BRANCHING

The vast oil industry of Texas is primarily dependent

upon the widespread use of the automobile for its welfare, but not entirely. Its ramifications are many. There is kerosene for cooking and for lighting; there are the

industrial lubricants, ranging from heavy greases to special oils so carefully refined you could use them in a salad dressing if you chose; there are numerous

specialties for the home and car-from body polishes to window cleaners: there are fuel oils, diesel oils,

spray oils for fruit trees-the list is endless. And al-

most daily, the engineers, the chemists, the whole army of the oil industry's technicians are adding to it . . . It's a far cry these days from the "coal oil" can with a

pended, he said. "Furthermore, training courses and other helpful activities have training, both on the job and off, been provided for the workers. ployed on the National Youth Ad- ed out. "The efforts of interested ministration work program, J. C.
Kellam, Texas Director of the communities are coordinated by communities are coordinated by NYA personnel when possible in order to further serve these needy youths and to help place then in suitable private employment."

This activity represents a growth of the NYA program from the initial phase of providing immediate jobs for needy youths. One year ago, more than 11,000 youths had jobs on work projects, on which they worked onethird time at wages prevailing in their community. Supervisory and other costs were held down, so that NYA funds might go directly into wages for NYA youths. There re now about 7,900 youths emloyed on NYA work projects.

Mr. Kellam pointed out that 'the ultimate goal of the NYA work program is to help youths find their rightful places in the ommunity, to the end that they will secure self-supporting and desirable private jobs." Training on the job under foremen who explain the mechanics of the work and teach each youth individually various phases of the work has been a regular part of the program, Mr. Kellam said. Added to this is the off-the-job work done through Youth Centers and youth clubs, in which the assistance of planned to reproduce Noah's Ark. every available agency is enlist- with the animals coming out twe

BIG RODEO TO BE HELD HERE ON JULY 24TH

Tentative plans have been started in Ranger for a big rodeo, to be held on Saturday, July 24, when two performances will be presented.

Although details have not as yet been worked out, they call for many improvements to be made which will probably increase the crowds and the number of contest-

A large number of seats will be added at the lighted field, in order that many more spectators can be seated. It was found at the last night rodeo that the crowd overflowed the seats and that many more would be required for future rodeos.

A temporary fence is to be constructed to cut down the side of the arena, as it is now too large for the very best performance The chutes cannot be improved upon and they are to remain practically as they are.

The rodeo is to be advertised extensively throughout this part of the country in an effort to se cure the type of performers that attended the first night roded and it is expected that many more will take part, as those who have entered here have stated that they will bring along other contestants.

Although no decision has been made on the matter as yet, tentative plans have been worked out for a metorcade, sponsored by the Ranger junior college on July 9. If the motorcade is worked up to advertise the college, announcements of the rodeo will also be made along the route.

With the best night rodeo set- | 8 up between Fort Worth and Stamford, Ranger is in a position to hold the best rodeos that can be staged in this part of the country. t was pointed out, and the one on July 24 will be the forerunner of big rodeo, possibly a three-day affair, which is being arranged for the Labor Day week-end, early in ptember.

Ranger has already won conderable fame as a rodeo center, rough only one performance and the one to be held July 24 is xpected to be a big boost for the eptember affair.
