AS YOU PROBABLY know by now, convicted murderess Karla Faye Tucker became the nation's first woman to be executed in a long time Tuesday night at Huntsville. The execution suited Ye Editor just fine. I'm more than a little bit insulted that the national media tried to paint Texas residents as non-caring bloodletters for carrying out the sentence.

Bull Town Bulletins
By Bill Ellis

If any of the last-minute appeals, from the Pope to the Supreme Court to Governor Bush had succeeded in sparing Ms Tucker's life, it would have been a travesty of justice.

So many verdicts, rulings and court decisions have been overturned in recent years that it must make lawmen, prosecutors, judges and juries wonder why we even bother with our legal system.

We cannot imagine the frustration that families of victims must feel when such criminals are spared, and worse yet, paroled back into society, where many times they duplicate their previous crimes.

And to have spared Tucker due to the fact that she had "found God" while in prison was about the worst reason of all, in our estimation. While she may have been completely sincere, this would have set a very, very bad precedent. Many observers have already commented that if this had happened, every criminal behind bars would have come up with their own conversion experience.

During the World War II era, the saying was that "there are no atheists in the foxholes" (or battlegrounds). This same axiom could be applied to prisoners, especially those on death row.

Karla Faye and others like her should have found their God a lot earlier in their lives. Then we wouldn't have had to have the situation that we experienced this week. Also, perhaps there wouldn't have been so many people needlessly murdered.

Sparing Karla Faye wouldn't have brought the victims back to their families. Can you imagine a person killing another with a pick-ax? Many of us oldtimers are familiar with this implement. The trial revealed that Ms Tucker had hit one of the victims 50 times with the ax. Were the last 48 whacks really necessary?

If Karla Faye's sentence had been commuted to life imprisonment, as she wanted, Texas taxpayers would have been paying dearly for her rehabilitation. At age 38, she easily could have lived another 40 years, maybe more.

A conservative estimate is that it costs taxpayers \$40,000 per year to house a prisoner. The 40-year tab would have run at the very least \$16 million.

Karla Faye had proven that she had little regard for human life, so why should the taxpayers pay 16 million dollars for her little slip-up? Come to think of it, I doubt that all of the prisoners in Huntsville together are worth \$16 million. They're not to me.

Governor Bush exhibited considerable stress and concern when he made his statement Tuesday evening.

We'd like to go on record as saying "Thank you, Governor, for backing up our state's legal system. With the eyes of the nation on you, it would have been easy to have faltered. I appreciate your dedication to duty."

One of the pro-life demonstrators said Tuesday "It doesn't make sense. We're executing Karla Fay, while O.J. is playing golf in California." Too bad O.J.'s trial couldn't have been moved to Texas. If it had been, I doubt seriously that he would have been playing golf.

Basketball King & Queen Nominations

Next Tuesday, February 10, the Mustangs and Fillies meet Olton here for their final home game of the 1997-98 basketball season.

The 1998 basketball king and queen will be announced and crowned at 6 p.m., prior to the evening's varsity games with Olton.

Nominees for king are seniors Adan Perez, Tony Beauchamp, and Luke Steelman.

Queen nominees are Bonnie Quintana, Amanda Smith, and Marcy Guevara.

Serving as attendants are freshmen Yvette Marquez and Adam Ramirez; sophomores Lety Vargas and Josh Quintana; and juniors Ashley Zehner and Herman Marquez.

QUEEN CANDIDATES...Nominated for 1997-98 Bovina basketball Queen are seniors Amanda Smith, Bonnie Quintana, and Marcy Guevara.

WTAMU To Offer Water Mgmt Course

The Division of Agriculture and the Continuing Education Center will be offering a three week course on agricultural water management. The course will focus on basic principles of water conservation and water use efficiency.

Specific subjects will include rainfall probabilities and distribution; water use efficiency; understanding the Potential Evapotranspiration (PET) Network; crop residue management for water conservation; effect of soil fertility on increasing water use efficiency; and crop-livestock systems as an alternative to grain production for more efficient use of rainfall.

The course will be presented in Friona, at Friona State Bank, on Tuesday evenings, February 10, 17, 24, from 7:00-10:00 p.m.

Dr. B. A. Stewart, interim head, Division of Agriculture at WTAMU and former director of the U.S.D.A. Conservation and Production Research Laboratory at Bushland will be the course instructor. Cost is \$48.

To register call the Continuing Education Center at 806-651-2037.

BASKETBALL KING NOMINEES.....Seniors Adan Perez, Luke Steelman, and Tony Beauchamp are the 1997-98 candidates for Bovina Basketball king.

ALFRED URIEGAS & JASON STONE
Students Of The Week

Bovina teachers selected two students for student of the week honors.

Alfred Uriegas is a junior, nominated by teacher Carolyn Beauchamp as a good student, a class officer who is active in UIL and in the National Honor Society.

Freshman Jason Stone, nominated by Lawrence Widner, does a good job in class and represents the school in UIL events, especially FFA. He also participates in football and basketball.

COMPUTERS ARRIVE....Bovina ISD received 45 new computers last week under a state TIF grant. Each classroom will have a computer, including Ridgelea. The interior of the school has been wired and the computers will eventually be connected to the Internet also. Denise Anderson and Linda Lewis are all smiles as they anticipate the computer advancements for Bovina ISD. (ron carr photo)

Mustangs Hit The Brakes, Lose Two Out of Three

Highland Park, Hale Center, and Lockney. Three in a row on the way to making a run at the district title. A sweep, or two out of three, would have put the Mustangs in the midst of the race.

But the Mustangs had to settle for only one out of three, defeating Highland Park 48-44, then dropping close contests to Hale Center 53-50 (overtime), and Lockney 72-58.

The Bovina Fillies have had a rough time this season, posting a 2-21 record, 0-7 in district play. The speedy Fillies, who have consistently given up the height advantage to opponents this season, are led by senior forward Bonnie Quintana.

According to her coach, Daryl Hill, Miss Quintana is the leading girls scorer of all classifications in the Panhandle. She has 579 points through 23 games, with three contests left on the schedule.

Facing district leader Hale Center, who is ranked 8th in the state in 2A, the Mustangs used a ball control style to slow down the Owls attack.

For most of the game, Hale Center irritated the Mustangs with a swarming full court press. Several backcourt steals off the press gave the Owls some unnecessary points.

On the Mustangs offensive side, senior Tony Beauchamp patrolled the tough territory under the basket amidst the forest of legs and elbows.

He led scoring with 21 points, however Beauchamp could only manage 1 of 11 free throws. The Mustangs

were only 3 of 14 from the line for the evening.

At the end of regulation, with less than one second on the clock, a Hale Center player sank a hotly disputed bucket that would have won the game for the Owls.

However the referees ruled the shot as no good and the teams went to overtime tied 43-43. Once again, the ball control Mustangs were outscored 10 to 7 and lost the contest 53-50.

Hoping to recover, the Mustangs journeyed to Lockney to take on the ever-tough Longhorns in a battle for second place in district 3-2A. The Mustangs defeated Lockney earlier in the season and a victory would have meant an almost sure playoff berth.

But the Mustangs did not count on Lockney star Devon Phillips playing. Phillips missed the previous game, but he came storming back in this one with an impressive 32 points to lead Lockney to victory by a score of 72-58.

Victory was in sight for three quarters as the Mustangs took a 37-25 halftime lead and were ahead 49-45 at the end of three quarters.

Tony Beauchamp led scoring with 24 points and teammate Luke Steelman added 14.

The Mustangs and Fillies play Hart tonight (Feb 6) and finish the season with Olton here and Highland Park there next week.

At the February 10 game (Tuesday) the 1998 basketball king and queen will be crowned at 6 p.m., prior to the Fillies and Mustangs final home game.

CONGRATULATIONS!
Earning 100-points in the accelerated reading program this week were, from top, Karla Rivera, 4th grade, Mrs. Deen's class; Diana DeLa-Rosa, 4th grade, Mrs. Graves' class, and Giselle Alvarado, 5th grade, Mr. Martin's class.

HOT SHOOTER....Fillie senior Bonnie Quintana has had a hot scoring hand all year in spite of the Fillies 2-21 record. Bonnie scored 38 points against Lockney last Tuesday for a season total 579 points, a 25.1 per game average. (ron carr photo)

STRATEGY SESSION....Mustang head basketball coach Derrick Byrd rallies the Mustangs as they face overtime against the Hale Center Owls last Friday. Byrd's boys are 16-6, 4-3 this year and face an uphill run to the playoffs. L-r are Martin Reyna, Luke Steelman (12), Adan Perez (20) (ron carr photo)

BLOCKED!...Mustang senior post Tony Beauchamp gets a block against Hale Center last Friday as the Mustangs lost an overtime match with the district leading Owls 53-50. Beauchamp was the leading scorer with 21 points. At left are Herman Marquez (32) and Luke Steelman (12). (ron carr photo)

Local Doctor Certified As Family Specialist

Dr. Robert S. Alexander of Friona, has been named a Diplomate of the American Board of Family Practice (ABFP), the certifying entity of the family practice specialty.

Dr. Alexander, a family physician, earned Diplomate status by passing the ABFP's certification examination, an intensive written test of the physician's abilities in pediatrics, internal medicine, surgery, obstetrics, gynecology, psychiatry, prevention and other aspects of family practice.

Family physicians are trained to care for the whole person, treating a majority of all medical problems people might have and referring them to other specialists as necessary.

There are family practice departments in approximately 126 U.S. medical schools and residency training programs in more than 465 university and teaching hospitals.

ABFP Diplomates must continue to demonstrate their competence in the specialty by taking recertification exams every six years.

Family practice was recognized in 1969 as a medical specialty by the American Medical Association

Letter To The Editor

Dear Ron:
 In the Fri., Jan 30 issue of the Bovina Blade, in your "Out Here", you were talking about Karla Faye Tucker. One paragraph said, "Well anyway I guess God is used to stress by now. Some people say that God never gives you more than you can handle which I think is a lot of baloney. If that were true, suicide would not exist."

I suggest you read I Corinthians 10:13. Remember Paul is talking to Christians. This does not apply to non-Christians.

Ron, everyone is allowed one boo-boo.

Keep up the good work of writing interesting columns!

Don Teague
 Bovina, TX

(Editor's note: I Corinthians 10:13 says: "No temptation has seized you except what is common to man. And God is faithful; he will not let you be tempted beyond what you can bear. But when you are tempted, he will also provide a way out so that you can stand up under it.")

Out Here

"The only thing we have to fear is fear itself."
 Franklin D. Roosevelt

"Ask not what your country can do for you, ask what you can do for your country."
 John F. Kennedy

"SO WHAT?"
 Billy Jeff Clinton

A political analyst, commenting on the mess in Washington, said that we have become a society who stands in front of the microwave shouting hurry up.

Thanks to computer and satellite technology we are an impatient country, accustomed to instant gratification.

We are a society who has become comfortable with excess. Children's toys now come with computer chips and batteries. Teddy bears talk and giggle. Instead of asking for a Barbie doll, a little girl has to specify which of the 1,000 different Barbie's

representing all areas of life she wants.

Kids get Game Boys and Giga Pets instead of Tonka Toys and Raggedy Ann's. Every toy seems to walk, talk, belch, or wet.

We are a Wal-Mart society. We crave goods stacked to the ceiling, with thousands of choices, at a good price. Most of the great unwashed could care less whether their last Wal-Mart purchase was made in China or the U.S.A.

Someone in higher places thinks we need at least 100 varieties of pickles at the grocery store. Instead of dill, you can choose kosher dill, garlic dill, or polish dill. You can get them whole, sliced, quartered, or sandwich stacked.

We don't have time to slice pickles anymore. We stand in front of the microwave shouting hurry up.

We are entrenched in excess from the media, from the government, and in society. But you know what? Many seem not to care.

As long as there are two cars in every garage and a chicken in every pot, we are a happy bunch. Thanks to our current president and his liberal democratic circle of talking heads, we have become a "SO WHAT?" society.

As Billy Jeff said when he pointed his finger at the camera and denied knowing "that woman, Miss Lewinsky", I want you to listen to me.

Folks, we have a mess in this country. Whether you are a Republican, Democrat, Populist, or Communist, we have a mess in this country.

"SO WHAT?". I have a job, I made a killing in the stock market, I went to Disney World, I have a cell phone, and several dozen credit cards. Things are good. "SO WHAT?"

The parents, teachers, and preachers in America have a lot of work to do.

See, I no longer fear the government, or the media. I am scared to death of the American people.

For weeks now, the person on the street has been interviewed about Billy Jeff's latest scandal and they say "SO WHAT?". I don't care what he does in his personal life, they say. Then they add, let's just let him run the country. They say he is doing a good job and most of them do not have a clue how the government works.

I am scared when people around the country say that it is okay for the president of the United States, who is married with child, to besmirch the office, to make the office a laughingstock in the world, and then to lie, and we say it is okay?

The allegations that have been raised since 1992 about Billy Jeff and Hill Rod cannot all be false.

I find it interesting that the raging feminists of America are not lambasting Billy Jeff for his latest zipper venture. Where are all the offended females who would take issue with a 50'ish male in a position of power taking sexual advantage of a 21-year-old female employee. (SO WHAT?)

You believe Billy Jeff and not Monica, huh? Consider these questions posed by

columnist Mona Charen in the Amarillo Globe:

"Would a 21-year-old intern invent a relationship that consists only of oral sex?"

"Is that the classic fantasy of young women?"

"Why would the president wait to see what Miss Lewinsky is going to say to prosecutors before giving his account of the relationship?"

You know, this whole sordid mess is frustrating. Republicans and Democrats alike are in a mess, they all lie, they all use the "so what, everybody does it" excuse.

They all do not want term limits, nor do they want any regulations about campaign finance reform.

Billy Jeff Clinton has abused the power of the office. Hill Rod ain't leaving him because as first woman, she has a bird nest on the ground there in Washington. Why would she want to give up her privilege and status just because her husband diddles around every now and then.

Besides, she wants to be president herself someday and it would not surprise me at all if she is elected.

Nothing about our elected officials will ever surprise me

again. Big government is in fact getting bigger and we like it that way.

Now that he has been reelected, Billy Jeff is going back to the liberal democratic line.

He became a Republican long enough to get enough votes.

They call him the Teflon man because nothing sticks to him. That has been proven over and over and over.

I am weary of writing about it. If his version of family values and child care and education are yours too, so be it. I am tired of telling you what Billy Jeff is doing to America and then you don't listen.

It is sad when the young people of America are told it is okay to be married and be president and screw around with young women on the side. Dennis Rodman is a better example.

Preachers, teachers, and parents, you had better get busy. The Clintons are undoing everything you have been teaching for years. Good luck.

My dream is to be able to write a column that begins, "I told you so." Yes, there is a right wing conspiracy to get Billy Jeff. I am part of it. "SO WHAT?"

Shot Dates Are Given For February

Immunization clinics offering vaccines that give protection against several childhood diseases are scheduled for February.

Protection is against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella, mumps and HIB (Haemophilus Influenzae Type B).

Influenza and pneumococcal vaccines will be available.

The Texas Department of Health is charging fees to help with the cost of keeping the clinic open. The amount of money charged will be based on family income and size, and the ability to pay.

The vaccinations are available at the WIC Office, 704 Main St. in Friona, on Friday, February 20 from 10 a.m.-12 noon and 1-3:45 p.m.

Vaccinations will also be administered at the EMS Office, 109 Third Street in Bovina on Monday, February 9 from 10 a.m.-3 p.m.

Patients Prefer Home Health Care; Practice Growing In Popularity

Home care has grown dramatically as a preferred method of health care over the last two decades. Patients prefer to be cared for at home rather than in hospitals or nursing homes, and advances in medical technology allow more complex treatments to be administered in the home rather than in institutions.

In addition, home care is very cost efficient compared to hospital or nursing home care. Home health services include skilled and supportive care such as nursing; physical, occupation and speech-language therapies; medical social work; and nutritional counseling.

The Balanced Budget Act passed by Congress in the summer of 1997 is dramatically changing Medicare home health. Not only do new provisions attack fraud and abuse, but they also significantly reduce the number of Texans who

will be able to utilize legitimate services.

Under the new payment rules, the costs of providing care incurred by nearly 75 per cent of all home health agencies will exceed their reimbursement. Agencies will not be able to adapt to such significant cuts simply by striving to be more efficient.

Many agencies will be faced with the difficult choice of closing their doors, reducing services, altogether avoiding treatment of patients with high care-needs. Each of these alternatives poses a serious threat to senior citizens' ability to receive vital care at home.

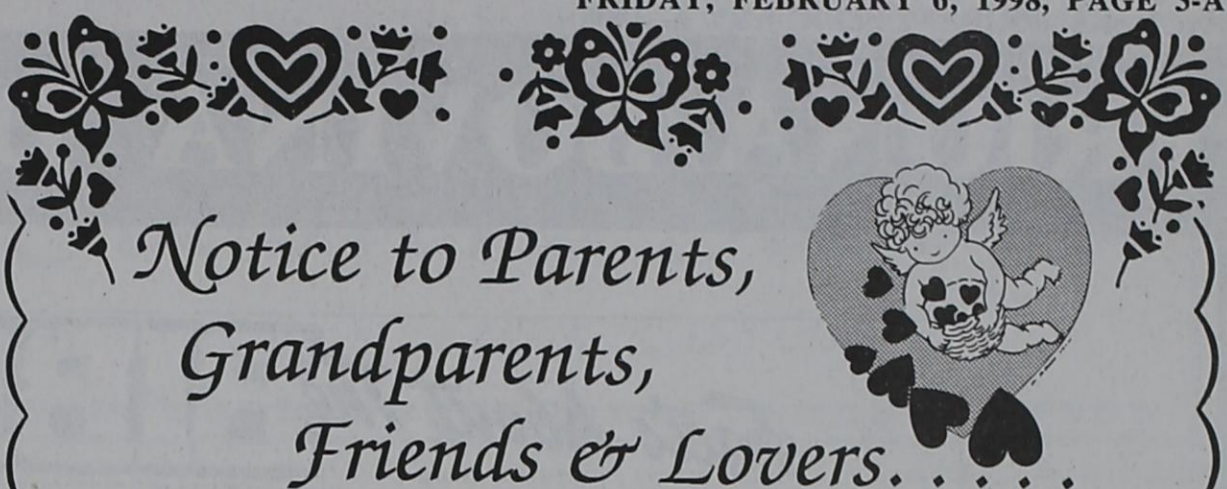

A number of home health agencies will close in the next year, as the effect of the Balanced Budget Act begins to be felt. Approximately 30,000 Texans will lose their home care services because of

the changes to the Medicare benefit.

Care needs of Medicare recipients will not disappear. If home health services are unavailable, there will be an increase in expensive hospital and nursing home admissions, and an increase in the number of the elderly who die unnecessarily at home without the aid they need.

Congress is unaware of the real effects of the changes being forced upon home health agencies and their patients as a result of the Balanced Budget Act. It may not be too late to convince Congress to stop these changes and maintain the benefits that keep many Texans at home and independent.

389 *Facts About The* **BIBLE** BY JOHN LEHTI

This is a dramatized version of facts taken from the Book of Esther, intending to show some of the customs of these ancient and traditional times.

EVIL HAMAN

AT THE BANQUET ESTHER IS GIVING FOR THE KING AND HAMAN, THIS EVIL MAN STILL HOPES TO GAIN PERMISSION TO HANG MORDECAI—NOW, AS THE KING SHOWS HIS DELIGHT IN ESTHER...

WHAT REQUEST HAST THOU, QUEEN ESTHER?

IF I HAVE FOUND FAVOR IN THY SIGHT, O KING, LET MY LIFE BE SAVED! FOR....

...I AND ALL MY PEOPLE ARE TO BE SLAIN BY AN ENEMY!

WHO IS THE MAN WHICH DARE DO SUCH AN EVIL THING—SHOW HIM TO ME!

UNTIL THIS MOMENT, HAMAN HAS NOT KNOWN QUEEN ESTHER IS THE NIECE OF MORDECAI, THE JEW, WHOM HE HAS PLANNED TO HANG, WHILE KILLING ALL THE JEWS IN THE KINGDOM—NOW HIS EVIL HEART FREEZES IN FEAR AS ESTHER SAYS "THE ENEMY IS THIS WICKED HAMAN!"...

Scooter's Scoops

By SCOOTER RUSSELL

We express our sympathies to Lowell Primrose whose mother passed away in recent weeks. Lowell and his wife, Billie, were so good to her and took care of her as long as possible before she had to go to the nursing home. She was Maudie Primrose, 98, and was survived by one son, one grandchild, six great-grandchildren and ten great-great-grandchildren.

Lois Smith spent time in Hobbs, New Mexico with her sister, Doris Brede. Doris's daughter Julie and family live in Hobbs and Lois lives in Palestine but she went to Hobbs to send time with Julie's son while Julie and her husband went to the Eastern states on a free trip.
Lois and Doris had a good time with the teenage boy and said he was a delight to be with and no trouble at all.
Lois said her sister, Doris, had the flu while she was there and spent a couple of bad days even though she had the flu shots but is fine now. Lois was almost a week before returning home.

Rouel Barron is back in good health after spending three days in the hospital a few weeks ago in Clovis. He said he became so tired he couldn't walk across the floor. He went to the doctor and they put him in the hospital and gave him four units of blood so he's feeling good now except he has a cold that is hard to get rid of.

Donalita Hawkins is getting along much better now. She was in the hospital three times since the week of Christmas. She was in the Clovis hospital with calcium deposits on her spine and they took care of that with medication, then was in the Methodist Hospital in Lubbock and had to have surgery for a hernea the size of a golf ball. Her daughter Darla is staying with her and getting her schooling for a registered nurse in Clovis.

A.M. Wilson and daughter Pam Bell have been to Abilene and visited with A.M.'s daughter Suzanne Murphy and her family and attended funeral services for A.M.'s sister-in-law in Abilene.

Dale and Tonya Gober took several in the church bus to Clovis Furrs Cafeteria for dinner on Sunday. Some members of the First Baptist Church took cars and some rode on the bus. There were several people who had an enjoyable day.
Those going were Brother Gary and Donna Morgan, James and Sandra Clayton, Joe Looney, Charlise Eubank, Sid Lloyd, Lois Smith, Artie Faye O'Hair, Vernon and Dottie Ward, Maggie Terry, Dick and Pernie Free, and Dale and Tonya Gober.

Bonnie Clayton reported that her mother, Mary Cochran, is feeling much better and would enjoy cards and letters. Her new address is Mary Cochran, Room 319, Edgewater Care Center, 1213 Water Street, Kerrville, Texas 78028.

My brothers are farmers and ranchers in New Mexico and have had fun getting around in the snow and mud this year, more than usual. This week they sent me an article that they certainly related to as many did in their area. Some of our people felt the same way.
The East Mountain area received about 110 inches of snow in that area, after only 30 inches the previous year. Many people had moved to the area in recent years and were very much surprised...Someone wrote:
Dear Diary:
Aug. 1 Moved to our new home in New Mexico. I know why they call it the Land of Enchantment. It's so beautiful here. The mountains are so majestic. Can hardly wait to see them with snow covering them. I love it here.
Oct. 14 New Mexico is

the most beautiful place on earth. The leaves have turned all the colors and shades of red and orange. The aspens are golden yellow.
Nov. 3 Went for a ride through the beautiful mountains and saw some deer. They are so graceful. Certainly they are the most wonderful animals on earth. This must be paradise. I love it here.
Dec. 2 It snowed last night. Woke up to find everything blanketed with white. It looks like a postcard. We went outside and cleaned the snow off the steps and shoveled the driveway. We had a snowball fight (I won) and when the snow plow came, we had to shovel the driveway again. What a beautiful place. I love New Mexico.
Dec. 12 More snow last night. I love it. The snow plow did his trick again, he's so funny. I love it here.
Dec. 19 More snow last night. I couldn't get out of the driveway to get to work. I am exhausted from shoveling. Dern snow plow!
Dec. 22 More of that white junk fell last night again. I've got blisters on my hands from shoveling. I think the snow plow hides around the curve and waits until I am done shoveling the driveway. The jerk!
Dec. 25 Merry Christmas (I suppose) More dern snow! If I ever get my hands on the one who drives the snow plow, I swear I'll squeeze his neck. Don't know why they don't use more salt on the roads to melt the ice.
Dec. 27 More of that white stuff last night. Been inside three more days except for shoveling out the driveway after the snow plow

goes through every time. Can't go anywhere, car's stuck in a mountain of white junk. The weatherman says to expect 10 inches of the stuff again tonight. Do you know how many shovels full of snow are in 10 inches?
Dec. 28 The stinking weatherman was wrong. We got 25 inches of show this time. At this rate it won't melt before next summer. The snow plow got stuck up the road and the man with all his nerve came to the door and asked to borrow my shovel. After I told him I had already broken six shovels while shoveling all the junk he pushed into my driveway. Wanted to break the last one over his head.
Jan. 4 Finally got out of the house today. Went to the store to get some food and on the way back a dern deer ran

in front of the car and I hit it. Did about \$3,000 damage to the car. Those should be killed. Wish the hunters had killed them all last November.
April 13 You guessed it, more snow is falling. Took my car to the mechanic today. Would you believe the thing is rusting from all that salt they put all over the roads.
April 25 I'm so sick I can't stand it. Weatherman said partly cloudy and warmer, woke up and had to shovel six inches of "partly cloudy" off the driveway. Don't have to drive to the mountains...I have my own, at the end of my driveway.
...Moved to California. I can't imagine why anyone in his right mind would ever live in the state of New Mexico.

"ARTIST OF THE MONTH"
Pauline Whatley

ARTIST OF THE MONTH... Pauline Whatley, a resident at Prairie Acres, has been named Guest Artist of the Month for February. Pauline is a self-taught artist and her oil paintings are on display in the lobby at Prairie Acres. Her husband Ray Whatley, pictured here with Pauline, does woodworking and has made some of the frames for Pauline's pictures. They have been members of the Trinity United Methodist Church of Clovis for 50 years. They lived in Friona for about a year in 1959, where she was a proofreader for the Friona Star and he worked for Friona Motors. The couple will celebrate their 60th wedding anniversary later this year. Pauline is Roger Nelson's aunt.
