

Whittlin'

By Dolph Moten

Crave Criticism?

If you want to be assured of your share of cussings and criticism, try newspapering for a living and managing a baseball team for the so-called fun of it.

This is the voice of experience talking to you now. I'll guarantee that you'll get your share of day-in and day-out gripes if you'll just take on one of the two jobs; much less both.

I don't know if it was the manager or the umpire who got fussed at and talked about the most Sunday afternoon as the crowd seated out a pair of squeakers between the local Central Plains League team and Umberger. Didn't really mind the gripes and suggestions I received as manager. I'd expected them in the beginning.

At least I didn't mind until I got home after the games. Then and there, my wife, who I was beginning to think didn't know the difference between a ball and a strike, told me in so many words that she thought I'd done a pretty poor job of managing and that as a player I was just plain sloppy. Understand she was nice about it all and didn't really say it in these words. But that's what she meant.

I was astonished. She was supposed to be the queen of the baseball haters.

It was good to know, however, that she was taking an interest in such a great game even if she didn't see eye to eye with me.

If you true baseball haters have made it this far, please read on through. I'll not mention the grand old game again. I hope you won't be too hard on me for writing a little about baseball this week. You'd be surprised how hard it is for a fellow like myself to begin a column without mentioning you know what.

Another Well-Liked Subject

A subject that stands just behind sports as far as what I like to write about is concerned is Bovina's growth.

This growth is brought to mind quite regularly if you notice the new businesses and improvements being made at all.

Paul Jones cites a good growth example. He went into the service station business here right after the war. He had a station on Highway 60. That station and a part of Macon Elevator were the only two businesses on Highway 60 in Bovina at that time, Paul says.

With the paving, curbing and guttering project completed in the highway part of town now and the street lights up and shining brightly, it's hard to believe that so much could have happened in such few years.

The number of businesses and improvements there now are a far cry from the "original" two.

Talk seems to have died down about when Bovina will "move" to the highway. However, if I were guessing, I'd say it wouldn't happen any time in the foreseeable future. Really, there's no point in it. Depending, of course, on the type of business, there's no reason, in many cases, for one part of town to be better than any other.

Bovina's growing, not moving, and it has to grow somewhere.

Excited And Then No

Speaking of talk dying down, it's amazing to me how a problem or situation can take hold of a community, get everyone up in the air temporarily and then pass out of the picture as if nothing had ever happened.

An example is school taxes and the way people were upset about them. When the equalization board first met back in July, the citizenry was excited and complaining about school taxes for the coming year. After two days of equalization board meetings and much talk, less and less was heard about the problem until July 30 when the board met again. Once again, many people were excited and worried about school taxes.

At the present, you can't tell whether we pay school taxes here or not by listening to sidewalk conversation.

In other words, this school tax situation has been going up and down in conversation like a yo-yo since taxes for the year were announced. Yet, the "problem" has been with us all during that time.

The public mind is extremely fickle about what it worries about and what it thinks about. A subject, be it good or bad, has to be something more than important to hold the attention of the public for very long at a time. If something new concerning that subject doesn't develop quickly, the public mind will have spent all the time worrying about it that it's going to and will be gone on to something newer and seemingly more important. At least, something more timely.

School Starts September 2—

Two Teachers Hired, Vacancy Left

Football Practice Begins August 26

Bovina Mustangs' football practice for the 1957 season will get underway Monday, August 26, Coach Bob Wills announces.

By beginning on that date the team will have two weeks of practice under its belt before it meets Fort Sumner there September 5 in the first game of the season.

Wills, who will be assisted this season by Charles Don Smith, says that boys who plan to come out for football will meet at the field house Friday afternoon—August 16—for a pre-season briefing.

Wills and Smith returned Saturday from the week-long coaches school at Dallas.

A total of twelve lettermen are expected to report for the first practice session.

The same teams will compete in District 3-B as did last year. They include, aside from Bo-

vina, Kress, Lazbuddie, Hart, Happy, and Amherst.

In addition to those five games, the 10-game schedule will be rounded out with games with Fort Sumner, Farwell, Friona, Vega and Whitharral.

"There's a rough row of games ahead," Wills says, "and we are going to have to work hard to make a decent showing."

Lions to Honor Boys

Bovina Lions Club members voted in a regular meeting Thursday night in Bovina Restaurant to have a weiner roast for Boy Scouts and Peevee, Little, and Pony League ball-players the night of August 22 at the city park.

The feed, in honor of the youth activities which the Lions sponsor, will be held in place of a regular meeting.

The Lions' food committee will be in charge. Also at the Thursday meeting, Allen Cumpston, Little League manager, and Leon Grissom, Peevee manager, made reports of the season's play. Both teams won championships.

Lion Boss J. W. Wright, who took a group of Scouts to Camp Weh-in-ah-pay in New Mexico for a week, spoke on the Scouts' activities at the camp and told of humorous incidents as well.

"It makes you real proud to take a group of Scouts camping," Wright said, "and it makes you realize that the Scouts are something more than just another organization."

Wright expressed appreciation to Lawlis and Ely Gin for furnishing a pickup and gasoline to take the boys to the camp.

John Wilson, Bovina water superintendent, is attending a basic waterworks school at Hereford. The school, held at night from Tuesday, August 6, through August 15, is sponsored by Texas Engineering Extension Service in cooperation with state board for vocational education.

BULLETIN

Playoff Will Begin Sunday At Umberger

A telephone call from Central Plains League officials late Tuesday revealed League playoffs will begin Sunday. Bovina's Bulls, finishing in a tie for second place, will meet Umberger at Umberger in the first game of a best two-out-of-three series Sunday afternoon at 2:30.

Bovina players will leave Bovina at 12:30.

The early playoff date was made possible by deciding not to play rain-cancelled games. Season play ended last Sunday, but Bovina was the only team to complete all its games.

During regular season play, the Bulls won two and lost one in games with Umberger.

Bovina Gets Almost One Inch of Rain

Rain, totaling almost an inch, fell in Bovina Tuesday afternoon and early Tuesday night. The amount of moisture received throughout the area varied as usual. However, the rain was considered to be of a general nature.

Little Leaguers' Averages Figured

Averages of Bovina Redlegs, champions of Parmer County Little League, have been announced by Allen Cumpston, manager.

The team was named league champion after defeating Lazbuddie in a best-two-of-three series. The season record was 8-3.

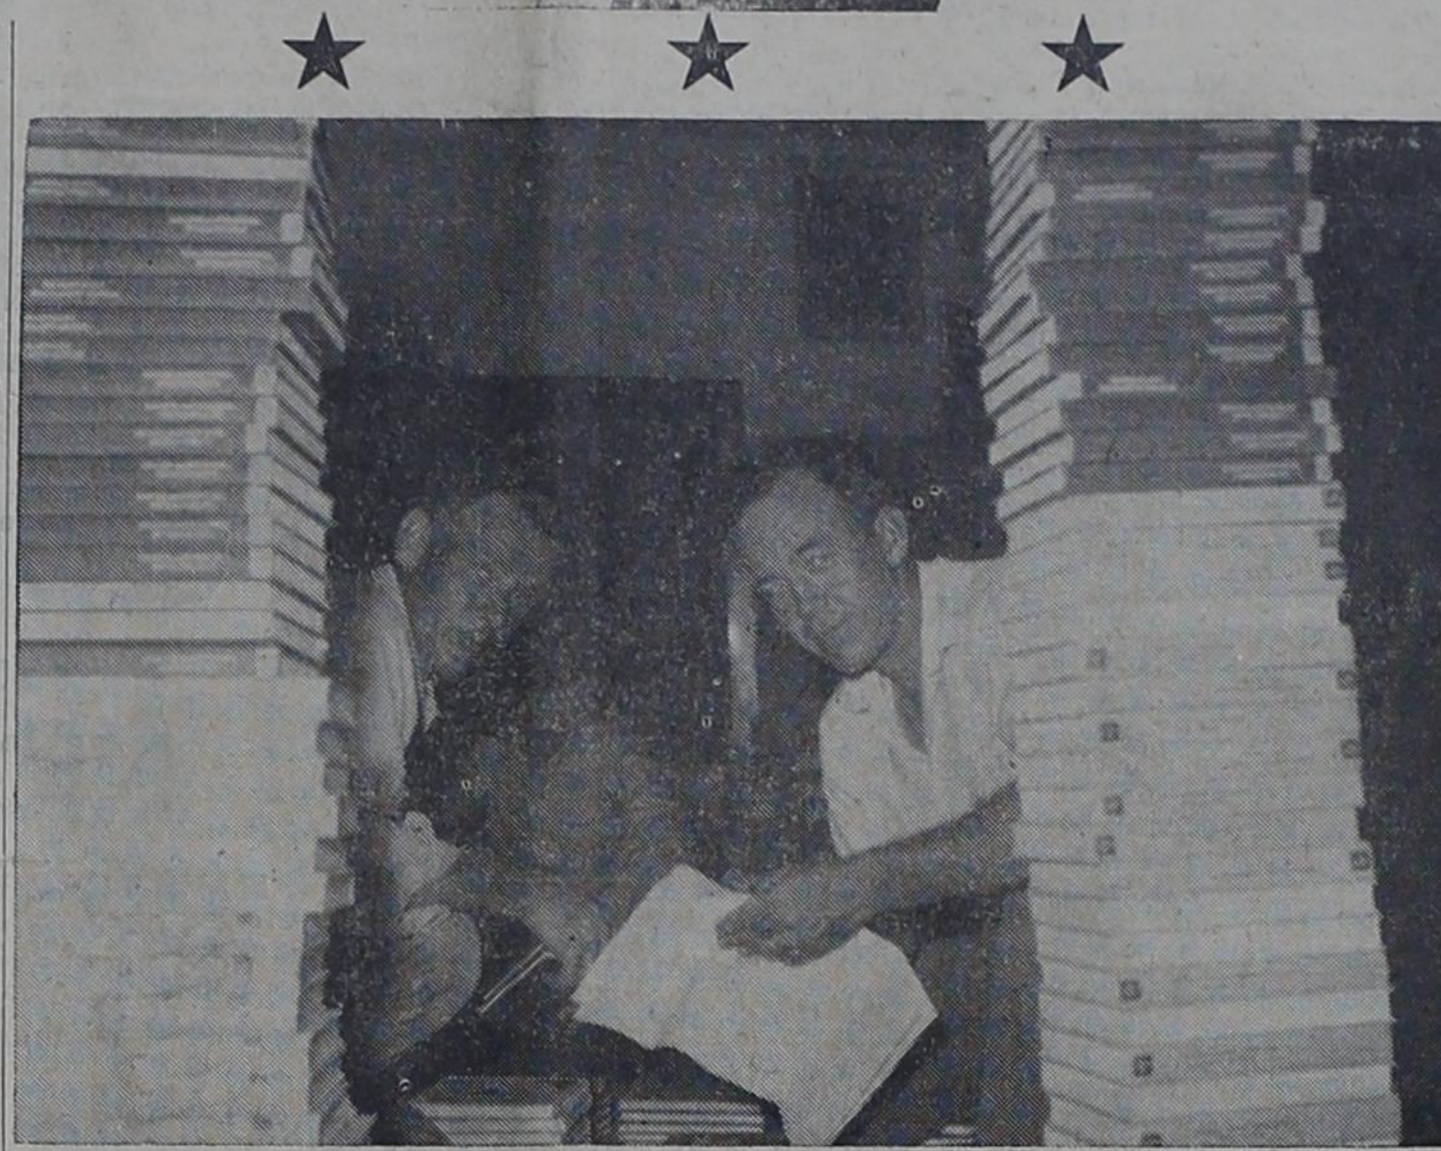

David Lawlis, shortstop, led in the total number of hits with 20. Don Cumpston, catcher, had 16. Wyndol Davies, third base, had 15, and Gary Stevenson, left field, had 14.

In the home run department, Lawlis was the leader with six. Cumpston and Stevenson had four each, and Davies had three.

Batting averages were Lawlis, .526; Cumpston, .500; Davies,

.490; Jerry Rigdon, first base, pitcher, .231; Billy Charles, outfield, .192; Mac Glasscock, pitcher, first base, .400; Ronnie Glasscock, right field, second base, .216; Bill Trevino, shortstop, .333; Ken Horn, second base, .100; Stevenson, .425; Butch Woltman, center field, .333; Tally Kelso, center field, .144; Phillip Lloyd, right field, .000; Julian Berry, catcher, left field, .313; and Billy McCormick, center field, third base, .500.

Mac Glasscock, who did the bulk of the pitching, had a record of seven wins and two losses. He struck out 89 and walked 31. Rigdon struck out six and walked two. He had only one decision, a loss.

PILLARS OF BOOKS—The camera caught Warren Morton, right, school superintendent, and Hedio McLean, left, checking over new books the school recently received from the state Friday afternoon. Some \$2500 worth of new books will be used by students during the coming school year. Morton estimates the school has a total of some \$15,000 worth of books.

Services Twice Daily—

Baptist Revival Begins Monday

REV. WALTER A. MITCHELL

Over 300 Register At Moore's Opening

"Over 300 people registered and there were many more who came in and didn't register," Mrs. Alice Moore said following the grand opening of Moore's 5 and 10 cents.

Opening days were Friday and Saturday. Guests of the new business registered for a free bean pot which was given away Saturday afternoon.

Winner of the prize was Mrs. Thomas Rhodes. The variety store, which is Bovina's newest business, is located next door to the post office on North Street. Owners are Mr. and Mrs. Bill Moore.

An advertisement in this issue expresses appreciation from the Moore's to people who attended the grand opening.

Mrs. Tiny Walling and children, Stevie, Beckie and Donna, of Amarillo visited several days in the home of her aunt and uncle, Mr. and Mrs. Joe Wilson.

Monday, August 19, through Sunday, August 25, are the dates set for a summer revival meeting at First Baptist Church in Bovina, Rev. Virgil Goodwin, pastor, announces.

Rev. Walter A. Mitchell, pastor of First Baptist Church in Clovis, will be the speaker. Song leader will be Maurice Carson, a student at Oklahoma University from Faxon, Okla.

Services will be held twice daily—at 10 a. m. and 8:15 p. m., Rev. Goodwin says.

Rev. Mitchell is a graduate of Southwestern Seminary and has pastored churches in Texas, West Virginia, Virginia, and Washington D. C. Also, he has served on Southwestern committees for the Southern Baptist Convention and has been a trustee for Southwestern Seminary in Fort Worth.

Carson, who is an engineering student at OU was a youngster in the church at Faxon when Rev. Goodwin was pastor there.

20-Year-Old Fined For Bootlegging

Twenty-year-old Sonny Rondo, Friona, was arrested Saturday night for bootlegging. He was tried on two counts in Parmer County Court Monday morning and entered a plea of guilty. He was fined \$225 by Judge A. D. Smith.

The two charges were for possession of alcoholic beverages for purpose of sale, and for selling the beverage. He was found making a sale at his place in Friona by County Sheriff Chas. Lovelace at 10 p. m.

Forty-one quarts of beer were confiscated by the sheriff.

It was the second bootlegging arrest in Parmer County during the past two weeks. A week prior to last Saturday a man was arrested for transporting 25 cases of beer across the county.

City Board Talks With Four Citizens

City of Bovina equalization board members talked formally with four taxpayers Monday during the board's meeting for the year, City Secretary Henry Minter, reports. There were several people, however, who stopped by the city hall to get information, but not to meet with the board.

Members of the board were Bill Venable, Harry J. Charles, and Will Parker. Parker was a replacement for Tom Rhodes. Rhodes, appointed to the board by the city commission, was on vacation and unable to attend the session.

The Monday session will be the only meeting held by the board this year.

Commissioners Discuss Plans For Vault

Parmer County Commissioners discussed plans for building a vault, for housing deed records, at the regular meeting of the group Monday afternoon.

The need for such a vault

English Teacher Yet To Be Hired

Two more teachers were signed to instruct in Bovina Schools last week by Warren Morton, superintendent. The hiring of Mr. and Mrs. J. W. Whelane brought the number of vacancies down to one.

Mrs. Whelane, who has been teaching in Hereford for the past three years, will be the homemaking instructor. Her husband, who received his

degree from West Texas State College this spring, will teach fifth grade.

Whelane had a major in history with minors in education and math. This will be his first year to teach.

They have two children, a boy, Micheal, 12, and a girl, Barbara, 7. They plan to move here about August 25.

The remaining vacancy is for a high school English teacher, but Morton feels this post will be filled before school gets started Labor Day, September 2.

Morton explains the reason for beginning school on Labor Day is that the holiday isn't observed to a great extent here and it has been the past custom.

Holidays for the school year haven't been announced. However, no changes in the holiday schedule are planned.

High school students will register Thursday and Friday, August 29 and 30—the week before school begins. The schedule for registration will be announced later.

Also, faculty members will attend a pre-school orientation during the mornings of August 29 and 30.

One more instructor will be on the staff this year than last to bring the total number to 23.

Last year they were High Principal and Mrs. R. E. Everett, Mrs. Carmelaet Truitt, English teacher; Mrs. Otie Ellison, history teacher; and Mrs. Betty Springs, homemaking.

Five new teachers have been hired with the one vacancy remaining. New teachers are Roy Whisler, high school principal; Charles Don Smith, assistant coach and P. E. instructor; Weldon Scruggs, seventh grade; Mrs. Rachel Dowdy, second grade; and Mr. and Mrs. Whelane.

HAS SURGERY

Walt Belnap, Dimmitt, brother-in-law of Lloyd Kiltough, underwent lung surgery in a Dallas hospital recently.

Hwy. Gets Lights

Seven mercury vapor street lights were installed along Highway 60 in Bovina last week by a crew of Southwestern Public Service Company workmen.

Work on erecting the lights began Tuesday and the lights were used for the first time Friday night.

Four street lights were installed on the north side of the highway and three on the south.

As is the case with other street lights in the city, they were put in at the expense of SWPS. The city will pay the electricity bill.

According to a press release from the company, the improvement was timed to the progress made by the paving contractor, who was widening the highway.

"The lights are 21,000 lumen mercury vapor lights such as you will see in the larger cities of the nation," the release said.

Other lights are scheduled to be installed on Eighth Street in the south part of town sometime in the not-too-distant future.

Last county organized in Texas was Loving in 1931.

License Fee Up

Parmer County motor vehicle owners are due for a 10 percent hike in registration fees, it was pointed out this week by Lee Thompson, tax assessor collector. The hike on licensing all cars, pickups, and trucks, goes into effect all over Texas on August 22.

The raise was passed by the recent legislature and it is

house bill 620.

Most car owners won't be affected by the boost until 1958 registration time, but it will go into effect the 22nd on new car purchases and re-registrations, Thompson says.

Not raised in the bill were dealer's licenses, road tax, factory delivery licenses, and in-transit licenses.

Rev. Spencer Blake Is Named Pastor of Pentecostal Church

Rev. Spencer Blake, Lubbock, has been named pastor of Bovina Pentecostal Holiness Church. Rev. Blake, his wife and two sons, will move to Bovina within the next two weeks.

He is replacing Rev. A. T. Kersey of Oklahoma Lane. Rev. Kersey has been supply pastor for the local church for about a year and was named full-time pastor in January.

The appointment was made during the annual summer camp meeting held near Amarillo. Held for six days, the meeting closed Sunday evening.

Among those who attended from Bovina were Rev. and Mrs. Kersey, Mrs. Beula Purnoy, Mrs. Minnie McCutchan, Mr. and Mrs. A. R. McCutchan, Mrs. Jess Vestal, Mrs. Bud Queen, Mrs. Ola Free, Mrs. Lillian Wheeler and Mr. and Mrs. Wayne Webb.

was pointed out due to the clerk's office being overcrowded and the possibility of fire sometime destroying all of the county records.

The court voted to ask for bids on such a project. Planned is a 12' x 24' vault and if built it will be located on the southeast corner of the building.

Other business for the day included the paying of bills and warrantys

To Be in Playoffs—

Bulls Divide With Umberger, 6-7, 3-2

The Bovina Bulls split a doubleheader with Umberger here Sunday afternoon to remain near the top in Central Plains League standings. Umberger won the first game, a seven inning affair, 7-6. Bovina, behind the steady hurling of Ramey Brandon and a ninth inning clutch single by Billy Richards, took the second game, 3-2. It was also scheduled to be seven innings. A tied score forced it into two extra frames.

In the first game, Robert Read had just one bad inning and was the losing pitcher. The winners did the damage in the second as they slammed five hits, were granted one error, and scored six runs before the Bulls could get the gate to home plate closed.

Bovina, however, drew first blood as Jimmie Clements greeted "Iron Man" Ken Brock with a first pitch double in the Bulls' half of the first. Eddie Smith singled Clements home for the first run of the game.

Bovina made the score 6-3 in the fourth as they added two runs on two errors, two hits, and a sacrifice fly. Umberger shoved across an unearned run in the fifth to end their scoring for the game at 7.

Singles by Eddie Smith and Art Mast and a pair of errors gave Bovina two more runs in their half of the fifth as the Bulls attempted to catch up.

In the bottom of the last inning with one out, Benny Shelby singled. Mast doubled to put runners on second and third. Robert McCormick singled to plate Shelby and send Mast to third. McCormick went to sec-

ond as Glenn Hromas grounded out to the pitcher. With two outs and runners on second and third, Charles Don Smith pinch hit for his brother, Neil, and was out on a ground ball to second base to end the inning and the game.

Read, whose record is now 9-3, allowed seven hits, struck out eight, walked one and hit one batter.

Brock, who also pitched the second game for the visitors, allowed 10 hits, struck out five, and walked one.

Brandon gave up only five hits while posting his second win against no defeats in the second game. He struck out nine and walked one.

Both teams picked up one run in the first inning. Umberger broke the deadlock in the third as they scored one run on a walk and two singles. Bovina tied it again on a double, two singles and a sacrifice in the fifth.

From the fifth inning on, Brandon pitched perfect ball—no runner reached first base. Richards put the game on ice in the bottom of the seventh as he lined a single to center to score Charles Don Smith from second. Smith was safe at second after Brock had made a throwing error on a ball hit by Smith back to the mound.

The split left Bovina with a 11-4 record and ended regular season play. No announcement has been made as to when playoffs will begin. It is probable they will begin August 25. The four teams that will be

in the playoffs are Bovina, Umberger, Tulia, and Nazareth.

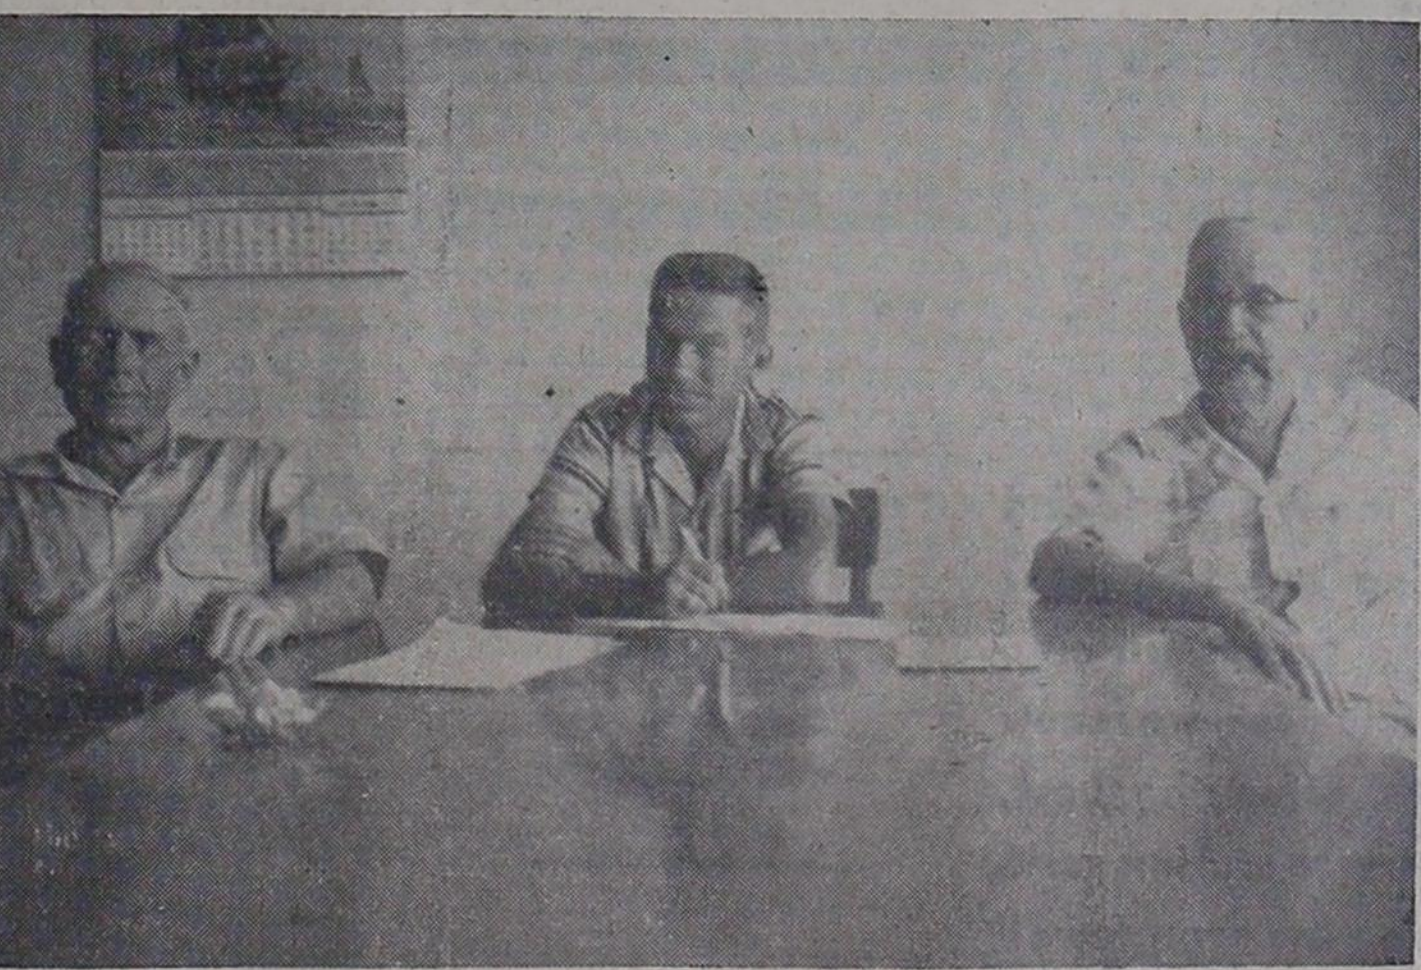

The Bulls will begin practice for the playoffs Thursday at 6 p. m.

During the 15 game schedule, Bovina batters hit at a .333 clip with 166 hits in 498 trips to the plate.

Individually the averages are Clements, 14 for 42, .333; McCormick, 23 for 64, .358; C. D. Smith, 10 for 39, .256; Mast, 18 for 45, .400; Shelby, 22 for 52, .423; Hromas, 11 for 38, .289; Moten, 12 for 41, .295; Read, 15 for 46, .326; Richards, 14 for 50, .280; N. Smith, 4 for 22, .182; E. Smith, 22 for 44, .500; and Brandon, 1 for 15, .066.

CITY EQUALIZATION BOARD—These men heard complaints from, and discussed taxes with, city taxpayers who were dissatisfied with their 1957 taxes in an all-day session in the city hall. From left to right, they are Bill Venable, H. J. Charles, and Will Parker. Parker substituted for Tom Rhodes who asked to be excused.

DOLPH MOTEN, EDITOR & PUBLISHER

Second-Class Privileges Authorized at Bovina, Texas
Published at Bovina, Texas, Every Wednesday

There's Nothing Personal About It

A raise in tax valuations for property in Bovina School District to go into effect this year has brought about a tremendous amount of interest and complaints from dissatisfied citizens.

The incident has caused the school equalization board to have three all-day sessions instead of the two which were originally planned. And we understand there are still many taxpayers waiting for an opportunity to talk with the board.

Possibly the reaction in this case is typical of what happens when taxes are increased. It's not good. As a matter of fact, some dissatisfied citizens even seem to be angry with the equalization board and/or the school board.

We blame dissatisfied citizens not for airing their complaints and gripes and trying to have corrections, if necessary, made. However, we want to point out that equalization board and school board members don't have a personal interest in the matter, except that they want to do what's right, and it's a shame for citizens to become angry with them as individuals.

We have no doubt that time will ease hard feelings that have developed over the matter. But those feelings shouldn't have even been allowed to form.

If you think your taxes are too high, it won't help a bit to get mad about it. And it especially won't help to get mad at some individual.

Miss Sandra Patton To Wed R. Jones

Mr. and Mrs. Owen Patton of Oklahoma Lane are announcing the engagement and approach-

ing marriage of their daughter, Sandra, to Reggie Jones, son of Mr. and Mrs. O. H. Jones of Bovina.

The wedding is to be Sunday, August 25, at 4 o'clock in the afternoon at the Bovina Methodist Church.

All friends and relatives of the couple are cordially invited to attend the wedding and reception.

Jn. 12:32

IMPORTANCE OF THE CHURCH

The church of our Lord Jesus Christ is by far the most important institution existing in the world today. Her glory, her splendor, her eternal foundation cannot be compared with any earthly kingdom or government, for she is far more resplendent. When all earthly powers fade and exist no more, the church will stand, for it is through her that God will receive glory "throughout all ages, world without end" (Eph. 3:21).

In Dan. 2:44 the prophet of God, speaking about the kingdom of our Savior, penned these words: "And in the days of these kings (The Roman Caesars) shall the God of heaven set up a kingdom, which shall NEVER be destroyed; and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand FOREVER." About 650 years after the prophet promised this mighty kingdom, Paul the Aged, wrote these words: "But ye are come unto mount Zion, and unto the city of the living God, the heavenly Jerusalem, and to an innumerable company of angels, to the general assembly AND CHURCH of the first born . . . Wherefore, we RECEIVING A KINGDOM, which cannot be moved, let us have grace, whereby we may serve God acceptably with reverence and godly fear." (Heb. 12:22-28). Daniel promised the indestructible, immovable, unshakable kingdom of God. Paul said WE HAVE RECEIVED the immovable kingdom; furthermore, he said that that kingdom is the church of the Firstborn.

You who despise the church of God; you who ridicule, belittle, and bemean the church

by claiming that it was an accident, an afterthought on the part of God; you who are still looking for the kingdom of Christ; are, according to Paul, clinging to a false hope. Paul said that we HAVE RECEIVED the kingdom. Furthermore, he said that the church WAS NOT an accident, but that it is "the eternal purpose" of God. (Eph. 3:10-11). If you cannot see the importance of the church in that it is God's eternal purpose, then you must not want to see. Will you always close your eyes and turn your hearts from the truth?

And you, you who claim that the church is not essential to the salvation of mankind, do you not know that you are robbing the church of her glory? If the church is not essential to our salvation then Paul was misinformed when he wrote the fifth chapter of Ephesians. In verse 23 of that chapter Paul informs us that Christ is "the savior of THE BODY." It is the church that Christ saves. It is the church that He sanctifies, and cleanses, that He might present it to Himself a glorious church.

When men learn to respect, love and cherish the church as they ought, then we will find the kind of Christian men and women that God would have us to be. If you don't love the church more than anything else in this world, then you don't love it enough.

"Unto him be glory in the church by Christ Jesus throughout all ages, world without end. Amen."

J. C. Hartsell, Minister
Bovina Church of Christ

H. D. Club Has Annual Picnic Friday Evening

Members of the Bovina Good Neighbor Home Demonstration Club, and their families, met Friday evening in the American Legion Hall for their annual picnic and social.

Each family brought several covered dishes which were spread together. The menu included fried chicken, roast, dressing, cake, ice cream, salads and hot rolls. Following the meal, games of "42" were played.

Also following the meal, the members of the club adjourned to a private room for a business meeting. Mrs. J. D. Stevens, president, presided. Plans were made for projects for the next regular meeting. It was decided that handicrafts would be taken up when they meet Friday afternoon in the home of Mrs. David Spring. Mrs. Bill Burnam and Mrs. Don Benard will be in charge of the demonstration.

Those present were Mr. and Mrs. J. E. Sikes and Johnny, Mr. and Mrs. Howard Looney and children, Mr. and Mrs. Don Benard and children, Mr. and Mrs. David Spring and children, Mr. and Mrs. Charles Corn and family, Mr. and Mrs. Bill Burnam and Mr. and Mrs. J. D. Stevens and family.

Others were Mr. and Mrs. Jack Morris and children, Mr. and Mrs. Wilborn McLean and children, Mr. and Mrs. T. J. Hopingardner, Mrs. Mabel Newberry, Lee Hopingardner, Mrs. Charles Don Smith and children.

Special guests for the evening were Mrs. Stella Purcell and granddaughter, Patricia Purcell, and Mrs. Madeline Sant and children. Mrs. Sant is a summer guest of her sister, Mrs. Benard.

On Leave

Pvt. Huey Lowrie, son of Mr. and Mrs. Elmer Lowrie, is home on leave from the army. Pvt. Lowrie arrived home about 10 days ago and will report to San Antonio later this week. There, he will take further training in the Medical Corps.

WMU Has Study on Switzerland Tuesday

Members of Women's Missionary Union of the First Baptist Church met Tuesday afternoon for a Royal Service Program. The meeting was held in the annex of the Church.

Mrs. Don Murphy was program chairman and she spoke on "Giving The Water of Life in Europe." In her talk, Mrs. Murphy told of the work being done by the Baptist Seminary in Zurich, Switzerland.

The meeting was opened with a group hymn and the Mrs. Murphy also gave the devotional. Assisting on the program were Mrs. Johnnie Horn, Mrs. Bobby Englant, Mrs. P. A. Adams, Mrs. Vernon Ward and Mrs. Allen Cumpston.

Mrs. Adams was hostess and served homemade ice cream, fresh strawberries and cookies. Others present were Mrs. Ovid Lawlis, Mrs. R. N. Williford, Mrs. J. O. Combs and Mrs. Arnold Hromas.

Nuptial Plans Are Revealed

Rev. and Mrs. W. R. Beard of Bovina are announcing the engagement and approaching marriage of their daughter, Catherine, to Roger William Dewey, son of Mr. and Mrs. Allan M. Dewey of Chicago, Ill.

Miss Beard is a 1954 graduate of Texas Technological College and has been teaching in Midland since her graduation. While in college she was a member of Pi Beta Phi and Mortar Board.

Mr. Dewey attended Denison University in Granville, Ohio, and is now with Continental Assurance Company, Chicago.

The wedding will be August 31 in Ralls.

BOVINA VARIETY

Band Camp Ends Friday Night

The annual Summer Band Camp on the campus of West Texas State College at Canyon will close Friday evening with a grand concert by the three band divisions, selections by the chorus, and demonstrations by the twirling classes.

Three girls from Bovina are attending the camp. They are Verna Marie Estes, who has been assigned to the first chair of the oboe section of the symphonic band; Charlotte Hromas, bassoon player of the junior high school division and Marilyn Brandon, playing clarinet in the same band.

All three girls have taken part in band instruction, chorus and twirling classes during the two week camp.

With Mrs. Gaines

Visiting in the home of Mrs. J. Sam Gaines is her granddaughter, Roberta Bryant of Colorado Springs, Colo. She arrived Sunday to stay about two weeks with Mrs. Gaines and Mr. and Mrs. Troy Armstrong. Roberta is the daughter of Rev. and Mrs. W. C. Bryant.

In Hromas Home

Visiting in the home of Mr. and Mrs. E. A. Hromas are their daughter and family, Mrs. W. E. Lovell and children, Billy and Judy, of Fort Worth. The guests arrived Saturday and plan to spend about two weeks here.

Sub-District MYF Meet Sunday

Members of Methodist Youth Fellowship were hosts Sunday afternoon to a sub-district MYF meeting. It was held in the fellowship hall of the church with the local young people in charge of the program and refreshments.

Gene Richburg of Earth, president of the sub-district, presided at a brief business before the program.

"Communism — And What Christians Can Do About It" was the subject of a panel discussion. Warren Morton was

narrator and was assisted by Mrs. Vernon Estes. MYF members on the panel were Kay Hartzog, Nita Beth Estes, Danny Morton and Phil Caldwell. Carole Hammonds and Harriette Lou Charles served refreshments of punch and cookies and Barbara Rea presided at the registration book.

Approximately 45 young people and adults were present from six churches. Churches represented were Progress, Earth, Muleshoe, Y L, Olton and Bovina.

With Mother

Visiting over the weekend with Mrs. Tom Hastings were her daughter and family, Mr. and Mrs. J. T. Swim, Sammy and Rogene, of Roaring Springs. Also visiting Sunday were another daughter and family, Mr. and Mrs. Charles Hawkins and daughters, and a son and family, Mr. and Mrs. Dean Hastings and daughters, all of Bovina.

Farewell Party For Donna Sudderth

Donna Sudderth was honored Friday evening with a farewell party in the home of Mr. and Mrs. Arlin Hartzog. Their daughter, Kay, and Carole Jean Hastings, daughter of Mr. and Mrs. Dean Hastings, were hostesses for the evening of swimming, movies, visiting and games.

Other girls present were Virginia Rea, Vivaleigh Steelman, Nellie Bea Crook and Bonnie Cochran.

Glasscocks Return

Mr. and Mrs. Alvin Glasscock and sons, Mac and Ronnie, returned home Saturday night from a three-day trip into Colorado. The local family, accompanied by his sister and fam-

ily, Mr. and Mrs. Charles Terry and Cheryl of Baytown, visited Colorado Springs, the Seven Falls, Garden of the Gods, Royal Gorge and Pikes Peak.

Birthday Party In Wyly Home

The home of Mr. and Mrs. Alton Wyly was the site of a party Saturday evening. The supper was in honor of his birthday. Following the meal, the friends and former classmates of the couple spent the evening visiting and showing moving pictures.

Present were Mr. and Mrs. Eldon Surly of Fort Worth, Mr. and Mrs. Dell Brown of Lubbock, Mr. and Mrs. Gene Welch and children of Black, Mr. and Mrs. Merritt Brooks and son of Rhea, and Mr. and Mrs. Orville Surly and family of Plainview. The Fort Worth guests spent Saturday night and Sunday with the local couple.

Mrs. Pesch Speaks At Dorcas Meeting

Mrs. L. H. Pesch was in charge of the program Wednesday when the Dorcas Circle of the Methodist Church met for a regular monthly session. The meeting was held in the home of Mrs. L. C. Moore.

"Youth In A Responsible Society" was the theme of the day's program and Mrs. Pesch reviewed a chapter of that book. Mrs. L. M. Grissom gave a devotional titled "Youth."

Prior to the program, a covered dish dinner was served and a brief business meeting was held.

Those present were Mrs. Grissom, Miss Lola Grissom, Mrs. T. J. Hopingardner, Mrs. G. A. Bandy, Mrs. Pesch, Mrs. Frank Wilson, Mrs. Mabel Newberry, Mrs. Lloyd C. Battey, Mrs. Elmer Lowrie and the hostess.

The Dorcas Circle will meet again Wednesday, September 4, in the home of Mrs. Lowrie. Mrs. I. W. Quickel will complete the study now in progress and Mrs. Bandy will give the devotional.

FIRST BAPTIST CHURCH
Virgil Goodwin, Pastor

Sunday School, 9:45 a. m.; morning worship, 10:50 a. m.; training union, 7 p. m. and evening worship, 8 p. m.

The annual summer revival of the First Baptist Church will begin Monday evening, August 19, and continue through August 25. Walter Mitchell, pastor of the First Baptist Church of Clovis, will hold the services. Maurice Carson, music director of the North Side Baptist Church of Lawton, Okla., will lead the music.

Services will be held twice daily at 10:00 a. m. and 8:15 p. m. Everyone is urged to attend.

J. W. Gooch was elected Sunday School superintendent for the coming year at a regular business meeting recently. Roy Fuller was named Training Union director.

There were 194 in Sunday School and 65 in training union Sunday.

Reception Sunday For John Stagners

Mr. and Mrs. John Stagner of Clovis are to be honored on their 50th wedding anniversary this Sunday at their home at 1106 Main Street from 2 to 5 o'clock in the afternoon (MST).

All friends of this area are cordially invited to attend the open house for the Clovis couple who are well-known in Parmer County, having resided here until 1940.

Hosts and hostesses for the Golden Wedding anniversary celebration are Mrs. H. L. Tidener, J. L. Stagner, Jack M. Stagner and Mrs. Carroll McCleskey.

Killoughs Return

Mr. and Mrs. Lloyd Killough and sons returned home Saturday evening from a week's vacation in the southern part of the state. They first went to Abilene and visited in the home of her brother and family, Mr. and Mrs. John M. Purvis, Jr., and then went to Marlin, where they were guests of his sister and husband, Mr. and Mrs. Ralph Toler.

The local family also visited with Mr. and Mrs. W. H. Downing and family in Waco.

With Grandmother

Visiting several days in the home of Mrs. Margaret Caldwell were her grandchildren, Larry and Jerry Caldwell of Garland and Carolee Caldwell of Amarillo. The youngsters returned to their homes Tuesday.

Housewarming Held Recently

Mr. and Mrs. E. O. Norton, former residents of Bovina and now living in Aztec, N. M., were honored recently with a housewarming in that city.

Following a tour of the Norton's new home, she showed the guests the interior of her new beauty salon which opened Saturday.

About 30 guests were present. Mr. and Mrs. Norton moved from Bovina last fall.

Ellison Nominated For 1st Lieutenant

BAD KREUZNACH, GERMANY—Army Reservist James R. Ellison, son of Mr. and Mrs. Aubra J. Ellison, formerly of Bovina, recently was nominated for appointment as a first lieutenant in the Regular Army.

His nomination by President Eisenhower as a Regular Army officer must be approved by the Senate to effect his change in status.

Ellison, executive officer in Company C of the 67th Tank Battalion, entered the Army in December 1955 and was last stationed at Fort Knox, Ky. He was graduated from New Mexico A & M College in 1955.

«The High Plains Farm and Home» Potato Growers Near Harvest End

The peak of the potato harvest in the Parmer County area is past, although there is still considerable activity at the processing sheds in Friona and Lariat.

Market conditions moved up slightly the first of the week, and increased the intensity of harvesting operations, as growers, some of them operating near the "break-even" point, were glad to get any increase in price, no matter how slight.

The price rise, rather unexpected, pushed the price of spuds shipped from the two Parmer County points to \$2.25 to \$2.35. It was not anticipated because of the lateness of the season and the fact that nearly

all states that have potato production (except Maine) were digging.

Ordinarily, this heavy production from all over the country depresses prices. However, this week the demand continued strong and the price moved up a notch or two.

John O'Haugherly, salesman at Friona Growers and Shippers, says Chicago is receiving potatoes "from all over the country."

In the Friona area, about two-thirds of the 300-acre crop has been dug, and harvesting is expected to be completed within a week or 10 days. Showers have slowed operations some, though not seriously.

Buck Gregory at Lariat says his shed will be through by this weekend. On Wednesday, only 25 acres were left to be harvested, those being Netted Gem russets. Russets are commanding a premium price of \$3 this week, and the late-

season spuds are selling well. Tonnage is down, however, and they are yielding only slightly more than 100 sacks of No. 1's per acre, says Gregory.

Gregory feels that growers have been fortunate to have the market improve this late in the season. Most of the area-grown potatoes are headed for southern markets, he says.

This has been a "mediocre" year for potatoes, following one of the best seasons in history last year. Prices this year are ranging from one-third to one-half of what they were at the peak of 1956.

However, most potato growers aren't too surprised to see things slow down this year. It is most unusual for Plains potato deals to be "hot" two years in a row. The average grower is glad to get his money back and get ready for another season, though some have managed to pocket some profits, too.

Special beds are used on trucks to bring potatoes in from the fields. Here a special conveyor carries the spuds out and dumps them into a waiting washing trough at the Gregory potato shed at Lariat.

The first step in potato processing at Friona Growers & Shippers is to unload the spuds as they arrive from the field and dump them into these bins where they await their turn at the washing, grading, and packing operations.

were sold and the project was carried on much the same as our fund raising drives are done here. The difference was that there was no program, no time, no place, no speaker, or no refreshments.

All that was necessary for a person to do was to buy a ticket entitling the holder to an evening at home. At the rate most of us go any more, that idea might work out real good in our home town. There are a lot of times when we had rather buy the ticket and forget the rest of the things it calls for.

So much has been written and said about parents staying home with their children that we have been hoping someone would come up with an idea that would keep the children at home with the parents. Maybe this is it. What do you think?

SOIL CONSERVATION DISTRICT NEWS

For anything worth having, one must pay the price; and the price is always work, patience, love, self-sacrifice—no paper currency, no promises to pay, but the gold of real service. — John Burroughs.

This past week a number of the cooperators with the Parmer County Soil Conservation District picked up their potted Arizona Cypress trees. It seems like we were a long time in getting them but most cooperators said that they would be easier to take care of now than earlier in the year.

The first year the trees should not be placed in the field or around the farmstead in a permanent place, but rather place them in a sheltered spot from wind and direct sun until the second year. They won't grow much the first year, but special attention should be given

to watering them regularly. When setting trees in your windbreak rows, keep in mind the trees will get 40 feet tall and 20 feet in diameter in years to come. Don't crowd the trees or don't crowd buildings with the trees. Trees should be set 10 feet to 15 feet apart and at least 40 feet from buildings for the best home, lawn and out-building protection.

It is very easy to set small trees too close to buildings. Keep in mind any future buildings or plans for a new home when setting out windbreak trees. Don't grow trees 10 years and then find you have to destroy them to build your new home. Make these plans now and give plenty of room. If you plan to have two or more rows of trees, be sure to leave 20 feet or more between

rows and around the corners to allow cultivation with farm equipment the first few years. Trees are worth the effort, so make an effort to keep them.

TEC Sees Shortage Of Cotton Pullers

Parmer County will be short 5,297 cotton pullers during the peak period of the 1957 cotton harvest, estimates the Texas Employment Commission.

The figure was presented at a Parmer County farm labor committee meeting, in which Committeeman Sloan Osborn reviewed the total seasonal employment needs developed by the TEC with Edward D. Vaughn and Eldrid G. Travis of the TEC.

The committee will function under public law 78, obtaining facts about the supply of domestic farm workers and the shortage of workers, if any, which must be met by importing Mexican nationals. The TEC will supply the data to the secretary of labor, who will limit the number of Mexican Nationals to be used in this county by granting a ceiling.

Local office managers assist with estimating the number of workers who will be needed, basing the figure on current local conditions affecting the cotton crop.

Ceilings adopted by the secretary of labor limiting the importation of Mexican nationals into this area will be displayed in post offices in Farwell, Bovina, and Friona; the county agent's office, and the county courthouse.

The TEC estimates that 1,250 Mexican nationals will have to be imported into Parmer County to harvest this year's cotton crop.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

From early spring to late fall in our section of the country an outdoor meal is enjoyed by every member of the family. There are so many quick and easy things that can be prepared for such a meal that not even the cook in the family balks when someone says, "Let's eat outside!"

Many homes have outdoor cooking facilities and use them often. If you are one of those fortunate enough to have an outdoor picnic area that is equipped with electricity, your waffle iron should not be overlooked when you are planning an outdoor meal.

There is no end to the variety of things that can be cooked on it. Golden brown cornbread, crisp brownies, and dozens of different kinds of waffles and breads can be baked quickly and easily by using your waffle iron.

The new brown 'n serve sausage makes a nice addition to any meal and especially to one that is cooked outdoors. The sausages may be placed inside a hot dog bun, wrapped in foil and baked in coals. Tasty

burgers of any kind are very tasty if they are filled ahead of time, wrapped in foil, then heated in hot coals.

Homemakers who feel that an outdoor meal takes too much time and effort should spend some time working on menus which are simple and easy to prepare. An evening spent outdoors with your family and friends will long be remembered and are not too much trouble if the outing is carefully planned ahead of time.

Had you ever thought of preparing red beans and rice in the same dish? We ran across a recipe that sounds interesting. Haven't tried it yet so don't know how it will go over with the family, but it would be different at least.

RED BEANS AND RICE
1½ cups rice
3 cups cold water
1 teaspoon salt

6 tablespoons butter
½ teaspoon pepper
1 1-pound can red kidney beans

Place rice, water, salt and butter in a large saucepan. Cover and bring liquid to a boil rapidly. Reduce flame and simmer about 15 minutes or until rice is cooked through. Heat beans in their liquid, drain and toss with rice. Season to taste. Makes 4-6 servings.

If you mothers who are having your little daughters go to school for the first time are planning school clothes, a good rule to remember is KEEP THEM SIMPLE. Of course, all of us want our little girls to be well dressed and sashes, bows, and frills are all very pretty—but not practical for school dresses.

A money raising project one club on an island sponsored recently sounds like fun. Tickets

NEWS

"The Place Where Most People Trade" Friona, Texas August 14, 1957

We are home after spending almost a month at Tres Ritos, New Mexico. The boys split wood, waded in icy streams, built fires, chopped down trees, climbed mountains, chased chipmunks, fished at the beaver dam, caught live worms and snails, picked wild strawberries, climbed trees and ate and ate. Their feet were dry only two or three times while we were gone except when they were asleep.

PCICN

Any time is a good time to kill noxious weeds on your farm. We have plenty of sodium chlorate, the sure killer for bindweed and Johnson grass.

PCICN

Our sister, Gay, her husband, Ben Jordan, and Doris Jane came to see us at Tres Ritos. Ben, who listened quietly to their back seat driving finally said, "Can't you make up your minds which one is driving?"

PCICN

International S-line heavy duty trucks are ALL TRUCK, to save you big money. In the automotive field, International manufactures only trucks, and consequently every unit and every part of every International truck is engineered specifically for truck use.

PCICN

We were so glad to get home, we had planned a long visit with the neighbors in our block. We got home Saturday night and they left Sunday morning. Wonder if they planned it that way? The Frank Springs are in Colorado for some fishing and the J. T. Gees are in Houston to attend a meeting of high school agriculture teachers. Think Linda and Tom Gee are visiting their grandmother in Carbon.

PCICN

In the most complete line of trucks ever offered by any manufacturer, INTERNATIONAL offers a size and type exactly suited to your needs that will cost you least and earn you most in the long run because it is all truck—to save you the big money.

PCICN

Where even mules have the earache. You guess why.

Where the marriage ceremony says "Love, honor, and talk about Texas."

Where the people blow harder than the wind does.

Where every cow has five teats: four for milk and one for oil.

Where badgers all dig their holes backwards so they can get out of the way quicker when they hit a gusher.

Where cattle eat cactus and think it's grass, and state pride thrives on "natural gas."

Where whether religious or steeped in sin, everyone's proud of the state he is in.

Have you seen the beautiful new Oldsmobiles on our show floor? We will be glad to have you take a demonstration ride in one of them. The new Golden Rocket '58' packs all the pleasure and satisfaction of owning a big car—big in size, big in performance, big in value. Parmer County Implement allows long trades on the Golden Rocket.

PCICN

Chatter at our house: How far is it?—What time is it in China?—How many miles across the mountain?—Do I hafta brush my back teeth, too?—How many miles to the middle of the earth?—How does a man (on TV) fall off a big cliff and not get hurt?

PCICN

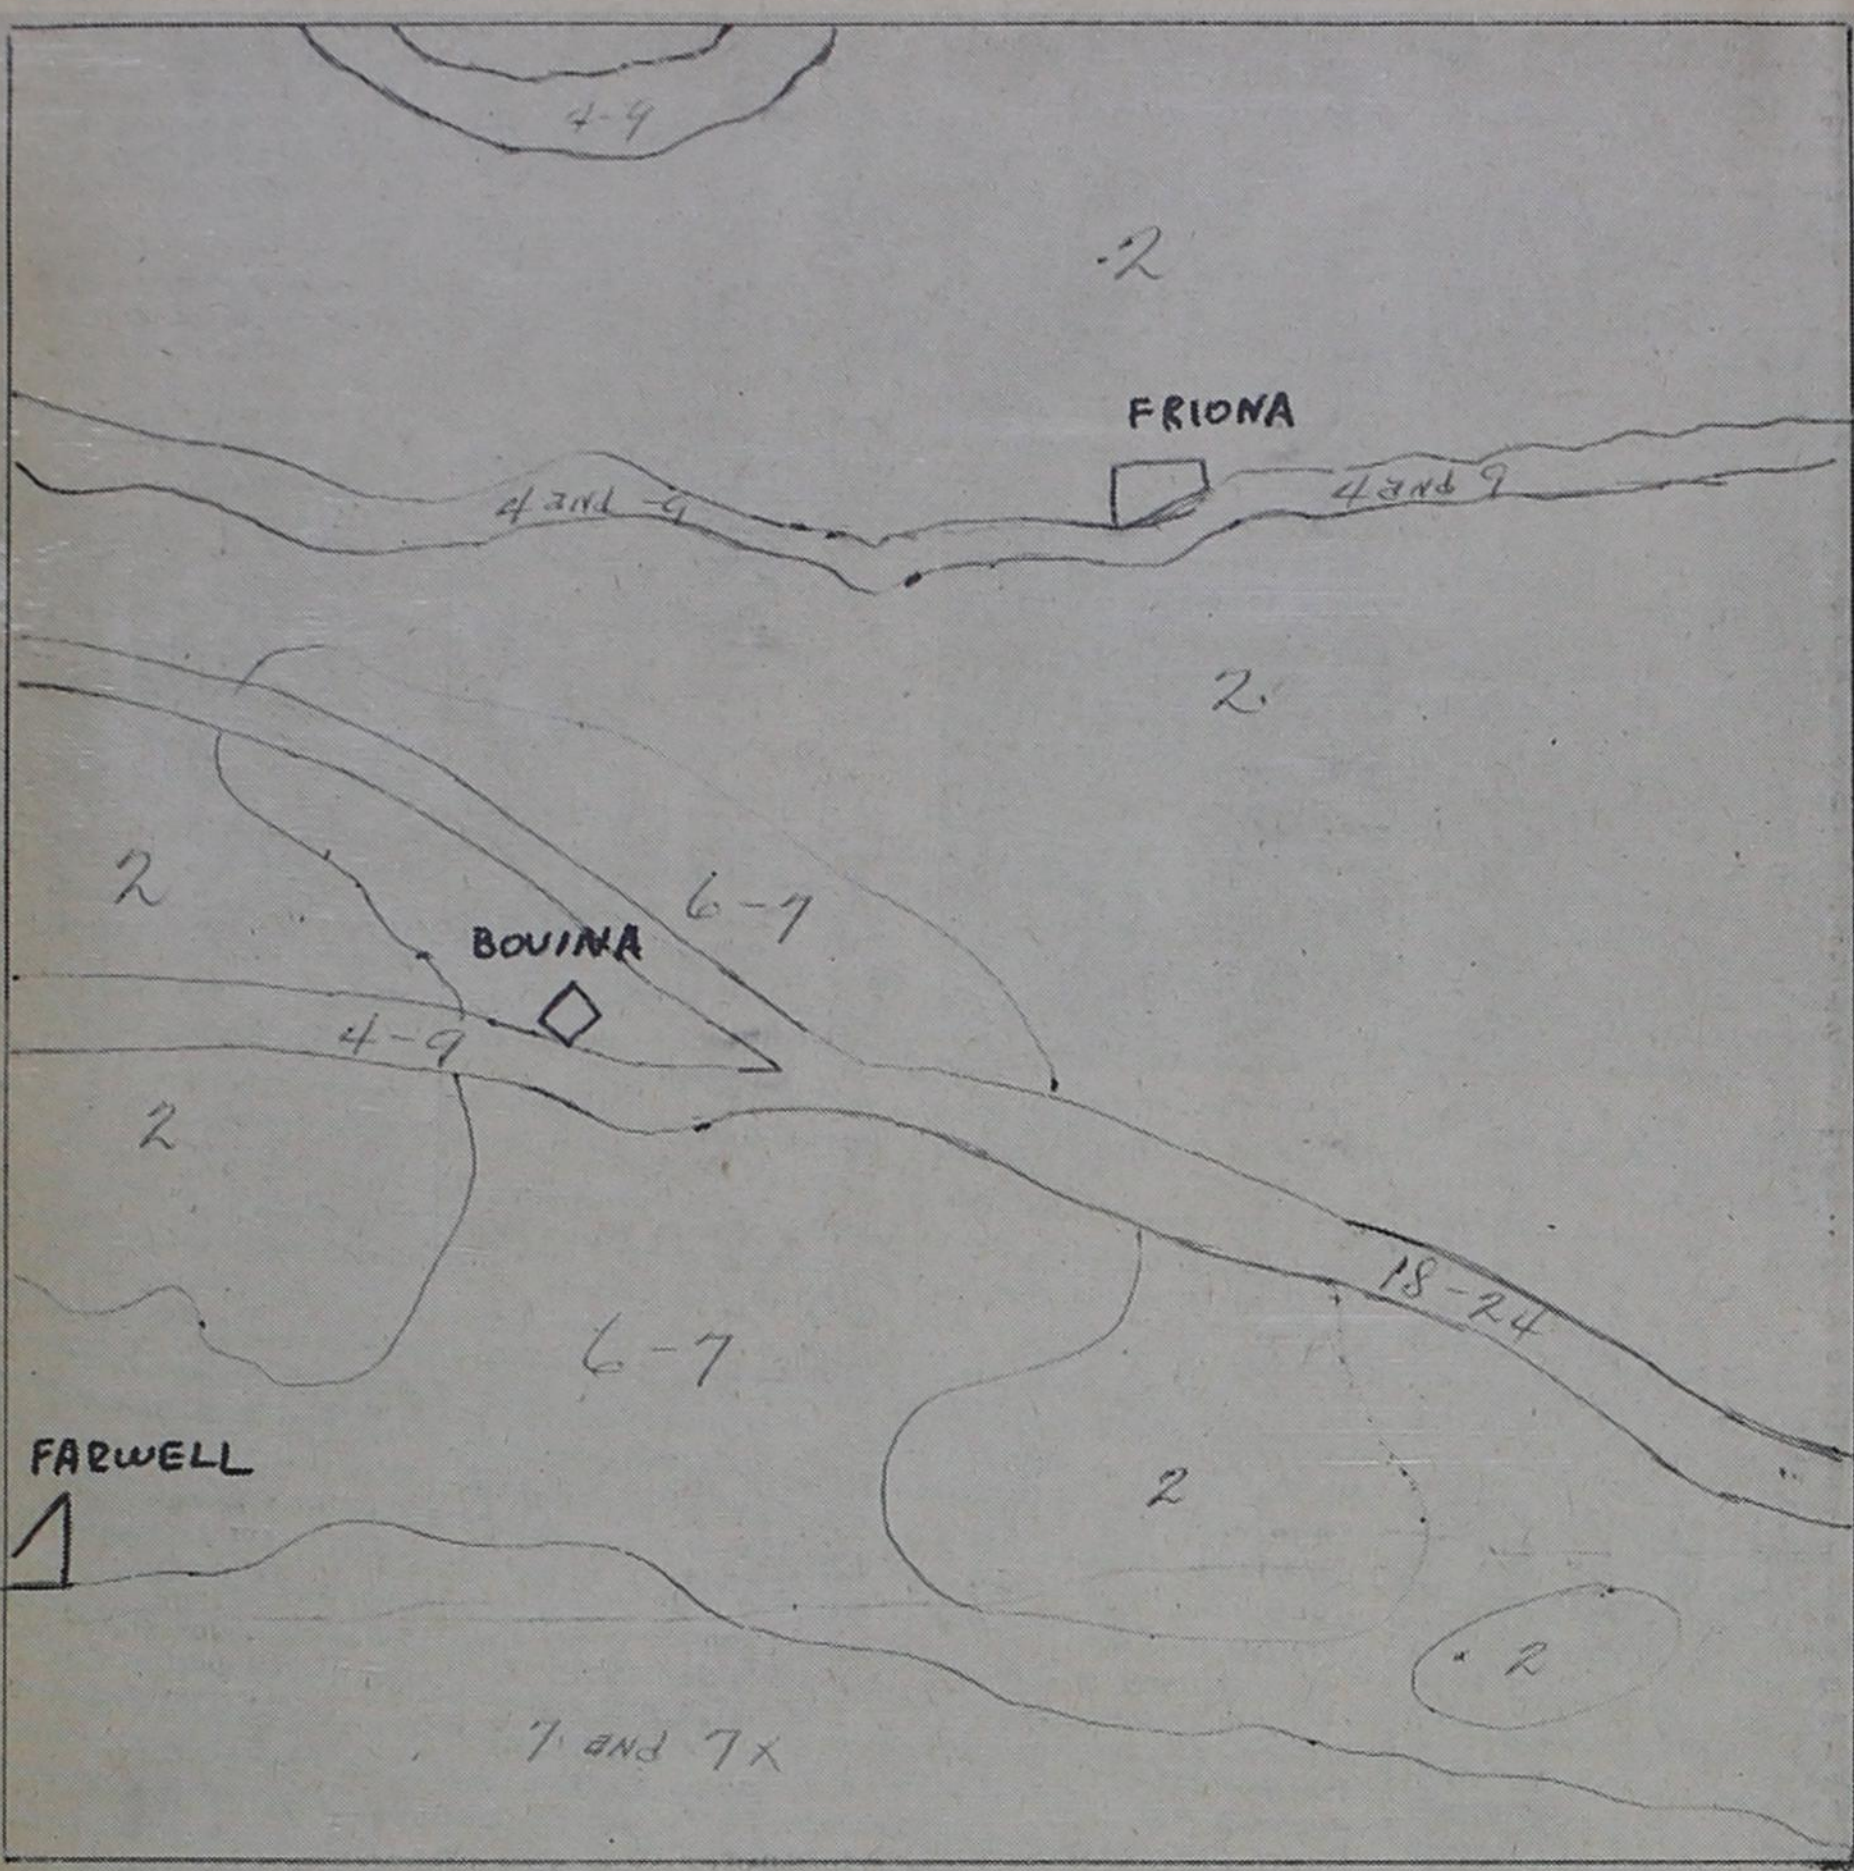

If you are out of town call 2091 for any parts you need and we will send them out by the next mail.

PCICN

One reason we enjoyed the mountains so much was the fact that it rained every day except two. The trees are greener and grass is better than it has been for years. Wild flowers are beautiful and the woods are full of mushrooms, some as big as a small wash tub. Cattle are fat and there are lots of deer and we enjoyed a fire in the fire place every day.

PCICN

McCormick Disc plows are built to handle tough plowing, good penetration, light draft and easy handling. Why not call for a demonstration on your farm?

Soils of Parmer County Vary, SCD Map Shows

Parmer County's soil resources are rich and varied. It has been said of Parmer County that, "Here is an area where a man can find the kind of land he's looking for."

That is an accurate statement, because many kinds of soils are within the bounds of the county.

The above picture gives a general idea of the soil units. It is supplied by the Parmer County Soil Conservation District. No. 2, the largest soil type in the county, is described as deep, fine-textured, slowly permeable soil. It generally is referred to as the "tight" or "hard" or "heavy" land in the county.

The 7X soils in the southern part of the county are deep, medium textured, moderately rapidly permeable soils. They are locally referred to as "deep sand" soils and do not ordinarily have a clay sub-soil structure.

Another major soil group in the county is the No. 7 soil, which is a deep, medium textured, moderately permeable soil. It is usually called "mixed" land, and is a transition type between tight and sandy land.

Others shown on the map:

- No. 4—Deep, fine textured, slowly permeable bottomland soils.
- No. 6—Deep, medium textured slowly permeable soils.
- No. 9—Deep, medium textured, moderately permeable bottomland soils.
- No. 18—Shallow, fine textured, moderately permeable soils.

No. 24—Very shallow, fine textured soils.

As will be noticed, most of the minor classifications of soil types are in or near Friona and Running Water. Draws that pass through the county, they obviously do not constitute major agricultural areas.

It should be remembered that the map is generalized, and does not show farm-by-farm transitions. For example, it is not too unusual to find a 160-acre farm with both sandy and tight soil on it.

In addition, while the majority of the soils of the county are deep, anyone familiar with the county knows that there are some "skinned" fields where caliche base shows through whenever the land is plowed.

Although any crop grown in Parmer County can be produced in any given Parmer County location, it is the popular notion of farmers that the heavy lands are better suited for grain production, the sandier lands for cotton, and also that the heavier lands produce better under ideal irrigation conditions, and the sandier lands give bigger yields under drouthy conditions.

Amsterdam is a city of about 90 islands connected by some 300 bridges.

LETTERS To The Editor

Leland Boyd
The Parmer Farmer

I just got through reading your report what you called some relatively fresh ideas in the field of cotton marketing and producing that were presented by Mr. Edelman at the Lions Club. I kind of got wondering why some of these things seemed so fresh to the speaker, because we of the Farm Bureau have been advocating the program he talked about for the last several years, and he was cussing us and telling people they were crazy if they paid their dues in Farm Bureau.

This export program that he was telling about is the program made possible by what is called Public Law 480 which is the law that our legislative director Jack Lynn wrote and submitted to congress and the American Farm Bureau got passed several years ago. That is the one that lets the secretary of agriculture sell surplus products to foreign countries for their money, and then we can use that money to buy things they have that our country needs.

The National Cotton Council and Farm Bureau have been working together for a long time on getting cotton advertised and priced so it could keep synthetics from stealing our market and that is not new to most people.

Farm Bureau is trying now to get congress to allow cotton producers to vote on a referendum that would let them decide whether they want the present acreage controls with high parity or more acres with a little less parity. We think the lower price would sell enough more cotton so we could plant more and make more net profit at a little lower price. Congress is studying this proposal.

I am glad that lots of folks that used to be against Farm Bureau in things like this have decided maybe it was right. I know that Farm Bureau makes some mistakes, but we would like for people that have fought us to give some credit to the outfit that thought up the ideas they think might be good.

We are working on policies to be presented at the annual convention in October now, and anyone that has some good ideas about helping the farmer is welcome to tell us what they are, and maybe we can get them started to operating if a lot of other farmers think they are good too.

Yours truly,
Jack D. Patterson

Grain Sorghum, Cotton Approach Maturity Dates

Maturity dates for grain sorghum and cotton are on the horizon in the Parmer County area this week, as farmers begin to see an end to the fight with one of the hottest, driest summers on record.

Most grain sorghum heads are now developed, and a few are even beginning to turn. Cotton is still blooming profusely, and fruiting is heavy. Insects so far have remained under control in nearly all cases, and the setting of early-fruit appears to be assured.

Many cotton farmers are now making their final watering—or plans for it—mindful of the recommended "shut off" date of August 20 to 25 as the time to quit irrigating High Plains cotton.

County Agent Joe Jones this week warned cotton farmers that it will be a great temptation for them to continue to irrigate after the normal "dead-line", because of the danger of either late-season rains or

THE PARMER FARMER

By LELAND BOYD

Further looking into. I have seen cucumbers growing without the benefit of rich land available in Parmer County, and on soil that is only mediocre, a small patch of cucumbers will produce more pickles than Peter Piper can pick.

Cucumbers are generally planted on rows about eight feet apart, cultured something like watermelons, and require considerable attention only at picking time, for the vines will quit bearing if mature cucumbers are left unpicked.

I hope to give you more on the story before long.

Over the weekend, we had occasion to visit most of the South Plains area, from Littlefield to Lubbock, then south and southwest through the Brownfield and Denver City area. As a whole, we have never seen that area look as good as it does right now.

Crops, though rather late, are doing fine in nearly all cases, and they appear to have a bumper crop (for them) of grain sorghum already made. The cotton, too, appears in excellent condition, although cotton is one product that is very difficult to evaluate from a moving car, as any farmer knows.

Just a little bit of moisture, such as has come this year, makes the South Plains region truly an agricultural marvel, because their clean, open fields—characteristic of the entire Plains area—can yield a bountiful harvest.

But were it not for above-normal moisture for this time of year, the South Plains would look hard-bitten, for their irrigation water is certainly running thin.

We saw an eight-inch well just outside Lubbock on the Brownfield highway that was pumping an unbelievable amount of water. We stopped to see if perhaps the engine was not failing, but it seemed to be operating satisfactorily. The water in the bottom of the pipe was a little deeper than about an inch. We'd hate to see our farmers trying to raise a crop with a stream like that.

Surprisingly enough, most of their fields are weed-free. At least, they look clean compared to some of our earlier-planted stuff. We hate to say it, but Parmer County has more weed crops than any place we've seen this year.

It would surprise you to see how much sesame there is in the Parmer County area this year. We published early estimates that ran from 2,000 to

Heard a story the other day that certainly made for good listening, and should be worth passing on.

The subject — cucumbers, pickles, and cucumber growers cashing in on a fascinating profit per acre.

It is supposedly happening over in Hale County, in the vicinity of Hale Center. It is reportedly the first year for any farmer in that area to grow cucumbers commercially, and looks as though the pocketbooks of the ones who are growing cucumbers this year will be fattened considerably.

The Hale Center Chamber of Commerce, as the story goes, contacted a pickle making company, and obtained a contract with the company for a guaranteed price for cucumbers. The C of C got farmers interested in planting a few acres and the cucumbers were grown. About 400 acres in that area is reported.

Since information on how to grow and handle the cucumbers was scarce in Hale Center, the crop was handled more or less on a trial and error basis. I was told, about two weeks ago, first cucumber picking started, and when checks for the first crop were cashed, most of the farmers just about broke even.

Quite a few of the growers at this time nearly decided to plow the vines up, thinking further trouble with the crop would be useless. But the C of C stepped in and convinced the farmers they should leave the vines for another chance.

Upon the second picking, a high of \$50 an acre profit is reported, and this profit showed up again in the third picking.

And the source of information said the vines would continue to bear cucumbers until frost comes this fall.

I wasn't able to obtain the name of the pickle factory that offered the guaranteed price. It is hard to determine whether this is supposed to remain a trade secret or if the name just slipped the recollection of the source.

I do know, if I can obtain the name of the company, this is one story I am going to do some

Arizona Cypress Popular

A total of 525 Arizona Cypress seedlings, destined to become windbreaks on Parmer County farms, have been distributed by the Soil Conservation District this week and last week.

The seedlings are about six inches tall, and came in pots for transfer to balls or burned tin cans, then to a permanent setting next year.

All of the trees were contracted in advance of shipment and were for delivery to five persons. Receiving the future windbreaks were Leo Bails, 50; Reardon Wenner, 200; Buck Ellison, 50; Mike Ellis, 100; and Otho Whitefield, 50.

Other persons wanting to get seedlings for windbreaks may contact Steve Messenger, secretary of the district. Messenger says he may be able to get more of the seedlings, but cannot assure that the trees are available.

Texasans paid \$2,153,882,000 in federal taxes in 1954.

Application Date Nears for Winter Wheat Reserve

Applications for the 1958 winter wheat acreage reserve, a part of the soil bank program, will be received beginning Monday, August 26, announces Prentice Mills, ASC office manager.

The payment for placing wheat acreage in the program has been substantially increased in Parmer County, owing to the increased average yield as farmers have more success with irrigation.

Last year's payments on irrigated acreage were at the rate of \$11.90 an acre. This year they will be \$20.32. Last year's dryland payments were \$5.95 per acre, and in 1958 they will be \$9.31 an acre. The payment is based on a 10-year production record. Parmer County this year greatly improved its average with the best year on record, yield-wise.

In 1957, slightly over 7,000 acres were placed in the reserve, and Mills expects the amount to increase for next year, "especially dryland." Parmer County has a wheat allotment of 107,000 acres.

Payments under the plan will be limited to \$3,000 to any one producer. That limit will apply to all commodities. If a person places wheat in the acreage reserve and gets a payment of \$3,000, he is not eligible to par-

ticipate in the cotton acreage reserve.

A 10 percent premium will go to farmers who return the same land to the reserve in 1958 as they did the past year.

The deadline for making application is October 4.

Clyde Beardon, agronomist for J. R. McNeill of Spur, removes a tall "off" plant from a row of male pollinating plants. This is part of the roguing operations in producing hybrid grain sorghum. The grain sorghum is being grown for McNeill by Buddy Wiseman, north of Farwell near the state line. The plants shown here are Feterita, double-dwarf. They are being crossed with M. C. 36, male sterile, to form Texas 630. Latin American laborers do most of this type work, and a crew can cover about 50 acres a day.

SCD Plans Feed

A Parmer County Soil Conservation District banquet, an annual occasion, is piecing together as district leaders plan together. Proposed place for the banquet is Bovina, since Bovina has not been the site of the banquet for several years.

As is customary, the banquet is held in different communities each year, except that last year the festivities were held in Friona for the second year in a row.

Definite arrangements are not complete. Preliminary plans include the selection of the outstanding Parmer County Farmer for 1957, and recognition of the winner of the soil conservation essay contest, conducted earlier this year.

A field day is being planned in connection with the other activities of the day.

LEGAL NOTICE

NOTICE OF TAX ELECTION

THE STATE OF TEXAS, COUNTIES OF PARMER AND CASTRO, LAZBUDDIE INDEPENDENT SCHOOL DISTRICT

TO THE RESIDENT QUALIFIED PROPERTY TAXPAYING VOTERS OF LAZBUDDIE INDEPENDENT SCHOOL DISTRICT:

TAKE NOTICE that an election will be held on the 28th day of August, 1957, in the Lazbuddie Independent School District, at the place, in the manner, and on the proposition set forth in the attached copy of an order for tax election, duly entered by the BOARD OF TRUSTEES OF SAID SCHOOL DISTRICT on the 9th day of August, 1957, said attached order for tax election being made a part of this notice for all intents and purposes.

(SEAL)

Robert L. Jones Secretary, Board of Trustees

ORDER FOR TAX ELECTION

THE STATE OF TEXAS, COUNTIES OF PARMER AND CASTRO, LAZBUDDIE INDEPENDENT SCHOOL DISTRICT

On this the 9th day of August, 1957, the Board of Trustees of the LAZBUDDIE INDEPENDENT SCHOOL DISTRICT convened in regular session, with the following members present, to-wit:

Frank Hinkson, president; E. T. Ford, John Gammon, DeWitt Precure, Robert L. Jones, and J. T. Mayfield, members, and with the following absent: Harold Wilson, constituting a quorum and among other proceedings had by said Board of Trustees was the following:

There came on to be considered a petition signed by 31 persons asking that an election be ordered upon the proposition hereinafter set forth, and

It appearing to the satisfaction of the Board of Trustees that said petition is signed by at least twenty resident, qualified, property taxpaying voters of said School District, who own taxable property in said District, and who have duly rendered the same for taxation, and is otherwise in conformity with law, the Board is of the opinion that said petition should be granted, and said election as prayed for should be ordered:

THEREFORE, BE IT ORDERED BY THE BOARD OF TRUSTEES OF THE LAZBUDDIE INDEPENDENT SCHOOL DISTRICT:

THAT an election be held in said School District on the 28th day of August, 1957, which said date is sufficient to allow posting notice of said election for 10 days prior thereto, and which date is also within thirty days from the date of this order, at which election, in accordance with said petition, the following proposition shall be submitted to the resident qualified property taxpaying voters of said School District for their action thereupon:

PROPOSITION

SHALL THE PROVISIONS OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF THE LEGISLATURE AT ITS REGULAR SESSION, 1955, BE ADOPTED BY THE LAZBUDDIE INDEPENDENT SCHOOL DISTRICT OF PARMER AND CASTRO COUNTIES, TEXAS, SO THAT IT MAY HAVE THE AUTHORITY AND POWER TO LEVY AND CAUSE TO BE COLLECTED ANNUAL TAXES AND TO ISSUE BONDS AS THEREIN PROVIDED:

That said election shall be held at the following place in said School District, and the following named persons are hereby appointed officers for said election:

(a) At the School Auditorium Building in Lazbuddie, Texas, in said School District, with George Crain as Presiding Judge, and Roy Daniel and Wesley Barnes, Clerks.

The ballots for said election shall have written or printed thereon the following:

FOR THE ADOPTION OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF 54th LEGISLATURE AT ITS REGULAR SESSION, 1955.

AGAINST THE ADOPTION OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF 54th LEGISLATURE AT ITS REGULAR SESSION, 1955.

Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicated.

The corn really grows tall in some parts of the irrigated Plains, including on the farm of Charles Seale between Farwell and Bovina. This is Mexican June corn, which ranges over 12 feet in height. Charles, who is 6' 1" tall, is on the right, and C. M. Henderson, Farwell seed man, is on the left. The certified corn is being produced under contract for J. R. McNeill of Spur, and will go at 4 1/2 cents per pound. Seale figures the yield will fall somewhere between 75 and 100 bushels per acre. He applied 80 pounds of anhydrous ammonia, sprayed once with Toxaphene, and watered three times. Charles has 40 acres and his brother, Frank, has 30.

The word alphabet comes from "alpha" and "beta," first two letters of the Greek alphabet.

GRO-GREEN with Foliage DIETENE

THE NEW SCIENTIFIC DISCOVERY THAT WILL GIVE YOU

Increased Farm Profits This Year!

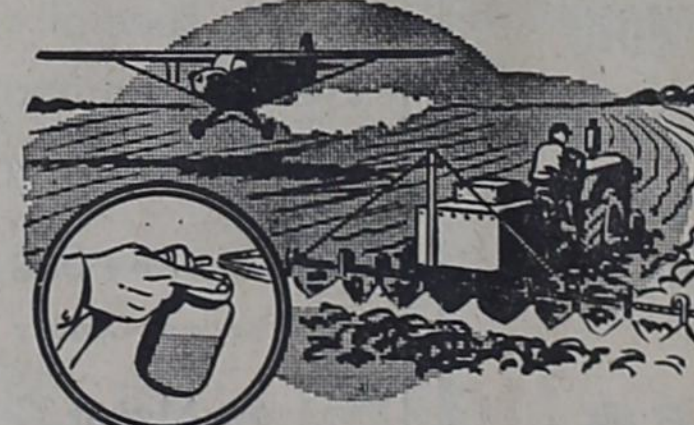

Spray Your Crops With

10-15-5 Liquid FERTILIZER Solution

Or FAST ACTION

32% Liquid NITROGEN Booster

Spray on with ordinary field sprayer. Costs less. Goes to work fast, gives crops "shot in arm" when needed.

32% Liquid Nitrogen & Liquid Fertilizer Solution, with Foliage Dietene, is the result of years of scientific research for a better method of applying necessary micro-elements and trace elements to crops, for increased yield and improved protein content. Easy to handle and can be applied to crops when they need it without having to wait for rain. As they come in liquid form, they go to work fast, thus saving the time it would ordinarily require crops to liquefy dry fertilizers before getting needed nourishment.

Gro-Green Liquid Nitrogen Booster and Liquid Fertilizer Solution both contain the new discovery Foliage Dietene, which insures instant and uniform penetration into the plant leaf cells. This makes fast assimilation of nutrients possible and enables the plant to store up excess nutrient foods for future use. In so doing it "shoots" the plant food to every nutrition starved fiber of the plant, similar to a blood transfusion to the human body.

Gro-Green is easy to use—no heavy sacks to handle and cannot be washed away by the heaviest rainfall.

INSECTICIDES, FUNGICIDES OR WEED KILLER may be mixed with Gro-Green and both sprayed on your crops at one time. Why not harvest a larger and better quality crop this year by spraying with this new wonder discovery?
