Bank Capital Increased By 100%; Stockholders Vote Stock Dividend

The capital structure of Mills County State Bank was increased by 100 per cent at the annual meeting of the bank's stockholders and election of directors and officers last week Tuesday night at the bank, it was announced by W. P. Duren, president of the bank.

Stockholders voted a 100 per cent stock dividend increasing the capital stock from \$125,000.00 to \$250,000.00 and the number of shares from 6,250 to 12,500.

The directors approved an increase in the bank's surplus from \$125,000.00 to \$250,000.00, according to the announcement by Duren.

This is the first increase in the bank's capital since 1961 when the bank moved into their new building on the west side of the square. At that time bank's capital was increased by 25 per cent, from \$100,000.00 to

\$125,000.00. In 1953 the capital of the bank was doubled from \$50,000.00 to \$100,000.00.

This latest move reflects an increase of five times the amount of capitalization of the bank since 1952. The increase voted by stockholders and directors last Tuesday night was approved by the State Department of Banking on Thursday, January 30.

Another good year for the financial institution was reported to stockholders by President Duren as reflected in the 79th annual report which was distributed at the meeting.

The annual report shows deposits and loans and total resources are at a new high for the bank which has served the Mills County trade area for 80 years.

A ten year summary of the bank's deposits, loans and resources points out a new record

growth. Copy of the 10 year summary appears in ad on another page of this paper.

San Saba Peak

By MRS. DUTCH SMITH

We missed a good chance for rain, which we really needed, but our time will come later, we hope.

Yes, the ground hog saw his shadow, so we will have six weeks more winter weather. We haven't had very much winter yet and I hope it does get cold so the fruit trees won't bud out and the fruit get killed.

Dutch and I spent Friday night in Arlington with our nephew and family and attended the graduation of our great-niece, Dorothy Smith. Something over 500 graduated. I never did see so many people in one place.

We came home Saturday and came by the rest home to see my step-mother. She is just lying there, no change that I could tell. One of the nurses told me that Mr. January was killed in a car wreck. We did not know it and were so sorry to hear about it.

We came on to Goldthwaite and went by the F. S. Jernigans and they had company. Mrs. Louise Tully and girls, Forrest's niece, Sue Weeks, Cindy and a friend, Johnny and Margaret and Cliff Smith of Burnet, Richard Ackorage, also of Burnet, his aunt, Mrs. J. B. Barfield of Lometa and then Dutch and I.

Oh! yes we attended a house warming in the home of Mr. and Mrs. Lloyd Laughlin last Thursday night and it was really nice. They received so many

pretty gifts. We were real thrilled for them.

Our grandson, Jimmy Ball, will do his practice teaching in Eldorado, Texas. That's really a good school.

We had two neighbor girls to go to Eldorado from the Scallorn community; one was Miss Marvel Ford. She married the superintendent and when Rachel finished as far as they taught in Scallorn she went to Eldorado and stayed with her sister and finished high school there.

Rachel is now a doctor in Houston and married to Dr. Bill Spillers. They have one daughter. To know those kids was to love them.

Lloyd Laughlin was one of our teachers in Scallorn. He sent me a school picture of his

first school and I am going to have some made and give him back his picture. It is cute of all the kids who attended his school.

I guess all the Scallorn people were real close to each other, almost like kinfolks. I guess you would say that was in the good old days.

Dutch and I went and took our children, not only ours but our neighbors' children, and how happy I am that we did. Our three children have long ago married and have families of their own. And the boys have often written us, when in college, thanking us for being so good to them. They could always bring their friends home with them and some kids couldn't do that, as some mothers just didn't want to be

bothered. But mothers from one who know things in your homes to know your children in that way you can choose the best. Now don't want to read that don't.

"All you hear about is war. Where is God?"

We've hardly known a time when there wasn't war, or rumor of war.

And with the difficult ideological problems of today's world, the issue of war versus peace is more complicated than ever.

One thing is certain. God is impartial in his caring for peace.

But how do you search for peace—in yourself, and in the world?

You may find some surprising

approaches developing in your church or synagogue.

And with your help, your place of worship can, after all, become an important voice in establishing our country's moral position in matters that profoundly affect every one of us.

You're only one person, it's true. But you don't have to be alone in your beliefs.

And it's beliefs like yours that can change the world.

TAX MAN SAM SEZ
SIGN THAT RETURN — Way back, "Since Buck was a Yearling," Internal Revenue has been telling taxpayers to SIGN those tax returns — both husband and wife if a joint return. In pointing out the more common errors made by taxpayers throughout the country, IRS says forgetting to sign was still a major problem last year.
However, in the Dallas District very few taxpayers forgot to sign their returns. It appears that the Texas tax folks talk to Texas taxpayers a lot more about signing those returns. We know Texans are often accused of talking more or too much.
We're not sure whether Texans — even those working for IRS — talk more than the average American, but Texas taxpayers' following IRS's advice does disprove the old saying — "You can tell a Texan, but not very much." It appears that IRS told the Texans to sign, and they signed.

New High Yielding Grass Variety Is Approved For Certification

A new high yielding grass variety has been approved for certification by the State Seed and Plant Board and released for public use, Doug Sellars, of the local Soil Conservation Service reported this week.

Called Selection 75 Kleingrass, it is a palatable, drought resistant tame pasture grass which is being released for certified seed production, Sellars said. SCS and the Texas Agricultural Experiment Stations joined in the release after both agencies cooperated in making evaluation plantings across the state.

Sellars said the newly certified grass is one of the most promising ones developed in Texas in recent years. He

pointed out, however, that it will never replace top grasses already in use—it just gives livestock men another good grass to choose from when planting improved pastures.

Selections of Kleingrass were introduced in 1951 from a 15 to 18 inch rainfall belt in South Africa for planting at the SCS nursery in San Antonio. After extensive evaluation at the James E. "Bud" Smith Plant Materials Center at Knox City and in soil and water conservation districts across the state, Selection 75 was picked as the one strain best adapted to Texas conditions.

The grass is adapted to a wide range of soils, but on dryland it does best on sandy loam to clay. Kleingrass 75 recovers quickly from droughts after a rain. Established plants are hardy almost anywhere in the state, although first-year plants have winter-killed in the Panhandle. Second-year plants have withstood a hard freeze—18 degrees below zero—at Tahoka. The plants green-up early in the spring and stay green late in the fall. Kleingrass plants in the SCS nursery at Goldthwaite still have some green that shows no frost damage. The amount of green on these plants will provide a source of protein and Vitamin A for winter grazing.

Kleingrass 75 produces high yields of top quality forage. Hay yields have exceeded three

HEADS SENATE COMMITTEE ON NOMINATIONS—Lt. Gov. Ben Barnes presents Sen. J. P. Word a gavel after naming him to head the Senate Committee on Nominations during the 81st Legislature.

AUSTIN, (Special) — Senator J. P. Word of Meridan has been appointed Chairman of the Texas Senate Committee on Nominations by Lt. Gov. Ben Barnes.

Senator Word was also named as a member of the Committees on Agriculture and Livestock; Banking; Contingent Expenses;

County, District and Urban Affairs; Education; Finance; Insurance; Labor and Management; Relations; Public Health; State Affairs; Water and Conservation; and Youth Affairs.

In past legislative sessions, he has served on 16 Senate Committees and as chairman of the Committee on Legislative,

Congressional and Judicial Districts.

Among significant legislation he has sponsored was the act creating the Padre Island National Seashore, and statutes relating to School Land Board oil leases, women's rights and protective custody of mental patients.

tons on dryland at Tahoka and more than eight tons under irrigation at San Benito and the Knox City plant center. It apparently will not produce as much forage as Coastal Bermudagrass and other high yielding grasses, yet grazing studies made by the Texas Agricultural Experiment Station at Beeville showed livestock making better daily gains on Kleingrass 75 than on Coastal. At the McGregor Station, average daily gains were better on Johnsongrass than Kleingrass 75, but neither Coastal Bermuda nor Johnsongrass produced as much total gain per acre under low to medium fertilizer applications.

Kleingrass has been planted in this area by Bobby Baird, George Weddell, W. O. Kemp, and Carl Casbeer. The grass has done well and yields of more than 2½ tons per acre on dryland were made on the Stasney Ranch 10 miles west of Mullin.

The grass has also done well at such widely scattered points as Spur, Knox City, Fort Worth, Mineola, Rusk, Temple, Ballinger, San Antonio, Corpus Christi, Victoria, San Benito, and Angleton.

The plant has fine stems and

green to bluish green leaves and it grows about 4 feet high. It is related to blue panic and switchgrass. The seeds are small and shatter easily, which restricts seed yields.

Quail, deer and other wildlife also find Kleingrass attractive. Quail eat the seeds, and deer relish the forage, especially in the early spring when few other plants are green.

Breeder's seed are produced at the SCS plant center at Knox City. Foundation seeds were grown in 1968 and will be

available in 1969 through the Foundation Seed Section, Texas Agricultural Experiment Station, College Station. Limited amounts of certified Selection 75 seed will be available in early 1969 for spring plantings.

About 1½ to 2 pounds of pure live seed per acre are usually drilled for broadcast plantings, Sellars said. For row plantings about one pound is used. For further information, contact technicians of the local SCS office located at Goldthwaite, telephone 648-2422.

Annual Girl Scout Cookie Sale Begins Here Next Week Thursday

Dates for the 16th annual Cookie Sale of the Heart of Texas Girl Scout Council have been set for February 13 through 22, it was announced this week by officials.

Rep. J. E. Ward Named Chairman

Austin, (Sp.) — State Representative J. E. Ward of Glen Rose has been appointed Chairman of the Committee on Enrolled and Engrossed Bills by House Speaker Gus F. Mutscher of Brenham.

In announcing the appointment, the Speaker expressed his pleasure in Ward's acceptance of the chairmanship and said Ward's eight years' service have provided him with wide legislative experience and knowledge that will prove invaluable to the Committee and to the House of Representatives. Only 14 House members can claim longer legislative tenure than the Glen Rose Representative.

Ward is the Representative for District 54, which includes Bosque, Hamilton, Johnson, Mills and Somervell counties. He was Chairman of the Committee on Enrolled Bills during the 60th Legislature.

Mrs. A. C. Williams is serving as Community Cookie Chairman for Goldthwaite and will check cookies out to leaders of troops on Wednesday, February 12. Leaders, in turn, will check cookies out to the girls and supervise their sales during the annual event. The goal for Goldthwaite has been set at 60 cases of cookies. The total council goal is 6,000 cases.

Profits of the annual cookies sale go, primarily, to develop and maintain the Council-owned established camp at Lake Brownwood. In addition, all girls throughout the 19-county council who sell 48 or more packages of cookies are awarded partial camperships to apply on their camp fee at Camp Wood Lake. Last year, a total of \$3,310.80 was retained in troops throughout the council and 698 camperships were awarded girls.

Camp Wood Lake, located on the shores of Lake Brownwood, has been developed almost entirely with Cookie Sale funds—money raised by the Scouts themselves.

4-H's, FFA's Enter Stock In Houston Show

Mills County 4-H and FFA members will exhibit their livestock in the Junior Division of the Houston Livestock Show and Rodeo, to be held February 19 through March 2. The 4-H's are Sandra Alexander, Larry Alexander, Faustina Alexander, E. L. Dyas, Randy Lindsey, Pam Lindsey, Jan Geeslin, David Horton, Karen Horton, Rhonda Cook and Craig Smith. Also FFA's from Mullin are Whisenhunt Brothers, Craig Smith and Robert Hutchings.

They will be competing for premiums in excess of \$133,000. The Houston Livestock Show and Rodeo will have the largest Junior Show in its history, general manager, E. C. "Dick" Weekley predicts.

"Battle Against Cancer" Reports Given Delegates At District Meet

The American Cancer Society is beginning to win . . . the 1,500,000 Americans alive today, who once had cancer and are cured . . . these are the measures of how far we have come in the battle against cancer." Dr. Cecil M. French, M. D., told the delegates at the District Crusade Meeting held in San Angelo on January 30, 1969. Dr. French of San Angelo is District Director.

Mr. Sam G. Boynton of San Saba told the delegates, "The ASC research investment in Texas is over \$1,154,000. This means that the Society is actually spending 13% more money on its programs of research, education and service than we raised in Texas last year." The extra money spent in Texas is due to the large sums allocated

Homemakers To Sponsor Safety Program Tonight

The Mills County Young Homemakers will sponsor a Farm Bureau Safety program in the Goldthwaite High School Auditorium tonight (Thursday) at 7:30 p. m. The public is invited and urged to attend.

The program will be presented under the direction of Mr. Joe Smetana, director of the Texas Farm Bureau safety department in Waco. General safety in the home and fire safety will be the targets of the realistic demonstrations. Valuable safety practices can be learned by parents and children who attend the program, according to the sponsoring organization.

FFA CHAPTER AND GHS STUDENTS TO SEE PROGRAM TODAY

Mr. Smetana will present a program on tractor safety on the farm for members of the Goldthwaite FFA Chapter this afternoon (Thursday) at 1:00 p. m. Through the use of miniature tractors and equipment and slides, the FFA members will have an opportunity to see for themselves the false sense of security a man may have while operating a farm tractor.

The entire GHS student body will see the general safety program at 1:30 p. m. today in the auditorium, according to announcement by Principal Hoyett Browning.

Elementary Children To Have Free Dental Checkups In Feb.

In observance of National Children's Dental Health Week, free dental examinations will be given during February to all children at Mullin, Priddy, Star and Goldthwaite Elementary Schools who want them. These checkups are available through the co-operation of Mrs. M. Y. Stokes, county health nurse, and Dr. T. C. Graves, dentist.

According to Dr. Graves, regular dental checkups and conscientious home care help prevent serious dental problems from developing, so it is hoped that this checkup program will be a benefit to the children of Mills County.

Brown-Mullin Project Gets Support From Dale Henry In Teheran, Iran

The Brown-Mullin Watershed project recently received support all the way from Teheran, Iran. The support was given by Dale Henry, son of Mr. and Mrs. K. B. Henry of Mullin.

Dale recently purchased the former Hodges Estate. This farm is located just north of where flood prevention dam No. 2 is to be constructed. Upon learning that his farm would receive 2 acres of permanent water and temporary flood water on 88 acres of grassland he requested that easement be sent to him for his signature.

Henry is a petroleum engineer employed by the Dowell Slumberger Corporation in Teheran, Iran. He and his wife

are planning to visit the family and friends in the Goldthwaite area this week. Henry said that his construction has begun in the Brown-Mullin Watershed then.

Doug Sellars, District C. vationist, reports that only five people who have signed easements to the Mullin project. He further stated that construction this is a possibility if the easements can be cleared the last of February.
