NO. 3

## Scrap Iron Puts Port Houston In The Boom Class

HOUSTON.—Boom days have returned to Port Houston because of the heavy export demand for scrap iron.

During the first five months of 1937, more than 160,000 tons of scrap iron and scrap rails have been exported.

The five-month total was compared with the entire 1936 total of 153,000 tons.

The scrap iron rush caused the port to establish a record for the number of locomotive cranes in operation on American waterfronts, according to Director J. R. Wall.

"The 11 cranes, nine owned by the navigation district, are working 24 hours a day," he said.

"Although I checked closely the records of other ports, I could not find any port having as many in operation at one time."

Wait discounted re-armorment as the cause of heavy exports from the United States.

"War has something to do with it, but many countries which are leading in exports do not seem to have much ambition to enter war. Countries not having their own iron ore reserves are the leading importers from America."

"Our industry progresses so rapidly that new processes follow one another and daily require new machinery for production," he continued. "From these industries come the millions of tons of scrap iron and steel that is exported."

Wait said it was impossible to forecast the duration of scrap movement.

"General building programs in all countries were curtailed due to the depression, and these nations are attempting to catch up now."

"Consequently, as long as they demand iron for commercial enterprises and armaments, it will continue at a high rate."

## Eastland Mallet Welders Victors

An Eastland mallet team composed of John Lee Roper and W. M. May won Sunday at Ranger the tournament sponsored by the Lone Star Gas company as part of the annual picnic of the organization Saturday at Cisco.

The other finalists were Wraggs and Jones of Breckenridge, defeated 29 to 23.

Other Eastland teams at the tournament were composed of John Rawson and Claude Maynard, and C. C. Street and Clifton Cantrell.

## Head Tesco Clerk Gets Recognition

In recognition of 25 continuous years of service with the Texas Electric Service company and affiliated organizations, Earl Woody, district clerk at the Eastland office, has been awarded a pin with an inscription labeling that distinction.

In the center of the award is a diamond.

Woody started May 29, 1912 with the Texas Power & Light company at Waco. He has done office work since his connection with the company.

In January, 1920, Woody moved from Waco to Eastland and was employed in the general accounting department. He has been district chief clerk since 1929.

The district is composed of Eastland, Breckenridge, Gorman, Ranger, DeLeon, Desdemona, Carbon and other smaller points.

Accompanying the pin was a letter of commendation from A. J. Duncan, Fort Worth, president of the Texas Electric Service company. Previously Woody had been awarded five, ten, fifteen and 20-year service pins.

## Old Firebell Sold to Buy Parts for Truck

CLEBURNE, Texas.—A 511-pound firebell, that warned of fires in Cleburne for more than 30 years, has been removed to help buy parts for a city fire-truck.

The bell was bought in 1905 and was used during the horse-and-wagon days of fire-fighting. A few years ago, it was disconnected and a modern siren installed. As scrap metal it was expected to bring about \$30.

In its early days, the bell was tolled by hand. With the advent of electricity, however, a motor-driven device sounded the bell.

Most unexpected romance in Eastern society is that of Constance Morrow, daughter of the late Senator Dwight Morrow and sister of Mrs. Charles Lindbergh. She and Aubrey Morgan of Llandaff, Wales were married at North Haven, Me. Morgan is the widower of his bride's late sister, Elizabeth.

Mrs. Constance Morrow Morgan

## Last Rites Held For Young Girl

Last rites for Carolyn Ivy Boggs, 8-year-old daughter of Mr. and Mrs. J. R. Boggs of Eastland who died Saturday in a Ranger hospital, were held Sunday afternoon at the Church of Christ in Eastland, with O. G. Lanier of Ranger officiating.

Burial was in Eastland cemetery.

Pallbearers were Harry Sone, Harry Wood, Percy Harris and W. A. Teatearth. Hammer Undertaking company, Eastland, was in charge.

She is also survived by a brother, Howell, and a sister, Milabeth.

## Livestock Market Brings \$25,000,000

FORT WORTH.—Texas ranchers received more than \$25,000,000 for livestock marketed through the Fort Worth stockyards, officials disclosed here.

The income was the highest in 10 years for those who raise cattle, calves, sheep and hogs. Sheep provided the real "golden harvest" as Fort Worth took the lead as a sheep center from Chicago, Omaha and Denver.

A total of 749,879 "woolies" were unloaded at Fort Worth yards during May, compared with 513,506 for May, 1936. The total was almost twice as high as that of any other American market. The total number of cattle, calves, sheep and hogs received during the month was 1,391,642, more than 400,000 greater than for the corresponding month of 1936.

Hogs receipts were 191,856, about 20,000 less than for May of 1936.

## Closed Bryan Bank To Be Liquidated By F.D.I. Corporation

WASHINGTON, D. C.—Within a short time the Federal Deposit Insurance Corporation is expected to begin payments to depositors of the Union State Bank and Trust Company of Bryan, Texas, which closed on June 16th.

The bank held total deposits of approximately \$220,000.00 at the time of suspension and it is estimated that about \$120,000,000 of that amount was insured by the Corporation. There were more than 620 depositors in the bank.

This was the eighth closing of an insured bank in the State of Texas since the beginning of deposit insurance on January 1, 1934. Up to December 31, 1936, payments had been made available to the 88,912 depositors of 75 closed insured banks in all parts of the country.

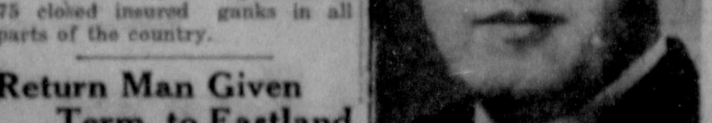

## Return Man Given Term to Eastland

George Stewart, known also as Jack Stewart, whose March, 1936, conviction on a charge of burglary was affirmed March of this year by the Court of Criminal Appeals at Austin, was returned from Odessa Sunday by Sheriff Louis Woods.

The case charged Stewart with burglary of a box car at Ranger, said Woods. He received two years when the case was tried.

## Canadian Heads World Kiwanis

An attorney, first president of his home club and the first Canadian ever to hold the world office, F. Trafford Taylor, above, was elected president of Kiwanis International at the convention in Indianapolis. His home is in St. Boniface, Manitoba.

F. Trafford Taylor

## Judge Advises "The Book" For Driving A Car While Tipsy

DENVER.—Strict penalties are recommended by Municipal Judge Philip B. Gilliam as the surest method of curbing drunken driving.

"Throw the book" at offenders is Judge Gilliam's policy, and he points to his court record for March this year as evidence of its effectiveness.

During March, only 24 persons were charged with drunken driving in Judge Gilliam's court. This compares with 49 such cases in March, 1936.

The only way to discourage crimes of carelessness, negligence and indifference, Judge Gilliam believes, is to make the penalties so severe that the potential violator will be conscious of the possible consequences of his act.

"I see no reason why drunken drivers should be given sympathy in the courts," he said. "The circumstances of their offense cannot be nearly so unfortunate as the victims of their drunkenness."

"Public opinion, of course, must be the ultimate solution of the problem, but the court can play a part in molding public opinion, and the best way to do that is to 'throw the book' at the offenders."

"That theory is applicable not only to drunken driving, but to almost all types of crime. My goal and ideal is to work myself out of a job by inflicting penalties so severe that persons who come into my court once will never come in again, and I won't have any business left."

## Way to Eliminate Tree Harming Worm Told by Barnhart

Several inquiries have been received by the county agent's office as to how to destroy worms eating the foliage of mesquites trees.

These worms can be controlled very easily by spraying. Hugh F. Barnhart, assistant county agent, stated. A spray mixture consisting of one and one-half pounds of arsenate of lead to fifty gallons of water and sprayed on the mesquite trees thoroughly will kill the worms.

The arsenate of lead should be stirred constantly while spraying as it is only a suspension in the water and will settle out easily.

Barnhart cautioned the users of the spray that arsenate of lead is very poisonous and great caution should be taken to see that animals do not graze around trees that have been sprayed, as well as children should not be allowed to play under the sprayed trees.

## Eastland Athlete Pair to New York

Elmer and Delmer Brown, the twin stars from North Texas State Teachers College at Denton, have accepted invitations to compete in the "Labor Carnival" track and field meeting July 11 and 12 at New York City.

The twins will be unable to attend the National Amateur Athletic Union's track and field championships at Marquette University, Milwaukee, Wis., July 2 and 3.

Elmer and Delmer will be two members of a team to compete in a 1,400-meter relay run opposing a team from the West Coast. Others in the Browns' group will be Jim Herbert of New York University and Denis Shore, South African import of the 1936 Olympics.

Delmer also is to compete in the 400-meter run and Elmer the 200-meter. They will leave Friday, taking a plane from Dallas.

## Eastland Deacons For Lodge Named

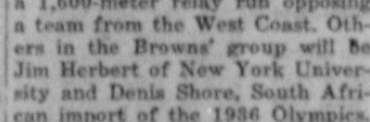

Percy Harris has been re-appointed junior deacon and Jess Richardson re-appointed senior deacon of the Eastland Masonic lodge, No. 467, A. F. & A. M., which held its annual installation Monday night.

Officers installed were V. E. Vassals, worshipful master; H. C. Hoffman, senior warden; Delbert Myers, junior warden; I. J. Lambert, treasurer; Elmo Hill, secretary, and H. P. Pentecost, cler.

Harris and Richardson were appointed by the senior and junior wardens.

## Canadian Heads World Kiwanis

An attorney, first president of his home club and the first Canadian ever to hold the world office, F. Trafford Taylor, above, was elected president of Kiwanis International at the convention in Indianapolis. His home is in St. Boniface, Manitoba.

## Civilian Pilots to Register for Service In National Crisis

FORT SAM HOUSTON.—The registration of all civilian pilots in the Eighth Corps Area holding Department of Commerce licenses who wish to serve in the U. S. Army Air Corps in time of national emergency or mobilization now is being effected at corps area headquarters here.

Those eligible for registration must hold a Department of Commerce pilot's license of "private pilot" or higher; must be male citizens of the U. S., and must have at least a high school education.

It is contemplated that those who signify their willingness to serve in the Air Corps in time of war or other national emergency who possess the necessary qualifications will be commissioned in the Air Corps-Reserve when they are called to duty in time of emergency or mobilization.

Civilian pilots who are registered also are being offered the opportunity of securing commissions in the Air Corps-Reserve at the present time. Information as to the necessary qualifications for immediate affiliation with the Air Corps Reserve can be obtained from the Air Officer, Eighth Corps Area Headquarters.

The registration of civilian pilots is not a move toward expanding the Air Corps Reserve at the present time, but is being done to provide potential sources for Air Corps pilots in time of war or emergency, Major Charles A. Pursley, Air Officer for the 8th Corps Area, pointed out today.

## Cattle Shipments In State Are Up

AUSTIN.—The May record of shipments of livestock from Texas to the Fort Worth stockyards and interstate points showed an unusually sharp year to year increase, according to the Bureau of Business Research of the University of Texas. Reports of the railroad shipping agents of the state and of the Fort Worth Stock Yards company to the Bureau show that rail and truck shipments to these points totaled 11,154 cars, against 5,913 during May last year, an increase of more than 88 per cent. Aggregate shipments for the year to date were 38,113 cars, an increase of 31 per cent over the corresponding period last year.

The sharpest increase occurred in forwardings of sheep. Shipments of these animals during May totaled 2,133 cars, compared with 778 cars during May last year, an increase of more than 174 per cent. Cattle shipments also increased substantially—7,630 cars against 4,057 cars a year ago or a gain of more than 85 per cent.

The increase in shipments of calves and hogs was more moderate—874 cars against 553 cars last year; and hogs, 617 cars compared with 523 cars a year ago, gains of about 60 per cent and 18 per cent respectively.

## May Retail Sales Are Above April

AUSTIN.—Department store sales in Texas during May, as measured in dollars, increased more than the average seasonal amount over April and maintained a substantial margin of improvement over May, 1936, according to the Bureau of Business Research of the University of Texas. Aggregate sales during the first five months of the year also were well above those of the corresponding period last year.

"Reports from 99 representative Texas establishments show a gain of 7.5 per cent in sales over April and of 14.7 per cent over May last year," the Bureau's report said. "Year to date sales were 15.9 per cent above those of the first five months a year ago. Cities showing gains in May above the state average for the preceding month, the corresponding month last year, and the year to date were Beaumont, Houston, Lubbock and Port Arthur."

"The percentage of credit sales remained practically unchanged from a year ago and the same was true of collections of outstanding accounts."

## Miner Directs Steel Strike

PHILADELPHIA.—Four sets of twins in one block is the record of families on Kenmore Road, Overbrook. The eldest are Guido and Raymond Colucci, 13. Others are Robert and Anthony Sacchetti, 20 months; Margaret Mae and Marion Wallace Stevens, 19 months, and Marie and Eleanor Quimby, 18 months.

## Gun Totin' Wife Shares Hubby's Job

HOUSTON.—Mrs. Ruth Langford, gun-totin' housewife, shares her husband's job of carrying U. S. air mail.

The pretty young matron, adept with both pistol and rifle, wears a regulation service revolver and belt on her daily trips from the post office to the municipal airport.

The pretty young matron, adept with both pistol and rifle, wears a regulation service revolver and belt on her daily trips from the post office to the municipal airport.

## Argentine Gets Six Big Bombers

SAN DIEGO, Cal.—The navy of the Argentine Republic soon will boast of six of the most powerful patrol bombing planes in the world—fighting craft surpassed only by the big planes of the U. S. Navy.

The first of six P2-Y3 model planes, being built for the southern republic's navy, was put thru a satisfactory test flight here recently by Lieut. Julio Bachioli and Capt. M. Zar, head of the Argentine's naval aviation corps, in en route here to accept delivery of the five other craft.

It has not been determined whether Argentine naval fliers will "ferry" the squadron of ships to South America or ship them by boat.

The P2-Y3's are the immediate predecessors of the PB-1 patrol bombers of the U. S. Navy, which within the last few months have completed two successful non-stop flights from San Diego to Hawaii.

It was in 1924 that the P2-Y3 type planes first attracted worldwide attention when Lieut-Commander Kneffler McGinnis, of the U. S. Navy, flew a squadron non-stop from San Francisco to Hawaii.

It was in 1924 that the P2-Y3 type planes first attracted worldwide attention when Lieut-Commander Kneffler McGinnis, of the U. S. Navy, flew a squadron non-stop from San Francisco to Hawaii.

## Waiting for the Worst: "Guilty!"

Ellis Parker (left), his son, Ellis Jr., and daughter-in-law, wear uneasy smiles as they wait in Federal Court at Newark, N. J., for the verdict of the jury that heard the two men's trial on a charge of kidnaping Paul H. Wendel to extort a confession of the Lindbergh kidnaping from him to save Bruno Hauptmann. The jury found them guilty, but recommended leniency.

## Poetry Gets Names In Autograph Book

HOUSTON.—A flair for poetry led Barney Sterling, 60, to a successful hobby of autograph collecting.

Within six years, he has obtained the autographs of 250 of the world's most prominent persons. He writes his requests in rhyme.

"I always had a pad and pencil near, when thoughts came to me; if I don't get them down, they don't come for another year," he explained in unavailing rhyme.

Sterling writes to kings and queens as freely as to a friend—and nine times out of 10, he gets the autograph.

Of the world's rulers, he has these: Franklin D. Roosevelt, Edward R. Douthett of Poland, Petr Evid Svindofud of Finland, Lakaro Cardenas of Mexico, Eusebio Ayala of Paraguay, Rodolfo Minger of Switzerland, Eamon de Valera of Ireland and Joseph A. Lyons of Australia.

Sterling has autographs of Mussolini, Haile Selassie of Ethiopia, and Queen Wilhelmina of Holland. Besides these he has autographs of nine supreme court justices and many senators and congressmen.

One of his prizes is a letter from Dr. Allan R. Dufoe, doctor of the Dionne quintuplets.

## Boy Advertises Business In Church

AMARILLO, Texas.—An Amarillo hardware dealer, bringing his young son up with a love for his business, got some sudden publicity in church recently.

"What is your chief interest in life?" asked the preacher in his sermon.

"The (name of firm) Hardware Company," chirped the youngster loud enough for the entire congregation to hear.

## Crystal Gazing Is Aid to Chemistry

MINNEAPOLIS.—Future great strides in chemistry are predicted by Dr. John W. Gruner, University of Minnesota, as a result of scientific "crystal gazing."

Dr. Gruner, specialist in crystallography, reports that only in the past 15 years have chemists come to realize the importance of the structure of atoms and studied their makeup sufficiently to make definite forward steps.

Hardness, for instance, he explained, is traceable to small atoms of relatively high valence, or power to attract other atoms. The smaller the atoms and the higher their valence, the harder the substance.

It is possible, he suggested, that future studies will result in practical methods of synthesizing such substances, giving new chemical products.

To study the structure of the atoms, Dr. Gruner uses a "camera" which takes pictures of rays reflected from atoms of the substance being studied. The rays are monochromatic X-rays and the particles on which they are projected are as fine as present technical methods can produce. The reflected rays are used to make photographs which can be studied to determine the atomic structure just as spectroscopic images are studied.

## Convict Is Free Only Part of a Day

DALLAS, Texas.—Aubrey Freeman was released from the state penitentiary on a Tuesday morning and Tuesday night he was right back in the jail, faced with a 30-day to a year-and-a-day sentence.

Freeman's misfortune was caused by his "I won't talk attitude," officers said. Dallas police arrested him in a narcotic drive; he had \$30 of the \$50 the state gave him on release from prison and a capsule of heroin in his hat.

Detectives questioned Freeman long and steadily but he stuck to his story that he knew nothing of the narcotic. As a result he was promptly plopped in jail where he may lose his newly won liberty.

## WOMAN DEFENDS SEX AS CAPABLE POLITICIAN

MADISON, Wis.—Women are the backbone of every political party, conducting their whispering campaigns, Mrs. Mary O. Krzyzak, Democrat, Milwaukee, only woman member of the Wisconsin legislature, told her assembly colleagues. The House responded gallantly, passing her bill to elect a woman and a man as ward or precinct leaders.

Stay-at-Home Wave a Salute to Dreams

Corporations may be soulless, as many maintain; but the case of Violet Kathleen Schmidt and the New York Central railroad at least indicates that they do have hearts, if you know how to reach them.

Violet Kathleen Schmidt is 9 years old and she lives in Elkhart, Ind. Her home is down near the New York Central tracks, at a point where the crack passenger trains stop to exchange engines; and Violet, having a keen eye for the romance and grandeur of railroading, is always on hand to wave to the Twentieth Century when it goes through.

She has been doing this for three years now, getting up at 5:30 in the morning to highball the train through on its westbound run, and coming home from play at 5 every evening to wave her hand when it goes east.

The number of passengers who must have glanced casually out of a window and seen this little girl's gesture of greeting is beyond all figuring. But the people who really appreciated her were the men of the train crew; and in the course of time their appreciation spread upward, through the proper channels, and impressed itself on the higher nerve centers of the great corporation itself.

The result was that the New York Central descended on Violet Kathleen Schmidt the other day, put her and her mother aboard the Century, and took them to New York.

There, as guest of the road, Violet saw the sights of New York, stayed at a top-notch hotel, visited the railroad president, Frederick E. Williamson, went on a shopping tour at the railroad's expense, did a bit of radio broadcasting, and at last rode home again on the Century—giving the signal, with her own hand, that started the train out of the Grand Central Station.

All of which probably added up to a swell time for a little girl and a useful bit of publicity for the railroad; but because the tribe of wavers-at-railroad-trains is vast and nation-wide, it is somehow heart-warming to see it, at last, get some official recognition.

Has anyone ever stopped to think how much the railroad train means, in terms of romance and color, in the lives of people who never rode on it? People who are tied down, in crowded cities or on lonely prairies, get their vicarious escape through the speeding trains that pass them by. These trains stand for escape, for freedom, for purposeful movement; they stand for the passing of invisible horizons just as surely as Drake's ships stood for that to the home-bound people of Devon, centuries ago.

So wherever you go, you find people looking up from their work or play to lift a hand at the passing train, as it flies across the landscape with the lonely, haunting echoes of its whistle trailing over its shoulder. Those lift-hands are a salute to dreams, by dreamers who must stay at home.

NEW HOPE

There was a good attendance at Sunday school Sunday, at the Baptist church.

Mr. and Mrs. Allen Craghead and family were guests of Mr. and Mrs. Tom Taylor Sunday.

Mr. and Mrs. Elwin Barron, Johnnie Barron and Clive Murray were visiting in Alexander, Sunday.

Mr. Frank Hallmark and Miss Commie Seago of this community were united in marriage Wednesday evening, June 16th. We wish them the best of luck and much happiness.

Mr. and Mrs. John Bennett, Miss Modell Montgomery and Marma Nell Murray visited in the home of Mr. and Mrs. Marvin

Dorsett, Sunday afternoon. The New Hope Demonstration club women entertained their families Wednesday night, June 16th. They reported a good time, and most of the members were present. Ice cream and cake was served.

Mr. and Mrs. V. W. Weaver, Mr. and Mrs. Earnest Weaver and family went fishing Saturday night. They reported fine luck and a good time.

Mr. and Mrs. Whitley of Gorman were visiting in the home of Mr. and Mrs. Seago, Sunday.

Several from this community attended trades day at Gorman, Monday.

Mr. and Mrs. E. E. Murray were guests of Mr. and Mrs. Seago, Sunday.

Miss Veneta and Virgie Holway of Carbon were Sunday

guests of Miss Frankie Knox. They attended the all day singing at Leon.

Truett Murray visited Arlen Pirtle, Sunday.

Mr. and Mrs. Marshall Burns and family visited her parents, Mr. and Mrs. V. W. Weaver, Sunday.

Mr. and Mrs. Blake Bledsoe, visited her parents, Mr. and Mrs. Grice, Sunday.

Dangers of Fourth Are Pointed Out

AUSTIN.—Taking note of the approach of the great patriotic national holiday, July 4, which this country has celebrated for 141 years, Dr. Geo. W. Cox, state

health officer, calls attention of the people of Texas to some of the dangers of careless celebrating. The morning papers of July 5 detail an appalling number of accidents which occurred over the 4th.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating

wounds in which dirt may be carried into the skin heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the day's pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a

drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents have usually one of three causes—exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that

the chief factor in auto accidents is the judgment of the "machinist" within the machine. Caution should guide the holiday activities so that the day may be remembered with joy instead of with sorrow.

## ALAMEDA

Mrs. Eva Tucker and her little daughter, of Longview, are visiting her parents, Mr. and Mrs. J. J. Tucker, and other relatives.

Mr. and Mrs. J. D. Terrell from Oklahoma City have been visiting his uncle, J. L. Brown.

Donald Shooks of Jacksboro is visiting his grandparents, Mr. and Mrs. J. M. Grice and relatives.

Mrs. Opal Minchew from Breckenridge has been visiting her parents, Mr. and Mrs. Joe Jones.

Mrs. Shirley Brown and children and Mrs. Bill Reid and children were in Ranger, Saturday.

Mrs. J. L. Brown and Mrs. Norma Pilgrim visited Mrs. Harry Deal and Mrs. Pearl Price Saturday.

Mrs. J. T. Wilson and little daughter spent last week with her parents, Mr. and Mrs. G. C. Pilgrim.

Mr. and Mrs. A. L. Lockhart visited the Harry Deal home Sunday evening.

Mr. and Mrs. J. M. Grice and son, Truitt and mother went to church Sunday at Alameda Church of Christ.

Mrs. Joe Jones visited Mrs. A. L. Lockhart Saturday.

Mr. and Mrs. Robert Wheat have returned from a trip to Corpus Christi.

Mr. and Mrs. A. L. Lockhart were in Ranger Tuesday.

Some gave Mrs. Harry Deal a shower Saturday 12th. Mrs. J. M. Grice and mother and Mrs. Linda James and Mrs. Richard Tucker and Mrs. Lee Roy Rogers, Miss Della Rogers, Mrs. Curtis Melton and Mrs. G. C. Pilgrim.

Mrs. Mellie Pilgrim is having a house moved from Ranger near her daughter, Mrs. J. M. Grice and son, G. C. Pilgrim.

Miss Minnie Walton is improving.

Mrs. George Mr. and Mrs. Sid Mahan and A. L. Lockhart visited Mr. and Mrs. George Love Saturday near Deadmons.

Mrs. J. H. Wheat visited Mrs. J. M. Grice Saturday evening.

## Dairy Team Gets Training Saturday

Members of the team being entered in the dairy demonstration competition at the annual farmer's short course in College Station during August received further training Saturday from Assistant County Agent Hugh F. Barnhart.

Barnhart discussed "Production of Clean Milk" at the meeting in the courthouse, attended also by Elbert Bennet of Kokomo, James Dean, L. C. Love, Jack Walker and F. E. Walker, all of Alameda.

## LEGISLATURE HAS FUN

HONOLULU. — Samuel E. Kemp, attorney general of Hawaii, is convinced that the Hawaiian legislature really enjoyed law making. He has found that in some cases the same bill was passed three times, others failed to appropriate necessary funds and still others contradicted themselves. He is trying to straighten it all out. Two bills for example reduced the marriage license fee from \$5 to \$2.

## Burglary Case Is Dismissed by Court

The indictment charging Latham Brown with burglary was quashed and the case dismissed Friday in 91st district court by Judge George L. Davenport, who granted the motion of the defense counsel asking that action.

The motion set forth that the indictment alleged the burglary was at the home of Mrs. S. G. Baird of the Dan Horn, whereas her husband was the head of family.

## BABY STAGES "SIEGE"

CANTON, Ohio.—Firemen had to climb through a window to capture a two-year-old boy who locked himself in the bathroom at the apartment of Samuel Kotsen, turned on the water in the tub, and defied all comers. The water was flooding the room when they entered.

Commencement speakers, who told graduates they were a promising lot didn't mean that they should all be salesmen.

## HERE'S WHY FIRESTONE ALWAYS GIVES YOU SO MUCH

# More for your Money

Higher Quality Raw Materials!  
More Efficient Manufacturing!  
Lower Distribution Cost!

These All Combine to Give You Extra Values at No Extra Cost

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it because they saw in it more value for their money.

"How does Firestone do it? How can they build so many extra value features into Firestone Standard Tires and yet sell them at such low prices?" The answer is simple—Firestone controls better-quality rubber and cotton supplies at their source, keeps manufacturing costs low by efficient factory methods and sells in such huge volume that distribution costs are held to a minimum. That is why Firestone has been able to give you such extra value features as Gum-Dipping, two extra layers of Gum-Dipped cords under the tread and eight extra pounds of rubber to every 100 pounds of cord, at no extra cost to you.

Make no mistake about this! The Firestone Standard Tire gives you the plowout protection of Firestone's patented Gum-Dipping process. Its scientifically designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures.

Before you buy ANY tire at ANY price, see today's top tire value—the Firestone Standard Tire. Don't risk your life with thin, worn tires on your fourth of July trip. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires.

THE GATEWAY TO GREATER TIRE VALUES

TODAY, from the jungles of Liberia, there has arisen a great rubber plantation on which the world's finest rubber is being produced.

From the Firestone-owned and Firestone-developed rubber plantations in Liberia there comes an ever-increasing supply of rubber, bringing greater savings to car owners in the form of extra values at no extra cost.

## Rats Cost the State \$15,000,000 in '36

AUSTIN, Texas—Texas sustained a fifteen million dollar loss last year, on account of rats, declared Dr. Geo. W. Cox, State Health Officer. The figure is a very low estimate based upon the probable number of rats in the State, two for each person. No doubt many suffer losses that would pay their taxes, and this does not take into consideration

the losses from diseases, time, and money, caused by the rat. Typhus fever is on the increase in Texas, said Dr. Cox, and the rat is the cause of its spread. Old World typhus fever has a high death rate, while the type we have in Texas, sometimes called Brill's Disease, has a low death rate. It occurs among persons who work or live in rat infested buildings. It was the observation of this fact that led to the discovery that rats are carriers or transmitters of the disease. It appears that the rat suffers attacks of this form of typhus fever and that the fleas

harbored by the sick rat bite man and thus human infection results. Although this disease is not commonly fatal, it cannot be considered lightly. The intense headache, the high fever and the great mental depression are its most unpleasant features. Like in sea sickness, the patient's greatest fear is that he is not going to die. The illness lasts about two weeks. The control of typhus is very difficult and it depends upon the extermination of rats and this is no easy matter. Trapping and poisoning help, but the best results are obtained by starving the

rats. This is done by having all buildings where food is stored rat-proofed. The State Department of Agriculture will be glad to assist communities in their program for the extermination of this pest. Touched, perhaps, by the anti-burlesque epidemic, Detroit police arrested a man for using a siren on his truck. A midwestern woman lecturer revealed she saw both good and bad in a tour of Russia, proving that Soviets are human, after all.

## Six-Word Will Is Filed for Probate

DALLAS.—A will of only six words, hastily scribbled on a scrap of paper no larger than a grocery receipt torn in half, may play an important part in the distribution of a Dallas man's estate. "All I leave belongs to Bun," the penciled instrument said. Bun is Mrs. W. G. Davis. Her husband in 1920 wrote the instrument which was filed last week as his last will and testament. Davis wrote the statement in Galveston just a few moments before he crossed the causeway to the mainland. Storm warnings were raised while he was working on jetties then being constructed. He sent his wife and children to California but waited until the storm broke to leave the island. He was the next to last person in an automobile to cross the causeway before it collapsed. Mrs. Davis discovered an old wallet belonging to her late husband, who died last October, recently, in which was the paper, with cancelled checks and papers indicating he was in Galveston at the time. The paper was signed "W. G. D."

Mrs. Davis, temporary administratrix of the \$7,500 estate, is seeking to be named permanent executrix.
