An alarm about 1:30 Monday morning called the firemen to a fire in the Piggly Wiggly store of the Pipkin Grocery Company, where they worked for about two hours, confining the blaze to the storage room located at the rear of the store and it was there that most of the damage was sustained.

The estimation of the damage has not been definitely determined. The fire was stated to have originated from an electric motor.

LIONS CLUB IN REGULAR MEETING ON TUESDAY

The Lions club met last Tuesday noon with a very interesting program.

Mr. B. E. McGlamery, secretary, was absent. A report was given by the fair committee of the Lions Club, who will have charge of the Ducking stew during the fair. Dr. H. B. Tanner made an interesting talk about the activities, exhibits and demonstrations of the fair. A new member, J. O. Earnest was elected. Miss Fay Crossley was chosen honorary member of the club.

Miss Crossley furnished the music.

Mavericks Beat Cross Plains

The Eastland high school Mavericks showed considerable improvement when they defeated the Cross Plains Class "B" as compared with last week's game with Daniel Baker Fish. The Cross Plains team is fast and large for a class "B" team and held the Mavericks down until the latter part of the game, when they began to tire, as they were constantly playing a fresh team, due to the constant substitutions made by Coach Gibson.

Gibson made so many substitutions that space will not permit the details, however, the following boys saw service during the game: D. Daniel, W. Taylor, T. Fulcher, L. Taylor, C. Allison, D. Smith, D. Mackall, T. A. Jones, E. Burgamy, C. Garrett, B. Davenport, D. Brown, Z. Meek, E. Brown, J. Tindall, V. Pangle, C. Reeves, J. Pangle, J. Simmons, S. C. Laney, D. Kitley, R. Pentecost, R. City Commission Met On Monday

The principal subject considered by the City Commission at its regular meeting last Monday afternoon was that of approving the assessor's tax roll and fixing the rate for this year. It was shown that the total valuations of property as shown by the roll is \$4,714,931 last year. Thus it appears that the assessed valuations have been reduced by about 12 1/2 per cent under last year. The Council approved the tax roll, and had extended discussion of the rate to be charged. It was agreed that the rate would have to be \$2.50 on the hundred, which amount is the maximum allowed by law.

City Issues A Warning To Those Refusing Work

The following letter was received for publication:

In these trying times it is regrettable our City has in it persons who will not work and are content to impose upon the public. We have some lazy adlers who are classed among the unemployed, but if offered work to do some here will decline to work.

From the near-by cotton fields we are receiving calls for persons to pick cotton and gather crops, but when these calls are put up to a lot of no count lazy wretches, lying around the city with no income and without employment, they politely refuse to work. In self defense our city must adopt defensive means to put such persons to work and take them off the charity

of the town, or else we will put them to work on our streets under the management of the police department. We have lots of work of that kind which can be done. Chief Reed is ready to do his part and when vagrants are so charged before the City Manager he knows how to fix the penalty so as to put the vagrant to work, and keep him there.

We do not want to do any one an injustice, but we have a few persons here who are imposing on us, and these are the ones who are now to receive due consideration. Let the vagrant take this as warning to him that he is expected to get twok to do, or to apply to the Chief of Police for work. The Chief knows where such persons can have work.—M. McCulough, Commissioner.

Record Crowd Attends Fair Opening Night

Eastland County's Free Fair opened here Wednesday night to the largest crowd that has attended a fair here in years.

Remarks of approval were heard throughout the crowd which seemed to enjoy the entertainment, the exhibits and the many games and concessions along the midway.

In addition to the large crowd on the midway the square was lined with cars and people visiting the various

windows where the farm products were exhibited.

The old relic collection in the Moldave building on the north side of the square proved to be of great interest to many. Mr. Ed T. Cox, who has spent much time assembling these relics deserves much credit for the splendid collection.

The program put on by the Cisco Chamber of Commerce under the direction of their able secretary J. E. Spencer was the feature attraction of (Continued on page 4)

Patriotic Program Held Thursday

The 144th birthday of the Constitution of the United States was celebrated at Eastland high school Thursday afternoon at 3:15 o'clock.

The program opened with a song, "Carry Me Back to Old Virginia," sung by the student body with Mr. Stewart at the piano. Followed by "America." Announcements by Mr. Palm. A talk about the "Critical Period" of the Constitution by Miss Bell Wilson. The "Leaders" of the Constitution and mention of their work by Mrs. W. D. R. Owen. A "Summary" of the clauses of the Constitution by Fletcher McWilliams.

A few quotations from the speakers declarations are given below: "Critical Period:" After the treaty of peace which closed the Revolutionary War so many problems confronted the nation from 1783 to 1789 that historians designated this time as the critical period. Among the dangers were disputes with England and Spain financial problems, foreign debts, paper money, no executive or judiciary, dissatisfaction in the army, etc. The infant republic was struggling to rank as a respected nation among the great powers and to put her own household in order.

"Leaders:" A more distinguished assembly America has never seen than those who composed the Constitution. The real strength lay in the very fact that it included men of different abilities, temperaments, experiences, natures, imagination and sympathies. Washington and Franklin being among the greatest men. All honor to the men on the 144th anniversary of their completion of their task.

After which, announcements by Mr. Stewart. Adjournment for an enthusiastic rally by the band and pep squad on the Square.

ROWENA RIDES THE RUMBLE

COPYRIGHT 1931 BY THE AUTHOR

by ETHEL HUESTON

"See here," said Peter angrily, what sort of tommyrot is this any how? This lady is too old for the Juvenile Court. Why, she is her own mistress. She's twenty-three years old."

"Well, according to the complaint from New York, there is nothing we can do about it. Our orders are to put you under arrest. You'll have to talk to the judge."

"But Peter," cried Rowena, "are you going to let them arrest us for not being married, when we are married! Look at all the trouble we've had. That's proof enough."

"But why should they say you are only pretending to be married if you really are married?"

"Well, who says so? That's the first question. Where did the complaint come from anyhow?"

"From a gentleman in New York by the name of Carter Wellman—"

"You can fix this up," said the of-

ficer. "You got influential friends, ain't you? They'll fix you up all right. All they got to do is swear they know all about you and every thing's jake and there you are. You just hop down private in your own car with Bill here to show you the way—this is Bill Harmon—fine chap, too—he'll go down with you and introduce you to the judge. He's a swell gent, the judge is. He'll see how things are in a jiffy."

It was the simplest way out, and the officers made it as easy for them as possible, allowed them to walk unescorted through the lobby of the hotel and waited at a respectful distance when Peter stopped to send a telegram, which he wrote with a very firm hand and signaled for Rowena to come and read. It was addressed to Carter Wellman.

"Are you going to marry Roberta Lowell immediately on her return to New York, or are you not? If your engagement is canceled, as she be-

lieves, I shall marry her myself immediately. A rolling brown dumpling getsers nothing but trouble for all concerned. Please state your exact intentions."

"But you can't marry her," protested Rowena. "You're married now."

"Well, he don't believe it. And Rackruff, Inc., will pay for that wire if I have to steal a spare tire to get it."

The judge proved extremely sympathetic and agreed with Peter that it was an outrage, no less, the way people in love embroiled innocent bystanders in the tangled web of their affairs. He had his secretary send a wire to Denver to verify the marriage and to Rackruff Motors, Inc. in New York, for the details of the trip and complete information regarding Rowena and Peter. He even sent for the local Rackruff dealer, who fortunately turned out to be both a native son and a Brother Elk. He was willing to stand entirely responsible for their appearance if required.

Besides seeing to their freedom he made Rowena a present of a friendly little dog which he had found in his showrooms that morning and which Rowena promptly proceeded to call Constantine. Peter grumbled at the addition to their party but was overruled.

And so Rowena had a companion on the rumble seat from then on.

By the salesman's good offices they were enabled to return to the hotel without police escort or surveillance of any kind.

In the early morning Peter read to the girls the answer to his personal telegram.

"Such has been and is my intention," read the telegram. "I am probably the last man living entirely honorable in my dealings with women. Our engagement is not ended and if you interfere I shall sue. Plan to marry her instant of her arrival. In fact, expect to meet her with license, ring and minister. Wire what train."

So at ten-ten Peter and Rowena stood side by side under the quaint tiled portico of the Stanta Fe station and waved a fond—and not ungratified—farewell to little Brown Bobby.

The misadventures of Bobby's return and their legal entanglements in Los Angeles had keyed them to a high nervous tension, but when they had left the limits of the city a sudden quiet restfulness descended upon them. Rowena drooped drowsily against his shoulder.

"Shall I put up the umbrella in the rumble seat?" Peter asked facetiously.

But Rowena pretended she was asleep.

By the time they reached the outskirts of San Diego, Peter as well as Rowena confessed to a complete exhaustion, mental as well as physical.

They pulled up at the U. S. Grant Hotel. There was no boy in sight and Peter, unwilling to waste a moment, himself carried their bags into the lobby and hurried over to the desk. He was surprised at being immediately accomodated with two single rooms.

Their good fortune followed them and they both had a real good night's rest.

Peter had all the bags stored neatly away in the car the next morning, ready for their start for the East, when Rowena tripped out of the hotel, leading the freshly washed Constantine on a brand-new leash attached to a brand-new collar.

"Gosh, Rowena," ejaculated Peter, "what'll we do with the mut? I forgot about him?"

"Do with Constantine?" she echoed. "Why, we'll buy him a nice silk cushion to ride on, and get him a fresh bone every day. And charge it all to Rackruff."

Peter did his best picture at Grand Canyon, one which brought him no small amount of praise and profit. It was the Rackruff and Rowena riding through the rainbow fringe, with Constantine's queer, quaint black and white head nodding approbation beside her.

Rowena was not having the best of luck with her work in those declining weeks of their tour. She kept a pencil and note book constantly at hand, even teaching Constantine to carry them for her on command, but ideas were not coming to her with much frequency. For the first time in her life Rowena did not feel like writing; did not want to be bothered, and it may as well be added, her genius was far below its usual standard.

They lapsed into comfortable silence. They did not quarrel so much when they were alone—there seemed less point to it. To be sure, when occasion required, they would wither each other with a scathing word, but they never went to the old lengths.

In Albuquerque, when Peter had registered and called for their mail he was handed half a dozen telegrams and two or three letters.

"Nothing for Miss Rostand," said the clerk.

"What!" ejaculated Rowena. "Nothing for me? Not anything? Why, Buddy always—he surely must have written. Oh, please look again! There must be at least one!"

The clerk obligingly ran through the mail again.

"Sorry—not a thing," he said again.

"Dear me," said Rowena thoughtfully. "How extremely odd!"

Alone in his room Peter took off his coat and settled down to his mail. A quick glance at the letters told him

they were of no special importance and he turned to the telegrams. The two that he opened first were from the company, but the third started off on an odd note.

"Darling, I hate to ask you again," Peter read, his eyes starting with surprise. Devil's own luck. Lost fifty bucks at craps. Got to have it this week or they will chuck me out. Rush it by wire. Wish I hadn't played." It was signed "Buddy."

To Peter it made no sense at all. He turned it over and scrutinized the address again. Ah! That explained it. It was addressed not to "Mr." but to "Mrs. Peter Blande."

His mind traveled back over the trip, Buddy—that was her brother—Ronald Rostand. Ready for his third year in college and taking summer (Continued on page 3)

"ASK YOUR NEIGHBORS—THEY KNOW"
400-406 West Main Street Phone 70 Eastland, Texas

ART

Unlike the artisan, the artist can keep on working long after his physical powers have waned. My neighbor, Daniel Chester French, the famous sculptor, is past 81, but this year he is exhibiting one of the finest pieces of statuary he has ever conceived. It represents a young mother Mrs. Preston Briggs and son are visiting in the home of Mrs. H. A. McCandless on 106 East Conner, this week.

holding her infant son aloft and if ever cold bronze held the spirit of life and youth it is in this piece.

Mr. French may live to a hundred, and I hope he does, but when the end comes he will be found still working like the artist in his own "Death and the Sculptor," in which the angel of death is staying the hand of the young artist.

ALCOHOL

Pure alcohol is a natural element in the human brain, according to a scientist who presented proof of his statement before a meeting of medical men in Buffalo the other day.

That is certain to be taken up by the enemies of prohibition as an argument in favor of the repeal of the Volstead act. Of course, it will be an absurd argument, but it will have weight with many.

There is no question in my mind, on the other hand, that a great deal of the argument against drinking, on which the prohibition movement gained its strength, was based on equally absurd allegations.

The fact is that there are no facts about the use of alcoholic beverages which apply equally to all people, or to any individual person all the time. Some day the general public will be well enough informed to discount the bunk of both sides in the prohibition argument.

ROADS

Who is watching the road contractors in your town and county? There are many fine looking concrete roads being built which will not stand up under heavy traffic, especially in the regions where the frost can upset their foundations.

The city of White Plains, New York, sent an engineer out to make borings in the pavement of a road which cost around \$100,000 a mile and found that the contractor had put in a foundation only half as deep as the contract called for.

Concrete roads, when properly built have proved by far the most satisfactory so far. But when improperly built they can give more trouble and cost more for repairs than any other type of highway.

FOOD

The experimental work of the company which is starting up the business of freezing fresh food by the means of "dry ice" so that they will keep indefinitely and can be merchandised like stockings or hardware, has progressed so far and so well that the largest New York department store is now selling "frosted"ysters, fish, meats, fruits and vegetables just as they sell shoes or shirts or any other "dry" goods.

Several small cities have responded well to the experimental sales efforts, and with the big stores in the large cities taking up this new line of goods, it seems as if the day was not far off when the local butcher and green grocer might be wise

Amarillo Meets Ranger the 25th

Ranger, Texas, Sept. 17.— Coach Blair Cherry of the Amarillo Sandies will bring his team to Ranger Friday, September 25 to play the Ranger Bulldogs. Coach Cherry's team was runner up for the State Championship last year, being defeated by Tyler.

The game will probably draw the biggest crowd of any exhibition game to be played in the Oil Belt this season, as Cherry coached the Ranger Bulldogs for four years and was one of the most popular coaches in this section. He also won the West Texas Championship for Ranger in 1926.

Ranger played her first exhibition game last Friday against Stephenville, Class B team, and defeated the Yellowjackets by a score of 58 to 0. About 60 huskies are working out every day at Lillard field and the prospects look good for Coaches Curtis and Ward to put a team on the field that will average at least 170 throughout. Thirteen lettermen are back this year.

Joe T. Cook to Edit Daily Texan

A copy of the Daily Texan of September 17th, the convocation edition, has been received at the Record office.

The Texan is the largest college daily in the United States, being thirty-four pages in four sections. A group of student officials and editors on page two includes Joe Thomas Cook as editor of the Texan.

Joe is an Eastland boy and has the best wishes of his many friends here. He is to be congratulated on the progress he is making.

PERSONAL

Mr. Forrest Wright of Cisco attended legal matters in the courthouse Monday.

FORD

Improvements in the Model A are to be followed if rumor is correct, with a new type of Ford car in the Spring. I know no more about it than anyone else does, but my guess is that the new Ford, when it comes out, will be as surprising as was the present Model A.

Henry Ford has always been a pioneer. He was the first automobile manufacturer to put the steering wheel on the left, where it belongs, and all the others had to follow suit. He was the first to detect the flaw in the Salden patent, on which all other makers paid royalties for years. Ford refused to pay tribute, fought the case to the highest courts, and won a victory for the whole industry. He was the first to reduce the daily hours of labor in his factory from nine to eight, the first to establish a minimum wage of \$5 per day for the lowliest worker, the first to use modern alloys for strength and lightness, and to build engines to such accuracy that no "block test" was required.

Ford can do those things because he has no board of directors to tell him what he can't do, no stockholders clamoring for dividends at the expense of the product. The greatest achievements have always been, always will be, by men working single handed.

Largest Ship of the Skies Ever Built

The Do-X completed its Atlantic flight when it alighted in the waters of New York Harbor. The airship carried 72 passengers on its trip to four continents, visiting in turn Africa, South America and North America, after covering a large part of Western Europe at the start. The vessel's carrying capacity can be best likened to that of two Pullman cars, with additional space for dining facilities, lounging and moving about.

FOOD FOR THOUGHT

Relief and a return to better times will come when the utilities and other money hogs let the money stay in the smaller communities. Hundreds, with gilt-edge security, are ready to start spending money and giving work to millions when the money is released in the money centers.

It will be well for us to stop and think before buying any stock and sending our money out of our community. If it is not in Eastland, Eastland people cannot use it to give work to the people of our city.

Some of the best brains in the nation, and fortunately the unselfish variety, insist that the government can and should operate the public utilities of our country.

Continued monopoly of the nation's natural resources and the hoarding of the nation's wealth, may, if the people will vote, bring about the change.

Texas is among the six states of the United States that exercise no control over the electric light and power utilities, he others being Florida, Kentucky, Minnesota, Mississippi and outh Dakota.

WAR CLOUDS DISAPPEARING

It really looks as if the war cloud which has hung over the world ever since the Armistice were clearing away. For the first time since the early days of the last century, France and Germany are making friendly gestures toward each other. The French people are beginning to realize that the old days of Imperial ambition are a thing of the past in Germany, that the German people actually do control their own government, for the first time in history, and that they are just as human and peace-loving as the French themselves. And the Germans seem to be beginning to understand that France has been keeping up her big army, and building her line of frontier forts, because she has solid grounds for fear of an invasion from beyond the Rhine at any moment. It has happened to her four times in a hundred years, and that's enough to make any nation nervous.

Whether anything will come of the latest proposal before the League of Nations, to put all the armaments and military and naval forces of all nations in the League under the control of the League itself, we are not sufficiently informed to guess. But on the face of it, it sounds as if even the serious entertainment of such a proposal is an indication that the war-like spirit no longer rules Europe and threatens the rest of the world.

leave his wife here for medical treatment. He will return to Brazil without her in two or three weeks. His son Dick Deeter, who has been a student in Simmons University, has just left for his father's Mission field where he will be his assistant. Pastor W. T. Turner considers that Eastland, Cisco and Ranger churches are fortunate to be able to secure Rev. Deeter for speaking engagements since he is to be here such a short time. He will speak at Ranger Sunday night and at the First Church at Cisco on Wednesday night.

BOY SCOUT DRIVE—

Scout organization is one of the best any boy can have for the building of the highest type of character and citizenship."—A. J. Campbell, Director Camp Martin Boy Scout Band.

"I have been closely associated with the work of the Boy Scouts for many years, and find it to be of the greatest help in the training of the youths of our country. Its ideals and principals are those calculated to inspire the best that is in the boy."—Rev. Geo. W. Shearer, Pastor Eastland Methodist Church.

"It has been brought to my mind recently that the boy of yesterday was the boy of the street—a boy of cigarettes, dirty stories, back alley amusements, with no aim or ideal. While the boy of today is clean minded, trustworthy and ambitious. The Scout movement affords sufficient activities for the surplus energy of every American boy. I heartily endorse the local organization as a builder of character—for this community and for my own boy."—Mrs. James Horton.

"Anything that is done to increase the effectiveness of the Boy Scouts of America is a genuine contribution to the welfare of our community."—C. J. Rhodes, President Eastland Chamber of Commerce.

"Scouting is a wonderful organization for boys and the advantage that boys derive from Scouting should appeal to every parent. My three boys joined as soon as they reached the age requirements and have gained knowledge and training that will benefit them all their lives."—Mrs. Alex Clarke.

"In my five years experience as Scoutmaster the need of finding interesting and educational activity for boys has been demonstrated. If a boys lives up to the Scout Oath and Laws in his daily life no fear need be felt—finer citizenship will be the direct result."—Horace M. Condeley, Scoutmaster Troop 3.

"The future welfare and prosperity of our country depends upon giving the right education to our young people. No branch of this is of greater value than the training and inspiration received through the Boy Scout movement. We are so impressed by its value that we will do our utmost to continue this work in our vicinity so able conducted in this district."—Dr. H. B. Tanner, Secretary Chamber of Commerce.

LEGION RIFLE CLUB HOLDS REGULAR SHOOT

The American Legion Rifle Club held its weekly shoot Sunday afternoon, with twenty-seven entrants on the rifle range and fifteen in the skeet. In spite of the high wind, some excellent scores were marked up. R. H. Perine and Fred Hutton tied for first place on the rifle range and Jim Horton was high on the skeet.

Interest in these shoots is increasing and it is entirely possible that this club may develop a team that will reach the National finals, as it is a member of the National Rifle Association. It is the aim of the American Legion and the Legion Rifle Club to interest more of our youths in the use of the rifle than is manifest at this time. In fact that is the real purpose of the National Rifle Association.

Below is a list of the members participating in last Sunday's shoot:

On the Rifle range: W. J. Peters, 52; E. M. Anderson, 30; W. C. Hammond, 46; J. H. Cheatham, Jr., 28; R. H. Perine, 47; Fred Hutton, 47; Neil Day, 40; Gayland Poe, 37; Tom Hamist, 45; Horace Oldham, 45; K. B. Tanner, 41; J. J. Coffman, 42; D. L. Kinnaird, 32; G. C. Kimbrell, 36; M. C. Cook, 34; E. R. Batdorf, 30; V. Howard, 39; Roy Allen, 40; Jack O'Rourke, 25; Bill Hart, 40; Jim Horton, 45; Dr. W. S. Poe, 36; George Harper, 30; Mrs. Horton, 40; Horace Horton, 32; Paul McFarland, 43; John Fehl, 40.

On the skeet: K. B. Tanner, 20; Sam Butler, 11; Gayland Poe, 21; G. C. Kimbrell, 20; Neil Day, 22; Roy Allen, 14; Mrs. Horton, 19; Ham Bacon, 8; J. H. Cheatham, Jr., 13; Lee Nelson, De Leon, 19; Fred Hutton, 20; S. W. Whitley, 15; Ed Day, 15; W. J. Peters, 13; Jim Horton, 24.

RECORD CROWD—

the evening, and was enjoyed by the record crowd that was packed around on every side. Seats were arranged for hundreds. These were filled and many stood while others sat on the ground on the streets.

At press time Thursday afternoon several concessions and exhibits had been added to the already crowded midway and everyone expressed the opinion that the show and crowds would grow larger until the end, Saturday night.

Thursday night the rural communities will compete for prizes in the singing contest.

Friday night other rural communities will present one act dramas.

Saturday night the Chamber of Commerce of Ranger under the management of Secretary Wayne C. Hickley will give us the honor of listening to the famous American Legion Tickville band.

TO PLAY POLY—

busy every practice session giving his men new plays. This game will probably share the oil belt spotlight for the week end with the widely heralded Ranger-Amarillo clash at Ranger on Friday. A large number of out of town fans are expected, and preparations are being made for the largest attendance so far this season.

MAVERICKS SHOW—

until Jones intercepted a pass and ran 18 yards to the 50-yard line, from which the Mavericks kicked over the goal line, giving the ball to Cross Plains on their 20-yard line. Cross Plains kicked back and Burgamy on the next down made a beautiful run for 10 yards around right end. W. Vaughn received a pass gaining 16 yards. Burgamy fumbled a pass from center and lost 9 yards. After a few plays, the Mavericks were again in possession of the ball and Burgamy broke through the line on a spin play and ran 33 yards for the first touch down. Smith kicked goal from placement, making the score 7-0 as the quarter ended.

The second quarter was scoreless. Jones was injured during this period and was relieved by D. Simmons.

In the third quarter the Mavericks scored again, when L. Taylor made the prettiest run on any field this year, carrying the ball 80-yards for a touch down through a field of tacklers. Smith kicked goal, making the score 14 to 0 in Eastland's favor.

Another kicking duel took place until Burgamy made a 46-yard run through the line to Cross Plains' five yard line, and two line plays enabled Burgamy to take another touchdown.

The kick failed leaving the score 20 to 0. A kick by Cross Plains was blocked by W. Taylor and bounced back to the one-yard line where it was covered by Eastland. L. Taylor carried it over for the fourth touch down, and the extra point was added, making the score 27 to 0. After the kickoff, a pass by Cross Plains was intercepted by D. Meyers and after a few plays Burgamy went through the line for a 30-yard run and the final touch down, and the extra point, making the final score 34 to 0 for Eastland.

CITY COM. MEET—

the town has to do with slow signs on West Commerce street. The board voted to put up the signs and then have the traveling public obey the signs for the safety of the school children in that part of town. At noon and about four o'clock each day crowds of pupils are let out and have to cross this main street of the city. It is expected that the officers make special effort to enforce the traffic rules on this street.

The Council appointed Alex Clarke to attend the gas meeting called to meet at the Texas Hotel in Fort Worth next Friday at ten o'clock. Mr. Laten Stanbury of the Oil and Gas Division of the State Railroad Commission will be there and will discuss with representatives of all cities the best plans for valuating by the State of the properties gas and other utilities with a view to ascertaining facts having to do with rates charged by distributing companies to customers and by pipe line companies to the distributing companies. In case Mr. Clarke cannot attend the meeting Mr. Neil Moore was selected to go in his stead.

Frank Judkins was selected to file a suit for the City against one of the large water users for a very large water bill, or rather on an additional charge for water used by the company that had escaped being charged for. The name of the company is withheld at this time because the Council gave it until October 10th in which to pay without suit.

WRESTLING PROGRAM—

The first boxing number was between Floy Jordan, 149, Eastland, vs. Bill Donahue, 139, from Ranger, which was a four round bout, and to finish an argument started at the beginning of these programs as to who was the better boxer. Jordan won this on points, however, Donahue put up a wonderful fight against the ten pounds advantage possessed by Jordan.

The second boxing match was about as exciting as one ever sees by amateurs. Glenn Snell 140, from Eastland, won a decision by a four a land, won by decision a four affair over Archie Slay, 150, of Olden. Both of these fighters appeared to be at

the end of their endurance when the final bell sounded, however, they both contended they were not out; but the four rounds were finished, and the judges gave the decision to Snell.

The feature fight of the program was between Akoff, 160, Ranger, vs. Thomas, 162, also of Ranger. This was a four round bout and it was a fast one, and both were aggressive from

bell to bell. The decision was given to Thomas. The fans would enjoy seeing these men mix it again soon.

The American Legion expects to bring these contests to final awards during the County Fair this week. If the fans want to see some of the arguments settled both on the mat and in the ring, watch for the athletic programs during the fair.

Simplicity is always important in little girl's dresses, but simplicity does not mean stark plainness. The material and style of the dress should be simple, leaving opportunity for the

use of some attractive bit of trimming in the way of fine tucks, pipings, or simple hand embroidery.

The little French dress shown in today's sketch was made of fine cotton voile with cross-stitch design in two shades of blue. As you see, this simple decoration appears on the hem and yoke of the dress—and it is easy to do. The detail at the right of the sketch shows how the stitches are taken.

SOUTH WARD P. T. A. OPENS NEW SEASON

The Parent Teacher Association of the South Ward school opened the new season of '31-32 with their meeting Tuesday afternoon, held in cafeteria of school.

The official board was in place and extended greetings to the members who had assembled in goodly numbers.

Personnel of board included Mrs. J. L. Cottingham, president; Mrs. R. A. PPool, first vice-president and program chairman; Mrs. Frank Sparks, second vice-president and finance chairman; Mrs. Earl Bender, third vice-president and membership chairman; Mrs. Louis Pitzer, recording secretary; Mrs. Frank Pierce, corresponding secretary; and Mrs. Frank Bida, treasurer.

Interest was expressed by the Association in the various projects presented by the chair and considered in the interest of furnishing a financial budget for the needs of the organization.

Among these projects there was discussed a correct means for raffling or selling a silk quilt. A food sale, the next, was disposed of; and the body voted to conduct a "rummage sale" on Saturday of this week, in desirable location on the square.

It was especially desired to have this sale during the County Fair. The finance committee, Mmes. Frank Sparks, Butler, W. I. Lane, and Miss Reva Seaberry, assisted by Mmes. Virgil Seaberry, W. H. McDonald, J. M. Armstrong and Frank Scott were instructed by the chair to secure the building for the sale, and also all the necessary furnishings in chairs, tables, coat hangers and wires.

The committee later selected the old Moldave store on north side of square and the sale will be conducted on Saturday, September 26th, from 9 a. m. to 6 p. m.

The finance committee and assistants have called upon families for garments, shoes, hats, or anything that will assist in making a rummage sale, and this, Friday morning, the stores will be collected at the South Ward school and will be prepared for the sale.

Saturday morning the following will be in charge of the rummage sale; Mmes. Harry Brelsford, J. M. Armstrong, Virgil Seaberry and W. H. McDonald.

In the afternoon those in charge will be Mmes. W. I. Lane, Jack Hapeman, Frank Sparks, and Mrs. Cottingham will assist throughout the day.

The public is invited to visit the sales room, and be generous in their patronage.

The president, Mrs. Cottingham, announced that Mrs. W. K. Jackson had been appointed chairman of publicity for the association and requested those committees and chairmen having announcements to be made to please phone them to the publicity chairman.

Spirited discussion as to the plans of the association showed a keen interest in the work to be undertaken, throughout this season, which promises to be a fruitful one, under the efficient chairmanship of Mrs. Cottingham, who was reelected to the presidency as a recognition of her fine executive ability.

A pleasant half hour was spent in meeting new members and greeting friends. The president's table was centered with a large bowl of garden blooms and the open cheerful cafeteria was a pleasing setting for the session, attended by Mmes. C. T. Lucas, F. Pierce, F. Sparks, W. H. McDonald, Jack Hapeman, Frank Scott, Peter Clements, Butler, Virgil Seaberry, Louis Pitzer, Herron, Harry Brelsford, J. M. Armstrong, Earl Bender, H. M. Hart, Winnie Sue, W. I. Lane, McLaughlin, Frank Bida, W. K. Jackson, J. L. Cottingham, and the following members of the faculty: Mrs. A. C. Simmons and Misses Bowling, Huggins, Edna Day, and Christine Hearn.

APPOINTMENT FROM DIAMOND YNDICATE

Beskow Jewelry and Optical Company Are Now the Authorized Representative of Viring Diamonds

Beskow Jewelry & Optical Company, well known jewelers of Eastland, today announced that word had been received from the Holland office of the Virgin Diamond Syndicate, confirming their appointment as a local authorized dealer in Virgin Diamonds.

"Virgin Diamonds," said Mr. Beskow, upon being interviewed by a representative of this paper, "are genuine diamonds which have never been individually owned or worn, free from any doubt or question of past ownership or previous association.

"There has always been a supply of second-handed diamonds on the market, some of them, of course, with none too savory a reputation. Coming through accepted channels, it was impossible to distinguish such stones, although many jewelers have long attempted to handle only diamonds of known history. Since the war, moreover, the supply of such previously owned stones has substantially in-

creased. "Realizing that the discriminating diamond buyer—unless, of course, he was interested in a rare stone because of its historic background—much preferred to be the first to own and wear the diamond he purchased, I welcomed the opportunity to affiliate my store with the Virgin Diamond Syndicate.

"Not only are Virgin Diamonds of the finest quality, in all sizes and in a wide range of distinctive mountings, but their prices are standard all over the world."

In addition, say Mr. Beskow, with every Virgin Diamond, the purchaser receives a registered Certificate of Title which guarantees the origin and previous history of the stone.

SINCE MONEY HAS BEEN SCARCE

thousands have discovered A. & P. They were first attracted by bargain prices, but they soon found A. & P. food the best they could buy at any price.

Money will become easy again, but in the meantime the American people have become food-wise. The old myth that high quality and high price go together has worn thin.

RASPBERRY GIVES FILLIP TO SUMMER

As soon as the raspberry is plentiful it behooves the clever cook to plan many ways of serving it.

Raspberries are one of the most delicate fruits that belong to our summer season. Good as they are just plain, they are good in many other ways, which you should learn.

Raspberry Muffins

Cream a heaping teaspoon of but-

ter with a cup of sugar, add two eggs well beaten, a pinch of salt, one and one-half cups of milk, and enough flour sifted with a heaping teaspoon of baking powder to make a stiff batter. Stir in a pint of berries dredged with flour, bake in patty pans, sprinkle with powdered sugar, and serve hot with butter.

Raspberry Bavarian Cream

Two cups of raspberry juice, half cup sugar, three tablespoons gelatin, one-quarter cup cold water, two tablespoons lemon juice, two cups cream, whipped. Soften the gelatin in cold water then add one cup of the raspberry juice and heat carefully over hot water until the gelatin is dissolved. Cool and add the rest of the juice, the sugar and the lemon juice. Set the jelly to harden to the consistency of cream; whip the cream and beat it into the jelly.

Raspberry Sherbet

Raspberry sherbet can be made with a quart of water and a pint of sugar boiled together for ten minutes. To this add a teaspoon of granulated gelatin that has been soaked in a little cold water and strain. When it is cold add a pint of raspberry juice and the juice of two lemons. Freeze very hard.

A variation of the above recipe is to make the raspberry sherbet as described, and to fill in the center of the sherbet when the dasher is removed, with whipped cream sweetened and flavored with a little vanilla.

Raspberry Mousse

Rub through the sieve enough raspberries to make two cups of pulp. Add a cup of powdered sugar and fold into a pint of cream whipped cold. Turn into a mould, cover, and bury in salt and ice for four hours.

Raspberry Charlotte

Arrange small sponge cakes in a serving dish, spread with crushed sweetened raspberries, cover with whipped cream, and serve. The stiffly beaten whites of six eggs mixed with enough sugar to make a good meringue may be used instead of the cream.

Raspberry Jam

Wash and pick the berries, boil with a little water, mashing and scraping from the bottom as they simmer. When reduced to a thick pulp add one-half pound sugar to each pound berries. Stew till very thick, scraping constantly from the bottom. Cool in a large bowl, then put in a glass jar with a screw top.

Raspberry Shortcake

Raspberry shortcake is one of the delicious possibilities of this time of year. To make it with biscuit crust, roll a rich biscuit crust thin. Cut and put two disks, big enough to fit in

Sunday School Lesson

International Sunday School Lesson for September 27

THE SPREAD OF CHRISTIANITY IN ASIA

Golden Text Acts 14:27

Rev. Samuel D. Price, D. D.

This review lesson is of special importance because of the large amount comprehended in the quarter's lessons and since the regular study has been interrupted in many cases by reason of summer vacations. Begin by reading in Acts from Chapter 1 through 15:35. You will need your map constantly. The map that will help you most is the one that you draw as each new place is named.

Gloom incident to the crucifixion and then the Ascension of Jesus Christ was fully dispelled by the stupendous events that took place in Jerusalem on the Jewish feast of Pentecost. After the disciples had the ten day prayer meeting the dispensation of the Holy Spirit began with the awe inspiring manifestation, followed by the spiritually effective preaching of

Peter when thousands believed that the Crucified was Messiah and Savior of Mankind.

Preaching and personal work followed, and miracles were confirming signs that attracted the attention of the people. Peter was no longer the coward to cringe before the sneer of a serving maid. The lame man was healed in the temple. When the authorities commanded that such preaching cease, Peter replied, "We must obey God rather than man."

Church organization was developed as occasion required and the order of deacons was established to give adequate attention to the worthy poor. Giving money is part of true religion. Persecution arose because of the very success of the early church. Deacon Stephen became the first martyr and deacon Philip did fine work in Samaria and as a missionary to the eunuch. Believers were scattered and Saul of Tarsus was changed from chief persecutor to an ardent believer and evangelist.

a cake or pie pan. Spread one with butter, put the other on top of it, and bake golden brown. Then remove from the pan to a serving plate, take off the top layer—the butter will make this easy. Spread the bottom layer thickly with sweetened and crushed raspberries. Pile more raspberries on the top layer. Serve with a sauce made of crushed and sweetened berries.

This shortcake may also be made with cake layers. The berries are put between and on top of two layers, sweetened and piled up with whipped cream.

Our old easy layer cake makes a good foundation for this kind of shortcake. Here it is! Sift together three time a cup and a half of flour with a scant cup of sugar, three level teaspoons of baking powder and a pinch of salt. Break two eggs in a measuring cup and fill the cup with milk. Add to the dry ingredients and mix thoroughly and then add five tablespoons of melted butter. Bake in two layers. Add a teaspoon of vanilla if you like.

STATIC

By J. L. Cottingham

Milburn McCarthy says neither a prophet nor a bedbug are ever welcomed in their own home towns. Saw Virge Foster carrying a full set of mule harness into the courthouse the other morning—I wonder if Steele Hill is going to be hitched to the plow.

You know Ben Hamner wrote that piece telling everybody that I had not been dipped for ticks. It was a mean trick to let that out on me and it has almost made me a social outcast—nobody will have anything to do with me but Doss and John Teatsorth. For quite a while after the boys came back from France it was considered fashionable to be inhabited by parasites but that fad has worn out and I think that if a fellow has the misfortune to be infested with cattle ticks, he ought to have the sympathy of the public and not be held up to ridicule in the newspapers. I am sure we are all thoroughly ashamed of Ben.

J. J. Newsome has a green headed parrott and a red headed wife—he ought to have music wherever he goes. I do not like the new post-office—every time I walk through that narrow passage I always think how awful it would be if John Mouser and Lou Teatsorth ever came after their mail at the same time. I promised to use that crack as my own—Walter Gray said he did not want any credit for it.

I had to buy Hooker a drink yesterday—this is news because it usually is the other way. I see Jean Day has had a falling out with Ben Hamner and has moved to more cheerful quarters at Fred Yonkers' fruit stand. Oscar Chastain is now giving lectures on political economy in front of the Texas State Bank. Frank Sparks claims he has bought a new suit. Merrit Hines is keeping company with another elocution teacher—seems to have forgotten the last one. That is all the legal news.

Neal Day has closed a very successful season as manager of the Eastland Giants. He is going to take a short six months rest, seated on the

ice box at the Corner Drug Store but he wants the public to know that he is giving the matter of building up a championship team for next year plenty of thought. He does not expect to go to flying school this year.

John Ernest has taken to rolling his own. If he would use cornshucks, they would pass for tamales. Curtis Hertig and Ed Freyschlag are doing their best to get their money's worth out of those white pants while the hot weather lasts. Dr. Payne has a new fall hat.

Fred Davenport tried to sell me a new car—I was very nice to him but I really think that anyone that thought I had money enough to buy a car ought to be taken before a lunacy commission.

Sid Pietzer has designed a dress and hat for the high school pep squad. Mrs. Wolf and Joe Cole are also coming out with suggestions for decorating the cheer girls—that ought to be an interesting scrap.

Curtis Hertig thinks Cisco may have to issue bonds to support their football team this year.

Hunter says I am as good as McIntyre—laugh that off if you can. I gave him a quarter—that would have been cheap at half the price. Well, I got to shut down, I am holding the presses.

Further deponent sayeth not. I thank you.

ROWENA RIDES THE—

courses to cut down the time and expense. Rowena had received a letter or telegram from his at every stop enroute. He remembered her subsequent counting of bills and rush for a telegraph office—her complete financial stringency—the way she starved herself, eschewing all desserts—her thousand painful small economies.

Now Peter realized fully what it meant—this thing that he was going to do. Knew quite well that when Buddy wrote back in complaint of this unwarranted outside interference Rowena's rage would be beyond bounds.

They had talked sometimes of the future when their motor tour was over, thought they would probably be good friends in later years when their business vicissitudes were separate and distinct, and no longer bound up by compulsion in each other's work and wish. But if Peter flung open insult at Buddy, the sacred cow! he sneered—all such hopes for the future were null and void. Well, Peter told himself, he didn't know that he cared. After all he didn't get on so very well with Rowena. But she was a good sport—the best sport he had ever seen—and observed a letter break than Buddy was giving her.

Peter's grip on the pen made it a sword as he gave form to his scathing thoughts.

"Granting to begin with that it is none of my business," he wrote heavily, it nevertheless affords me great pleasure to tell you that in my opinion you are an un-peakable cad. You may not know—of course you do not know, for Rowena is one Rostand who is a young good sport and would not throw up her privations to you—that is, to let you satisfy demands for money, your sister, tired and exhausted as she is, by her work and long driving, has saved money by doing her own laundry in the bathtub nights has starved herself on soup and coffee and gone without a proper meal for days at a time.

"Better men than you have worked their way through college. For Rowena's sake I myself am sending you the fifty bucks.

"It is of course quite unnecessary for me to explain that Rowena does not know that you wired for this money nor that I am sending it. Your telegram was handed to me by mistake and I opened it under the impression it was for me."

he endorsed his sentiments with the signature that would one day be worth thousands—"Peter Blande."

Peter was pretty uncomfortable about the whole business. He was not used to any sort of double dealing and was not at all sure but at any moment officers of the law—or perhaps the telegraph company—would hale him away to jail to expiate his unwarranted manipulation of other people's affairs by telegraph.

At El Paso Rowena had two letters. She sat right down in the nearest chair to read them, and Peter stalked moodily from cigar stand to desk and back again, and watched her furtively.

Peter could stand it no longer.

"Buddy O. K.?" he inquired anxiously.

"He's entirely too O. K. I'm worried."

"You can't be too O. K.," protested

Peter. "Nobody can—What do you mean?"

FOOD FOR THOUGHT
An active mind must have exercise in order to last long and prove the utmost in efficiency. Nothing endures long if allowed to rust, molder, decay. I have seen many men to whom mental idleness was a deadly bore. You've found it that way, haven't you? Wholesome activity is one of the best things, positively beneficial to the intellectual human being.

Even the eye is said to require systematic exercise, if the owner would preserve good eyesight far into life's arctic regions. Men who are denned up in big cities rarely employ the eyes to see over a few blocks; they become accustomed to short distances and fine print. Hence the army of spectacle wearers, most of them bifocals. The aged resident of the great open spaces often does not need glasses at three score and ten! Wholesome exercise for the eyes.

The imprisoned muscle of the intellectual is never more than fifty per cent normal—often much lower. We are growing into a race of intellectuals, at the price of rugged, vigorous health.
But be sure to get this: EXERCISE IS NOT TORTURE. No man gives his eyes exercise, reading diminutive, blurred type, with the over-stuffed publication held eight inches from his face, often with a poor light. He inflicts punishment of the most dangerous kind. It is the same of the mind. To overwork the mental faculties is almost as fatal to them as profound laziness—idleness. I shudder for the fool that races his mind day and night—that gives it no rest in the mad chase for coin. Remember, the crash is out yonder in front, not so far as you think.

The muscles—those wonderful hinges, pulleys, levers! Exercise them, but stop short of punishment, if you would keep physically fit.

CHRISTIAN SCIENCE CHURCHES

The subject of the lesson-sermon was "Matter" in all Churches of Christ, Scientist, Sunday, September 20.

Matthew 24:35 furnished the golden text: "Heaven and earth shall pass away, but my word shall not pass away."

The following passages from the Bible (Psalms 29:6,7) were included in the lesson-sermon: "Surely every man waketh in a vain shew; surely they are disquieted in vain; he heapeth up riches and knoweth not who shall gather them. And now, Lord, what wait I for? my hope is in thee!"

Embraced in the service was also the following citation from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy:

"The realm of the real is Spirit. The unlikeness of Spirit is matter, and the opposite of the real is not divine,—it is a human concept . . . Nothing we can say or believe regarding matter is immortal, for matter is temporal and is therefore a mortal phenomenon, a human concept, sometimes beautiful, always erroneous" (p. 277).

CHURCH OF CHRIST

Meeting at the Church of Christ has been progressing nicely. Large crowds in attendance at each service, resulting in many additions to the church.

Brother Busby has been delivering some very excellent discourses. He is a very pleasing speaker, splendid personality and indeed a likeable gentleman.

Song services at the Church of Christ are congregational and conducted by Mr. Frank G. Head of Ranger. Much interest has been manifested in the meeting that will continue at least until September 30th.

Not only have the people of Eastland well attended the services, but each night Cisco, Gorman, Ranger and many other places have been well represented.

resented. Brother Busby has presented the plea of Christ as revealed from the New Testament, and is concerned very much in the spiritual welfare of the church, and public generally.

Large crowds are expected to attend throughout the meeting, and especially for Sunday morning and evening services.

The hospitality of the Church of Christ is well known and those who attend feel the deep influences of this splendid environment as well as receiving the good talks from the Bible.

HIGH SCHOOL P. T. A. INITIAL MEETING HELD

Mrs. Ralph Mahon, president, brought words of greeting to the teachers, patrons and board of trustees. Mrs. Mahon urged everyone and especially the patrons of the school, to join and help to build a great P. T. A. She also stated that no dues would be collected this year. Miss Russell delighted the audience with two readings and the P. T. A. national song "A little child shall lead them," was sung by Mrs. Don Brewer.

Supt. P. B. Bittle stated that the enrollment was practically the same as last year and that they were not losing any affiliations, but would gain three new units at the close of the school year. He then introduced the principals of the various schools, who in turn introduced the teachers associated with them.

Mr. K. B. Tanner, president of the school board, made a talk on the condition of the school and the problems faced by the school board in its efforts to make this school year a successful one owing to the depression. In a round table talk led by Mr. Tanner, many questions were asked and discussed concerning the tax law.
