

Rodeo to Feature Next Trades Day Program Oct. 3

Monday is Trades Day in Eastland and the plans for entertainment are being changed somewhat over what they have been heretofore. More attention will be given this time to bronc busting and other rodeo performances.

Several head of horses and mules have been secured for the bronc busting. Goats have been secured for the roping and plans are going forward for other kinds of entertainment. Weather permitting the program will be one of the best yet offered.

Notwithstanding the rain there was a large crowd here for the last Trades Day and prospects are good for an even larger crowd on next Monday.

The rodeo ground is in good condition and there is plenty of room for spectators. Also plenty of parking space for automobiles. The chute for livestock is one of the best in this section and affords the bronc an even chance with the rider. The corral is large and gives everyone a chance to see what is going on.

The program, according to present plans, will provide some kind of entertainment for the evening, but this is to be announced later.

Trades Day is sponsored by the Eastland Retail Merchants Association and all the merchants of Eastland. You are invited.

Two Killed In Triple Shooting

CISCO, Sept. 27.—Two people were killed Tuesday and another was in a local hospital in a critical condition as the result of a triple shooting that occurred shortly before noon.

The dead are Henry Simpkins, 43, and his wife, while his mother-in-law, Mrs. Link Huntington, was in a critical condition at a hospital.

The shooting occurred at the Simpkins family home shortly before noon when Mrs. Simpkins and her mother returned from the farm home of the latter. Mrs. Huntington was found by neighbors lying in the front yard, while the bodies of Simpkins and his wife were found in the dining room, foot to foot. Mrs. Simpkins was lying on her face. The body of her husband was nearby with the rifle, with which the shooting was done, across his knees. He was lying on his back.

Officers who investigated said that it was evident that the two women had just driven up to the house when the shooting occurred as their purses were found in the car standing at the front of the house. Indications showed that Mrs. Huntington had been shot while approaching the house. Simpkins then shooting his wife through the temple and turning the gun on himself. No inquest had been held by the justice of the peace early this afternoon, though officers indicated that the verdict would be murder and suicide.

Mr. and Mrs. Simpkins are survived by five children, the oldest of whom is 12 years old. None of the children were at home at the time of the tragedy.

He said it would be noon Tuesday before the committee would have a financial statement to offer.

Triple-Threat Abili That Failed

DETROIT.—The triple-threat abili which Alphonse Bonkowski, 26, figured would aid him in winning a discharge from a traffic violation arrest, vanished into thin air, and the young man left the courtroom \$50 poorer than he had entered it.

To the charge that he had run his machine into two others parked along the boulevard, Alphonse offered his first abili—the trip home had been uneventful. He remembered nothing of any accidents.

Two irate automobile owners exploded this abili for him. Then Alphonse declared that he had not been near the scene of the accident, but had visited a drug store some distance away to buy a Sunday paper.

One of the complainants declared: "You didn't buy a newspaper in that drug store. I know, because I own it. We don't sell papers."

For his third abili Alphonse introduced his father.

"It wasn't much of a party he attended," the elder man said. "The boys just sat around drinking all afternoon. Alphonse drank quite a bit. It wasn't very strong."

Will Tate was among those here Monday from Carbon.

Dr. Geo. W. Shearer

DEPRESSION

In 1930 old Depression came in. But with him the people would claim no kin.

With his old ragged clothes and run down shoes, He's caused honest men to go down in the blues.

But with him the people had to mix. He has sure got them in a bankrupt fix.

Now down the road he staggers and swerves. Give him a kick, 'tis all he deserves.

Down the highway of wealth, Miss Prosperity is coming, Oh boy! listen to them factories humming.

With her pretty silk dress and satin sash, She has come to bring the people some needed cash.

Miss Prosperity, you have been gone so long. We welcome you back with a shout and a song.

Mavericks Go To Fort Worth Today

By JO A. CARROLL.

The Eastland Mavericks will journey to Fort Worth today, where they will meet the Parrots of the Polytechnic high school on the Wortham field this afternoon at 3:30 o'clock. The Polytechnic team came here last year to open the conflict and were defeated by the Mavericks by the score of 6 to 0.

Today's game will be the initial test of the Eastland team as the boys have been called on for no service more than an occasional scrimmage with the second string. But they have had plenty of training and are in fine fettle. None of them have any injuries serious enough to hamper them. They will give the Fort Worth team their best which should result in that team's defeat by a greater margin than last year's score showed.

The following players will compose the squad:

No.	Name	Pos.	Yrs. on Team
18	Carroll Allison, center		100
54	S. J. Arthur, quarter		145
23	J. B. Baggett, guard		160
25	Bill Bagley, tackle		165
21	Robert Barrington, end		165
14	Elmer Brown, half		152
24	Ray Brown, half		152
13	Delmar Brown, end		152
45	Truman Brown, guard		160
15	Estes Burgamy, quarter		155
28	Paul Covington, tackle		145
12	Desmond Daniels, full		175
22	D. C. Frost, guard		150
11	Truett Fulcher, tackle		190
22	John Garrison, half		160
29	A. G. Gary, tackle		165
42	J. C. Hearn, half		190
16	Jack Heath, guard		158
27	Donald Kitley, center		164
20	Ed Mackall, full		175
27	James Pipkin, tackle		180
26	Randolph Raley, guard		160
51	Daus Simmons, guard		155
17	Joe Simmons, guard		156
29	Willie Taylor, end		168
27	Jim Taylor, end		160
42	Darrell Tully, half		165
19	Willard Vaughn, end		170
55	Glen Whitaker, half		150
25	Troy Taylor, tackle		145

The starting team for this game will probably be, according to Coach Gibson, as follows:

Allison, center; Baggett and Heath, guards; Fulcher and Gary, tackles; Barrington and Delmar Brown, ends; Burgamy, quarter; Garrison and Roy Brown, half-backs; Daniels, fullback.

This team, as a whole, is probably not as strong as the team a year ago. Baggett at guard, Garrison at half and Gary at tackle are playing their first year. How they will perform is yet to be seen. Their test will come Friday against Polytechnic.

Burgamy at quarter, although he has not regularly played this position, has had much experience in directing the team and can be counted on to do some ground-gaining with his line plunges and broken field running. Too, his passing arm is not bad. Daniels will be new at the fullback position, having heretofore filled a tackle's place in the line. He ranks among the best punters of the Oil Belt district and with his weight out to give the opposing team something to think about. Allison at center is a safe, consistent performer and last year was making a strong bid for the all-district berth until injuries slowed him up during the last half of the season. He has a habit of breaking through the line and smearing the opponents' plays.

The Brown brothers, one at end and the other at half, are hard workers, have plenty of speed and will give a good account of themselves in any game. Barrington at end, Fulcher at tackle and Heath at guard are safe, steady players. Although they are not listed in the starting lineup, Ed Mackall at full and Willard Vaughn at end are sure to get the call for service during the game. Mackall is a hard hitting ground gainer and those picking an all-district team this year will probably have to take notice of him.

Coach Joe Gibson has been working his charges hard since the opening of the season, giving them some new plays and rounding them into good physical condition. The fans who take the opportunity to see the Mavericks in action at Fort Worth will see a real game.

Football In The Oil Belt

By JO A. CARROLL
NEW RULES FOR 1932

When the Football Rules Committee of the American Intercollegiate Association met at Hanover, New Hampshire, late last winter, seven changes were made in the rules governing football play. Most of these changes were made for the purpose of protecting the players. For the past twenty-five years the rules committee has been attempting to make the play safer and while doing this have made the game more popular and more spectacular. During the past two years many accidents have occurred, some of them fatal. It was in an effort to remedy this condition that the committee made more changes than they have since 1906. Believing that the fans will be interested in knowing just what these changes are in order that they might better understand and follow the play, we are giving here a brief summary of the seven rules.

One change, which will not be noticeable by the fans especially, is the character of protective equipment worn by the players. Heretofore this equipment was designed purely for the protection of the man wearing it and did not take into consideration the opposing player who would necessarily come in contact with it. The rules for this year prohibit the use of any hard or unyielding substance in the knee or elbow pads and all thigh guards or braces shall be suitably padded on the outside. When the teams line up for the opening kick off a new formation will be noticeable. At least five of the receiving side will remain

on the forty-five yard line until after the ball is kicked. The danger of football is mass plays. This rule prevents the massing of virtually the whole receiving team around the receiving player and thereby, in effect, forming what was known as the Deland Wedge. Then, too, the kicking side may put the ball in play either by the customary place kick or by a drop kick. The drop kick enables the player to get the ball higher in the air and thus give comrades more time to get down under the ball before the interference can form, as fifty percent of it must start from the forty-five yard line.

Football is a rough and tumble game and should be kept so if it retains its interest for the fans. But the rules committee must keep this rough and tumble feature within reasonable bounds. During the past few years the flying tackle had come back into use to some extent with the result of many injuries and some fatalities. Twenty-seven years ago about the first play that this writer witnessed at his first football game was a flying tackle—which missed. Result: one broken nose and one broken collar bone for the tackler. The rules now provide that the tackler or blocker shall not leave the ground with both feet prior to the instant of contact with his opponent.

Piling up on a prostrate or struggling ball player has always been a source of danger. To relieve this danger the rules provide that whenever any part of the body of the player carrying the ball except his hands or feet touch the ground the ball is dead and the

play stops. This is regardless of whether or not an opposing player has held of him. This rule will eliminate some of the spectacular features of the game but will very greatly add to the safety of the ball carrier.

Another change prohibits the player from striking or punishing the opposing player in line with his hands. The committee believes that striking when done with the back of the hand, side of the hand, fist, or the heel of the hand or with the forearm is not difficult for the official to recognize. It is also believed that the practice will disappear because the rule is so clear that it does not invite attempts at evasion.

The last change has to do with the sending in of substitutes. Under the old rules, if a player were removed, he could not be sent back during the same half. This caused many players, who were exhausted in the game when their physical condition invited serious injury. Under the new rule a player when taken out can be returned during any subsequent quarter. This will enable the coach to give his players much more relief. A second change in the substitution rules provides that substitutes cannot be rushed on the field promiscuously. They must be set in when time has been called out for some other purpose. Failure to observe this rule will cost a penalty of five yards or the loss of one of the three times out that a side is allowed during each half. Observance of this rule will have a tendency to speed up the game.

Pep Squad

Now that the Mavericks are getting under way with their 1932 football schedule much attention is being given to the Pep Squad. This organization will be sponsored this year by the English in the High School. Ed

S. Pritchard Jr., Conrad Reeves, Ellen Pearson and Corrine Harris have been chosen as the yell leaders of the squad for this season. The squad is composed of about 65 girls. The able sponsors and leaders are rapidly rounding it up to shape for the very responsible part it plays in the winning of the schedule. Uniforms have been decided upon and are now being ordered that they may be ready for the first home game. The girls will not accompany the team to Ft. Worth today. No game, as yet has been scheduled for next week, so it appears that the pep squad will not have an opportunity to go into action before the game with Cleburne which will be played here on October 14th.

Schedule For 1932

The opening game for the Mavericks schedule will be played this afternoon at Wortham Field, Fort Worth, with the Polytechnic High School of that place as the opponents. So far no game has been secured for the latter part of next week. On October 14 the Mavericks will meet the Cleburne High School here. Cleburne has always had one of the strongest teams in the league and there is nothing to indicate that it will be different this year; so our boys will have one of their stiffest games of the season on this date. At present no game has been scheduled for October 21st. However Coach Gibson stated that the team ought not to be idle on the seventh and twenty-first. In all probability these dates will be filled with contests with strong teams.

The conference schedule, as arranged by the district committee, opens on October 21st and is as follows:

- Oct. 21, Brownwood at Breckenridge.
- Oct. 22, Abilene at Ranger.
- Oct. 28, Eastland at Breckenridge.
- Nov. 11, Eastland at Ranger.
- Nov. 11, Breckenridge at Abilene.
- Nov. 19, Brownwood at Ranger.
- Nov. 19, Eastland at Abilene.
- Nov. 24, Breckenridge at Ranger.
- Nov. 24, Brownwood at Eastland.

Will Cisco Be Admitted?

Whether or not the Cisco team will be permitted to participate in the league contests in football this season is a question being asked by most of the fans of this district and possibly by the officials as well. No one seems to know what will be done and everything pertaining to the case seems to be at a standstill just at this time. So far as we have been able to learn nothing definite has been done since Judge Geo. L. Davenport of the 91st District Court handed down the opinion that Cisco was unjustly debarred and should be reinstated in the league.

Representatives from headquarters of the Interscholastic League at Austin were in Eastland a few days ago gathering information on the court's decision and, also, discussing the case with members of the district committee, but it seems that no definite decision was reached at that time as to what the procedure on the part of the league should be from here out. In the meantime the district committee is arranging a new schedule with Cisco in, they may be taking a chance of having the schools they represent debarred from the league for a couple of years. On the other hand they have this question to consider: If they do not put Cisco in the schedule for this season, will the court send them to jail?

Everyone concerned now seems to be waiting to see what the state representatives are going to do and their action, in all probability will be to appeal the case. The consensus of opinion as we have heard it expressed is that, if the state representatives expect to exercise any authority in the future, there is no other course to take.
