Water Under The Bridge

by G.F.B.

The Bridges household has a boss . . . an 8 pound 4 ounce baby girl, born Sunday, October 21st at 6:47 a. m. Little Bethany Ann is welcomed to the world by two brothers, Stuart - 6, Steven - 3, both who are excited over the arrival of the new baby.

This birth marks the tenth anniversary for Mr. and Mrs. George W. Bridges of Flatonia as the fifth grandchild for Mrs. Mary Laksovsky of Moulton. Greenwood Community Hospital was the scene of the event.

The average family budget has increased about 31 percent in the last five years for housing, 18 percent on clothing and 26 percent on food.

That sounds fairly reasonable for inflation and all, but the astounding part of it all is that the cost of government has increased a whopping 60 percent in these same five years. That's twice the increase that was to be borne by the citizen, and it's too much.

But then, there's always hope that the situation hereabouts will improve. The oldtimers used to say that what was needed was new funerals, but what is needed today is a few elections . . .

In the thirties you could see a movie for a dime. Now it costs you \$5.00 for a television set and what do you see? Those same movies.

Under the free enterprise system, if at first you don't succeed, you drop in another coin and kick the vending machine.

Deposits Up At Mills County Bank

Deposits at Mills County State Bank amount to \$18,899,758.89 at the close of business on October 19, 1973. This represents an increase of \$678,412.03 over a three-month period.

Resources for the last quarter amounted to \$16,423,858.98, while at the present are at a total of \$16,928,454.80. This represents an increase of \$504,595.82.

LCRA Director Pleads For Electricity Conservation

This letter was received by local city officials last week in a continuing effort to help evade a power crisis.

"TO: LCRA Wholesale and Retail Customers

"From: Charles Herring, General Manager

"RE: Curtailment of Power

"I have observed recently that although all of our customers are trying in varying degrees to curtail their use of electricity, in some cases there seems to be the feeling that curtailment may not be as necessary as we have suggested to you in the past.

"We have been able this summer to produce enough electricity to meet most of our power demands due to the curtailments which you have undertaken. We have done this at some sacrifice to our normal operations. For example, our peakload this summer was 705 thousand kilowatts, whereas our steam generating plants are capable of producing only approximately 620 thousand kilowatts. In order to meet your demands the deficit was made up through the use of hydropower out of our lakes, resulting in a reduction of the lake level, for instance, at Buchanan, of some 18 or 19 feet of head which we may need very badly this winter to provide supplemental power.

"We have recently been notified by the Lo-Vaca Gathering Company, who delivers natural gas to us for Coastal States, that in December they can assure us only of 41 million cubic feet per day, whereas we have estimated that we will need 102.9 million cubic feet per day. This figure is out to be a curtailment of 61.9 percent in our gas supply. Based on these projections we would be required to burn in the neighborhood of 433,000 gallons of fuel oil per day if we are to keep our plants operating at demand capacity. In our opinion, it will be almost an impossibility to purchase this quantity of oil at any price, and equally difficult to get it trucked in and fed into our boilers. For this reason we have been and are trying to accumulate several million gallons of fuel oil to try to meet the crisis which we will face if the projections are anywhere near correct. We also have been notified to expect curtailments of varying amounts from November through August, 1974 and beyond. Gas curtailments will be a way of life for Texas electric utilities from now on.

"At present we have in storage approximately 8.5 million gallons; however, we feel that this

quantity and the additional quantities we may be able to buy may not be sufficient to meet our requirements unless we secure full cooperation from all of our customers in eliminating all unnecessary uses of electricity. Even then, we may fall short of meeting all of the loads on our system. We will, of course, do everything that we can to avert such a situation, but we will need your help and understanding.

"What I am trying to say is that although we have been able to meet our curtailed power load this summer through a series of fortunate circumstances and tremendous lot of work and planning from week to week, both on your part and ours, we are going to face a very difficult task if we have a winter anything like last year.

"I therefore urge you to continue your present curtailment programs and to institute others if you can, to the end that all the people we serve can be supplied the electricity they actually NEED this winter as distinguished from what they would normally use in ordinary times. Your help and support are urgently requested and needed.

Charles Herring"

Schools Offer Kindergarten

The Goldthwaite School will offer a Kindergarten Program for students who will be six years of age on September 1, 1974. This will be children who should start to school next year. The State says we must offer one half year Kindergarten Program if there is enough interest.

The Baptist Church has a Kindergarten Program and the school has a Head Start Program that are now in operation. It is not known how many students are eligible for this program that are not enrolled in these two programs.

Goldthwaite Schools must know if there are enough students interested in a full-day kindergarten program sponsored by the Texas Education Agency. If most of you had rather stay with the programs you now have, the school may not have the program. Officials of the school are asking the parents of any child who should start to school next year that is interested in the kindergarten program to check with the school and register their child.

Football Royalty

EAGLE HOMECOMING QUEEN AND CANDIDATES -- Miss Lee Ann Aldridge (center), a senior at Goldthwaite High School, was crowned Homecoming Queen last Friday night on Eagle Field during halftime activities at the Goldthwaite - Dublin game. She is the daughter of Mr. and Mrs.

Truett Aldridge of here. From left to right are homecoming candidates Miss Nancy Gist and Miss Sally Saylor. Escorts for the candidates were the captains of the Eagle team - Terry McLean, Steve Gist and Larry Elliott. -- Laughlin Studio Photo

Eagles Lose 11-A Opener; Play Glen Rose Saturday

1974 Schedule Finds Eagles Back In 10-A

Goldthwaite Schools will be in District 10-A for the school years 1974-75 and 1975-76 according to Supt. Gilbert Davis. Goldthwaite is presently in District 11-A. The Interscholastic League places all schools in districts according to their size. Redistricting of schools occurs every two years.

Following is the 1974-75 football schedule for GHS:

Sept. 6	San Saba	here
13	Hamilton	there
20	Richland Spgs.	here
27	Lometa	there
Oct. 4	Open	
+ 11	Cross Plains	there
+ 18	Dublin	there
+ 25	Ranger	here
+ Nov 1	Early	here
+ 8	Bangs	here
+ 15	De Leon	there

+ Indicates district games

Cemetery Working

There will be an all day cemetery working and a business meeting November 10, 1973, at the Regency Cemetery. New officers will be elected at that time. Everyone interested in this cemetery is invited to come.

Constitutional Revision Commission Completes New Proposed Constitution

The Constitutional Revision Commission has completed the text of the new Constitution they will propose to the Legislature November 1.

The completion of the proposed document ended nearly seven months of intensive work by the 37 members of the Revision Commission.

The Legislature will meet as a Constitutional Convention January 8 to consider the Commission's report and propose a new Constitution for the state of Texas. The Convention's recommendation must be approved by the voters at an election.

The Revision Commission was directed by Senate Concurrent Resolution 1 to study the existing Constitution, written in 1875, and recommend changes to the Legislature.

The new document contains a number of substantive changes, a great many of them aimed at increasing the flexibility and responsiveness of state government. The present Constitution was written in turbulent times. Texas was emerging from the bitter period of Reconstruction, recovering from martial law, disenfranchisement and autocratic rule by a Scalawag governor. In addition, Texans were outraged by the corruption in government wrought by land speculators, stock manipulators and railroad promoters.

The delegates to the 1875 Convention were not in a mood to grant their elected officials broad powers. The result was a very restrictive Constitution, wordy and highly statutory in nature. The 1875 Constitution is approximately 55,000 words long, five times longer than the United States Constitution and one of the longest state Constitutions.

The length is partially due to the amount of highly detailed statutory material and partially to the 212 amendments which have been added to adapt it to the needs of changing times.

Singing

The regular fourth Sunday singing will be held at the Center City Baptist Church October 28th from 2 p. m. until 4 p. m. Everyone is cordially invited to attend.

Childress Clinic & Hospital News Release

TUESDAY, OCTOBER 16
Admitted - Mattie John Cline and Lennie Horton, Goldthwaite
Discharged - Mary Killion

WEDNESDAY, OCTOBER 17
Discharged - Ethel Holland and Frank Booker

Discharged - Harvey A. Faught

SUNDAY, OCTOBER 21
No admittances or discharges

MONDAY, OCTOBER 22
Admitted - Mary Ellen Ferguson and Henry L. Egger of Goldthwaite, C. H. Black, Lometa, Henry Gibbard, Goldthwaite
Discharged - Annie McDearman

However, the Lions managed to outplay the Eagles on the scoreboard 32-7 in the first district encounter of the season.

"Goldthwaite played their best game of the season Friday night except for a few mistakes here and there," commented head coach Gene Aldridge. "Fumbling the ball six times in one game will overshadow any winning effort for a team. The boys played exceptionally well as a team Friday and put on a very good show despite the loss. Guerrero Siller averaged a total of 163 yards rushing while Larry Elliott tallied 106. Richard Covington and Steve Gist performed very good on the defensive line."

Goldthwaite's lone score for the night was made by Larry Elliott on a four-yard run. Eagle Tommy Standley was named 1973-74 Pep Squad Beau during halftime activities. Miss Lee Ann Aldridge was crowned football sweetheart and Liz Truitt and Randy Dumas were band honorees.

PLAY GLEN ROSE SATURDAY Saturday night at 7:30 the Birds will travel to Glen Rose for their second district game. Coach Aldridge feels like there is still a good chance for the Eagles in district play.

Absentee Voting

Absentee voting is now underway at the County Clerk's office located in the Mills County Courthouse. Elections for the nine constitutional amendments will be held Tuesday, November 6. Those wishing to vote on these amendments and who will be out of town November 6 should vote absentee in the clerk's office.

Band Royalty

Band Honorees -- During halftime activities at the Eagle - Lion game Friday night Miss Liz Truitt, daughter of Mr. and Mrs. Johnny Truitt, was chosen band sweetheart. Randy Dumas, son

of Mr. and Mrs. Earl Dumas, was chosen band beau. Sweetheart and Beau are chosen by members of the Goldthwaite Eagle Band. -- Laughlin Studio Photo

STATE CAPITAL
Highlights AND Sidelights
by Bill Boykin
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. - - Future development of major Texas water projects will come to a halt unless new standards laid down by the National Water Resources Council are reversed, Lt. Gov. Bill Hobby says.

Hobby, joined by State Sen. Max Sherman of Amarillo, and serving as spokesman for four Texas water advisory councils, urged President Nixon and Texas congressmen to alter the regulations.

"Unless this policy is reversed," said Hobby, "Texas stands to be harmed very substantially." The new principles and standards for planning water and related land resources are effective October 25.

While acknowledging that they have merit, Hobby said, they would destroy "the long-established partnership between federal and state governments for development of water resources . . . For all practical purposes, the thrust of principles and standards" wipes out the present-day mechanics for use and control of water, and falls short of practical substitutes."

A proposed "discount rate" feature, claimed Hobby, precludes federal participation in traditional development of water projects. The standards, he maintained, would further force impractical planning for projects on an instate basis.

In the last five years, more than \$850 million have been invested by the local, state and federal governments in Texas water projects. About a fourth of that was federal money.

Refusal by the federal government to finance in the future "non-reimbursable features" such as fish and wildlife, recreational benefits and flood control provisions would ban parts of water projects that "tend to enhance the environment," said Hobby.

DOUBLE-HEADER CONVENTION PLANNED - - Legislators are being polled on a proposal to split next year's constitutional convention into two sessions - - one from January 8 to April 6 and the second after mid-June.

Sen. Bill Meier of Euless offered the suggestion, contending that the convention may be poorly attended just before May and June primary elections. Many legislators, who are delegates to the convention, will face opponents for re-election.

The recess, as proposed by Meier, would give legislators nearly a month to campaign before the May primary and another month before the June runoff.

Meanwhile, House Speaker Price Daniel Jr. urged lawmakers to set a 90-day flexible and extendable timetable for the convention and try to finish the job of rewriting the constitution by early April. He said legislators can do it by making use of the research of the Constitutional Revision Commission as a beginning point. Daniel said taxpayers will be saved nearly \$2 million if the convention winds up in 90 days rather than extending over the full 170 days allowed.

ALLOWABLE STILL AT 100 PER CENT - - For the 20th straight month, the Texas Railroad Commission set the November statewide oil allowable at 100 per cent.

Uncertainty of supplies for winter months and possible cuts in imports from the Middle East

were cited by Chairman Jim Langdon.

Exceptions again were made for the East Texas Field, Kelly-Snyder, Tom O'Connor and several others, where the allowable was retained at less than 90 per cent of potential.

APPOINTMENTS - - Netum Steed and G. L. Vinson of Wichita Falls and Jack Warren of Tyler were named to the National Petroleum Council.

Gov. Dolph Briscoe appointed Hugh Hall Jr. of San Antonio to San Antonio River Authority board of directors; John A. Mehos of Galveston to the Gulf State Marine Fisheries Commission; and Alcus Greer of Houston and William H. Sharp of Lubbock (reappointments) to the Commission on Fire Protection Personnel Standards and Education.

State Insurance Board has extended the appointment of Clay Cotten of Austin as state insurance commissioner for two years.

AG OPINIONS - - Counties may use federal revenue sharing funds to contract with private non-profit corporations to construct recreational facilities for the aged, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:
+ There is no authority and no appropriation for paying state employees who resign or are dismissed (except in case of death) in lieu of accrued, unused vacation time.
+ A California non-profit dental service corporation is not providing dental service in Texas by entering a contract to pay for dental services of a Delaware corporation, including its Texas facility employees, where dentists are not chosen by employees.
+ The state comptroller must pay statutory witness fees for out-of-state witnesses into the court registry on certification by the judge that fees are necessary to compel attendance. A county can advance funds and be reimbursed by the state.
+ A State Insurance Board order authorizing companies to set unusual risk rates subject to later board approval is not authorized.
+ A reduction in appropriations for the State Board of Pardons and Paroles in event of refunding by the Criminal Justice Council of "continuing programs" during the fiscal year which ended August 31 is not required where a new program is funded September 1.
+ Status of an area from dry to wet can only be accomplished by a "for" vote on a legalizing proposition, and transformation of a wet area to a dry area can only be accomplished by an "against" vote on a prohibitory proposition. A city prohibitory election which does not result in a vote unfavorable to the sale of alcoholic beverages has no effect at all upon the status of the city or any part.
+ The owner of a title to a fractional interest in a patented survey less than total is not entitled to purchase only his proportionate share of the excess acreage in the survey.
COURTS SPEAK - - A three-judge federal court in Dallas adopted the so-called "Plan B" for Texas congressional reapportionment, which will require some readjustment of existing boundaries. Attorney General Hill said he has no plans for further appeals. Motions to intervene in the case were rejected as not "timely."
A Corpus Christi district judge set an October 26 hearing on a state motion to cite Roloff Evangelistic Enterprises for contempt in operating two youth care facilities without state licenses.
The Court of Criminal Appeals upheld four convictions, including two life sentences, of a Dallas man in the shooting of three.
BOLLWORM PLOWUP EXTENDED - - Agriculture Commissioner John White extended the cotton stalk destruction deadline "according to individual needs" in 14 rain-soaked South Texas counties.
An earlier extension had set the plow-up deadline for October 15 in zones 1 and 2 of the pink bollworm control area. Counties affected are Cameron, Hidalgo, Willacy, Starr, Zapata, Jim Hogg, Brooks, Kenedy, Webb, Duval, Jim Wells, Kleberg, Nueces and San Patricio.
AIR POLLUTION CONTROLS TO BE CHALLENGED - - Texas will challenge new federal air pollution controls in the Fifth Circuit Court of Appeals.
The controls seek to limit use of autos in Houston-Galveston, Dallas-Fort Worth and San Antonio. Austin-Waco and El Paso areas are also affected by the Environmental Protection Agency proposals.
The State contends EPA has

W. O. Smith
Receives Degree

On August 24, 1973, W. O. "Dan" Smith received the Doctor of Philosophy degree from the University of Minnesota in Minneapolis, Minnesota. The degree was in Vocational Education with emphasis upon curriculum development.

Dr. Smith was a teacher in the Arlington public schools from 1961 to 1970; he taught seven years at Sam Houston High School in Arlington.

He was one of 165 Vocational educators in the United States selected to participate in a National Vocational leadership program sponsored by the U. S. office of Education.

Dr. Smith, his wife Karen, and their two sons Kyle and Darrell, now live in Blackburg, Virginia, where he holds the rank of Assistant Professor at Virginia Tech.

Dr. Smith is the son of Mr. and Mrs. Owen Smith of Arlington, Tex., and is the great nephew of Mr. and Mrs. Dutch Smith.

failed to show any need for controls more stringent than the state's own and that the federal regulations may worsen pollution.

SHORT SNORTS
Texas Water Quality Board set a second hearing in Uvalde Oct. 25 to determine what regulation will be necessary in Bexar, Kinney, Uvalde, Medina, Kendall, Comal and Hays counties to protect the Edwards Underground Reservoir against pollution.

Texas Aeronautics Commission February 26 will hear the application of Southwest Airlines to extend jet service to the Rio Grande Valley.

Hearing on plans for first phase development of Mustang Island State Park is set by the Parks and Wildlife Department for November 15 here.

Texas Alcoholic Beverage Commission took more than \$1 million for the first time in a single month from beer, whisky and wine permits during Sept.

State Banking Board approved charters for First State Bank of Harker Heights and denied one for American Bank of Woodway.

More than 2,000 gathered here Tuesday (Oct. 23) for a Governor's conference on rural development.

The League of Women Voters is distributing a Spanish-language voters guide for the November 6 constitutional amendments election.

Mills County Extension Agent

With the growing emphasis on energy shortages, prepare one-meal meals in an electric skillet. Average electric skillet uses less power than a range element, far less than an oven. Besides saving electrical energy, it uses "homemaker energy" too. Meal cooked and served in the same container saves clean-up time. Unfortunately, many homemakers' electric skillets take up valuable storage space without being used. It's pretty costly when you don't use such an appliance. It's also expensive to store it. Proper care and maintenance play roles in conservation of resources - by eliminating unnecessary breakers, repairs and expenses, and by using acid and salty foods as little as possible to avoid pit-

ting the cooking surface. Let the skillet cool to room temperature before washing it. Cold water in a hot pan causes warping.

For best performance, wash skillet after each use with hot sudsy water. Also clean the outside and underneath to avoid burned grease build-up.

Steel wool can be used on stainless steel or aluminum pans, but only plastic or rubber scrubbers on teflon-coated ones.

Never immerse a heat control in water. Simply wipe clean with a damp cloth, then dry.

As a reminder to use it often, store skillet in an easy-to-reach spot.

Efficient use adds to the quality of living.

Garden Check List for October -

1. Apply a complete fertilizer to the lawn in early or mid-October at the rate of 15 to 20 pounds of 8-8-8 or equivalent per 1,000 square feet of area. In areas where cool season grasses are used, they are in active growth at this time. The warm season grasses (Bermuda and St. Augustine) will be better prepared for the winter dormant season.

2. Take time to observe the brilliant colors of many of our native plants. Consider including several of these in your landscape where adapted and suitable.

3. As October brings the gardening season to a close, give thought and attention to gardening equipment. As you clean tools and implements mark those needing repair so you can either do it yourself or take them to the shop during the slow season so it will be ready when needed next spring.

4. A bucket or tub of dry sand, to which a small amount of oil has been added, provides an excellent means of cleaning soil working tools.

5. Re-pot house plants. Use a rich garden soil or better yet, purchase one of the packaged potting soil mixes from your nursery or garden center. This will help eliminate many insect and disease problems.

6. Plant spring flowering bulbs and bulb-like plants in late October through November. Pre-cool tulip bulbs for 45 to 60 days at 40 degrees F. The vegetable drawer in the refrigerator makes an excellent chilling area.

7. Check broad-leaved evergreens such as Camellias, Gardenias, Holly, and Evonymus for scale insects. If present they can be controlled by spraying with dormant oil, Malathion or Diazinon. Do not use oil if temperatures of 85 degrees or higher are predicted within a few days.

8. Dig and store Caladium Tubers if they are large and healthy.

9. Continue to rake leaves and add to compost pile. Moisten all leaves thoroughly as they are placed in compost bin.

10. Prepare Tulip beds for those bulbs being chilled for November planting.

11. Control brown patch disease on lawns.

12. Flowering annuals to sow in October include: Cornflower, Larkspur, California Poppy, Sweet Alyssum, Blue Bonnets and Drummond Phlox.

13. Prepare pansy and sweet-pea beds.

14. Stake mums to protect from fall wind and rain.

15. Collect dried seed pods, pine cones, grass plumes, etc. for fall and winter bouquets.

Engagement Announced

Mrs. Frances Flores of Goldthwaite has announced the engagement of her daughter, Miss Mary Lou Flores, to Lupe Cisneroz, son of Mr. and Mrs. Thomas Cisneroz of San Saba. The wedding will be at 4:30 p. m. November 24 at the Calvary Baptist Mission in San Saba.

CHAPPELL HILL
BY: Pearl Crawford

We surely have received a lot of rain lately. We do have some warm sunshine now, though. The farmers are trying to get fall sowing finished.

Mr. and Mrs. Faulce of Lometa returned to their home after a long stay in the local hospital. They are relatives of Mrs. W. W. Ratliff and Mr. Floyd-Cook.

Our old neighbor Fred Sutherland has been very sick, but his wife Lizze reported he is much better now. We wish all the sick folks a speedy recovery.

We were so sorry about Authur Bryant's death. He was a long time resident of the Bryant Chappell community where he grew up and attended school. He was a wonderful person and a good neighbor. I have had the pleasure of visiting Mr. and Mrs. Bryant at their home in Goldthwaite. We will miss him.

Mr. and Mrs. Victor E. Kolber our old time publisher of the Goldthwaite Eagle, spent Wednesday with Miss Florence Jones. They enjoyed dinner and visited some old neighbors.

Mr. and Mrs. Crawford and Letricia visited Mr. and Mrs. W. A. Bufe Sunday.

Mr. and Mrs. Jimmy Partin and son visited their grandparents, Mr. and Mrs. Charley Perry Sunday.

Mr. and Mrs. Albert Evans were called to the Veterans Hospital in Kerrville where their two sons, Carl and Joe, are. They returned Sunday after spending a week with them.

Mr. and Mrs. Low Stahanke visited Mr. and Mrs. J. C. Wesson Sunday.

Mr. and Mrs. Stone Shipman and Mr. and Mrs. Howard Runnels and children visited Mr. and Mrs. Pearl Shipman Sunday.

Mrs. Richard Morrow visited Mrs. W. N. Swindle Wednesday.

A number have asked about an old neighbor, Mrs. W. A. Elms. Her son has moved back to the old home at Mullin.

Mr. and Mrs. W. W. Ratliff visited Fay Duffner at Austin recently.

George and Pearl Crawford visited Mr. and Mrs. A. L. Crawford Friday.
