WHITTLIN'

BY DOLPH MOTEN

Willie the Weatherman is right. It isn't time to plant cotton yet.

Willie warned in his Blade weather report a few weeks ago, "Don't plant your cotton yet, boys, more cold weather is on the way." That warning came during a spell of beautiful weather and as is usually the case when Willie gives some weather advice, it was right.

Certainly we don't doubt Willie's weatherman ability, but on occasion we check on him just to keep him on his toes. Gene Ezell, Bovina's post-master-farmer, is our cotton planting barometer. Gene says that cotton needs to be seeded early. "There's nothing that will help cotton get off to a good start better than a light snow," is his theory.

And along about way-bunch too early to even think of planting cotton, Ezell springs forth in a short sleeve shirt with no coat, and starts conversations with comments about what good cotton planting weather we're having, no matter the temperature.

But, back to our checking on Willie: We made it a point to see Ezell Monday. Sure enough, he's still wearing a coat.

Of course, it snowed Monday morning and certainly it was cold enough to. However, that wouldn't have made Gene wear a coat if cotton planting time were near.

So, we can start worrying about other things. Cotton planting time is a long way off. We'll try to keep you posted.

Baker Warren Embree, as well as others, had a comment or two to make in regard to cigar which appeared at top of this column a week ago announcing birth of a new daughter in our family.

He said he cut the cigar out and smoked it. It was all right, he admitted, but at same time he complained that it burned too rapidly.

We didn't believe the story, but it was such a good one that he has us talked into giving him a real cigar before we realized what he was doing.

Time and again we've noticed in our business that once we get started making mistakes in regard to a business or individual the mistakes just continue to happen no matter how hard we try to avoid them.

People we're kicking most of late are the beauty operators at Fantasy Beauty Salon. When they were with another shop a while back, we ran an ad for them with one of the operator's names listed wrong.

No excuse for it; it just happened.

Then last week, when the new Fantasy shop was opened, we had it listed as Fancy both in an ad and in a news story. That time it was just ignorance, that's all. That's what we thought name of the place was.

So far, they've been nice about it all. More so than we deserve, probably. They'll even speak to us still--through gritted teeth.

Maybe the situation will get better. And we're sure they'll agree it couldn't get much worse.

We try to keep our beauty shop public relations high as possible. Women have a lot of influence. It's sure nice to have them on your side because it's impossible to fight them.

Gubernatorial candidates are going about their business of electioneering in a strong way, we notice in the dailies.

The Blade receives various news releases from each of them. From the new release standpoint, John Connally stands head and shoulders about the rest.

Almost every day, we receive a release from his headquarters.

Releases from all other candidates is much more spasmodic.

Whether or not that is indicative, we don't know. But it is noticeable.

Maybe we're mellowing in our old age, but from an overall standpoint we think we have a fine line-up of Demo candidates for the race for governor's chair, . . . with the exception of Walker, of course, Bah!

FFA Project Show Saturday

Special Exhibit Planned

Tentative plans are being made to have an "Old McDonald's Farm" special interest feature at Bovina FFA Project Show Saturday.

If the exhibit is arranged, Chapter Advisor Roy Crawford says, it will contain various farm animals and their young offspring. Such exhibits have proven to be highly popular with spectators at other livestock exhibitions.

Serving as general superintendents of the show will be Pat O'Brien, chapter president, and David Anderson, greenhand chapter president. Serving with them will be Jack McCracken, chamber of Commerce and agriculture manager secretary.

Nine members of Bovina Lions Club, which sponsors the show, were appointed at a regular meeting last week to a committee to assist chapter leaders with show details.

Members of the committee are J. W. Wright, Wendel Christian, Leon Grissom, Tom Caldwell, Warren Morton, E. B. Caldwell, J. E. Sherrill, Warren Embree and James McLeRoy.

Advertisements in this issue of The Blade encourage attendance and support of the show.

NO REPORT ON TOTAL MISSING--

Still Checking City Records

Bovina city commission conducted lengthy sessions over weekend and this week in an effort to determine total amount of misused city funds.

Former Mayor Emmett Tabor was charged with the task two weeks ago after resigning the office the previous week.

As late as presstime for this issue, the commission had no official statement to make in regard to total amount of money which is suspected to be missing. Checking of city records is continuing.

Rumors have set the figure in neighborhood of \$10,000 but there is no proof that are grounds for the rumors.

Mayor C. R. Elliott, appointed by the commission at time of Tabor's resignation, says that an official statement from the commission is scheduled to be made next week or before.

In a regular commission meeting Tuesday night of last week, Roy Crawford was appointed civil defense administrator for the community. An ordinance setting up a civil

defense organization with city government as governing body for it was passed.

The commission voted against sending Water Superintendent John Wilson to a city waterworks school at College Station in March. "Due to the circumstances," minutes of the meeting read, "it was decided that Wilson shouldn't participate in the school this year."

Delinquent water bills were also a topic conversation. Elliott, with Commissioners Al Kerby and Bud Crump, agreed that water service will be discontinued after a bill is 30 days past due.

A charge of \$1.50 will be made to continue water service in addition to payment of the bill.

Accused of setting fire to his Alpena, Mich., home a youth explained: "I couldn't have done it. I was in Detroit that day stealing a car."

GETTING READY--This group of vocational agriculture students is making preparation for seventh annual Bovina FFA project show which will be Saturday. They are shown stringing cable in school barn on Eighth Street where the show will be. Judging will begin at 9 a. m. Saturday with all animals to be exhibited to be in their stalls by late Friday afternoon.

Seventh Annual Chapter Exhibit

Stage is set for Bovina FFA's seventh annual livestock project show. It will be Saturday at school show barn on Eighth Street.

Some 50 animals are slated to be exhibited, Chapter Advisor Roy M. Crawford announces. Judge of the classes will be Robert "Prof" Morton, vocational agriculture instructor at Farwell High School.

Judging is slated to get underway at 9 a.m. Entries in the show will be in their stalls at the barn by late Friday afternoon.

Bovina Lions Club is sponsor of the show. That organization will award prize money of \$5 for first, \$3 for second and \$1 for all other places in each class.

Many animals exhibited here will be entered in Parmer County Junior Livestock Show at Friona the following weekend and several of them will be sold in sale which concludes that show.

Entries for the project show here include:

STEERS
Joe Jones three, Wyndol Davies three, Pat O'Brien, Eddie Crump, Philip Wilcox, Gary

Beauchamp, Dennis Johnson, Billy Charles, Philip Lloyd, Milton Crisp, Ronnie Sudderth, and Butch Wolton, one each. **BARROWS**

Joe Jones two, Ronnie Taylor two, Billy Minter two, Lynn Hudson two, Tally Keso three, Jackie Dane two, Philip Lloyd two and Billy Charles, Ronnie Sudderth, Jimmy Redden, Gene Pruitt, Phillip Wilcox and Wyndol Davies, one each. **GILTS**

Jimmy Redden four, Billy Minter two, and Ronnie Williams, Jerry Lorenz, Philip Lloyd, Jackie Dane, E. L. McCutchan, Jerry Williams and Wyndol Davies, one each; **EWES**

Joe Jones one, Wyndol Davies two, and Pat O'Brien two; **SOWS**

O. C. Minyen and Jackie Dane, two each; **LAMBS**

Wyndol Davies and Pat O'Brien, two each.

Animals exhibited will be released from the show Saturday afternoon after all judging is complete.

If weather permits, judging will be done outside the building.

FOR CITY--

Petition Seeks Gov't Change

Bovina's city commission has been petitioned to call an election to change city government to alderman form to replace the present commission form.

The petition, circulated by O. W. Rhinehart and others, was filed with City Secretary Virgil Tritsch last week.

Primary reason for wanting

to change form or government is to increase number of elected city officials and thereby give more people better representation.

Signed by 26 city residents, the petition reads: "We, the undersigned voters of City of Bovina earnestly petition you (the city commission) to call an election for purpose of voting on changing city government from commission form to alderman form.

"Signing this petition does not necessarily reflect my opinion but is to give the people a chance to vote on the proposition."

Signers were O. W. Rhinehart, G. D. Turner, F. S. Pounds, Dolph Moten, E. M. Ware, J. W. Bell, W. E. Williams, C. C. Richards, L. M. Grissom, W. J. Parker, Earl Richards, Jessie Williams, Dottie Ward, Fannie Hudson, S. A. Barbee, Jr., Lady Armstrong, Doris Strawn, Pearl M. Dodson, A. L. Glasscock, Doris Glasscock, Tom Paine, N. E. Bonds, A. R. McCutchan, Jerry Rogers, Elton Venable and C. P. Warren.

Commission is expected to take action on the petition in near future.

With deadline only a week away, only three men are seeking election to Bovina Schools board of trustees.

They are the incumbents, Tom Caldwell, Thomas Beauchamp and Dean McCallum.

They were petitioned for re-election by a schoolboard-appointed nominating committee last week. The petition was filed with County Judge Loyde Brewer at courthouse in Farwell.

Brewer also has on file a "bogus" petition naming three others as candidates. However, signatures on the petition are forgeries, according to several whose names appear on it. Brewer says that the petition will "probably be ignored" when ballot-printing time arrives.

The petition in question bears names of some 12 or 15 area residents. A majority of them were contacted by The Blade and they all deny signing the petition or knowing of its origin.

Deadline for filing for school board election is Wednesday March 7--30 days prior to the election which is set for April 7.

Signing the petition naming the incumbents as candidates to succeed themselves were Wendol Christian, who was chairman of nominating committee,

B. L. Marshall, E. B. Caldwell, and T. F. Taylor, all members of committee, and Warren Queen, Warren Morton, and Evelyn Crawford.

Original plans were for nominating committee to appoint at least six candidates for the three school board vacancies. At time the committee met,

however, fact that bogus petition was out of order had not been established. Therefore, the committee elected to name only three candidates since it was under impression that three candidates were already nominated.

Christian says that the nominating committee has no plans

to meet again and name more candidates. "I think the public has ample time to file names of more candidates if more are desired on the ballot," Christian says.

Candidates elected will serve three year terms. Each of the three incumbents is completing his first term.

FILING DEADLINE MARCH 7--

Incumbents Candidates In School Board Race

With deadline only a week away, only three men are seeking election to Bovina Schools board of trustees.

They are the incumbents, Tom Caldwell, Thomas Beauchamp and Dean McCallum.

They were petitioned for re-election by a schoolboard-appointed nominating committee last week. The petition was filed with County Judge Loyde Brewer at courthouse in Farwell.

Brewer also has on file a "bogus" petition naming three others as candidates. However, signatures on the petition are forgeries, according to several whose names appear on it. Brewer says that the petition will "probably be ignored" when ballot-printing time arrives.

The petition in question bears names of some 12 or 15 area residents. A majority of them were contacted by The Blade and they all deny signing the petition or knowing of its origin.

Deadline for filing for school board election is Wednesday March 7--30 days prior to the election which is set for April 7.

Signing the petition naming the incumbents as candidates to succeed themselves were Wendol Christian, who was chairman of nominating committee,

however, fact that bogus petition was out of order had not been established. Therefore, the committee elected to name only three candidates since it was under impression that three candidates were already nominated.

Christian says that the nominating committee has no plans

to meet again and name more candidates. "I think the public has ample time to file names of more candidates if more are desired on the ballot," Christian says.

Candidates elected will serve three year terms. Each of the three incumbents is completing his first term.

REPORTS GIVEN--

Chamber Meeting Has Small Crowd

Only 20 people were present for annual general membership meeting of Bovina Chamber of Commerce and Agriculture. The meeting was Thursday night at school cafeteria.

Reports on various projects during year were heard.

Bill Thompson, manager of Deaf Smith County Chamber of Commerce, was guest speaker. Director Roy Crawford served as master of ceremonies.

Five new directors were elected to three year terms on 15-man board of directors. Those elected were Jim Russell, L. M. Grissom, Archie McCutchan, Dean McCallum and Ed Hutto.

Those five men replace Russell, Wendol Christian, Warren Morton, Jack McCracken and S. A. Barbee, Jr.

McCracken, chamber manager-secretary, awarded \$25 checks to Charlie Owen of Campbell and Owen for producing first '61 bale of cotton and to Joe Pinner for first '61 load of mlo. Pinner was out of town and did not receive his check at the meeting.

Morton, outgoing director, spoke on the chamber's future "We don't have a thing to apologize for," he said in regard to accomplishments which had been made during the organization's first year. He encouraged chamber members to make annual banquet, which is set for Thursday, March 15, "a real fine meeting."

"The time between now and the banquet is very important as far as this chamber is concerned," he pointed out.

Warren Embree, who served as chamber president during

last year, spoke on Bovina's business growth and housing situation.

McCracken gave treasurer's report.

Dolph Moten spoke on membership. Chamber had 83 members last year. Thus far in '62, some 35 businesses and individuals have renewed their memberships.

Director Bud Crump, who is also a director, spoke in regard to proposed paving, curbing and guttering in Bovina. Contract for street im-

provement in Bovina is scheduled to be let March 8, he said. Work is slated to begin soon thereafter.

New board of directors is scheduled to have an organizational meeting sometime this week, McCracken says. New officers will be elected.

Speaker for annual banquet will be Delbert Downing, former manager of Midland Chamber of Commerce. Downing is well-known throughout the area

Ham Shoot Scheduled

A ham shoot, open to the public, has been scheduled for this weekend by Bovina Gun Club.

Contests will begin at 2 p. m. both Saturday and Sunday, Jim Russell, club president, announces.

Location will be at recently-constructed skeet-shooting range northeast of Bovina--across tracks from Highway 60.

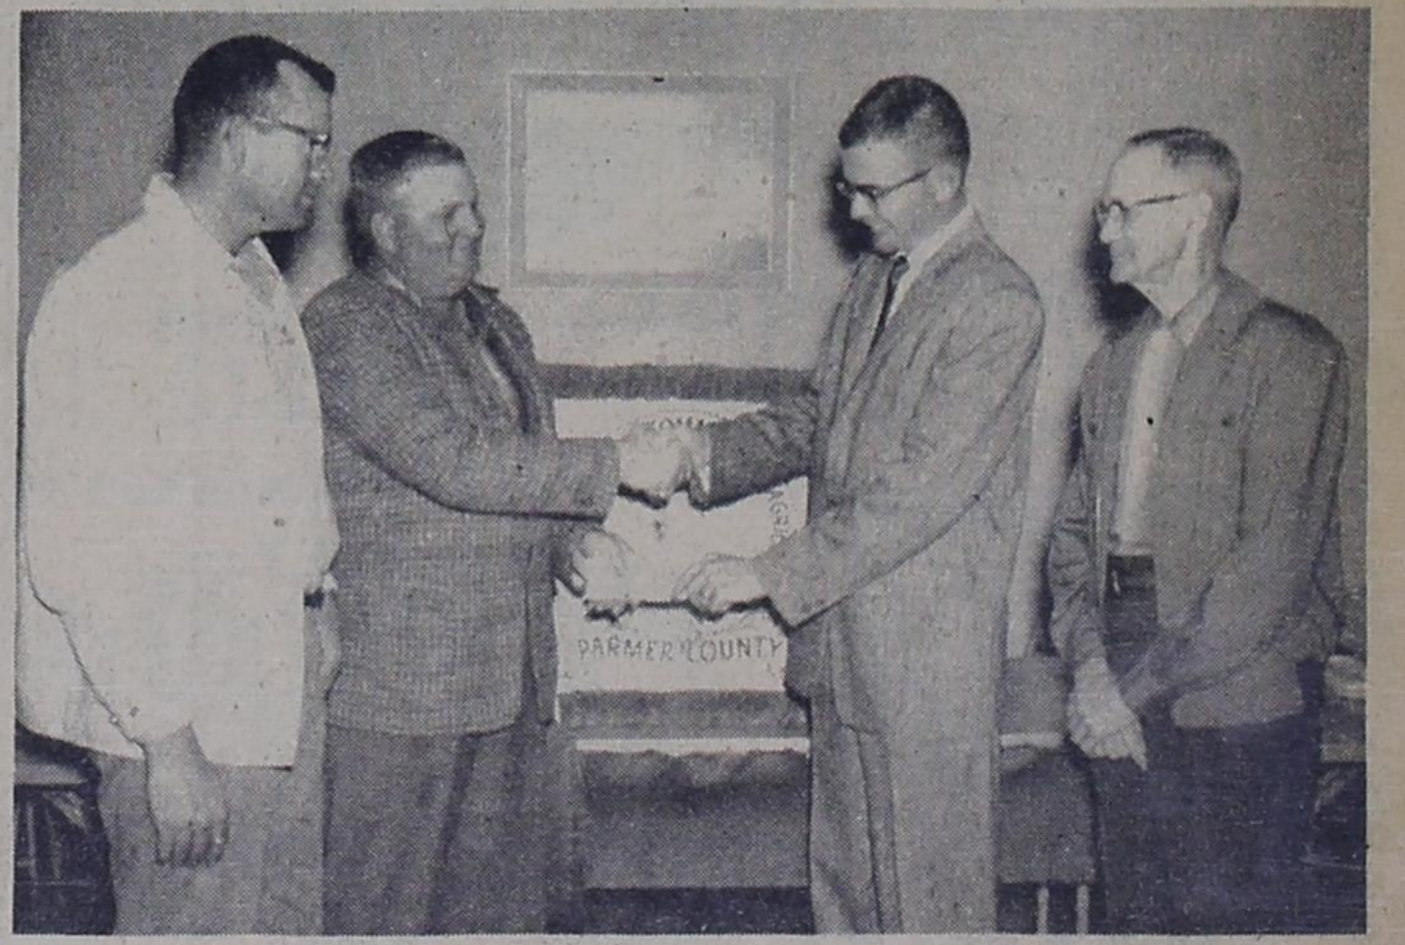

A meeting of the club to complete plans for the shoot is set for Thursday at 7:30 p.m. at Three-Way Chemical Co., Russell announces.

There will be five shooters in each heat during the contest with one ham being awarded to each heat winner. Entry fee will be \$2 per individual.

Profits from the shoot will be used to improve the trap shooting facilities, Russell says.

CITY HALL BUSINESS--Mayor C. R. Elliott, left, and City Secretary Virgil Tritsch are shown looking over a citizens' petition requesting an election to change city government from city commission type to alderman form. Alderman government provides for more elected officials and backers of the change feel this would provide representation for more people.

CONGRATULATIONS--Charlie Owen, second from left, is shown receiving a \$25 check from Jack McCracken, manager of Bovina Chamber of Commerce and Agriculture, for producing 1961's first bale of cotton which was ginned at Bovina. The presentation was made at annual general membership meeting of chamber Thursday night. Looking on are Ed Hutto, left, and L. M. Grissom, right, two of five new directors elected at the meeting.

Petitions?

Petitions are a poor way to tend to the public's business. Sometimes, perhaps, a petition is only way to start ball rolling toward some worthwhile project. And while it is the only way, it's a poor way at best.

We've signed as many petitions as next fellow, probably, but have always had a slight doubt of their worthiness. Lately, we've decided that they border on being useless.

In almost every instance (and we admitted earlier that there are exceptions) there's a better way to go about accomplishing a purpose than by having a petition signed by a group of citizens.

In the first place, many people will sign a petition almost without reading it. If they like the individual who is circulating it, they'll affix their signature to the list without question. Too, many people know that a petition is more or less useless and their signature will neither help nor hurt it. Therefore, they sign to keep from offending the person who is circulating it.

As far as we know, there's no official method used in checking validity of a petition. That sounds strange, we know, but as far as we can determine there is never an official check made to see if all signatures on a petition--no matter what the petition requests--are legal and aboveboard.

We would like to see use of petitions discontinued. Nine times out of 10, there's a better way to accomplish what the petition is intended for.

In our opinion, petitions are a poor way to tend to the public's business.

Letter To The Editor

Bovina, Texas
February 19, 1962

Mr. Dolph Moten
Bovina Blade
Bovina, Texas

The other day, I understand that a high school basketball player was caught smoking by his teacher.

So the results were to throw all of the young men off the basketball team who smoked. The teacher and the players had a get-together, as I understand. Four of the young men are to be congratulated as they told the teacher the truth. Some more of the young men told their teacher a lie about smoking.

Now I understand the teacher has told the boys they won't get school jackets to wear. I don't see why these boys can't have a jacket as they pay for those jackets.

Mr. Teacher, I myself think when a young man can stand up and tell you the truth is something worth thinking about. The way I see it, you want a liar to wear the jacket instead of a boy who tells the truth.

I think we have a good bunch of school board men. But I think if they want their children to lie to the teachers they should realize their children would be lying to their folks at home and I am sure no one wants their children lying to anyone at school or church or just plain any place.

The way I see the whole story is that these young men will have to say, "My buddy told the teacher a lie to wear the school jacket." I think these young men know who all smoked. But I can say that most all boys slip around and smoke. Mr. Teacher, I think you also know who smokes.

I am an old bachelor of Bovina community who is very much interested in sports for benefit of school and the community.

I would like to close by saying that I hate a liar worse than I do a rattlesnake.

Yours Truly,
R. T. Harbour
Bovina, Texas

Blade Sawdust by

By June Floyd

Regular readers of this column probably know all about the newest addition to the Moten family. Since taking care of a brand new baby is a full time job, Sue Moten, editor of Sawdust, will be absent for awhile.

During the time it takes her to get Lady Beth on schedule and acquainted with Mat, the two year old brother, I will be filling in for her and assisting Dolph in the Blade office.

Unless some changes are made, and they're to be expected in a newspaper office, I will be in the office regularly on Mondays and Fridays. News stories or tips called in on those two days will be greatly appreciated.

My first two days in Bovina have been very pleasantly spent. I've renewed some old acquaintances as well as made some new ones. Have enjoyed visiting with Lula Kelly White, with whom I attended school in Western Oklahoma a number of years ago.

Had thought I'd just not mention the number of years it had been, but since she brought an old picture for me to look at, then took it to the Fantasy Beauty Shop for the operators down there to see, I may change my mind.

If there's anything better for a person than a good laugh, I just don't know what it is. And, if there's anything more laugh provoking than an old picture, I haven't seen it. Feel sure Carol Dean Huggins and Carolyn Crump, the two operators with whom I'm personally acquainted, had no difficulty identifying me in the line up.

Visited briefly with Mavis Hulín Burnam on the telephone. Although Mavis is also originally from Oklahoma, she and I first became acquainted when we were students at Dimmitt High School.

Then, I've enjoyed visiting with a number of persons whom I had not met before. All of them have been most cooperative in helping me with details on stores and I certainly appreciate all assistance.

With the help of such wonderful people, I'm sure we will manage until Sue is able to return and take up where she left off last week. Remember that if it happens in Bovina we want to know about it and dial 8-4531.

Mrs. Queen at the variety store has been here a long time and most readers of this column are probably acquainted with her. She says that a lot of people remember when there was nothing here except bear grass and she considers them newcomers.

"I helped put out the bear grass!" she said. If her sense of humor has been derived from a long period of living in Bovina, then it must be a wonderful place to live.

Picked the following item up somewhere and would like to share it with you.

"There's no free gate to anything worthwhile. . . Not to skill nor health, nor to success nor friendship, nor even to the lasting love and respect of those who are nearest and dearest to us. . . These are the items that make up the best income that any human being can have, and the sum of that income will be measured by the sum of what we are willing to pay to get it."

Mrs. Bill Burnam spent last week visiting her parents, Mr. and Mrs. W. H. Hulén, and other relatives at Sentinel, Okla.

Hereford Man Files For State Rep. Race

J. Frank Ford, Jr., has authorized the Blade to announce his candidacy for the Texas House of Representatives from the 91st District.

Running as a Republican Party candidate, Ford will seek election within the district which includes Deaf Smith, Lamb, Bailey, Castro and Farmer Counties.

A 29-year-old Deaf Smith County farmer, Ford is associated with Arrowhead Mills in Hereford. He is a 1955 graduate of Texas A & M College with a degree in agronomy. He served 30 months with the U. S. Army, rising to the rank of Captain in artillery.

He worked with the 56th Legislature in Austin in 1959 and then was in the legal division of the State Board of Water Engineers.

Ford and his wife, Marjorie Ann, have two children; Davis, 4, and Cindy, 2. They expect a third child in March. The Fords are members of the First Methodist Church of Hereford.

Ford is a director of the Deaf Smith County Farm Bureau and Scoutmaster of Troop 52 in Hereford.

The following statement was made by Ford at the time of

his announcement for the office.

"I feel that our interests can best be represented by a two-party system, which is inherently more responsive to the will of the people. Our people's concern is growing rapidly over the present trend of government but this concern is not yet reflected in our national administration. Each family's share of the national debt has increased almost 1,000 percent during the past generation. Are we to repeat this? If so, our children will be almost totally mortgaged for their lifetime. Spending has increased in an even greater proportion.

"State Government can be very effective in stopping this trend, and I shall dedicate myself to this proposition.

"We must defend our right to differ on the issues and still pull together in our over-all goals of freedom and dignity for all men.

"Because of my previous experience in the workings of the Legislature, I believe that I can serve this district effectively and honestly.

"In order to present my views, I would like to express my desire to meet with any group anywhere in the district to discuss the issues which confront this area and this state."

March 8 School Holiday

Bovina Schools were dismissed at 1 p.m. today (Wednesday) so that teachers and students could attend services for Joe Paul, father of junior high instructor Miss Grace Paul, which were at 2 p.m. in Lazbuddie Methodist Church.

Friday, March 9, will be a holiday for students here. School will be dismissed in order that teachers may attend area teachers meeting in Amarillo.

Army Museum Coming Here

Residents of Bovina will have an opportunity to see Fourth U. S. Army Recruiting District's "Museum on Wheels" Thursday, March 8.

According to Sgt. Tom Buckley, this mobile unit will be shown at Bovina High School on that date. The big recruiter is a 26-foot long trailer advertising U.S. Army in "Peace and War," from 1775 to present.

The trailer, brightly painted red, white and blue, houses displays made up of animated panels attractively portrayed with flashing lights.

Featured with museum is a slide projector with sound. Viewed from outside of trailer, projector contains 30 slides and depicts many interesting facets of U. S. Army.

Sgt. Buckley will be present to welcome visitors and answer any questions on benefits available to those in U. S. Army.

At the end of the third round the bleeding boxer stumbled into his corner. To encourage him his manager said, "Don't worry, he didn't lay a glove on you."

To this the half blind boxer replied, "Somebody better watch the ref then."

Survey Shows Bovina Phone Service Good

General Telephone Co. service in Bovina is "generally good," according to summary of a recent survey made by Jimmie J. Parrish, division public relations representative for the company.

Parrish reports that he contacted 15 businesses in Bovina for the survey and telephoned 15 residences in an attempt to find how Bovina people felt about their telephone service.

Parrish says that General is eager to give good service and that people's cooperation in properly reporting of repair service needs will be appreciated.

Negro Cafe Here Closed

Bovina's Harlem Inn, Negro cafe, is closed. The closing came as a result of its operator, Lorene Evans, being charged with operating a gaming house.

Those charged with gambling were Bud Owens, Bud Eafon, Abraham Young, Joe Dawkins and Dave Dawkins, all of Bovina, and Woodrow Wilson, Jimmy Graham, and Lonnie Prince, all of Hereford.

Teachers Have Bovina Meeting

Parmer County teachers conducted one of four yearly meetings in Bovina Monday night. Some 125 teachers from four county schools--Bovina, Lazbuddie, Farwell, and Friona--were present for meal and program in Bovina Schools cafeteria.

The teachers heard an informative talk in regard to social security by a Social Security representative from Amarillo. Entertainment was by Bovina High choral group.

Anniversary Success

Wilson's Super Market observed its 15th anniversary in Bovina last week. A. M. Wilson, owner, proclaimed the event "the biggest ever."

Drawings were held at different times Saturday. Customers receiving \$20 baskets of groceries were Mrs. H. L. Ivy, George Douglas, Mrs. C. E. Trimble, Frank Pesch, Keith Garner, Aubrey Brook, Robert Harris, Lee Stevenson, Marlin Ferguson and H. G. McLean.

Also Rita Caldwell, S.E. Redden Socorro Cano, A. R. McCormick and Ray Carter. These 15 baskets represented 15 years in business in Bovina. Jack Pesch and Fred Langer were recipients of \$200 Gunn Brothers Thrift Stamps.

Farm Facts

Greet Spring With Tasty Steak

Springtime is when we all feel a need for hearty, appetite-satisfying meals to keep us on the go. And, seems to me, there's no better way to feel good than to pop a steak in front of yourself and your family.

Mrs. Ruedow Ulmer, of Lehr, N. D., agrees wholeheartedly with me and she graciously sent us her favorite steak recipe.

HUNGARIAN ROLL (1 large slice roundsteak) (about 1 1/2 pounds) Lay out flat, and salt and pepper both sides. Mix together; 3 or 4 slices dry or fresh bread cut up, 3/4 cup milk, 1/4 lb. chopped

beef or hamburger, 1 tablespoon melted butter, 1 egg, 1 tablespoon dry onion soup mix. Dash pepper, salt to taste. Spread this mixture on half of steak and fold steak over the half. Tie with string, or skewer, sides of steak. Brown in frying pan. Turn steak over and pour the following mixture, which has been blended together, over it: 1/4 pt. sour cream 1 tablespoon dry onion soup mix (or minced onion) 3/4 cup water Simmer one hour, or until meat is tender.

Of Interest To THE WOMEN

MR. AND MRS. SID KILLOUGH

Double Ring Ceremony Unites Carolyn Sell, Sid Killough

Miss Carolyn Sell of Lubbock, daughter of Mr. and Mrs. Ernest Sell of Littlefield, became the bride of Sid Killough, son of Mr. and Mrs. Lloyd Killough of Bovina, at 5 p. m. Saturday in the Church of Christ minister's home in Bovina.

Don Stone, minister of Bovina Church of Christ, read

double ring ceremony. Attending couple were Mrs. Don Sides of Bovina, sister of bride, and Norman Killough of Clovis, brother of groom.

The bride wore a white sheath dress with a bateau neckline and elbow length sleeves, fashioned by her mother. A white head piece fashioned of

satins and embroidered flowers and a string of pearls complemented her ensemble. She carried an arrangement of carnations atop a white Bible.

Mrs. Sides, matron of honor, wore a red sheath dress of shag bark styled identical to one worn by the bride. She also wore black accessories and a white carnation corsage.

Mrs. Sell, mother of bride, and Mrs. Killough, groom's mother, wore silk print dresses with black accessories and identical corsages of white carnations.

A reception followed ceremony. Serving table was covered with a white lace cloth and centered with a white tiered wedding cake topped with a miniature bride and groom. Punch and cake were served by Mrs. Sides and Mrs. Norman Killough.

Those attending wedding were Mr. and Mrs. John Purvis of Altus, Oklahoma, grandparents of the groom; Mr. and Mrs. Ernest Sell of Littlefield; Mr. and Mrs. Lloyd Killough, Bovina; Mr. and Mrs. Roger Sell and son of Littlefield; Mr. and Mrs. Norman Killough and son of Clovis; Mr. and Mrs. Don Stone and daughter, Mrs. Don Sides, D. R. Bushnell and Sam Sudderth all of Bovina.

For a wedding trip to Austin and other central and south Texas points, Mrs. Killough wore a beige linen dress with brown accessories.

Mrs. Killough, a graduate of Littlefield High School, is employed by Southwestern Bell Telephone Company in Lubbock. Her husband, who is a graduate of Bovina High School is an employee of Bovina Gin Co.

Students Participate In Contest

A number of Bovina High School home economics students are making plans to participate in the Student Division competition of the 1962 Fashion-Sewing Contest sponsored by the General Federation of Women's Clubs and Vogue Pattern Service.

The Bovina Woman's Study Club, working in cooperation with Mrs. Charles Thompson and the school's home economics department, will act as local sponsor for the student competition.

Home economics students who have made plans to enter the contest are Shirley Carter, Judi Crawford, June Gay Douglas, Maureen Hammonds, Carole Jean Hastings, Janet Gooch, Jeanne Ivy, Joyce Marshall, Mary Anne McKinney, Joyce Hudson, Virginia Rea and Mary Joyce Webb.

Winner of the local contest will receive \$5 in cash and be eligible to represent the Bovina Woman's Study Club and Bovina High School at the district judging.

Purpose of the contest, according to Mrs. Rouel Barron, contest chairman, is to encourage young women to develop a deeper appreciation of homemaking skills.

Other homemaking students may enter the contest later.

Shower Honors Mrs. Dale Harmon

Mrs. Dale Harmon was honored with a lullaby shower in home of Mrs. John Ferguson Monday morning. A centerpiece of white and pink flowers centered serving table, which was covered with a white linen cutwork cloth over pink.

A corsage of baby socks and pastel colored ribbons was presented to guest of honor by hostesses, Mrs. Jim Heard directed several games. A poem, "A Mother's Prayer," was read by Mrs. John Ferguson.

Co-hostesses were Mesdames Tommy Williams, Lloyd Killough, Tommy Paine, Jim Heard, Weldon Moody, Jerry Rogers, Travis Lloyd, Max Kennedy and Alfred Mills.

Refreshments of doughnuts with pink and blue icing, coffee and tea were served to Mesdames Jim Howard, Buck Lloyd, Ovid Lawlis, Charles Vickers, Connie O'Brien, Dickie Steelman and daughter and Harry Smith.

Baby Girl Born To Ehersmans

Mr. and Mrs. Allen Ehersman became parents of a baby girl at Northwest Texas Hospital in Amarillo at 9 a.m. Friday. She weighed six pounds 10 ounces and was named Kimberly.

She is the first child for the couple. Mrs. Ehersman is a former third grade teacher and he is employed at Bovina Wheat Growers.

Party Fetes Brenda Dyer

Mrs. Travis Dyer honored her daughter, Brenda, who was observing her eighth birthday, with a slumber party Friday night. Guests were invited for supper.

Following a game session, decorated cup cakes and ice cream were served.

Those present, besides the hostess and honoree, were Lea Looney, Paula Mayfield, Cathy Mast, Darlene Murphy, Kathy King, Cindy Barrett, Chrissy Mast and Linda Dyer.

Mr. and Mrs. Haskell Sudderth returned Sunday evening after an extended visit with relatives in Phoenix.

Texas History Studied By Woman's Club Members

Highlight of the Thursday evening meeting of Bovina Woman's Club in the home of Mrs. Amos Steelman was a study of Texas history. Mrs. Earl Stevenson presented a discourse on nationalities and cultures of Texas heritage. Mrs. Buck Ellison related the history of XIT ranch.

Mrs. Charles Embry, a guest, presented a medley of Texas songs on the piano. Her selections were "Eyes of Texas," "Beautiful Texas," and "Deep In The Heart of Texas."

Decorations carried out the theme of Washington's birthday. Cherry tarts decorated with hatchets, coffee and tea were served by the hostess.

Others present were Mrs. Embry and Mrs. J. R. Glover, guests, Mrs. A. E. Crump, Mrs. I. W. Quicquel, Mrs. J. R. Caldwell, Mrs. Ovid Lawlis, Mrs. Buck Ellison, Mrs. Clarence Jones, Mrs. Henry Ivy and Mrs. Earl Stevenson.

Mrs. Lawlis, president, had charge of the brief business session.

Carpenters Honored On 52nd Anniversary

Four Oklahoma Lane Couples who have all observed their 50th wedding anniversaries gathered at the Harold Carpenter home Friday to observe the 52nd anniversary of Mr. and Mrs. D. W. Carpenter. The three other couples who have passed the Golden Anniversary milestone are Mr. and Mrs. A. T. Kersey, Mr. and Mrs. Fred Kopley and Mr. and Mrs. E. W. McGuire.

Assisting Mrs. Harold Carpenter with the affair were Mrs. Leon Billingsley and Mrs. Lester Norton.

All four of the couples moved

Benita Diaz Weds Domingo Trevina

Miss Benita Diaz exchanged wedding vows with Domingo Trevina in a formal ceremony at St. Ann's Catholic Church at 9:30 a. m. Saturday. The ceremony was read by Father Declan.

Parents of the couple are Mr. and Mrs. S. Diaz of Bovina and Mr. and Mrs. Bill Trevina of Ackerly.

Mrs. Richard Cardenas was matron of honor. Bridesmaids were Mrs. Sonny Brito and Mrs. Jesse Sanchez, Ophelia Barraza and Patsy Calderon were junior bridesmaids.

Best man was Richard Cardenas, Ushers were Sonny Brito and Jesse Sanchez, Angel Aleman and Pete Quiroga were junior ushers.

The bride, escorted to the altar and given in marriage by her father, wore a formal wedding gown of net, tulle and satin. The fitted bodice of lace over taffeta featured a scalloped neckline and tiny covered buttons.

Her shoulder length veil was attached to a tiara of white satin embroidered with pearls and sequins.

A reception at American Legion Hall followed the ceremony. A white-tiered wedding cake formed the centerpiece on the serving table, which was covered with white lace over pink satin.

Mrs. Marcello Barraza and Mrs. Victor Barraza served cake and punch.

After a wedding trip Mr. and Mrs. Trevina will be at home on a farm near Ackerly.

'39ers Honor Mary J. Wilson

Guest of honor at Friday evening Birthday Club in the home of Ola Lee Jones was Mary Jane Wilson. A social hour followed the supper, which consisted of barbecue chicken, baked potatoes with sour cream dressing, black eye peas, tossed salad, French bread, cake and coffee.

Others present were Nettie Lea Wilson, Jewel Tabor, Lula White, Nola Read, Lucille Walling, Esther Trimble, Mildred Davies, Bernice Crump, Gladys Wright and Pat Read.

to the Oklahoma Lane community when their children were quite young and reared their families here. They all still live on their farms.

Assess Murderer 40 Years Imprisonment

BY TRAVIS HARRELL
For Farmer County Newspapers

The "Wheels of Justice" ground out a 40-year sentence to the penitentiary for the admitted murderer of Jesse Dawkins, Bovina, this week.

Trial of Hershel Gene Davis, 36, Bovina, alias George Evans, began Monday morning for the murder of Dawkins, 26, on Dec. 8 with the arraignment of Davis before District Judge E. A. Bills in Farwell. It concluded Tuesday at 5 p. m. when the jury returned after one hour and ten minutes deliberation.

A similar charge of murder which was filed against Nellie Mae Thomas, also of Bovina, was dismissed by Judge Bills following the completion of the Davis trial.

Miss Thomas entered a plea of guilty to the charge of accessory after the fact and waive jury trial. She was tried by

Judge Bills and sentenced to two years in the penitentiary but she was placed on probation for the period.

The low murmur of voices stopped as suddenly as if a door had been closed against the noise as Judge Bills entered the packed courtroom at 10:37 Monday morning to begin the task of presiding over the trial of a man for murder.

Before opening the proceedings, the judge called the attorneys to the bench for a short discussion to settle a few minor questions in connection with the case.

Then, as Davis stood with goateed chin lowered, District Attorney Jack Young read the indictment which spelled out the charge of murder with malice. The indictment stated that Davis did "on Dec. 8, 1961. . . with malice and aforethought, shoot and kill Jesse Dawkins with a gun."

(Continued to P1, Sect. II.)

Funeral Rites For Joe Paul Held Wednesday

Funeral services for Joe Paul, 95, a long-time resident of the Lazbuddie Community, were conducted at 2 p. m. today at Lazbuddie Methodist Church, Rev. Harold Morris Pastor of Bovina Methodist Church officiated.

AREA CONGRESSMAN

Walter Rogers Blasts "Sugar Trust" Group

Signs are appearing daily indicating that the sugar trust has not been asleep. It was thwarted three years in a row in its attempt to gain a long-term extension of the Sugar Act. It was forced on each of these occasions to resort to scare tactics and "emergency" talk and unfair procedural tactics in order to obtain short-term extensions to further hide the complete truth from the American people. They do not want the Sugar Act or the sugar problem debated openly on the Floor of Congress. They know that the American people and the American farmer have been hoodwinked and that if all the facts are made available and are understood by the people of

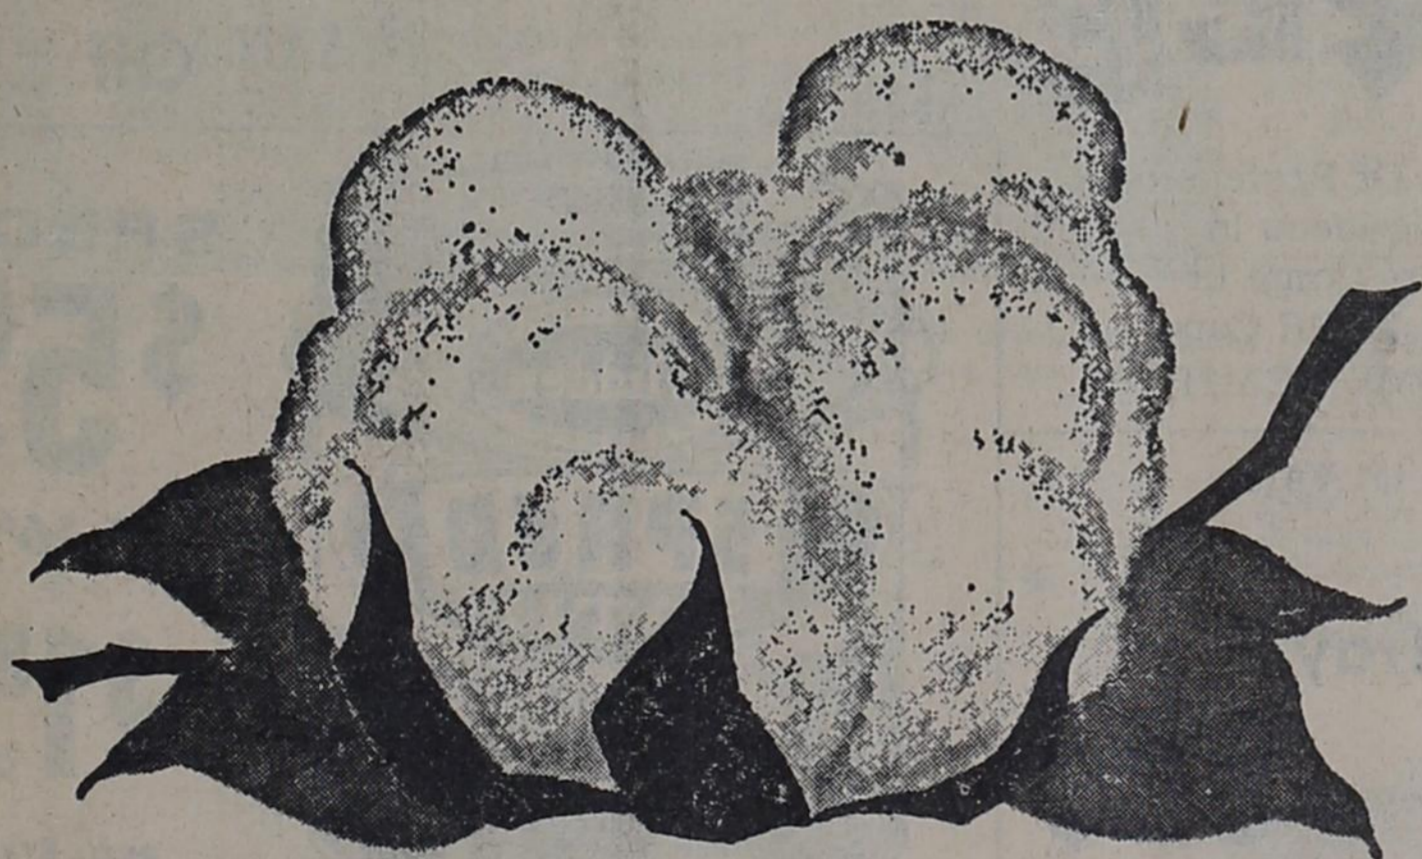

this country, their heyday is at an end. They are a powerful group, with control of several hundreds of millions of dollars annually, out of which they reap huge profits. By virtue of the power associated with these tremendous sums, they have been able to retain a law that requires the importation from foreign sources of approximately 45 percent of the sugar demand in this country. This means that approximately 5,000,000 tons of sugar are imported into this country each year. At a value of five cents a pound, this would mean an overall transaction of approximately \$500 million. This half-billion dollar business is handled through approximate-

ly 12 refineries and it is generally assumed that the ownership of these refineries is by a less number than 12. This will give you some idea of the small, compact group that has a throttle-hold on the sugar needs of this country. All of the sugar, with a very minute exception, must be channeled through these refineries because it is raw sugar, and could not be imported into this country if it had already been refined. Hence, these refineries are guaranteed a refining process business of half a billion dollars worth of sugar each year. The next question is, where does the sugar come from? Not from American farmers, either in the continental United States or any of our

possessions of other states, it comes from foreign countries under the provisions of the law. It is this law that the sugar trust does not want amended. Up until about two years ago, Cuba furnished this country three million tons of sugar of a value of approximately \$300 million. When Cuba went Communist, we stopped purchasing sugar from Cuba, or thought we did. At that time it was the hope of the American farmer, who had long clamored for the right to grow more sugar beets, that he would be allowed to produce some of this sugar allotment that we had taken away from the Communist country. However, he failed to reckon with the half billion dollar sugar trust. These fellows had not been asleep. They immediately went to work and procured the extension of the Sugar act through the Congress without debate in the House of Representatives, and without hearings before Committees, as is the proper procedure. This extension included a term which denied to the American farmer

the right to produce as much as one pound of sugar that had formerly been purchased from Cuba. It did not even give the President of the United States the right to authorize the American farmer to produce any of that sugar, because in each instance where this sugar was referred to in the Act, the authorization to purchase contained the term "from other foreign countries" or "from any foreign country". The use of the word "foreign" successfully blocked the American farmer from participating in the market of the American consumer of any further extent than he had participated prior to the discontinuance of purchases from Cuba. A small but vigorous minority group of Congressman who know and understand this situation have fought bitterly to obtain fair treatment for the American farmer and for the American Consumer.

Armour's PLAINVIEW Plant ONE-STOP FERTILIZER SERVICE FOR EVERY CROP NEED

Whatever your crops happen to be, proper fertilization will make them yield more . . . to bring in higher profits. To help growers and ranchers in this area maintain soil fertility,

Armour's convenient Plainview Plant offers a complete line of dependable Armour fertilizers and services. You'll find that everything you need is there, including:

VERTAGREEN PLANT FOOD FOR COMMERCIAL CROPS . . . the famous high-yielding fertilizer that's "Worth More Because It Does More."

ARMOUR PEBBLE PLANT FOOD in a variety of popular analyses, bagged and bulk.

ARMOUR 46% TRIPLE SUPERPHOSPHATE

ARMOUR AMMONIUM NITRATE . . . prilled for easy application . . . 33.5% nitrogen for full growing power . . . an excellent way to apply yield-boosting supplemental nitrogen.

Make this the year that you increase your crop profits. Go after high yields with Armour Fertilizers! Now's the time to take advantage of Armour's complete line of quality fertilizers and materials formulated to suit the requirements of this area.

Millen States Platform For Representative Race

W. T. "Bill" Millen announced to the Bladethis week his candidacy for Representative of the 91st District of Texas on the Democratic ticket.

Millen was raised in the Muleshoe area, graduated from Clovis High School and has been a Bailey County farmer since 1934. He is active in many local farm organizations and has actively participated in such controversial issues as the defense of the bracero program by the Plains Cotton Growers. He now serves as legislative director of this association and has made several trips to Washington, California, Kansas City and across Texas in this capacity.

Millen's statement read: To the people of the 91st District: "I am soliciting your vote for State Representative of the District as I feel that it would be an honor and a privilege to represent the people of this area with the purpose in mind to work for honest, integrity and economy in government.

"For many years I have spent much time and money working with various farm groups for a better agricultural climate for our area.

"Serving in many capacities

In these farm groups has, I feel, qualified me to represent you as a man of the people. Among the area organizations which I have had a part in promoting are: The High Plains Water Conservation District, The High Plains Research Foundation at Halfway, the Plains Cotton Growers, the West Texas Agricultural Employer's Group and I now serve as director of the Plains Cotton Co-operative Association, the South Plains Soil Fertility Committee, and the Bailey County Farm Bureau. Along with others, I have spent much time and money promoting legislation at Austin for the Plains Irrigation Gas Users Association and I am a member of the founders committee of the Cotton Producer's Institute.

"My years of experience as a farm leader have seen into being such programs for the good of Bailey County as the Good Neighbor Cotton Seed Program in which irrigation farmers gave cotton seed to dry land farmers who had been hard hit by drought.

"I have fought for the farmers on numerous occasions for a better FHA program with lower interest rates and have fought

much bad legislation in Austin. "In listing these activities, I hope I have not seemed boastful. It seemed to me in each case that a job needed to be done with few people to take the time to do it. I have accepted these duties, usually resulting in much loss of personal time and money.

"To represent you in Austin, would probably again mean financial losses to me, personally. But I feel a dedication to the proposition that we must have men in government that will vote for what is right and good for our country, with the interest of future generations at heart, instead of political expedience to further their own selfish ambitions and moral degeneration—a condition I see so often in our county, state, and national affairs.

"Some have asked me what platform I am running on. Standing on the side lines looking on, here are just a few of the things that occur to me:

1. Correction of the irregularities in the new sales tax law.
2. I believe that the Advalorem Tax should be abolished or turned over to the towns or commissioners courts.
3. Work for a fair deal for the farmer Irrigation Natural Gas Users. (In which they would have the same privilege as the towns and villages.)
4. A small loan regulation bill.
5. Prohibition of obscene movies, as well as obscene books in our school libraries.
6. Stronger lobbyist regulation.
7. Continued improvement in our public schools and colleges.
8. Adequate legislation and financing to attract industry and tourists to Texas.
9. Defend the recent tax placed on gas pipeline companies.
10. Modify the Auto Insurance Merit Rating to make it more equitable.

I will also stand for more states rights and less centralization of government.

Bill Millen

LEGAL NOTICE NOTICE TO BIDDERS

Sealed proposals addressed to the Hon. Mayor and City Commission, Bovina, Texas, for the construction of grading, drainage, concrete curb and gutter, caliche base, and triple asphalt surface treatment on certain streets, and sealcoating a portion of existing streets, as hereinafter designated, will be received in the Office of the City Secretary, City Hall, Bovina, Texas, until 2:00 p.m., Central Standard Time, March 8, 1962, at which time and place they will be publicly opened and read aloud.

Prices in the proposal shall be made on the basis of unit measurement for each of the items of the proposal. The approximate quantities are as follows: Subgrade, Preparation 34,000 S. Y.; Concrete Curb and Gutter including excavation 35,000 L. F.; Caliche Base 30,000 S. Y.; Triple Asphalt Surface 30,000 S. Y.; Sealcoating 25,000 S. Y.

Bidders must submit a cashier's check issued by a bank satisfactory to the Owner, or a Bidder's Bond from a reliable Surety Company, payable without recourse to the order of the City of Bovina, Texas, in an amount not less than five (5%) percent of the largest possible bid submitted as a guarantee that Bidder will enter into contract and execute bond and warranty in the forms provided, within ten (10) days after written notice of award to him. Bids

without the required check or bid bond will not be considered. The successful Bidder must furnish performance and payment bond on the attached forms in the amount of one hundred (100) percent of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety, or other Surety or Sureties acceptable to the Owner.

The City reserves the right to reject any/or all bids, to waive formalities, and to accept the bid which seems most advantageous to the City's interest.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

Attention is called to the provision of the Acts of the 43rd Legislature of the State of Texas, and the 44th Legislature of the State of Texas covering the wage scale and payment of prevailing wages as established by the Owner, and all Federal Wage and Hour Legislation if such is applicable.

Information for Bidders, proposal forms, plans, and specifications are on file at the Office of the City Secretary at Bovina, Texas, and are open for public inspection. A set of such documents may be obtained from Ralph W. Douglas, Engineer, P. O. Box 1146, Muleshoe, Texas.

The Bidder's attention is called to the fact that he will be paid in Time Warrants issued by the City of Bovina, Texas. These Time Warrants will be

Gets 40 Years -

"... And knowing this, do you still plead guilty?" questioned Judge E. A. Bills. "Yessir, I'm guilty," Hershel Gene Davis replied.

"Are you familiar with the suspended sentence law in Texas," Wayne Bagley, defense attorney, asks prospective juror Kirt Crume, "No-oo, I don't suppose I am," Crume replied.

Fidgeting slightly from side to side, Davis entered a plea of guilty to the charge as read. The judge then asked the standard questions to determine if force, fraud, promises of pardon or parole or suspended sentence or threats had been used to persuade him to plead guilty.

"No, sir," was the reply. "Then you are just pleading guilty because you are guilty. Is that right?" the judge asked.

"Yes sir," came the answer. The judge then admonished Davis the penalty for the crime with which he was charged was not less than two years imprisonment in the state penitentiary, or life imprisonment, or any number of years in between, or possibly, a death sentence.

"Knowing this, do you still plead guilty?" the judge asked. "Yessir, I'm guilty, your honor," Davis replied, staring at the judge, then dropping his eyes to the floor where he scuffed the toe of the tan house-shoe on his right foot.

But under Texas law, punishment must be prescribed by a jury, in cases where the death penalty is warranted, even though the defendant submits a guilty plea.

The judge excused the venire from the courtroom while individual jurors were examined and approved by the attorneys.

Just as the first prospective juror was called, the presence of a group of students from Farwell High School was brought to Judge Bills' attention. He asked them to stand and be recognized. Approximately 72 students were present.

Each juror was asked if he knew the defendant or his counsel -- along with several other questions--by the district attorney, Wayne Bagley, attempted to determine if the juror agreed with the suspended sentence law in Texas which provides that a jury may recommend suspended sentences in cases where five years imprisonment or less is assessed.

Of the first 17 men called, three were excused. No women were called for the jury. Within two hours, twelve men had been selected and at 1:10 p. m. Monday, the court was adjourned until 2:30 for lunch.

Members of the jury were Grady King, Kirt Crume, La-Von Jones, Don Gerles, M. A. Snider, Ovid Lawlis, Conrad Nelson, Ernest Kube, J. J. McDonald, Bob Hammonds, Weldon Slayton and James W. Patrick.

When court convened, Judge Bills told the jury that it was up to them to decide the amount of punishment to be assessed to Davis.

"Since he has entered a guilty plea, your sole duty will be to determine, from the evidence presented, what punishment is to be assessed," Judge Bills told the jury.

The district attorney again read the indictment and Davis again entered a guilty plea.

Ottis Foster, New Mexico State Attorney, was first called to the witness stand. He testified that he was called on Dec. 8 to the scene where a pickup containing a body was found. He identified six pictures as

being taken of the scene and body. He stated that the bullet hole was not discovered in the body until it was undressed at the mortuary.

Sheriff Charles Lovelace was notified of the discovery because the pickup bore Parmer County license plates, according to Foster. The pickup belonged to Paul Hall, Dawkins' employer.

Young attempted to enter three pictures showing the body in the pickup as exhibits four times but the judge sustained an objection by defense on grounds that the only purpose of the pictures would be to inflame the minds of the jury.

Dr. I. D. Worrell, Clovis, testified that he took the pictures of the scene and identified the photographs.

Next on the witness stand was Dr. R. T. Spencer, Clovis, who stated that in his opinion, the cause of death was a bullet wound through the heart.

He said that the bullet entered to the right of the spine and just below the shoulder blade and came to a halt about one quarter of an inch beneath the skin of the chest after passing through the heart--although he did not open the body to trace the path of the projectile.

He testified that death would be almost immediate from such a wound. Although he could not be positive, he estimated that Dawkins had been dead about 10 or 12 hours before he examined the body. The cold weather could have kept the body from deteriorating for as much as 24 hours.

Spencer said that no other bruises were found on the head to indicate that the man had been knocked unconscious.

Lovelace stated that he knew Dawkins for about four years before identifying the body in the mortuary in Clovis after he was called. He said that he found the murder weapon between the panels of the wall in the Davis apartment.

W. E. "Razz" Renfro, Texas Ranger, identified the rifle as the murder weapon referred to in the statement of confession previously given to the sheriff by Davis. He also supported the sheriff's statement that he warned Davis that anything which he said would be used against him and that he didn't have to say anything.

From testimony of Dave Dawkins, Jesse's brother; Nellie Mae Thomas, convicted accessory after the fact; and Davis the chain of events surrounding the murder can be pieced together into one story.

Davis' wife, Lillian, entered the Harlem Cafe, which was operated by Davis, on the night of Dec. 8 and did not like what she discovered. She and Davis began quarrelling and she pulled a small pistol and shot at Davis. But she missed. He then began "whipping her" and continued to beat her until she "needed a doctor."

She got loose and ran outside and he ran after her, but they both fell and she got away. Davis then went to his home and got the rifle and went to Dave Dawkins' house (whose wife is the sister of Mrs. Davis) and searched the house for Lillian. He was told that they didn't know where she was but that she

was with Jesse a short time before. (Actually, she was on the way to the hospital in Friona.) Davis returned to town and stopped at the cafe. He shouted at Jesse and asked where his wife was. Dawkins replied that he didn't know. Davis called him a liar and fired a shot. Two witnesses said that he fired at Jesse but Davis testified that he just shot in that direction.

Dave Dawkins and another witness, Abraham Young, were sitting in a nearby car when the shot was fired.

Jesse ran around the building and got away. Davis told Lillie Mae Thomas, a waitress, to close the cafe. He then took her home. A short time later, he came back and got her and drove around. He saw the pickup being driven by Jesse and started after it. About two miles north of Bovina, he overtook Jesse.

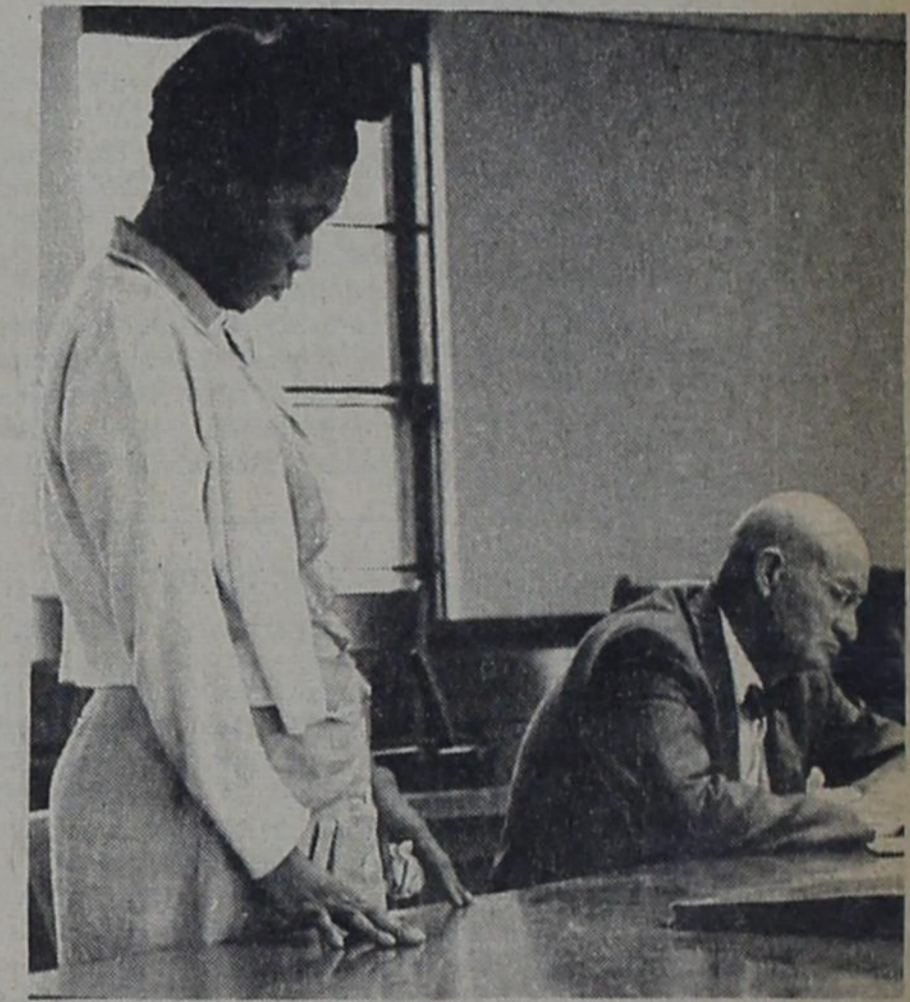

When Davis -- with Miss Thomas in the car with him--stopped, Jesse was supposed to have been at the back of the pickup. According to Miss Thomas, he raised his hands in the air when Davis got out of the car with the rifle. Davis said he had his hands in his pockets.

Davis and Dawkins argued for a minute and then Dawkins "whirled" and Davis shot. According to Davis' written statement, he knew that he had hit Dawkins with the bullet. In his verbal testimony on the stand, he didn't know if he hit Dawkins.

Dawkins fell forward near the back of the pickup and Davis got back into his car and drove back toward Bovina. According to Davis, Miss Thomas said that she thought he (Dawkins) was going on because she could see the taillights of the pickup.

Davis took her to her house and a short time later, after talking to Deputy Sheriff Minter and not mentioning shooting, he returned for her. The couple returned to the scene and she helped him load Dawkins' body in the pickup.

She followed in the car while Davis drove the pickup to Clovis by way of Pleasant Hill. During the ride, the body was on the floorboard of the pickup, face down. Davis said that he had intended to get Dawkins to the hospital and didn't know that he

"I hereby sentence you to two years in the state penitentiary..." Judge Bills droned as Nellie Mae Thomas, admitted accessory after the fact (to murder), stands with head bowed late Tuesday afternoon.

was dead until after arriving in Clovis. The district attorney accused him of knowing Dawkins was dead because he placed him face down on the floorboard of the pickup and drove the long way to Clovis over rough roads.

The pair left the pickup in Clovis and returned to Bovina in Davis' car. Davis was taken into custody by Parmer County officers on Dec. 9. Nellie Mae Thomas was later apprehended in Roswell.

On the basis of this evidence --brought out in detail--the jury deliberated 70 minutes and returned with the recommendation of a 40-year prison sentence. Immediately after the court-

room was cleared, Judge Bills called for the case against Lillie Mae Thomas. The murder charge against her was dropped in view of the testimony by her and Davis in the Davis trial. On the second charge of accessory after the fact, jury trial was waived and testimony from the Davis case was permitted to bear on the case. Within 30 minutes -- after short statements from Sheriff Lovelace and Miss Thomas--she was given a minimum sentence of two years in the state penitentiary. In view of her "cooperation with officials in the Davis case" and other supporting circumstances, the judge placed her on probation for the period.

"Yes, this is the rifle. Here is my mark," W. E. "Razz" Renfro, Texas Ranger, states as District Attorney Jack Young looks on. Davis, the defendant, sits hunched forward in his chair in the foreground.

"I doan know if he was like that, Hershel Gene Davis, defendant, replied when the District Attorney showed him pictures of the body in the pickup and asked if they showed the body

like it was put into the pickup. Members of the jury lean forward in rapt attention as the story unfolds.

"And he shot him in the back with his hands in the air," thundered District Attorney Young, demonstrating the position of Jesse Dawkins when he was shot, as he presented his arguments for the jury.

Stock Show Plans Near Completion

Small Rule Changes Made By Committee

The main topic of conversation among the junior livestock growers is the Farmer County Junior Livestock Show scheduled for March 8-10.

FFA and 4-H members will begin arriving at the Friona bus barn March 8 with their barrows and sheep to open the show. An ever increasing number of boys are registering their stock with County Agent Deryl Coker and vocational agriculture teachers for the largest county show.

Entry fees for the show have been set at one dollar each for barrows and lambs and two dollars each for steers. No individual will be allowed to enter more than one steer or a combination of three animals with a limit of two each in barrow and lamb divisions.

Entries must be approved by either the county agent or an agriculture instructor, according to Bill Nichols, show superintendent, before they will be accepted by the show committee.

Division superintendents are M. C. Osborn, cattle; Doyle Cummings and Otho Whitefield, sheep; Jack Fulgham and Keith Brock, Barrows.

A large tent will be erected to house the sheep show, according to Nichols.

Hay may be purchased from the Lions Club at the show for fifty cents per bale, or entrants may bring their own hay. The hay will not be provided free as has been the practice in the past. The change was initiated to prevent the excess waste common in the past.

A nightwatchman will be provided by the Friona Lions Club for the entire show. No showman will be allowed to remain in the barn past the 10 p.m. curfew, according to Nichols.

Showmanship awards will be presented to the best showman in each of the three divisions in addition to the ribbons awarded according to placement. No cash prizes will be given.

Sheep and barrows will be judged March 8 and 9. Steers will be received in the afternoon of March 9 and judged in the morning of March 10. The sale will be conducted in the

afternoon of March 10. Tentative plans are to sell the top ten steers in each of the four divisions, divided equally by weight, and 60 barrows and 30 lambs.

Bill Flippin and Jack Howell will serve as auctioneers for the sale.

The show is sponsored by the Friona Lions Club.

Approximately 70 steers, 40 sheep and 130 barrows are anticipated for the show.

The time of the show was set to coincide with the public schools week in an effort to prevent students from missing school unnecessarily, according to Nichols.

Charles M. Smallwood, professor and head of the Agriculture Department at West Texas State College, will judge the events. He received his B.S. degree in Animal Husbandry from Oklahoma State University in 1949 and his M.S. from Texas A&M College in 1950. He is currently working toward a PH.D. at Texas A&M.

Smallwood was formerly head of the Animal Husbandry Department at Murray State Agriculture College, Tishomingo, Okla., where he assisted in establishing the first Double Registered Bull Test in the United States.

Professor Smallwood coaches the WT livestock judging teams. His teams have won several state, regional, and national contests in the past three years.

New Insurance Program on Cotton

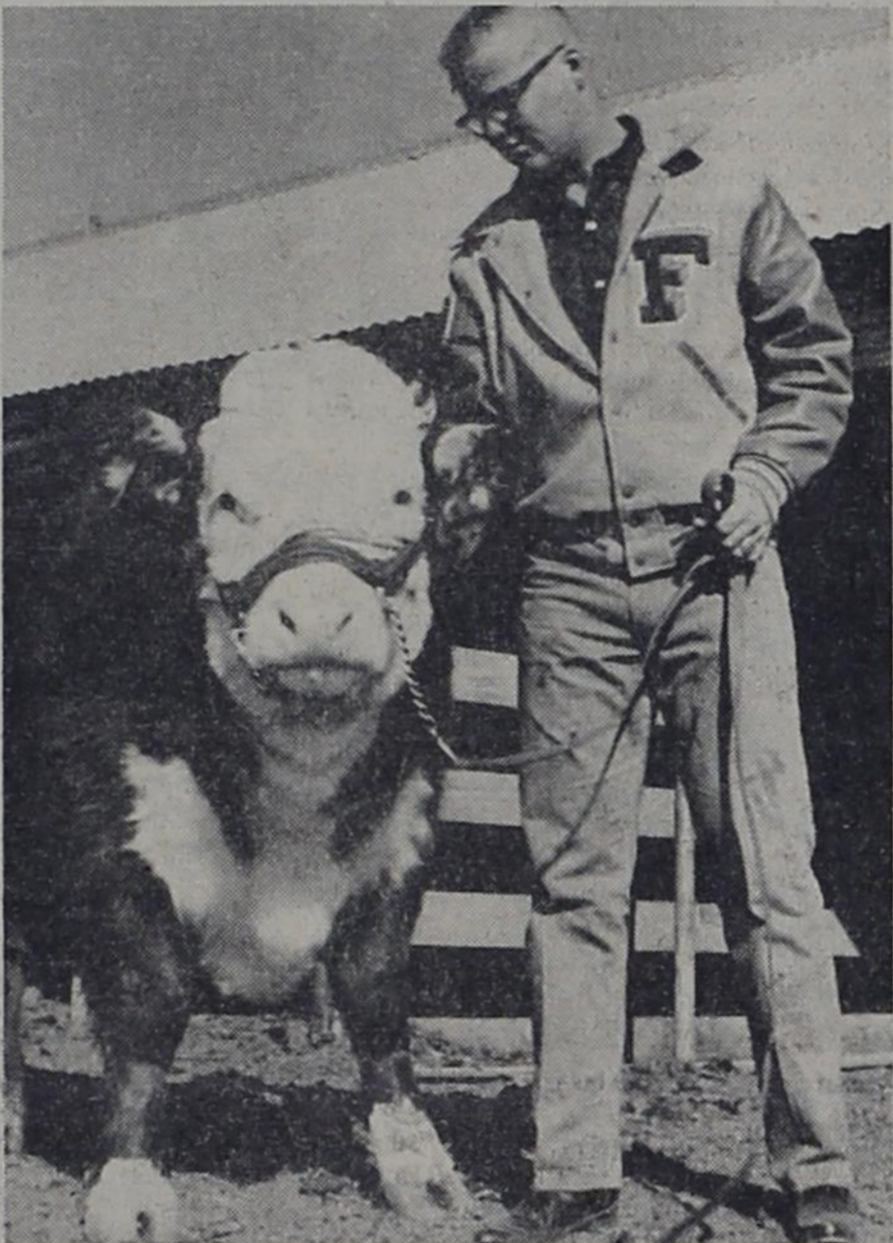

Federal crop insurance in 1962 will offer an improved cotton insurance program to both dryland and irrigated growers in Texas and New Mexico, according to Secretary of Agriculture Orville L. Freeman. For the first time a new irrigated grain sorghum insurance plan will be offered in several High Plains counties. Other expansions have been made in federal crop insurance, and still more are expected in the near future, says Secretary Freeman.

Glen Herring works with his 650 pound Hereford calf which he has entered in the Farmer County Junior Livestock Show March 8-10.

Tim Herring, Friona 4-H member, brushes up his six-month-old, 800 pound calf in preparation for the county show in Friona.

Danny Black gets his 920 pound Hereford ready for the stiff competition at the stock show in Friona next week. The 10-month-old calf will be pitted against some 70 steers in the largest county show.

SCD Work Broadened

Secretary of Agriculture Orville L. Freeman has announced the updating and broadening of the agreement which provides the official basis for cooperation between the USDA and local soil conservation districts.

According to the announcement, the USDA is now ready to enter into this revised agreement which will offer help to districts "in conserving and improving soil, water, vegetation, wildlife and related sources, and in reducing damage by flood and sedimentation."

The new memorandum will be used with all newly formed districts. Agreements with existing districts will be re-negotiated using the new document as rapidly as they wish to do

so, the Secretary said.

Updating USDA's assistance to districts comes on the 25th anniversary of the district movement. In Texas, 182 soil conservation districts, including 98 percent of the state's privately owned agricultural and forestry land, have entered into agreements with USDA for help in conserving soil and water resources, says Lynn Pittard, extension soil and water conservation specialist.

Secretary Freeman made the first public announcement of the revised memorandum of understanding in an address before the annual convention of the National Association of Soil Conservation Districts, held recently in Philadelphia.

The Bexar County Medical Examiner reported officially last year that 85% of all traffic victims in that county had been drinking.

Grain Bins Make Bad Playgrounds

It is just as dangerous for children to play in bins of shelled corn as it is for them to wade in a swirling, swift-moving river according to a Farm Quarterly report on a safety warning given by Dr. N. J. Wardle, associate professor of agricultural engineering at Iowa State University.

"A cornbin presents the same undertow and dangerous pockets that cause so many drownings," Dr. Wardle says. "When corn is being removed from a bin a suction develops which can mean certain suffocation for youngsters and is also capable of burying a man."

"After a portion of the grain has been removed, a pocket sometimes forms in the bottom of the bin and, although the top layers look solid, a misstep can trigger a slide that will put its victim to the bottom and pile tons of corn on top of him."

If you must get in a full grain bin, tie a rope around your waist and be sure to have someone on the other end of it strong enough to pull you out.

Cotton planted on April 3 in field trials at the McGregor Experiment Station in 1961 produced almost three times as much lint an acre as cotton planted on May 15. O. J. Pitt, farm superintendent, said early planting has proved effective over the years when early insect control is carried out. Longer lasting collars and cuffs on men's wash-wear shirts and a single treatment that gives cotton wash-wear properties and also permanently dyes, starches and adds other finishing agents to the fabric have been announced as research developments by scientists of the USDA.

County Meet Aimed At 4 Vital Topics

Many questions pertaining to fertilizer, irrigation levels, grass production or cost and returns in crop production, will be answered at a county meeting of farmers in Hub Community Center Friday at 2 p.m., according to County Agent Deryl Coker.

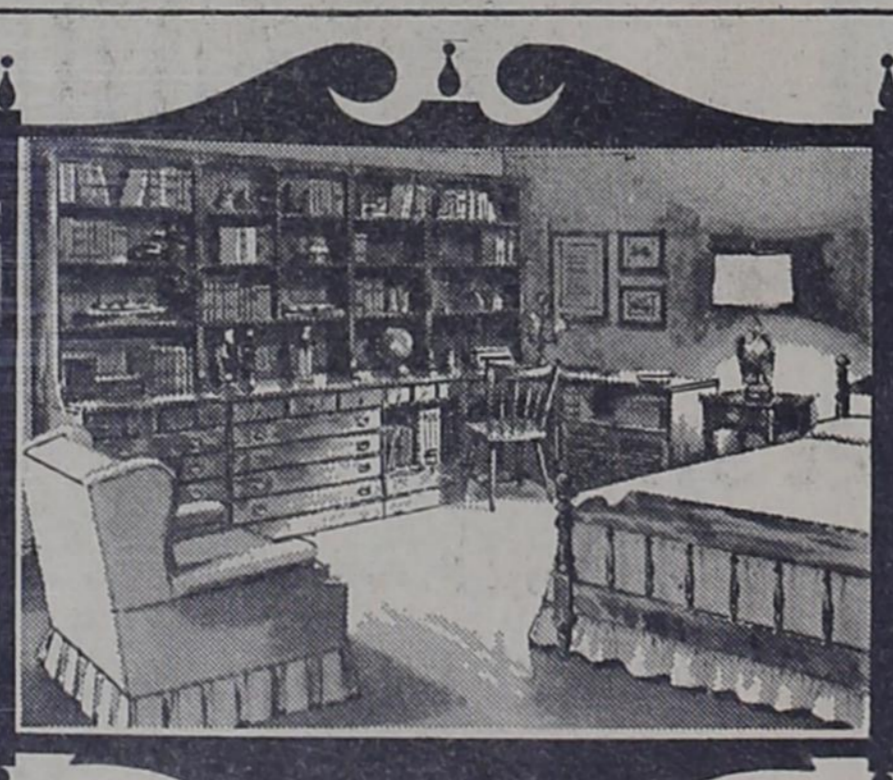

Coker has scheduled four major speakers for the county-wide meeting and has asked that area farmers make a special effort to attend.

Bill Gunter will discuss rates and placement of fertilizer on cotton and grain sorghum; time of applying fertilizer on cotton and grain sorghum; and fertiliz-

er carry-over. Dave Sherill will follow with a discourse on irrigation level's effect on fertilizer rates and times of irrigation on cotton and grain sorghum.

Jim Murphrey is scheduled to discuss cost and returns in crop production and will be followed by George Warner with a discussion of a subject which is gaining attention in the county with every passing day--grass production.

"This program is for the benefit of county farmers and I hope to see every seat filled at the center Friday," Coker said.

ANHYDROUS AMMONIA

Also Weed Killers **RED BARN** Also Agricultural Chemicals

FERTILIZERS • CHEMICALS

RED BARN - LIQUID NPK 6 - 18 - 6

ADVANTAGES:

1. Contains all major essential plant food nutrients.
2. 100% available. This liquid fertilizer is fast acting and economical. Red Barn NPK is ready to go to work when it is applied. It also resists leaching. Special applicators apply the fertilizer in bands, reducing phosphate fixation to a minimum.
3. When applied with Red Barn's big dual rigs, the liquid NPK will help stabilize the Anhydrous Ammonia even when applied under adverse conditions, i.e. in wet, trash or dry, sandy soils.
4. No heavy sacks to carry. Less labor--just pump in. Cover more acres per day.
5. No need to make large investments in fertilizer spreaders or sidedress equipment. Just lease our applicators and taxwise this is 100% deductible.

Amarillo Hearing Scheduled On Potato Marketing Orders

Parmer County potato growers may be faced with marketing orders this year.

A hearing on a proposed National marketing agreement and order for potatoes has been called by the U. S. Department of Agriculture.

1962 the base period would be the average of the highest two of the three years immediately preceding the year for which volume regulation is contemplated, excluding 1962 from each base period.

Chemicals Give Control Over Sorghum Midge

During the past year, tests were conducted by the Texas Agricultural Experiment Station to find a practical chemical control for the sorghum midge.

Paper bags were used to cover the terminal of each plant one day before the heads emerged to regulate midge-laying activities. Bags were removed for 24 hours from 10 plants for 10 consecutive days to expose each head to midge oviposition.

From this information, it was determined that insecticides should be applied to sorghum heads 1 to 4 days after emergence. In the tests, plants that were treated soon after emergence showed much greater yields than those treated when the heads were in the partial bloom or full bloom stage.

Several insecticides were tested, and most gave good results. Of those tested, however, only Dibrom, endrin and toxaphene have been approved for use on grain sorghum.

Complete results of these tests are contained in Experiment Station publication PR-2206, "Control of the Sorghum Midge on Grain Sorghum." A copy of this publication may be obtained from the Agricultural Information Office, College Station, Texas. Ask for it by name and number.

Amarillo has been selected as one of the seven cities where a hearing will be held. It is scheduled April 6 and 7 at the Amarillo Municipal Auditorium, 5th and Buchanan Streets.

First session of the hearing will be held March 12-17, 1962 in the New Commodore Hotel, 42nd Street and Lexington Avenue, New York, N. Y.

The national program was proposed and approved by the National Potato Advisory Committee at January and February meetings in Washington. The Advisory Committee was called by Secretary of Agriculture Orville L. Freeman at the request of industry representatives to study marketing problems facing the potato industry and to recommend plans for market stabilization. The national marketing order was one of its proposals.

The program would include all Irish potatoes grown in the 48 contiguous states. Recommendations would be made by the National Potato Administrative Board, initially composed of 46 members, representing season producing groups, processors, chippers, and shipping interests within the industry. Each seasonal group, processors, chippers and shippers would be represented by a seasonal or special committee which would make recommendations to the Board regarding its group or segment of the industry.

The program would authorize grade, size, quality, maturity, pack, container and labeling requirements for potato shipments. It would also include authority which would limit amounts which handlers may purchase from or handle on behalf of producers.

Allotments would be based upon the amounts purchased from or handled on behalf of producers in the two highest years in the base period 1959, 1960, and 1961. Subsequent to

The order would include a marketing policy establishing national cull regulations for fresh market and food processing. The cull regulations would be in effect at all times but could be modified, suspended, or terminated upon recommendation of the Board.

Inspection or other forms of evidence may be required on shipments when they are regulated.

If sufficient evidence is presented at the hearing to provide a basis for a program, and if the Secretary of Agriculture approves, the proposed order will be submitted to a referendum among growers in the production area.

March Plentifuls Can Give Meals Spring-Like Touch

Fresh eggs and milk can give March meals that sprightly, spring-like touch, suggests the Texas Agricultural Extension Service.

Both are on the U. S. Department of Agriculture's list of plentiful foods for this breezy month. Also among the plentifuls are potatoes, peanuts and peanut products, and dry beans.

Eggs are the March feature. That's because spring production is increasing and farm prices have been running 20 per cent lower than both last year and the 1947-49 average. For economy, nutrition and good eating, you'll do well to serve eggs often. Besides, March is both Egg Month and Better Breakfast Month.

The whole array of dairy foods will be plentiful, as milk production begins zooming to a springtime peak. Use plenty of whole milk, evaporated milk, skim milk, dry milk, half-and-half, cream, butter, buttermilk and all the many different cheeses available in abundance. Even though milk cows on farms are the fewest since 1909, production per cow has increased 30 per cent in the last decade to provide an ample supply of milk for all.

Plentiful potatoes also come in numerous styles -- fresh, canned, instant, dehydrated, frozen, chips and in processed combinations with other foods. Peanuts, raw and roasted, remain in excellent supply. USDA says more of last year's crop found its way into peanut butter, peanut candy and salted peanuts. Especially plentiful among economical, nutritious dry beans, pinto and red kidney beans, and black-eyed peas.

HD Agent's Notes

BY MISS ETTIE MUSIL

Have you ever wondered how well-dressed you were? Good grooming is something to think about while dressing. After you have dressed, forget about how you are dressed.

A well-groomed person meets people much more easily and associates with them more pleasantly. He or she thinks more about what is taking place around him or her friends, rather than wondering and worrying how he or she looks. To help you know when you are well dressed use Rule of Fourteen to check yourself. Everything you wear that is visible to others should add up to a total of not more than 14 points. Now check yourself how well dressed you are.

Dress of one piece counts 1 point, a suit 2 points, buttons 1 or 2 depending how decorative they are, hat 1 point, veil 1, flower 1, each different color 1, hose 1, dark heels 1, shoes 1, bows 1, buckles 1, straps 1,

purse 1, trim on purse 1, gloves jewelry pieces 1, scarf 1, coat or wrap 1.

The basic one-piece dress would count one. A figured or plaid would count up to five, depending on the number of predominate colors. A basic frame of hat is 1 point, a feather or flower would count 1, so would a veil. Each different color adds a count to a hat.

If you like fancy hats then you should choose very simple suits or dresses. Two earrings counts one. Two hose are one as are plain shoes. The trim and style of shoes adds a count. The combination of engagement and wedding rings count 1 point.

After you have used this rule for a few times, you will become skilled in varying your accessories. But don't fall too far under the count of fourteen or you may appear under-accustomed. Count 12 to 14 for smartness.

Is chicken your family's favorite?

Write meat? Yes, nothing quite like fried chicken for Sunday dinner. Here's an opportunity for you to enter the National Chicken Cooking Contest. The contest in Texas is sponsored by the Texas Broiler Council.

If you would like to enter your favorite chicken recipe in the contest, here's what you'll need to do. First of all, you can get an entry blank and a copy of the contest rules by writing to Texas Broiler Council, Stephenville, Texas.

The lady winning the recipe contest in Texas will get an all expense paid trip to the national finals contest in Harrington, Delaware, June 14 to 16. Oh, wouldn't this be exciting! You have just as good a chance to win as anyone else. Everyone who ever won a contest usually commented, "I don't have a chance, but think I'll try just the same."

Don't overlook your family's clothing when you are checking your home for accident hazards. Shoes rate high as causes for accidents. Broken-down counters on shoes or too-high heels often cause falls or sprained ankles.

For safety's sake, shoes should be well-fitted and carefully repaired. Children's shoes, especially should be watched closely for needed repairs and changes in sizes. Slippery finishes on the soles of new shoes are often hazardous. Rub the shoe sole with light sandpaper. If you do not have sandpaper you can just rub it over some sand to prevent slipping.

Beside shoes, ripped hemlines are another safety hazard. So are large pockets or other trims on garments that are not stitched on securely.

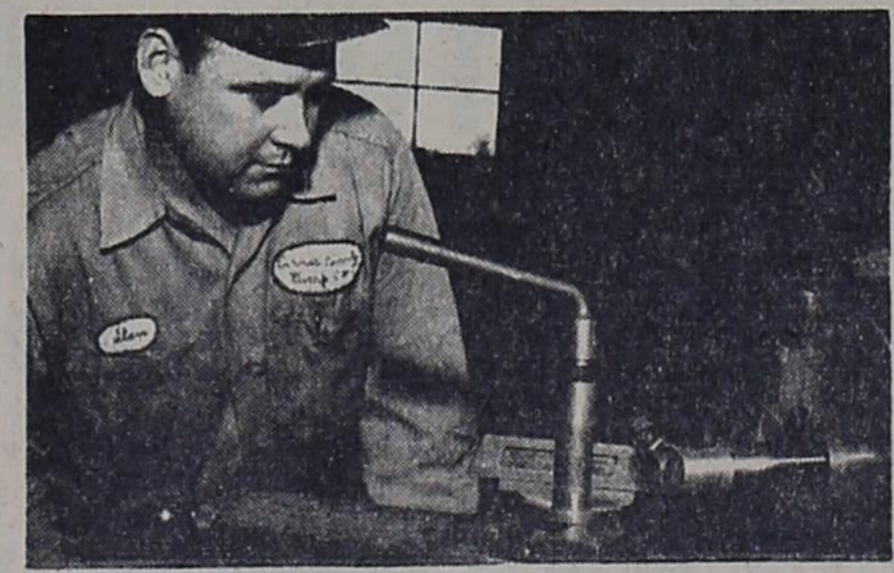

Four-H Club members in Texas and the nation will observe National 4-H Club Week, March 3 - 10. We are proud of our 178 4-H club members in Parmer County.

Questions concerning the application of the State Sales Tax to agricultural production goods are still numerous, reports C. H. Bates, extension farm management specialist. He says some time will be required for the State Comptroller to issue rulings covering the multitude of individual items where "gray" areas exist in the statute's meaning.

When properly handled and cooked, venison provides a real taste treat, says Ed Cooper, extension wildlife specialist. The deer should be dressed immediately after it is killed and protected from contamination until placed in storage.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

The third annual Oklahoma Citizenship Seminar for High School Students will be held on the campus of Oklahoma Christian College, Oklahoma City July 9 through 13 this year. If enough interest is shown we believe directors of this county may find a way to send from one to four students. We hope it develops that way, anyhow. Primary qualifications for candidates to attend are: Character Scholarship, Leadership Ability and Public Speaking Ability.

Nominations would be made by the school administrators. We believe this would be one of the most interesting and profitable five days a high school student could spend anywhere. We will announce soon whether this county Farm Bureau will participate in the sponsorship of some students for the seminar. If it does, it will have to begin soon, because applications are accepted on a first come first served basis. Either boys or girls who qualify can be accepted if they meet the general qualifications mentioned above.

Four hundred and seventy five of the nation's 487 Production Credit Associations are now completely farmer-owned. There is only \$475,000 of government owned stock in the other twelve associations. We remember several years ago when Farm Bureau was asked to help sever government interest in these associations when they became self sustaining. They had asked and got government aid in beginning, but they wanted their independence as soon as they could operate without that aid. They have done exceedingly well.

Regarding the administration backed farm labor recruitment bill, Farm Bureau told the subcommittee that the basic concept that the federal government should perform the functions of a crew leader and labor con-

tractor, and engage in writing labor-management contracts is wrong. Mrs. Davis will appreciate your sending your dues in immediately upon billing because it will save her and other workers time, and your Farm Bureau money which can be put to use in serving you better. CONSIDER THIS: For the Lord giveth wisdom; out of his mouth cometh knowledge and understanding. Proverbs 2:6

FOOTSAVING EDUCATION

by James E. Edwards

Not all children's feet have the same amount of "yield" on weightbearing.

In fact, there's considerable differences in change of foot size and shape on weight-bearing or activity among children. For example, some feet are naturally more rigid or less yielding; others are very elastic - and some are extremely so (the latter are called "flaccid" feet). In two children of the same foot size at rest, both may show a half size increase in length on weightbearing... but one will show a greater spread at ball and heel. There are many such variations or differences, such as at waist or instep or arch, or even the breadth span of the toes. (Cont.)

Clovis In The Village

The other seven are Gary Cooley, 17, of Lyford; Dickie Rychetsky, 17, of Robstown; Novalene Imler, 16, of Conroe; Ronald Keith, 19, of Cleburne; Ted Neumann, 18, of Waco, and Dick Plank and Caroline Brumley, both 16, and both from Hereford.

There was also time for window shopping on Chicago's famed State Street and gazing up at the city's skyscrapers. Sightseeing stops included the exciting Museum of Science and Industry overlooking Lake Michigan.

The eight were among the 31 member Texas delegation that attended the big 4-H meeting in the Conrad Hilton, world's largest hotel and the congress headquarters. Altogether the state had four national winners at congress, held the last week in November.

The Texans attended a concert in Orchestra Hall, conducted by Arthur Fiedler, that featured two 4-H soloists, and danced at three elaborate parties given in their honor.

They received the all-expense Chicago trips as awards for being named the state's top winners in their projects.

Cooley, the beef award winner, was the guest of E. I. du Pont de Nemours & Company Inc. Rychetsky, the safety award winner, had his trip donated by the General Motors Corporation.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Some homemakers refrain from growing houseplants because of the inconvenience of keeping them watered properly during vacation time and other times when no one is at home. This problem can be solved for long periods of time by purchase of a newly developed device, which is on the market at garden supply houses.

These automatic plant waterers are made in shapes of animals. Bodies of the animals are hollow and have small tapered stems, which are inserted in the soil, are also hollow. All you need do is fill the animals with water and the seepage will take care of your plants for you while you are away.

Another new gadget that every automobile owner should own is a magnetic secret key case. These cases have built in lifetime magnets and hold up to three extra keys.

An extra key slipped into such a case can be hid under the hood of your car and you need

never worry about locking the key inside the automobile.

Such a gadget can also be used for extra house keys.

Then there are magnetic hooks, which attach themselves instantly to anything made of steel, metal cabinets, stoves, autos or refrigerators. You may use them to hang cups, bottle openers, pot holders, tools or anything you want at your fingertips without any hole drilling you may move or remove them at your will.

Our apologies this week go to everyone who experimented with the recipe for Lemon Chess Pie that ran in last week's Happy Homemaker column, 1 1/2 cups of sugar should be added to the list of ingredients.

Most homemakers have made a lot of angel food cakes, but did you ever make an angel food pie? If not, you will probably want to try the following recipes.

Angel Food Pie

4 egg whites

3/4 cup sugar
1 1/2 teaspoons vanilla
1 cup heavy cream
1/2 cup nuts, ground
Beat egg whites very stiff; add 1/2 cup sugar and 1 teaspoon vanilla. Pour into graham cracker crust and bake in preheated 300 degree oven 30 minutes. Cool.

Combine 1/4 cup sugar, nuts, whipped cream and remaining vanilla; pour on top of cooked mixture, then refrigerate.

Angel Chocolate Chiffon Pie
2 egg whites
1/8 teaspoon salt
1/8 teaspoon cream of tartar
1/2 cup sifted sugar
1/2 cup pecan pieces
1/2 teaspoon vanilla
Beat egg whites, salt and cream of tartar until soft peaks form; add sugar and beat until stiff. Fold in chopped pecans.

Spread meringue mixture in and around the rim 1/2 inch of a greased 9 inch pan to form the crust. Bake at 300 degrees for 1 1/2 hours. Cool.
2 tablespoons sugar
6 oz. semi-sweet chocolate drops
3 tablespoons milk
4 eggs, separated
Melt sugar, drops and milk. Stir and beat well after each addition. Fold into stiffly beaten egg whites. Pour into meringue shell and chill. Top with whipped cream slightly sweetened with powdered sugar.

Lazbuddie 4-H

Lazbuddie 4-H elected to tour the Friona livestock show at their meeting Feb. 15. The group met in the Lazbuddie School Cafeteria. Danny Miller called the meeting to order and minutes were read and approved. Mike Hinkson led the group in the 4-H pledge. Miss Etie Musil, County home demonstration agent, presented a program on landscaping and the group played into several games.

Fishermen Warned To Buy Licenses

Spring weather has kindled the urge to fish, and fishermen are reminded that a fishing license is required in most instances, according to J. B. Phillips, coordinator of law enforcement for the Game and Fish Commission.

This applies to both resident and non-resident fishermen, fishing in fresh water or salt water, except for persons fishing within their own county with an ordinary pole and line, or persons under 17 or over 65. Persons fishing within their own county with any type of winding device are required to buy licenses, also.

The Texas license fee, at \$2.15, offers an inducement to non-residents, because it is the only fishing license in any state available to non-residents at the same price as to residents. All other states charge additional fees for non-residents.

Existing commercial bay-bait shrimp boat licenses will expire March 1, and a new license covering the boat and trawl must be obtained by that time. New licenses will be effective March 1, and any person commercially taking shrimp for bait in bays must have the license, and it must be bought before the expiration date, March 1. The license costs \$30.00 and is good for one year.

Scholarships Offered For Good Road Essay

The Texas Good Roads Association announced today it will sponsor a \$400 Scholarship Essay Contest for senior students in Texas high schools as part of the observance of National Highway Week (May 20-26).

Callan Graham of Austin, executive vice president of the association, said the contest will "encourage more wide spread understanding of the benefits of better highways to our state" and will reward winning students with the following prizes:

First place -- a \$250 scholarship to the college or university of the student's choice, plus an expense paid trip to Austin for the student and parent or guardian to receive the reward.

Second place -- a \$100 scholarship.

Third place -- \$50 scholarship.

Funds for the three winning scholarships have been set aside in an Austin bank. Honorable Mention certificates will also be awarded to worthy essays.

The contest is limited to seniors in Texas high schools. Entrants must use the title, "What Better Highways Mean to My Community," and limit the essay to 500 words or less. En-

tries must be mailed by April 30 to the Texas Good Roads Association, Suite One, Perry-Brooks Building Austin, Texas.

The essays will be judged by a committee consisting of Graham; Dr. DeWitt Reddick, director of the School of Journalism at The University of Texas; and D. C. Greer, State Highway Engineer. Winners will be announced before or during National Highway Week in May.

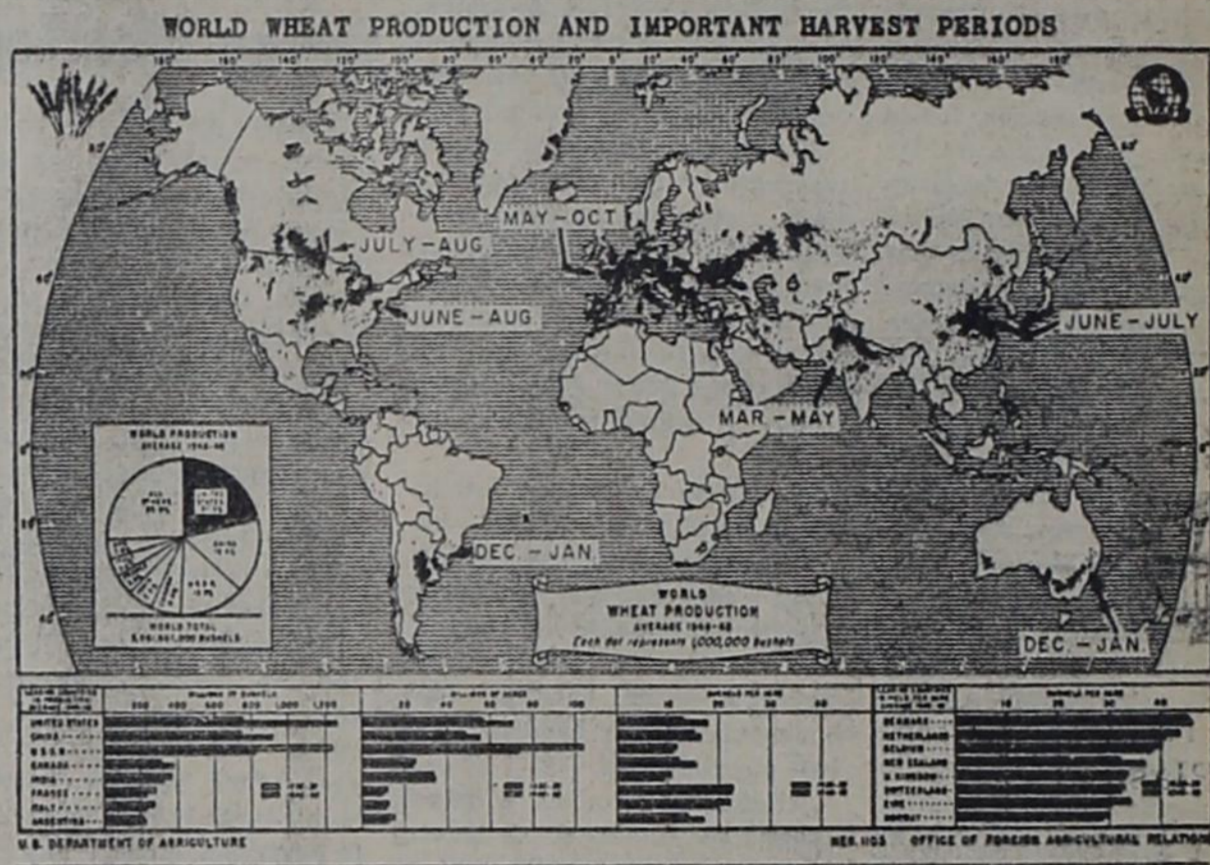

Graham said information on the contest is being forwarded to school superintendents and high school principals, and that anyone desiring information may also write to the T. C. R. A. in the Perry-Brooks Building, Austin, Texas.

The sponsoring association has for half-a-century been a non-profit, non-partisan citizens group devoted to the encouragement of sound highway policies and good highways.

Texas Cotton Producers Emphasize Cost Cutting

The past year wasn't what cotton growers in many Texas counties would classify as a good one, but for the state as a whole, lint yields were the second highest on record, 348 pounds an acre. Thus, low yields in some areas were offset by record yields in others.

Fred Elliott, extension cotton specialist, in his 1961 annual report highlights some of the past year's achievements. He said the 7-Step Cotton Committee, working on all levels, continued to be a major factor in the progress made by the producers of the state's most important crop. Since the program, initiated 16 years ago by the Texas Agricultural Extension Service, has been operating, lint yields have climbed from 134 pounds an acre to 1961's 348 pounds. But perhaps of equal or even more importance have been the changes in production and harvesting, ginning and soil management practices.

The specialist reported that an estimated \$68 million plus was saved last year in harvest costs through the use of machines -- 33,089 stripper harvesters and 4,782 spindle pickers. Harvesting machinery doesn't come cheap, the specialist said, as verified by the expenditure of over \$32 million in 1961 alone for new picking and stripping machines.

Growers saved another \$27.7 million in labor costs through the use of 50,605 rotary hoe

equipped tractors and chemicals for weed and grass control. Spot-planting of Johnsongrass was used on approximately a quarter million acres of cotton in 163 counties and spot-spraying of the same pest with water carried chemicals was used on 136,700 acres. Lateral oiling saved up to \$25 an acre on hoe bills and was used on more than 86,000 acres in 75 counties.

Defoliants or desiccants were used on 61,555 farms in 170 counties to prepare cotton for machine harvesting. The use of moisture meters, a recent introduction, expanded rapidly and 136 were used in 41 counties as an aid in quality improvement.

Last year, county agents in 207 counties assisted producers with all phases of the 7-Step Program. County program building committees were also active in planning county work and emphasis in many counties was placed on the use of cotton burs for soil improvement and to reduce fire hazards. Burs were spread on 17,306 farms in 126 counties. A few years ago burs were commonly burned as waste. A ton of burs contains about \$7.50 worth of plant nutrients and their application has raised lint yields by as much as 25 percent.

A team of extension specialists -- cotton, entomologist, cotton gin, and at times others -- was used to carry educational information to the counties.

The team conducted 157 meetings attended by 13,252 producers. County agents in their followup work held almost 2,100 meetings with an attendance of approximately 53,000. County agents and committees also enjoyed the cooperation of newspapers, radio and television stations for getting needed information to producers and supplied them with more than 2,100 stories, 2,250 radio and 39 television programs.

Cotton is still the state's most important crop and the progress made has materially aided the entire economy of Texas, the specialist concluded.

Test Foreign Grass Seeds At Station

Interest of foreign scientists in the High Plains Research Foundation is in evidence from the contributions they have made of seeds of a number of different crops. The plant introduction nursery of grasses and legumes is one of the recent projects aided by foreign interest.

Forty-two of the fifty-six grasses were received from the Central Rainsland Research Station in Anglo-Egyptian Sudan. Each strain or variety will be observed for a period of two or three years. Some of the Sudan introductions look very promising. Further tests will determine if they can determine if they can withstand the winter climate.

Sixty-four of the annual and perennial legumes were also received from the Sudan Station. Several different strains of creeping alfalfa were included in the nursery planting. All of these legumes will be observed and evaluated over a period of years to determine their adaptation of the High Plains area. A few strains may offer promise as dryland legumes, thereby, meeting an often stated desire by dryland farmers.

WITH THE COUNTY AGENT

DERYL COKER

Time flies, and it won't be long till planting time. Some farmers will be buying seed in the near future, so I am listing some yield data and blooming dates on some grain sorghum hybrids at the Bushland Experimental Station.

These results do not necessarily give a sound basis for changing a variety already proven successful on your farm, but if you are not satisfied with your variety this data might be of help to you.

Late-maturing and earlier-maturing, vigorous hybrids performed well under irrigation. For hybrids of different maturities, there usually are differences in total amount of water required and also in the distribution of that water. Although the highest yields were obtained from late hybrids, more water may be required by them than by slightly earlier hybrids. Several hybrids yield about the same but differ by 5 days or more in date of blooming. The need to consider facts other than yield is emphasized by these comparisons.

Several plant characteristics other than yield should be considered in the selection of hybrids for a particular area or location. Some are difficult to measure. Earliness, fast head drying, standability and disease resistance may be as important as yielding ability in reducing the hazards of production. RS 608 is relatively low in yielding ability but is planted on a considerable acreage in West Texas because it possesses desirable characteristics other than yield.

Hybrid or variety	Ave. yield Bushland in 1957-60	Plant-to-Bloom Bushland	Percent head smut, Bushland in '60
Lindsey 788	6940	68	1
AMAK R-12	6940	61	16
DeKalb F-63	6940	68	4
Texas 620	6690	63	6
RS 630	6810	60	
RS 610	6450	58	18
Texas 660	6680	63	6
Texas 611	6500	60	12
RS 650	6480	63	6
RS 609	6500	60	6
RS 681	6420	65	1
Texas 601	6380	61	12
RS 661	6460	63	12
DeKalb F-62-a	6330	62	3
Northrup-King 210	6130	60	19
DeKalb E-56-a	6060	60	9
DeKalb C-44-a	6160	58	3
RS 590	6000	59	12
RS 608	6080	59	12
AMAK R-10	6080	58	15
Plainsman	5780	69	5
PAG 625-S	6150	69	4
Martin	5400	62	5
RS 501	5240	54	
Combine 7078	5100	59	25

Head smut became serious for the first time in West Texas in 1960. Percentages of head smut in the Bushland irrigated test are shown above. All hybrids had some head smut infection, but there were large differences among hybrids. RS 609, which is rated as resistant, had a 6 percent infection. Infected plants in RS 609 could have been caused by impurities

in the seed or different races of the organism that may have been present.

The data reported provide some of the information needed in the selection of hybrids adapted for an area or type of farming. There seldom is a "best" hybrid from the standpoint of yield alone. Although a hybrid has the highest average yield, generally, it should be considered equal to the several hybrids that are closely below it in average yields. Hybrids, with the highest averages also were those that were fairly consistent in producing high yields in a majority of the tests. If certain environmental conditions can be predicted or controlled, hybrids with specific adaptation may be preferred, but, in general, it is much safer to use hybrids that perform well under a range of conditions.

Strict sanitation is the most effective barrier between the dairy cow and the organisms which cause mastitis, explains A. M. Meekma, extension dairy specialist. The only practical way to prevent the spread of mastitis, he says, is to keep it from reaching udder tissue.
