been granted funds to operate a Summer Head Start Program to begin June 7 and ending on July 10, 1971, it was announced by Supt. Gilbert Davis.

This program will be for children who will be five years old by June 1, 1971 and six years old by September 1, 1971.

Head Start is a program the local school has had in the past and it will be offered as it was in the past.

Children must be five years and five months and must meet one of the following guidelines: 1. A child who cannot speak, read, and comprehend the English Language to the extent that he is not familiar with the common English Language words that are necessary for normal progress in the first grade, or 2. A child who is from a family whose income meets OEO requirements.

Supt. Davis stated that school officials need to know if children are interested in this program. Interested persons who know of children who may qualify for either of these programs are requested to contact Supt. inches of rainfall in Gilbert Davis or Elementary for the month of Principal, James Dean for apaccording to his of- plication blanks. As soon as the local group has review the information and suggested any changes necessary a computerized Community Analysis Report will be available that shows how Goldthwaite compares with other cities of similar size on the factors that industrialists look for in locating new plants. Using the Community Analysis Report as a guide, Goldthwaite leaders will be able to plan effective measures to spur local economic

"The next phase in the development of the computer program is to match Goldthwaite plant location resources with a profile of the location requirements of all types of expanding industries." Reed said.

"This will enable us at the ommission to help you concentrate your industrial development program on companies you have the best chance of attracting to Goldthwaite," Reed continued.

Statewide, more than 14,000 business and civic leaders in 390 Texas cities will receive the special citations for their part in making the new program

Local leaders receiving citations were: Hoyett Browning, Gilbert Davis, Norman Duren, Warren Duren, Cecil Egger, Billie Helen Jernigan, Robert L. Johnson, Frank McClung, James Reese, Jack M. Rutland, M. A. Taylor, L. J. Ward, Hollis G. Wiggins, and W. C. Barnett.

THE GOLDTHWAITE EAGLE-MULLIN ENTERPRISE Goldthwaite, Texas, Thursday, March 4, 1971

Back when today's adults were growing up, one out of every ten babies died before its first birthday. Now, advances in medical science are aving millions of young lives each year. Yet the cost of the better medical care available today is actually less than the best care you could get when you were a child!

The reason: new treatments and new medicines developed by the nedical profession and the pharmaceutical industry.

A dramatic case in point is mastoiditis in children. Surgery was often able to save the child's life, but sometimes left him with a deaf ear.

Nowadays, the doctor is often able to cure him with perhaps \$25 worth of potent new medicines, and thus save the expense of an operation and

But most important, these new drugs are saving children's lives-by the millions. Once, the four most deadly child-killers were diphtheria. whooping cough, scarlet fever, and pneumonia. Nowadays, the number of deaths from all of these causes combined is actually less than the number of children killed by accidents.

And medical progress continues. Today, the dollar you spend for prompt and proper medical care buys more than ever before—and may well represent one of the really extraordinary bargains of your life. -Reprinted from a copyrighted advertisement published by Parke, Davis Company, Detroit 32, Michigan.

SJR 5 - To remove the Constitutional ceiling on aid to the aged, blind and disabled and fix \$55 million maximum on aid to families with dependent children. An \$80 million ceiling now applies to all four categories. Unless it is increased (via the May vote), reductions in AFDC will be necessary.

SJR 15 - To establish an official state commission to map ethical standards for state legislators and other officials and to set their pay. Critics lamblasted the measure as a device of lawmakers to get a pay raise at a time when the public is demanding legislative reforms.

SJR 17 - Authorizing a \$100 million bond issue to finance state aid to local units of government on water treatment

HJR 21 - To permit submission of future constitutional amendments in special as well as regular sessions.

First on the ballot, determined by public drawing, will be SJR 15. Second will be HJR 21: third SJR 5 and fourth SJR 17.
