## WPA Workers Are Pleasing Bosses, Sponsors—NRS

Spiking rumors that workers assigned to works progress administration projects are proving unsatisfactory, Crigler Paschall, National Reemployment Service director at Eastland, stated Wednesday that project managers and sponsors have registered no complaint.

Eastland county has four projects in progress, Paschall stated, which afford employment to 250 men.

Projects in progress Wednesday were the street grading job at Eastland, repair of West Ward school at Cisco, the Sandy Park work at Cisco and repair of the Gorman-Desdemona road.

## Bank Conditions Show a Decided Recovery Trend

NEW ORLEANS, La., Nov. 12. Bank deposits and portfolios reflect evidence of great recovery, President Roosevelt told members of the American Bankers Association today in a letter read by Jesse Jones, chairman of the RFC.

"I have watched with great interest the continued improvement in banks throughout the country in the past two years. I am gratified as I am sure every member of the American Bankers Association is gratified, to know that all banks are now in a strong position and I hope they will take full advantage of the new banking act and provide credit when it can be done on a sound basis, to business and industry and to real estate," he wrote in his letter.

## Sanitation Project Approved In County

SAN ANTONIO, Nov. 13.—States Work Progress Administration officials today made available \$782,034 for various district directors in Texas for the operation of 58 projects. Jobs were authorized for 2,984 Texans on relief.

Included in the projects granted were: Eastland County—Sanitation improvement, federal funds, \$4,614, sponsors \$1,476, workers 21.

## CIVIL SERVICE EXAMS

The United States Civil Service Commission has announced open competitive examinations for the positions of district director and district supervisor, bureau of motor carriers, interstate commerce commission. The annual salary for director positions is \$5,600, and for supervisor positions, \$3,800.

Applications must be on file with the U. S. Civil Service Commission at Washington, D. C., not later than Dec. 2, 1935.

## QUANAH DOWNS MAVERICKS BY 20 TO 12 SCORE

Despite a showing of marked improvement in offense and defense, particularly in the latter, the Eastland Mavericks were downed, 20-12 by the Quanah Indians on Welch field Friday afternoon.

H. Taylor, stocky alternating end and backfield man, made both scores for Eastland. The first was on a 57-yard run in the second quarter and the second on a pass from Key in the fourth period.

Quanah scored in the first, second and fourth quarters. C. Edmondson went around right end for the Indians' first score and Tate's try for extra point was good.

H. Taylor sparked when he surprised fans and Indians in the second quarter by skirting right end and eluding would-be tacklers for 57 yards and the Mavericks' first touchdown. Key tried for the extra point by passing over the goal line, but it was incomplete.

After an exchange of punts in the same quarter, Quanah started their touchdown campaign on their 45 yard line. Davis passed to Tate, who lateraled to A. Edmondson for a 10-yard gain. Wood made to Eastland's 33 yard line, where Davis went to Eastland's 26. Davis and A. Edmondson pressed to the Eastland one-yard line, the latter went over for the counter. Tate converted.

The third period was scoreless. Early in the fourth, Eastland was in a hole and the situation proved serious when Sikes attempted to punt out, only to have the ball fluke and strike an Indian.

It was Quanah's ball on their opponent's 20. Hall made two yards and C. Edmondson took it to the 10-yard section. A. Edmondson threw a pass which an alert Maverick batted down. A. Edmondson then passed from the Eastland 15 yard stripe to Franz, who lateraled to Hall for the touchdown. Tate's final try for extra point was off.

With Key and H. Taylor alternating as passers, Mavericks went deep into the Indians' reservation. The passer-receiver Taylor received one of Key's forwards on the 25-yard line for the Mavericks final score. T. Taylor failed to convert.

Eastland kicked and an Indian returned to his 35-yard line. C. Edmondson carried the ball on several tries to Eastland's 26 yard line.

Quanah's threat to score became serious to the Mavericks when A. Edmondson passed to Franz and advanced to the Eastland 10-yard stripe. The gun ended the game with Quanah in possession of the ball and, apparently, intent for a fourth counter.

H. Taylor, B. Sikes, Key and Garrett were outstanding for Eastland while Franz, Hall, A. and C. Edmondson sparked for the Indians.

First downs were 20 for Quanah and 11 for Eastland. Starting lineups: Eastland—T. Taylor, T. Brown, E. Trantham, Greer, t; J. Taylor, Van Geem, g; R. Taylor, c; B. Sikes, H. Taylor, hb; Key, qb; Hill fb. Quanah—Birdsong, Tate, e; Franz, Bentley, t; Cranford, Anderson, g; M. Taylor, c; A. Wood, C. Edmondson, hb; Edmondson, qb; Hall, fb.

## Eastland County HDC Entries In District Event Win Three Places

Entries from Eastland county won first, second and third prizes at a tufted bedspread contest and demonstration of 10 counties in San Angelo Friday.

Eastland county, through Miss Ruth Ramey, county home demonstration agent, and home demonstration clubs submitted 16 entries in a field of 123.

A bedspread made by Mrs. Elbert Ezell of the Reich Home Demonstration Club won first prize; one made by Mrs. J. M. Dillon and members of the Reich club took second place, and one by Mrs. Jim Bolding of the North Star Club took third place. Mrs. Houston Dittmore of Tom Green county and Mrs. E. R. McCade of

Brown county took fourth and fifth place, respectively. Judges were Miss Maurine Hearn, district demonstration agent, and Mrs. Bernice Claytor of College Station, home improvement specialist.

Considered by judges for the prize winning entries were size, laundering, material, finish, color and workmanship. The Eastland county prize entries will be on exhibit at the county council meeting in the county courtroom at Eastland, Monday, Nov. 18.

Mrs. Louis Pitcock of Ranger and Mrs. Elbert Ezell of Reich accompanied Miss Ramey to the contest.

## Speakers Differ About Supply of Crude In Nation

LOS ANGELES, Nov. 13.—The nation's oil supply is far from being inexhaustible and should be carefully preserved to avert a shortage or federal intervention, Gov. E. W. Marland of Oklahoma, warned the American Petroleum Institute today.

Taking sharp issue with Axtell Byles of New York, API president, who in his opening address ridiculed fears of an oil shortage, Marland, speaking through a personal representative, expressed alarm over unrestricted export and called for united support of the Interstate Oil Compact as the best agency to preserve the present supply.

## Mavs, With Tough Teams In Offing, Take Week's Rest

Two hard games with Abilene and San Angelo in the offing, the Eastland Mavericks are taking a rest from play this week. The next game on the Eastland slate is with Abilene at Eastland, Friday, Nov. 22.

Eastland's season has already become a success in the eyes of a majority of the fans, since for the first time in its interscholastic competition it has defeated Ranger and tied Cisco in the same season.

## Subscriptions to Be Increased On First of the Year

The management of the Eastland Telegram has found it necessary to increase the subscription rates on all papers sent through the mails, the increases being small and taking effect on Jan. 1, 1936.

The announcement is being made today that effective on the first of the new year all mail subscriptions will be \$3 per year for the Eastland Telegram and \$1.50 a year for the Weekly Chronicle.

This increase was made imperative because of increased postal rates, the management announced, and because of increases in the cost of white paper.

The announcement is being made at this time in order to allow ample time for those receiving their papers through the mail to renew their subscriptions before the increased rates take effect.

The Chronicle and Telegram have consistently decreased subscription rates from year to year during the period of low publication costs, passing on to the reader the small decreases in the price of paper stock, and now that increases in the cost of publishing the paper have come up from time to time it has become necessary to make a small increase in the subscription rates.

## Petit Jurors In 88th Court For Next Week Listed

Petit jurors summoned for service for the third week of the November term of 88th District Court beginning Monday, Nov. 18, are as follows:

Alex Eakin, Ranger; J. S. Hutton, Ranger; W. A. Wiegand, Eastland; W. I. Agnew, Cisco; L. S. Hamilton, Olden; Tom Wilson, Ranger; J. E. Burnam, Cisco; Leslie R. Gray, Eastland; Earl Bender, Eastland; T. J. Anderson, Ranger; W. M. Healer, Ranger; W. C. Campbell, Eastland;

W. C. Hamon, Eastland; F. B. Blackburn, Cisco; S. H. Brook, Eastland; L. L. Bruce, Ranger; R. W. Edwards, Okra; R. F. Wynne, Eastland; Preston Burks, Ranger; John A. Burke, Eastland; P. L. Warwick, Cisco; A. W. Wright, Eastland; S. B. Wright, Cisco; L. D. Wilson, Cisco; W. C. Bankston, Ranger;

Jack Blackwell, Ranger; E. L. Wisdom, Cisco; Vernon Deffebach, Ranger; J. D. Guy, Carbon; Dave Wolf, Eastland; J. W. Watson, Eastland; J. D. Barton, Eastland; S. A. Carmichael, Cisco; L. E. Gay, Ranger; S. J. Arthur, Olden; Jake Courtney, Cisco.

## Bond of Ranger Man Is Forfeited

Bond of Floyd Simmons of Ranger was ordered forfeited Wednesday when the defendant failed to appear in 91st district court for trial on indictments which charged Burglary and theft.

## University "Who's Who" Will Include Girl from Eastland

DENTON, Texas, Nov. 9.—Miss Anna Lou Estes of Eastland has been selected from the student body of Texas State College for Women (C. I. A.) for a place in "Who's Who Among Students in American Universities."

This book, published annually by the University of Alabama, is a compilation of biographies of the outstanding standing students in America. Qualities of character, scholarship, leadership in a high standard of politics, athletics and other forms of extra curricular activities, and possibilities of future usefulness to business and society are considered in making nominations for the book.

Miss Estes, who is editor of The Lass-O, student weekly publication, has been prominent in campus activities during the past three years. She is a member of the Athenaeum Honorary Society and Theta Sigma Phi, national honorary journalism fraternity for women.

## Loboes, Bulldogs Will Play Friday At Chesley Field

Because of the cold weather and the rain which fell throughout the morning and most of the afternoon Monday, the Cisco-Ranger football game, scheduled to be played Armistice Day, was postponed until Friday afternoon, Nov. 15, by agreement between the officials of the two schools.

Only one game has been scheduled for the week-end, with Breckenridge playing at Sweetwater on Saturday, Nov. 16, so there will be no conflicting engagements in the Oil Belt when the game is played this week-end.

The Loboes have been primed for the Bulldogs since early season, when it was apparent that the Ranger game presented the only chance the Loboes had of a district victory, while the Ranger team has been revamped and improved considerably since its disastrous defeats throughout the season, and Coach Moore is hopeful that the changes made in the team will give the Bulldogs enough punch to score a victory over their ancient rivals.

At Breckenridge Monday afternoon the Buckaroos won a one-sided game from the Abilene Eagles in a game played in extremely cold weather, the Buckaroos, powerhousing their way through the Eagle line to a 26 to 0 victory. The victory by the Buckaroos tied the record, made by the same team in 1929, for the most decisive defeats the Eagles have sustained in modern football history.

The Buckaroos have but one game, that with Ranger, between them and the district title, and feel confident of taking the district honors without much trouble, because of the poor showing made by the Bulldogs to date.

## Eastland Boy One Of Faculty Aides At Austin School

AUSTIN, Nov. 13.—Superior scholastic records are required of students in the University of Texas who are appointed assistants to the faculty. Among 108 given part time employment as assistants this year, all of them upper classmen and some graduate students, is William Maurice Mullings, Eastland, mechanical engineering.

## EASTLAND CAR WRECK INJURES SEVEN PEOPLE

One Eastland resident received a broken rib and four others received minor injuries in an automobile accident about two miles west of Eastland on the Cisco highway Sunday night.

Miss Lillian Smith sustained the broken rib injury when a car in which she was riding with Miss Marjorie Spencer, Eastland, and Dick Middleton and Bill Alsop of Olden hit a vehicle with occupants from Abilene.

First aid and other treatment was rendered at the Payne hospital in Eastland for the Abileneans, Paul Kay, Van Roberts and Weldon Johnson. The Abilene group were enroute to Ranger.

The Eastland automobile was headed toward Cisco when the accident, which damaged both machines considerably, occurred. It was not known definitely how the accident occurred.

## Armory Robbery Case Dismissed

ABILENE, Nov. 12.—A case charging theft of personal property from the United States in which the late Raymond Hamilton, Clyde Barrow, Bonnie Parker and Joe Palmer; Henry Methvin, under death sentence; and Hilton Bybee, sentenced for life, all notorious desperadoes, are named defendants was dismissed here Monday in federal court. The case was dismissed on motion of United States Attorney Clyde Eastus.

The indictment was returned in connection with a raid on the Texas National Guard armory at Ranger in February, 1934.

## Morton Valley HDC Elects New Officials

Members of the Morton Valley Home Demonstration Club reelected Mrs. Josie K. Nix president at the annual election held in the home of Mrs. Elnos Hensley last week. Mrs. W. E. Tankersley was re-elected vice president; Mrs. Guy Stoker, secretary-treasurer; Mrs. Thad Henderson, reporter, and Mrs. J. B. Rayfield, council member.

Mrs. Tobe Hamilton was appointed bedroom demonstrator; Mrs. O. J. Tarver, yard demonstrator and Mrs. Clarence Henderson, wardrobe demonstrator.

Mrs. Tarver and Mrs. Cowan were introduced as new members at the session. Next meeting will be held Nov. 19 at the home of Mrs. Ed Castleberry.

Present: Mmes. Nix, W. B. Peoples, Bill Wheat, Tarver, Tankersley, T. C. Harbin, Tobe Hamilton, Rayfield, Cowan and Henderson.

## WPA Workers Are Pleasing Bosses, Sponsors—NRS

Spiking rumors that workers assigned to works progress administration projects are proving unsatisfactory, Crigler Paschall, National Reemployment Service director at Eastland, stated Wednesday that project managers and sponsors have registered no complaint.

## Good Turkeys More In Demand Than The Regular Scrubs

COLLEGE STATION. — With Thanksgiving and Christmas drawing near, the spotlight is again turned on turkeys.

"Texas turkey growers have paid closer attention than ever this year to selection of breeding stock and finished dressing in order to produce birds of prime quality for the market," George P. McCarthy, Extension poultry husbandman, announced.

Another good flock is owned by Levi Churchill, turkey demonstrator in Bailey county. Last year, almost his entire flock was graded prime. He will have around 500 birds this year.

McCarthy said that the Luling Foundation has one of the outstanding flocks this year, comprised of 1,800 birds from this year's hatch. Most of these birds

as. This year, trade estimates place the earload shipments between 1,300 and 1,400. "Breeding for quality pays," McCarthy said. He gave as an example the flock owned by the J. T. Owen family in Lynn county. Last year this family stressed quality in their turkeys. As a result of proper management, balanced rations, and good breeding stock, the family made a net profit of \$153 on 85 birds sold. "Last year," McCarthy emphasized, "prime toms and hens brought from 7 to 8 cents more per pound than ordinary commercial turkeys. There is every indication that the same price condition will be true this year." As a result of turkey grading schools held the last first dressed turkey southwest was opened at Plainview, show will again be first week in December view.

# Camels never get on your Nerve

## STEADY SMOKERS SAY

Recently returned from the Upper Serran River, Dutch Gulana, Mrs. William LaVare, girl explorer, says: "My husband and I are devoted to Camels—took them with us on our expedition. Smoking Camels steadily, I find, does not affect one's nerves."

LL Commander Frank Hawks, U. S. N. R., holder of 214 speed records, says: "I've been flying for 19 years and smoking Camels almost as long. Breaking speed records tests the pilot's nerves as well as his plane. Camels are so mild they never upset my nerves."

This is Margaret Eilen Nichols, expert newspaper woman. She says: "Newspaper work involves lots of strain. I smoke all I want, because Camels never bother my nerves. Camels have a mild, pleasant flavor—entirely different from any other cigarette."

WILLIE HOPPE, champion of champions, and most famous personality of the billiard world! Mr. Hoppe has learned that cigarette mildness is essential to one who prizes healthy nerves. He says: "Championship billiards call for healthy nerves. It was a happy day for me when I turned to Camels. I can smoke them all I wish and never have 'edgy' nerves. I have smoked Camels for a long time, and I want to compliment them on their mildness. It must take more expensive tobaccos to give that special Camel flavor I like." You, too, will find a new delight once you turn to Camels. They never get on your nerves...never tire your taste.

**COSTLIER TOBACCOS!**

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

small toll for her services and helped to fill her own pantry. Mrs. Milwee, with the help of her husband, has solved the storage problem by building a small log house about 8 by 10 feet. It is lined with shelves spaced 10 1/2 inches apart on which the products are stored. Mrs. Milwee also has 250 pounds of dried peas and beans stored and treated to prevent weevils.

**CLEBURNE**—Chicken feed sacks, a slab of thin pine for bottom, thread, an old belt, and red lacquer were used by Miss Lovada Bishop of Johnson county in making a dress at the cost of 10 cents for thread and enamel, according to Miss Agnes Roberts, home demonstration agent. The sacks were bleached and resemble a rough crash weave. The buttons were carved in two-inch discs, large eyes bored in them, and the buttons lacquered in red. The belt was also given a coat of the red lacquer.

**WEATHERFORD**—"Good soil preparation is responsible for the remarkable growth of the shrubs in my yard this year," Mrs. A. J. Davis of Parker county told Miss

Janie Parks, home demonstration agent. Early last fall the beds were dug all around the house. They are three feet deep and about four and one-half feet wide. The clay was removed and the bed was filled with good soil and barnyard manure.

**FRANKLIN**—Spare time spent in cleaning out underbrush and deadening trees on his native pasture has proved quite profitable to L. L. Neyland of Robertson county, according to V. L. Sandlin, county agricultural agent. Neyland owned considerable land that was considered waste land, being so thin and badly eroded that it took around 25 acres to carry one cow. Four years ago he started working on the land in his spare time. The results were so noticeable that he employed cheap labor to finish the job at a cost of \$1.50 per acre, which included scattering bermuda grass on particularly barren spots.

The increased growth of grasses has stopped most of the erosion and the pasture is now carrying one cow to five acres and is steadily improving.

silo by R. W. O'Neal of Cochran county would have netted him about \$3 per acre for the dry corn if sold at market prices, while in the trench silo he is getting two and one-half tons of green feed which he values at \$4 per ton, according to his report to G. R. Schumann, county agricultural agent. Neal estimated that the corn that was put in the silo would have made about five bushels of ear corn to the acre when harvested dry. The corn was cut up by an ensilage cutter.

**GONZALES**—One of the largest pecan crops since 1926 is reported by Gonzales county producers, according to J. M. Saunders, county agricultural agent. Producers expect to harvest enough additional pecans from cleared bottom lands to pay for the clearing of the lands. These pecans have been lost heretofore because of the excessive undergrowth. Aside from the pecan crop

which is to be harvested, several hundred acres of this land which has been a total loss to the producer until the undergrowth was cleared is being seeded to Italian rye grass and should furnish an abundance of winter grazing.

MEETING OPENS GASMEN'S WAR ON COLD GERM

Dangers of improper heating and ventilation were pointed out to employees of the Lone Star Gas Company and Community Natural Gas Company and their families from Eastland, Cisco and Baird when a campaign was launched against the common cold germ, said to be America's public health enemy No. 1, at the Connelley Hotel in Eastland Tuesday night.

The session was one in a series being conducted by the Lone Star Gas System to educate the public on dangers to health that come from improper heating and ventilation.

M. L. Bird, superintendent of the western division, Community Natural Gas Company, presided. Mr. Bird, like other speakers, pointed out that leading doctors say that 50 per cent of all disabling diseases start with a "common cold."

Mr. Bird introduced W. G. Wiegand, advertising manager of the Lone Star Gas System; L. B. Denning Jr., general superintendent of the Community Natural Gas Company, both of Dallas, and L. D. Black, manager of Eastland district; H. L. Dyer, manager of Cisco district, and W. B. Cooper, manager of Baird district, Community Natural Gas Company.

Each of the gas company representatives pointed out proper methods of heating in relation to health and combating the common cold.

"On cold winter days many families 'huddle' in one or two rooms around a small open flame heater with the doors and windows tightly closed," Mr. Denning said in his address. "This hibernating habit during winter is contrary to all rules of personal hygiene and good health."

O. E. HARVEY IS NAMED ROGERS FUND CHAIRMAN

O. E. Harvey was selected as chairman of the Will Rogers Memorial Commission for Eastland at a meeting held in the Eastland Chamber of Commerce office on Wednesday.

Milburn McCarty, chairman for the memorial commission in Eastland county, stated that organization of all towns in the county will be made.

W. J. Leach has been selected as local chairman of the Will Rogers Memorial Commission for Cisco. Personal solicitation of funds was suggested by McCarty as method for raising Eastland county's share of the fund for the memorial.

However, McCarty pointed out, the county has no quota. Supt. P. B. Bittle volunteered to take the campaign into Eastland schools and indicated contribution would be sought from every student.

MRS. PARKER ELECTED OF RED CROSS

Mrs. J. A. Parker as chairman for the Cross Roll Call this meeting held in the court Thursday morning is expected to begin and the chairman's announced.

J. E. Spencer, chairman of the Red Cross for Eastland, stated that 1,500 more same as last year—this year, Eastland's sought are 500.

Last year, R. T. B. representative for the Red Cross, stated land made the best officers and members for next year at a county wide meeting held in Cisco, Friday. Plans for the drive will also be one of the items at the meeting.

Contributions will be accepted at the Eastland National Bank. To publicize the campaign, John A. Burke, Eastland theatre manager, will secure a "trailer" urging contributions for the campaign.

Blue Ridge Girl to Face Murder Trial in Moral Revolt

WISE, W. Va., Nov. 13.—Dogmas of the Virginia Blue Ridge mountaineers will be brought into court here when a 21-year-old girl goes on trial charged with murdering her father in a bitter quarrel which developed after the law of the hill folk—that an unmarried woman shall not be outside the home after sunset—had been broken.

The defendant is pretty Edith Maxwell, school teacher whose trial opens in this little backwood county seat Nov. 18. It will be a story of the struggle between the family code of the mountaineers and the infringing freedom of modern youth.

Miss Maxwell has been held in the Wise county jail since the slaying last July 21. The mountain girl learned the soft feel of "store clothes" while she attended normal school in the "outside world."

She experienced life that was directly opposite to the code of "the Pound"—tawdry spattering of mountain shacks where she resided. She could not reconcile herself to accept again the hill code that it was indecent for young girls to be out after dark.

She is charged with beating her father, Trigg Maxwell, 52, to death with a shoe, at their cabin near the "Trail of the Lonesome Pine," when he attempted to spank her for staying out until nearly midnight.

But that is only the technical

points in the case. The true battle when Edith goes on trial before H. A. W. Skeen, the spectacled mountain judge, is between the 8 o'clock curfew of "the Pound" and the right of modern youth to come and go as it pleases.

Miss Maxwell says she killed in self-defense. Her attorneys, W. W. Dotson and A. A. Skeen, will base her case on doctrines of the modern world. It will be a stubborn last stand of the Blue Ridge Mountains against the invading dogmas of the outside world.

Miss Maxwell will take the stand with hopes of freeing herself and her 48-year-old mother, who also is accused in the death of the village "smithy."

The country school teacher said she will tell how on Saturday night, July 29, she came into Wise and met young, strapping Raymond Mead, her 22-year-old neighbor. She asked for a ride home in his automobile.

Miss Maxwell reached home shortly before midnight. Her father, she said, was angry with her for keeping late hours. The creed of the mountains and modern youth were thrown together in open conflict.

The father believed in the curfew tradition of his forefathers—that unmarried girls and women, of whatever age, even those of 21 who earn their living by teaching school, must be in the home by sundown. To ignore it is admission of indecency and a disgrace of conduct.

The teacher said her father had resented every mode of new living brought to "the Pound." He was displeased with her going away to school at East Raeford Teachers College, East Raeford, Va. He condemned even the highways which are invading the hill country, his daughter said.

Miss Maxwell said her father lectured her and attempted to beat her. There was a furious argument. Miss Maxwell resisted, and to protect herself, seized the nearest object.

By strange irony, she grabbed up a high-heeled slipper bought while attending normal school. She allegedly beat her father on the head with it. During the night he died.

State attorneys say the girl, her mother, and her 11-year-old sister, Mary Catherine, tried to deny the quarrel. They said Maxwell fell, striking his head on a meat block. Physicians who examined Maxwell found he was struck four times on the head.

Miss Maxwell and her mother were arrested. The mother later was released on bond. The girl was held without bond and later, according to officers, confessed striking her father.

Theories Shift In Death of Young Maryland Woman

MOUNT RANIER, Md., Nov. 12. Theories shifted rapidly in the Corinna Loring slaying today and police announced a belief that a "large and powerful" woman might have strangled and beaten the 26-year-old Sunday school teacher and bride-to-be.

Police Chief Plummer said he wanted to question a woman who is said to have opposed Corinna's wedding to Richard Tear, 29, hospital attendant. "She was very intimate with the girl, at least, and I know right where she is," Plummer said.

Find Out From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

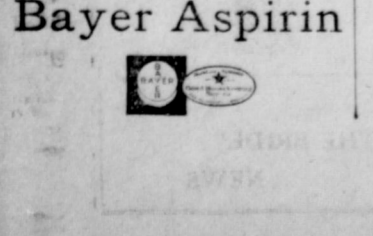

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the best of methods yet discovered for the relief of headaches and all common pains, and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

ers and chorus girls, his craze for collecting hundreds of thousands of dollars worth of diamonds which won him his nickname, his genius for revolutionizing railroad equipment and his incredible capacity for eating. It is generally said of him that his generosity was as great as his girth, and his heart as big as his stomach.

Before Brady was 12 years old, he outgrew the sawdust confines of the family saloon. He became in succession, a bellhop, baggage-smasher, station agent, chief clerk in a railroad office and finally a super-salesman of railroad equipment. By a clever ruse, he pioneered steel undertrucks for freight cars and made himself a multi-millionaire. His romantic life was no less glamorous than his business career. He thought nothing of sending diamond, emerald or ruby jewels to his lady friends and gave away gold-plated bicycles and jeweled handle bars to a group of intimates.

GIRLS, GAY TUNES, ROMANCE MAKE PERFECT MUSIC FILM

What is the recipe for a well-balanced screen musical? Offhand, most people would reply "girls, gay tunes, spectacle, comedy and romance in liberal portions."

But the question goes much deeper, as was proved by the investigations of Producer Jesse Lasky during the production of the gay musical extravaganza, "Redheads on Parade," which comes Sunday to the Connellee Theatre.

For one thing, there can be too much music!

A review of musical successes past and present reveals that music should be mixed with action in a proportion of about one to five. Producers who ignore this rule find that too much music impedes the action of their picture. Many have had to scrap costly production scenes for their picture's sake.

Another axiom which Producer Lasky found it advisable to adapt is that all music should be appropriate to the film's action. Numbers that fail to contribute to the story's movement hinder it. But in the case of "Redheads on Parade" this difficulty was obviated by the intriguing music of Jay Gorney and Don Hartman.

A musical picture, however, rarely suffers from an excess of beautiful girls. The opposite is more often true. In "Redheads on Parade" this danger is avoided by the heaves of beautiful redheads, redheads of every shade selected from the most glamorous and gorgeous of their kind.

John Boles and Dixie Lee, featured in the leading roles, furnish the romantic incentive to "Redheads on Parade."

GOOD WELL IS COMPLETED IN GORMAN AREA

Gallagher & Lawson, whose No. 1 Moats, one mile east of Gorman, responded to acidation, said at Cisco Thursday night that the well after cease of flush production, would be good for 25 barrels a day.

The well was acidized with 2,000 gallons. It is bottomed at 2,870 feet.

The pay horizon is the same in which States Oil Corporation found 30 or 40 barrels of settled production after acidation several weeks ago.

The Moats well marks the third completion in the Kirk and Davidson pool, located between Gorman and Desdemona.

Kirk and Davison's well on the Gowan tract was the discovery well.

## Texas Rangers Will Guard Centennial Central Exposition

DALLAS. — Texas rangers, among the most colorful law enforcement figures in the world, will guard the Texas Centennial Central Exposition and will patrol the grounds both on foot and on horse if plans of the exposition's management committee materialize.

The management committee, headed by R. L. Thornton, discussed the plan with Capt. Tom Hickman of the Texas rangers, Chief of Police R. L. Jones and acting Mayor D. R. Graham. The committee also discussed a proposal for the erection of a Texas ranger building of logs, to furnish the atmosphere of 100 years ago when the ranger force was organized, and to establish a regular troop of rangers here during the centennial exposition.

Tentative plans for the Exposition's police force, which, at the peak, will number about 150, calls for the appointment of each man as a Texas ranger. They will be costumed appropriate to the general idea of the appearance of a Texas ranger. Some of them will be mounted on horses rigged in the trappings of the west.

The proposed ranger building would be located in the southwestern corner of the exposition grounds. It would have dormitories as quarters for the troops of regular rangers and would include a corral for horses and pack trains.

Old time rangers would be invited to make the building their headquarters as long as they desired to attend the exposition.

A section of the structure would be devoted to a museum of Texas ranger relics and would include ancient rifles and pistols, saddles and similar articles. A part of the museum would be devoted to the equipment to the modern day ranger and to a display of the means he uses in the suppression of crime.

Centennial officials expressed the belief that presentation of the Texas ranger idea to the exposition visitors would prove one of the most attractive and interesting features, since many of the visitors will be from northern and eastern states, where the name Texas rangers carries even more glamour than in the southwest.

The committee announced that it would continue working on this plan and that in the meantime it would take steps to assure the finest type of police organization for the celebration, regardless of whether or not the Texas ranger idea is adopted. A well-trained force of 40 men will be policing the grounds by April, the committee said.

Leonard Pack, slated to head the exposition's police force, was present for the conference, however, the committee made no official announcement of his appointment as chief of the organization.

Judging from the farm vote on extension of the corn-hog program, the AAA's have it.

## SISTER MARY'S KITCHEN

BY MARY E. DAGUE

Now is the time to make your Thanksgiving mince-meat so it can ripen a few weeks before using and, if you use apple brandy in the making you'll have a flavor that can't be imitated.

Charlotte E. Field, noted New York chef, also uses this fine seasoning aid in plum pudding, wine jelly, fruit cakes, branded peaches, sauces and mousses.

This is Miss Field's recipe for mince meat. She says it will make six pies.

### Mince Meat

Two pounds lean beef, 5 pounds apples, 1 pound beef suet, 2 pounds raisins, 2 pounds currants, 1 pound Sultana raisins, 1-2 pound shredded citron, 1-3 pound candied orange peel, 2 tablespoons ground cinnamon, 1 tablespoon grated nutmeg, 1 tablespoon cloves, 1 tablespoon allspice, 1 tablespoon salt, 2 1-2 pounds brown sugar, 1 pint sherry, 1 quart apple brandy, grated rind and juice of oranges, grated rind and juice of lemons.

Boil beef until tender and chop fine. Pare and chop apples and weigh. Chop suet and remove strings. Mix all ingredients and cook until apples are clear. Seal in jars and let ripen for two weeks.

Don't think mince meat is good only in pies. It makes delicious cakes and puddings, too, and it's very easy to use.

### Mince Meat Pudding

One cup mince meat, 2 eggs, 4 tablespoons butter, 1-2 cup milk, 2 cups flour, 1-2 teaspoon soda, 1-2 teaspoon salt.

Beat eggs until light. Soften butter and add with milk to eggs. Mix and sift flour, salt and soda several times and sift into first

# THE IMPORTANCE OF . . . VENTILATION

The warm air throughout the home during winter should be just as pure and contain just as much oxygen as the fresh, pure air of summer. Rooms that are poorly ventilated, even though sufficiently warm for comfort, can be injurious to health. Stale or stagnant air is depressing, and fails to produce the pleasant and stimulating effect of pure air in motion. . . . No matter what kind of fuel you use to heat your home during winter, it is important to have proper ventilation and circulation of pure air. This is especially important if the flame from the fuel comes in contact with the air you breathe. The reason is simple.

Fuel does not burn unless mixed with oxygen. Prove this to yourself by the simple test of dropping a lighted

match into a bottle. Place your hand on top of the bottle and you will note that the match stick will NOT continue to burn after the oxygen inside the bottle has been used up by the burning fuel. Likewise, the oxygen content of the air inside your home is gradually reduced by the occupants of the household through the processes of breathing and by the fuel burning in your heating equipment.

Without proper ventilation the air becomes stale. Sooner or later the tender air passages of the body become inflamed, leaving them an easy prey to vicious attacks of "colds" and serious respiratory diseases. Guard your health this winter with proper ventilation as well as adequate heat in every room in your home.
