The week of February 20-27 will be observed throughout the United States as National FFA Week. Fellow Future Farmers, this is a week that you will be in the spotlight. Let's help to keep the F. F. A. on the high level that it now possesses.

Mills County has had an active year in F. F. A. work. We are fortunate to have four fine advisors such as Layton Black of Goldthwaite, Russell Boyd of Star, Phil Rogers of Priddy, and A. R. Whisenhunt of Mullin.

At the present, Mills County has three officers in the San Saba District. They are Tommy Head, Darrell Hunt, reporter, of Star; and Jimmy Green, sentinel, of Mullin. Tommy Head was also the Star Chapter Farmer of Area VII.

At the State Convention held last July, four Mills County boys received their Lone Star Farmer Degree (highest degree offered by the Texas Association). These boys were Ernest Caldwell of Mullin, Ernie Casbeer of Goldthwaite, and Darrell Hunt and Norman Lee of Star.

Mills County has had FFA representatives at the District, Area, State, and National Conventions.

The Mills County FFA, along with the Mills County 4-H,

helped to sponsor a very successful Mills County Livestock Show. The Mullin chapter also sponsored a very good chapter show. The Mullin and Goldthwaite chapters both sponsored successful FFA rodeos. The Goldthwaite chapter also qualified their Chapter Conducting Team for area competition.

**WHEN THE OLD BIRD
WAS YOUNGER**

10 YEARS AGO—

(Taken from The Eagle Files of February 17, 1955)

Myron Hillman, 19 year old sheepraiser from Mullin, led his Grand Champion Lamb of the 1955 Houston Fat Stock Show in to the auction ring and walked out \$2100 richer. His Southdown lamb had previously been named first in its class, Champion of the Junior Lamb Show, and then Grand Champion of the Show.

S. D. "Sig" Jernigan spent two days last week in Houston where he judged Halter and Working classes in the regular Quarter Horse division of the Houston Fat Stock Show. Judging took place on Sunday and Monday, February 6 and 7, with over 200 entries in the Halter class.

Dorothy Saul, Goldthwaite, is among those new students at Wayland College helping increase the spring enrollment nine per cent over the last year's spring semester. Mrs. Saul, the daughter of Mr. and Mrs. C. A. Miller, Goldthwaite, is a junior. Her major is English.

J. G. Harris of Green, New Mexico, a former resident of the Big Valley community, was a recent guest of Hugh Denard. The Harris family left Mills County 54 years ago and this was the first time J. G. had visited here since.

Mr. and Mrs. Louis Glass and Mr. and Mrs. Harold Yarborough honored Miss Gene Ann Evans, graduate-elect, with a dance last Saturday evening at The Hangar.

The Goldthwaite FFA Livestock Judging Team composed of J. D. Cook, Joe Benningfield and John Henry, won first place in the Livestock Judging contest held in connection with the Livestock Show at Houston last Saturday night. They were awarded the top honor trophy, according to announcement by Y. B. Johnson Jr., vocational agricultural teacher, who accompanied the team to Houston.

25 YEARS AGO—

(Taken from The Eagle Files of February 16, 1940)

Another change in the appearance of Goldthwaite is taking place with the removal of the galvanized iron building north of the Eagle office to the rear of the lot. A new filling station will be erected on its present site.

This follows soon after the wrecking of the old two-story house occupied by Mrs. Morgan and the L. E. Booker family across from the jail. Booker is building a neat one-story residence on the rear of this lot, leaving the corner available for a filling station.

Various speculations as to the use to be made by the county of a truck load of cedar posts dumped on the north side of the square ended when it was learned that they had been levied upon in connection with a debt. There will be no corral or stockade on the courthouse lawn.

Goldthwaite's second traffic light was installed this week. It is an amber, blinking caution signal, and is designed to give warning to vehicles approaching from the San Saba and Lampasas highways so they may slow down for the traffic light at the Trent State Bank corner. The light is visible from the north end of Fisher Street so gives notice from that direction also that the driver is approaching the business section.

S. J. Casey of Mullin who has been taking the business census of Mills County, reports that he now lacks only a few reports from several hundred required.

Faith in the ground hog as a weather prophet was rudely shaken last week. Cloudy weather on Ground Hog Day supposedly gave promise of an early spring, but just one week after Mr. Ground Hog had taken his first look-around, Mills County awoke to find a second snow covered the county.

50 YEARS AGO—

(Taken from The Eagle Files of February 20, 1915)

Bobbie Noble, son of Mr. and Mrs. Elton Noble, was awarded the prize in the pretty baby contest at the Majestic Saturday evening.

Miss Kate Booker of Center City and Mr. W. A. Voss of Roscoe were married at the latter place last Sunday. Miss Booker was reared in this county and is the daughter of Mr. J. P. Booker.

Wm. Grille of Priddy, this week sold \$1800 worth of goats from his ranch and the purchaser loaded them in cars here

for shipment. Mrs. Eli Fairman received the sad news this week of the death of her only sister, whose home was in New Zealand. Her death was sudden and unexpected by the family.

O. D. Weston and family left this week for their new home at Knickerbocker, where he has bought a ranch.

Mr. Lee Brown, who made his home in this city several years ago, died at Ranger Saturday night and his remains were shipped to his home in Lampasas and interred in the cemetery there Monday.

The members of the commissioners' court held a conference with several ladies representing

the Self Culture Club last Saturday at which time a decision was reached to beautify court yard by planting a number of trees and considerable shrubbery on the grounds as well as flowers along walk.

J. F. Beck left Wednesday night for his home in S. S. County, after a visit to brother, J. S. Beck and family here.

J. M. Boler returned Wednesday night from a trip through western Texas and into Mexico. He enjoyed the trip was glad to get back into old Mills County.

NEW AGREEMENT HAS IMPLICATIONS FOR TEXANS

The new agreement for a cooperative plan between the Governor's Committee on Aging and the Texas A&M Agricultural Extension Service, signed recently in Austin, provides many opportunities for county leaders to work with problems of the aging. Director John E. Hutchison has announced.

This agreement authorizes the naming or activation of subcommittees in the existing framework of County Program Building Committees to assume the duties of local county level Governor's Committees on Aging—if no organization exists.

Upon the formal organization of such local committees, the Governor's Committee and Extension Service will present an official certificate designating each county committee as the local Governor's Committee on Aging.

In signing the agreement, Governor John Connally explained that "through the varied resources of the Agricultural Extension Service, many months and thousands of dollars in committee organizational funds will be saved."

Director Hutchison explained that more than 900,000 Texas citizens—or nearly 8 per cent of our population—are 65 years of age or over. Both the numbers and the percentage of the population in this group are

increasing rapidly. The significance of this increase is emphasized by comparing the following data:

In 1950, there were approximately 513,000 citizens in Texas who were 65 or older; and the 1965 estimates indicate there were to be more than 900,000 citizens in this age group.

"This new opportunity created for developing a more effective program for older citizens has many implications for county groups. The signing of the agreement will coordinate the efforts of the Governor's Committee on Aging with those of the Agricultural Extension Service. Both groups have the mutual objectives of promoting the well-being of Texas' senior citizens."

"The new arrangements will insure that a program based on the specific situation and needs of each county will be developed. The cooperative effort will greatly increase the resources available for developing an effective program for the aging in each county," Director Hutchison said.

Hillside Mission

By LIDA BYRNE

Evil thoughts cause us to speak evil words, which rebound on us to cause us trouble. We find in James 3:5-6: "Even so the tongue is a little member, and boasteth great things. Behold, how great a matter a little fire kindleth!

"And the tongue is a fire, a world of iniquity; so is the tongue among our members, that it defileth the whole body, and setteth on fire the course of nature; and it is set on fire of hell."

Mr. and Mrs. Garland McConal and children, Bobby Glynn, Jan, Jaunette and Danny Paul, of Hobbs, New Mexico, were guests of Mr. and Mrs. Dan McConal last week.

The man suffering "a touch of indigestion" is a full-fledged member of our largest ill-health club. (It's said that possibly 25 percent of our adult population could qualify for membership.)

You will find, too, that he has one outstanding trait: a readiness to try almost any sort of treatment he reads or hears about. And yet, proper treatment of digestive disturbances... whether it be by diet, drugs or other measures... can be given only by a physician after careful diagnosis.

When symptoms occur frequently, it's the better part of wisdom to see your doctor before you try someone's pet remedy. While your trouble may be simply and easily corrected, it could signal peptic ulcer, gall bladder disease, or something much more serious.

A digestive disturbance can easily edge over into the danger zone when you neglect it or try to treat it yourself... while getting prompt and proper medical care may well turn out to be one of the biggest bargains of your life.—Reprinted from a copyrighted advertisement published by Parke, Davis & Company, Detroit 32, Michigan.

Community News From Mullin

By MRS. JOHNNIE HOLLAND

Funeral services were conducted last Thursday afternoon from the Baptist Church in Mullin for Mr. S. J. Fisher. The Rev. J. T. Ayers, pastor of the First Baptist Church of Brownwood, conducted the services, assisted by Rev. Chester Sylvester, pastor of the Mullin Church. Special music was rendered by Mrs. Glynn Calder and Rev. Sylvester.

Mr. Fisher was a highly respected citizen of Mullin and had many friends in this area. He had been living with his daughter, Myra, in Brownwood for several years.

Interment was in the cemetery at Mullin under the direction of the Roy Wilkins Funeral Home of Goldthwaite.

Our heartfelt sympathy is extended to the Fisher family in the loss of their father.

We have lots of sick people in Mullin. Bad colds and the flu seem to be the main ailments. Johnnie and I have been fortunate up to now. We have both missed the bad colds and the flu. No bragging—we are just thankful.

Jimmy Hicks of Austin visited here last weekend with the Melvin Bessent family. He attended church services at the Baptist Church Sunday.

Also Rose Anita Allen visited here last weekend with her parents. She also attended services at the Baptist Church Sunday morning. Rose Anita is attending a business school in Austin.

Rev. and Mrs. Ellis Epps and family of Lawn visited with friends in Mullin Sunday afternoon. Mrs. Epps' mother who was making her home in Dallas with her son, passed away recently after a short illness. She had visited a number of times

in Mullin while the Epps family lived here.

Alvin Spinks is in the hospital in Goldthwaite where he has had surgery. I understand he is improving nicely.

Last weekend visitors with Mr. and Mrs. Will Sanders included Mr. and Mrs. Albert Jenke and Sammy of Austin, Mr. and Mrs. James Shelrin, also of Austin, Mr. and Mrs. Bill Sanders of Star, Mrs. George White of Plainview, Mr. G. I. Aldredge and family, Mr. and Mrs. Glynn Sanders and Roger, all of Mullin.

Miss Sandra Lee Soule Becomes Bride Of Sam Ray Stubblefield

Mr. and Mrs. Charles H. Soule, 7410 Briegewater, San Antonio, announce the marriage of their daughter, Sandra Lee, to Sam Ray Stubblefield, son of Mr. and Mrs. C. F. Stubblefield of Goldthwaite, February 14th, at 3:00 p. m., in St. Andrews Methodist Church, San Antonio. The double ring candlelight ceremony was performed by Rev. Ted Spellman.

The bride wore a floor length gown of silk organza with a bodice of scalloped Chantilly

lace, accented with clusters of seed pearls and long tapered sleeves. The bell-shaped skirt was adorned with re-embroidered Chantilly lace with a French waistline bow. A silk organza rose with seed pearls held her full French illusion veil and she carried white orchids with feathered carnations.

Miss Caroline Locke, Poteet, maid of honor, was gowned in a floor length model of ice blue peau de sole with matching veil and French bow. Bridesmaids were Misses Joan Delp and Gail Kinney, both of San Antonio. They wore gowns of French blue peau de sole with matching veil and French bow. All wore matching shortie white gloves encrusted with seed pearls and carried cascading bouquets of pink feathered carnations.

Guy Leverett was best man and groomsmen were Ronnie Cline and Max Shepherd. Buddy Morgan and Jerry Kinney, San Antonio, were ushers.

Mrs. Ronald White, organist, played a melody of traditional wedding songs and Mrs. Robert Scott was soloist.

The bride's mother wore a mint green crepe suit with winter white accessories and white feathered carnations. The groom's mother wore a two-piece embroidered dress of petal pink and a white carnation corsage.

A reception was held in the Fort Sam Houston Officers' Club. The bride's table was centered with a three-tiered columned all-white wedding cake, topped with the traditional bride and groom. The white net table was adorned with candelabra with white candles and white love birds. Miss Suzanna Pumphrey, Austin, served the wedding cake. A matching refreshment table held a center arrangement of white gladiolas, mums, and stock. Misses Sally Lightcap and Mary Ann Andreoli served. Mrs. Donald Fullbright was in charge of the guest register.

Miss Charlotte Miles, Bride-Elect, Complimented With Bridal Tea

Miss Charlotte Miles, bride-elect of Ronald Cagle, was honored with a bridal tea Sunday afternoon, Feb. 14, in the home of Mrs. Slim Hurst of Star.

The Valentine theme, in the bride's chosen colors of red and white, was carried out in the decorations. Two tall cupids, one red and one white, adorned the mantle. The buffet arrangement was made of red grapes and tiny red sweetheart roses, with a red and white Valentine and tiny white cupids on either side.

The refreshment table was beautiful with a white lace cloth over red felt. Mrs. Charlie Sheldon made the centerpiece, a lovely styrofoam ball in the center, covered with tiny white net ruffles, among which nestled little red flowers and small red hearts. A smaller red ball with white hearts and flowers was arranged on either side.

Long red ribbon streamers extended to each corner of the table, on which were white lace Valentines over red. The names, "Charlotte and Ronald," and "February 28, 1965," were printed on the Valentines in red.

Miss Nan Duncan served the delicious red punch and Miss Marsha Harper served white cake squares. Tiny red and white candy hearts and nuts completed the refreshments. The napkins were white, with "Charlotte and Ronald" printed in red, and were a gift of Mrs. Doyle Miles of Wichita Falls.

Many beautiful and useful gifts were displayed by the hostesses, Mrs. Slim Hurst, Mrs. Charlie Sheldon, Mrs. Carl Casbeer, Mrs. Pete Harper, Mrs. Harmon McCasland, and Mrs. Pat Carswell.

Miss Sheryl Casbeer registered the guests.

How Can You Fight Birth Defects? March of Dimes Has Good Advice

What would you do if a defective child were born to your family or to friends or neighbors? Would you know where to turn?

To answer these questions, leading mothers, more than a dozen strong, will distribute a leaflet with sound advice to every family in the nation every January for support of the March of Dimes fight against birth defects.

More than a quarter of a million babies are born each year in the U.S. with serious birth defects.

The leaflet being distributed is the Mothers' March volunteers called "THINGS TO DO

You Are About To Be Married

Select a family physician;

Each partner should have a complete medical examination, providing the doctor with complete medical histories;

Learn your blood groups and Rh factors (+ or -);

Consult your physician together for advice important to your marriage, particularly if either family has a history of birth defects or if there is Rh incompatibility.

You Are Expecting a Baby.

See a physician as early as possible to confirm pregnancy;

Keep in close touch with your doctor, reporting any unusual symptoms or bleeding;

Follow the diet prescribed by your doctor;

Do not take any drugs or medicines unless he tells you;

Do not knowingly expose yourself to infectious diseases—particularly German measles;

If any doctor you consult tells you are pregnant so he will avoid prescribing harmful X rays or medication.

Birth Defect Occurs in Family.

Seek the best medical advice available. Modern skills often prevent or correct serious disability;

Do not feel ashamed of your child's birth defect. No one is to blame so long as the stricken child is

JANE WYATT, National Mothers' March Chairman, reads to Tina Tidwell, 4, who was born with an open spine and is a patient at a March of Dimes Birth Defects Center in Los Angeles, Calif.

helped to make the most of his precious gift of life;

Do not despair. Professional help from physicians, clergy and others experienced in dealing with these problems can lead to a wholesome adjustment;

Remember that there are many persons and organizations such as The National Foundation-March of Dimes that stand ready to help. Seek them out.

If You Have Friends With a Defective Child.

Treat them as you would any other friends. They do not desire pity, but the sympathetic understanding of true friendship is always welcome;

Avoid giving advice. Let them make their own decisions with the aid of competent professional consultation.

The National Foundation-March of Dimes is using the experience gained in the fight against polio, which led to the

development of both the Salk and Sabin vaccines, to back its attack on birth defects. March of Dimes funds now support:

more than 50 March of Dimes Birth Defects Centers across the U.S. which make the most advanced medical care and treatment for birth defects available to young victims and their families;

a national research program which finances the work of scientists studying the causes of birth defects and seeking ways to prevent or correct them;

a professional education program to train medical professionals in diagnosis and detection, and in practical application of scientific advances to treatment techniques;

a public education program, of which the marching mothers' leaflet is a part, to alert the people to the magnitude of the birth defects problem and to let them know how much can be done to help defective children.

TAX MAN SAM SEZ:

Getting help on your tax return can be a problem. The Internal Revenue Service is available to answer your questions by telephone or in person in all the offices throughout the country.

The smaller offices are usually only open for taxpayer assistance on Monday morning.

Of course, if you live near Dallas or Fort Worth, or any of the big city offices, they have people there all the time—and they prefer that you call on the telephone rather than come in. They can help more people with less trouble to the taxpayers by telephone.

Perks Up Worms

On a hot day you can help keep earthworms lively by wetting a sponge and laying it on top of the can.

TIPS for OUTDOORSMEN

Rust-Proofing Arrows

To keep the points on hunting arrows sharp, dip the heads in paraffin before you store them for the long wait until next season. This way they will stay sharp without rusting.

Rubber Snubber

Here's how to keep bait-casting reels free from snarls and tangles when transporting or storing them:

Cut a strip of rubber out of an old inner tube. Then cut a hole in each end. Slip one end over the rod butt or the reel seat; the other end over the reel handle.

Tension holds everything in place.

Compact Match Box

A handy carrier for transporting matches in your pocket can be made by slipping an empty 12 gauge shotgun shell over an empty 16 gauge shell. It also is semi-watertight.

Hairpin Sinker Holder

Clip sinkers onto your line through a woman's hairpin. If the sinker gets hung on the bottom, a slight pull will open the wire, leaving the sinker behind. But you can rescue the rest of the rigging.

Improvised Lure

For catching blue gills and other small fish, improvise a lure by wrapping a pipe cleaner around a long-shank hook. Nifty on a fly rod, or even a spinning rod when a split-shot sinker is added to the line.

Quiets Safety Chain

Stop the safety chain on your boat trailer from rattling by slipping a section of garden hose over it.

Handy Handle

Tie a bell-shaped sinker, a small one, on the zipper of your hunting jacket and you won't have to remove gloves to open or close.

Cooling Sensation

If you have no cool water in camp, you can achieve the same effect by chewing a peppermint lifesaver, then drinking the water. Gives a cooling sensation.

Blocks Lint

If you want to seal a shotgun barrel from lint after oiling, put an empty shell of appropriate size in the breech, then insert a cork in the muzzle.

Untangling Backlashes

That crochet needle you see in your buddy's tackle box is not a sign he has flipped. He uses it to dig out really bad backlashes.

Works great, too!

Snap the band over the ends of the scope. It will keep water and dirt off lenses and may be removed quickly.

Aid To Line Spooling

Wind new monofilament on your reel by putting the line

spool in a bucket. Helps a lot in cutting down tangles, snarls and knots.

Protects Reel and Line

Tie a plastic bag over your reel before you store it away. Keeps dirt out, oil in.

H. N. (Harry) HAMMOND

T. J. (Tom) McCALLUM

H. N. (Harry) Hammond, chief engineer for Southwestern States Telephone, Brownwood, Texas, will retire from his duties with the company on March 1.

In announcing Hammond's planned retirement L. Gray Beck, executive vice president, said, "We will reluctantly comply with his request for early retirement. Our organization will miss this man who has dedicated himself to his work with this company for so many years and has made such significant contribution to its progress."

Hammond has spent 45 years in the telephone industry — 37 of them with Southwestern States.

Named to succeed Hammond is T. J. (Tom) McCallum who is currently serving as planning engineer.

McCallum is the son of Mr. and Mrs. T. J. McCallum Sr., of Bryan, Texas. He is a graduate of Franklin High School, Franklin, Texas, and Texas A & M University where he received a bachelor of science degree in industrial education.

Joining Southwestern States in August, 1953, McCallum served as assistant local manager at Bryan, working on a rural development program in Brazos County. He was called to active duty with the U. S. Air Force in March, 1954.

Returning from active duty in February, 1956, he was employed in the engineering department as a student engineer, being named later to positions of assistant equipment engineer and planning engineer.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Bills To Governor

The Legislature acted fast on two emergency budget requests by Governor Connally. One called for \$702,785 in emergency appropriations to run some dollar-short agencies and programs. Included were \$250,000 for carrying on the state's share of the screwworm eradication program for three months after April 1, and \$290,000 for speeding up the Texas Water Commission's planning program.

Other bill set up procedures and a library plan by which cities can take advantage of a \$2,500,000 library building appropriation voted by Congress for Texas.

Both requests were granted in a matter of days.

Tax Bill Pushed

Rep. Ben Atwell of Dallas, Chairman of the House Revenue and Tax Committee, is pushing a bill to raise \$15,300,000 under present tax laws.

Bill would repeal sales tax exemption on farm machinery and telephone and telegraph service; revise inheritance tax laws; repeal chain store tax (\$7,200,000 loss) and theater admissions tax (\$1,200,000 loss); and grant a tax exemption for natural gas used in exploration and production in the same field where it is produced.

Serious consideration of tax bills must await passage of the general appropriations bill, Atwell said.

Sale Of State Leases

Land Commissioner Jerry Sadler reports \$39,000,000 in high bids on 475 tracts were received by the State School Land Board. It was the biggest oil and gas lease sale in Texas history.

Highest single bid was Dow Chemical's \$1,077,000 for a submerged Gulf tract in Matagorda County. Second high was from Will Odom of Austin—\$1,066,000 for another Gulf submerged tract in Kenedy County.

Governor's Program Introduced

Most of the governor's program already has been introduced in some form in one or both houses.

Bills or constitutional amendments filed would:

- Set up an 18-man coordinating board over the state system of higher education;
- Repeal state property and poll taxes;
- Establish a State Department of Mental Health;
- Tighten driver license laws;
- Provide four-year terms for state officials;
- Combine the Migrant Labor Council with Texas Good Neighbor Council;
- Insure equal legal rights for women;
- Establish a \$10,000,000 college building fund;
- Set up a college student loan fund;
- Create a Fine Arts Commission;
- Revise the Texas Election Code; and
- Free the Texas Water Commission for water rights administration and make Texas Water Development Board responsible for all water planning, financing and development activities.

Building Highest

Building shattered all records during 1964. Total permits issued

sued in the state came to \$1,600,000,000 or seven per cent more over 1963, according to UT's Bureau of Business Research.

Bulk of the increase came from a 25 per cent gain in non-residential buildings, principally industrial structures which were up a sensational 92 per cent. Home building authorizations dropped three per cent, while permits for alterations and repairs were up two per cent.

Non-metropolitan areas led the construction surge with a 30 per cent gain over the previous year. Metropolitan areas gained only three per cent.

The city with the biggest gain was Longview. Other big gains were shown in San Angelo, Lubbock, Tyler, Fort Worth, Odessa, and Irving.

Redistricting Resolution Passed

Both houses of the Legislature overwhelmingly adopted a resolution calling for a federal constitutional convention to permit one legislative chamber to be apportioned on factors other than population.

Thirty-four states must adopt the identical proposal before Congress has to consider calling a convention on a specific amendment. Three-fourths of the states must ratify any amendment thus submitted.

At least half a dozen proposals for congressional redistricting have been filed so far, plus bills for Senate redistricting and House redistricting.

Rep. Gus Mutscher of Brenham told his House Committee on Congressional and Legislative Districts he will canvass all representatives for their views on reapportioning the state.

House members are trying to work out a cooperative House redistricting plan, taking into consideration those who do not plan to run next time and those who plan to run for other offices.

Other two — congressional and senate — redistricting jobs will not be settled so amiably. As one legislator put it, "It's going to be a mean session."

Short Snorts

Bill authorizing the State Railroad Commission to order pooling of separately-owned oil and gas interests in standard proration units has cleared the Senate Oil and Gas Committee.

A four-system geographic grouping of colleges, rivaling a three-system set-up proposed by Governor Connally, is called for in a bill by Sens. Dorsey Hardeman of San Angelo and H. J. Blanchard of Lubbock.

Continuation of the Veteran's Land Program with another \$200,000,000 bond program is proposed in constitutional amendments introduced in both the House and Senate.

Sen. D. Roy Harrington of Port Arthur is author of a bill to establish a Texas mediation service for voluntary settlement of intrastate industrial labor disputes.

Updating of workmen's compensation law is proposed in a bill by Rep. David G. Haines of Bryan.

Park & Wildlife Department reports that 1964's record number of hunters had only 10 fatalities, a decrease of eight from 1963.

Continued storm activity in the Plains area and in the north-central part of the state contributed to a 4.0 per cent statewide average increase in fire and allied insurance last year, according to the Board of Insurance.
