### NAPOLION THE GREAT.

A little while ago I stood by the gate of the old Napoleon—a magnificent tomb of gilt and gold—fit almost for a dead deity—and gazed upon the sarcophagus of black Egyptian marble, where rest at last the ashes of the restless man. I leaned over the balustrade and thought about the career of the greatest soldier of the modern world, I saw him walking upon the banks of the Seine, contemplating suicide. I saw him at Touon; I saw him putting down the mob in the streets of Paris; I saw him at the head of the army of Italy; I saw him crossing the bridge of Lodi with the tri-color in his hand; I saw him in Egypt in the shadows of the pyramids; I saw him conquer the Alps and mingle the eagles of France with the eagles of the eagles; I saw him at Marengo, at Ulm and Austerlitz. I saw him in Russia where the infantry of the snow and the calvary of the wild blast scattered his legions like winter's withered leaves. I saw him at Leipzig in defeat and disaster—driven by a million bayonets back upon Paris, clutched like a wild beast banished to Elba. I saw him escape and retake an empire by the force of his genius. I saw him upon the frightful field of Waterloo, when chance and fate combined to wreck the fortunes of their former king. And I saw him at St Helena, with his hands crossed behind him, gaz-

ing out upon the sad and solemn sea. I thought of the orphans and widows he had made, of the tears that had been shed for his glory, and of the only woman who ever loved him pushed from his heart by the cold hand of ambition. And I said I would rather have been a French peasant and worn wooden shoes. I would rather have lived in a hut with the vine growing over the door and the grapes growing purple in the kisses of the autumn sun. I would rather have been that poor peasant with my loving wife by my side knitting as the day died out of the sky, with my children upon my knees and their arms about me; I would rather have been that man and gone down to the tongueless silence of the dreamless dust, than

to have been that imperial impersonation of force and murder known as Napoleon the Great. And so I would ten thousand thousand times.—Robert G. Ingersoll.

### FARM VERSUS CITY.

I have lived twenty-five years in a great city. I was one of the discontented ones on the farm, I know both sides of the case. I know work for the unskilled in the city means not only the hardest of work, but constant anxiety as to "tenure of office;" that comforts in the way of pure, wholesome food and clothing, and pleasant of hygienic location as to home are practically impossibilities also. Perhaps an elevated train thunders over their roofs. The children's playground is in the streets, and their sick are cared for in public hospitals.

Cities are one concentrated mass of temptations to the pure, and in consequence are hot beds of crime and disease. A very large per cent age of crime, insanity, suicide, pauperism and ignorance is in cities in filthy, foul-smelling quarters, where the light of day scarcely ever enters and many of these unfortunates once lived on a farm, where sunlight and plenty of good food and clothing and clean surroundings had no value whatever. Health, whether physical, mental, moral or spiritual, must have sunshine and cleanliness as conditions of growth, and crime and disease grow like mushrooms in darkness and filth.—Country Gentleman.

### UNUSUAL HEART OPERATION.

Philadelphia, Pa., March.—Thomas Emerson, a negro, who was stabbed in the heart Monday by his sweetheart, has been the subject of an unusual operation. His heart was lifted out of the body and six stitches were taken to close the big gash made by the "negress" knife. The organ was replaced and Emerson is recovering.

After the assault he walked without assistance to the hospital, five blocks, and was put under the influence of ether as soon as the wound had been examined. On the operating table the heart was exposed by a long incision which necessitated the breaking of several ribs.

The surgeon inserted two fingers and lifted out the heart. It was drawn entirely out of the trunk, yet it went on with its work with almost normal steadiness and regularity. The cut was a large one and required six stitches. The pleura was opened and a gathering of blood removed. After the wound had been dressed Emerson was extremely weak, but is rallying slowly and the surgeons believe he will recover.

### HUNTING CHEAPER LAND.

Kansas, City, March, 2.—Twenty thousand homeseekers passed through here today for the southwest. Fifteen thousand went through here yesterday. Five to seven thousand are expected tomorrow. This migration breaks all records. The travelers are mostly farmers who sold their high-priced eastern farms to acquire larger areas in more thinly settled districts.

### Coughed All Night.

"A few mornings ago Mr. J. G. Smitherman, a good citizen of this place, came to the store for a cough medicine," says Dr. C. N. Farnell of Maplesville, Ala. "He was so hoarse, he could hardly talk and said he had coughed all night before. I sold him a bottle of Chamberlain's Cough Remedy and told him if it did not relieve him he might bring the bottle back and get his money. I saw him the next morning carrying the bottle to the store where he works, and he told me it did him more good than any medicine he ever used. For sale by Miami Drug Co."

### DUNKARD COLONY COMING.

Chicago, March 3.—The Record Herald today says: Arrangements have been made by the Santa Fe railroad for the establishment of two large Dunkard colonies in Northern Texas and the Pecos Valley. Between 300 and 500 families are expected to locate in the colonies.

Through Philip Swihart of Tippecanoe, Ind., the Dunkards of many states have agreed to sell their homes and re-colonize on a large scale in the sections named. Contracts have been signed by the Dunkard committee and the land agents of the Santa Fe whereby the railway

has reserved 15,000 acres of land in the Pecos valley, between Carlsbad and Roswell, and 51,000 acres in Northern Texas between Hereford and Bovina. On the latter will be colonized the Dunkards who desire to engage in cattle raising mainly on the former tract those who desire to engage in fruit raising.

If the opposition to the Hon. Arthur Lefevre, the present incumbent, is based upon the fact that he was endeavoring to set a higher standard for teachers, and made examinations so rigid that the teachers shorn on education but long on political pail was compelled to quit the business, why, we think it is certainly safe to predict a good vote for Mr. Lefevre to succeed himself as State superintendent of public instruction.—Ex.

Some newspapers speak of the next general election as being the first Tuesday in November. The Texas legislature made a like mistake in 1892 when it ordered an election to be held on the first Tuesday in November on some proposed constitutional amendments. Two separate elections had to be held, one on the first Tuesday in November and another a week later—the first Tuesday after the first Monday in November. This year Tuesday is the first day of November, consequently the general election will be held on Tuesday November 8th, it being the first Tuesday after the first Monday in November, the time specified by law.

A mortgage has been executed by the Louisiana Purchase Exposition Company to the United States government to cover the loan of four million and six hundred thousand dollars authorized by congress to be made to the company. Secretary Shaw now has the mortgage in his possession. One million dollars will be paid over to the company in a few days, two million in March, one million in April and six hundred thousand in May. The mortgage covers the gate receipts of the fair and repayment of the amount loaned will be made in June.—Ex.

### GUNTER AND MUNSON SUIT.

Sherman, Texas, March 9.—Judge Don. Blies of this city, of the counsel for Gunter and Munson, has returned from Austin, and referring to an interesting court matter said:

The account of the Gunter & Munson suit, published in today's issue of the Dallas News is rather misleading. The truth is that what is known as the 50c act passed by the Legislature in 1879, and which with drew from location the public school lands in certain counties named in the act mentioned, the names of three counties that were not and never have been in existence, Davidson, Cordova and Hutchins. It was inferred by some that these names were put in by mistake for Dawson or Dallam, Carson and Hutchinson. The Land Commissioner was called on for a ruling as to whether the lands in a county which it had been supposed had been misnamed in the act were withdrawn from location by the act. The matter was referred to the Attorney General and he ruled that the lands in such counties were not withdrawn from location.

Gunter and Munson desired to secure certain lands in Hutchinson County and applied to the Commissioner and offered to buy them under the 50c act, as they had the right to do if the lands were withdrawn from location, and stated to the Commissioner that they desired to locate them if they were not subject to sale. The Commissioner, on the construction of the law made by the Attorney General, refused to sell these lands under the 50c act, holding that they were still subject to location. Gunter and Munson then located some certificates that they already owned on these lands, surveying an equal quantity for the school fund. Patents were issued to them by the State and they have paid taxes on these lands for over twenty years. Others also located certificates on lands in the same county under the construction given the law by the Attorney General. The total aggregate amounts probably to 80,000 acres. Gunter and Munson alone located 40,000 acres.

No question was raised about the titles to these lands until five or six years ago. In the meantime the State has sold the school sections surveyed by Gunter and Munson as their own and has received nearly twice as much as it would have received from the sale of all the land under the 50c act.

The title to about 80,000 are are really dependent on the result of the suit, though Gunter and Munson now own only a little over 20,000 acres.

Announcement is made from missionary headquarters of the death of Mrs. Hampton E. Ball in Central Africa. Mrs. Ball was formerly Miss Cora Lee Ayers, and was at one time a resident of the Panhandle, making her home at Claude, and has a sister living at Claude at the present time. She graduated at the Ft. Worth University in 1896, and for two years afterwards was secretary of the Young Women Christian Association. In 1898 she married Rev. Ball, going with him as missionary to Central Africa.

Green bugs are destroying wheat and winter oats near Whitwright.

Joha Terry, under charge of murder for killing Lawrence Bast, was acquitted at Marshall.

Authorities of the First Methodist, Dallas, are planning to build a house of worship to cost \$100,000 or more.

Reports from many points south of Dallas indicate but little if any damage was done to fruit by last Thursday night's frost.

Frank Johnson was shot in the cheek in a restaurant at Wichita Falls. The wound is not dangerous. Charles Green, a waiter is held to the Grand Jury on \$500 bond.

A young man named Strasser, living at Shilo, in Wise county, was hurt about a month ago. In jumping over a stump he fell, causing injuries from which he died a few days since.

Emmanuel Galvant, a Mexican, living at the International coal mine, two and a half miles east of Rockdale, resisted Constable B. Howard's efforts to arrest him and as a result was shot through the leg.

Ed Tate, a young freight brakeman of the Katy, was run over and killed near Bastrop by his train. Deceased was reared in Belton and was a son of Tom Tate, an old engineer in the Katy service and at present running on the Belton branch.

In a difficulty between James Mobley and William Henry at Minter, 20 miles southeast of Paris. Henry was shot in the arm, which was shattered, and he is in a critical condition. Mobley surrendered and will be held pending the result.

A report from Ozona says that N. C. Rogers, a substantial woolgrower of Sheffield, was shot and dangerously wounded by a Mexican sheep herder in his employ. The Mexican was arrested and shot and killed while resisting arrest by a sheriff's posse.

Colonel E. G. Sessions of Rice has a boll weevil virus which he says will kill every weevil with which it comes in contact. The colonel made but three bales of cotton last year from 124 acres, but he will make cotton this year despite the weevil.

In the election on March 3 to dissolve the corporation of San Angelo, corporation carried overwhelmingly, 248 votes for, 127 against. Everybody is highly pleased with the Terrell election law.

R. G. Whitten, of Bazette, Navarro County, reports the death within the past few days of four calves from a disease that is new to him. The animals were all in good condition, but lived only a few hours after showing the first symptoms of being sick.

A local option section has been ordered for March 26 in one of the most important precincts in McLennan county, including Crawford and four other towns. Local option at present prevails, but an effort will be made to overthrow this and put the precinct back in the wet column.

At Sherman the jury in the case of Mary Gilmore, a negro woman charged with the murder of Hanna Smith last fall, returned a verdict finding the defendant guilty of manslaughter and assessed her punishment at two years in the penitentiary.

Elmore Rivers, a negro woman, was arrested at Waco on a charge of poisoning her husband, Jim Bivins, by putting the deadly drug into his food. Jim Bivins is in a dangerous condition still and may not recover.

The farmers of the German settlement of Walsburg, near Georgetown, have demonstrated the value of eggs as a side line. From January 8 to February 25 of this year, 6120 dozen eggs were shipped from Walsburg, for which \$1068.55 was received.

The Iola Cement Company, which recently bought the West Dallas cement works, is installing considerable new machinery. It will be several weeks before work is resumed at the plant.

Willie Goode, a six-year-old negro boy, who has long been puny, was operated on and half of an ordinary trout halibut taken from between the seventh and eighth ribs. No one knows when he swallowed it. It was working out through the body.

R. C. Hampton, a well-known mechanic of Texarkana, died while visiting relatives in Missouri. He was 91 years old, but hale and hearty as a man of 60 up to the beginning of his fatal illness.

H. B. Savage of Belton, has sold his poultry paper, the National Fancier, to the American Fancier, published at Indianapolis, Ind. He becomes a member of that publication and will have charge of the Southern division of the paper.

Wm. Henry, a Lanar County farmer, who was shot through the shoulder Monday in a difficulty with another tenant on the farm near Minter, twenty miles southeast of Paris, died Friday from the wound.

Joe Skilton was shot and instantly killed about two miles southeast of Alvarado Thursday night. His brother-in-law, Jack Brannon, after the shooting, went to Cleburne, surrendered to the officers and gave bond in the sum of \$1000.

Vladivostok, March 7.—A fleet of five Japanese battleships and two cruisers appeared off this place at 1:25 o'clock Saturday afternoon and bombarded the town and shore batteries for fifty-five minutes.

The fleet approached from the direction of Askold Island, at the east entrance to Usuri Bay, the enemy formed a line of battle, but did not approach to a closer range than a mile and one-third. They directed their fire against the shore batteries and the town, but no damage resulted, as most of their 200 lyddite shells failed to burst.

The Russian batteries, commanded by Gen. Sveronetz and Artamonoff, did not reply, awaiting a closer approach of the enemy. The Japanese fire ceased at 2:20 p. m. and the enemy retired in the direction of Askold Island and two more near Cape Middel. The Japanese ships were covered with ice.

Official dispatches concerning the bombardment do not mention any losses, but private advices say that five were killed, four sailors and the wife of an engineer. It is apparent the Japanese were afraid to risk exposing their ships to the plunging fire of the land batteries, and it is considered probable here that the attack was really for the purpose of drawing the fire of the Russian forts, compelling the Russians to disclose the position and purpose of ascertaining whether the Russian squadron is in port.

If this was the object of the Japanese, it is believed to have failed signally, as the batteries did not fire a shot, and if the squadron is in port it could not be seen from the Japanese position in the Bay of Court on account of the high land which arises from the coast on that side, obstructing the view of the harbor.

Tokio: Affairs, says the New York Herald in summing up the situation, have been very quiet here after the excitement consequent on the opening of the war. The Japanese do not give way to emotion in the same manner as Europeans when engaged in war. People are going about their business at Tokio as if nothing in particular were afoot. There is little news from Korea or Port Arthur. The newspapers have ceased to issue special editions. The present situation however is only a lull before a storm. Preparations are going rapidly forward for the commencement of land operations and it is expected important events will be heard of in the course of a few days.

The Japanese Government is not anxious to begin its land campaign prematurely and is organizing its forces with marvelous foresight and completeness for every possible contingency. The opening of hostilities here is likely to furnish Russia with as great a surprise as did the naval attacks.

It is impossible for one, of course, to give the details, but events will soon show the capacity of the men who are directing Japanese affairs and the quality of the troops at their disposal.

**New Million Dollar Mining Company.**  
El Paso: The Northern Mexico Development Company has been organized here with a capital of \$1,000,000. Briton Davis is president. C. N. McAdoo of Greensboro, N. C., vice president and treasurer, and D. C. Sutton general manager. The company was organized under the laws of New Mexico for the purpose of developing their mining and other industries of this section, and will operate in Mexico and the United States.

**Odd Fellows Grand Lodge.**  
Sherman: The Grand Lodge, Independent Order of Odd Fellows, jurisdiction of Texas, convened in Sherman Monday for the transaction of business, but Sunday was a busy day for the local committees. The grand officers are here, among them Hedding Grand Master Kerr, Incoming Grand Master Wrenn, Past Grand Patriarch Schnell, Department Commander Johnson, Grand Secretary Walton Fahm. The session will last four days.

Tracklaying began on the Katy line from Georgetown to Austin Monday. The contractors have the grade about completed to the Travis County line, and the work is being rushed.

Advice from Amarillo are to the effect that the proposed line to be constructed from that point in a south-westerly direction is almost a certainty. Reports are that its first section will be eighty miles and extend from Amarillo to Lubbock. The line is projected south to Plainview.

**Shot Himself With a Pistol.**  
Dallas: William Schultz, who with his wife was employed by W. H. Abrams went to No. 1 engine house on McKinney Avenue early Sunday morning and asked to borrow a pistol, as he was going into the country for the day. A big Colt revolver was loaned him by one of the firemen. He stepped into a small room near by, a shot was heard and he was found dead, with a bullet through his heart.

The Foreign Office here has issued passes to war correspondents, but the correspondents are not yet permitted to leave Tokio for Korea, as events are not yet sufficiently developed.

According to reports received here the Russians are moving large masses of troops toward the Chinese frontier. The population is in a state of unrest and is leaving the large towns. Russian troops have occupied Dandsho, Chimelcho and Kohochi, but they are said to be evacuating Genchau.

It is reported that 20,000 Russian troops are south of Yalu. No serious encounter, however, is anticipated for some time.

### POSTAL TALK THIS WEEK.

House Appears to be "Puttin' in Time" Now.

Washington, March 7.—Postal affairs will occupy the attention of the House for the better part of the week. Mr. Overstreet, chairman of the Committee on Postoffices and Post Roads, will call up the postal appropriation bill, and it is anticipated that several days at least will be consumed in its disposition. The minority will oppose vigorously some features of the bill, and will also urge a general investigation of postoffice affairs.

The bill will be laid aside temporarily Tuesday, as by special agreement private claim bills, which gave way last week to the Indian appropriation bill, have been made the special order for that day. Before taking up the bill the Postoffice Committee will report the Hay resolutions, requiring certain information regarding the use of "influence" by members of the House to secure increase of salary, etc., for postmasters. The committee will recommend that this resolution be laid upon the table. Unless some consent is obtained there will be no discussion on the motion to table, but it is indicated that an agreement will be reached whereby a brief time will be allowed so that some statements may be made on each side before a vote is taken.

Mr. Martin of South Dakota expects to request unanimous consent before the appropriation bill is laid before the House for the consideration of his resolution desiring the Department of Commerce and Labor to investigate the causes for the differences which exist between the cost of live cattle and dressed beef, and on which the Committee on Interstate and Foreign Commerce has ordered a favorable report.

### Seven Dead, Seventy-Five Injured

Latrobe, Pa.: With a terrific concussion heard for miles, the dynamite magazine of H. S. Kerbaugh, contractor on the Latrobe cutoff of the Pennsylvania Railroad, exploded. Four deafening explosions occurred in rapid succession, followed by a perfect fusillade of minor explosions which continued for almost half an hour. Seven persons are reported dead and seventy-five injured. Bradenville, Pa., a mile from the magazine, is almost a total wreck.

**Victoria: Henry Atzenhofer, aged 27, a brakeman on a New York, Texas and Mexican Railroad freight train, was run over by his train at Rosenberg Saturday night. It seems that while switching his left foot caught in the guard rail and was severed just above the ankle. He was hurried to Houston, but died in the hospital there early this morning. His body was brought here, where his wife and child reside.**

**Sherman: Horace G. Marshall, who was bitten by a mastiff in the right cheek a few days since, is unable to drink water without losing control of his muscular movements. He believes this condition to be due to poison from the bite of the dog, which also bit the little child of Cal Malvern. The child was taken to Chicago, where the doctors declared he had no symptoms of hydrophobia. Later, Mr. Marshall died Saturday night, under most agonizing conditions.**

It is calculated that the damage at Llano, as the result of the earthquake, in crockery, glassware and merchandise will reach \$500,000, irrespective of damage to buildings.

Contracts for three wells north of the Davey well, near Palestine, are let. Two are on the lands of Ezell and Bell and one on the G. S. Rose tract. Faith in the finding of oil is strong and a thorough test is going to be made.

The capital stock of the National Bank at Amond has been subscribed and organization has been formed, and application duly forwarded to the Controller of the Treasury for permission to do business.

Terrell has made a proposition to Grayson College to move that institution, whose buildings were recently entirely destroyed by fire, from White-wright to the former city. No action has been taken in the matter.

**Lineage of the Mikado.**  
Ancient though many European royal houses may consider themselves, none can beat the record of the mikado. Mutsuhito is the one hundred and twenty-second warrior of the crown which his ancestors have borne without interruption since the year 666 B. C. That is to say, the founder of the dynasty is a contemporary of Nebuchadnezzar. Though one may not be guilty of the impudence of calling his pedigree in question, it is difficult to believe that the mikado of 2500 years ago was the son of the sun goddess.

**His Humorous Explanation.**  
An amusing instance of a minister stumbling on a text of a humorous personal application is that related of a widower who had remarried within a year after his first wife's death. His friends and congregation thought him very expeditious and on the next Sabbath a sermon was announced which they could scarcely control themselves. He rose in his place in the pulpit and said: "My beloved brethren, you will find my text in the seventh verse of the fourth chapter of Second Corinthians. 'Our light of fiction, which is for the moment.'"

**A Physician's Advice.**  
Yorktown, Ark., March 7th.—Dodd's Kidney Pills must not be confounded with the ordinary patent medicine. They are a new discovery, a specific for all diseases of the kidneys and have been accepted by physicians only after careful tests in extreme cases. Dr. Leland Williamson, of this place heartily indorses Dodd's Kidney Pills "as a remedy for the various forms of the diseases of the kidneys, pains in the back, soreness in the region of the kidneys, foetid urine and cloudy or thickened condition of the urine, discharges of pus or corruption, Gout, Rheumatism, Inflammation and Congestion of the Kidneys and all kindred complaints."

"I could mention many cases in which I have prescribed Dodd's Kidney Pills with success. For instance, Mr. Robert Weeks, farmer, malaria, leucaturia or swamp fever, three times, kidneys weakened, continual pain and soreness in back, which made him very nervous, had a little fever and sometimes chilly. Urine changeable, but generally very high-colored; an old chronic case who had taken much medicine with little effect. After taking Dodd's Kidney Pills about six weeks he was entirely cured and had gained fifteen pounds in weight. The last time I saw him he was the picture of perfect manhood."

**Tin Toys.**  
The largest toy factory in the world is in New York, where playthings in tin are manufactured literally by the million. It stands five stories high, and turns out distinct varieties of tin toys. No. 1 is a tin horse; 1607, a tin menagerie. The output of circular tin whistles is 2,000,000 per annum. To make a tin horse twelve inches long it takes to be cast cost \$45. The children of different countries have different tastes, but tin toys are wanted all over the world, the military instinct being as universal in the nurseries as in the courts.

**Nevel Scheme to Defraud.**  
All the dog catchers in Detroit may be called on at any moment to frustrate a bold diamond smuggling expedition. Secretary Shaw was put on the alert by this letter from a man in Evansville, Ind., whose name is not revealed: "I offered a plot to smuggle diamonds across the river at Detroit. The two men I heard talking about it propose to put the diamonds into a small frankfurter sausage. Then they will keep the dog without food for a couple of days. When the dog is hungry they will feed him the sausage and then bring him across from the Canadian side. Then they will kill the dog and take out the diamonds."

Keep your complaints out of your mind and they will keep themselves out of your face.

### ON A RANCH.

**Woman Found the Food That Fitted Her.**

A newspaper woman went out to a Colorado ranch to rest and recuperate and her experience with the food probably is worth recounting.

"The woman at the ranch was prominently the worst housekeeper I have ever known—poor soul, and poor men!"

"I simply had to have food good and plenty of it, for I had broken down from overwork and was so weak I could not sit up over one hour at a time. I knew I could not get well unless I secured food I could easily digest and that would supply the greatest amount of nourishment."

"One day I obtained permission to go through the pantry and see what I could find. Among other things I came across a package of Grape-Nuts which I had heard of but never tried. I read the description on the package and became deeply interested, so then and there I got a saucer and some cream and tried the famous food."

### SHOT TO DEATH AND THE CORPS STRUNG UP.

A Springfield, Ohio, Mob Coolly and Deliberately Shot a Negro Murderer to Death.

Springfield, Ohio, March 8.—Great excitement is felt here over the shooting of Police Sergeant Charles Collins by Richard Dixon, a negro, early Sunday morning, and who died Monday.

At 11 o'clock the negro, Richard Dixon, was taken from the jail and shot to death in the jail yard and the body was taken from there to the corner of Main and Fountain avenue and hanged to a telegraph pole, where the mob spent the next half hour riddling the body with bullets from several hundred revolvers.

The mob forced an entrance to the jail by butting in the east doors with a railroad iron. At 10:30 the mob melted rapidly and it was the general opinion that no more attempts would be made to force an entrance. Small groups of men, however, could be seen in the shadows of the court house, two adjacent livery stables and several dwelling houses. At 10:45 the police were satisfied that there was nothing to fear, and they with their official and newspaper men passed freely in and out of the jail.

Shortly before 11 o'clock a diversion was made by a small crowd moving from the east doors around to the south bluff was made at jostling them off the steps leading up to the south entrance. The crowd at this point kept growing, while yells of "Hold the police!" "Smash the doors!" "Lynch the nigger!" were made, interspersed with revolver shots. All this time the party with the heavy railroad iron was beating at the east door, which shortly yielded to the battering ram, as did the inner-lattice iron doors. The mob then surged through the east door, overpowered the Sheriff, turned and hand-to-hand with the mob, and began the assault on the iron turnstile leading to the cells. The police from the south door were called inside to help keep the mob from the cells, and in five minutes the south door shared the fate of the east one. In an incredibly short time the jail was filled with a mob of 250 men, with all the entrances and yard gates blocked by fully 1500 men, thus making it impossible for the militia to have prevented access to the negro, had it been on the scene. The heavy iron partition leading to the cells resisted the mob effectually until cold chisels and sledge hammers, which were only two or three minutes later in arriving, were brought into play. The padlock on the turnstile had been broken and the mob soon filled the corridors leading to the cells. Seeing that further resistance was useless, and to avoid the killing of innocent persons, the authorities consented to the mob's request for identification of the man. The man was dragged to the jail door, then down the steps to a paved court yard. Fearing an attempt of the police to secure him, the leaders formed a hollow square. Some one knocked the negro to the ground and those near him fell back four or five feet. Nine shots were fired into his prostrate body, and satisfied that he was dead, a dozen men grabbed the lifeless body and with a triumphant cheer, the mob surged into Columbia street and marched to Fountain avenue, one of the principal thoroughfares of the town. From there they marched south to the intersection of Main street and a rope was tied around Dixon's neck. Two men climbed a pole and threw the rope over the topmost crossarm and drew the body about eighteen feet above the street.

They then descended and their work was greeted with a cheer. The fusillade then began and for thirty minutes the body was kept swaying back and forth from the force of the rain of bullets which was being poured into it.

Six men were drowned and four others injured as a result of the collapse of a bridge spanning Yellow Creek, near Ironsides, on the Cleveland and Pittsburg Railroad. The men were on two locomotives that attempted to cross the bridge together.

### ARLINGTON EXPERIMENT FARM.

Is Selected and Operations Will Begin at Once.

Dallas: Dr. W. J. Spillman, special representative of the United States Department of Agriculture, now engaged in establishing diversification farms throughout the Southern States, went out near Arlington and selected the farm of A. J. Brown as the land on which farming the way the United States Government would have it done will be conducted. Mr. Spillman was accompanied by Capt. Brown, and the two spent the forenoon going over the place with a view to arranging for the crops to be grown as soon as cultivation can be undertaken. At the close of his inspection he announced that the farm suited the purposes for which he wished to utilize it much better than any that thus far he had placed.

After lunch Dr. Spillman spoke for an hour and a half to a big assemblage of farmers at Arlington, explaining the work which he is undertaking in the interest of the farmers. He urged upon them the necessity of diversifying their work as much as possible in order that they might not be dependent exclusively upon the raising of cotton for a livelihood. He also repeated with special stress the need of every inch of ground on the farms being kept at work as nearly every minute of time as is possible. These, with many other vital suggestions as to work in agriculture, were gone over by him. His talk was listened to with deep interest by the farmers, and at the close one farmer, who had come to the meeting after having arranged for the sale of one of his rich farms in Dallas County, declared that the address had caused him to reconsider his intention, and that he would retain the place.

It is the doctrine of Dr. Spillman to keep the ground busy. At the same time the various crops, he feels, will assure the farmer good returns, and also give the soil a change of requirements made upon it.

There are thirty-two of these diversification farms which Dr. Spillman will establish throughout the Southern States, and sixteen of these will be within the bounds of Texas. Only five are ready for early spring crops, but the others will be prepared in time for opening the work later in the season. As soon as the crops get well started on the diversification farm near Arlington hundreds of farmers are to be brought to the place and there shown how the work is being conducted, all the methods of soil preparation, planting and culture, as well as the returns to be derived. In these ways the work which Dr. Spillman has undertaken will be made ample to all engaged in farming, and it is hoped that the precedent will work with benefit. It is the plan of the department ultimately to spread this diversification example throughout every State and Territory of the Union, though the South is to be treated first.

The Power of Affection.  
Think of life—how short it is; how much unavoidable bitterness it possesses, how much which it is easy either to bear or to chase away; and think how the power of affection can make all things right! Tremble before the chains of selfishness; free yourself from them by a new sacrifice of love and purity the heaven of home. Ascending clouds can easily expand into destructive tempests, or disperse and leave not a trace in the air. O chase them hence with the powerful breath of love!—Miss Bremer.

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"YOUNG WOMEN:—I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and felt that my case was hopeless, but she kept at it until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.—Good fortune is a reward of those latter purity gentleness cannot be produced.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. She will hold your letter in strict confidence. She can surely help you, for no person in America can speak from a wider experience in treating female ills. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass.; her advice is free.

## DOCTORS FALL IN LINE.

Practicing Physicians recognize the untiring reliability of Doan's Kidney Pills by Prescribing them for Backache, Kidney, Bladder, and Urinary Disorders—a tribute won by no other Proprietary Medicine. Four cases cited from "Notes of His Practice," by Dr. Leland Williamson, of Yorktown, Ark.

FORTY-MILBURN CO., Buffalo, N. Y.

YORKTOWN, ARK., Mar. 1, 1904.

**Gentlemen:**—I have been engaged in the practice of medicine in this section for ten years. This is a very sickly climate, on the Bayou Bartholomew, near the Arkansas River. It is particularly malarious and miasmatic. We meet with many and various abnormal conditions of the human family, prominent among the cases in which I have been called upon to prescribe is kidney disease. Many of these disorders manifest themselves by pains in the back, often extending to other parts of the body; sometimes headache is present, caused by uræmic or chronic uric acid poisoning, soreness in region of kidneys, cloudy, thickened and foul-smelling urine, discharges of pus or corruption; inflammation of the kidneys, extending to the bladder, is caused by excess of uric acid and decomposition of the urine. Hemorrhage is sometimes met with, caused by high state of inflammation or congestion.

There is no class of diseases a doctor is called oftener to treat than the variety of kidney diseases, in many of which the patient will have chills or rigors, followed by fever, a result of the kidneys failing to eliminate the uric acid poison from the system. Such cases require the kidneys restored to their natural functions, then the poison and foreign substances are removed—shock to the nervous system averted, and natural health restored.

I have, for some time, been using Doan's Kidney Pills in these many manifestations and with uniform success, curing most cases. I can further say that even in hopeless cases where they have waited too long, Doan's Kidney Pills afford much relief and prolong life. I can recommend the pills in conditions of excessive or deficient secretion of urine, as also in convalescence from swamp-fever and malarial attacks, as verified by the following cases in my practice.

**CASE 1.**

**THOMAS ORELL, Bear, Ark., age 60.** Pain in back for several weeks, then chills, irregular sometimes, severe rigors followed by fever. Gave good purgative of calomel and opium, and Doan's Kidney Pills. After taking four boxes of the pills, patient up and enjoying good health for one of his age.

**CASE 2.**

**Mrs. SMITH, Terry, Ark., age 29,** mother of four children. Had female complaint and kidney trouble, manifest by pain in back and urine irregular, sometimes very clear, changing to cloudy, and with much sediment on standing in chamber. Gave local treatment for female complaint and prescribed Doan's Pills; after using six boxes she regards herself as cured.

These are a few of the typical cases in which I have used Doan's Kidney Pills. In a great many instances I use them alone with curative results, while with some others indicated remedies are associated.

I believe that by the judicious use of Doan's Pills many serious complications are arrested and many hopeless and incurable cases of Bright's disease prevented.

I have often found that one box of the pills is all that is required to effect a cure, but in some cases I continue their use until all symptoms are entirely absent and the cure effectual and permanent. Yours truly,

Dr. Leland Williamson.

## Beautiful Actresses.

"Who is the most beautiful woman on the American stage?" is a question often asked, and it nearly always starts a controversy. Violent partisanship usually wars the judgment of those who join in, so that no correct decision can be reached. If the race were always to the swift and battle to the strong it might be not so difficult a matter to judge between Miss Lillian Russell and Miss Maxine Elliott, to whom the issue is now, often reduced, especially in beauty recently undertaken to prove that Miss Elliott's personal charms are transcendent and came near being mobbed by admirers of Miss Russell. Miss Russell has had a long reign as queen of beauty, longer, perhaps, than that of any other stage favorite. She has occupied the throne for more than twenty-four years, admitting that she holds it now. At 44 she is "To Kallon!" She is nearly forty by the teeth, physical antithesis of Miss Elliott, who is 12 years her junior. As a dialect type the latter also is "To Kallon!" There was a woman on the stage some years ago who easily split the difference between Miss Russell and Miss Elliott in the matter of beauty. Caroline Miskell (afterward Mrs. Charles Hoyt) possessed a perfectly beautiful face, accompanied by a divine form, which is something more than mortal.

"So Long!"

With reference to the origin of the familiar expression, "So long," a correspondent of the London Academy suggests that it is derived from the Norwegian, "Saa Lønge," a common form of farewell, equivalent in meaning to "au revoir," and pronounced like "so long," with the "g" softened. There was a fair number of Norwegian actors on the stage in America, to judge by names, and it is quite likely the phrase was picked up from them. It is in general use among the Dutch in South Africa.—Philadelphia Times.

**Patient Fought the Dentist.**

A dentist at the Liverpool Dental Hospital has had both his eyes "blackened" by a patient who was under the influence of a gas. The patient was a brassy dock laborer. It was found necessary to extract four of his teeth, and the operation had just been successfully completed when, not having quite recovered consciousness, the man sprang from the chair and violently attacked the dentist. For some time the patient struggled with the man, and hit the dentist in both eyes before being pacified.—Liverpool Courier.

**Japan's Venerable Government.**

It is now quite well established that the Japanese government continued for over 2500 years exactly the same in form as that of the Mahometan caliph and of modern Rome. The chiefs of religion among the Japanese much longer than in any other nation. The succession of the pontiff kings may be traced with certainty for more than 789 years before our era. The ecclesiastical emperor was called "Dairi," a name now used by the people for the royal residence of the mikado, or for the court itself. Until recently the mikado was regarded as too sacred to be called by his right name. After the overthrow of the pontiffs the Dairi was held in honorable confinement by the mikado and treated with the utmost respect, for the people revered him as if he were an idol.

Nothing else shows quite so much of a woman's nature as the sort of man she loves.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 10c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

## ALL IN THE SAME BOX.

Little Juror's Appeal for Escape Was of No Avail.

The judge had his patience sorely tried by lawyers who wished to talk and by men who tried to evade jury service. Between hypothetical questions and excuses it seemed as if they never would get to the actual trial of the case. So when the puzzled little German who had been accepted by both sides jumped up the judge was exasperated.

"Shudge!" cried the German. "What is it?" demanded the judge. "I think I like to go home to my wife," said the German.

"You can't," retorted the judge. "Sit down."

"But, Shudge," persisted the German. "I don't think I make a good juror."

"You're the best in the box," said the judge. "Sit down."

"The jury box," said the judge. "Oh, I thought it was a bad box that people gets in sometimes."

"No," said the judge; "the bad box is the prisoner's box."

"But, Shudge," persisted the little German. "I don't speak good English."

"You won't have to speak at all," said the judge. "Sit down!"

The little German pointed at the lawyers to make his last desperate plea.

"Shudge," he said, "I can't make nodins out of what those fellers say."

It was the judge's chance to get even for many annoyances.

"Neither can any one else," he said. "Sit down."

With a sigh the little German sat down.

His artistic soul shocked.

Theater Manager's Rebuke More Humorous Than Pathetic.

A theatrical manager who has acquired some notoriety by reason of his pugilistic tendencies met Arnold Daly on Broadway shortly before the first production of "Candida" and made some inquiries regarding the young actor's contemplated venture.

"I say," was his inquiry, "what's this 'Candida' that they say you're going to appear in?"

Daly, who had a complete knowledge of this manager's unfamiliarity with matters relating to that sort of drama that is ordinarily described as art, replied glibly:

"Well, I'll tell you, but please don't give it away. 'Candida' is the name of a new breakfast food that is to be put on the market. The firm that is going to manufacture it is paying me a lot of money to do the piece in order to familiarize the public with the name of its product. See?"

The manager's brow contracted.

"Um, yes," he said, finally. "I suppose there is money in it for you. But, say, the idea doesn't strike me as being very artistic."—New York Times.

### Ten Good Reasons Why Miami is the Best Town

#### IN THE TEXAS PANHANDLE

- BECAUSE—It has the best stock country surrounding it.  
It has the best climate, best water and plenty of it.  
It is the best shipping point on the Santa Fe road.  
It's population are not mere "strangers" but stayers.  
It has the sharpest competition and gives lowest prices.  
It is surrounded with the best cattle and finest ranches.  
It's the commercial and legal center of three counties.  
It has the best schools, best churches and best society.  
It is the prettiest town-site and sells good lots very low.  
It gives a perfect title to perfect lots in a reliable town.

### HOMESEEKERS AND COLONISTS RATES!

The Atchinson, Topeka & Santa Fe, as usual, head the Home-seekers movement to points in Texas and New Mexico. Round trip rates from Kansas City to points in Texas on the east of a line drawn through Amarillo, Abilene, San Antonio, Houston and Galveston; \$15; to Pecos, Texas, and all intermediate points on Pecos Valley Lines \$20; to El Paso, Texas, \$26.50. Tickets on sale March 1st and 15th.

The remarkably low rate for Colonists one-way tickets from Eastern territory to Amarillo of \$8 from Kansas City puts one half the one-rate to any station on the Pecos Valley Lines beyond Amarillo. Date of sale of these tickets is the same as for Home-seekers round trip tickets.

This gives your friends in the east an opportunity to come out and visit you and see the country. Write them to call on their nearest A. T. & S. F. Ry. agent who will take pleasure in furnishing them more detailed information.

A novel entertainment will be given by the ladies of the Presbyterian church at the court house next Monday night. The public generally is invited to this "Sock Social" and all are promised a good time. Come and bring your sock containing a few pennies.

A rural poet thus soliloquizes: "Early to bed and early to rise does very well for sick folks and guys; but it makes a man miss all the fun till he dies, and joins the stiff that have gone to the skies. Go to bed when you please, and lie at your ease. You'll die just the same of some Latin disease."

Wm Shaffer, a brakeman of Denison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says, "finally I sent to Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by Miami Drug Co.

The editor of the Skidmore Sentinel asks: "Have you noticed when you meet a doctor he says: How are you? A newspaper man inquires: What do you know? The lawyer slaps you on the back and ejaculates: What have you got? The preacher asks: Where are you going? This is the hardest to answer."

#### Griffin-Stanley.

#### AT THE COURT HOUSE.

Miami's sons and daughters fair may spend a social hour or more, Next Monday night in games quite rare, When once inside the Court House door.

To insure a warm reception then be sure to bring this sock so small, And in it penne two times ten— Unless you don't wear socks at all.

But if your feet are very small, Or, if but children you may be, Hod Baird will let you in the hall Perhaps, for only nickles three.

Jack Mead and Gist and Kivlehen And nice young ladies, three or four, With cake and coffee now and then Will serve you till you want no more.

#### Do You Want Strength?

If you want to increase your strength you must add to and not take from the physical. In other words the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by Miami Drug Co.

#### LAND!

Power of Attorney has been conferred upon the undersigned to sell direct to purchasers, and to execute deeds for lands in Block Number Three of the I. & G. N. R. R. Co. surveys, Gray County, Texas; also for lots in the new and promising town of Pampa.

The rich quality and fast rising value of the land are already too generally known to need much comment. Liberal terms and a low rate of interest. I have also very excellent pastures to rent.

T. D. HOBART,  
Pampa, Gray County, Tex.

#### Colds Cause Pneumonia.

—One of the most remarkable cases of cold, deposited on the lungs, causing pneumonia, is that of Mrs. G. E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. "The coughing and straining so weakened me that I ran down in weight from 145 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. 4 bottles of this wonderful remedy cured me of the cough, strengthened my lungs and brought me to my normal weight, health and strength." Sold by Miami Drug Co.

A school marim not a thousand miles away found a lad in the geography class who was deeply interested in learning the points of the compass. The teacher said: "You have in front of you the north; on your right the east; on your left the west; what have you behind you?" After a few moments reflection the lad exclaimed: "A patch on my pants," and to make the information more emphatic, the lad continued in a shamefaced manner: "I know you'd see it. I told you you would."

Last week we failed to make mention of a decision in a land case in which many of our readers are interested. It was the case between John Lewis and Christi Weckesser over a section of school land. In the district court of Hemphill county a decision was given in favor of Lewis, but on appeal the court of civil appeals at Ft Worth reversed the case and gave the land to Weckesser.

We venture the prediction that "Rube" Hutton will be the next sheriff of Dallam county. We see in the Dallam paper he has announced as a candidate for the office and three others are in the race with him, and these three are in for a lively chase and at the final wind up will look rather gaunt, for Hutton has a way of getting mighty close to the peoples feelings. The people of Dallam county could not find a man who would make a better sheriff than Rube Hutton. Mr. Hutton was sheriff of this Roberts county, for five terms.

J. W. Harrah has sold his place in the suburbs of Miami to P. A. Peck and Mr. Peck will move his family here, having sold his ranch some time ago. Mr. Harrah purchases the M. A. Locke drug store building which also includes the apartments in which the confectionery is run. Mr. Harrah has also purchased the confectionery fixtures, billiard table, etc., from G. M. Black. We understand Mr. Harrah will run a confectionery, ice cream parlor and billiard hall, and the front part of the drug store fitted up for a millinery store. Mr. Locke will move his stock of drugs to Alanoed.

Will Hubbard, who has been behind the counter at N. F. Locke's dry-goods store for several months, left Tuesday morning for his old home in Arkansas. He will doubtless have wonderful tales to tell the people back there of his experience in the "Wild West" and not the least among them will be his first sheep herding, when after a few days absence the owner of the sheep came in and found jack rabbits tied to the posts around the corral, which Will had taken to be lambs and said this was the only way he could keep them in the bunch. Before leaving he left instructions for THE CHIEF to visit him weekly to give him quotations on buffalo hides, keep him posted on the Indian raids and other events transpiring in this frontier country.

#### Points a Moral.

We have learned that O. W. Alexander and family came near being poisoned a few days ago. It is reported that a bottle of dog poison on top of the kitchen safe froze and broke and leaked down on a cake in the safe. Mr. Alexander let his dog tackle the cake first. Result: The dog died, and the lucky family escaped. Moral: Keep all poison in a locker provided for that purpose.—Wellington Times.

#### The Name Witch Hazel.

—The name Witch Hazel is much abused. E. C. DeWitt Co., Chicago, are the inventors of the original and only genuine Witch Hazel Salve. A certain cure for cuts, burns, bruises, eczema, tetter, piles, etc. There are many counterfeits of this salve, some of which are dangerous, while they do all worthless. In buying seek the name E. C. DeWitt & Co. Chicago' on the box and a cure is certain. Sold by Miami Drug Co.

#### Sam Jones on Divorce.

Another source of divorce is neglect. A man who will neglect his wife deserves to be strung up in a courthouse and covered with scandal. A woman who will neglect her husband for anything or anybody deserves all the scandal she gets. I pity a warm-hearted, genial man that has married a cold-blooded woman. I have shaken hands with a few cold-blooded women, and I had as soon shake a dead fish's tail. And a warm-hearted, loving wife with an old husband as cold as a dog's nose! I had rather be every old maid in Georgia than the wife of a tombstone. I believe in a man loving his wife and showing her he loves her and telling her he loves her. Some men don't kiss their wives once in three months. I believe every man ought to go home every day put his arms around his wife and kiss her and tell her she is the dearest, best, prettiest, sweetest thing in the world. Of course some fellow would have to tell a lie to say it, but that sort of a lie is harmless and wholesome.

#### Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

**Kodol Dyspepsia Cure** relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

**Kodol Digests What You Eat** Make the Stomach Satisfied. Bottles only. Regular size, \$1.00, holding 2 1/2 times the trial size, which sells for 50 cents. Prepared by E. C. DEWITT & CO., Chicago, Ill.

### TIME TOO VALUABLE

WHY SOUTHERNER WAS GLAD TO LEAVE THE EAST.

Tired to Death with the Everlasting Question, "How Long Will It Take?" —Happy to Get Back to a More Incident Section.

With his ticket to Richmond stuck away in his inside pocket, the man from the South felt that he could afford to be critical, says the Philadelphia Ledger.

"I'll be glad to get back to Richmond," he said, "for several reasons in general and one in particular. For the next six months I expect to hear no man say, 'How long will it take?' Up here that is the universal question. Just keep your ears primed and you will hear it fifty times a day. If a man stops to have his shoes shined he invariably asks the boy how long will it take. To my mind that seems a perfectly useless query. Unless he has lived as a hobo for the last ten years and has eschewed the delights of blacking and brush any man knows just as well as the boy at the stand the length of time required to give a good polish, but from mere force of habit he puts the question.

"In barbers' shops many customers even go so far as to eliminate the usual morning greeting. They simply say, 'How long will it take?' and when they leave their parting word is not 'Good-bye,' but 'I hope you can get through a little quicker next time. If you can't I won't come here any more.'"

"The man who hitches down town is no exception. Even an order of a cup of coffee and a sandwich necessitates the popping of that all-important question, 'How long will it take?' You hear it in drug stores, at the prescription counter and at the telephone booth. In banks, in hotels, in offices, and on the street people put that question to each other for no apparent reason. They simply meet and stare at each other for a minute, then one makes some remark apropos of nothing, to which the other blithely replies, 'How long will it take?' Possibly the importance I ascribe to this phrase may strike you as an exaggeration, but it is not. On the contrary, I haven't stated the case strongly enough for the frequency with which I have heard the question pronounced convinces me that it is the very mainspring of metropolitan conversation.

"To a man of my indolent disposition all that reckoning time is painful. I was brought up in a section of the country where nobody cares a rap how long it takes to do a thing, and it will be with feelings of pleasure that I shall again mingle with friends who will not answer even my invitation to have a drink with the query, 'How long will it take?'"

#### Best Cough Syrup.

S. L. Apple, ex-probate judge, Ottawa, Co., Kan. writes: "This is to say that I have used Ballard's Horehound Syrup for years, and I do not hesitate to recommend it as the best cough syrup I have ever used." 25c, 50c, and \$1.00. For sale by Miami Drug Co.

#### Do Work at Home.

There is perhaps no country in the world which has more extended home industries than Italy. The silk industry, the manufacture of hemp and tow, the twisting of baskets and braiding of straw hats, for example, furnish employment to many thousands of people in their own homes.

#### Taking Precautions.

A farmer wrote to his lawyer as follows: "Will you please tell me where you learned to write? I have a boy I wish to send to school, and I am afraid I may hit upon the same school that you went to."

#### Women's Circle.

Miami Grove No. 182, W. C. meets on 1st and 3rd Mondays at 7:30 p. m. in Odd Fellows' Hall.—Mrs. Laura Rainey, Guardian; Miss Luella Harrah, Clerk.

#### Invaluable for Rheumatism.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pain. March 24, 1902, J. C. Degnan, Kinsman, Ill. 25c, 50c and \$1. For sale by Miami Drug Co.

#### Hotel for Sale or Rent.

W. M. Brown, owner, offers the "Miami House" a hotel in Miami, Texas, for sale or trade.

#### Order Eastern Star.

Miami Chapter No. 90 O. E. S. meets on 3rd Saturday afternoon in each month, at 2 o'clock.—Mrs. Josie Gist, W. M.; Miss Katie Kivlehen, Secy.

#### Gives Health, Vigor and Tone.

Herbina is a boon for sufferers from anemia. By its use the blood is quickly regenerated and the color becomes normal, the drooping strength is revived, the languor diminished; health, vigor and tone predominate. Mrs. Belle H. Shirel, Middleborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to do for me like Herbina. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50c. Sold by Miami Drug Co.

#### Prohibits Sheet Iron Houses.

The erection of galvanized iron houses in Bloomfontein, the capital of the Orange River colony, has been prohibited.

#### Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan. says "My husband lay sick for 3 months. Doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was 6 years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1. Sold by Miami Drug Co.

### TIME CARD.

Southern Kansas Railway of Texas.

—EAST BOUND—  
No. 202 Passenger Train 10:05 p. m. daily.  
No. 202 Local 12:01 p. m. daily except Sunday.

—WEST BOUND—  
No. 201 Passenger Train 6:33 a. m. daily.  
No. 201 Local 3:35 p. m. daily except Sunday.

#### CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup Free expectorating in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottle 25c; regular size 75c. At all druggists.

### Dragging Pains

2825 Keeley St., CHICAGO, ILL., Oct., 2, 1902. I suffered with falling and congestion of the womb, with severe pains through the groins. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, had blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

**Wine of Cardui**

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

For advice in cases requiring special directions, address giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.
