RHEUMATISM CURED

The Disease Yielded Readily to Dr. Williams' Pink Pills After Other Treatment Failed.

Dr. Williams' Pink Pills cure rheumatism because they supply the necessary elements to the vitiated blood and enable nature to cast out the impurities and effect a cure. Mrs. A. Baker, of No. 119 Fitch street, Syracuse, N. Y., will furnish living evidence of the truth of this statement. "There has been rheumatism in my family ever since I can remember," she says. "My grandmother was a great sufferer from muscular rheumatism and my mother also had the disease in a mild form. About a year ago I had a hard cold and rheumatism caught me in my left knee. There were sharp pains, confined to the neighbor-hood of the knee and they seemed to go right into the bone. The pain I suffered was intense and I also had dizzy spells.

'The doctors called my trouble uriatic and sciatic rheumatism. When I didn't get better under their treat-ment my brother-in-law suggested that I try Dr. Williams' Pink Pills. I bought three boxes, and, by the time I had the pain and dizziness had entirely left me. I wanted to make sure of a cure so I bought three more boxes, but I didn't take quite all of them as I found that I was entirely cared.

"Before I took the pills the pain was so severe that I had to cry at times and when I was cured I was so thankful and grateful and I am glad to recommend them to every one who suffers with

Origin of "Indenture."

Legal documents were once engrossed on parchment because paper cost so much more than dressed skin. The parchment was seldom trimmed tress from Dyspepsia, Indigestion and Too Hearty Eating, A perfect remedy for Dizziness, Nausea, Drowstness, Ead Tasto exactly and the top was scalloped with the knife, hence the term "this indenture." Even where the lawyers have departed from the custom, still obtaining in England, of using parchment orgue, Pain in the Side, for their legal forms, the phrase has been retained.

ERUPTION OF VESUVIUS MORE VIOLENT THAN EVER.

DELUGE OF SAND AND ASHES.

Weight of Ashes on Roof Causes Col lapse of Market House in Naples Burying Two Hundred People Un der Debris.

Naples, April 12. -- When morning broke the outlook was promising for an amelioration of the conditions conequent upon the activity of Mount Vesuvius. The hopefulness of the populace, however, was short lived, and the Neapolitans were plunged ina condition bordering on frenzy by the collapse of the Mount Oliveto market, which covered a plot of ground 600 feet square, the structure falling upon 200 or more persons, many of whom were crushed and mangled beyond recognition.

The scenes in the vicinity of the ruins were agonizing, relatives of the victims clamoring to be allowed to go to their dead or dying. Only by the firm intervention of the police and carbineers was it possible to keep back the crowd from overwhelming those who were engaged in the work of rescue.

While early in the day the volcanic activity of Mount Vesuvius appeared to have diminished, as night approached the prospect of immediate relief faded, and the fate of the villages and towns grouped around the volcano scemed more hopeless. Instead of decreasing, the fall of sand and ashes emitted from the crater increased. Even with the sun shining high in the heavens, the light was a dim yellow, in the midst of which the few people who remained in the stricken towns, their clothing, hair and beards covered with ashes, moved about in the awful stillness of desolation like gray ghosts.

The case of Torre del Greco is typical. For thirty hours the place has been practically deserted, but amid the ruins and a semi-darkness illuminated from time to time by vivid flashes of lightning, a few of the inhabitants go about hungry and with throats parched with smoke and dust, seemingly unable to tear themselves away from the ruins of what so recently were their homes.

Communication by rail or tramway with Torre del Greco and Torre Annunziata is impossible, owing to the cinder, sand and ash deposits. Railway travel to and from Naples is much hampered by the same conditions, and a collision resulted in the injury of about twelve passengers. Telegraphic communication with the towns farthest in the danger zone

also is interrupted. which had almost ceased during the night, recommenced early, and the fall of volcanic ejecta in the Vesuvian communities has been enormous. It is feared that the weight of ashes on roofs will cause the collapse of many more buildings, both here and in the towns and villages nearer the volca-

Natives also are preparing to tackle Bam Baata in native fashion in the bush. EAGLES GROWING SCARCER.

In the British Isles Eggs Are Becom-Ing Higher.

The eagle has grown scarce in the British Isles. The eggs of the bird grow yearly higher priced. A couple of eggs from Scotland recently brought \$10 apiece. An old record states that in the seasons 1831-'34, inclusive, no fewer than 171 mature specimens of the eagle, together with fifty-three young and eggs, were destroyed in a single county of Scotland -Sutherland; from which statement one can well imagine the cruel havoc that has been wrought in the ranks of a once very common bird of prey. No one denies that the eagle is destructive to game and lambs, but it seems a pity that so noble a bird should be so utterly wiped out of existence, for the eagle has many interesting associations with the past. In Scotland a century or two back three eagle's feathers were the badge f a chief, two of a chieftan and one of a gentleman; but more interesting still is the fact that the flesh of the eagle was considered in the seventeenth century "a valuable medicine against the gout." The same authority also states that the bird was some times eaten by the hardy Highlander as part of his ordinary diet.

Historic Court House.

The Rutland, Vt., chapter of the Daughters of the American Revolution are to try and get possession of the old court house there, which is the city's most interesting historic structure. It is located on West street and is the oldest building in Rutland, and the second oldest in the state, having been built in 1784. It is now a private residence and the owners do not care to sell. It may not be commonly known that Rutland was once the capital of Vermont, and it was in that 1784, 1792, 1794, 1796, 1797 and 1804. The federal court in Vermont sat in the old building during the latter part of the eighteenth century, and there it was that Judge Harrington rendered the famous decision that the only title to a slave that would be held good in Vermont was "a bill of sale from the Almighty."

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company-California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other -medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
