Speaker Declares Eastland Has Had Many Arson Cases

Declaring that there had been a number of arson cases in Eastland and some of them recently, Eugene Sanders, representing the state fire prevention board, in an

address before a mass meeting of Eastland citizens Tuesday afternoon at the courthouse, called upon them to give 100 per cent co-operation to the state authorities and the Eastland county district attorney's department in an effort to bring the guilty parties to justice.

Mr. Sanders devoted considerable time to a discussion of general fire prevention methods and urged his hearers to co-operate fully with those in charge of fire prevention programs. He suggest-

ed to the Eastland city commission, the members of which were present, that it pass an ordinance patterned after one used in many other towns, having for its purpose the prevention of fires. One provision of the suggested ordinance would be that the city commission appoint five members of a fire prevention board, the board to have the authority to summons witnesses and gather information regarding fires to be passed on to the prosecuting attorney and the grand jury.

Mayor Clark of Eastland pledged the city commission to give full co-operation to the authorities in preventing fires and bringing those guilty of arson to justice.

The city of Eastland has now and has had for some time a standing reward of \$100 for any person furnishing information leading to the arrest and conviction of any person or persons guilty of arson in the city.

E. M. Collie, Eastland insurance man, introduced Mr. Sanders. He stated that in 1929 Eastland had a 15 per cent good fire record while in 1932 it had a 15 per cent bad fire record and would have that record during 1933, which means that purchasers of insurance in Eastland are having to pay approximately 30 per cent more for insurance now than they had to pay in 1929 and this for one reason only, fires.

MAN COMES BACK AT SIXTY

This most interesting story of "a man who came back" will encourage those who are suffering from kidney trouble and its attendant ills, such as Rheumatism, Neuritis, Sleeplessness, Nervousness, etc. Mr. J. T. Brown, of Amboy, California, writes:

"Six months ago I was very badly troubled with kidney ills; my back at times hurt me so severely that I could not stand or walk straight. When I got up in the morning I was more tired, if anything, than when I went to bed the night before; was also troubled considerably with rheumatism, and what was troubling me most was that I was fast growing a "bay window." That made my body very unshapely. Then I began drinking Yerbavida. Within three or four months I had lost all that corpulency; my kidneys are now as perfect as they ever have been and I feel like a young boy all the time, although I am past sixty. I can safely say that I never felt better in my life—not even in my younger days. I climb mountains and hills all day long without becoming tired."

planes growing wild on the American Desert. It contains no drugs of any kind. In fact, no ingredients of any nature have been added to it. When brewed according to instructions it becomes a powerfully revitalizing tea which produces amazing results in the restoration of health. Yerbavida has shown remarkable results in eliminating poisonous acidity which produces stomach, liver and bladder disorders, inflammation, ulcers, headaches, uric acid in the blood with its resulting rheumatism, arthritis, constipation, and many other ills too numerous to mention.

The endocrine glands are the alchemists which transmute chemical element into physical stamina and mental power. Premature old age, disease, low vitality and fatigue are the result of the endocrine glands becoming sluggish. Yerbavida revives the endocrine glands. A large package, enough for 240 cups, can be obtained for only \$1.00. If your local druggist cannot supply you accept no substitute but send \$1.00 direct to Yerbavida Sales Co., 612 Southwest Bldg., Los Angeles, Calif.

Right Winters Wrongs Efficiently - Economically

If Winter's snow and ice has battered, dented and put leaks in your top—just bring your car to us and we'll repair it speedily and perfectly.

We have just taken on the exclusive agency for the best top dressing ever placed on the market. The first time it has been introduced in this section. After a thorough investigation we find that this is the most reliable top dressing on the market today.

Read What This Man Says . . .
After trying many different kinds of top dressings for the past three years and not one of them stopping the leaks the Superior Garage applied two coats of E. E. S. Leak Proof top dressing on a badly worn top. The car stood out in the rain all day Sunday, all Sunday night and Monday of this week and there was not a single leak. I recommend this dressing to any one interested as being the best I have ever used.

Olden

OLDEN, March 1.—Funeral services were held Monday afternoon, Feb. 27, for W. R. Curry, who died Sunday afternoon in a Ranger hospital following a short illness from pneumonia. Services were held at the Olden Baptist church. Interment was in Ranger Evergreen cemetery. Friends and neighbors sympathize deeply with Mrs. Curry in her sorrow. Mr. Curry is survived by his widow, his father, one brother and three sisters.
Mrs. Hyatt's father, Mr. Little, died in a Cisco hospital Monday evening after an illness resulting from a fall last Thursday at which time he suffered a broken hip. Funeral services were in Cisco Tuesday afternoon, Feb. 28, at 3 o'clock. Mrs. Hyatt has the sympathy of our community in her grief at the loss of her father.
Mrs. Charles Peterson is seriously ill at the City-County hospital in Ranger. She has been sick since Friday but grew worse Monday night and had to be taken to the hospital Monday night at 9 o'clock. Miss Eunice Hamilton has been on the sick list the past few days. Miss Eunice is one of the most popular teachers in the Olden school and pupils, parents and friends hope her a very speedy recovery.
Dave Stephens and Mr. Stone were Olden visitors Sunday, visiting Mr. Stephens' brother here, Jack Stephens.
C. J. LeClaire and family of Electra, who formerly lived here, visited friends and relatives in Olden Sunday. Mr. LeClaire is with the Magnolia Petroleum company at Electra. His daughter, Mrs. Faye Russell and children, Joyce Ray and Sonny Boy, remained in Olden for a visit with the George L. Russell family here.
Owen Sellers is ill with flu at his home in Olden.
H. C. Nix, who is convalescing from an operation at a hospital in Temple, is reported much better and expects to soon be home again.
The Olden town basketball team played Flatwood at Eastland Mon-

day night. The score was 26 to 14 in favor of Olden.
J. A. Upton made a business trip to Dallas Tuesday.

Mrs. G. W. Simer has been ill for several days with tonsillitis but is much improved at this time.
Mr. and Mrs. Lookabaugh from Oklahoma have come to spend the spring and summer with Mr. and Mrs. E. V. Roofe and will help in managing the swimming pool here this season. Mrs. Lookabaugh is Mr. and Mrs. Roofe's daughter.

WARNER DEFEATS ALL-STAR

The Warner Memorial Stags met Coach E. Curtis' all star basket ball team from Ranger here Tuesday night and defeated them by a score of 37 to 27. The high features of the game were the exceptional work done by the Stag guards and the elusive play in golf Miller, the diminutive Stag forward. Kardatzke was high point man for the Stags with 20 points to his credit.

The line-up for the Warner team was: Miller and Kardatzke, forwards; McClusky, center; Vilhauer and Arnold, captain, guards.

CHICKENS TURKEYS

Give STAR PARASITE REMOVER in their drinking water and disinfect all nests and roosts by spraying each month. It will destroy disease-causing germs and worms, rid fowls and the premises of all lice, mites, fleas and blue-bugs; tone their system, keep them in good health and egg-production and prevent loss of baby-chicks. Begin its use now. Germs and worms always come with the hatching season. No trouble to use, cost very small and your money back if not satisfied.

Ask Your Doctor Two Important Questions

How Many Minerals Does the Body Contain?
Why Are Minerals and Vitamins So Essential to Bodily Health?

When your doctor names the Mineral elements of the body write down the list carefully. Take this list to your druggist and ask to see a bottle of **LEE'S MINERAL COMPOUND**, the marvelous new formula that is bringing health to thousands. Compare the Doctor's list with the label on the bottle and you'll find, without exception, every one of the essential Minerals are contained in this famous compound. That's the reason for its amazing success. It's Nature's own way to health.

NATURE DEMANDS HELP.
When any of the essential Minerals are deficient, Nature demands help. Harsh laxatives, "patent" medicines and "pain killers" won't do. You must feed into the body those missing elements that Nature demands. **LEE'S MINERAL COMPOUND**, the new scientific formula, contains a balanced supply of Minerals, in combination with vitamins and it is surprising how quickly the system responds to this Natural health building formula.

OUR WONDERFUL BODIES
Strange as it may seem, these wonderful bodies of ours consist of a very limited list of fundamental chemical elements. It is now known that only eleven minerals and five gases are needed by Nature in building the strongest man or the most beautiful woman.

CLEARs THE SYSTEM
LEE'S MINERAL COMPOUND, with Vitamins, sweeps the system clean of impurities, drives out dangerous "toxic" poisons, eliminates excessive acids that destroy health, supplies the body with essential minerals, builds rich, red blood, new strength and energy, restores the appetite and aids digestion.

OUR BODIES ARE ROBBED
All of these essential Minerals and gases are present in natural foods but improper cooking and an unbalanced diet rob us of these vital elements. The system becomes charged with acid. Indigestion and Constipation follow. We become nervous and irritable; subject to headaches, fail to get the proper rest at night, become weak and listless and good health deserts us.

MAKE THIS 10 DAY TEST Convince Yourself!
Stop dosing yourself with "patent medicines," harsh purgatives, oils and cathartics for just 10 days. Go to your nearest Druggist and secure a bottle of **LEE'S MINERAL COMPOUND**. Take it regularly, and watch the results. You'll be amazed at the feeling of renewed strength and vigor that soon appears. No narcotics or alcohol to "boost you up" but a natural method of restoring health and energy.

Eastland High School News

Chapel
Thursday afternoon the chapel audience was entertained by our representatives in debate, who are debating the state question, "Resolved: That at Least One-half of All State and Local Revenues in Texas Should Be Derived from Sources Other Than on Tangible Property."

The girls, who had the negative side, put forth a strong argument against the affirmative side, which was defended by the boys. This debate gave the students a more distinctive view on the state question that is now being debated.

The students were the judges of this debate, and as the result, the boys won. (We suspect because there are more boys than girls in school.) The debate was enjoyed by the faculty, students, and visitors.

Monday Chapel
During chapel hour Monday we had our delightful entertainers "The Quartet" consisting of the Brown twins, Elmer and Delmer, Carl and Claire and Jim Tindall, who

sang a variety of popular songs, accompanied by Elmer on the guitar.

This is the first performance these students have presented in chapel. We liked it so well we hope they won't wait too long to be with us again.

J. E. Horton announced the winners of the prize given by the Rotary club on the essay contest, "What a Civic Club Can Do for Eastland." First prize was awarded to Zack Meek; second prize to Eleanor Ruth Rerguson and fourth prize to Marie Shoopman.

The winners were extended an invitation by the Rotary club to lunch with them at their next meeting, Monday, where they will receive their prizes.

Tennis Results

The E. H. S. girls tennis met Ranger Thursday, Feb. 23, for a practice tournament in which each winner was decided by playing one set.

Eastland girls are mentioned first—Singles:

Pauline Bida 4, Mary Yonker 6; Ruth Harris 8, Reba Calloway 6; Marzelle Stover 6, Verna McNabb 2; Machael Pentecost 8, Mary Crutsinger 6; Ruth Rosenquest 6, Geneva Eaves 1.

and Verna McNabb 1. Ruth Harris and Marzelle Stover had a snappy comeback against the Ranger players, and Rachael Pentecost also returned the swift balls that were served by Mary Crutsinger.

Mary Crutsinger, a Ranger freshman, is one of the best singles I have ever seen play tennis and is going to make it hard for someone.

S. D. Phillips, who is tennis coach, has been out with his tennis teams every sunny day. His practice work has been so successful that it looks as though we are to have some winning players to represent E. H. S. in the county meet.

Debating News

The E. H. S. debating teams, both boys and girls, attended the invitational debating tournament at Brownwood, Saturday, where they debated several teams of other visiting towns. As this was their first practice tournament, their arguments were well planned.

The results were: Eastland boys won over Putnam and lost to the A and B debating teams of Brownwood. The Eastland girls won from the Brownwood B team and lost to Brownwood A team and Abilene.

The winners of the tournament were Abilene boys and Brownwood girls A team.

The debaters who attended the tournament were Doris Fields, Mary Frances Hunter, Edmond Herring and Frank Hatten. Jerry Francis, a debater, and G. T. Taylor, who is coach of the teams.

Eastland debaters are invited to Baird Thursday night for a practice debate.

Food Can Be Safely Left In Tin Cans

Is it safe to leave canned foods standing in a can after it has been opened? Many people have an idea that there is some mysterious and dangerous change that takes place when the contents of the can are exposed to the air, although they do not worry about the food as long as the can stands unopened on the pantry shelf.

In answer to the many inquiries on this point the Bureau of Home Economics of the United States Department of Agriculture has said repeatedly: "Food is perfectly safe if left standing in a can under proper conditions of storage after the can is opened. In fact, the can is often the most convenient container in which to keep the food. Food spoils no faster and no slower in the open can than in any other container. You can leave food in the can just as safely as you can leave it in a dish. But of course you have to use the same care to keep it cool and covered."

Thursday afternoon at the Dallas Jobe farm a calf, two hogs and a lamb were butchered. These were placed in storage until Friday when they were taken to the Pass Lake Home Demonstration club headquarters where demonstrations in cutting, curing and canning were made.

Mr. Snyder, in his lecture pointed out the advantages of cutting the meat right and pointed out the reason why certain portions

of the meat were better for one use and other portions for another.

Meat Specialist Assists Agents In Demonstration

Assisted by Roy W. Snyder, meat specialist of the A. & M. extension service, County Agent J. C. Patterson and Home Demonstration Agent Miss Ruth Ramsey, Thursday and Friday of last week held a meat killing, cutting, curing and canning demonstration near Gorman which was attended by a number of interested people.

HOW THE VACULATOR OPERATES
1. Measured water in the bottom, pulverized coffee in the top, one heaping-teaspoonful of coffee to one cup of water.
2. Heat generates pressure that causes water to flow upward. The use of hot water hastens this preliminary action.
3. Coffee is brewed in upper glass where correct temperature is controlled. When upward flow stops, current should be turned off.
4. Removing from heat creates a vacuum in lower glass which "pulls" down filtered coffee in a jiffy.
5. Remove upper glass and serve. The coffee will stay hot upwards of thirty minutes in the decanter.

Henry Davenport Discusses County Highway Finances

The following report was handed in by Mr. Henry Davenport of the Eastland county commissioners court, representing Precinct No. 1. In discussing this report, Mr. Davenport said that he was elected on a platform in which he promised the people an economical administration and that he proposed to keep the expenses down as much as possible. He also said that the precinct he represented was in debt to the amount of around \$20,000, and that he was trying to finance this debt as well as keep the necessary upkeep of the roads and bridges in good con-

dition. Mr. Davenport in discussing this matter was very plain in his remarks that he realized that if the precinct had the money to spend now would be an opportune time to put men to work and thereby help in giving the unemployed work and at the same time get the roads and bridges kept in good shape. He will keep the people posted from time to time on the financial condition of his precinct and was very high in praise of the cooperation that he is receiving from the business men and women and all the taxpayers that he represents.

The report follows: The following report of funds available for lateral roads in Eastland county precincts and a recommendation as to how these funds could best be handled, has been made to the Eastland county commissioners' court by the county auditor: Honorable Commissioners' Court, Eastland County, Eastland, Texas. Gentlemen:

As the road and bridge fund, out of which the expenses of constructing and maintaining our lateral roads are paid, is one of the most important funds of the county, I am submitting for your consideration an analysis of this fund for this year which I believe exhibits a fairly accurate picture of its condition.

As you know, practically all the revenue for this fund is derived from the 15 cents ad valorem tax levy and the motor vehicle license fees. Collections from these two sources for the calendar year 1929 amounted, in round numbers, to \$136,000; for 1930, \$124,000; for

1931, \$118,000 for 1932, \$105,000, and the budget estimated for 1933 is \$86,000. These figures show that receipts have fallen off more than one-third in the last four years, which means, of course, that a corresponding reduction in expenditures must be made if the fund is to operate on a cash basis.

Out of the estimated receipts for this year, time warrants amounting to \$24,470 will have to be paid which will leave a balance of \$61,530 to divide among the four commissioners' precincts to pay on their debts, incurred for road machinery and for other purposes, and to expend on roads. Using the budget estimate of collections as a basis and taking it for granted that the \$61,630 will be divided equally among the four precincts, as has been the practice for the past several years, the following statement shows the amount each precinct will have to expend on its roads this year.

Precinct No. 1:

Cash balance Jan. 1, 1933 \$ 284.86
From Road and Bridge Fund 15,382.00

Total funds available \$15,666.86

Deduct: Machinery warrants, deficiency warrants and other claims due this year 18,637.18

Balance available for roads None

Precinct No. 2:

Cash balance Jan. 1, 1933 \$ 1,841.56
From Road and Bridge Fund 15,382.00

Total funds available \$17,223.56

Deduct: Machinery warrants, deficiency warrants and other claims due this year None

Balance available for roads \$17,223.56

Precinct No. 3:

Cash balance Jan. 1, 1933 \$ 958.15
From road and bridge fund 15,382.00

Total funds available \$16,340.15

Deduct: Machinery warrants, deficiency warrants and other claims due this year 8,172.30

Balance available for roads \$ 8,167.85

Precinct No. 4:

Cash balance Jan. 1, 1933 None
From road and bridge fund 15,382.00

Total funds available \$15,382.00

Deduct: Machinery warrants, deficiency warrants and other claims due this year 6,955.28

Balance available for roads \$ 8,426.72

The records of this office show that there are 225 miles of lateral roads in precinct No. 1; 220 in precinct No. 2; 290 in precinct No. 3, and 200 in precinct No. 4, a total in the county of 935 miles. As the records of expenditures for constructing and maintaining lateral roads in this county have always been run together, the actual cost of maintaining cannot be ascertained. But estimating the average cost per mile covering a 12-months period at \$30, it would cost precinct No. 1, \$6,750 to maintain its roads; precinct No. 2, \$6,600; precinct No. 3, \$8,700, and precinct No. 4, \$6,000, a total cost to the county of \$28,050. On this basis No. 1 will have no funds either for maintenance or betterments, unless the court makes arrangements to have a part of its obligations due this year extended for another year. No. 2, after paying for maintaining its roads, would have a surplus of \$10,623.36 for improvements; No. 3 would have sufficient funds for maintaining but none for improvements, and No. 4 would have a surplus of \$3,326.72 for improvements after paying for maintaining its roads.

In view of the fact that most of our lateral roads, which must be maintained by the county, if maintained at all, are dirt roads which become almost impassable in wet weather, and that every mile of

STATE CAPITAL LETTER

That James E. Ferguson is a licensed lawyer opened access to the senate for him during the committee inquiry into Mrs. Ferguson's highway charges. A resolution invoked for the committee "Rule 92," which excludes everybody but officials from the senate hall. The resolution was amended by Sen. Walter C. Woodward to authorize the governor to be represented by counsel if she chose.

Otherwise Herbert Hoover, a republican, could have come in, but James E. Ferguson, leader of democracy, could not have.

The state will have to bear part of the cost of administering R.F. C. emergency employment loans, according to messages transmitted by Gov. Miriam A. Ferguson to the legislature. Mrs. Ferguson invited committees of the house and senate to confer with her on working out the state's part in the administration of the loans to Texas and both houses indicated their purpose to join her in the undertaking.

Moore Lynn, state auditor, will go out of office next September. If the reorganization of "state auditor and efficiency expert," and to create a new office of state auditor, to be filled by the

legislature, is passed, he may retire earlier than that, since the house of representatives would have to make an appointment from the effective date of the new law.

A. W. Taber of Austin, whose resignation as superintendent of the Confederate home the board of control accepted on criticisms of Auditor Lynn of minor irregularities of subordinates of the home, and who later "came back" to write for Gov. Ferguson the executive budget cutting the board members' salaries 25 per cent, stands a very good chance, it is believed, also of having the triumph of taking over the auditor's office as Lynn's successor, if the appointment remains executive rather than legislative.

Whether they go to the people or not, the customary constitutional amendment resolutions to raise the \$2500 pay of state officers and \$4000 pay of the governor and attorney general at least have been voted out of committee in the senate. The governor would be given \$12,000 and the attorney general \$10,000 under the proposed amendments.

This is a bad year in which to submit them, the same things having been voted down in many prosperity years.

"Wood and water" was an expression that got current in a past executive administration at Austin when a helper was to bring in wood and water.

Call the roll of the revenue and taxation committee, where "Wood" and "Waters" come successively, always is good for a grin or chuckle.

The Kayton sales tax bill, one of four outlined before the house, would split up the tax revenues to the independent school districts to the general school fund to the cities, to counties and to the state general fund. The bill would not attempt to eliminate, but would reduce state, city, county and district ad valorem levies. It fails to meet the asserted purpose of the Duvall bill to eliminate \$6,000,000 a year of cost of collecting the property tax, but would keep the cost on smaller collections.

As rough approximations, these are amounts represented by various present and proposed tax levies: Gasoline, 28 millions; cigarette, three millions; franchise and gross receipts, seven millions; auto licenses, four millions to the state, about six millions to counties; Duvall sales tax, \$46,000,000; Kayton sales tax, \$45,000,000; Chambers sales tax, \$20,000,000; Parkhouse sales tax, about \$10,000,000; Hughes income tax bill, \$13,000,000 per year.

Taking the lowest estimates of all and averaging the main sales

tax figures and adding in the come levy, the tax bill \$88,000,000 a year. If the ad valorem levy were kept would run the figure to the known \$100,000,000 a year.

The plant food removed from the fields and pastures of the state every year by erosion is at least twenty-one times more than that removed by the crops, says the United States Department of Agriculture.

This is an excellent time to place inferior bulls or cows with well-bred stock. It is possible to buy the best at which are but little above the usual commercial values of three years ago.
