AUSTIN, Texas — Legislators face a week of major decisions. Before the House are key portions of Gov. Preston Smith's finance plan. House followed the Senate in hurrying to a vote the proposal to lift the \$80 million a year welfare spending lid. An emergency \$48.4 million deficit spending bill to avert a welfare crisis is perhaps their biggest problem today.

A four-fifths vote of both houses is required to suspend the Texas constitution's "pay as you go" requirement and permit lawmakers to go into the red for the balance of this fiscal year . . . which ends in August.

If legislators decline to take this route, they must pass a tax bill to raise the money by March 1. To place a revenue-raising measure into immediate effect would require passage by a two-thirds majority.

Alternative is reduction in welfare benefits by early spring. Another matter being moved to an early showdown is Governor Smith's proposal to float a \$450 million state bond issue secured by income from permanent school fund revenue diversion. Both bond issue and tapping of school land lease money would require constitutional amendments.

Regardless of the House vote on the bond issue, Lt. Gov. Ben Barnes sizes up Senate sentiment toward it as cold.

Mood of both houses appears to favor early passage of code of ethics legislation.

If Governor Smith's finance program doesn't fare better than he anticipates, Barnes says, he will ask House Speaker Gus Mutscher to join him in urging the Governor to submit some alternatives.

As It Looks From Here

OMAR BURLESON, M. C.
17th District, Texas

WASHINGTON, D. C. — The Mayor of a small town in Italy was having trouble getting his city council to approve his recommended budget. According to a foreign newspaper report, he hit upon an idea of unusual strategy. He spent a night in a hut, performing rites involving the sacrifice of a black hen. It seems he depended upon two good spirits by the names of Raket and Bayel who, he said, looked after economic and financial affairs. Just maybe Washington should be calling Raket, Bayel and one black hen to report immediately. President Nixon submitted his Fiscal Year 1972 Budget to the Congress this past week based on the theory of "full employment."

The idea is fairly simple. With unemployment hovering around 6 per cent, the U. S. economy is underproducing very seriously. Whenever the economy underproduces, the Federal revenues suffer severely.

In the next fiscal year it is estimated that Federal revenues from all sources, including social security taxes, should be about \$230 Billion. Since the economy is underproducing so badly, the actual revenue is estimated to be about \$215 Billion.

Since there is Underproduction and Underemployment, the Administration says the economy needs stimulation. To stimulate, the idea is to set the spending level at a rate of Federal tax collections that would come in if there were full employment. Based on this theory, a balanced budget is accomplished on "full employment." The result, however, is a \$15 Billion actual deficit.

The fiscal year budget of 1961 is an example of what might have happened had the "full employment" concept been applied. In that budget the actual deficit was \$3.4 Billion. Unemployment stood above 6 per cent, about where it is today. If the "full employment" idea had been applied, there would

have been a \$11.3 Billion surplus.

A "Full Employment Budget" can be defined as the excess over Federal spending that would have been collected had there been full employment. Full employment, in turn, is defined as existing when unemployment drops to 3 per cent or less of the labor force.

In accordance with the rules now adopted by the President, it is all right to have an unbalanced budget when there is high unemployment.

This idea is not new. The theory was proposed several years ago by some of the economists who are now in the Administration, one of which is Mr. George Shultz the President's Economic Counselor. Dr. Walter Heller, Chief Economic Advisor to President Kennedy has been a longtime advocate of the theory.

A book published last year called "The Real Majority," authored by Richard M. Scammon writers, portrayed the typical American voter as a 47-year-old housewife, living in the suburbs of Dayton, whose husband is a machinist. She is greatly upset about such things as crime, urban unrest, student riots, a drugs, pornography and other things related to "social issues." Her views in this regards are conservative. The writers say, however, that the same average citizen is more liberal on "bread and butter" issues.

It would appear that in the case of a "full employment budget," a liberal position is being taken by the President. The position seems to favor strong support for "law and order" but

work program in Wildlife and Fisheries," said Walker, "and the results of this basic research has provided tremendous increases in hunting and fishing opportunities for the people of this state."

As an example Walker cited the fact that Texas has more deer than any other state; larger bag limits and longer seasons on quail . . . just to mention a few of the benefits made possible by Federal financial assistance.

The Lone Star State will receive \$1,538,500 in wildlife funds and \$653,750 for fish restoration. Money for wildlife research is derived from the 11 per cent excise tax on sporting arms and ammunition. Funds for fish projects come from a levy of 10 per cent on sport fishing equipment.

Appropriation is made available through the Interior's Bureau of Sport Fisheries and Wildlife. Formula for appropriating hinges on the number of hunting and fishing licenses issued in the State.

Money also can be used for purchase of land and water for wildlife and public use.

TREASURE DISPLAY URGED
An interim committee advised the Legislature in a written report to direct permanent display of treasure recovered from ancient Spanish galleons off Padre Island.

Actual ownership still is the subject of a dispute in court. Platoro Inc. of Gary, Ind., which recovered the artifacts, won a decision in the Fifth Circuit Court of Appeals that it had a valid contract with the state for a 50-50 share of the treasure.

House interim committee on housing the treasure concluded it should become the property of the permanent school fund, and transferred around the state in a mobile unit occasionally, so school children can see it in their communities.

REGISTRATION EXTENSION VOTED
A bill to extend voter registration through February called through the Senate 27-1 but ran into a delay in the House.

Another Senate bill passed to the House would provide for precinct-by-precinct reporting of statewide election returns to the secretary of state. Still another would change the name of Pan American College, Edinburg, to Pan American University.

Boy Scout Anniversary To Be February Month Long Celebration

Boy Scout Week in 1971 is out, it will be replaced by a month-long anniversary celebration in February, according to Harold Yarborough, Goldthwaite, Comanche Trail President.

The yearly observance of the anniversary of the founding of the Nation's largest youth organization will now extend an entire month for Scouts, Troops, and Posts to hold meetings and other activities to focus attention on the anniversary of the Boy Scouts of America.

Boy Scout Week was valid in old days, but now we need something that more accurately describes the celebration of our anniversary," Yarborough said. The actual birthday anniversary, February 8, will still be observed as a part of the month's activities.

Highlight of the celebration in the Comanche Trail Council, which serves 8 counties, will be the launching of Project SOAR (Save Our American Resources), the yearlong conservation Good Turn. More than 1,500 local Scouts and leaders will join in conservation projects that continue a 60-year history of teaching and practicing environmental protection, Yarborough said.

Among other local features for the anniversary celebration will be Scout-O-Rama in Brownwood, February 13th and the Scout-O-Rama in Stephenville February 20th.

Eagles To Close Basketball Season Friday Night Against Dublin Here

By COACH RANDY BAKER
The basketball season is just all but over at Goldthwaite for this season. While it has been a frustrating season it has also been a good one. The Eagles will close out the year of 1970-71 against Dublin, Friday night at Goldthwaite. Game time is 7:00. With only one game remaining, the De Leon boys have captured the boys' title while the Cross Plains and Dublin girls are tied for first. Before this was determined, however, it looked as if four teams in the boys division could come out on top: De Leon and Cross Plains were tied at 4-1 after the first round and Goldthwaite and

Dublin were 3-2 each. Goldthwaite would have had to gone undefeated in the second round to capture the district title and they almost did.

In the second round it was Goldthwaite over Early 55-33; De Leon 64-Goldthwaite 60 in an over-time; Cross Plains 67-Goldthwaite 66; and Goldthwaite 60-Ranger 41.

When you consider losing the district championship by only that small a margin is what we mean by "frustrating."

In the game played Tuesday night against Ranger the girls lost 37-29. Stephanie Saylor was high point with 21 points, while Marilyn Roberts had 8 points.

In the boys game Kennon McLean had 22 points, Johnny Johnson 14 points, and Eric Wright had 13 points, to lead the scoring. The Goldthwaite boys are 14-6 for the season and 5-4 in district play. The girls are 2-14 for the season and 1-8 in district play.

Local Girl Scout Finance Drive Will Get Underway Friday Morning

Goldthwaite Girl Scouts' annual fund drive will kick off February 5, 1971. The need is especially urgent this year as the goal was not reached last year—and improvements to the Scout house has exhausted funds and further improvements are needed, it was reported.

Dr. M. A. Childress, Glynn Collier, Dr. Tom Cody Graves, and Charles Studer are heading the drive and other workers will be calling on business firms to ask them to give to this important youth program. "It is hoped that consideration will be given to the increasing donations so that the \$700 goal will be attained in the shortest possible time," officials stated in announcing the drive.

Adults working in the girl-centered program this year are: Chairman — Mrs. Janis Odum; Camp Chairman — Mrs. Olieta King; Personnel Chairman — Mrs. Glynn Collier; Program Chairman — Mrs. Nathan Carothers; Public Relations — Mrs. Randal Rafliff; Treasurer—Mrs. Arnold Roberts.

Troop leaders are: Mrs. Stanley Bessent, Mrs. Glynn Collier, Mrs. Nathan Carothers, Mrs. Tom Cody Graves, Mrs. Harry Smith, Mrs. Olieta King, Mrs. Janis Odum, and Mrs. Levin Pierce.

Goldthwaite presently has three troops: A Brownie troop for 2nd and 3rd grade girls; a Junior troop for 4th, 5th and 6th grade girls; and a Cadette troop for 7th, 8th and 9th grade girls.

In giving a breakdown of how the money will be spent, Dr. Childress outlined the following: For the year 1971, Council dues are \$450 — which goes to help pay the salaries of the professional staff who give training and guidance to our loyal Girl Scout volunteers. Also, the money paid to the council assures a coordinated program with special emphasis on health and safety aspects in all of its different phases — including camping.

The remainder of the budget remains in Goldthwaite to cover such expenses as utility bills,

insurance, upkeep and maintenance of the Girl Scout house; baby-sitting expenses for leaders who avail themselves of the training courses offered; for subsidizing the local day camp for girls of the community; and for subsidizing local program events for all the troops.

It is important that the community give its whole-hearted support to this fund drive so the girls of the community may benefit from this informal, educational program, Dr. Childress said.

Anyone desiring to donate may leave it at the bank with Glynn Collier or Mrs. June Roberts.

'Mulches For Your Garden,' Leaflet Now Available Free At SCS Office

Garden mulches and how to use them is the subject of a new leaflet available from the USDA Soil Conservation Service.

Charles F. Studer, SCS district conservationist at Goldthwaite, said the leaflet "Mulches For Your Garden," has the best and most concise explanation of how to use mulches and compost in a garden that he has ever seen.

"The leaflet explains how mulches cushion falling raindrops which reduces soil loss and soil compaction," Studer said. "Mulches keep soil cool in the summer, conserving moisture; they also furnish food for earthworms which are valuable for aerating the soil. Organic matter added by mulches helps keep soil crumbly and easy to work."

Studer said some mulches are more valuable if composted before using. The new publication shows how to build a simple compost bin out of wire or boards and is complete with drawings and pictures.

The leaflet lists the number of cupful of various kinds of fertilizer, wood ashes, or epsom salts to add to a bushel of compost to speed decomposition and to increase the compost's plant nutrient value. Details are also given on how to make acid com-
