Registration Required Despite No Draft Law

AUSTIN — Colonel Melvin
Glantz, the State Director of
Selective Service for Texas, re-
sented young men that they still
register with Selective Service
even though there is no draft.
Glantz urged those men who
are not registered to do so
promptly, saying: "Failure to
register is a violation of Federal
law and could result in prose-
cution by the Department of
Justice."

The President's authority to
draft men into the Armed Forces
expired on July 1, 1973. The
Selective Administration does not
plan to seek an extension of this
authority, and the Defense
Department is relying on volun-
teer enlistments to supply mili-
tary manpower.
Glantz emphasized that only
the authority to induct expired,
and other provisions of the Mil-
itary Selective Service Act
remain in force. The annual
registration will be held, young men
will continue to register, and
local boards will continue to
classify them as to their
eligibility for possible military
service should Congress author-
ize the resumption of inductions

Garden Club Reviews Program

Mrs. N. M. Coats, President
of the Goldthwaite Garden Club,
called a meeting of the club in
the Mills County State Bank Com-
munity Room at 2 o'clock on July
25th to present the budget and
the program for the coming year
to the executive officers.

Mrs. Judy Beavers, County
Home Demonstration Agent, was
excepted as an active member of
the club.

The first regular meeting
of the year will be the third
Wednesday in September.

Layton Black Speaker For Bible Class

Layton Black will be the
guest speaker at the Men's Down-
town Bible Class this week.
The class meets every
Sunday morning at 9:30 in the
Community Room at Mills County
State Bank. All are invited
to attend.

in the event of a national
emergency.

The State Director said the
law requires all male persons,
except certain nonimmigrant
aliens, to register with Selective
Service within 30 days before
or after their 18th birthday. He
said: "Young men have three
legal obligations: (1) they must
register at age 18, (2) they must
notify their local draft board when
they change address, and (3) they
must carry their draft cards with
them until their liability for service
expires, for most men this is
age 26."

The Colonel explained that
Selective Service is undergoing
a major reorganization and that
as Selective Service goes into
a standby operation, no inductions
are taking place. Many local
officers are being relocated,
with the result of fewer draft
board offices in Texas. Glantz
said there are places of registra-
tion provided in each Texas
county for the convenience of
young men in registering.

The registrars for Local
Board No. 84 is Mills County,
Cecil Ira Egger, Mills County
Courthouse, Goldthwaite, Texas.

In Mills County

Social Security benefits were
being paid to residents of Mills
County at a rate of \$132,000 a
month at the close of 1972, R. R.
Tuley Jr., social security manager
in Abilene said today.

Of the social security benefi-
ciaries living in Mills County,
861 are retired workers and their
dependents. Another 214 are re-
ceiving benefits as the survivors
of workers who have died, and
101 are getting benefits as dis-
abled workers or their depen-
dents.

Tuley pointed out that al-
though most social security benefi-
ciaries in the Abilene district
are older people, about two out
of every eleven are under age
60. In Mills County, 148 people
under age 60 are collecting social
security payments each month.
Nearly 53 are under age 18,
receiving payments because a
working father or mother has
died or is getting social security
disability or retirement benefits.
Most of the 20 beneficiaries in
Mills County between 18 and 22
years of age, are getting student's
benefits under a provision in the
social security law permitting the
continuation of a child's benefits
beyond his 18th birthday, and up
to age 22, if the child is attending
school full time.

Also in this 18-22 age group,
Tuley said, are some other types

USDA Warns Screwworms Could Cause Summer Problems

MISSION, JULY 23 — Screw-
worm cases are on the rise in
Texas and the end may not be
in sight until November 1, warns
the U. S. Department of Agricul-
ture (USDA). As of July 20,
Texas had recorded 224 cases,
almost three times as many as
had been recorded for the same
period in June.

"From now until November
1 is considered the crucial time
in the screwworm program," ex-
plained Dr. M. E. Meadows, veteri-
narian-in-charge of USDA's
Screwworm Eradication

"Screwworm activity in-
creases as the summer lengthens
until case numbers peak in Sept.
and Oct. With the recent rains
in the Hill Country area adding
to the already ideal screwworm
environment, livestock producers
and pet owners will have to be
twice as alert for screwworm in-
festations."

Gholson's Injuries Not Serious

Billy Roy Gholson of Gold-
thwaite accidentally shot himself
in the side Saturday night while
working in the Star vicinity.

He was pulling a .22 caliber
rifle from his pickup when the
gun discharged, with the bullet
striking him a little above waist
high in the right side.

His injury was not serious
however, and he was released
from Childress Hospital Monday.

of beneficiaries, illustrating the
broad family protection that the
social security program provides
workers of all ages. Some are
children of retired, disabled, or
deceased workers who became
disabled before they reached 22
and who will probably never be
able to work and become self-
supporting. The monthly benefi-
fits of these young people,
severely handicapped by physical
or mental disabilities, will con-
tinue indefinitely. Benefits are
also payable to the mother if
the disabled son or daughter is
in the mother's care.

Tuley said that another
relatively small but significant
group of youthful social security
beneficiaries are those who are
receiving benefits as disabled
workers.

while sales for the first half of
1973 totalled \$119,984,282 with 55
per cent of the yearly goal of
\$216.6 million goal achieved.

Commission, in cooperation
with USDA's Animal and Plant
Health Inspection Service, is
spraying infested herds with a
pesticide free of charge. Live-
stock producers must have sub-
mitted a confirmed screwworm
sample in order to qualify for
the spraying.

"We are also air-dropping
over 40 million sterile screw-
worm flies in the Hill Country
region each week in an effort
to control the reproductive
cycle," explained Dr. Meadows.

Mills County Agent Warns Horse, Mule Owners To Protect Animals From VEE

By DANNY LONG
Mills County Agent

With summer weather and
rains, mosquitoes are becoming
more plentiful. And since they
transmit sleeping sickness to
horses, steps should be taken
now to protect these animals.
All horses, mules, asses
and ponies should be vaccinated
for the three types of equine
encephalomyelitis (horse sleep-
ing sickness) — Eastern and
Western equine encephalomye-
litis and Venezuelan equine en-
cephalomyelitis (VEE). VEE
caused many horse's deaths when
it ravaged Mexico and southern
Texas in 1971.

The three diseases are
caused by different viruses
carried by mosquitoes, and there-
fore separate vaccinations are
required.

Vaccine for the Eastern and
Western strains of the disease
is in a combine form and annual
booster shots should be given
to horses after the initial vac-
cination. The VEE vaccine pro-
vides ample protection for 18
months.

Horses that were not vac-
cinated since the 1971 emergency
be revaccinated as soon as

possible. Also, colts vaccinated
while under six months of age
should be revaccinated.

The Texas Animal Health
Commission requires that all
horses moving to shows be
vaccinated for VEE.

Death often results after
animals contact encephalomye-
litis. Outward signs of the three
diseases include depression, lack
of appetite and drowsiness.
Animals may frequently grind
their teeth and stagger when
moving.

Local veterinarians can pro-
vide information on vaccination
procedures.

Just when the weather is
beginning to settle after an un-
predictable winter and early
spring and the beef picture should
begin to brighten for the pro-
ducer, it's not happening.

"There are a number of
things clouding the beef picture
at a time when production should
be increasing to meet the rapidly
growing demand," points out
Dr. Ed Uvacek, livestock market-
ing specialist for the Texas Agri-
cultural Extension Service.

FHA Closes Biggest Year In Mills & Brown Counties

The Farmers Home Adminis-
tration has just concluded its
biggest year ever in Brown and
Mills County, according to Harold
Kennedy, FHA county supervisor.
The fiscal year for the
administration began July 1,
1972, and ended June 30 this year.
A total of 564 loans were ap-
proved during that period, Ken-
nedy explained for a value of
\$2,285,950, the largest year ever
for FHA in the two-county area.
A total of 551 loans were also

closed during that period, he ad-
ded.

In all, 1,529 families in Brown
and Mills counties benefitted
from loans from FHA, Kennedy
said.

One loan went to Bangs as a
water association loan.

In all, 1,529 families in Brown
and Mills counties benefitted
from loans from FHA, Kennedy
said.

Also during the year, FHA is-
sued 12 conditional commitments
were made for \$147,200 now
under construction.

At the start of the new fiscal
year July 1, Delton Barnett heads
the Mills County FHA committee.
Other members are C. R. Emyd
and Elton Bufe of Priddy. James
L. Aldridge of Mullin no longer
is a member of the committee.

Food Stamps Increase Buying Power

Certification of persons wish-
ing to participate in the state-
wide food stamp program will
begin in August, according to
Bluford Mauldin.

"If you are unemployed, don't
make much money or receive
public assistance you may be eli-
gible for food stamps," Mr.
Mauldin explained. "With food
stamps, you spend the same
amount you presently do for gro-
ceries but receive more and
better food for your money."

Food stamps increase the
purchasing power of low-income
households by 10 to 30 percent
or even more. And food stamps
are a good means for using
America's agricultural abun-
dant while helping those who
can't afford to eat better.

Certification is done at
local welfare office. When apply-
ing for food stamps, persons
should take with them proof of
income, shelter expenses, medi-
cal bills and bank accounts.

The State Department of
Public Welfare administers the
program which is financed by the
State of Texas and the United
States Department of Agricul-
ture.

severe late winter weather
followed by spring flooding, a ban
on the use of DES (diethylstil-
bestrol) as a growth stimulant,
price ceilings and increasing ex-
porting of pork.

"All these things will influence
the red meat supplies that will
be available this year. It looks
like those supplies will be less
than anticipated even though fed
cattle marketings are expected
to be five percent greater this
spring than last and summer mar-
ketings should also be large."

The Texas A&M University
specialist contends that higher
feeder cattle prices are limiting
the fed cattle output. Future
production is being restrained by
concern over feed supplies, later
this year, he points out.

Cow-calf producers should look
for a slackening of feeder prices
during the summer and fall, ac-
cording to Uvacek. However,
feeder prices will generally stay
above the fed cattle market. The
specialist advises cow-calf pro-
ducers to keep an eye on the fed
cattle market as changes there
could be the key to changes in
the feeder market. Higher finish-
ing costs may push downward on

TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS — Texas may be better off under its present type of government than the so-called cabinet form being advanced in preparation for constitutional revision, according to Texas Research League.

League staff members in a new report to the Constitutional Revision Commission point to advantages of the present system and offer these key observations:

—While there is room for improvement, Texas government is not the "administrative jungle" portrayed by critics. There are 174 legal entities which might qualify as state agencies, but fewer than 30 of them control 99 per cent of money and personnel in state government.

—Texas still has one of the most economical big state governments in the nation. Ohio and Missouri rate slightly lower, but Texas spends more in support of its schools than those two states. Major suggestions by the League for economies have been in the areas of education and welfare financing. Overhead administration and control functions cost 1.9 per cent of Texas' total budget, while the national average is 2.6 per cent.

—Major Texas agencies such as the Highway Department, Education Agency, Department of Corrections and Department of Public Safety rate high nationally. The League found few agencies in other states "clearly superior" to Texas counterparts.

—While advocates of the cabinet theory claim it provides for holding the governor accountable for all aspects of government administration, political realities dictate that he can be held accountable at the polls only once or twice. Further, it is difficult for voters to assess thousands of acts by the chief executive during any four years.

—Whether authority to appoint 20 cabinet officials but no sub-cabinet-level personnel would strengthen the governor in policy-making is debatable. Merit system employment to insulate state employees from the spoils system is considered part of the cabinet theory. This means echelons below the cabinet level are beyond the governor's control.

The present pattern of part-time boards, according to the League, provides opportunity for participation in government by many key citizens, who, in turn, provide a powerful reservoir of support for a governor's policies.

The League suggests more fiscal power for the governor and authority to order governmental reorganization subject to legislative veto.

TOP 100 PRESCRIPTIONS STUDIED — Computers are being used by the Texas Pharmacy Board to determine the top 100 prescription drugs being sold in this state.

Under new state law, H. B. 750, druggists must post the prices of the 100 most prescribed drugs at their counters this fall.

The new law will also prohibit advertising about "wholesale" "cut rate" prices, and limit drug stores to advertising about services, keeping "family records" and dangers of mixing certain types of drugs.

Consumers will be able to check the prices of the top 100 most common drugs at each prescription counter, states Joe Arnette, Texas Pharmacy Board, who is using the computer method to make the state-wide survey.

AUTO RATES CUT — True to its promise, the State Board of Insurance ordered an average statewide reduction of 4.3 per cent in private auto coverage premiums, estimating 90 per cent of motorists will save at least \$25 million. New rates are effective August 27.

Further, according to Board Chairman Joe Christie, the competitive rating law September 1 will mean further savings for many, Christie said one company has indicated it will ask authority to cut its rates 15 per cent across the board when the competitive rating law takes effect.

Another law passed by the legislature this year, however, may cancel out the savings for some and actually bring a slight increase. The persons injury protection coverage of at least \$2,500 for medical expenses and lost earnings or services due to accident, regardless of who was at fault, will be added to all policies automatically unless motorists reject it in writing.

Christie said even rejections written on "brown paper sacks" will be considered valid. P. I. P. coverage costs \$22 to \$44, but many will substitute it for medical coverage which already costs \$15 to \$22 a year.

JOB AID PROMISED — Disaster unemployment assistance will be paid to those unemployed as a result of storms and flooding in Jefferson, Orange, Red River and Upshur counties last March 23-April 30.

Governor Dolph Briscoe advised those who think they are eligible to apply to their nearest Texas Employment Commission office. Applications must be filed within 30 days of July 24 when Briscoe made his announcement of the assistance offer.

SHORT SNORTS

Mills Cox of Houston has been named special supervisor-manager for Lo-Vaca Gathering Company in new court action. His job is to try and get additional gas supplies for 400 big customers.

President Nixon recently declared flooded Matagorda and Newton counties as major disaster areas. Nixon earlier declared Jefferson, Orange, Upshur, Red River, Brazoria, Galveston, Hardin, Harris, Jasper, Liberty, Montgomery, Polk, Tyler and San Jacinto counties in that category. Briscoe has asked Nixon to add San Patricio county to the list.

Texas Water Rights Commission approved annexation of Richardson by the North Texas Municipal Water District.

The second annual Texas Folklife Festival will be held at the Institute of Texan Cultures in San Antonio September 6-9.

A runoff election for the 14th state senate district vacancy in Travis, Blanco, Burnet, Caldwell and Hays counties has been set for August 14.

The State Health Department warned of possible eye burns from a "space laser game" found in bus stations, bowling alleys and coin-operated amusement places.

Services for George Lee Walton, 78, of Highland Haven near Marble Falls were conducted July 13, 1973, in the Kingland Community Church. Rev. Fred Brucks officiated: Burial was in the Lakeland Hills Memorial Park.

Mr. Walton, a life long resident of Mills County, passed away July 11, 1973, in a San Antonio hospital.

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN — Back in the days when the holder of a bank checking account could write a draft on a brown paper sack, or a piece of wood bark, it probably wasn't as hard to keep track of an account balance as it is today when Texas banks print personalized drafts, process checks with computers, and offer a myriad of helpful services.

But one of the major problems merchants encounter today is the proliferation of worthless checks which are given, in the main, it seems, by well-meaning consumers who simply find it hard to master the mathematics of checking accounts.

Hundreds of millions of drafts on Texas banks are written annually by people who find this a convenient way to keep a record of payment on everything from insurance premiums, to mortgage coupons, to sandwich luncheons and drugstore purchases.

Usually, everything works out to the satisfaction of the account holder, the merchant, and the bank depository.

Many times, however, checks do "bounce" — that is to say, get returned to the merchant with a bank explanation of "insufficient funds."

In that event, the merchant will notify the check writer by certified mail of the return, with a request that the insufficient check be redeemed by a certain date.

In most cases, the giver of the check credits right away, since a good credit record is one of the most-prized assets in today's society.

If the consumer does not answer the notice about a returned check for up to \$50 however, the merchant can take the worthless check — together with his certified mail receipt — to the county attorney for collection and or legal action on what is classified as a misdemeanor crime.

(As of August 27, 1973, when a new law takes effect, the county attorneys will have jurisdiction on worthless checks for up to \$200. The legal penalty for prosecution will be up to two years in county jail and or a maximum fine of \$1,000.)

Realizing that the average "worthless check" writer suffered from poor bookkeeping ability, rather than any intention of perpetrating a fraud, most county attorneys proceed with care from that point.

They understand, also that the merchant's interest is only in keeping his books straight, by securing payment on the checks. In Travis County (Austin) where some 300,000 Texans live, County Attorney Ned Granger begins by writing a letter to the person of which the merchant complained. "Generally," Granger says, "it's a housewife's, or student's, disease."

He says that his office received 16,802 complaints in 1972 regarding worthless checks totaling \$262,155, and through contacts with those complained of, \$130,929 was recovered for the merchants involved.

If the county attorney's letter is ignored, he asks the local sheriff to send the check writer a summons, asking him to appear in county court. If there is still no answer after 30 to 60 days, a warrant is issued for the person's arrest. And if he doesn't show up for the court hearing, the defendant is cited for contempt of court, as well as for the worthless check charge.

Most cases are resolved before such drastic action could be required. When a case does come to trial, most defendants plead guilty and work out an arrangement through probation to repay the amount involved.

The citizens who get this predicament are not the same as the so-called "hot check artist," county attorneys tell us. The people who purposefully write bad checks usually are itinerant, and manage to be in the next county or state by the time their checks bounce. Another professional ploy is to counterfeit the checks, or forge them.

The "worthless check" charge most often involves an otherwise-honest citizen.

Officials such as district and county attorneys, and the Attorney General, are dedicated to law enforcement. But they don't enjoy the business of having to take action against persons who try to be law-abiding in all other respects, any more than

Erven Fisher Assumes New Duties July 22

ERVEN L. FISHER JR.

Erven L. Fisher Jr., district manager for Social Security in Big Springs since the office opened in 1962, will assume duties as district manager of the Odessa district effective July 22. He will continue to be responsible for the seven county Big Spring area in addition to the fifteen counties served by the Odessa district office.

Fisher will direct the work of forty or more employees engaged in the administration of Social Security programs in the twenty-two county area.

The son of Mr. and Mrs. E. L. Fisher of Rt. 1, Gustine, Fisher is a native of Mills Co. He graduated from Mullin High School, served in the Navy in WWII and in 1946 married Dean Stevens, daughter of Mr. and Mrs. V. T. Stevens of Goldthwaite. They have four children, Erven III of Arlington, Mrs. Mark Shepard of San Angelo and David, 18, and Diane, 13, both at home.

They have one grandson, Sean Eric Fisher.

Fisher went to Daniel Baker College, Arlington State and Howard County College. He has attended management seminars, the latest at the University of Oklahoma.

He is a past president of the five state Dallas Region Social Security Management Association, chairman of the Howard County Health and Welfare Association, and has been a Kiwanian, director of United Way and active in various Scout functions.

For several years Mrs. Fisher owned and operated a newcomer greeting service in Big Spring. She is an avid collector of antiques and now devotes her time to her family, church duties and her collecting hobbies. The family plans to live in Midland, Texas.

House Speaker Price Daniel Jr. directed his Human Resources Committee to conduct a full investigation of all child care, education and child guidance facilities. State Welfare Board gave unlicensed child-care facilities notice of a new law requiring them to get licensed or face fines and possible jail terms.

the merchants do. It would be so much easier if all of the check writing public would make scrupulous attempts to keep their checkbooks balanced, and if they do receive "insufficient check" notices which they consider to be mistakes, take actions to get the errors corrected immediately.

Services Held July 30 For Mrs. Daisy Sellers

Funeral services were conducted for Mrs. Daisy May Bledsoe Sellers of Houston on Monday, July 30, 1973, at 10 a.m. from the First Baptist Church of Goldthwaite.

Memorial service was held at the Goldthwaite Memorial Cemetery, Goldthwaite, Texas, Thursday, August 2, 1973, at 10 a.m. Arrangements were under the direction of Wilkins Funeral Home.

Mrs. Sellers passed away Sunday, July 29, 1973, at Houston, Texas. She was born May 4, 1894 in Mills County, Texas, the daughter of Benjamin Franklin Bledsoe and Florence Petty Bledsoe.

She was married to Lem Sellers March 25, 1917, in Mills County, Texas. Mrs. Sellers who was preceded in death by her husband, moved from Goldthwaite to Houston in 1969.

A member of the Baptist Church she is survived by one daughter, Mrs. Veseva James of Houston; one son, Morris Y. Sellers of Goldthwaite; five grandchildren, Mrs. Ann Sellers Ruebsahm, Lem Sellers, John Sellers, John James III and Phillip James; one brother, Carl Bledsoe, Stephenville and one sister, Miss Gussie Bledsoe of Clovis, New Mexico.

Pallbearers were Adrain Long, John Jackson, Lewis Hudson, Dr. D. R. Kerby, Charley McLean, and Houston Duren.

Texas Sheep & Goat Raisers Elect New Officers

Walter Mertz, Eldorado, was elected new president of the Texas Sheep and Goat Raisers' Assn. in San Antonio Tuesday, July 17.

Armer Earwood, Sonora, was named first vice president and Dr. Bud Turner, Water Valley, second vice president. Mertz succeeds John Cargile of San Antonio.

The Association's predatory animal committee asked Texas Agriculture Commissioner John C. White to register the M-44 (Coyote Getter) for use in predator control.

Fred Agnich, Dallas state representative and chairman of a House wildlife affairs subcommittee, announced that his group will begin a series of West and Central Texas hearings on predator animal losses, the first to be August 20 in Fort Stockton. TS&GRA announced 14,000 responses to 33,000 predator loss questionnaires distributed among livestock producers. Losses reported totaled 66,000 sheep and goats and 6,000 calves, which executive secretary Bill Sims translated into a potential loss of 10 million pounds of red meat from consumers' dinner tables.

The TS&GRA membership authorized the officers to work with the National Wool Growers Assn. in planning some new way to finance wool, lamb and mohair promotion. Absence of incentive payments is cutting off the usual source of funds. A checkoff on sales of wool, mohair and lambs was suggested as a source.

Stanley Frank, publisher of West Texas Livestock Weekly, was given a special newsman's award for outstanding contributions to the industry. Richard Powell, Alpine, and Pete Jacoby, Ozona, were given special vocational agriculture teacher and county agent awards. Virgil J. Powell, San Angelo ranchman, was presented the Fred Earwood memorial award for unselfish contributions to the industry.

Route 3, Hamilton, Texas

HICKMAN HIGHLIGHTS -

WELCOME - Most recent additions to our family are Alma Hanna, Gracie Alexander, Martha Bessent, Jewell Partridge, Edgar Simpson and Robert Langham. We also welcome our new administrator, Marie Hamilton. We are fortunate to have her and appreciate all she had done for us already.

GOOD TIMES - are little daily things - Henry Egger and Lucielle Karnes singing hymns; Jewell Partridge, Zora Roberts and Annie Brim painting ceramics; Ruby Kattes and Mabel Holt crocheting; Lillian Carter, Anna Littlepage and Amber Fessler sitting on the front porch watching the clouds and admiring the view; Luke Kimmons growing tomatoes while Lula eats them; Jake Long and Jim Hamrick letting Maggie Lucas and Vida Johnson beat them at dominos.

FUN - is the Square Dealers Square Dance Club which came on Tuesday and Georgia Huse who would dance, too, if she could just find a good looking partner.

HARMONY - is the Downtown Men's Bible Class which didn't let the stormy weather keep them from coming to be with us Thursday night and Mrs. Nathan Carothers and Beverly who entertained us Wednesday afternoon.

BEAUTY - is Callie Raley's sweet smile; Bessie Zieschang's angelic face; the gentle manner of Nelle Norman; Pearl Holland's precious grin; the patience of Maggie Truitt; and Hattie Vann's wisdom.

LOOKING FORWARD IN AUG. to seeing Bryan Oglesby's new slides and having Betty Rountree back with the art class; a bingo party, watermelon feast, drive in the country, an ice cream party, the GHS twirlers and the Camp Pecan Bayou singers in addition to regularly scheduled activities; August birthday - Lillian Carter, Aug. 8th; Roach Fox, 9th; Sam McCasland, 11th, Cordell Simpson, 23rd; Lucretia Rothwell, 26th and Alma Hanna, 27th.

PARTING THOUGHT - Take time to think - thought are the source of power. Take time to play - play is the secret of perpetual youth. Take time to love - loving is what makes living worthwhile. Take time to be friendly - friendships give life a delicious flavor. Take time to laugh - laughter is the music of the soul. Take time to give - any day of the year is too short for selfishness. Take time to show appreciation - thanks is the frosting on the cake of life.

Women first achieved suffrage in the state of Wyoming. Emeralds are the most precious stones.
