

Bull Town Bulletins

By
Bill Ellis

NEARLY EVERYBODY can find some reason to feel discriminated against, no matter what their skin color or economic status. There always will be some form of discrimination that cannot be blotted out by passing new laws.

When the affirmative action laws were passed in an attempt to end discrimination against blacks, there were cries of reverse discrimination as whites felt that they were being treated unfairly and discriminated against.

In earlier days, immigrants to the U.S. felt that they were victims of discrimination because their clothing was different and their language was different. In time this changed.

The womens liberation movement has campaigned vigorously for equal rights on the grounds that women have been discriminated against in many fields of endeavor. Yet when such things as unisex rates for car insurance were put into effect, many women claimed they were being discriminated against with higher rates even though their driving records were much better than males the same age.

There are various organizations formed to combat discrimination. There are clubs for tall people who claim that society discriminates against them with beds too short, chairs too low and cars that are hard to enter.

Short people have organized to fight discrimination of the same things only in reverse.

An outfit in Chicago organized into "The Committee Against Physical Prejudice" by claiming that our national obsession for physical attractiveness and youthfulness discriminates against ordinary looking people.

And a California club was formed to protest against a society that seems geared to ordinary people while discriminating against those with superior intellect that qualifies them for membership in Mensa.

The National Association to Aid Fat Americans has survived at least 11 years in its campaign against hiring practices that favor thin people.

A society which is made up heavily of white people may discriminate against those of darker skins. A black society in Africa can also be accused of discriminating against a minority with white skins.

Discrimination will exist as long as people have a freedom of choice and there is no way to pass a law that will insure complete social equality among members of any society.

The above article was written by Harold Hudson in a recent issue of the Perryton Herald. Now if our local readers just won't discriminate against their editor who has to occasionally borrow a column from his friends when he has to be out-of-town, then we'll be okay. Perhaps we should start up an organization called Publishers Local Attempt at Good Endless Rip-Off of Instant Stolen Material.

general service rate for natural gas service to domestic and commercial type customers, effective August 10, 1984.

The average increase to a domestic customer on the basis of the proposed new rates would be 35.8 cents per thousand cubic feet (Mcf), or \$3.57 for a monthly consumption of 10 Mcf.

About 186,000 general service rate customers are affected, in an area extending from Pampa, Hereford and Lubbock to Midland and Odessa. Such customers include single and multi-family dwellings, retail and service establishments, public authorities such as schools and health facilities and all other customers who are not on larger volume interruptible service contracts with the company.

Customer classes not affected by the proposed rate increase would be industrial and large air conditioning classifications.

The basis for the rate filing is a study by an independent consulting firm on the costs and revenues of the West Texas City Plant System for the calendar year ending December 31, 1983. The study reflected that the cost of service exceeded the revenue at present rates by \$8,914,983.

By law, Energas is entitled to recover its cost of service through its rates to customers and those costs include cost of gas purchased for distribution, operation and maintenance expenses, depreciation expenses, taxes and a rate of return on rate base.

The overall rate of return being requested by Energas in the current filing as related to a net original cost rate base is 11.63 per cent.

The late rate filed by Energas for the West Texas City Plant System was in 1981 and the subsequent increase of 35.2 cents per Mcf was effective for all bills rendered on or after December 15, 1981.

While Energas has been able to hold cost increases to a level below general inflation rates since the last rate request, the ad valorem and miscellaneous taxes, operation and maintenance expenses, and prices for needed new equipment and plant facilities have increased above the 1981 cost levels. Cost increases, coupled with lower sales volume than anticipated in 1981, have resulted in the revenue deficit said company officials.

Charles K. Vaughan, president and chief executive officer of Energas, noted that the company had recently implemented an extensive cost reduction program. "Operating and maintenance expenses were reduced by \$1.2 million in a concentrated effort by the employees and management of Energas," he said, "and that cost reduction has been taken into account in this filing."

He further noted that all cost and revenue figures were adjusted to

reflect the operations of Energas Company as an independent entity, and that the spin-off of Energas Company from its former parent corporation has had no effect on the need for or the amount of the requested rate increase.

Governing bodies of the 63 cities and towns in the West Texas City Plant System will be provided with additional information from Energas as supportive documentation for the company's rate increase request.

In its application to the cities to increase the general service rate, Energas has proposed an effective date of August 10, 1984. However, the cities are expected to suspend the operation of the rates filed for a period not to exceed 90 days beyond this date in order to provide more time to study the filing.

"We feel the rate request is valid and that the company has demonstrated a commitment to hold costs down," said Vaughan.

"Energas is prepared to meet with representatives of the 63 communities at the earliest possible time to discuss the filing."

"Through the years, Energas Company has worked very closely with its cities and towns served and with their representatives. The cities and the company have been able to resolve any differences in rate

When we went out to our car, our eight-year-old Renee wanted to know what else she thought turtles were.

Scooter's Scoops

By Scooter Russell

Melton, Sid and Elbert Lloyd, the Rouel Barrons, Arlene and Kevin Smith. They enjoyed a good visit and about 85 attended.

The Senior Citizens will meet Wednesday, July 25 at the Center for their regular luncheon. It will begin at 11:30 and the center will be open at 10 a.m. You are asked to come and bring a friend.

Our sympathy to Holly Moore, who has been notified of the death of her aunt, Thelma Wood, 90, of Happy Haven Center in Abilene.

Suzanne Murphy and sons, Kip and Adam of Abilene are in Bovina visiting with family, the Don Murphys and A.M. Wilsons. They came last Friday and will be vacationing for a week before returning home.

We congratulate Dean and Wendy Stanberry on the arrival of their son, Travis Dean, who was born about three weeks ago. He weighed five pounds, eleven ounces. We were unable to get in touch with the family for details. Little Travis's sisters are Michelle, Melonie and Michelle.

We were sorry to hear that Grady Hall passed away and services were held in Buffalo Gap on Monday of this week. Grady had had a pacemaker put on his heart and was getting along fine and then suffered a massive heart attack. He was survived by his wife Ethel, two sons, and two daughters, Jack, Delbert, Verna Lee and Evelyn.

Dean and Juanita Hastings, Eloise Dixon and Sue Fowler attended services in Abilene.

Our sympathy to Tom Beauchamp, whose sister died in Dallas, after a lengthy illness. The family flew to Dallas for services.

Benny Shelby was taken by Bovina Ambulance to West Plains Hospital in Muleshoe on Friday of last week. I

talked with his son Doc on the telephone and he said his dad was out of intensive care but that tests are still being run. Only family members are able to be with him at this time.

Marilyn Carrell enjoyed a good visit with her mother, Ann Aduddell, of Littlefield. She came Saturday, attended church with them Sunday and went home Sunday afternoon.

Don and Nita Dale and their family have enjoyed visitors: their nieces, Kathy, Missy and Tracy Moore of Fort Davis. The girls visited Friday, Saturday and Sunday and have been in Farwell visiting family. Nita was saying that Kathy will soon have cosmetic surgery on one of her eyes in San Angelo. She is now a senior in high school. The girls are former residents of Bovina and their parents are Chris and Nathan Moore.

O.B. and Geneva Johnston have been enjoying a good visit with their daughter Lorna who lives in Amarillo. Geneva said she would probably be with them most of the week.

Marlene Gay of Grape Vine, Texas has been in Bovina visiting with her daughter and son-in-law, Joy and C.E. Trimble.

We want to congratulate Brother and Mrs. Bass on the birth of their fifth grandchild. She was born July 9 and has been named Heather Nicole. Her parents are Jana and Jarvis Hensley, who live near Tulsa, Oklahoma. Floura Lee has been in Oklahoma with her daughter for several days and Brother Bass drove up to get acquainted with his granddaughter.

Bob and Margaret Kelley of San Diego, California have been in Bovina visiting Bob's parents, Odis and Lula White. They have been here for about one week.

Paul and Esther Lloyd of Marquez,

Texas, which is east of Waco, have been in Bovina over the weekend visiting with Paul's parents, Buck and Freda Lloyd. While there they attended the Lloyd family reunion in Friona.

The Buck Lloyds enjoyed company on Monday of this week: friends, Roy and Shirley Lynn Moore and their daughters, Shannon and Shelly of Friona.

We will be out of the office next week on a trip to Idaho to take our grandchildren home. We've had a great time during the three weeks they have been visiting. We went to Wonderland Park in Amarillo, shopping, eating out, picnics, movies, Amarillo Zoo and Clovis Zoo, water slide, trucking and visiting with their great-grandmothers in Hereford. We'll be in Idaho about a week.

Thank you for helping with the Scoops....Scooter.

Letter To The Editor

Dear Bill,
I will retire from FmHA today after a little over 31 years of Government service.

I have been in Parmer County for 27 years. I believe you have been here almost as long as I.

I want to thank you for your cooperation and help with our various programs when we have needed to get information out. You and your papers have been real assets to the communities that they served.

Mr. Ronnie Hardin will be transferred to the Parmer County office to serve as County Supervisor. Mr. Jay McKay will continue to serve as Assistant County. We also have Celestie Glover, a summer trainee supervisor. The clerical staff are Marcella Pena and Robert Woo.

Again thanks and I wish you the best.

Amarillo College Sets '84 Fall Registration

Amarillo College academic registration for Fall Semester '84 will take place in Hereford August 21 from 7-8 p.m. in the Hereford High School. Representatives from the AC Registrar's and Business offices will assist in the registration process. Appropriate textbooks will be available.

Twenty-two different course selections will be offered in Hereford this year, from accounting to literature, nutrition, nursing and real estate. A brochure outlining complete class listings, admissions policies and tuition and fees will be mailed in early August to area residents.

Instructors for these Amarillo College classes include full-time AC faculty, area business professionals, and local high school teachers.

Courses such as composition, literature, government, and history are considered general academics. These classes not only apply to two-year degrees available at AC, but also transfer to four-year institutions anywhere in the state or country.

One course of special interest that fills the criteria of an elective is College Reading Techniques.

Instruction is designed to improve all levels of reading proficiency, speed, comprehension, vocabulary and general study skills. An individual program is designed for each student based on a diagnosis of reading levels and needs.

College Reading Techniques is a three-semester-hour course that meets Thursday evenings from 7 to 9:45 in the high school. This course benefits all students in their college endeavors, regardless of their chosen occupation or degree plan.

Amarillo College coursework is made available to area residents in cooperation with the Hereford Independent School District. Classes were first offered in Hereford in Spring '74 when enrollments numbered 52. The '83-'84 school year boasted 557 enrollments and a slight increase is expected for the upcoming year.

Students earn full resident credit, that is the same credit as if they were attending classes on the AC campus in Amarillo. New classes are formed when sufficient need or demand is established, according to Clifford Siess, Amarillo College's associate dean of instruction.

JULY BIRTHDAYS... Sid Lloyd, Nannie Rhodes and George Trimble celebrated their birthdays Wednesday, July 11 at the Senior Citizens Center. Those having birthdays in August hosted the affair. Cake, punch and nuts were served to thirty guests.

(Continued from Page 1) matters. We are proud of the Energas record of reliable gas supply, dependable and prompt service, and our record as a utility business that has been able to maintain customer rates among the lowest in the state," he said.

Irrigation Field Day Set

An Irrigation Field Day will be held August 1 beginning at 9 a.m. on Phillip Johnson's farm one mile west of the Hub intersection of Highway 86 and 214, one half mile south on the dirt road, then one quarter of a mile west on turn-row.

Methods of irrigation will be discussed.

Low Energy Precision Application (LEPA) on sprinkler system will be demonstrated and discussed by Leon New, Agricultural Engineer with the Agricultural Extension Service.

Surge irrigation equipment will be demonstrated and discussed by Phillip Johnson, farmer and secretary of Parmer County S.W.C.D., and Jerry Walker, Agricultural Engineer with the Soil Conservation Service.

A natural gas pumping plant efficiency will be demonstrated with the use of a Torgue-cell used by the High Plains Underground Water District Number 1 personnel.

A display of the Field Water Conservation Laboratory (trailer)

will be available and its use in the field will be discussed by Soil Conservation personnel.

Drip irrigation equipment will be discussed and its use on irrigating windbreak trees. Drip equipment is available through the Parmer County Soil and Water Conservation District.

The use of gypsum blocks will be demonstrated in field use along with the moisture meter's use. Meters and blocks will be available to irrigators through the Parmer County Soil and Water Conservation District.

Anyone interested in any of these methods of improving irrigations are encouraged to attend the field day on August 1.

Sponsored by the Parmer County Soil and Water Conservation District, Soil Conservation Service, Parmer County Extension Service, and the High Plains Underground Water District Number 1.

The field day will be from 9 a.m. to 3 p.m. Anyone interested may come by during this time to learn about any or all of the methods of irrigations.
