING 1964 WHEAT CROP—Bill Bufe is shown here standing beside two large trucks as they are being loaded from grain storage bins getting ready to leave on another trip in moving the record 1964 wheat crop handled by Service Mill in Priddy. Service Mill moved 2,000,000 pounds of wheat in a three week period. Bulk of the crop was moved in 10 days.

On top of the truck is Alvin, young son of Victor Limmer. Herbert Stegemoller, another member of the crew, was absent when this picture was made. Bufe and Limmer are operators of Service Mill.

We appreciate your business and will look forward to serving you during the forthcoming Maize crop harvest season and future grain crops.

It is a privilege to serve you and to handle your grain, and we just want to say,

**HEARING TEST
Set For Goldthwaite**

Free, Electronic hearing test will be held in Goldthwaite. Anyone that has a hearing problem of any kind is welcome to come in for the test. Pictures of the ear showing how the ear works, and why a person loses his hearing, also the nerve system of the ear that is connected to the brain, to tell us what we have heard. Each person is tested with the latest electronic machine that can pinpoint in what part of the ear they are having trouble and what can be done to help them. Each person can see how a simple operation on the ear has let thousands of people hear again. How the new electronic device is helping thousands of people with the dreaded NERVE DEAFNESS to hear again. How 2 year old children are being fitted with aids and can learn to hear and talk. How packed wax in the ear canal effects the hearing. How head congestion effects the hearing. Everyone should have a hearing test at least once a year if they have any hearing loss. Even people that wear Hearing Aids should have a test. People that have been told that nothing could be done for them should have a test each year, as new ways are being discovered to help these people. The test in Goldthwaite will be held at the Mauney Courts, Monday, July 13th from 4 PM to 6 PM. Mr. Treadway who is an Audiologist will conduct the test through the courtesy of the Temple Hearing Center at 120 N. 3rd Street in Temple. If you miss the test you may come to the Temple office on any Thursday or Friday between 9 AM and 5 PM and take your test.

E. H. Danner Of General Telephone Elected President Of Southwestern

E. H. Danner, president of General Telephone Co. of the Southwest, San Angelo, Texas, has been elected president of The Southwestern States Telephone Company.

Announcement of the election was made last Wednesday by Donald C. Powef, chairman and chief executive officer of General Telephone & Electronics Corp., in New York City.

Danner will also retain his top position with the San Angelo - headquartered operating subsidiary of General Telephone & Electronics.

The merger of Southwestern States into GT&E was consummated Tuesday (June 30). Also merged the same day into GT&E were Western Utilities Corp. and two other affiliates, California Water & Telephone Co. and West Coast Telephone Company.

Danner announced other officers of Southwestern States Telephone would be L. Gray

Beck, executive vice president; R. E. Paulsen, vice president; Don S. Holdridge, secretary; J. E. King, treasurer; E. C. Brink, vice president-controller; and Pat Weekley, assistant controller.

The announcement that the mergers had been consummated went on to state that each of the former Western Utilities affiliates will continue to bear the same names.

Southwestern States (with general offices in Brownwood) serves about 180,000 telephones in 170 exchanges in parts of Texas, Oklahoma, Arkansas and Louisiana. General of the Southwest serves 258 exchanges in five states.

Under the terms of an agreement between GT&E and the Department of Justice, the three new wholly owned GT&E subsidiaries must operate as separate corporate entities until final disposition of the Justice Department's suit.

Annette And Nocy Murray Take Honors At District Dress Revue

The District 8 Dress Revue for 4-H was held on June 18th at Stephenville with girls from twenty counties competing for State Awards.

Two girls representing Mills County were Annette and Nocy Murray, daughters of Mr. and Mrs. W. E. Murray of Mullin.

In the senior division Annette won a red ribbon and Nocy won a blue ribbon in the junior division.

The 4-H Awards Program for Dress Revue has as its main objectives to help young people build self-confidence and poise through understanding of "self"

in order that the individual may select and make clothing which is becoming and expressive of the personality; through developing skills necessary to plan, select and construct clothing for different occasions; through the ability to select suitable and becoming accessories; and through developing an appreciation of and skill in the use of the decision making process.

Also, to provide young people with an opportunity to make and model a garment that is needed in the wardrobe and one that can be worn proudly; to help young people develop grace, good posture and habits of good grooming. All of these are taught in the Clothing Subject Matter Units which Adult Leaders teach to the 4-H girls.

To enter the County Revue the girl must be enrolled in one of the 4-H Club's Clothing Units and must have completed requirements of the planned program to participate in the county revue.

Next year it is hoped that more of the girls in the county will begin to sew and take part in the Clothing and Dress Revue Programs of the county, according to Mrs. Martha Stephens, Mills County Home Demonstration Agtnt.
