By Mother's Food and Drink,

Many babies have been launched into ife with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babes. The experience of a Kansas City mother is a case in point:

"I was a great coffee drinker from

a child, and thought I could not eat a

meal without it. But I found at last it

was doing me harm. For years I had

been troubled with dizziness, spots be-

fore my eyes and pain in my heart, to which was added two years ago, a chronic sour stomach. The baby was born 7 months ago, and almost from the beginning, it, too, suffered from sour stomach. She was taking it "In my distress I consulted a friend of more experience than mine, and she told me to quit coffee, that coffee

did not make good milk, I have since

ascertained that it really dries up the milk. "So, I quit coffee, and tried tea and at last cocoa. But they did not agree with me. Then I turned to Postum Coffee with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk. My husband then quit coffee and used Postum, quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from the dizziness, blind spells, pain

in my heart or sour stomach. Postum has cured them. "Now we all drink Postum from my husband to my seven months' old baby. It has proved to be the best hot drink we have ever used. We would not give up Postum for the best

coffee we ever drank. Name given by Postum Co., Battle Creek, Mich. There's a reason. Get the little book "The Road to

The Effect of Emperor William's Visit to Tangler.

DEL CASSE POSTPONES QUESTION

It Is Shown by a Conference That It Is the Purpose to Adopt a Passive Attitude and Await the Development of Events.

Paris, April 5.-The Morocco incident is making a deeper impression and while calmness continues to prevail there is a growing sense of rudeness of the shock which Emperor William's visit to Tangier and his declarations give to French policy. However for the present it is evident that the purpose is to adopt a passive attitude and await the development of events. This was shown by a conference at the foreign office between Foreign Minister Del Casse and several deputies who wished to question him in the chamber concerning Morocco. The foreign minister asked for an adjournment of the questions, saying there was nothing to add to what he had already in the senate. Accordingly the questions were indefinitely postponed.

The Temps says the authorities version of Emperor William's remarks at Tangier makes it useless to dety the disobliging character of such words, which "constitute almost the maximum sport of openly quarreling with France that William III could attempt in order to be disagrecable.'

However, the general tone of the press is singularly free from belligerent or menacing talk.

St. Petersburg.-The developments resulting from Emperor William's speech at Tangier continues to attract great attention in the press and in diplomatic circles. The sober view is that the German emperor seized on a favorable opportunity to read France occur under 5 years of age. In a lesson for leaving Germany out of consideration in the French-British understanding regarding Morocco, with the view, possibly of compelling France to make a permanent renunciation of her aspirations regarding Metz and Loraine, also with the practical purpose of securing a vote in the reichstag next fall for a large naval program. There is no serious idea that the incident may lead to a conflict. With Russia enfeebled, France will have to look to Great Britain to play the role of protector assumed by Russia when Germany threatened her in 1875, and there is a good deal of speculation on the subject of the new grouping of the powers. The home papers, however, declare that while the British press may bluster, Great Britain has secured her quid pro quo in Egypt and will leave Fance to take care of herself.

KAISER THEIR PROTECTOR Emperor Willam Made Deep Impres-

Berlin, April 4.-The Lokal Anzeiger, in a dispatch from Tangier, says that in replying to the members of the German colony, Emperor William said he was glad to make the acquaintance of the pioneers of Germany in Morocco and to tell them that they had done their duty. They must remain united and continue to fulfill their duty under the emperor's protection. Germany had great commercial interests in Morocco. Her trade was advancing gratifyingly. He, the emperor, would make it his business to promote this trade, which was only possible on the assumption of the equality of all the powers and the sovereignty of the sultan and the in-

dependence of the land. His visit was a recognition of this independence. The speech, the Lokal Anzeiger adds, created an immense impression in the foregn colony at Tangier, especially among the natives who now refer to the emperor as the protector of the independence of Mo-

Spends \$100,000 in Getting Hold of an Illinois Tract.

Duquoin, Ill., April 4.-The entire holdings of the Big Muddy Colliery Company of Benton have been sold to Charles J. Devlin, the multimillionaire coal operator of Topeka, Kan. The deal includes a mine, together with 1,200 acres of rich coal land, heretofore untouched. The purchase price is thought to be about \$100,000. Mr. Devlin is said to own the controlling interest in twenty-two mines in the Central states. A modern shaft will probably be sunk on the tract of land at once.

Women suffering from any form of female weak.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakmess are invited to promptly communicate with Mrs.
Pinkham at Lyan, Mass. All letters are received,
opened, read and answered by women only. A
rwoman can freely talk of her private illness to a
woman; thus has been established the eternal
confidence between Mrs. Pinkham and the women
of America which has never been broken. Out
of the vast volume of experience which she
has to draw from, it is more than possible
that she has gained the very knowledge
that will help your case. She asks nothing in return except your good-will, and her
advice has relieved thousands. Surely any
woman, rich or poor, is very foolish if she
does not take advantage of this generous
offer of assistance. — Lydia E. Pinkham

We have made diligent enquiry into all matters and 1.50 things given us in charge by the Court, and that has come to our knowledge by having witnesses from all parts of the County, we find there has been but few crimes committed within the jurisdiction of this jury, which is another evidence 767 M Blodgett, Juror, Dist.
