WADE SHANKLE

Was born in Mississippi, February 24, 1849; died at his Son's residence in Roberts County, July 30. His remains were laid to rest in the Miami Cemetery Sunday at 5 P. M. Services conducted by Ed R. Wallace, the Pastor of the Methodist Church, as the Pastor of the Baptist Church was out of town.

He came to Texas with his par- ents when he was four. He was a lifelong member of the Baptist Church, loved and honored by all who knew him. He leaves his wife and seven children: G. H., C. M. and Less Shankle, and Mrs. Eva Morris, Elreno, Okla., Mrs. Allie Stilwell, Graham, Tex. Forest Shankle, and Mrs. Dottie Myers, Clinton, Okla. The boys are of Roberts county, Miami, Texas.

WEDDING BELLS

A pretty wedding was solemnized Friday evening at the stroke of seven at the home of Mr. and Mrs. C. M. Hockett, when then daughter, Anna Mae, was given in marriage to Mr. H. Smead Matthews of El Dorado.

The ceremony was said in the presence of the family and a few friends by Rev. C. H. Nabers.

The bride wore a gown of grey taffeta with accessories to match. Her only attendant was her sister, Minnie Lee. Carlyle Gillespie acted as best man. The groom is an efficient employe of the Rock Island at El Dorado. The couple will be at home to their friends in El Dorado after August 1.—Camden, Ark. News.

JUNIOR RODEO

On Monday, Mr. and Mrs. Chas. Burnett enjoyed having some of the younger boys of Miami contest in calf riding on their ranch. Surcingle riding and "bull-dogging" for branding made up the "program." Louis Carr of Bloomington, Ill., a guest at the ranch, was awarded first place and Robert Ewing and Bill Coffee tied for second. Claris Mathers was "stacked" at the third jump, but still showed plenty of nerve. There seemed to be no special champion at the table spread after the riding, unless we include Judge Ewing who would be given first and Bob Elkins following as a close second.

CHAUTAUQUA GOING FINE

Miami's annual Chautauqua opened yesterday afternoon with a splendid program by the Vernon Grimes Duo. The crowd in the afternoon was not large, but the night audience almost filled the seats in the tent.

Season ticket sales have almost reached the guaranteed amount, and it looks as though there will be a very little deficiency in the treasury this year. Some season tickets are still being sold today, and the Committee are glad of the response received by the Miami public.

The program this afternoon, Hazelite Gypsy singers and Capt. Woods Briggs will start at 3:30. Night programs start at 8:30, and the Chautauqua will continue over to Sunday night, closing with the Swiss Yodeling Serenaders.

The Legion Auxillary met Tuesday evening, Aug. 2nd at the Legion Hall with a very good attendance. Our next cook food sale will be this coming Saturday, August 6th at Sanders Grocery. All members are asked to donate their part and try and have it at the store by 9:00 o'clock. The next meeting will be Tuesday evening, Aug. 16th.

FAITH

The Greatest of all books says that "Faith moveth mountains." One of the essentials of success is faith in ones self. Nothing so stimulates self confidence or promotes good opinion in others, as a good standing at ones bank.

This does not necessarily mean a large account, but rather one that is growing and indicates thrift and good management. Your business and your financial matters are best managed when you consult your banker and gain the benefit of his varied experience.

CAMP FIRE GIRLS MEETING

The "Ouchita Camp Fire Girls" met at the home of Winnie Locke on Thursday, July 28th for a Cerec- nial Meeting and afterward a Slum- ber party on the lawn. As it began to grow dark, we had our Ceremonial Meeting around our Camp fire, and when that was over, we made our beds in the back yard and started to sleep, but as at most "slumber parties" it was "more party than sleep," and at 3 o'clock in the morning we went to the home of Miss Virgie Dyer and soon afterward we were on our way to Big Bluff where we were to cook breakfast and spend the morning. We slid down the Bluff until breakfast was ready, after which we waded and played. All too soon Miss Virgie called—"Girls its time to go home now." There were many protests but we slid down the Bluff one more time then said, "Good-bye" to Big Bluff with many a sigh and backward glance for we had enjoyed ourselves immensely.

The Camp Fire Girls thank Mrs. C. B. Locke and Miss Dyer for the delightful time they gave us.

Next meeting will be the regular business meeting with the guardian, Mrs. Lee Newman, Aug. 11, at 3 P. M.

NEW BREED OF POULTRY DEVELOPED BY UNCLE SAM.

Lamona is the name given to a new breed of poultry that has been developed at the Experimental Farm of the United States Department of Agriculture at Beltsville, Md. It has been named by Secretary Wallace after the originator, Harry M. Lammon, senior poultryman of the Bureau of Animal Industry. It is a white fowl with red ear lobes that lays a white-shelled egg. White Plymouth Rock, Silver Gray Dorking, and White Leghorn were the breeds used as a foundation stock.

The fowls are larger than Leg- horns, with long, deep bodies, well feathered, and comb and wattles of medium size. The new breed is not ready for introduction and neither eggs or fowls can be secured. When a sufficient stock of birds has been raised specimens will be sent to State agricultural colleges and experi- mental stations to test their adapta- bility to different sections and conditions.

Locke Bros. Dry Goods store will soon have in a fine line of ladies ready to wear. A buyer is now in St. Louis and other Markets buying. Wait for them.

KENTUCKY ORATOR. Captain Briggs Speaks Here.

WOOD BRIGGS.

Kentucky is famous for its orators and the Sunflower program this year has one of Kentucky's most eloquent speakers of the present generation. Captain Wood Briggs is a patriot who brings burning messages of dramatic power and telling worth in these days when the United States and other nations are settling back to sanity after the mighty convulsions of war. If the Chautauqua accomplishes anything it must bring public men of constructive power to lead the people aright and the Cadmean Management has secured an ideal man in Captain Briggs.

THIS AFTERNOON AND NIGHT

MARRIED AT AMARILLO

Miss Dewey Nelson, formerly of this place was Married Monday evening of this week to Mr. Glen Randal of Hereford, the wedding coming as a surprise to relatives here, as the young people made no announce- ment of the oncoming event.

The new Mrs. Randal is a daughter of Mr. and Mrs. S. R. Nelson of this place, and has been employed at the Santa Fe General offices for the past year. They will make their home at Hereford.

JEWELRY STORE OPENED

I have just opened up a new Jew- elry Shop next door to Locke Bros. Come in and see me when in Miami. I do all kinds of watch, clock and jewelry repairing; all work guaran- teed. I also have a good line of El- gin, Hampden, Waltham and South- Bend watches and a few clocks and other jewelry for sale.

FAMOUS SWISS YODLERS COMING

DELIGHT CHAUTAUQUA CROWDS.

SWISS YODLING SERENADERS.

The well-known Swiss Yodling Ser- enaders led by Alois Ploner will be one of the high lights in the Chautauqua program this year. Cadmean audi- ences have been clamoring for them for several years and this season Mr. Franklin, the Manager of Cadmean System, has been able to secure them.

It would be hard to imagine a more pleasing program than the one ar- ranged by Mr. Ploner and his com- pany for the audiences on the Sun- flower Circuit. It is unique and pic- turesque from start to finish.

The Swiss Yodling Serenaders ap- pear in the beautiful native costumes of the Swiss Alps. They sing the wonderful Alpine songs, play the zither, violin, guitar and piano, give the charming native dances and best of all they give generous numbers of genuine Swiss yodling.

These yodling calls are the means

of communication across the great chasms of the jagged Swiss Alps. In Switzerland the houses or chalets are often built high on the side of precipices where it would seem impossible for man to stand. Yet these people not only have houses, but farms on these steep mountain sides. Their yodling enables them to hail strangers or call to each other over immense distances. While the yodling songs and calls have immense carrying power, they are also very musical and in no sense harsh or unpleasant. No lover of music or novelty should fail to see the Swiss Yodling Serenaders at Chautauqua on the last day.

The programs of the Swiss Yodling Serenaders are educational as well as entertaining. They not only dress in the picturesque native costume and give native music, but also tell the stories and describe the many strange customs of their interesting country.

MUSIC IN BOTTLES

Garret Plays Queer Instrument.

HOYLE GARRETT.

Hoyle Garrett whose company visits the coming Chautauqua on the fourth day has one of the oddest musical instruments yet devised. It is a set of musical bottles. The bottles are ordinary glass bottles and are each partly filled with water. They become musical through being carefully "tuned" by Garrett who puts the proper amount of H2O in each one.

Mr. Garrett and Mr. Mitchell are novelty musicians and jazz artists whose motto is to drive away dull care. They have a whirlwind program with worlds of novelty and ginger.

In addition to the musical bottles they give saxophone and piano special- ties, trick piano playing, comedy sketches and variety music.

SATURDAY

CAUSE OF APPENDICITIS.

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

THE STATE OF TEXAS

To the Sheriff or any Constable of Roberts County—Greetings:

You are hereby commanded to summon M. E. Voss by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 31st Judicial District, to appear at the next regular term of the District Court of Roberts County, to be held at the Court House thereof, in Miami, on the first Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 29th day of July A. D. 1921, in a suit, numbered on the docket of said Court as No. 602, wherein Lorene Voss is Plaintiff, and M. E. Voss is Defendant, and said petition alleging that on or about the 22nd day of October 1919 in the town of Miami, Roberts County, Texas, plaintiff and defendant were lawfully married and continued to live together as husband and wife until on or about the 10th day of August, 1920; that during the time plaintiff lived with defendant he was guilty of many acts of cruel and improper treatment towards her; that on or about the 9th day of August, 1920, defendant while in a fit of anger rushed upon plaintiff and grabbed her by the arms and began to wrench them in such a way as to cause her pain and suffering and at the same time with a violent push caused plaintiff to fall back against the corner of the stove thereby cutting and making a wound on her head above the eye which bled profusely and was sore for many days afterwards; that he was guilty of many more cruel and improper acts which are recited in plaintiff's original petition, and by reason of which acts plaintiff says that it will be impossible for her to live with defendant any more.

Plaintiff says that as a result of her marriage with defendant there was born to her one child, a girl, name, Audry Ann Voss, age five months, and plaintiff asks that she have the care and custody of said child in her own right.

Plaintiff further says that defendant does not now reside in Roberts County, Texas, nor does she know where he resides at this time, and that his relatives have no trace of his whereabouts.

Wherefore plaintiff prays the court that defendant be cited to appear and answer this petition; that said marriage between plaintiff and defendant be dissolved and declared null and void; that plaintiff have custody and education of the said child of said marriage, and for costs of suit and for such other and further relief, special and general, in law and in equity, that she may be justly entitled to.

Coffee & Holmes,
Attys. for Plaintiff.

Herein fail not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Miami, Texas, this 1st day of August A. D. 1921

M. M. Craig, Jr., Clerk,
District Court, Roberts County.

Same Old Story But a Good One.

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Fordson TRACTOR

\$625
F. O. B. Detroit

"Yes I've more time for Myself Since I Got a Fordson"

The Fordson Tractor is taking much of the drudgery out of farm life; it is solving the labor problem; it is reducing the cost of preparing land by almost one half of what it was with horses; and it is saving one third to one half of the farmer's time and making farm life more attractive.

The Fordson will run your threshing machine—and at the most opportune time for you. It will operate the milking machines, saw your wood, fill your silo, pump the water, and take care of every kind of bolt work—

And don't forget—it will plow six to eight acres in a ten hour day, handling two plows with ease.

Thus the Fordson is the ideal year-round tractor. It will pay for its fall and winter keep in many ways.

There's a big story to tell you about the Fordson—and a true one—come in and get the facts. Or, if you prefer, telephone or drop us a card and we will bring them to you.

Firestone

30x3 1/2 STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—four plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3 1/2, \$24.50; 32x4, \$46.30; 34x4 1/2, \$54.90.

Don't stick with the prunes

MY DAD'S favorite yarn WAS THE one about THE OLD storekeeper WHO WAS playing checkers IN THE back of the store AMONG THE coal oil AND THE prunes WHEN THE sheriff WHO HAD just jumped his king SAID "SI there's a customer WAITIN' OUT front." AND SI said "Sh-h-h!" IF YOU'LL keep quiet MEBBE HE'LL go away."

NOW HERE'S the big idea WHEN A good thing HAPPENS ALONG DON'T LEAVE it to George TO GRAB the gravy. FRINSTANCE IF.

YOU HEAR of a smoke OR READ about a smoke THAT REALLY does more THAN PLEASE the taste THERE ARE no hooks on you THERE'S NO law against YOUR STEPPING up WITH THE other live ones AND SAYING right out IN A loud, clear voice "GIMME A pack of THOSE CIGARETTES THAT SATISFY."

YOU'LL say you never tasted such flavor, such mild but full-bodied tobacco goodness. You're right, too, because they don't make other cigarettes like Chesterfields. The Chesterfield blend can't be copied.

SPECIALISTS GIVE DIRECTIONS FOR PUTTING DOWN EGG SUPPLY

What Is Needed in Preserving Eggs for Winter Supply.

(Prepared by the United States Department of Agriculture.)

Boys and girls who are members of poultry clubs, or those who are interested in any way in chickens, should learn how to handle and preserve eggs. Canning means the sorting out of bad eggs before a strong light in such a manner that the rays of light come to the eye through the egg so that the contents can be seen and the condition noted.

The shell of a newly laid egg has a soft "glow" or "bloom" which is a sign of perfect freshness. This glow or bloom is destroyed by handling, and in any case disappears after the egg has been exposed to the air for a short time. After that it is difficult to distinguish a fresh egg from an old one by the appearance of the shell, so candling becomes necessary if you would be sure that the egg is good.

Candle Eggs in a Dark Room.
Eggs can be candled best in a dark room, by the use of a bright light enclosed in a box or case having a hole a trifle smaller than an egg directly opposite the light. The egg is held at this hole for examination. An ordinary hand lamp, a lantern, an incandescent bulb, or a flashlight can be used. If you are using a box and a hand lamp the box should have a hole at the top, otherwise the heat from the top of the chimney would set the box on fire. A tester chimney made of tin, such as is used on a lamp for testing eggs in incubators, may be used for candling, in which case you would not need the box, as the eggs are tested by means of a hole in the side of the tin.

A perfectly good, fresh egg shows "full" and "clear" before the light.

A Shoebox and a Lamp Will Do for Candling Eggs.

There is almost no air cell at the large end and the yolk outline is only faintly visible. A fixed air cell of one-eighth to three-sixteenths of an inch in depth indicates a fresh egg, as eggs run generally. A larger air cell with a movable lower line indicates—according to sizes and fluctuations—a stale egg or one becoming weak and watery. Very small dark spots sometimes seen usually are blood clots. Large dark spots, blood rings, and shadows are due to heat and germination, and indicate first stages of decay. An egg that appears very dark or black, except for a large fixed air cell, contains a chick at an advanced stage of incubation.

Fresh eggs, properly preserved, may be kept from six to ten months and be almost as good for household purposes as fresh eggs. Another reason for preserving eggs in water glass, for instance, is the fact that they do not acquire the objectionable "cold-storage taste."

Allow Three Dozen to Gallon.
To preserve 15 dozen eggs in water glass these directions are given by the specialists of the United States Department of Agriculture:

Select a five-gallon earthen crock, clean it thoroughly, scald, and allow it to dry. Heat ten to twelve quarts of water to the boiling point, and allow it to cool. When the water is cool, measure out nine quarts, put in to the crock, and add one quart of sodium silicate, commonly called water glass, which can be bought at any drug store. Stir well, so that the solution becomes thoroughly mixed.

The solution thus prepared is ready for the eggs, which may be put in all at once, or from time to time as they are obtainable. Care should be taken in putting them into the jar not to crack or break the shells; also be sure the solution covers the eggs at all times. Put the crock containing the preserved eggs in a cool, dry place, and cover with a tight lid or waxed paper to prevent evaporation.

To preserve a smaller or larger number of eggs, the solution should be mixed and prepared in the same proportions.

Use Only Clean Fresh Eggs.
If best results are to be obtained the eggs should be clean and fresh,

and preferably infertile. For this reason it is always best when possible to candle the eggs carefully before preserving them unless they are known to be strictly fresh. If an egg is only slightly soiled a cloth dampened with vinegar may be used to remove stains, but eggs should never be washed with water or soap and water, as water removes the protective coating on the shell and may tend to cause the contents to spoil. Never use badly-soiled or cracked eggs. They may spoil all the others.

Fresh eggs preserved according to these directions usually will keep for from six to ten months, and can be used satisfactorily for cooking and for the table. If, however, preserved eggs are to be boiled, a small hole should be made with a pin in the larger end of the shell before placing them in the water, to allow the air in the egg to escape when heated, and thus prevent cracking.

POOLING FEATURE IS MOST FEASIBLE IDEA

Each Grower Receives Same Price for His Products.

Individual Members Amply Protected From Loss Because of Unfavorable Market Conditions of a Temporary Nature.

(Prepared by the United States Department of Agriculture.)

The pooling of products sold through co-operative organizations is an important feature of co-operative marketing, specialists of the United States Department of Agriculture have found. By pooling is meant averaging the returns received for products sold during a certain period, or for certain shipments, so that each grower having products of the same grade receives the same price. The success of a pooling system depends upon the observance of uniform grading and packing of the products.

This method of operation, it is said, protects the individual member from loss because of unfavorable market conditions of a temporary nature. Some farmers' marketing organizations, especially grain-elevator companies, purchase the members' products outright. Conditions and practices in grain marketing make such a plan feasible, but organizations handling other products usually find it to their advantage to pool shipments and await returns before making payments to the growers.

In this way the association is relieved of speculative risks, the avoidance of which is highly desirable. Co-operative creameries, which prorate to the members monthly, in accordance with the amount of butter fat each has delivered the preceding month, the returns received for products sold less operating expenses, are good examples of pooling.

The length of the pooling period varies with the products handled and the local conditions. Thus there are car lot, daily, weekly, monthly, and seasonal pools.

MATERIAL FOUND IN WHEAT

Specialists Define Terms Used in Federal Standards—Dockage Is Easily Removed.

There are two terms in the federal wheat standards which apply to foreign material, explain specialists of the bureau of markets, United States Department of Agriculture—"dockage" and "foreign material other than dockage." The term dockage is applied to the foreign material which can be removed readily from the wheat by the use of appropriate sieves, cleaning devices, or other practical means suited to separate the foreign material present. Foreign material other than dockage is the foreign material that is not separated in the screening and remains in the dockage-free sample and is a factor in the grading, definite percentages being permitted within each numerical grade. Dockage does not affect the grade.

Do not delay overmuch in getting off the first crop of clover; often the early cut field will yield a really worthwhile crop in September, and price or no price, clover in the mow is a comforting asset when the winter snows drift over the fields and yards.

AMONG NEWEST ARRIVALS FOR THE VACATION SEASON

IN WHATEVER direction vacation time calls, to whatever part of the country it leads, the tourist, on diversion bent, is sure to need a sport suit. These smart clothes, for all sorts of outdoor, prove themselves the most adaptable of all apparel. They have an informal and a pastime flavor that exactly suits vacation time. One is well enough dressed in them, and not too much dressed in them, for all the sorts of places that travelers visit.

The newest arrivals in pastime clothes are those suits, or one-piece dresses, of knitted wool or silk. The wool ones are very sturdy and well suited to real sport wear. Those of silk have the same smartness, but are not designed for exactly the same uses; they are well described as outdoor clothes. A chic suit of this character is pictured here. The plaited skirt is made of a white wool woven fabric, and the overblouse of knitted

silk or silk jersey cloth. The blouse is finished at the bottom with a turned-up cuff, widened at the side into a scallop. It is hemmed down with heavy silk floss in running stitches and contrasting color, which is also used for the embroidery on the bottom of the blouse and about the opening at the front. Cuffs of satin finish the elbow sleeves, and the same material makes the rolled collar and vestee.

Short box-coats in high colors and made of the same materials as this blouse are found in the company of striped skirts. The skirts repeat the color in the coat, alternating it with white, and are either side or box-plaited. White hats and white shoes are sure to look well with these suits. Loosely knitted, yarn sweater-coats in white are great favorites, to be worn with plaited skirts in white and colored plaits.

WIDE-BRIMMED, TRANSPARENT HATS ONE OF THE FAVORITES

THE most beautiful of all millinery sings its swan song in August and adds a regret for the passing of the season that brings it in. Made for the warmest days, the airy hats of mid-summer vanish like a morning mist, as soon as the first hint of chill comes in September breezes; they only flourish in the balmy air and brightest sunshine; their career is brief but glorious.

Five of these dreams of summer, expressed in terms of millinery fabrics and trimmings, are shown in the group pictured here. The well-beloved, wide-brimmed, transparent hat at the top is a perennial favorite, one of the good things that every summer brings, developed in accordance with the season's styles. It is shown made of black malines on a shape that is widened at the sides by pointed curves in the generous brim. The brim is bordered with black piping braid, and for trimming there is a wide bow, posed toward the right side and spread across the front. Always there are these peerless, picturesque black hats for mid-summer. This year they have rivals in hats of brown malines or lace.

Below at the left a hat of pale pink georgette has a soft round crown wreathed with seeded grasses and small garden roses, that look like the heart of summer. Next a stately hat chooses black and white hair braid for its graceful body and white georgette poppies, with long, black ostrich plumes floating out between them, for covering its soft round crown. This is a lovely hat for matrons. Another hat for them appears at the left of the group; it is a small shape of white hair braid with a wreath of garden flowers, berries, foliage and grasses laid about the narrow drooping brim. They are veiled with wide lace which falls in the manner of a veil from the sides and back. The poke shape of pale pink georgette, at the right, is distinctly youthful with a sash of blue velvet ribbon that makes a fine background for poppies, corn flowers, grasses and little blossoms posed against it.

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody."—Mrs. C. W. BENZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the commoner ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Dr. Kilmer's Swamp Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

HOME TOWN HELPS

WORTH FAR MORE THAN GOLD

Value of Good Credit Must Never Be Forgotten by the Community or Its Citizens.

The following little story has aroused much interest among Kansas merchants and credit men. It was recently published in the bulletin of the Pittsburg, Kan., Merchants' association.

"I buy your groceries, your dry goods, your home—everything you use or need.

"I am not money; I am its superior. I buy many times more than all the gold in the world. With me money may be bought.

"I am the very basis upon which the business life of the world has been built, more so in modern times than ever before.

"I am founded upon honesty, and built upon faith in mankind, and was unto the man or woman who willfully abuses me.

"I have given men the means to become rich, means which nothing else could place within their reach.

"I am, when rightly used, the greatest means of prosperity and happiness, but when abused, I have brought misery into the lives of men and women.

"I am confidence placed in a man's ability and reliability to meet his future obligations.

"I am greater than industry and capital, for I demand industry and capital of others on the strength of ability and disposition to make my promises good.

"I am good credit."

GET AFTER THAT BACK YARD

One Unsightly, Neglected Place Will Spoil the Appearance of Otherwise Well-Kept Street.

Back yards are something big city dwellers long for and small town dwellers long to get rid of. But back yards are a geographical condition; the yearning is about as close as a city ever gets to one, while the small townite finds it hard to dispense with for want of something to take its place.

A back yard in some seasons of the year is not exactly an object of beauty. Paintless fences are in a more or less acute state of unrepair, tin cans, old shoes and worn out brooms have somehow eluded the garbage can.

Why not get busy and give the back yard a thorough house-cleaning? The exercise will do you good, and the neighbors will rise up and acclaim you. —Montreal Daily Herald.

Oklahoma Club Members Feel at Home.

Even at home, "the little piece of home" taken overseas by the Y. W. C. A. for our boys, comes in handy. Out in Oklahoma in building a clubhouse, Lock Sanders post, No. 59, of the Legion has decided that it will borrow the plans of the Y. W. C. A. hostess house. In camps and overseas it met such a need that now, back in their home town, Hugo, Okla., the boys are building one for themselves. So interested has the whole town become in the scheme that everyone is helping. Citizens are buying boards at one dollar apiece and painters and carpenters are donating a day's work. The plot has been given by the city. The structure will contain an auditorium with a seating capacity of 200, a reading and writing room and an office, all on familiar lines.

To meet the demands, the national board, Y. W. C. A., 600 Lexington avenue, New York city, offers to share with other Legion posts or communities a plan for a delightful clubhouse. Pictures are available.—Exchange.

Grow Highly Prized Cotton

Virgin Islands Produce Long-Staple Variety That Is Almost Extinct in the United States.

Cotton raising has become one of the principal industries of the Virgin Islands, Uncle Sam's newest territorial possession, according to Bulletin No. 1, Sea Island Cotton in St. Croix, of the Virgin Islands agricultural experiment station, just issued by the United States Department of Agriculture.

Sea-island cotton, the much-prized, long-staple variety which has been rendered almost extinct in continental United States by the boll weevil, is the basis of the Virgin Islands industry. The area devoted to it, while as yet small, produced an average yield of 1,000 pounds of seed cotton to the acre in 1919 and 1920. One of the plots at the government experiment station produced at the rate of 4,450 pounds of seed cotton.

The Garden Plot.

The range of choice in the location of a city garden must necessarily be somewhat limited. Good drainage, sunshine and a suitable soil should be kept in mind in selecting a site for the garden. Where fowls and stray stock are likely to interfere ample protection must be provided by a good fence—a problem that must be carefully considered especially in the cultivation of vacant lots. If the soil is poor or very heavy, well rotted stable manure will help correct these conditions. Commercial fertilizers may also be used to furnish plant food where the soil lacks in the necessary elements.

Material for Stone House.

The stone house is very adaptable to all those regions where this material can be secured from the excavation of the cellar or from some neighboring road improvement. Sometimes an old stone wall serves as a source of supply. Because of the native character of this material it will always be in harmony with the landscape.

A Bad Night.

"I worked hard for this money," said the lone pedestrian. "So did I," growled the footpad. "I've been standing around here for two hours in the rain waiting for a boob like you to come along. COULD BEAT HANDS SHUCKING HIS CORN

At Least J. A. White Would Bet So, After Being Relieved of Dyspepsia by Tanlac.

"My wife and myself have had stomach trouble," says Mr. J. A. White, residing on the Leestown Pike, R. F. D. No. 6, near Lexington, Ky., "and have both been nervous and run down."

"We could not see anything without suffering afterwards and could not sleep at night. We were regular nervous dyspeptics. We tried many remedies without permanent benefit until we heard of Tanlac. I got this medicine and began using it. We noticed immediate results. We are both greatly improved by Tanlac. We give all credit for the change of health to Tanlac. It is a remarkable medicine.

"I personally feel so good that I told my hands a day or two ago that I could beat any of them shucking corn. I meant it and believe I could have beat 'em all."

Of all the maladies that afflict humanity chronic dyspepsia, such as Mr. and Mrs. White suffered from, is probably the most prevalent, and hours might be consumed in describing the suffering, mental and bodily, of the victims of chronic dyspepsia.

A morbid, unreal, whimsical and melancholy condition of the mind, aside from the nervous physical suffering, is the usual state of the average dyspeptic, and life seems scarcely worth living.

Tanlac, the celebrated medicine, was designed especially for overcoming this distressing condition and millions of people have taken it with the most astonishing and gratifying results. It seems to go straight to the spot, toning up and invigorating every organ of the body.

Lawrence, age ten, for a number of years has been able to provide the most ample concrete evidence of his due appreciation of the former, but it was only recently that the latter was brought forcibly home to him.

After vainly trying for some time to drive an obstreperous hen from the garden, he called to his father, "I can't get this old hen out!"

His father remarked that if General Pershing had given up that easily he never would have driven the Germans out of France.

Lawrence promptly replied: "That was different. The Germans knew what General Pershing was trying to do!"

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

You grow by good blood as a tree grows by sap. Rich blood, robust man. Good sap, sturdy tree. Keep the blood healthy and wholesome; poor, impoverished blood cannot nourish the body or remove the waste as nature intended.

When your blood is impure, itching, flaming skin eruptions often break out, and your body

gets run down and weak—easy prey for disease. To be safe, keep the circulation wholesome.

For this S.S.S., the famous vegetable blood remedy your druggist keeps, is excellent. Start enriching your blood with S.S.S. today, and write about your condition to Chief Medical Advisor, 838 Swift Laboratory, Atlanta, Ga.

Stomach on Strike 20 Years Eatonic Settled It!

"Eatonic is wonderful," says C. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."

Eatonic gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases and of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repeating or any other stomach trouble, take Eatonic tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

DODGE BROTHERS
MOTOR CAR

After five years it is possible to say with entire truth that all other considerations are second with Dodge Brothers to the solid satisfaction of the owner of the car.

Dodge Brothers always have pursued and always will pursue this policy, not from any spirit of philanthropy, but because it is in the highest sense of the word good business to do so.

The gasoline consumption is unusually low
The tire mileage is unusually high

Famous Titan 10-20

At
Lowest
Price
Ever
Quoted

\$900

All former price advances are wiped out by the big reductions made on this three-plow tractor. We believe this is the best buy on the tractor market, barring none.

This is the lowest price ever quoted on the Titan, considering equipment now included (formerly sold extra). March 1, 1921, the price was \$1,200. Now it is \$900. As this price disregards manufacturing costs, we do not know how long it will be maintained. International 8-16 and 15-30 tractors are also lower than ever before. The 8-16 now sells for \$900 complete. The new low price on the 15-30 is \$1,750.

All prices f. o. b. Chicago. We can arrange suitable terms. These prices certainly justify the immediate purchase of a tractor. Get yours in time for the horse-killing work of hot weather plowing and fall and winter belt work.
