Clyde O. Eastus Speaks Tuesday 8:15 in Eastland

Hon. Clyde O. Eastus, United States attorney for the Northern District of Texas, with headquarters at Fort Worth, will address the people of this section on the courthouse lawn at Eastland Tuesday night, August 1, at 8:15 o'clock on the National Industrial Recovery Act.

This announcement was made this morning by H. C. Davis, secretary of the Eastland Retail Merchants' Association, who, with J. O. Earnest and John H. Harrison, went with a delegation of Eastland county business men to Fort Worth Wednesday night to attend a meeting of the retail merchants of that city.

Mr. Davis stated that the citizens from the neighboring towns and communities were invited to come to Eastland and hear Mr. Eastus' address.

Chamber Commerce Plans Discussed At Meeting Friday

At a meeting of the directors of the Chamber of Commerce which was held Friday afternoon the proposition of carrying on the work of the chamber was discussed fully and the decision reached that the affairs go along as they are now for another month or two and then put on a drive that will put the chamber in first class condition.

Due to the fact that the county fair is just ahead and that time and money must be given to it the directors were in accord in the opinion that the Chamber of Commerce affairs be passed over until after the fair. At that time the recovery program will probably be in full swing and the work of the chamber can then be taken up and carried forward to a successful conclusion.

The president, C. J. Rhodes, said that the work of the Chamber of Commerce would be kept going with all the vim possible and no one had any thought of giving it up because the city had discontinued the financial support as has been the custom in past years. He expects the work to be up on a solid basis by the business interests of Eastland.

A committee composed of Earl Woody, O. E. Harvey and Hamilton McRae was appointed to assist like committees from the Lions, Rotarians and other organizations in selling tickets to the business men's smoker to be held Tuesday night.

Those attending the meeting were President C. J. Rhodes, and directors Hamilton McRae, K. B. Tanner, Frank Castleberry, O. E. Harvey, Earl Woody, G. M. Harper and Milburn McCarty.

Brelsford, Sr., Misses Madge Breisford, Sadie Brewer, Merle Tier, Thelma Brewer, Geraldine Dabney, Maybelle Taylor of Haskell; Misses Beatrice Sealey, Emily Dreinhof and Mrs. Robert Hunt of Ranger, and the railroad officials and their wives of Fort Worth.

All of the children of Mr. and Mrs. W. H. White of the Staff community gathered at the family home Sunday in celebration of the birthday of their father, W. H. White, and their brother, C. B. White. The celebration consisted principally of a reunion which was greatly enjoyed by both parents and children.

Those present were C. B. White and family from Waxahachie, John White and family from Eastland, Roy White and wife from Caddo, Wayne White and family of Staff, R. H. Myrick and family of Alameda, and O. T. Hazard and family of Staff.

SIGN OF RECOVERY

Soon you will see this badge, in red and blue, reproduced in shop windows, on factories, on the labels of goods, on letterheads. It means that the proprietors of the factory or shop displaying the sign or the makers of goods bearing it, are co-operating with the National Recovery Administration by adopting the working conditions which the administration believes necessary for recovery. The President himself has urged that organizations displaying this label be patronized rather than others which have refused to co-operate.

Comptroller Has Motor Fuel Div. Now In Eastland

The State Comptroller's office has established a motor fuel division in the court house at Eastland which is headquarters for a district comprising fourteen counties around Eastland. For the past several days a corps of men have been visiting the several retail stations and bulk wholesale stations over this district advising the dealers as to the law bearing upon their sales and purchases.

These men have taken samples of gasoline from various places scattered over the district and have found several samples that did not meet the requirements of the law. Those responsible have been notified.

This department feels that the general public should be well versed in the manner in which such business is conducted and that, hereafter, any violations of the law shall be dealt with more strictly.

A Great Time Is Expected Sunday

The 9:49 Sunday school class at the Methodist church anticipate a great time at their 9:49 a. m. services next Sunday, July 30.

The Hon. John Lee Smith of Throckmorton, who is widely known as a deep thinker and a great speaker and past grand chancellor of the Knights of Pythias of Texas, also an overseas man and very prominent in American Legion work, will be the principal speaker, and will lecture to the class.

Also, our own Mrs. Nora Hefley Mahon of this city, who has long since made herself famous as a poetess, has kindly consented to honor our class with some of her own compositions, suited to the occasion.

Our music director, A. E. Herling, will provide the musical program. You cannot afford to miss these highly entertaining and beneficial periods.

All ladies not already engaged in Sunday school work are especially invited. Come and bring your men folks.

Nazarene Church Revival Drawing Big Crowd Daily

Large crowds attend the open air revival conducted by the pastor and local workers. Two-thirds of the seating capacity was taken the first night and again Tuesday night the number increased, giving the very best of attention as the evangelist pastor gave a most beautiful picture of the seeking Saviour, as recorded by the Apostle Luke, 19th chapter and tenth verse.

About 20 voices in the choir furnished good music with the help of those in the congregation. Rev. Scott spoke from the first chapter and 21st verse of Matthew Wednesday night, on the power of Christ to forgive sin. The burden of the message being the power of Jesus Christ to forgive the worst of sinners, and to enable them through His power to live above sin, though being surrounded by the most adverse circumstances.

The minister stressed the importance of repentance, and restitution, with faith, which would bring about a marvelous transformation in the heart culminating in the work of regeneration which saves from sin completely.

The Christian people of all denominations are cordially invited to come and lend their aid in helping to get the lost into the Kingdom of God.

Services each evening at 8 o'clock, corner West Commerce and Madera streets. Ministers of the city are especially asked to cooperate in this effort to reach those who are out of the ark of safety.

Ladder Drill Is Announced Here

A ladder drill will be held by the Fire Department at the city hall Friday night, July 28, according to an announcement made by Fire Chief A. W. Hennesse. All members of the department are expected to be present and take part in the drill.

Mr. Hennesse further announced that immediately following the drill a watermelon feast would be held. He says the melons are already on hand, six in number, the larger two of which weigh 75 and 86 pounds, respectively, and the smallest will weigh not less than 60 pounds. Mr. Hennesse seemed to have no doubt about all the members of his department being present on time.

C. B. White of Waxahachie visited his brother, John White, of the county tax assessor's office in Eastland. He was on his way to his father's home in the Staff community where a family reunion was to be held Sunday.

Thos. L. Blanton Most Remarkable Man Says Writer

Col. Hugh Nugent Fitzgerald, veteran editorial writer and political observer of the Austin American, in an article in the American on July 22 dealing with a reception and barbecue in Burnet county tendered Rep. James Buchanan and attended by Congressman Thomas L. Blanton of Abilene, had the following to say regarding Mr. Blanton:

"Col. Thomas L. Blanton, the fighting congressman of Abilene, will attend the barbecue and reception. Two new counties have been passed on to the Buchanan district. Rep. Blanton will present Burnet county to the Washington county leader, while Cong. Richard M. Kleberg will say farewell to his constituents in Blanco county and advise them to transfer their affections to Buchanan.

"Thomas Lynn Blanton is certain to be given a warm reception. He is one of the most remarkable men in the political life of Texas. Age has mellowed him. During the exciting special session of congress he voted for every administration proposal except the liquor proposal. He is for the Roosevelt program for recovery heart and soul. He is a national figure.

"Just before closing of the special session the cockles of his heart must have been warmed when democratic leaders from Massachusetts and New York and other commonwealths who had been his severest critics on certain occasions publicly thanked the Texan for his splendid services for war veterans, for the farmers and wage earners and for all concerned in the darkest hour of the history of the nation. There are many Texans who were his critics in other years who are willing to accord praise to the Abilene statesman for his record of achievements and for his sturdy defense of the constitution and its bill of rights. He has a fixed place in the picture of today and unless the signs are misleading he will be continued in the public service as long as he cares to offer as a candidate for a congressional post."

Sunday School Lesson

PICTURES OF SILVER

By BEULAH K. HICKS
Judges 7:4-7; 16-21

Gideon, the son of Joash, an upright young man, of the children of Israel, with his father was threshing wheat on his wine press, in their cave, secretly hidden from their oppressors, the Midianites, when an angel of the Lord appeared unto him.

Gideon was a peasant, the least in his father's house, but he remembered the stories of Jehovah's deliverance to his people. His heart burned within him when he thought of their indifference, sin and idolatry.

"The Lord is with thee, thou mighty man of valour," are the words of the angel.

Gideon's surprise was heightened when the angel met all of his excuses and tests to prove his heavenly mission, causing Gideon to exclaim, "I have seen an angel of the Lord face to face."

With this faith and assurance he was clothed with a new spirit and quickly assembled an army of 32,000 men. But God, whose altar had replaced Bael's altar in the city, saw that this was too many men. They might claim the victory in their own might when God wanted them to know that it was "Jehovah, the Lord of Hosts," who delivered them from their oppressors.

Twenty and two thousand of the men returned, acknowledging their fear, leaving an army of ten thousand men with Gideon.

This army came to the spring of Harod, which flows out making a great stream of pure, cold water. Nine thousand and seven hundred of the men lay down to drink from the brook but three hundred were so intent on their work that they waded through the water, not stopping but bending forward to bring their hand in contact with the water, throwing it up with great expertness into their mouths.

To this intent, anxious 300 men God gave the victory over the great army of the Midianites.

Gideon, now a hero in the eyes of the people, came home at the head of his triumphant army, to find the invader gone.

A great celebration, during which the people seemed to forget that God was the one who gave the victory, asked Gideon to become the king of a hereditary, dynastic government; the first idea of such a government among the children of Israel.

Gideon with the knowledge of God and his power fresh in his heart declined the honor but became their greatest judge; the fifth judge to rule Israel.

The later study of Gideon's life is not so happy. Power drew and had a tendency and a willingness to let down the high standards of living as God blessed him with material blessings.

Victory was won when they cried out in the strength of the Lord, using as their battle cry, "The sword of the Lord."

Battles today can be won by those who can use "The sword of the Lord." Those who refuse to compromise the Lord's cause and put into the hands of the wicked, vessels sacred to the Lord.

"Lord, who shall abide in thy tabernacle?"

He that walketh uprightly; that speaketh the truth; that backbiteth not with his tongue; in whose eyes a vile person is contemned; honoreth them that fear the Lord; He that doeth these things shall never be moved.—Psalm 15.

"For the righteous Lord loveth righteousness; his countenance doth behold the upright."—Psalm 11:7.

Missionary Writes Of Work In Japan

The following letter has been received from Joe J. Mickle Jr., of Japan, by the Joe J. Mickle Jr. Circle of the Woman's Missionary society of Eastland:

we will be able to say that it has been 12 years since we first came to Japan. And though the Japan of today was in the making 12 years ago, the changes that have taken place in this time have been great and far reaching. No one can adequately understand Japan who does not realize that she, although an Oriental nation in methods of thought and action, is being remade by western influences. Her one compelling desire is for westernization. Her nationalists and super-patriots may deny this, but Japan's whole program of military expansion is simply the nineteenth century program of western nations carried over into the present twentieth century. In other words, Japan simply finds herself some 75 years behind in some matters. She is determined to catch up. A good part of the world seems to have gone mad, and if political and military nationalism has not seized upon some nations, there are none that are not guilty of an attempt at economic nationalism. I feel that the United States faces her full share of the guilt in this matter.

Japan has, as you know, gone the way of Italy and Germany. There is in Japan today a military mindedness which does not tolerate freedom of critical expressions. It is going to take years of patient tolerance and education in order to get her past this very critical stage. On last Monday night I came back through Osaka railway station (Osaka is the largest industrial city of Japan, population 2,500,000) and one would have thought that Japan was engaged in a major war—soldiers everywhere with thousands of others giving their "banzai" as the trains pull out.

But this situation cannot go on indefinitely. Give them enough rope and they will hang themselves. These things come and go by waves. I note with a great deal of satisfaction the growth of the peace movement among English and American college students. They are saying some things about the war system which shows that they have seen through the false front which has made war possible in the past. Selfishness, greed and lies—dressed up in high-sounding words and carrying the flag to the tunes of a military band, this is the method in all countries. The military party in one country thrives upon the military party in another country. There is no greater falsehood than the one which says that military preparedness prevents war. Military preparedness only gives the war party in another country the opportunity it wants to get more money for their own program—and so the whole world goes on in its mad race, no one having the courage to face the matter squarely and throw the whole thing overboard.

This is the reason that I wish the peace movement in the U. S. A. all success. Because I know it will stimulate similar movements in other countries and at the same time will do more than anything else to knock the foundation from under the military parties. They

Missionary Writes Of Work In Japan

The following letter has been received from Joe J. Mickle Jr., of Japan, by the Joe J. Mickle Jr. Circle of the Woman's Missionary society of Eastland:

Dear Friends: Ever since Mother told me that you had been so kind as to give your missionary circle my name I have been intending to get a short note of greeting and thanks mailed to you. But the days and the months have slipped away (they always seem to go more rapidly in the spring than any other time) without this being done. Perhaps it is yet not too late to let you know how much the honor is appreciated.

MEETING AT EASTLAND WAS FOR NRA PLAN

By J. C. ALLISON

More than a hundred business men and women from Cisco, Ranger and Eastland attended the business men's smoker on the roof garden of the Connelley hotel, Eastland, Tuesday night, and heard speakers discuss the various phases of the national recovery act. A splendid banquet was

TELEGRAM TO PRESIDENT Eastland, Texas, July 25, 1933. Hon. Franklin D. Roosevelt, Washington, D. C. One hundred business and professional men representing almost every line of business in Eastland County in mass meeting endorsed your National Recovery Act and pledge their full cooperation and loyal support. Committee, Earl Bender, Eastland, Tex. E. A. Ringold, Ranger, Texas. Asa Skiles, Cisco, Texas.

served to the guests under the direction of the manager of the hotel, following which cigars were passed.

Judge C. L. Garrett acted as toastmaster and in his pleasing and humorous way introduced the speakers. At the beginning of the banquet and in response to a request from the toastmaster, Asa Skiles from Cisco expressed the thanks of those assembled for the banquet.

Preceding the program, as arranged for the evening, Judge Garrett called upon Supt. P. B. Bittle of the Eastland schools to introduce S. J. Petty, recently elected athletic coach for East-

land. In his remarks Mr. Bittle said that one of the requirements placed upon Petty for his first year was to beat Ranger and Cisco and for his second year to beat Breckenridge and Abilene. Mr. Petty responded with a brief statement of appreciation of courtesies extended him and of his expectations for the future of the Eastland teams.

S. J. Rhodes introduced W. E. LaFon, who is now in charge of Connelley hotel. Judge Garrett then had all visitors to stand and introduce themselves to the assembly.

As the first number on the regular program K. B. Tanner was called upon to discuss the national recovery act. Mr. Tanner announced that he was just pinching for his "Daddy," who was physically unable to be present. He limited his discussion to the giving of excerpts from the writing of two or three officials who will be in the front ranks of the forces in putting the act into operation. These excerpts were brief and to the point, covering the main factors in the entire proposition. Among the points brought out was that the act was not primarily intended to aid private business but to put more men to work, to furnish more buying power and to prevent unfair competition.

Other information given by Mr. Tanner was that fair wages might be determined by taking the sales for January, 1928, and figuring 25 per cent less, because the cost of living is shown to average 25 per cent less than then, and that a uniform cost accounting system would be put in operation in all industry. According to authorities quoted by him no price-fixing would be allowed and businesses were warned to go slow in raising prices, because the aim of the act is to restore buying power and then raise prices in conformity with other elements.

Mr. Tanner then took up the subject of codes and quoted authorities showing that a code which would fit all industries was impossible; further bringing to the attention of the assembly that a code is considered in two parts: the first dealing with labor which must be carried for first and the second dealing with self-control and ethics in trade. He further showed that this act was not of a few months' duration, but would probably become the basis of permanent relations between industry and labor because of the fact that about 70 per cent of business concerned has already expressed a willingness to abide by its provisions.

In response to a call from the toastmaster, H. C. Davis, secretary of the Eastland Retail Merchants association, stated that the purpose of the meeting was to discuss co-operation among all of the neighboring towns, which in effect

will no longer have an excuse for their wild programs.

I feel it is at this point that the women of America can do their bit in the world situation. Whatever helps improve the broad international outlook and peace-mindedness in one country will eventually react on all other countries.

Perhaps Mrs. Mickle could really write a more interesting letter to the ladies than I. Next time I shall ask her to try it.

Again thanking you for the honor which you have done me, I am,

Most cordially yours,
JOE J. MICKLE JR.
June 7, 1933.

CAMPAIGN FOR EMPLOYMENT IS EXPLAINED

WASHINGTON, July 26.—Here is a simple and authoritative explanation by Recovery Administrator Hugh Johnson of just what every employer is asked to do to put into effect the agreement which is the basis of President Roosevelt's campaign:

"You will receive in the mail, about July 27, an envelope with two pieces of paper and an addressed envelope in it. One piece of paper is the President's agreement. Sign that on the dotted lines and fill out the information called for. Put it in the addressed envelope and mail it. Then put it into effect at once.

"On Aug. 1 sign the other piece of paper which says that you have carried out your agreement. Turn it in to your post office. Then you will be given the blue eagle of N. R. A. on a postcard or window sticker.

"Take this to your store or shop and display it prominently. Later if you have not signed the agreement.

Mr. Skiles expressed it as his opinion that the merchants of Cisco would be willing to cooperate in any way possible with the towns in this section in working out plans for carrying out the intent of the recovery act.

Mayor Donald L. Kinnaird of Eastland made a plea for the support of the constitutional amendment, which if carried will permit the issuing of \$20,000,000 in state bonds to supplement government aid in carrying on the relief work in Texas, to be voted on Aug. 26, 26.

In obedience to a motion that was voted unanimously Judge Garrett appointed a committee, composed of Earl Bender of Eastland, Asa Skiles of Cisco and E. A. Ringold of Ranger, to draft a telegram and send it to President Roosevelt pledging the full support of Eastland county for the national recovery act.

FISH WERE DRAINED OFF SALT LAKE CITY, Utah.—There isn't anything funny about this fish story, if you ask Salt Lake county commissioners. Nels Peterson, of Murray, planted 38,000 trout in a private pond. A county culvert became clogged, flooding the pond. With drainage, it was learned that the fish had been drained away also. Now Peterson has a bill for \$190 against the county.

Man Had Glass in Foot For 20 Years

MONONGAHELA, Pa.—Clarance De Zimmer, 35, of Monongahela, Pa., stepped on a broken bottle when 15 years old and although a fragment had penetrated his foot examination failed to disclose it.

Recently he suffered severe pains in the foot. At Memorial hospital here a piece of glass one and one-half inches long and a quarter inch wide was removed from his foot.

Laundry Lessons

TUBBING YOUR DELICATE SILKS

A silk garment is as delicate as your skin. It should be laundered with the greatest possible care. Both the mildness of the soap and the method of laundering are of vital importance to safe washing.

- Washing Suggestions**
1. Prepare tepid or cool suds, using mild, pure, white soap or flakes. Use of home-made soap may invite disaster. Very hard water may be softened with a little borax.
 2. Place garment in suds and wash quickly by gently swirling around and squeezing suds through it. Do not rub. Use a second or third suds if garment is badly soiled, but the entire operation should not take more than five minutes.
 3. Squeeze suds out, without wringing. Put through several clear, lukewarm rinsings and then wrap in towel and squeeze dry as possible. Place towel inside garment in case of printed silk or other combinations of color to prevent running.
 4. Do not let garment stay in towel. If not dry enough to iron, roll in fresh towel or hang up for further drying. Iron while evenly damp with moderately hot iron. Creases which have pulled up in washing should be stretched out by pulling during ironing.

Chevrolet Sales For June Show Very Heavy Gain

With dealers reporting the best June retail sales—78,564 units—since 1929, the Chevrolet Motor Company in the first six months of this year accounted for more than 67 per cent of its domestic quota of 450,000 cars for 1933. H. J. Klingler, vice-president and general sales manager announced today.

Retail deliveries reported by dealers for the first half totaled 304,952 new cars and trucks compared with 253,225 in the comparable period last year, Mr. Klingler stated.

Reported June sales were 80 per cent ahead of last June and 20 per cent ahead of May this year, even exceeding 78,117 units sold in June, 1931, and the 73,700 sold in June 1930.

Despite a slow start in the first quarter due to bank moratoria and generally unsettled conditions, the Chevrolet executive said that in the second quarter retail sales have shown a constantly growing gain over last year, the greatest margin of increase occurring in June with its 80 per cent jump over June of last year.

While registrations for the first six months are not yet available, Mr. Klingler announced that for the year through May 31 his company had titled, in the passenger field, 175,000 units as compared with 167,000 for the next two leading makes combined, indicating a third successive year of leadership. In four of the past six years and again so far in 1933, Chevrolet leads in sales.

This year is the first since 1923 when the country was pulling out of the effects of the post-war depression, that Chevrolet sales in June have gone ahead of May or April, normally the peak months of the Chevrolet year, Mr. Klingler stated. He added that the June mark was reached with no change in the condition of new car stocks in the field, and only a slight increase in used car stocks.

Nature's Own Secret of Health Revealed

Science Discovers That Good Health Depends on Supplying the System Necessary Minerals and Vitamins

Medical Science has discovered that the human body is made up of a very limited number of essential elements. All of these are found in the Mineral kingdom and in foods in their natural state. To be exact, the healthy human body is composed of eleven Minerals and when these are present, in balanced proportion, we enjoy good health.

PROPER FOODS ESSENTIAL
Unfortunately, few of us give any thought to balancing our diets, according to their Mineral content, and therefore we must pay the penalty. A deficiency of these elements brings on Indigestion, Gas, Bloating, Constipation, Headaches, Nervousness and a host of other ills. We soon lose strength, go from bad to worse and become disgusted with life itself.

NEW WAY TO HEALTH
For many long years, Physicians and Chemists have been trying to combine, in proper proportion, the eleven essential Minerals with necessary Vitamins. They realized that the preparation must be easily assimilated and supply the system with these elements so necessary to health.

SCIENCE TRIUMPHS AGAIN
Fortunately, for all mankind, this tremendous undertaking has met with suc-

WHAT HAS HAPPENED Mayor Bobby Kingston has incurred the displeasure of the Civic Reform Committee by refusing to appropriate funds for a public Duck Pond. The committee has asked the Governor to remove the Mayor and the newspapers are trying to drag in the Mayor's private life and his infatuation for Doree Dawn, a "Fallies" girl. To prevent her sweetheart, Fred Fields, from publishing the story and personal injury, Bobby has him arrested.

NOV. 10 WITH THE STORY When Hymie got down to City Hall the next morning all the papers had reporters camping out there, waiting for the Mayor.

"Yes," said Hymie. "We know, we've been in touch with the Governor. We're expecting him in any time this morning. The Mayor's up-town detained upon important official business."

"Oh, yeah," smirked a reporter. "Oh, yeah. And don't ask me what it is, because it's private." "We won't ask, we'll tell you. His official business now is probably coffee and orange juice with the Dawn dame."

"That's a lie. There's not a word of truth in it. Not a word. Hymie declared. It was his official business to deny everything. "Hokey," the reporters chorused. "The Mayor's been seen all over town with her. Come on, play ball. It won't do you any harm and it might do you some good."

Well, I hardly need to point out that you cannot afford to run the risk of public scandal at this time. Particularly with your impending nomination for a second term, suggested the Governor. (Posed by Eugene Pallette, Lee Tracy and Emmett Corrigan)

around with them myself. But he's asking her around for a friend of his. "Aw, you wouldn't kid us, would you?" a reporter asked while the others laughed. "You don't believe me, do you? Well go ahead and print your stories and you'll be up against the biggest libel suit in Now, scram. Who's going to sue for libel?"

"The guy that's going to marry Miss Dawn, a friend of the Mayors." "Who's the happy man?" asked a reporter.

"Now, wait a minute fellows. He's a pretty big guy in his own racket. He's got his own reasons for not wanting to announce this yet. Now this is all the statement you're going to get out of me. Now, scram. I've got city business to attend to."

When Hymie went into the office, he received a call from the Governor's secretary informing him that the Governor was on his way to City Hall. He made a frantic effort to reach Bobby but failed. He got Riley out to round up the Mayor and get him down to the Board of Estimate meeting before the Governor arrived. Then he called the police station and had Fred delivered at City Hall.

So the Mayor was actually embarrassed in the proceedings of the Board when the Governor arrived. The meeting was about to adjourn as Hymie entered. To his way of thinking, that would never do, so he exclaimed, "Hold on, gentlemen. We haven't reached a decision in the airport purchase. Mr. Mayor, may I have the floor?"

"You have it," Bobby smiled. "What I wish to put before the Board is that the erection of a big municipal airport at this time would be a good move in quieting the attacks made against us. In spite of all the mud they are slinging at us, we are going right ahead improving and beautifying our city. These river front lots owned by the Eureka holding company are ideal for an airport and are a great bargain at \$3,000,000. Gentlemen do you realize that we are one of few large cities without its own municipal airport? Can we afford to sit back while cities half our size out-strip us? Today America is air-minded. I move that we join the parade."

"Second the motion," voiced a member. "Just a moment, gentlemen," the Mayor interrupted. "Before putting this question to a vote there are two facts that I would like to put before you. In the first place we don't need an airport. There is one ten miles away. The second fact is that this land is owned by the Eureka Holding Company and the president of that company is the head of the Civic Reform Committee. The purchase of that land at this time would appear as a flagrant misappropriation of the city's funds as a bribe to the reform committee

to discontinue their attacks against us. They can offer me no bribes. In the meantime I offer Mr. Shane's motion." The motion was lost and the meeting adjourned. "Hello, Governor: good of you to drop in," the Mayor greeted as he entered his office. "Kingston, you're involved in a very serious situation," the Governor commenced. "The Civic Reform Committee, the press, the people of the city and the state are making certain charges against your administration."

"Not one of which has any truth or foundation," declared the Mayor. "Well, I'm here to investigate these charges."

"The chief complaint seems to be that I sing at my work. Very well, I'll answer their charges and make them sing a different tune. I've been a good Mayor as well as a good time Mayor. Everyone knows that I've fought to keep the traction fares down. I've given the city more schools than any other Mayor in its history, and playgrounds for the children, too. My record speaks for itself."

"Well, then, I advise that you prepare your answer as soon as possible."

"That's what I've been telling him all along," Hymie interrupted. "You go away and write a swell answer and we'll give it to the papers on Monday."

The Governor paid no attention to the interruption. "There's something further I regret being forced to bring to your attention. I refer to
