It is possible to obtain relief from
chronic indigestion and dyspepsia by
the use of Kodol for dyspepsia. Some
of the most hopeless cases of long
standing have yielded to it. It enables
you to digest the food you eat and ex-
erts a corrective influence, building
up the efficiency of the digestive or-
gans. The stomach is the boiler where-
in the steam is made that keeps up
your vitality, health and strength.
Kodol digests what you eat. Makes the
stomach sweet—puts the boiler in con-
dition to do the work nature demands
of it—gives you relief from digestive
disorders, and puts you in shape to do
your best, and feel your best. Sold
at Central Drug Store.

District Attorney Ben H. Kelly is
enjoying a visit from his father.

Mrs. Gunn, mother of Dr. Gunn, ar-
rived Tuesday and will probably make
her home in Miami.
Mrs. Frank Hoar entertained her
Sunday School class at her suburban
home on last Tuesday evening from
7:30 to 9:30 o'clock. Games, other in-
nocent amusements, and refreshments
were events of the evening, and at the
close the pupils departed for their re-
spective homes with words of love and
praise for their kind teacher.

"Will be at Dr. Gunn's office, in Mi-
ami, on May 22nd and 23rd," writes Dr.
J. J. Hanna of Amarillo, whose practice
is limited to diseases of the Eye, Ear,
Nose and Throat.

The greater part of this week has
been devoted to work on the Clerk's
annual report which is published today.
This is a big task, calling for lots of
hard and careful work. We make this
explanation that shortcomings in other
parts of the papers can be attributed
thereto, as we have no help, whatever.
However, after this week we expect to
have help and hope to give you a bet-
ter paper.

Sciatica Cured After Twenty Years
For more than 20 years Mr. J. B. Mas-
sey, of 3222 Clinton St., Minneapolis,
Minn., was tortured by sciatica. The
pain and suffering which he endured
during this time is beyond comprehen-
sion. Nothing gave him any perma-
nent relief until he used Chamberlain's
Pain Balm. One application of the lin-
iment relieved the pain and made sleep
and rest possible, and less than one
bottle has effected a permanent cure. If
troubled with sciatica or rheumatism,
why not try a 25-cent bottle of Pain
Balm and see for yourself how quickly
it relieves pain. For sale by Central
Drug Store.

Mr. Hoge recently sold his place in
Gray County to W. W. Mors of Hunt
County.

W. M. Brown who recently sold his
property here and left with his family
to hunt a new home, writes from Tex-
oma to send the paper to his address
there.

Why take a dozen things to cure that
cough, Kennedy's Laxative Honey and
Tar allays the congestion, stops that
tickling, and drives the cough out
through the bowels.

now promises to be interesting as ten

sell his property and move to Arizona,
but after using New Discovery a short
time he found it unnecessary to do so. I

FOUND SEVEN BILLS

WORK OF NEW YORK JURY AGAINST REBATERS.

RAILROADS AND INDIVIDUALS.

Evidence Presented Related Mainly to Shipments of Sugar From Various Refineries in Eastern Localities to Western Markets.

New York, May 7.—The April federal grand jury in concluding its labors handed down seven sealed indictments in the sugar rebating cases. The indictments are against the following:

The New York Central railroad; the American Sugar Refining Company; the New York Central & Hudson River Railroad Company and Nathan Guilford, vice president of the company; the American Sugar Refining Company of New York and C. Goodlee Edgar and Edwin Earle, the latter two being wholesale sugar dealers of Detroit, Mich.

The New York Central & Hudson River Railroad Company and Nathan Guilford, vice president, and F. L. Pomeroy, general traffic manager.

The American Sugar Refining Company and the American Sugar Refining Company of New York, and C. Goodlee Edgar and Edwin Earle.

Nathan Guilford, F. L. Pomeroy, C. Goodlee Edgar and Edwin Earle.

The first six indictments were found under the "Elkins anti-trust law," which provides penalties of a fine not exceeding \$10,000, or imprisonment not exceeding two years, for giving, granting, applying for, or accepting any rebate or concession from the regular freight rates, as published by a railway company as a common carrier.

The seventh indictment found against Guilford, Pomeroy, Edgar and Earle, charges them with having collectively conspired to violate the provision of the Elkins anti-trust law.

These are the first indictments for an alleged violation of the anti-trust law found in this district. Sixteen sessions of the April grand jury were devoted exclusively to the consideration of these cases, but it is evident from the presentment which the jury handed in with the indictments that it deems the situation but hurriedly canvassed.

It recommends that the investigation be continued by its successor, intimating that indications point to the possibility that other common carriers may be equally culpable with the indicted roads.

CONGRESSIONAL NOTES.

Friday, May 4.

Washington, May 4.—President Roosevelt, Attorney General Moody and Commissioner of Corporations Garfield conferred at the White House on the special message which the president will send to congress accompanying Commissioner Garfield's report on the operations of the so-called oil trust. The president's message will contain forceful comments on the result of the investigation and it is expected will contain a sharp arraignment of the methods of the oil trust. The nature of the recommendations to be made by the president is not disclosed, but it is understood they will be direct and positive in character.

Congressman Curtis of Kansas has introduced in the house a remarkable bill directing the secretary of the interior to enroll such white persons who prior to December 16, 1895, intermarried with Cherokee, Shawnee or Delaware Indians as citizens of the Cherokee nation by blood in accordance with laws of the Cherokee nation and when such intermarried white persons are enrolled they shall have the same status and may participate in the division of real estate and other property of the Cherokee tribes or nation the same as if they were Cherokee citizens by blood; provided that each such intermarried white shall first pay to the United States treasury for the benefit of the Cherokee tribe \$25.00; provided further that such intermarried white shall avail themselves of the provisions of this act within six months from the date of enactment, also that such whites shall have the right to sell and dispose of any and all improvements placed by them on their tenative allotments in the Cherokee nation, as enrolled citizens thereof and also provided that there shall be no restrictions upon alienation of the lands allotted to such intermarried whites.

Mr. Bacon criticized the course of Mr. Tillman as calculated to produce a false impression on the country and was in turn rebuffed by Mr. Bailey, who said that while the office of judge is entitled to the greatest respect, there should be no reverence for judges as men.

The army appropriation bill carrying an appropriation of about \$74,000,000 was passed.

Senator Tillman, when the tiff between him and Mr. Spooner had drawn to a harmless close, returned to his strictures on certain federal judges.

PARIS STRIKE BROKEN.

Paris, May 5.—The strike has ceased to present any general menace and is now confined to scattered agitators, which promise prolonged wrangles in several industries. Public attention is now diverted to the operations to the chamber of deputies which will be held next Sunday. These afford an additional reason for the continuance of precautions, as the authorities do not wish the contest to be complicated by failure to maintain order.

WITTE STILL HOLDS ON.

CZAR HAS NOT DEFINITELY ACCEPTED HIS RESIGNATION.

St. Petersburg, May 5.—Much mystification has been aroused by the fact that Emperor Nicholas has not yet in definite words accepted Count Witte's resignation as premier. It seems that Witte received a letter from the emperor thanking him for his zealous and able services in the past and Witte accepted this in connection with his proffered resignation and the report of M. Goremynkin's appointment to the premiership as being equivalent to his dismissal.

The delay in the appearance of a rescript accepting Witte's resignation is further cause for comment, and the theory is advanced that the emperor is still hesitating, in view of the general expression of opinion in regard to M. Goremynkin, to discard the old premier.

At the same time it is known positively that Interior Minister Durnovo's resignation has been tendered.

PURELY SCIENTIFIC MARCH.

Large Force of Russians Going Down Into China.

St. Petersburg, May 5.—Later developments increase the importance of the Russian expedition to Mongolia under Colonel Novitsky, which is to leave St. Petersburg the middle of May to survey the hitherto unexplored region between the Manchurian frontier and Urga. It is now announced that the expedition will consist of not less than 60 officers, and that its first work will be to make further surveys for a railroad from Kiakhta to Kalgan, and another route from Urga to Kirin, by which the eastern region of Mongolia will be thoroughly surveyed.

In this connection dispatches from Peking regarding the possibility of an Anglo-Russian understanding on the basis of hands off for Great Britain in Tibet and for Russia in Mongolia, are read with interest. It is recalled here that the Russian expedition to Tibet which started the strife for Liassa was first announced like this one, to be for "purely scientific purposes."

Duke Should be Given His Divorce.

Newark, N. J., May 5.—Vice Chancellor Pitney advised that a decree of absolute divorce be granted to James B. Duke, president of the American Tobacco Company, in his suit against Lillian Duke. He said the evidence was overwhelmingly in favor of Duke and that he could do nothing else than recommend that Duke be given his divorce.

Demand Their Suffrage.

Vienna, May 5.—Should universal suffrage not be carried in the present legislative session throughout the whole of Austria will be organized. The chief board of the Austrian Social Democrats decided to use decisive measures to get the wishes of the laborers fulfilled.

PLEASANT TRUTHS.

Why not give the cheery word, the truthful word that will brighten the load of a fellow burden bearer.

Do not deprive the world of a joy we might have given when we do not hasten to speak the pleasant truth?

There are truths which are so joyous that it is only gladness to speak them—truths which seem to have no unpleasant side at all.

Happiness is a quality of which we might obtain a larger share than usual if we determined to discover the pleasing side of the most unpleasant truths.

Now if one side is always more pleasing than the other, why the question may be asked is it not more honorable to choose always the pleasant side to present our friends.

There is always more than one side to a truth. Two sides, at least can be seen, by the most simple minded person and those whose minds are complex can readily see many sides to the same question.

THE WHITE PAINT OF THE WHITE HOUSE.

The White House at Washington, which has been the "Kings Palace" of the American People since it was first occupied by President Madison in 1800, has recently undergone a thorough course of remodeling, renovation and repair. Every American citizen is owner of an undivided eighty or eighty-five millionth part of the White House, as well as of the other Public Buildings and Monuments in the Capitol City. An item in the renovation of the remodeled White House was repainting. Every visitor to Washington knows why the White House is so called—because it is literally a "white house". The exterior paint must therefore be white. Now while the pure white surfaces and simple lines of the White House, set in the midst of green lawns and beautiful trees, produce a very satisfying effect of dignified simplicity, white paint from a practical point of view, is about the most unsatisfactory kind of paint that could have been selected by the original designers. First, because any white paint is easily discolored by smoke and dust, and second, because ordinary white paint itself gradually turns gray or brownish yellow from exposure.

But white the White House is and white it must remain or it would no longer be the "White House". So the renovators, making the best of a discouraging situation, sought for the best kind of white paint procurable. The average citizen if asked to guess what kind of paint they finally decided on would probably answer—"white lead and oil," but he would guess wrongly. The paint selected as the best obtainable was a ready mixed paint, such as can be bought in any well furnished village store, such as is used by more than half of the eighty or eighty-five million owners of the White House on their own homes. That one brand of mixed paint was used instead of another is a mere accidental detail—there are fifty or a hundred brands on the market that might have been selected in other circumstances, and in fact, a different brand was used in painting the Capitol.

Every property owner, therefore, who paints his house with a high grade ready-mixed paint is following the example set by the Government Authorities at Washington, who used ready-mixed paint, because they could find nothing else as good.

REPAIRING BRAIN

A Certain Way by Food.

Every minister, lawyer, journalist, physician, author or business man is forced under pressure of modern conditions to the active and sometimes overactive use of the brain.

Analysis of the excreta that pour out by the pores shows that brain work breaks down the phosphate of potash, separating it from its heavier companion, albumen, and plain common sense teaches that this elemental principle must be introduced into the body anew each day, if we would replace the loss, and rebuild the brain tissue.

We know that the phosphate of potash, as presented in certain field grains, has an affinity for albumen and that is the only way gray matter in the brain can be built. It will not answer to take the crude phosphate of potash of the drug shop, for nature rejects it. The elemental mineral must be presented through food directly from nature's laboratory.

These facts have been made use of in the manufacture of Grape-Nuts, and any brain worker can prove the value of the proper selection of food by making free use of Grape-Nuts for ten days or two weeks. Sold by grocers everywhere (and in immense quantities). Manufactured by the Postum Co., Battle Creek, Mich.

ASKS \$500,000 MORE

ROOSEVELT RECOMMENDS ADDITIONAL GOVERNMENT AID.

\$2,500,000 IS NEARLY GONE.

General Greely Says That Much More Money Will Be Needed for the Purchase of Supplies, So An Additional Appropriation is Asked.

Washington, May 10.—The president transmitted to congress a letter from Secretary Taft recommending the appropriation of an additional \$500,000 to meet conditions at San Francisco. The president's letter of transmittal to the senate and house follows:

"I herewith transmit a letter from the secretary of war in respect to the situation as to the army supplies at San Francisco. This letter contains appendices showing the supplies which have been transmitted to San Francisco and their cost and sets forth the necessity for an additional \$500,000, which I recommend be made at once.

"THEODORE ROOSEVELT."

Secretary Taft's letter shows that of the \$2,500,000 appropriated for the relief of San Francisco \$2,055,333 has been expended, or contracts have been made which will consume this sum. The expenditures are divided among various departments as follows:

Quartermaster's department, \$1,711,664; subsistence department, \$329,432; medical department, \$501,539; signal corps, \$15,000; mileage, \$11,695.

Estimates were given of the cost of returning troops from San Francisco to the stations where they are on duty and the letter also gives transportation charges on all supplies and estimates for replacing supplies from army posts for use in California.

Secretary Taft's letter concludes with the following recommendations:

"General Greely has requested that \$300,000 in the hands of the chief quartermaster and chief commissary at San Francisco be expended for the purchase of supplies. I have authorized this expenditure on the statement by General Greely that of the quartermaster's supplies already sent to San Francisco more than \$200,000 will not be used, but may be returned to the general stores of the army. It is quite probable, however, from General Greely's statements that a larger sum will be needed in San Francisco for the purpose of continuing the purchase of supplies, and I therefore recommend that congress be applied to make an additional appropriation for the same purpose as already expressed in the previous resolutions of \$500,000.

"I am advised that under General Funston and General Greely money has been expended for the employment of labor necessary in the distribution of supplies and in putting the tents and other shelter into condition for use in sanitation of the concentrated camps of the sufferers."

"I therefore ask that the resolution shall authorize payment for these services."

Why a Freshman Was Hazed.

Madison, Wis., May 10.—Three students of the University of Wisconsin were suspended for cutting a freshman's hair and painting his face with iodine because he had said that Madison students lacked culture.

KICK ON RATES.

Kansas Cattlemen Get Railroad Hearing July 25.

Topeka, May 10.—The case brought against the Kansas railroads by the cattlemen asking for a reduction in the freight rates on cattle will come before the board of railroad commissioners for hearing July 25. The case has not been set for hearing before, because some of the cattlemen were not ready to present their evidence. It is charged by the cattlemen that the freight rates on cattle are much too high. Carr W. Taylor, attorney for the board of commissioners, asked that the hearing be held in Ashland, the county seat of Clark county. There was objection to this place, and the board decided to have the hearing in Topeka.

Twenty-four Earthquakes.

San Jose, Cal., May 10.—According to advices received from the Lick Observatory, there have been twenty-four earthquake shocks recorded on the seismograph at that institution since the morning of April 18.

Panama, May 8.—The Panama Canal Company had 27,000 employees on its rolls during the month of April. Five thousand of these were paid in gold and 22,000 in silver. The number of men at work exceeds by 9,000 the greatest number the French company ever had in its employ.

Another Warship Sails.

Port Said, May 9.—The British cruiser Minerva proceeded to Piraeus, Greece, where the British cruisers Carnarvon, Barham, Suffolk and Venus and the special transport boat Vulcan with destroyers are also bound.

Oldest Woman in Georgia Dead.

Brunswick, Ga., May 8.—Elizabeth Gates, 114 years of age, said to be the oldest person in the state, died here. She had been married three times and leaves four children, twenty-three grandchildren and nineteen great-grandchildren.

A Strange Story.

Mrs. Isaac W. Austin, of Ridge, N. C., tells a strange story of great suffering. "I was in bed for months, but my periods had stopped, and I was in pain. After taking part of Wine of Cardui, nature was restored and without pain, suffering women to use the pure specific remedy for \$1.00, at druggists.

WORDS WRONGLY.

Never used the word "likely," you mean "liberty." Do not instance that "he is likely in at any moment." "Likely" is a misfortune, and means "subject to," in danger of.

Why do most of us speak of "a mystery"? A dictionary shows that "mystery" means "a secret," "a hidden thing," "a thing which is not known," "a thing which is not understood," "a thing which is not explained," "a thing which is not revealed," "a thing which is not made known," "a thing which is not made manifest," "a thing which is not made plain," "a thing which is not made clear," "a thing which is not made evident," "a thing which is not made obvious," "a thing which is not made apparent," "a thing which is not made manifest," "a thing which is not made plain," "a thing which is not made clear," "a

Commencement Exercises.

Monday's program finished the closing exercises of the Miami public school for the 1905-06 term. The graduating exercises, oratorical contest between members of the graduating class, and the declamation contest between a class of eight boys, took place Monday morning. In the oratorical contest all of the contestants did remarkably well and deserve much praise. Attorney W. R. Ewing, Dr. M. L. Gunn and L. L. Ladd, acting as judges in this contest, awarded the first prize to Miss Luella Carter, and second prize to Sam Nickel.

In the declamation contest, Attorney C. Coffee, Rev. John Stump and Judge T. M. Cunningham, as judges, awarded the first prize jointly to Charlie Heare and Remus Kelly, and the second prize to Pat Nickel.

The program Monday night consisted of recitations, dialogues, songs, drills, etc., and included pupils from all grades of the school—the little tots as well as those hardest to handle by the teachers to know how best to get them to do what you want them to. But each pupil did their part in a manner that evidenced skillful training and care on the part of their tutors. The audience was well pleased with the program; we feel sure the teachers were proud of the way their pupils did, and we know there were many a proud parent.

At each of the programs the house was packed, many having to stand, and even standing room was at a premium.

Happy Visitors.

One hundred and twenty-five strong from the members of the Oklahoma City Commercial Club on their trade excursion arrived in our town thirty minutes Wednesday. A good delegation of our town people met them at the train, and after a few selections from their band and a nice talk by one of the members of the club, which was responded to by a brief and appropriate speech by the president of the Miami Commercial Club, W. R. Ewing, the jolly crowd took a saunter over town. Aside from the advertising features the club is out for a good time, and from all indications are having it, and it does one good to meet them for they leave a feeling of gladness and mirth in their wake.

Base Ball Game

The Miami ball boys went to Pampa last Sunday and engaged in a tussle on the diamond. Miami team—Mansel Coffee, Roy Lard, E. L. Ownby, Will Lard, M. Law, Hank Lard, J. Flennning, Walker and McMeekin. Pampa team—Rider, Crawford, Donette, Miller, Ault, Harral, Richardson, Lane and Tate. Result, 1 to 10 in favor of Miami.

Scores by inning:

Revival Meeting.

At the conference at the Baptist church last Saturday night it was decided to begin a protracted meeting on the first Sunday in June, and Rev. Burnett is to make his own selection of help. All Christian people of the town are invited to attend and put their soul and spirit in the work and labor for the Master's cause.

Fourth of July!

Shall we be patriotic? Shall we be American? As a town shall we be awake? Shall we celebrate? Think over these questions during the coming week and next Saturday, May 19th, at 2 o'clock in the afternoon, meet the other fellows at the Cunningham hall and let's decide the matter. It none too early to begin work.

Do You Itch!

If so, you know the sensation is not an agreeable one, and hard to cure unless the proper remedy is used. Hunt's Cure is the King of all Itch remedies. It cures promptly any itching trouble known. No matter the name of place. One application relieves—one box is absolutely guaranteed to cure!

There's a smile of satisfaction on the countenance after eating a meal at the Miami restaurant.
