Farm Debt Body Has Adjusted 1,182 Farmers Problems

AUSTIN.—Created in the late summer of 1933 as a unit in the president's recovery organization, the Texas farm debt conciliation committee has adjusted 1,182 cases of indebtedness in which farmers of the state have been saved \$1,133,820, it was announced this week by R. J. Murray, state chairman of the organization.

Designed to stop foreclosures and eviction of worthy farm families from their homes by bringing together the farmer and his creditors in a mutually agreeable plan of debt settlement, this program is functioning in the United States through 44 governors and 2,643 county committees.

Texas, largest agricultural state in the Union, is benefiting particularly from this activity, since it is estimated that there are some 500,000 farms in the state with a gross total indebtedness of approximately half a billion dollars.

Named by the governor as members of the state committee were R. J. Murray, Lubbock, chairman; W. P. H. McFadden, Beaumont; J. K. Freeman, Cameron; Theodore Lowe, Brenham; Allen Smith, Bryan; G. L. White, Hillsboro; W. A. Wurzbach, San Antonio; Sam J. Smith, Austin; D. H. Wall, Grapevine; D. H. Perry, Robstown; E. P. Greenwood, Dallas; Fritz Engelhard, Eagle Lake; J. E. McDonald, Austin; Dr. W. S. Jacobs, Houston; Fred W. Davis, Austin, secretary.

Operating as a division of the rural department of the Texas relief commission, the state committee set up administrative offices and divided the state into six districts with field representatives as follows:

Lubbock, containing 54 counties and 51,865 farms, Guion Gregg; Waco, 57 counties and 77,620 farms, E. A. Tweedy; San Antonio, 55 counties and 86,172 farms, C. A. Mayfield; Bryan, 29 counties and 69,597 farms, A. S. McSwain; Kaufman, 23 counties and 104,934 farms, O. E. Lillard; Bowie, 36 counties and 105,223 farms, Frank J. Moss.

Oil Well Flows But Does Not Pay

PALESTINE, Tex.—An oil test into which he sank his lifetime savings 30 years ago still mocks John Nemer, a native of Syria.

Nemer drilled the well, known as the John Nemer No. 1, to 1,100 feet, using crude equipment of that date. Several shallow sands were found, but none in profitable quantities.

The well was abandoned because, when a plentiful supply of oil was discovered, there was too much water mixed with it.

VOTE TAKEN THURSDAY IN UPPER HOUSE

WASHINGTON, May 23.—The senate today sustained President Roosevelt's veto and killed the Patman bonus bill by a vote of 40 to sustain and 54 to override. A two-thirds vote was necessary to override.

Champions of the \$2,200,000,000 measure could not win the two thirds majority necessary to have the senate join the house in overriding.

The vote against the Patman plan definitely killed it for the session, but did not down the issue.

Bonus supporters planned soon to offer a plan giving Mr. Roosevelt a chance to pay the bonus through treasury financing, work relief funds, or issuing U. S. notes.

They believed offering these alternatives might win votes of some senators who opposed the mandatory currency issuance provision of the Patman bill.

President Roosevelt warned the Patman bill would set the nation on a dangerous course. The tone of his veto indicated he would also veto any other plan for cash payment.

The proposed strategy of the bonus forces to offer their alternative plan as a rider on an administration bill, may gravely complicate the New Deal legislative program for the remainder of the session.

As debate proceeded before packed galleries, Patman forces tried to swing votes their way.

Senator Elmer Thomas, Dem., Okla., warned that sustaining of the veto would not kill the issue. Already bonus advocates have begun a plan for a new attack.

"I've been beaten before and I can take my beating as well as any other," Senator Huey Long, Dem., La., said. "If I be the only one beaten it wouldn't matter, but it is the veterans that are being beaten," he continued.

AUSTIN, May 22.—Hon. J. E. Hickman, chief justice of the 11th Court of Civil Appeals at Eastland, today was named by the state supreme court as a member of commission to assist the court.

The place was made vacant by appointment of former commissioner Richard Critz, Taylor, to a place on the court bench succeeding the late Associate Justice William Pierson. Judge Hickman will serve Judge Critz's unexpired term and was appointed for the six year term beginning June 30, 1935.

Judge Graham Smedley, formerly of Wichita Falls, was re-appointed a member of the commission.

Dennis Ratliff of Haskell, was appointed district judge to succeed Grissom. Judge Ratliff was a member of the 42 and 43 legislatures.

Judge Grissom was here today in conference with Gov. James Allred. Judge Grissom is 37 years old. Just 10 years ago he was associated with Allred in prosecuting a case transferred to the Haskell district. After serving as prosecuting attorney he succeeded Judge Bruce Bryant, first assistant attorney general when Allred was attorney general.

Judge Grissom will take the place vacated by Judge W. P. Leslie, who was appointed as chief justice of the court of civil appeals, to succeed Judge J. E. Hickman, who was appointed on the supreme court commission by Gov. James V. Allred.

Judge Grissom is known in Eastland, having appeared in the 88th District court in May, 1930, as prosecutor in the trial of Will Fritz, who was on trial for murder, the case having been transferred from Haskell on a change of venue.

He has also visited Eastland on a number of occasions on business.

GOOD TIME IS PROMISED FOR ROD FETE

Plenty of entertainment is promised to those who attend the "89 Airline Highway Celebration" at Eastland on Thursday, May 30, Memorial Day, according to Judge Milburn McCarty, rural chairman of the celebration.

Local arrangements committees are working out the details of the entertainment features. A promise is an arranged program publication within the next days.

The famous Cowboy Band from Hardin-Simmons university, Waco, and the 30-piece military band from the North Texas State college at Denton, will be the main band attractions, a will Ranger high school band, the Eastland high school band, and a famous American Legion Tickler band from Ranger. Dr. Harry A. Logsdon, the director of the Tickler band, announces that he will have a complete new program worked up for the celebration.

Both Judge Ely, retiring chairman of the highway commission, and Harry Hines of Wichita Falls, present chairman of the commission, will deliver addresses. Judge Sam Russell of Stephenville will deliver the address of welcome to the committee, which will be responded to by Senator Grady Woodruff of Decatur. Hamilton McRae, president of the Eastland Chamber of Commerce, will deliver the address of welcome to the city of Eastland.

The celebration will start at 10 o'clock Thursday morning, May 30, and will continue throughout the day, with a basket dinner at noon. All towns from Weatherford to Abilene, and even farther west are co-operating with the people of Eastland, in their plans to entertain 10,000 people in the celebration of the opening of Highway 89, the airline route from Ranger to Weatherford, for traffic. This route is 14 miles nearer to Fort Worth and Dallas.

This strip of road has not yet been paved, and at the present time is only suitable for travel in dry weather, but it is being maintained by the highway department, and it is almost sure, to be paved within the next months with appropriations that are now being made for paving projects in Texas.

Judge McCarty states that an invitation is extended to all the people in this section of the state to attend and take part in this bi-centennial celebration.

Bankhead Cotton Test to Be Taken Up In Supreme Court

WASHINGTON, May 20.—The supreme court decided today to entertain an attack on the validity of the Bankhead cotton act.

It was challenged in a suit by Lee Moor, a Client, Texas, cotton grower, against the Texas & New Orleans railroad.

Moor in his plea said he was obliged to grow to at least 2,600 bales of cotton during the 1934-35 crop year. Of this amount he could sell only 855 bales, tax free, under the law, which imposed a six-cent per pound tax on all cotton sold in excess of the farmer's allotment.

Moor offered his excess cotton to the railroad at El Paso. It refused to accept it for shipment without payment in advance.

All Dogs Must Be Vaccinated and Licensed Eastland Officials Order To Combat Threat of Mad Canines

All dogs in Eastland must be vaccinated and licensed at the city hall, Eastland commissioners ordered Monday night in their regular session.

The ordinance provides that dogs must be vaccinated and licensed at the city hall for \$1.50.

Dogs running at large will be seized by police, held for three days, and if not claimed will be disposed of. A fee of 25 cents per day will be assessed against owners of dogs which are impounded. The owner, if he claims his dog, must pay the fine and

comply with the ordinance. A child of Mr. and Mrs. Roy Lawson and Mr. and Mrs. Ed Castleman have taken or are taking Pasteur treatments. At least one dog has been positively identified as mad with rabies.

Doctors cautioned Eastland parents to watch their children. A dog who has rabies, Eastland doctors pointed out, will soon die. Before his expiration, they said, he will go into a paralytic state.

The situation was described by commissioners as serious and calling for closest co-operation of all. People who reside in the country who bring dogs with them to town must confine them in their vehicles or comply as residents of Eastland.

With 50 tags at the city hall, J. F. Little, city manager, Tuesday morning thought that the supply was sufficient for one week.

Other business completed by the commission included approval of the following orders from the

previous meet: Employment of J. C. Allison to transfer the unpaid tax list to the delinquent tax roll. Employment of M. H. Kelly as city clerk and his posting of bond of \$5,000. Purging the commission record minutes of April 27.

The plan to have a replica of the mission of San Francisco de la Tejas, near Houston, oldest Catholic church in the state, built for the fair, was also approved.

General Pershing advises war veterans to 'keep their feet on the ground and stick by the government.' With Congress continually going up in the air about something, that's quite a trick.

Large advertisement for Camels cigarettes featuring athletes and the slogan 'THEY DON'T GET YOUR WIND'.

LOU GEHRIG has played in more than 1500 consecutive big league games. Such an athletic achievement takes "wind"—healthy nerves—"condition." Lou says: "For steady smoking I pick Camels. They're so mild they never get my 'wind' or my nerves."

So mild, athletes smoke as many as they please—and that's real mildness! GOOD NEWS! Most of the pleasant things in life are doubly pleasant when you're "in condition." That's why it's such good news to hear that Camel's costlier tobaccos are so mild you can smoke all you please. Athletes say Camels never get your "wind."

Of course you want mildness in a cigarette. And the athletes—to whom "wind," healthy nerves, "condition" are vitally important—insist on mildness. Lou Gehrig, baseball's "Iron Man," says: "Camels are so mild they never get my 'wind.'" George Barker, intercollegiate cross-country champion, says: "Camels are so mild, they don't cut my 'wind' in any way." Bobby Walthour, Jr., star of the six-day bike grinds, says: "I've got to have 'wind' in bike racing. For my cigarette I long ago chose Camels." Tommy Armour, speaking for golf, Bruce Barnes for tennis, and Betty Bailey for the aquatic sports—all agree: "Camels don't get your 'wind.'" What this mildness means to you!...It means you can smoke as many Camels as you please. Athletes say Camel's costlier tobaccos never disturb your nerves—never tire your taste—never get your "wind."

Camels COS TOB

Washing Arab and Texaco gasoline and different motor oils. Car washing will also be included.

The motive of the station, it was stated, is to raise money to send the operators to Weatherford junior college next fall. All profits, it was explained, derived from the running of the station through the summer months will be placed together and will in no way be divided at the end of summer.

Mr. Coleman is receiving no compensation for the enterprise, but is doing it because he wanted to see the group attend college, and he hit upon the idea of opening the business to see realization of the plan.

When school opens next fall this group with Coleman as the sponsor will go to Weatherford and rent a house. They intend to do a great portion of their cooking as well as housework and washing. The house will be furnished with furniture from their homes in Eastland.

They have hopes of putting three men on the football team this fall, Darrell Tully, Hart and Marshall Coleman.

Besides running the station the boys announced they are open for any kind of odd jobs that can be had around town around summer months. Anything from mowing lawns to any other duty will be performed, they state.

Their headquarters will be at

Horned Frog Service station, corner of Olive and Lamar streets.

"CRACKED ICE"

BY SEBE

The dear old institution of learning seems to be on a slump or something along that order. When final exams are over that is the face that every student wishes to be the furthestest from, but on the other hand there are some that just can't stay from summer school.

Dearest, it would be a quiet pleasure to have your company at the Carnival Thursday night, May 10, 1935. D. F.—Well, well, it looks as if Foster has gone in for note writing also. After he wrote this one he wrote an encore something like this—506 Plumber street Eastland Texas. If this isn't formal enough to suit you I will arrange to correct my mistakes as you see proper. Love D. F. The young lady that Foster seemed to be so interested in seems to be a visitor in the dear village.

When we asked Garrett if he was through with women he merely replied, "I ain't talking."

As Tully and Leslie slipped near the bed of the sleeping Mahon they heard him muttering something about taking a date to that outfit. Well, Mahon if you are that hard up maybe the callant Tully would introduce you to some of his Cisco friends. Whats the chance Huff Ham?

Lost—five pound channel catfish somewhere west of the spillway at the Eastland Lake. Finder please contact Bailey Hinton and receive a liberal reward. That was his fish but he didn't catch him.

Advice to the lovelorn—Tanner thy name is mud if you don't get fane in a bit earlier in the future. My good friend Bobby tells me that things didn't run so smooth the other night after you kept her out until the wee hours.

I can't see why Jack Collins and Bill Doss don't meet on a back street and battle it out some dark night. It ought to be a cleaning up business. Get the connection, Clara. It may be a little deep but give it a little thought and things ought to smooth out O. K.

The Junior-Senior dance proved to be a big hit and I don't mean a ball game by that either.

If a girl danced five steps without getting tagged someone was considered stuck. The stags were in the largest number over, but I think everyone got to dance a step or two except Tohe Hart, just think of the girls who lose sleep thinking of that blonde wonder and he doesn't seem to give a kick whether they speak or not. Just think what a sensation he'd be if he only had that big brother's technique on making love. I tell you it would be unbeatable.

Cy Perkins just can't see how it can be done, and I'm not positive but I still have hopes.

Bob Hart is the kind of a boy who will play softball until seven forty-five if he has a date for eight o'clock. Being late might make him more important, but I am an arseional friend of some boys that I wouldn't advise to pull such a thing.

FLASH—D. Tully, idol of Eastland and half of Cisco (2nd half), is actually planning on doing some work this summer. I can't understand what made him do it unless he saw that John Hart was going to atke a chance too.

And by the way, this has nothing to do with Lewal, Williams. Its strictly business.

Can you imagine a speech teacher making an impromptu speech? Powell did. I thought they had a speech already made out for every occasion.

Can you imagine G. W. Curry offering to play tennis with Frances. That guy surely doesn't know Slew very well.

"Peaches" Davis received the grandest compliment ever to be handed down a few nights ago. The fellow at the carnival who had charge of the baby ride told her she was too big to ride. I'll bet she hung around that guy all night asking him just so she could hear him say that.

The sleeping beauty (when he has his head covered up) of a camping trip—Bob Sikes. That guy would sleep if fish were jumping out on the bank so fast you couldn't count them.

I see Aubrey Brawner has been running around in that white nudde jumper a good bit lately. Maybe he could join in with Bill and Jack and make it a battle royal.

So until I see your smiling faces around at the Horned Frog Service Station, so long.

Lowell Armour, Jack Criss, Henry Watkins, Lawrence Thompson, Sidney Brahm, James Fields, Billy Wilson, Chester Wood, Ray Box, James Eppler, Bert Elkins, Jimmie Howell.

Second class badges were presented Russell Perine, Jim Connelley, Ed Gilkey, E. J. Pryor, Gates Brelsford.

First class badges went to "Fuzzy" Furse, Leo Wolf, Bobbie Perkins, Jack Johnson, Bob Leslie, John Mackall.

Star badges were claimed by Ed Stanford, Earl Braley, John Kley, Collin Gray Satterwhite, Wesley Lane.

Eagle Scouts Horace Horton and Raymond Pipkin were presented Eagle bronze badges.

Merit badges were given Earl Braley, Bob Perkins, Collin Gray Satterwhite, Ed Stanford, Jack Johnson, John Kley, Wesley Lane, Horace Horton.

Next court of honor will be held the first week in July.

Visitors were Rev. C. W. Estes and Mrs. Grady Pipkin.

Mrs. W. C. Bedford, will be glad to know that she is expected to be able to leave the Burnett sanitarium at Fresno, Calif., on Saturday after having been there two weeks being treated for serious injuries received in a head-on collision of two cars. The most serious of her injuries were a dislocated vertebra. For the past two years Mrs. Vestal has made her home in Fresno.

John Mendendall is improving slowly after having had one of his arms broken and several minor injuries by a fall several days ago. His many friends hope he may soon be entirely well.

Rev. and Mrs. Z. C. Chambliss are here this week during the vacation before the opening of the summer session of the Baptist seminary at Fort Worth. Last Thursday they were called to Tulla, Texas, to attend the funeral of one of his sisters, who died of dust pneumonia. She had visited here two years ago and made many friends, who regret to hear of her death and all of whom extend sincere sympathy to Rev. Chambliss.

Then on Thursday evening at the high school auditorium the commencement program was given as follows: Processional, Miss Edna Parks, pianist; invocation, Rev. H. H. Nance; salutatory address, Carl Robert; class history, Walker Henry; class poem, Morris Nance; valedictory address, Miss Joy Wilcoxson; introduction of speaker, Supt. M. L. Cobb; address, Hon. Judge Clyde L. Garrett; presentation of diplomas, Supt. M. L. Cobb; class song, Miss Edna Parks, accompanied by Miss Edith Creighton; benediction, Hon. Judge Clyde L. Garrett; recessional, Miss Edna Parks, pianist. Those to whom diplomas were presented were Misses Ruth Abel, Olive T. Arthur, Dorothy Dishman and Joy Wilcoxson (valedictorian), and Messrs. Walker Henry, Leroy Jones, Morris Nance, T. C. Robinson, M. T. Rouse and Carl Robert (salutatorian). An unusual circumstance in connection with the graduation of Carl Robert is that he is the sixth child of Mr. and Mrs. A. C. Robert to graduate from Desdemona high school during the past 12 years and with only one exception they have been either first or second honor graduates.

L. E. Clark, accompanied by Grady Burnett went to Austin on Tuesday of last week. At DeLeon they were joined by several business men who went with them to appear before the state highway commission and ask for the extension of highway No. 81 from DeLeon to Desdemona. This highway extends from DeLeon to Fredericksburg and connects with other important roads.

Sincere sympathy is being extended to David Parks on account of the death of his mother, which occurred on May 9 at Iredell. Mr. and Mrs. Parks had visited her a few days before her death and went to the funeral. She was over 80 years old.

Miss Edith Creighton left Friday for her home at Strawn and Miss Frances Battle left Sunday for her home at Commerce. The many friends of these popular teachers are glad they will return here in September.

TWO SCORE ARE INJURED BY HIGH WIND

Destructive winds cavorted freakishly across Texas today, injuring more than two score persons and causing damage to property amounting to hundreds of thousands of dollars. Rains sent streams flooding across highways and farms. Storm warnings for small craft were in effect along the gulf coast and a thunder squall blew gusts at 50 miles an hour. Three persons were injured seriously and several others received minor hurts at Fort Worth when a small tornado ripped through a residential district at daybreak. The storm, accompanied by rain and lightning, zig-zagged a course through several blocks of homes. One negro was hurt seriously and several other persons suffered minor injuries when a tornado struck Hearne on the South Texas coastal plain. The storm cut a swath through the residential section. A cloudburst accompanied the blow. Another tornado at Teague in Eastern Central Texas, injured one

Suppose YOUR Business were to be Shackled

An industry that you depend on is now facing ruinous governmental interference

YOU have the right as an American to engage in any decent business. Let's assume you are a business man who has worked hard and invested money to provide a service which your fellow citizens desire and needs. What would you say if a law were proposed in Congress that would shackle your business with so many regulations that you could not do it? You probably would say, "I never thought it could happen in America." Yet one of the country's great industries which serves you every day with something you desire and need is threatened with destruction by law. It is the gas and electric utility industry. A bill known as the Wheeler-Rayburn bill now in Congress aims first to chain this industry to severe regulation, and then deliberately to cripple and destroy it. Your local electric company would be seriously affected. The bill would abolish the public utility holding companies which give good service under the terms of this proposed law, but only public utility holding companies not all public utility holding companies, but only those engaged in electric or gas business or both. That is significant. Men who are experts in legislation think this bill is only the first step in a program of certain legislators to put government into all business. Other lines of business will be attacked, perhaps even yours. The Wheeler-Rayburn bill may be the first big step toward National Socialism!

Winds smashed through Marlin, accompanied by a two-inch down-pour. High water wrecked the Cedar Springs bridge over the Brazos river in Falls county.

A tornado circled the east side of Gilmer at the northern edge of the East Texas oil field, demolishing barns and uprooting trees.

Large sections of Gainesville, near the Oklahoma border, were under water as the Elm Fork of the Trinity river and Pecan creek, which flows through the center of town, overflowed. At least 50 residences were flooded and from 150 to 200 were homeless.

The Rio Grande had swollen 15 feet and was near the flood stage. The highway from Del Rio to Eagle Pass was closed.

The dam at Lake Decatur, 50 miles north of Fort Worth, burst under pressure of the great volume of water stored by rains and other the town was without a water supply. The flood loosed by the break washed out many bridges.

ALTUS, Okla., May 18.—One woman was drowned and seven persons were missing and believed dead today in floodwater of Turkey Creek and the Salt Fork of the Red River west of Altus.

Torrential rains north and west of Altus sent creeks and the Salt and Elm forks to new high stages in several counties.

One white farmer was marooned in a tree, with swift currents from Turkey creek surging around him and forestalling rescue. Scores in the flooded area were rescued by boats. All but the missing seven were believed safe.

4th Week of May Festival of Hits at Lyric Theatre

Leading Attractions To Be Presented During This Week

The "May Festival" shown it has held audiences breathless with its thrills. Jean Parker and Russell Hardie have the romantic leads in the picture.

On a midnight preview at 11 p. m. Saturday night and for one day only Sunday, the attraction, "G Men" will be shown. James Cagney in the starring role in the production, has the best role since his outstanding success in "Public Enemy." The picture is said to be the most thrilling and dramatic picture ever presented based on sensational newspaper headlines which have covered the front pages of newspapers all over the country. While the picture presents no emphasis on any time or place of the actual battles, few will miss the actual connections that take

Stars in New Comedy

That superb screen team, Guy Kibbee and Aline MacMahon, stars of such recent film comedies as "Babbitt" and "Big Hearted Herbert," return in their latest picture for the Warner Bros. cameras, "Mary Jane's Pa." It will open at the Lyric theatre on Wednesday.

"CLIVE OF INDIA" AT THE LYRIC MONDAY and TUESDAY

The great pictures of today are war pictures—without war. Darryl F. Zanuck, who recently completed "Clive of India," with

"I selected 'Clive'" he goes on to explain, "because the background has the sweeping breadth and dramatic brilliance of war without the roaring of cannon.

"The success of my previous production, 'The House of Rothschild' proved the popularity of this type of film. The story centered around Napoleon's campaigns and his final downfall at Waterloo, yet Napoleon and his soldiers were seen and heard for only a few seconds on the screen.

"Wars are not so important of themselves, for defeated people rise to fight again. The effects of war on those people is the significant thing, the thing which makes great drama. Looking back over the big pictures of the past, we find not only 'The House of Rothschild,' but 'Cavalcade,' 'Seventh Heaven' and even 'Smilin' Thru' with war as an undercurrent.

"All Quiet On the Western Front" and 'The Big Parade' were significant not so much for their big battle effects as for their protest against the inhumanity of war. The actual fighting scenes could have been eliminated to the extent that we minimize them today, and the pictures still would have been great.

"Similarly in 'Clive of India,' which exploits the daring and dramatic manner in which Robert Clive rose from the position of

humble clerk to become England's greatest hero, the scenes by which he obtained his victories on the battlefield are confined to mere flashes.

"There is in the life of Robert Clive a greater drama than the stirring scenes of his conduct in battle. I wanted to find for Ronald Colman a story of really great breadth. When I saw on the London stage that private life story of Robert Clive, without any of the rattle and pomp of warfare, I knew I had found the story I was looking for. That is why I selected it for my first million-dollar production for 20th Century Pictures."

Loretta Young is seen opposite Colman as the lovely wife who inspired Clive's bold deeds in this Joseph M. Schenck presentation which Richard Boleslawski directed from a script by W. P. Lipscomb and R. J. Minney, authors of the London stage hit of the same name. "Clive of India" is released through United Artists.

READS OF SLAYINGS AND WINS SELF A JOB

Regis Toomey was reading an article concerning the slaying of a Department of Justice agent by gangsters, when he was called by the First National studios, with an offer. Next day he discovered he was to play in "G Men," the story of the Department of Justice.

The War On Crime

Margaret Lindsay, fresh from their triumphs in the greatest roles of their career in the exploits of the Department of Justice's battle of crooks. See them in "G Men" at the Lyric theatre Saturday night, and Sunday.

"Sequoia" Depicts Revolt of Animals Against Mankind

An all-star supporting cast headed by Ann Dvorak, Margaret Lindsay and Robert Armstrong add much to the attraction.

On Monday and Tuesday the attraction "Clive of India" will be presented. Co-starring Ronald Colman and Loretta Young, this million dollar production from the 20th Century Studios, presents this popular pair in the greatest picture of their career. The story is taken from actual chapters of the life of Robert Clive, who rose to greatness only to be dragged down and broken by his enemies. This production has received the highest awards from critics all over the country including a four-star rating from the Liberty Magazine.

On Wednesday and Thursday the attraction, "Mary Jane's Pa," will be shown. Rollicking humor, pathos, fast and intense action, romance, all are contained in this light comedy-drama. Co-starring Guy Kibbee and Aline MacMahon, this inimitable team have made a worthy successor to their last outstanding comedy success, "Big Hearted Herbert." Others in the cast include Betty Jane Haney, a winsome child actress, Tom Brown, Nan Grey and Robert McWade.

Secrets of the wild things of the great American forests and animal scenes never before witnessed by human beings are now to be seen on the screen in "Sequoia" (pronounced "See-quo-yah"), Metro-Goldwyn-Mayer's startling and "different" picture, which will open Friday at the Lyric theatre.

Struggles to the death between a male deer during the mating moon, the unceasing warfare of mountain lions and other wild animals have been captured by the camera after one of the most unusual series of expeditions in the history of motion pictures.

For months in the spring and summer, until heavy snows blocked the roads and trails, M-G-M's little band of adventurers penetrated the great mountain wilderness of the West. With camera and sound truck they went into governmental game preserves where the sound of a gun is never heard, and where wild life exists as in the days when the white men first came across the prairies.

Day after day and night after night they lay in wait beside game trails and water holes, little by little recording in scene and sound the life-and-death adventures of the animals. The result is a thrilling and breath-taking record of life in the American wilderness.

Jean Parker, one of M-G-M's youngest and most sparkling players, and Russell Hardie, who scored on the New York stage before achieving outstanding notice in pictures, have the principal roles, although the center of interest is held by the animals. Others in the cast are Samuel S. Hinds, Paul Hurst, Ben Hall, Willie Fung and Harry Lowe Jr.

Based on the novel, "Malibu," by Vance Joseph Hoyt, the unusual picture was filmed under the direction of Charter M. Franklin.

HOW ANN DVORAK KEEPS HER FIGURE

Ann Dvorak whose dancing thrilled audiences in the Rudy Vallee picture, "Sweet Music," and who has one of the leading roles in the James Cagney Picture, "G Men," which will open at the Lyric Theatre at 11 p. m. Saturday night, keeps fit by a series of exercises she invented herself.

Wearing shorts and a sweater, Ann begins her day by jumping up and down from a crouching position. Then she does shoulder exercises and high kicks, in order to gain suppleness and strength of the stomach and back muscles.

Ann takes her exercises in the center of a bare room, shunning all apparatus, and her slenderness is the envy of her girl friends. She is five feet, five inches in height and weighs only 110 pounds.

CRIME EXPERT USED FOR MAKING "G MEN"

So that no technical error could creep into sequences of "G Men," the First National picture showing at the Lyric Theatre Saturday night and Sunday, the company engaged Frank B. Gompert, criminologist of the Los Angeles county sheriff's office, one of the country's leading experts. James Cagney has the stellar role in the picture, which depicts the U. S. Department of Justice men's battle against crime.

LEARNS TO SHOOT SUB GUN IN DAY

Barton MacLane, who plays "Public Enemy No. 1" in the Warner Bros. picture, "G Men," which comes to the Lyric Theatre on Saturday night, became a proficient gun marksman in a single day. Despite his many years as a stage "heavy," he had never seen an actual machine gun until his assignment to the role of a gangster in "G Men."

Eastland is Preparing for Highway 89 Fete

MAIN PROGRAM TO CENTER AT PARK, SQUARE

Relief Office To Close On May 30; County May Follow Suit.

The Highway 89 Airline Celebration to be held in Eastland May 30 will open on the south side of the square at 10 a. m. and at 2 o'clock will be centered in the City Park, members of the Eastland arrangements committee decided Monday.

Opening their meeting at the Chamber of Commerce, and then later going to the park for an inspection, near final details of the celebration were planned.

Efforts to have county offices closed will be made by committees. Relief officials have already notified the celebration group that their offices will be closed on the Memorial date.

Milburn McCarty, general chairman for the celebration, reiterated his prediction that over 5,000 will be in Eastland on the day.

Ben Scott, F. V. Williams and Grady Pipkin were named to assist C. J. Rhodes in his solicitation of funds in Eastland.

J. F. Little promised that the band stand will be moved to the park and would be painted. The new city manager was appointed to contact the Eastland fire department so that the Ranger group can come to Eastland on a suitable date and assist in decorating.

The Eastland arrangements committee decided to give Boy Scouts privileges of selling cold drinks and ice cream at the park for 10 per cent of their profits. The 10 per cent will be allocated by the committee to celebration expenses.

Program for the celebration is practically complete. The program will open with an address of welcome on behalf of the committee by Judge S. M. Russell of Stephenville. Hamilton McRae, president of the Eastland Chamber of Commerce, will welcome in behalf of Eastland.

Response will be made by Senator Grady Woodruff of Decatur. At noon the celebration program

will close, to resume at 2 o'clock in the Eastland City Park.

Harry Hines of Wichita Falls, new member of the highway commission, and his predecessor, W. R. Ely of Abilene, are slated as two of the principal speakers of the day.

The fleet is maneuvering somewhere in the Pacific and it is one of the largest displays of war craft ever seen, with some 153 ships in the flotilla besides 1,300 airplanes.

FORD V-8

Everything you want in a modern motor

WHEN you talk to the man who owns and drives the car, you're pretty sure to get an opinion you can bank on. We asked a recent purchaser of a Ford V-8 how he liked it.

"It has everything," he said. "Everything I've ever wanted in a motor car."

Nothing spectacular about that—no loud shouting. But it sums up the whole story of the Ford V-8 and the reason it is setting the pace for 1935. That has been the Ford idea always—to give people a well-balanced, all-around car. No one feature is stressed at the expense of others.

Of course the V-8 engine stood out from the beginning. The idea of putting into a low-priced car an engine which had always been associated with the most expensive makes was revolutionary. But it was not an experiment. We knew it would prove to be economical, smooth and powerful—because we had had it.

In this 1935 Ford we have tried to put the entire car up to the modern performance of the V-8 engine. We have aimed for balance and comfort—as well as usefulness and economy. You probably know some people are driving this car. We would like to know how they like it.

Sheriff Named In A Suit For Death of Man

Sheriff Virge Foster and the American Surety company of Dallas, his bondsmen, were named defendants Friday in a \$40,200 suit filed by Mrs. Ethel E. Bachus, whose husband was allegedly accidentally fatally shot during a raid on a still last year.

Mrs. Bachus, acting as best friend for six minor children, alleges in the petition that Sheriff Foster acted unlawfully and was negligent in the performance of his duty when he shot at and in the direction of her husband, Stephen W. Bachus, who she claimed offered no resistance and fled.

The accident occurred near Nimrod, Dec. 6, 1934.

Children for whom Mrs. Bachus filed the suit are Marsh Waston, 13; Warren, 11; Bernice, 10; Ivan, 7, and Eugene, 3.

She filed an oath stating that she was unable to give security for costs in the suit.

Of the \$40,200 asked, \$200 is for funeral and burial costs of her husband. Mrs. Bachus alleges in the petition that her husband was a farmer and trader at the time of the accident and was earning \$1,500 per year. Also, she recites that formerly he was a mechanic and earned \$3,000 a year.

Sensational Tire Hunt Finished By Noted Detective

One of the most unusual and spectacular surveys ever conducted by an American manufacturer has just come to an end in New York City with the arrival there, following a two-months' "tire hunt," of Joseph A. Faurot, one time Deputy Police Commissioner of that city and the man who first used fingerprints as evidence in an American courtroom.

News of Faurot's sensational search for tire evidence from one coast to the other has just reached C. T. Lucas, local Goodyear tire dealer. The famed detective's inquiry has revealed overwhelming national approval of the new "G-3"

All-Weather Tread tire, it is stated by Mr. Lucas.

Setting out from New York with James Cannon, ace Manhattan newspaper man, who had just completed work on the Hauptmann case for his afternoon daily, Faurot visited parking lots, gas stations, garages and back yards from New York to San Francisco and from Winston-Salem, North Carolina to Detroit. Wherever he paused, he "three-degred" car owners for tire clues. They interviewed thousands of tire users and the results of this inquiry, according to Mr. Lucas, produced evidence of the outstanding performance of the "G-3" in all parts of the nation.

"I have been gathering evidence for a long time," Faurot stated on his return to New York. "I guess I have worked on every kind of case that comes into a big police department's jurisdiction. But never have I seen a clearer case than that in favor of the 'G-3'. My notes

contain cold facts I gathered in Whitesville, W. Va., Kansas City, Mo., Royal Oak, Mich., Albuquerque, N. M.—and hundreds of other places. I say they are cold facts. That's the truth. Every leaf out of my notebook shows satisfaction in the ownership of G-3's."

Faurot is present Chief of the Department of Identification of the Commercial Crime Commission. Formerly, as Deputy Police Commissioner of New York, he headed all detective activities for Greater New York. He is widely known as the man who introduced the Bertillon system of fingerprint identification to America. He was chosen by The Goodyear Tire & Rubber Company as the ideal man to gather facts on the nation's response to the new All-Weather Tread.

According to P. W. Litchfield, president of The Goodyear Tire & Rubber Company, who greeted Faurot on his arrival in New York, the trip has already registered re-

sults. "It is the most successful inquiry into consumer demands and consumer reaction that we have ever undertaken," said Mr. Litchfield. "Our new G-3 tire had been subjected to the most elaborate tests at our factories, but we wanted the real facts showing how it was performing in the hands of tire users. Mr. Faurot has brought us our answer—a report from the country at large. His reports more than ever confirm every claim we have made of the tire. We are highly gratified."

Lumber Industry Shows Improvement

AUSTIN.—Considerable improvement occurred in the lumber industry during April, according to the University of Texas Bureau of Business Research. Reports from the Southern Pine association show that weekly production per unit was 238,190 board feet, an increase of 3.8 per cent over the previous month and 9.7 per cent over April last year. Average weekly shipments per unit, 247,636 board feet, were .6 and 23 per cent respectively above the two comparable periods. Stocks on hand April 30 were only 577,688 board feet, a decline of 1 per cent during the month and 26 per cent lower than on April 30, 1934.
