**IT HAPPENED IN PARIS**—Passengers on an Army contract bus making the usual run from Camp des Loges to the Palace de l'Toile, were just entering Paris recently when this "Paris scene" came into view. One of the riders on the bus was Paris Post Hq. Co.'s armorer, Sp4 Don Rudd, of Goldthwaite. He happened to have his camera along and snapped the picture shown here. According to Rudd, one Paris driver was so entranced by the sight that, turning to look he accidentally bumped the rear of the bus. Rudd is the son of Mr. and Mrs. L. R. (Bally) Rudd.  
(Editor's Note:—Rudd reported to his parents that it appeared some one was trying to park, hit the gas instead of the brake and the vehicle just climbed on top of one of those little low foreign jobs.)

Last year's major improvements to Mills County Park over and above routine park maintenance amounted to \$3,207.30, it has been announced by officials of the park committee.

These improvements, which include picnic tables, benches and paving, were financed through several projects conducted by the service and civic clubs and groups along with the part played by the city.

Park maintenance is taken care of by the park committee with contributions from individuals and business firms who are interested in the park upkeep. This effort raised \$1,231 last year. A minimum of \$1,200 is needed for this work.

During the past year the city provided street paving in the park at a cost of \$2,275.00. The Lions Club supported the paving program financially.

The Civic Improvement Committee, which is composed of representatives from all service and civic clubs of the city, provided a Jungle Gym set for the park at a cost of \$300.00.

Other improvements last year include picnic tables and benches as well as shrubs and trees

and some concrete steps and flagstone walks.

The Garden Club, American Legion and the City took care of providing concrete steps and flagstone walk from the Legion property into the park.

Mills County Park has an estimated worth at the present time of \$40,252.00. This includes the swimming pool, American Legion Hall, playground equipment, paving, shrubs and trees, walks and signs. Estimated worth of the park when fully developed will be \$64,000.00.

## Community News From Mullin

By MRS. JOHNNIE HOLLAND

### MULLIN HOMECOMING

Plans are already being made for the Mullin Homecoming which will be held on Saturday night before Mother's Day, which will be May 8th. A supper will be held at 5 o'clock in the afternoon. The Methodist Church will probably sponsor the supper; however, plans aren't complete about this. We just want you to be making your plans to come. We will from time to time tell you of any new plans that may come up.

### METHODIST REVIVAL

The Methodist Church in Mullin will have a revival immediately after Easter, starting April 19th. The Rev. Morris Pipkin of Oklahoma will be the guest speaker. He has preached at our church before. We would like to invite all around Mullin to come and enjoy five nights of good preaching.

### FUNERAL SERVICES FOR MRS. DOC BEAN

Funeral services are being

conducted this afternoon (Monday) for Mrs. Doc Bean, who has been living in Brownwood for several years with two of her daughters. Ma Bean (as we all knew her), was a very sweet, friendly person, and had many friends in and around Mullin. She has been ill for a long time, but she kept going, even though for several years she has had to use a walker. She was the mother of Aaron Bean and Mrs. Will Plummer who lives in Mullin.

She had several other children who live away from here. Johnnie and I were especially fond of Ma Bean. We would like to extend our heartfelt sympathy to her loved ones in their loss.

Mr. and Mrs. Carl Dry of Fort Worth visited Sunday with Mr. and Mrs. Johnnie Holland.

Also Mr. and Mrs. Jimmy Ethridge and Randy of Austin visited last weekend with their parents, Mr. and Mrs. Johnnie Holland and Mr. and Mrs. Howard Ethridge and family. Our new grandson is a very welcome member in our family, and I'm sure the other grandparents are equally as proud of him.

A wedding shower will be held next Saturday at the Community Center for Mrs. Ivan Chesser, a recent bride.

### Pipe Cleaners Useful

An ordinary pipe cleaner can serve many purposes for the outdoorsman, besides cleaning his pipe.

It can be used to hold parts of a rod together when disassembled; keep line from unwinding on a reel; and as a nook and cranny oiler.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS — A bill to regulate commercial applicators of pesticides is having a hard time in a House committee. This is an indication that it probably will be changed considerably before it is reported for floor action.

Its author, Rep. Granger McIlhenny of Wheeler, tried unsuccessfully to get it referred to a different subcommittee from the one headed by Rep. Bill Rapp of Raymondville. House agriculture committee, however, did vote to instruct Rapp to report the bill to the full committee.

Rapp said the bill is one of the most important issues to come up before the Legislature this session, on par with redistricting, taxes and other state-wide issues. "This bill doesn't affect only commercial aerial applicators," Rapp said. "It affects a lot of people."

Required by the bill would be licensing of owners and operators of equipment used to apply pesticides. Licensing would require passing an examination to demonstrate familiarity with application of pesticides and payment of an annual fee. Operator's fee would be \$10; owner registration, \$25; and \$25 for each piece of equipment.

Operators would have to show minimum financial responsibility of \$15,000, by insurance, bond or deposit, for each piece of equipment. Proponents of the bill say farmers need protection because modern pesticide equipment can, if misused, damage large land areas, including adjacent property.

Rapp contends the bill needs to be studied carefully because the transient nature of some of the persons who work on pesticide equipment would require that the operator spend a lot of money on additional license fees and bonds.

### Health Legislation

Sweeping new concepts for treatment of tuberculosis, mental illness and mental retardation are about to be written into Texas law.

Bills overhauling the entire state organization for dealing with these vast problems soon

may be sent to Gov. John Connally for signature.

House passed 142-0 an amended version of legislation already approved by the Senate to set the tuberculosis eradication program in motion.

A separate bill to establish a new Texas Department of Mental Health and Retardation cleared the House 139-1 and was sent to the Senate.

The tuberculosis measure by Sen. H. J. Blanchard of Lubbock and Rep. Menton J. Murray of Harlingen would shift all tuberculosis hospitals and programs from the Board for Hospitals and Special Schools to the Texas Department of Health.

Both emphasize community-centered attacks on the problems at hand.

Experts maintain that case-finding, long-term follow-up care and contract care of patients close to home can virtually eliminate tuberculosis. Proposed \$22,300,000, six-year program will begin in the San Antonio - Central - South Central Texas area and counties along the border from El Paso to Brownsville.

Community care centers to treat mental patients close to the cities they live in rather than big hospitals far away are heavily relied on for major progress in the mental health field.

### Horses Booked

Odds are long against the horse race betting advocates this session, but they will provide one of the Legislature's most colorful shows.

On March 29 the House State Affairs Committee will hear a bill to legalize parimutuel betting on supervised tracks. Bill is backed by the Texas Racing Association. It was introduced by Rep. Martin Pipkin of Brownsville.

Rep. Rayford Price of Palestine has introduced a constitutional amendment which would outlaw parimutuel (in a pool) betting and all other forms of gambling in the state.

### Budget Conferees Take Over

Whether Texans will face a substantial new taxation to finance expanding state services rests largely with 10 top lawmakers.

Budget writing was checked to a joint conference committee of senators and representatives after the Senate, without discussion, passed a \$3,650,000,000 appropriations measure. It called for \$617,000,000 in general revenue spending.

State version is \$13,000,000 above the House-passed bill in general funds ear-marked for the 1966-67 biennium. Both houses left money "on the table."

Senate bill is \$14,000,000 below anticipated income; House bill \$25,000,000 below. But there are plenty of claims for the leftover.

Amount of the school teacher pay raise approved after the general budget finally is adopted is the real key to the magnitude of a tax bill. But recommendations of the conferees—likely to be approved by both houses—will determine just how much of the foreseeable revenue is left to apply toward better salaries for teachers and other new spending demands.

### Sabine Bill Passed

Legislation aimed at paving

the way for making the Sabine River navigable from Longview to the Gulf has reached the governor's desk.

Bill sets up Sabine River Navigation District in Gregg, Harrison, Panola and Rusk counties.

A \$15,000,000 revenue bond-financed project extending to Toledo Dam Dam is contemplated. Under the plan, locks would be constructed to lift barges into the Gulf of Mexico.

are made by breweries, not distillers.

After prolonged debate in the House, Rep. Bill Healy of Paducah unsuccessfully tried to tack on an amendment to raise the beer tax \$1 a barrel.

Mutscher's bill finally passed 90-44 and went to the Senate

for another round.

urer, Mary Haynes; Sergeant-at-arms, Anna Gottschalk; Historian, Denna Meador; Parliamentarian, Rita Grisham; Honorary Members, Mrs. Maurice Silk and Mr. Lewis Woodward.

These centers and other year-round services are supported by the funds raised during the Annual Easter Seal Campaign, which is now in progress. The Easter Seal Campaign, which is sponsored by the Texas Society for Crippled Children and Adults, runs through Easter Sunday, April 18.

## State Capital NEWS

**Pickups May Speed Up**  
House has approved and sent to the Senate a bill permitting pickup trucks to travel 70 miles an hour on Texas highways instead of the present 55 mph limit.

**Another bill by Rep. John Traeger of Seguin specifies that pickups may be driven with a regular operator's license. Some law enforcement agencies (not the Texas Highway Patrol) contend that drivers of pickups must have a commercial license. They say law is not clear on the point. Bill cleared committee and is on House calendar.**

**Property Titles Unclear**  
Rep. Forrest Harding of San Angelo believes that no Texan can be sure he has a clear title to any of his personal property because present law permits

the state to get a preferred lien without notice on any property which has gone through the hands of a person arrears on his taxes.

Harding said the state can do this regardless of how many times the property has changed hands.

He has introduced a bill which would provide for handling of personal property liens in the same manner that liens on real property are now handled, including filing of a notice with the county clerk. No lien would be effective on personal property before the filing of such notice.

funds for vocational and technical education.

Bill would make the State Board for Vocational Education, established in 1949, the coordinating agency for setting up standards and requirements for school districts which want to set up a vocational and technical school or a vocational and technical school district with state and federal participation.

**Texas Crime Rising**  
Major crime is increasing at an alarming rate, warns the Texas Department of Public Safety.

Last year 260,860 major offenses were committed in the state. This represents an increase of 13.8 per cent over 1963, says DPS Director Homer Garrison Jr.

All seven categories—murder, rape, robbery, burglary, aggravated assault, theft and auto theft—recorded big jumps. Crime rate (offenses per 100,000

population) rose from 2,393 to 2,723.

### Short Snorts

Rep. George Cowden, opponent of the constitutional amendment for equal rights because of sex, has introduced five bills to remove discriminations because of sex in existing laws.

Carrier costs only this much more  
than "price" brand air conditioning

Just because Carrier is the recognized  
leader in air conditioning, some people  
have the mistaken idea it costs more.  
Truth is, you can have world-famous  
Carrier air conditioning in your home for  
about the same price you might pay for  
ordinary, compromise brands! And re-  
member, we are air conditioning special-  
ists, not general merchandisers. Our ex-  
perienced installers know the job, do it  
right, and back it up with a written  
guaranty of performance. The result:  
through the years you enjoy the low  
operating costs that only fine equipment  
plus expert installation can provide.

Carrier central air-conditioning  
as little as

\*This figure is computed as an example to  
compare with "price" brands and is based  
on a typical 1400 square foot installation  
where adequate central heating system  
and electrical facilities exist. While the  
individual requirements of your home may  
differ from this example, the low price is  
typical of Carrier's complete range of sizes  
and capacities to meet any air conditioning  
requirements.

Included In The Price: Carrier Weath-  
ermaker Air Conditioner / 38 GA 002  
Condensing unit with 28 BA 002 cooling  
coil and casing / Cools up to 1400 square  
feet / 25,000 BTU. ARI Certified Capac-

### Regency News

By MRS. J. A. JONES

I made a terrible mistake last week when I wrote my news. I said summer was here, the temperature was in the 80's for several days. Now Old Man Winter has us all stirred up again for it sure has been cold; and two more spells on the way for the weekend. It will sure keep people busy with fresh sheared goats.

Our company over the weekend was Mary Bolinger, from Baylor University, Waco; Mr. and Mrs. Jimmie Dee Newson and children and Mr. and Mrs. E. P. Jones and their grandson, Eddie Parrish, all of San Angelo.

It seems like sad news was all we had last week. Our sympathy goes out to all the families in their loss, Mrs. Cecil Egger's mother, Mrs. Smith of Brownwood, Mrs. Lewis Atkinson of San Angelo and Miss Mattie Williams of San Saba were all buried last week.

Judy Teal visited her sister and family, Mr. and Mrs. Ish Tanner at Goldthwaite Monday night and Tuesday.

Mrs. Wayne Hardman of Brownwood is visiting her parents today (Wednesday) and

will go to Goldthwaite this afternoon.

Mrs. Hollis Blackwell and Mrs. Charlie McLean of Goldthwaite were hunting arrow heads out our way Tuesday.

We have had some fishermen from Odessa this week and they caught several pounds of fish. Mr. and Mrs. Ross Rowlett

and children of Cross spent the weekend with

parents, Mr. and Mrs. Rowlett.

Pearl Shropshire of Goldthwaite visited Mr. and Mrs. Elden Prosser and Susan of Waco were here one day week fishing.

### Zing into spring! Corvair by Chevrolet

The steering's crisper, the ride's flatter, the style's racier—even the grass looks a shade greener from behind the wheel of this new Corvair

For all its finely calibrated instrumentation—tachometer, manifold pressure gauge, even an electric clock with a sweep second hand for rally buffs—the most important thing that happens when you get a Corvair Corsa

out on the road doesn't register on the dash. It registers on you.

You feel it in the steering—crisp and precise—as you double back on a curve. In the flat riveted-to-the-road stability of the new fully independent suspension. In the response of the rear engine (up to 180 hp available now in Corsa's Turbo-Charged version).

Drop down to your dealer's now—while the trading's extra good—and see for yourself.
