Entered as Second-class Mail Matter at the Post Office in Goldthwaite, Texas 76844, under the Act of Congress of March 3, 1879.

AUSTIN, TEXAS — While the 1973 Legislature managed to avoid a tax bill, outlook for 1975 is "bleak," with new revenue needs ranging up to \$700 million, according to Texas Research League.

Lt. Gov. Bill Hobby earlier came up with a similar gloomy estimate of a \$533 million tax boost during the next regular legislative session, but Gov. Dolph Briscoe declined to agree.

According to Texas Research League, state spending from key funds is expected to increase by \$550 million in 1976-77, and the increase could run as high as \$850 million to \$1 billion.

Revenues, meanwhile, are due to rise \$550 million to \$625 million over the present biennium.

However, TRL cautions these factors must also be considered:

- + Federal revenue sharing funds (which accounted for \$316 million of 1974-75 income) will drop by at least \$100 million, because Texas received a three-year allocation to spend in a two-year period for the current budget.
- + An estimated \$156 million surplus at the beginning of the next biennium will decrease from \$75 million-to-\$100 million depending on bills signed by Gov. Briscoe.
- + "With the highest projected spending increase (\$1,050 billion), the 1975 Legislature appar-

ently would find itself faced with the need to find \$600-\$700 million in additional biennial revenues," said a new TRL report. "Even (an \$850 million spending hike), means projecting a biennial revenue need of \$400-\$500 million."

If the next legislature decides to overhaul school finance formulas, a biennial cost increase of perhaps another \$300 million can be anticipated, TRL concluded.

Briscoe, at the national governors conference in Nevada, refused to be pessimistic and promised budgeting innovations and other economy moves which he feels can check a tax boost.

DIM VIEW OF CONSTITUTION CHANGE — County officials are getting together to fight any constitutional change which drastically alter county government according to Judge Robert W. Calvert, chairman of the Tex. Constitutional Revision Commission.

Following hearings in Corpus Christi, Calvert said he sees "an incipient opposition to any suggested changes in county government."

He cited three letters from county officials expressing a dim view toward tampering with their jobs. Calvert said the Commission is committed to no course on the subject.

The 37-member body is concluding its hearings over the state and will make recommendations to the legislature next November. Lawmakers will sit as a constitutional convention next year. Calvert urged legislators to attend the hearings in eight cities this month. Committees will begin drafts on conclusion of the public discussions.

The remainder of the constitutional hearings are set as follows: Friday, June 15, Beaumont, Orange and Port Arthur; Thursday, June 21, Abilene; Friday, June 22, Wichita Falls; Thursday, June 28, Waco; and Friday, June 29, Austin.

COURTS SPEAK — Unsafe conditions in public housing units are grounds for suits where tenants are injured, the State Supreme Court held in a case growing out of a death due to a defective heater.

In another case, the High Court upheld lower court judgments of \$197,500 in damages against Mobil Pipeline Company on behalf of the family of a Mobil Oil Company employee who died in a Beaumont explosion.

The U. S. Supreme Court in Washington, meanwhile, upheld a Texas law requiring immunization of school children against several diseases. The top court ruled 7-2 that states cannot indirectly tax liquor sales on U. S. Military bases.

AG OPINIONS — County commissioners can spend county funds to provide for parking and a service building for county-owned vehicles and parking for the public having business in the courthouse, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

- + In an election contest, on notice of appeal, district clerks should prepare a transcript and forward it to the court of civil appeals clerk before delivering it to attorneys for the appellant.
- + The Board of Chiropractic Examiners can adopt rules limiting the size of newspaper advertisements by chiropractors.
- + County clerks are not authorized to set filing fees for discovery proceedings if an action is still pending on the docket at the time the proceedings are instituted. If no action is pending, clerks are entitled to a fee of \$3 for each instrument issued but not for filing instruments prepared by others.

Clayton is a conservative Democrat.

Other candidates include Reps. Fred Head of Troup, James Nugent of Kerrville, Carl Parker of Port Arthur and Dave Finney of Fort Worth. Rep. DeWitt Hale of Corpus Christi is also regarded as another strong possibility.

APPOINTMENTS — Tom Browning of Athens was named acting director of the Parks and Wildlife Department law enforcement division after Executive Director Clayton T. Garrison fired Stetson Reed.

Governor Briscoe designated Ronald Thomason of Weatherford as Texas State Artist for 1973-74. A. C. Gentry Jr. of Tyler was selected alternate state artist and Bette Lou Voorhis of Austin as alternate for 1974-75.

Omer F. Poorman of Houston will succeed W. E. Carmichael as Houston district highway engineer June 30 when Carmichael retires.

Elray N. Hardy of Wichita Falls has been picked as outstanding veterans employment representative for 1973.

Dale Steltie of Austin is new administrative assistant on the Texas Mass Transportation Commission staff.

EMPLOYMENT STEADY — Unemployment in Texas remained at 2.8 per cent during April.

Texas Employment Commission said the jobless rate has remained the same for three straight months — the first time that has happened.

The 1972 rate for the same time of year was 3.3 per cent. About 139,500 Texans were job hunting in mid-April. Lubbock and Austin had the lowest rates of unemployment — 1.7 per cent and 1.8 per cent.

U. S. Rural Electrification Administration has approved a \$3 million loan to Guadalupe Valley Telephone Cooperative Inc. in New Braunfels.

Governor Briscoe set July 17 as the date for a special election to fill the vacancy created by resignation of Sen. Charles Herring of Austin to become Lower Colorado River Authority general manager.

Farmers are having trouble getting diesel fuel for harvest vehicles, according to Agriculture Commissioner John White.

The Office of Economic Opportunity approved nearly \$1.5 million in grants to nine Texas Cities — San Antonio, Amarillo, Corpus Christi, Austin, Dallas, El Paso, Fort Worth, Houston, and Lubbock.

Briscoe was named to the executive committee of the national governors conference at the recent meeting in Nevada.

Cigarette taxes dropped off \$34,186 last month below 1972. Total take was still more than \$21 million.

Reduced fire, extended coverage and homeowner insurance rates were approved for 12 more companies operating in the state.

New federal requirements for "need surveys" were announced as a basis for allocating fiscal 1975 grant money to construct sewage treatment facilities.

The Consumer Alert
by John L. Hill
Attorney General

AUSTIN - One of the most difficult, and most time-consuming, tasks of the Attorney General's office is carrying out the duty of collecting state sales taxes after they have been certified "delinquent" by the State Comptroller. Thirteen of the 198 attorneys in my department, and about one fourth of our 91 clerical personnel work on this problem - the Taxation Division. It is a problem. And I believe it is one which directly affects the consumer, since you (and me) are my family, and every Texan) are the ones who pay this tax, and you should be the ones to reap the benefits of the revenues it produces.

Many of us resisted the idea of the sales tax when it was first introduced in Texas 12 years ago. And when the one-percent city sales tax was added, and when the State tax went up to four percent, we fussed a lot more. But there is no way around the fact that our sales taxes do pay for a large part of the public services which are available. In 1972, net State revenues from sales taxes paid into the treasury provided \$818,172,597 - nearly one billion dollars - for education, public health, agricultural programs, oil and gas regulation, judicial, and legal and regulatory services.

In addition to that, the revenue-hungry city governments which levy one cent of every five sales tax pennies paid received some \$178 million in sales tax shares to provide local services. While the great majority - at least 95 per cent - of businessmen who have the responsibility of collecting sales taxes from the consumer have been passing them on to the State of Texas every three months as required, there has been a small, but significant number of sales tax permittees who have not.

The State Comptroller attempts to collect from them, and if that does not produce payment, he certifies the tax as "delinquent," so the Attorney General's office can take action. Last year, more than \$12 million worth of unpaid sales taxes was certified to our office, and almost half of that amount was due from sales tax permittees who already were delinquent from a previous three-month period!

The Senate committee which studied the delinquent sales tax situation estimated that the loss of these revenues through failure to pass them on to the State actually passed the \$20-million mark, and may have been as high as \$50 million. Although my Taxation Division makes every effort to recover these dollars so they can be put to public purposes, sometimes it is impossible. For instance, if a firm already has gone out of business by the time we can file suit, there is no legal way to reach the permittee.

The irony of this situation is that the laws which created other state taxes which effect less people and do not produce for public benefit carry a mandatory security requirement, so the State can be assured of collection. Thankfully, the Legislature recently passed a bill sponsored by Representatives Terry Doyle and Camm Lary and Senator Be Harris to correct that problem by requiring security, such as bond, from sales tax licensees with unproven or poor payment records.

MRS. DUTCH SMITH

Well, old blue Monday is here again and its trying to rain. We have .4 of a inch since yesterday.

We had lunch with our children, The Forrest Jernigans. Our grandson, Jimmy, and Melody and Sidney were there and we enjoyed them all so. Our neighbor, Mrs. Bill Lewis, was called to Temple to be with her sister who is very ill.

Bill Hightower and Bill Harris spent last Monday.

I went to Brownwood on business.

Mrs. Gloria Harris of San Antonio visited us last Sunday.

Mr. and Mrs. L. D. Young of Tulla came by and spent Sunday night with us. They had been to Bellville to attend their son's wedding.

Owen Smith of Arlington visited us Tuesday and we went to Austin to visit Owen's son and family and eat supper with them. I visited Mrs. Alice Vaughn Sunday evening. Alice is always an inspiration to me. I always enjoy her.

We had a card from Jesse, our grandson. He has been in Pennsylvania. He visited Niagara Falls and is really enjoying his vacation.

But we are ready for him to come home. He will be back Thursday.

Our children from Burnet, Mr. and Mrs. Johnnie Smith and Cliff and Margaret's dad, Carl Brown, of Temple visited Friday night.

Margaret and Johnnie Smith spent the night but Cliff went home with his granddad.

THE MILLS MINISTER

JOE WOODRUM, Minister of Christ, Goldthwaite

We ask many questions each week. We ask about another person's health. We ask about the health of a child. We ask about the health of a business. We ask about the health of a nation. We ask about the health of a world. We ask about the health of a soul.

One of the most important questions we are asked is, "What must I do to be saved?" Our eternal destiny depends upon our receiving the correct answer to this question. As we search God's Word, we discover that this same question was asked four times by different people in the New Testament.

A rich young man asked Jesus, "Good teacher, what must I do to inherit eternal life?" (Mark 10:17). The great crowd after Jesus' death asked, "What shall I do?" (Acts 22:10). Finally, the jailer of Philippi in the dark night asked, "Men, what must I do to be saved?" (Acts 16:30).

When we carefully analyze the answers given to these four questions, we discover that the answer to each is the same: "Repent, and be baptized in the name of Jesus Christ for the forgiveness of your sins; and you will receive the gift of the Holy Spirit." (Acts 2:38). A preacher Ananias asked for Jesus told Saul, "Rise and be baptized, wash away your sins, calling on the name of the Lord Jesus, and you will be saved." (Acts 22:16).

When we carefully analyze the answers, we discover what the one of us must do to be saved.

- saved. We find four important things listed:
- 1) Believe in the Lord Jesus!
 - 2) Repent!
 - 3) Be baptized to wash away sins!
 - 4) Follow Jesus!
- Are you willing to do these things that you might receive God's wonderful gift of salvation?

Morelands Observe 50th Anniversary

Mrs. Blanche Featherston attended the 50th Wedding celebration of her brother and wife, Mr. and Mrs. Walter C. Moreland, at their home located at 704 Avenue D, Brownwood, Sunday, June 10th.

Walter Moreland, a native of Shenandoah County, Virginia, grew up in the Pleasant Grove Community of Mills County. He and Vera E. Klinefelter were married June 9, 1923 in Milford, Iowa. They moved to Goldthwaite in 1936 and to Brownwood in 1937 where they have resided since.

Their children, Billy and wife, Danna of San Antonio; James and wife, Rena of Brownwood; Arline and husband, Lynn McBride of Fort Worth and Mary Emma and husband, Ralph Gilbert of Pennsylvania, hosted the open house.

The Morelands have 9 grandchildren and one great grandchild. All but two were in Brownwood for the family reunion and open house.

Others from Goldthwaite attending were Mrs. Viola Moreland, Mr. and Mrs. Herbert Faulkner, Mr. and Mrs. Charles Dennard, Mr. and Mrs. Larry Dalton, Mrs. Elva Moreland, Mrs. Floyd Manuel and Miss Mae Featherston.

Highway Department Warns Motorists of Construction Work

AUSTIN — Texans have always respected flags—there have been six of them in the history of the State. Now there is a seventh flag to look for to save lives and prevent injury—the red warning flag denoting highway construction and maintenance.

This summer crews will be on the job working with heavy equipment. Drivers should be ready to obey directions of flagmen who guide traffic through and around construction obstacles.

Being a flagman is considered the hardest job on some crews because it is both tiring and dangerous. Motorists can make this job easier by slowing down when they first see the flagman and then by obeying his signals. The flagman generally uses the flag

and hand signals to stop, slow or alert traffic and generally uses hand signals only to instruct it to proceed.

In addition to the flagmen, Highway Department signs will be posted at the approaches to all construction sites warning motorists to slow down, to avoid passing, and to be ready for restricted land traffic or possible detours.

Motorists should drive with extra care through highway construction and maintenance projects where the roadway may be rough, and where heavy equipment may be parked beside the highway lanes constituting hazards.

A Weekly Report Of Agri-Business News

Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

Texas Bats .333... Egg Production Below Earlier Levels... Cattle and Calves Marketed Show Declines.

Of nine selected categories of vegetable production, Texas is first in three of them, giving the state a .333 batting average. Texas is first in the nation in production of cabbage, spinach, and watermelons for the year 1972, according to the Texas Crop and Livestock Reporting Service.

In production of fresh market vegetables, Texas is third in the nation outranked by California and Florida. In total vegetable production, Texas is in fourth place; California, Wisconsin and Florida are ahead of the state in that category.

Watermelon production in Texas last year totaled 70,000 acres; spinach production totaled 5,500; and cabbage production totaled 19,000 acres.

On a county basis, Hidalgo County is Texas' leading vegetable producer with a total of 60,000 acres. Other counties in the top 10 in total vegetable production are Frio, Zavala, Cameron, Deaf Smith, Starr, Castro, La Salle, Willacy, and Duval.

Hidalgo County is the state's leader in production of cabbage, cantaloupes, carrots, onions. Frio County is the state's leader in production of watermelons.

Other rankings of the state show the importance of Texas to vegetable production for the nation.

Texas is second in cantaloupe production, second in carrot production, fourth in green peppers, second in onions.

Total vegetable acreage in Texas during 1972 amounted to 213,100 acres. Complete details on the vegetable industry in the state are included in the 1972 Texas Vegetable Statistics. A copy may be obtained by writing the Texas Department of Agriculture, Box 12847, Austin, Texas 78711.

SALES of cattle, calves, sheep, goats and hogs showed moderate declines in Texas.

Cattle and calves marketed through auctions numbered 427,000 head, 33 per cent below a month ago. Sheep sales at 79,000 head were 38 per cent below a year ago. Goat sales at 30,000 were 25 per cent below a year ago.

Hogs sold at 34,000 head were 32 per cent below a year and a month ago.

EGG production in Texas during April showed a 10 per cent reduction from a year ago and one per cent less than the previous month.

Texas hens are still not quite up to the national average on a laying basis. Texas eggs laid daily per 100 hens averaged 62.6 during April. Nationwide, the average was 63.8 eggs laid daily per 100 hens.

Egg-type chicks hatched in Texas during April increased two per cent from last year. The national total was virtually the same as a year ago.

FUEL shortages are being reported from various parts of Texas by agriculture producers. Farmers who run short of fuel are requested to report it to the Texas Department of Agriculture or to their county Agricultural Stabilization and Conservation Service office.

Agricultural industries have first priority in the use of fuel, according to federal guidelines on a voluntary compliance basis. More stringent regulations are to be enforced if necessary.

Rites Held Saturday, June 9 For N. O. (Shorty) Pafford

Final rites for N. O. (Shorty) Pafford were conducted Saturday, June 9th, 1973, at 2 p.m. in Wilkins Chapel in Goldthwaite, Texas.

Joe Langford Jr. Employed In West Germany

Joe Langford Jr., son of Mr. and Mrs. Joe Langford, is presently working for Beral Bromsbelage, Marionheide, West Germany. This town is a few miles from Cologne, a major Ger-

man City in the Rhineland. Jody was accompanied by Per Seahelm, a friend and classmate. They both will be senior at the University of Texas this fall. They flew from Dallas to New

York by Braniff and from New York to Zurich, Switzerland by Swiss Airline. From Zurich they flew to Cologne by German Air-

line. The past weekend, they spent in Dusseldorf, Germany, a rich and elegant city. They visited the great Gothic Cathedral while in Cologne. This great church was built in the 1200s long before the machine age and is one of the finest of Medieval Gothic Cathedrals.

Amsterdam in the Netherlands is where they will spend their next weekend. They have purchased Eureral passes that lets them go any place in Western Europe by train and they intend to take off a few weeks before returning to school at Austin and visit many places in France, Italy and other European Countries.

The company they work for makes brakes for the German Automobile industry. Their pay is good as they make eight marks an hour. The company provided nice living quarters for the boys when they arrived.

They will get to visit behind the Iron Curtain.

Jody is the grandson of Mr. and Mrs. Henry Veneable of here.

Reminder

About Signs

AUSTIN — Owners of signs along Interstate and federal-aid primary highways face a June 30 deadline to apply for a permit and a license for them.

The Texas Highway Beautification Act, in effect since June of 1972, requires owners of signs which are within 660 feet of Interstate or federal-aid primary highways and are visible from main traffic lanes to file permit requests with the district offices of the Texas Highway Dept. The permits cost \$5 each.

Before permits can be approved, sign owners must obtain a \$25 state license and post \$2,500 bond for each county in which they have a sign. Maximum bonds of \$10,000 are required of owners with signs in more than three counties.

Both license and bond applications can be obtained from Right of Way Division, Texas Highway Department, P. O. Box 5075, Austin, 78763, or any Highway Dept. district office.

Although approximately 15,000 permits have been approved it is estimated that thousands of signs remain in violation of the act.

Permits should be requested from the following Highway Dept. District Offices: P. O. Box 1549, U. S. 183 (Northeast), Brownwood, Texas, 76801 or telephone 646-2591.

MRS. DEAN YOUNG

**Kay Freeland, Dean Young
Wedding Announced**

Miss Kay Freeland became the bride of Dean Young Monday at 7:30 p.m. in Cleo Vista Park Baptist Church with Rev. John Morgan officiating.

The bride is the daughter of Mr. and Mrs. D. K. Freeland of El Paso. Parents of the groom are Mr. and Mrs. Eugene Young of Niles, Michigan.

Given in marriage by her father, the bride wore a formal

gown of white ala mode accented with Cluny lace and a jeweled neckline. She carried a nosegay of white, pink and lavender roses with gypsophylla.

Kim Freeland, sister of the bride, was the maid of honor. Bridesmaids were Miss Stacey Young, niece of the bridegroom, Marsha Westover, Miss Sherry Goswick and Miss Shelly Echols.

Their pink dotted Swiss floor length gowns were trimmed with white Cluny lace, and each carried a long stemmed pink rose.

Norman Young of Niles served his brother as best man. Keith Mills, Lowell Jordan, Keith Bassham and Bob McCutcheon were groomsmen.

A reception followed in the home of the bride's parents, Miss Oleta Daniel, the bride's aunt of Goldthwaite, was a member of the house party.

The couple will take a wedding trip enroute to Springfield where they will be at home. The bridegroom is a sophomore theology major at Baptist Bible College there and is employed by Rayco Manufacturing Company.

The bride is a senior education major at BSC and is a graduate of Eastwood High School.

The bride is the granddaughter of Mr. and Mrs. Bill Daniel of this city.

**Gibbards
Celebrate
Anniversary**

Mr. and Mrs. Henry Gibbard Sr., formerly of Mullin, but presently living at the Heritage Home in Goldthwaite, celebrated their 50th Wedding Anniversary recently.

They were married at Leake, Texas in 1923 and moved to Mills County in 1930. Their family consist of six children, twenty grandchildren and five great grandchildren.

Approximately forty relatives attended the celebration at the home of their daughter, Mr. and Mrs. J. C. Stewart of Goldthwaite.

Attending were five of their six children and their families. They are Mr. and Mrs. Bill Gibbard of Euless; Mr. and Mrs. Walter Jones of Lampasas, Mr. and Mrs. Butch Gibbard of Mullin; Mr. and Mrs. J. C. Stewart and Mr. and Mrs. Henry Gibbard all of Goldthwaite. Also a granddaughter, Mr. and Mrs. Roger Featherston and family of Fort Worth. Mr. and Mrs. Foy Gibbard of Maryland was unable to attend.

BY BOB POAGE
U. S. Congressman

Just an hour ago the Senate passed its version of farm legislation. Although our Committee has been working steadily, with as many as three Subcommittees in session almost every day, we are still some distance from a farm bill. The House will probably use the same basic approach; that is, the establishment of some kind of minimum target price which the government will, in effect, guarantee. Such a program at present price levels will cost the government absolutely nothing. At the same time it will guarantee producers that they will not suffer the catastrophic losses that have been suffered at times in the past.

The most serious problems arise from the fact that although the Senate Committee had carefully separated the economic and social objectives, the Senators as a whole could not resist the temptation to go on record as trying to penalize the "big producer." The bill just passed contains a provision that no farmer can draw more than \$20,000. Of course, no one can draw anything unless prices break to disastrous levels while cost of production remains high. Should this occur, consumers are going to need some incentive to secure adequate farm production and adequate farm production can only be had by encouraging those who produce the major portion of our crops. This includes "big" producers.

A few minutes before the Senate voted to limit payments to producers, the House voted to pay as much as 55 percent of certain transportation costs (Merchant Marine) and, of course, place no limit on the amount one individual or company could receive because what we want is transportation under the American flag. I think it is just as important that we have production under the American flag.

We continue to receive complaints about the energy shortage. We do all we can to help work out specific problems and in a few cases we have been able to assist. The rules specifically provide a priority for farm needs so if your dealer can't get needed farm fuel, write us (please don't telephone, write) so we can give the Oil Policy Board the specific information it needs.

If we are going to use the oil that we have in Alaska and need in the Continental United States, we are going to have to let the companies build a pipeline. And, if we are going to use imported oil, which we can

buy in the Middle East, we are going to have to let somebody build some refineries along the East Coast. These actions may very well result in less than perfect environmental situations. I think this means we have got to make a choice but I believe that choice can and should be a reasonable compromise between the different objectives which we are seeking.

One businessman to another: "Recession doesn't bother me. I was a failure during the boom."

This fellow I know is such a poor driver that the police have issued him a season ticket.

"I hear your sister is sick in bed, Johnny," remarked a neighbor. "Nothing serious I hope." "Oh, no," answered Johnny. "We were just playing a game to see who could lean the farthest out the window," and she won."
