

**Blood Mobile  
Schedules County  
Visit Saturday**

Saturday, September 6, has been set for the Mills County blood drive. Rev. Dan Connally, local blood program chairman, stated that on this date the people of Mills County and the surrounding area will have an opportunity to replace the blood used by local citizens. At this time, replacement can be made for anyone who has received blood at any hospital in the United States. Through an arrangement with West Texas Blood Service, all the blood needs of this county will be taken care of regardless of the location and can be replaced when the bloodmobile comes to this area.

Rev. Connally stated that this community can be very proud of its blood program in that this is one of the few that is coming close to replacing the blood used.

There is a severe shortage of blood in the United States and many more donors are needed. Only 2 percent of the people ever donate blood. The local hospital has used 171 units this year and a few in other hospitals. So far, 91 units have been replaced.

The blood bank personnel will be here from 10 to 5 Saturday and they are bringing more help and more beds so that there will be no waiting this time.

Give the gift of life. Give blood.

*The Way It Was-*

**The James William Kennedy Story**

Submitted by Mrs. M. F. Horton

Before 1887 Mills County was unheeded of. Williams Ranch, prior to the forming of Mills County from the fringes of Hamilton, Lampasas, Brown and Comanche Counties, was one of the earliest pioneer settlements in this section of the state. In the very early days of this settlement law enforcement officers in the above mentioned counties were content to let the law be, just as long as the mobs didn't overstep their bounds. This was a lawless land by mutual consent. However, when Williams Ranch began to develop and grow there was an overwhelming need for law and order. The first peace officers in Williams Ranch were Mr. W. S. Marshall, Justice of the Peace, and Mr. Asbury Collins, Constable. The W. W. Queen family moved to Williams Ranch, and Mr. Queen had the distinction of being deputized as peace officer in 1883 by the sheriff of Brown County, the first officer so deputized in the early area of the future Mills County.

There was no jail at Williams Ranch at the time, so Mr. Queen chained his law-breakers to his iron cookstove until proper conveyance to the Brown County Jail could be arranged. By the time Mills County was formed in 1887, the Indian troubles had ceased, and the mobs that rode by night and struck fear and terror into the hearts of every man, woman and child was about to be quelled. Our following generations have lived in this beautiful county, fearing nothing but an occasional enraged cow, or a bucking horse or rattlesnakes, which have been plentiful through every generation.

One of the early comers to this area was Mr. J. W. (Billy) Kennedy, father of Mrs. M. F. Horton of Goldthwaite. He was born March 12, 1862, in Washington County, Texas, on his father's ranch, eighteen miles west of Brenham. The family moved to Nails Creek when he was six years old, and his mother died four years later, in 1872. Billy went to live in the Ben Purcell home, where he attended the Burton and Lett-better Schools.

In June, 1880, Billy and his brother, Sam Kennedy, left Burton on horseback and headed west to Burnett County, Billy, at that time, was eighteen years old. They rode into Starickland on the San Gabriel River and Billy got his first job with the Alexander Ranch, near McClab Knob. Two years later he joined the "Lewis and Homer" cattle drive from Fayette County to near Buffalo Gap. On returning home, he went to work for Mr. John Stephens near Lometa. Billy, with his brother and a friend, Chris Byrd, out-fitted with their chuck wagon, horses and dogs, drove 2700 head of sheep to grass in what is now the Pleasant Grove area. There they found free grass, as tall and green as they had ever seen; plenty of water and no fences. This was an open range. There were rolling hills, with a few steeper mountains. The Kennedy boys and their companion came off the mountain above a spring, now known as the Will Horton Spring. The hill was steep, with no roads; only wild animal trails leading down

to the cool, clear water. It was necessary for the three boys to put a pole through the back wheels of the wagon, and to hold to a rope at the back of the wagon with all their strength, in order to slow the team enough to make a safe descent.

The next year Billy Kennedy helped to drive cattle, belonging to Mr. John Ware, up the old cattle trail to Quanah, Tex. At Old Senterfelt, they would fill their saddle bags, stock the chuck wagon and water supplies, and start on the drive, using the San Saba Peak as a land mark. The next stop for supplies was Williams Ranch where they talked with other cowboys and cattlemen, learning the news of the trail and surrounding country. When they reached Quanah, they left the cattle in greener pastures and returned to Big Valley, again stopping at Williams Ranch to rest and take home supplies.

Billy Kennedy started working again for Mr. John Stephens, and made several other cattle drives in the next few years.

In 1891, J. W. Kennedy returned to Lometa and bought a ranch on School Creek. There he married Virginia L. Smith and in 1910 bought a ranch at Rye Valley, Mills County, where he brought his family. Mrs. Kennedy passed away in 1911, and Mr. Kennedy died on October 13, 1947, and will be remembered by all who knew him as a true cowboy, rancher and one of the early settlers of Mills and surrounding counties.

**Area Dove Hunting Starts Off Slow**

As of the first day of dove season, September 1st, hunting was generally poor in most parts of the county according to B. R. Schriver, local game warden.

Only a few birds were scattered about the county, with the best hunting being in the grain fields around Fridky. Schriver says for hunters not to get discouraged, because the doves will become more plentiful as the season goes on.

**Scrimmage Successful**

At the end of the Goldthwaite-Santa Anna scrimmage Friday night, the Eagles had mustered one touchdown and held their opponents back for no score.

"The boys were slow in starting out Friday night, but by the second half of the game were looking a lot better, and really got a good work-out," commented Head Coach Gene Aldridge.

"Our defensive line put on a real good show. All-in-all, we had a number of improvements over last week's scrimmage," continued Aldridge.

FIRST GAME FRIDAY NIGHT  
Friday night the Eagles will play their first scheduled game of the '75 season against the San Saba 'Dillos. The game

will be staged at San Saba at eight o'clock.

**Arrested Monday**

**Jail Escapee Remains At Large**

A 24-year-old Abilene man escaped jail here Monday night and, as of press time Wednesday, is still on the loose.

The man, Floyd Robinson, was stopped as an alleged speeding violator by Mills County Highway Patrolman Ronnie Rush Monday afternoon. Robinson did not possess a valid Texas Operator's License, according to Rush. He was brought in to the Mills County Sheriff's office where bond was set by Deputy Sheriff Randal Ratliff at \$45 for speeding and no license. Robinson could not produce the money and there-

fore was jailed in lieu of fine.

He escaped the Mills County Jail by prying his way up through the ceiling and down into the open walkway to the lower floor. He did not walk off while being led to the jail, as earlier reports had indicated. He was discovered missing about 7:00 p.m. Monday.

Following a general search for Robinson, a local gasoline station attendant reported that a woman was at his establishment asking where the Mills County Park area was located. The attendant called the Sheriff's department and the woman was stopped on her way into town.

Local officers questioned the woman, identified as Doris Shead of Abilene, about Robinson and she said she had come to pick him up, as he had called from Goldthwaite. She was later arrested for carrying a handgun, and plead guilty in Mills County Court. She paid a \$50 fine, plus court costs, and was released.

**Spiritual Celebration Of America's Bicentennial**

In all our planning for the celebration of our nation's Bicentennial we dare not leave out our spiritual heritage. Our forefather's exodus to America was a search for many things, but one of the most important was religious freedom; the liberty to worship God in their own ways.

These founding fathers, who were mostly God fearing men, played an important role in the birth of our nation. One of their greatest contributions was the idea of separation of church and state, which was destined to become the First Amendment to the Constitution.

These founding fathers of our nation conceived a form of government in which any person could be at home and feel at home, any idea could be considered and any opinion could be expressed. These ideas came from their religious background. Among the most important forces that shaped our nation and her government were religious. The constitution's noble ideas of justice, freedom, and equality

for all persons are basic religious principles and written into our laws by men who could see their necessity for a true democracy. These ideas of democracy and freedom find their roots in the Bible.

Our Bicentennial celebration should lead to a better understanding and commitment to Christian citizenship, religious freedom, and personal liberty on the part of all believers in our nation. And, hopefully the Bicentennial will be a call to the people of our land to return to the religious convictions of our forefathers. What better way to celebrate America's Bicentennial?

**HEARING TESTS ARE IMPORTANT!**

If you have a hearing problem of any kind you owe it to yourself to have an Electronic Hearing Test made to find why, and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you, then you make your own decision. We never try to high-pressure you into buying anything. There are thousands of people today suffering from hard of hearing (even some who wear Hearing Aids) just because they waited too late to do something about it . . . don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Workshop at the Mauney Motel in Goldthwaite, Monday, Sept. 8th from 1:30 p.m. to 3 p.m. We invite you to come in for your free test. We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save you money. We are licensed by the State of Texas to fit and dispensing of Hearing Aids.

We are always close by when you need us. We are in the main office, (Skipper Building) every Friday in the Hamilton Building to run and assist you.

MRS. H. LEE BROWNING

## Laura Horton, Lee Browning Repeat Wedding Vows

First Baptist Church, Goldthwaite, was the setting for the third wedding of Miss Laura Marie Horton and H. Lee Browning, Jr. The Rev. Scooter McCurdy, Park Heights Baptist Church, San Angelo, officiated, assisted by Bro. Dan Annally, pastor, Goldthwaite First Baptist Church.

Parents of the couple are Mr. and Mrs. James Horton of Lometa and Mr. and Mrs. L. Browning, Goldthwaite.

Mrs. T. A. Head, organist, and Edith Browning, flutist, sister of the groom, provided musical music. Bobby Horton, guitarist, brother of the bride, and Edith Browning played and sang "Turn, Turn, Turn" as candles were lit by Bill Bishop of Goldthwaite and Edith Duncan, Lometa. They sang "Morning Has Broken" as the mothers were seated. Other selections were "The Gift of Never" and "Alleluia." "The Wedding Song" was sung by Bobby Horton. The church altar was decorated with four candelabra flanked by two tall baskets with arrangements of white carnations, fern and gip. A center piece held a large arrangement of white pompons, gip and fern with a large Bible, the unity candle and two small tapirs.

The background was of Swiss cane.

Given in marriage by her father, the bride wore a dress of imported Swiss organza. The fitted bodice was of Austrian lace with high scalloped neckline. Full bishop sleeves were capped and cuffed with Austrian lace. The skirt was highlighted with a bridal point of Austrian lace above a full flounce and flowed into a cathedral train. Her elbow length veil of illusion was held by a Juliet cap, bordered by a wide band of lace imported from Portugal. She carried a cascade bouquet of pompons, lily of the valley and sprengeri fern.

Honor attendants for the couple were Mrs. Jimmie Horton, sister-in-law of the bride, of Austin, Miss Patti McKinney, cousin of the bride, Westlaco, Miss Linda Evins, Edinburg, Miss Cindy Staton, Dallas, and Mrs. Donald Westlaco, Grapeland, escorted by groomsmen Benny Humphries, Brady, Jimmie Horton and Danny Horton, brothers of the bride, of Austin, Steve Gist, Goldthwaite, and Robin Dean of San Marcos.

Bridesmaids wore long halter dresses of mint green interlock knit with matching elbow length capes and attached hoods. They carried long stemmed white carnations with green and white streamers. Bill Bishop and Richard Duncan of Goldthwaite and Keith Duncan and Wayne Lilly of Lometa served as ushers.

Parents of the bride hosted the reception in the Youth Center of the First Baptist Church. The bride's table was covered with white satin cloth overlaid with white net trimmed with English Ivy. A large arrangement of white pompons, baby's breath and fern, flanked by two tall tapirs, served as centerpiece. Lime punch was served from a crystal bowl

on a stand. The bride's cake, made and decorated by her mother, was an all-white Lady Baltimore trimmed with nosegays of white carnations, baby's breath and greenery.

The groom's table was covered with identical cloths overlaid with white satin trimmed with gold braid. The table was laid with brass coffee service and the centerpiece was a pedestalled brass bowl with a fresh fruit arrangement, flanked by two tapirs on brass candlesticks. The chocolate groom's cake, made by the bride's mother, was decorated with lace scroll work, and served from a brass tray.

Miss Billie Hairston of Lometa registered guests. Others in the house party were Mrs. T. A. Head, Mrs. V. A. Hudson, Mrs. Bill Bishop, Jr., Miss Anice Browning and Miss Alisa Browning, sisters of the groom, all of Goldthwaite, Mrs. Wayne Henry and Mrs. Holly Witherspoon of Lometa, Mrs. Floyd McKinney, aunt of the bride, Westlaco, Miss Cathy Taylor, Colorado, Mrs. Terry Simmons, Waco, and Mrs. Craig Sullivan, Austin.

For traveling the bride chose a moss green suit with flowered blouse, made by her mother. For accessories she chose brown suede sandals and hat.

Parents of the bridegroom hosted a rehearsal dinner Aug. 22, at the Colorado River ranch of Mr. and Mrs. Billy Hale.

Pre-nuptial parties honoring the bride were a Bridal Coffee at the home of Mrs. T. A. Head, Goldthwaite; a lingerie shower at the home of Mrs. W. R. Bagley, Lometa; a Bridal Tea in the Banquet Room, First Baptist Church, Goldthwaite; and a rice bag party in the home of Mrs. Leonard Williams, Lometa.

It is now time to begin your preparations for controlling the pecan weevil in commercial orchards and yard trees. Timing of the spray is unique to each orchard and only the individual grower can determine the timing for his orchard or individual trees. Spray date determination is dependent on the specific monitoring of each orchard for the emergence of the adult weevil. This emergence does not occur at the same time each year.

Checking for weevil emergence can be done by several methods. Two of the most successful methods are tree bump-

ing and caging. "Tree bumping" entails the practice of actually bumping trees with a heavily padded pole and a sheet spread on the ground to catch the falling weevil. When 3-6 weevils fall from a given scout tree, it is time to spray. Bumping should be done every 2-3 days during the month of September. "Caging" makes use of triangular wire cages placed around in the orchard under specific trees (4 cages per tree) at the drip line. The weevils collect in the cages as they emerge from the soil. Again, when 3-6 weevils are collected per tree, it is time to spray.

Regardless of the method used to determine dates of emergence, growers should monitor certain known trees. Trees with early nut maturity, such as the Burkett, Barton, Mohawk, Shawnee, and some natives, usually have the earliest weevil damage. Check those trees rather than late maturing trees.

Once the date has been derived and spray has been scheduled, use Carbaryl (Sevin) at the rate of 3 pounds of 80 percent WP mixed with 100 gallons of water. Repeat applications are often necessary at 10-14 day intervals. Do not apply sevin after shuck split.

Well, we haven't had that rain the weatherman has been predicting. We will get a rain when our Lord thinks we need it.

Our nephew and niece, Mr. and Mrs. Owen Smith, ate supper with us. We then visited my sister and brother-in-law, Mr. and Mrs. Bud Conrad, of Long Cove.

Our son, Chile Smith of Waco, and a friend, Zamly Good who has started to work for Farm-land Industrial, had lunch with us. Chile was showing him the district in which he would be working.

We attended C. H. Black's birthday party last Saturday night. There was a large crowd present.

Our niece, Mrs. Owen Smith, visited us one day last week. I visited Mrs. Lola Huffman

Wednesday. I also visited in the Fred Laughlin home. Fred is still critically ill. On Tuesday I called in the Lloyd Reynolds home.

We recently had all our children home. Chile Smith and son John of Waco came Sunday evening; also Johnnie and Margaret and Cliff Smith of Burnet, Billie Helen, and Forrest Jernigan and Jesse of Goldthwaite ate lunch with us Sunday. Jimmy, Melody and Cliff Ball of Comanche then came on Monday. We also had another guest from Comanche, Ben. He is a teacher there. We enjoyed all of them so much. They all left after they had supper. Everyone had a wonderful time. This has been an annual thing for years and years. This was the smallest crowd we have had in years. Our nephew, Owen Smith and family, were not here and we missed them.

## National 4-H Week Set For Oct. 5-11

CHICAGO—“4-H—76... Spirit of Tomorrow” is the theme of this year's National 4-H Week, Oct. 5-11.

More than 7 million 4-H'ers, their leaders and parents will take part in the annual salute to the Head, Heart, Hands and Health program.

Observances are expected to center on the 1975 4-H bicentennial theme, commemorating the nation's 200th birthday and accenting the history, ideals and goals of the American youth movement now flourishing in over 80 countries.

As in past years, 4-H'ers are planning special recognition events, service projects and recruitment drives in their local communities, counties and states.

National 4-H Week is proclaimed annually by the Cooperative Extension Service, which conducts the 4-H program in all 50 states, the District of Columbia, Puerto Rico, Guam and the Virgin Islands. Extension professionals recruit, train and assist the nearly 500,000 volunteers who provide local leadership in 4-H activities.

Of the 7.2 million boys and girls from 9 to 19 involved in 4-H, more than 3.5 million belong to clubs and groups.

Nearly 900,000 take part in special 4-H nutrition programs geared to lower-income youth and their families. Another 2.5 million are reached by instructional television series like Mulligan Stew and Living in a Nuclear Age.

Although the majority of 4-H members still live on farms and in rural communities, 17 per cent now come from larger urban and suburban areas.

Since its beginnings around the turn of the century, 4-H has offered practical learning and citizenship experiences to millions of young people. Among the most popular projects today are those related to animals, food, clothing, bicycle care and safety, and arts, crafts and music.

Private sector donors lend their endorsement and support to the Extension-supervised 4-H program through the National 4-H Service Committee and the National 4-H Foundation.

## The Consumer Alert

by John L. Hill  
Attorney General

AUSTIN—Two years ago, a landmark Deceptive Trade Practices-Consumer Protection Act was passed by the Legislature after months of work with the sponsors by the Attorney General's Office, the Texas Consumer Association, the Texas Retail Federation, the Texas AFL-CIO, and the State Junior Bar.

That law made Texans one of the best-protected groups of consumers in the country.

Again this past legislative session, our Attorney General's Office, in cooperation with the same groups, worked to help pass certain amendments to the basic law that would clarify parts of it in order to provide even better protection against fraud for consumers.

The basic premise of the 1973 law was, and still remains, that every citizen is a consumer—this includes businesses—and that consumers are entitled to protection from false, misleading, or deceptive practices in their business dealings.

The changes passed during the last session further specify that “consumer” means “an individual, partnership, or corporation who seeks or acquires by purchase or lease, any goods or services.”

For example, if an insurance corporation bought 10 new typewriters and later found out they had been sold not new but “reconditioned” machines, they might take action under the law.

Another important change is that real estate transactions are now covered by the Act. So, if you buy a house (thinking you're getting 10 acres of land with it, and it turns out that you actually got only 9.6, you might file a consumer complaint.

Or, if someone sells you a lot and house in the country

with a septic tank installed and in good working order, and you later find out the septic tank is installed but has never worked properly, the new law clearly protects you.

Another change in the law clarifies a consumer's right to protection from fraud in goods or services purchased or leased for use, including services furnished in connection with the sale or repair of goods. For example, this provision would protect a consumer from misrepresentation if he leased an automobile for a period of time. The Legislature has, however, limited protection on purchase or lease of services to uses other than commercial or business.

Another consumer law passed in the recent legislative session brings the Texas Home Solicitation Act in conformance with a similar federal law. Sales in the consumer's home may now be cancelled by the consumer within three days if the amount of the sale exceeds \$25.00. Sales involving real estate may be cancelled if they are for amounts over \$100. The seller must include disclosure of Home Solicitation Act provisions on contracts for all goods under \$200, unless a 100% written guarantee is offered.

And, finally, a significant service to consumers was authorized by the Legislature when provision was made for our Attorney General's Office to open a sixth regional office to serve the Lower Rio Grande Valley. This office will operate in conjunction with our regional offices in Dallas, Houston, San Antonio, Lubbock, and El Paso, and our main office in Austin will make consumer law enforcement activities much more accessible to residents of the Valley.

## Brownwood Hospital In Need Of Blood Donors

Brownwood Community Hospital's new all-volunteer Blood Donor Program has been in operation for five months. It is apparent now that there is and will be a constant need for new donors to contribute blood in order to meet the hospital's needs. Recent legislation led West Texas Blood Services, the non-profit organization that had long provided for Brownwood's blood needs, to state that the hospital must replace on a one-to-one basis a raw unit of voluntarily donated blood for every processed unit it receives. In round figures, this means that 100 donors must contribute a unit of blood each month to meet the blood needs of Brownwood Community Hospital's patients.

Since many of the citizens in Brownwood's neighboring towns utilize the hospital, the Brownwood Community Blood Donor Committee are urging these citizens to contribute to Brownwood's Blood Program.

The Blood Bank is in operation every Tuesday or Thursday between the hours of 12 noon and 6:00 p.m. A donor may either “walk-in” or make an appointment by calling the hospital lab at 913-646-8541 ext. 372.

The Brownwood Blood Donor Committee points out that despite tremendous scientific advances, human blood still cannot be synthesized; it is not a commodity; it does not come off a factory production line. It can only come from you or people like you who care enough about other people to voluntarily donate to them this “Gift of Life.”
