British Striking Out For Arnhem Bridge

Gets Promotion

BUSTER MILLS IS MADE FIRST LIEUTENANT

Aloe Army Air Field, Victoria, Tex. (Sp1)—Oct. 5—The promotion of Colonel Buster Mills, County Club Road, Ranger, to the rank of first lieutenant has been announced by officials of this field where First Lt. Mills is stationed as recreation officer in the special service division.

Son of Mr. and Mrs. E. H. Mills of Ranger, and a graduate of Ranger High school, Lt. Mills has been at Aloe Field since last July. Since his arrival Lt. Mills has been manager of the post baseball team, the Snipers, and under him the team has amassed a string of victories over service teams of this area.

Lt. Mills came to Aloe Field, an advanced single engine pilot training school of the AAF Central Flying Command, from Waco Field, where he was physical training director and special service officer.

Mills has played professional baseball for many years including terms with the Cleveland Indians, New York Yankees, and many other clubs.

Eastland Boys, Home On Leave, Met In Italy

It makes a fellow feel good to meet an old friend any time and especially is this true when one is far away from home in a foreign country.

Two Eastland boys, Ensign Dale E. Mahaffey, and T-Sgt. Lane King, who are Eastland neighbors had this experience in Naples, Italy, recently. Both are now in Eastland on furloughs.

Ensign Mahaffey, son of H. C. Mahaffey, is with the Merchant Marine, and was over seas six months. T-Sgt. King, son of Mr. and Mrs. V. L. King, is an aerial gunner mechanic and has completed 50 missions. Mahaffey saw service in Africa, Italy and the invasion of southern France. He is home on a two week's leave while King is home on a 30 day furlough.

Asks No Charge For Locating Home Hunters

ABLENE, Tex. (UP)—Benefactress of harassed wartime home hunters is Mrs. W. R. Derr of Abilene.

In the last two years, Mrs. Derr has found homes for 60 or more frantic families—mostly army people. And her service is free.

The manner in which the service is run is unique as the service itself. When Mrs. Derr hears of an available apartment, she records the address in pencil on the door facing near her telephone.

When the opening is filled, she rubs out the address to make room for another one.

Couples with children do not hear that inexorable "no children" when they call Mrs. Derr. Many of the families she has placed have included children.

LAKE PLACID TO REASSIGN COMBAT VETS

LAKE PLACID, N. Y. (UP)—The highly-complicated machinery for processing and re-assigning an expected 2,500 overseas returnees a month took shape at Lake Placid today, site of the newly organized Army Ground and Service Forces Redistribution Station.

Scores of veterans with records of service from the South Pacific to South America, began to trickle into the Lake Placid Club, formerly the play ground of the wealthy, which was turned over to the U. S. Army as one of many Redistribution Stations established to provide relaxation and recreation for war-weary veterans during their processing.

Under command of Col. Frederick B. Dodge, a veteran of many years service, the Station began to set up barracks where once summer homes and lakeside cottages stood.

One hundred officers and 400 enlisted men, many of who also saw overseas service, form a Station Cadre to handle the intricate procedure of processing the veterans. Complete physical and mental checkups will be made on each soldier and a new job where his abilities and qualifications best fit him to continue in the Army will be arranged.

During the process, requiring approximately two weeks, the returnee has complete freedom of the spacious Lake Placid Club and its many and varied forms of recreation.

Col. Dodge said he expected a "smooth running organization" early in October, although several returnees already have passed through the Station and are en route to new army posts.

Competent legal and medical advisors are scheduled to meet each returning soldier and discuss his problems and arrive at a decision as to his future status in the United States Army. In many instances when war broke out, soldiers were rushed into jobs for which they had only limited qualifications.

Under the new system each soldier will be given ample time to aid the experts in determining his abilities so that he may be reassigned to an army job for which he is best suited. While this process goes on the soldier has sufficient time to indulge in fall and winter sports, to recoup his strength if need be, and to enable him to readjust himself to his return.

The Lake Placid Redistribution Station, serving five Northeastern states, is expected to draw most of its returnees from New York State, although many will come from the New England area.

After months of "gulping down K-rations" in foxholes and catching naps in sleeping bags, the returnees will be given the best food the Army can provide and quarters in comfortable, quiet and restful surroundings.

Col. Dodge emphasizes that the main objective of the Station is to determine the soldier's qualifications for further army duties, but to allow him complete freedom and rest while doing so.

In addition to Col. Dodge other key personnel at Lake Placid, include:

Lt. Col. Thomas M. Childs, Bayfort, L. I., Director of Information and Education; Lt. Col. Donald M. Magregor, Duluth, Minn., head of the Special Services Section; Maj. Webb R. Mouchet, Post Adjutant; Maj. Elmer Sherwood, Indianapolis, Ind., Director of Public Relations; Maj. Leo Dufort, Malone, N. Y., Director of Personnel; Maj. J. O. H. Evans, Front Royal, Va., Security and Intelligence Officer, and Col. Herbert M. Beramini, New York City, Medical Officer.

One of the first returnees, Donald Mason, Ithaca, N. Y., a veteran of 38 months in Trinidad, already has been processed and reassigned. Mason a staff sergeant, left with his wife for Miami, Fla., for duty with the Transportation Corps.

Ligon's Grocery Bought By Alsup And Harris

Another business change in Eastland is that in which Waldo Harris and wife of Eastland and J. F. Alsup of Cisco purchased the grocery and market at 509 West Commerce street from W. A. Ligon.

Mr. and Mrs. Harris, who formerly lived at Cisco, have been residents of Eastland for a number of years while Mr. Alsup, a rancher lives at this time in Cisco. Mr. and Mrs. Harris will operate the business which will be conducted under the firm name of A&H Cash Grocery and Market. Formerly employed by Piggly Wiggly and the Royal Crown Bottling Company in Eastland, Mr. Harris has had experience in the grocery business as has Mrs. Harris.

The line of merchandise carried by the A&H Grocery and Market will include fresh and cured meats, fresh vegetables, fruits and a general line of quality groceries.

The business will be conducted strictly on a cash basis, the new proprietors stated.

Coast Guard Is Again Open To 17-Year Old Boys

Enlistment of 17-year-old youths as Apprentice Seamen in the U. S. Coast Guard Reserve has been resumed in the Eighth Naval District—which includes Dallas, Lieutenant (j. g.) Marie Hulbert, Officer in charge of the Dallas Recruiting Office 1110-12 Irwin-Kessler Building, has announced.

Applicants must meet physical and educational requirements for enlistment. No waivers for physical disabilities of any type will be considered, the recruiting officer said.

A substantial quota has been authorized for this district, and Lieutenant Hulbert urged youths eligible to investigate opportunities offered in the Coast Guard.

Recruits will be transferred to the Coast Guard Training Station at Curtis Bay, Maryland for indoctrination training, following which they will have an opportunity to enroll in one of the service's numerous trade schools or will be assigned to a Coast Guard shore or floating unit.

Boy Scouts Hold District Meet In Eastland

A district Boy Scout Pow-Wow was held in Eastland in the Annex of the First Christian church Monday night. Executives from Stephens and Eastland counties were in attendance. The purpose of the meeting was to exchange ideas in scout work.

After a dinner Homer Tudor of Breckenridge led the program. Guy Quirl and Guy Smith of Brownwood were also speakers. Thirty-eight scouters were present from Eastland, Ranger, Gorman, Carbon, Breckenridge.

Revival Meeting Closes Sunday

The revival meeting in progress at the Eastland Church of Christ since Wednesday of last week has been drawing splendid crowds. The preaching is being done by E. C. McKenzie while the song services are under the direction of S. E. Frice.

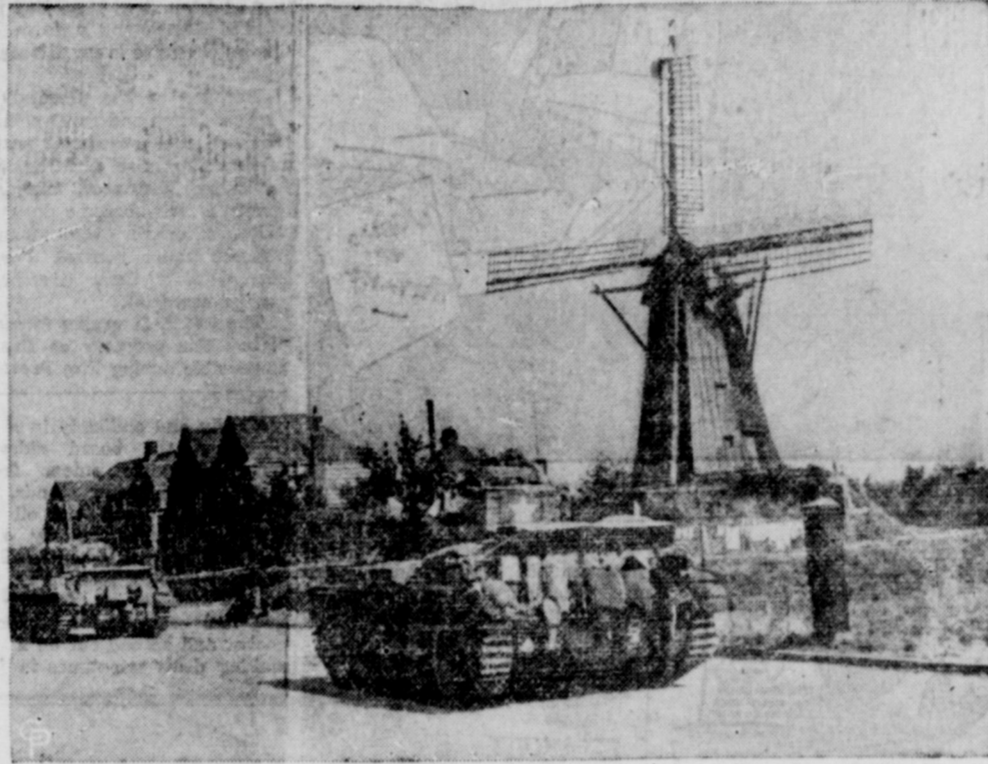

The services will be concluded Sunday with a "dinner on the ground" at the City Park.

Stimson Explains Army's Plan For Demobilization

WASHINGTON, (UP)—Secretary of War Stimson says the army's plan for partial demobilization after victory in Europe are not based on either political or economic factors.

Stimson told newsmen soldiers will be discharged as quickly as possible. He added their speedy return home will be governed by the number needed to defeat Japan and the available shipping.

British Roll On After Liberating Eindhoven

PASSING A WINDMILL, symbol of Holland, British tanks advance to Nijmegen, vital gateway to the Rhine, following the liberation of the Dutch town of Eindhoven. (International)

Eastland Woman's Husband Awarded U. S. Air Medal

An Eighth Air Force Bomber Station, England—Technical Sergeant Dick M. Lucas, 22 year old engineer and gunner on an Eighth Air Force B-17 Flying Fortress, has been awarded the Air Medal for "sacrificial achievement" during bombing attacks on Nazi military and industrial targets and in support of Allied ground forces. It was announced by Colonel Charles E. Dougher of Fresno, Calif., base commanding officer.

Sgt. Lucas is the son of Mr. and Mrs. Dick Lucas of Huntington Park, Calif. His wife, Mrs. Joyce D. Lucas, lives at 517 East Sadosa street, Eastland, Texas. Before enlisting in the Army Air Forces he was employed as an air- (Continued on page 6)

Gives Some Sound Advice On What To Send Soldiers

FORT WORTH, Tex. (UP)—If they can't eat it or read it and enjoy it right there on the spot, don't send it," is Sgt. James Fenoglio's advice to those who are preparing Christmas gifts for servicemen.

So his mother and sister are preparing cookies, candies, and mystery books for their overseas packages for his three brothers who are still overseas.

Morton Valley And Williams To Play At Ranger

Morton Valley High School Mustangs will meet the team from Williams school in Brown county in a game at Bulldog Stadium in Ranger at 8:00 o'clock tomorrow (Saturday) night, it is announced by Coach Jones of the Mustangs.

American Heavy Bombers Give Cologne Pounding

LONDON—More than 1,000 American heavy bombers delivered a new heavy daylight smash against Germany today.

By flying forts and Liberators—accompanied by strong forces of fighters—concentrated on the Rineland City of Cologne.

Back From Italy

Pictured above is Cpl. G. W. Williamson, son of Mrs. Mark Williamson of Eastland and Uncle of Mrs. Dwayne Dennis of Ranger, who has just returned to the States from service with the armed forces in Italy.

Cpl. Williamson went into service with the National Guards of Plainview in April 1940, and received training at Camp Bowie, Camp Blanding, Florida, Camp Edwards, Mass.

He went into Italy with the Fifth Army at Salerno and is a veteran of the invasion, the battles for Cassino, Rome and the Rapido River crossing.

Heat-Tempered All Plastic Tire Is Being Tested

AKRON, O.—Development of the first "heat-tempered" all plastic tire—a step that eventually may greatly increase tire life—was announced today by the Firestone Tire and Rubber Company. The development is considered of major importance because the tire is designed to whip the number one enemy of long wear—heat.

This new tire is now being laboratory tested. Whether the all-plastic oval ultimately will compete with its rubber colleague will not be known until the company completes the current laboratory examination and the grueling road tests to which the new tire will be subjected later.

Eastland Singers To Meet Sunday Afternoon

Eastland Singers will meet Sunday afternoon at 1:00 o'clock at the Church of God, it is announced by A. E. LeClaire, president. A number of singers from adjoining counties are expected.

All singers and all who like good singing have a cordial invitation to attend.

U. S. Program Is Saving Salmon In California

RED BLUFF, Cal. (UP)—Despite war, irrigation and flood control projects, the U. S. Fish and Wildlife service in northern California is doing its job of saving the salmon runs that occur in the Sacramento river in both spring and fall by artificial propagation.

The conservation program was launched at the beginning of construction of Shasta dam, when fish that once were free to ascend to the upper reaches of the Sacramento, McCloud and Pitt rivers were forced to confine their spawning to below the dam.

From traps at Keswick dam and Balls Ferry on the Sacramento river, some spring salmon are hauled in tank trucks to Deer creek, where they are allowed to spawn naturally, and to Battle creek where they are artificially spawned in one of the two largest fish hatcheries in the world, completed last year at a cost of more than \$1,000,000. Other fish are counted through and allowed to ascend the river for natural spawning.

John Pelmar, district supervisor expected to collect at least 2,500,000 spring salmon eggs and 10,000,000 from the fall run, considerably more than last year's take. The young fish are allowed to depart at will from the holding pond to the Sacramento river.

A second spawning station on Battle creek and a third on Mill creek, both Sacramento tributaries, added to a total of about 20,000,000 fingerlings hatched from about 22,000,000 eggs last year.

Says Jalopies Will Dominate Postwar Roads

DETROIT, Mich. (UP)—America after the war will be a nation full of jalopies according to Joseph McDougal, president of Miller Mfg. Co., toolmakers. Hardly a passenger car and very few trucks will be less than three years old. Seventeen million of the twenty six million motor vehicles on the road will be seven or more years old, he said. Auto repair facilities will expand vastly when gas, tire, and other war restrictions are removed.

"From the standpoint of opportunity and in view of the smallness of required investment, the auto repair station likely will prove attractive to those returning soldiers and demobilized munition workers who have skill aptitude as mechanics," McDougal asserted.

"A man alone or with his buddy could get off to a start in this line of small business with a rented place and a sackful of tools."

McDougal, after completing a survey, said that auto repairs in the post-war period, while new car manufacture is restoring the pre-war level, will amount to a billion dollars yearly.

Foreign Cars Keep Going On Strange Fuels

WASHINGTON (UP)—Ingenious foreigners, trying to beat the gas and oil shortage, are keeping their cars running on such substitutes as oil from alligator's tails and rum mixtures, in articles in Foreign Commerce Weekly Commerce Department publication, states.

Total war has acquainted motorists with strange fuels and lubricants, and even before the war oil poor countries had developed many synthetic oil products, according to Dorothy Knibb, author of the article.

Alligators are plentiful in Brazil, and when no better substitute is available, motors are kept humming with alligator tail oil which is even reported to have run a Diesel engine successfully.

The residents of Martinique find that a heady preparation containing 92 per cent rum and eight per cent gasoline works successfully and stretches slim gas supplies, the article said.

Probably the most widely known substitute oil, Miss Knibb said, is benzol, distilled from coal tar. Information concerning production of benzol is carefully restricted at present.

Also widely used, from Sweden to Spain and from India to Brazil are "gasogenes," stove like devices attached to automobiles or tractors and fed by wood or charcoal. At least 90 per cent of all the vehicles in Sweden are operating on gasogenes.

Anhydrous alcohol, a product of grain, sugar, beets or other carbohydrates, also is receiving world wide attention as a substitute motor fuel, and may be used by itself or mixed with petroleum, Miss Knibb said.

Scandinavian countries have been using methane gas made from town sewage while Spain reports successful use of a new fuel, "Carreas," a mixture of gasoline and distillate from twigs, straws, leaves, or other products, she said.

Injured Hunter Shoots Out S.O.S.

SPRINGFIELD, Ill. (UP)—From now on, fishing is the favorite sport of Clarence Rutledge, erstwhile local hunter.

Rutledge shot a squirrel scampering up a vine beside a large tree. He killed the animal with one shot, but its body lodged in a crotch of the vine. Rutledge climbed up to retrieve it, but the vine broke and Rutledge dropped 15 feet fracturing both ankles.

Unable to walk, the injured man occasionally fired three shots in rapid succession. Another hunter, a mile away heard the "SOS" and brought Rutledge to a hospital.

Teachers Get 18 Per Cent Raise

NACOGDOCHES, Tex. (UP)—The Nacogdoches school board has recognized the importance of public school teachers to the future of our country.

The board approved an approximate 18 per cent increase in public school teacher's salaries.

Action has also been taken to bring the salaries of colored teachers near the requirements of state and federal recommendations.

BECK SCHOOL FOR NEGROES GETS AWARD

TEXARKANA, Tex. (UP)—The Beck School for Negroes in Miller County was awarded first honors in the National Negro Health Week post contest.

The poster was originated by pupils of the fourth, fifth and sixth grades, and the drawing was done by a fifth grade student. The poster is filed in Washington with the Committee on Health Week Awards.

WITHIN 2 MILES OF BRIDGE AS FRONT WIDENED TO 6 MILES

With the second British Army, Holland—British troops again are striking out for the Arnhem Bridge after opening an attack on a six-mile front.

With the Third American Army before Metz—American shock troops have fought their way into one of the Mian underground chambers of embattled Fort Drin-ant. The Yanks in hand-to-hand combat, have penetrated the chamber at least 100 yards.

American tanks have penetrated the edges of the Cologne plain in their eastward drive above Aachen on the western fringe of Germany.

A late dispatch from the front reports that armored spear heads are threatening the town of Ber-

LONDON—A British news paper says the Germans have tried their new V-2 Robot Bomb against England. But the paper says the bomb was not successful.

gendorf, two miles northeast of Ubach. But the Yanks are encountering point-blank German gunfire, and also are fighting against mud and rain.

Canadian forces above Antwerp have reached Putte. Ten miles northwest of the key Belgian port. Putte is on the Belgian-Dutch border. The Canadians are trying to clear the water approaches to Antwerp.

Allied invasion forces in Greece are believed to have seized control of a quarter of the Geek peninsula. Greek partisans have entered the fortified port of Patrai on the north coast of the Green peninsula. Greek partisans have pinned the invasion troops—the final phase of Allied strategy to free the southern Balkans.

The siege of Belgrade—capital of Yugoslavia—has begun, and its fall seems imminent. One Russian column has driven to within ten miles north of the capital and is shelling the city. Another Soviet force is driving toward Belgrade from the south.

The Germans say the Russian army has opened a powerful new offensive in northwest Lutzania. Berlin broadcasts locate the drive in the sector west of Sialail, a transport center 65 miles from the Prussian border.

Polish military quarters in London confirm an earlier report from Germany that Gen. Bor—the commander in chief of the defeated Polish armed forces in Warsaw—has been taken prisoner by the Nazis. The announcement says Bor was captured in the Polish capital with his entire staff.

U. S. Subs Sink 11 More Jap Ships

WASHINGTON (UP)—American submarines have sunk 11 more Japanese ships. Among the enemy vessels sent to the bottom were three warships, a destroyer, an escort vessel and a converted seaplane tender.

The new bag brings to 772 the number of enemy ships sunk by undersea craft.

Japanese Leader Is Reported Dead

NEW YORK—The Japanese news agency announces that Mitsuri Toyama, 90 year old head of Japan's influential Black Dragon Society died last night.

He is reported to have been one of the most powerful political bosses in Japan, and was believed to be the power behind the Tojo Government.

HOLD THAT BOND!

(From the Abilene Reporter-News).

In the fag-end of the Hoover administration when banks were popping all over the place, the story goes that a man went into his bank and asked if he could have his money immediately. Sure, said the cashier—how will you have it, in tens or twenties?

"Well," said the fellow, "if I can get it I don't want it." This psychology may slow down or halt the grand rush to banks witnessed throughout the country this week when it became possible to cash war bonds without going through a lot of red tape.

The treasury department thinks the first rush will soon die away and people will realize the easy-cashing feature wasn't introduced for the purpose of accelerating the already unseemly rate of bond-cashing. The fact that they can be cashed so easily may act on most people like the availability of his money acted on the fellow who didn't want it if he could get it.

But in all conscience, people should understand that war bonds are bought to be held, not to be cashed. They should be cashed only when necessary to meet some emergency, or some pressing family or personal need.

It works like this: If the bond you bought paid for a Garand rifle which went into the hands of the kid next door fighting his heart out on Peleliu or Germany, don't snatch the rifle from his hands by demanding your money back. For if you take your money back, somebody else's money will have to pay for that rifle to keep the rifles going to all the other kids from next door.

Don't cash 'em if you can possibly avoid it—and remember the kids from next door don't try to find excuses for dodging duty.

TOWN and FARM in WARTIME. Prepared by OFFICE OF WAR INFORMATION.

REMINDEES

Ment. Fats—Red stamps A4 through Z8 and A5 through K5, good indefinitely. No new stamps until October 29.

Processed Foods—Blue stamps A8 through Z8 and A5 through R5, good indefinitely. No new stamps until November 1.

Sugar—Sugar stamps 30, 31, 32, and 33, each good for five pounds indefinitely.

Sugar stamp 40, good for five pounds of canned sugar through February, next year.

Gasoline—In states outside the East Coast Area, A-13 coupons in new "A" book good for war gallons each through December 21.

Fuel Oil—Period 4 and 5 coupons and new period 1 coupons, good throughout coming heating year.

Shoes—Airplane stamps 1 and 2, good indefinitely.

Overseas Christmas package mailing—October 15, last day.

U. S. WILL BUY 1944 WHEAT

The War Food Administration through the Commodity Credit Corporation will buy all unrefined 1944 crop wheat under loan May 1, 1945, at parity prices (1944 loan rates plus 15 cents a bushel) less all carrying charges to other end of the storage year.

COTTON GOODS WILL BE TIGHT

The supply of cotton goods is "tighter" now than it has been any time during the war and is expected to remain "tight" for from one to two years after the collapse of Germany, the Office of War Information reports, on the basis of facts supplied by the War Production Board and the Foreign Economic Administration.

SUGAR FOR SMALL "JAM SQUEEZERS"

SEVEN YEARS OF CASUALTIES

The Chinese Army from July 7, 1937, to June 31, 1944, suffered 2,892,220 casualties, to say nothing of the civilian casualties of which there are no accurate statistics, the Chinese news service reports. The only consolation the Chinese have is that during—approximately the same period the Japanese had 2,144,000 army casualties on the China front besides the 600,000 they suffered in the rear.

ROUND UP

WFB says—production of bicycles and "B" hearing aid batteries, is authorized again on an industry-wide basis. Production of flashlight cases and other portable electric lights is expected to be high enough to supply essential civilian users, particularly in rural areas, and buyers may now get them without "paperwork".

Veterans desiring to establish or re-establish small business will get special consideration in priorities a assistance, allocations, appeals and applications for special authorizations.

OPA says—To relieve a heavy demand, particularly from farmers, a supplemental quota of truck tires has been authorized for September. Trouble damages totaling \$2,000,000 have been asked in 35 court actions against concerns charged with upgrading pine lumber to get prices higher than the legal ceiling. October ration values are unchanged for butter which has been raised from 16 to 20 points in the face of declining production. Available for October rationing are 3,000 new passenger

LAFF-A-DAY

"Come, come, Miss La Barr, stop putting on an act!"

Farmers Urged To Fight Fires As Aid In War effort

"Fire fighting is a science; fire prevention is common sense," Percy Bugbee, general manager of the National Fire Protection Association declares, in urging farmers to participate in Fire Prevention Week, set for October 8-14 by proclamation of President Roosevelt.

"The importance of fire prevention to the farmer is made sharply evident," Mr. Bugbee says, "by the fact that ten lives are lost in farm fires every day in the United States and a farm building catches fire every fifteen minutes."

Because of the physical isolation of farms and rural communities and the consequent necessity of bringing fire fighting equipment long distances, many fires, small at first, become destructive infernos before they can be brought under control. For this reason, alert farm fire prevention is essential.

The FPPA in urging farmers to make their property as fire safe as possible during Fire Prevention

Week, list eight usual hazards that can be eliminated.

(1) Flammable roofs. These are easy prey of sparks and should be replaced with fire-retardant roofing materials, such as asphalt shingles or some similar fire protective covering such as slate, tile or asbestos.

(2) Defective Heating systems. Sooty chimneys and flues should be cleaned at regular intervals and repaired if they are faulty.

(3) Electrical equipment. Keep cords and other electrical mishaps unplugged after using. (Frayed cords and other electrical mishaps cause 74,000 fires annually).

(4) Matches and cigarettes. Should be extinguished completely before being discarded. Matches should be kept in safe containers beyond the reach of children. Smoking should not be permitted in barns and around combustible materials.

(5) Gasoline and kerosene. Should be stored in clearly marked metal containers a safe distance from all buildings and should be handled with care at all times.

(6) Rubbish. Should never be permitted to accumulate in the house, barns, or yard, but should be cleaned out constantly. Papers and rags should be turned over to salvage committees and the rest burned, but only on windless days and then in protected containers.

(7) Spontaneous ignition of hay. All hay and ensilage should be properly cured before being stored away. Proper ventilation should be provided, and inspections made regularly for signs of heating. Water dripping through

an old roof and falling in the hay may start the heating process, resulting in fire.

(8) All farm buildings should be equipped with properly installed and well-maintained lightning rods.

These are only the principal hazards. Many farm fires arise from other causes to take an ever-increasing toll of lives and property. The NFPA lists these additional precautions: Never put a penny in a fuse box; Never run electric cords under a rug. Keep approved fire extinguishers handy in the home, barn, and on motor-powered farm equipment; Protect fire places with metal screens; Hang rags covered with oil, paint or grease in the open, store them in metal containers, or burn them immediately a few at a time.

During the first four months of 1944; the nation produced more than twice as much powder and explosives as were produced during the entire year of 1941.

Latin American Art Exhibits Are Given U. of T.

AUSTIN, Tex.—Modern contemporary graphic arts of Mexico and Argentina are now being shown in an exhibition of Latin American prints at the University of Texas.

Circulated by the Museum of Modern Art, and sponsored by the University's department of Art, the exhibition gives a cross section of contemporary Mexico, with the more internationalist modernism of the Argentine, Donald Goodall, instructor of art, points out.

Lithographs, dryprints, and aquatints are included in the display, in the works of such noted artists as Diego Rivera, Alfredo Guido, Clara Carrie, and Davis Alfaro Sequeiros.

mounted by t shock of gray hair, and with the bearing, build, voice and vocabulary of a Webster—the county's foremost orator.

But Pioneer had a holiday atmosphere every day—crowds moving

restlessly and endlessly in a shuffle along the board sidewalks, fumes of frying onions from a score of hamburger stands, vendors moving about with oil field souvenirs, men in the tiny offices (set off by waste-high railings) in hotel lobbies, looking at maps on the wall or at folding maps that had been drawn from hip pocket and spread out on a table making deals sometimes in just a

CHEANEY NEWS

By Mrs. Bill Tucker

Alex Miller, aged 81, died Monday at the home of his son, Charlie Miller after an illness of four weeks. Five other children survive him but only two of them could be present for the funeral: Mrs. Roxy Fairchild, Menard Texas and Andy Miller of Austin Texas.

Other relatives present were a brother, Jim Miller, age 88, of Strawn, three nephews, Boge, George and Albert Miller, all of Ranger and one niece, Mrs. Joe Tucker of this Community.

Arrangements were in charge of the Morris Funeral home of Ranger with A. B. English, Methodist pastor conducting the service. Burial was in the Alameda Cemetery.

Mr. and Mrs. Slim Blackwell and sons of Ranger were visitors at the

visiting friends here.

Mr. and Mrs. Melvin Holt and daughter Darla Gay, and Billy Fox of Abilene, visited relatives here over the week end.

Mrs. Nettie House, is staying here and taking care of her mother, who is very ill, in the Rice home. Mr. House and family of Coahoma visited her the past week.

Mrs. Glenn Chancellor and children, left last Friday morning for Kingsville to join her husband who is at work there.

Max Bachman has returned from Dallas, where he visited in the home of his sister, Mrs. Bess Osborne.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly always the cough or you are to have your money back.

Carbon 4-H Club Meets Tuesday For Reorganization

The Carbon 4-H Club Boys met Tuesday, Sept. 26 at 1:45 in the High school auditorium and reorganized. The officers elected are Mack Weston president; Wayne Jackson, vice president; George McBee secretary; Howard Wilson, reporter. The boys voted to have one adult leader for each demonstration. There will be a leader to supervise group demonstrations in the following: Peanut Production, Swine Production, Grain Sorghum, Dairy Cattle, Beef Cattle, Sheep and Goats.

The boys carrying on peanut demonstrations placed orders cooperatively for hairy vetch seed. This legume will be used in a cover crop program. 10 pounds of vetch and 30 pounds of rye and 100 pounds of superphosphate

will be sown on peanut ground between now and October 15. Peanuts will follow this cover crop next spring. Boys getting the cover crop seed are: Monte Walker, George McBee, Howard Wilson, Charles McDaniel, Charles Driver, Pat Collins, Ronald Payne. Two adults joined in this purchase were C. L. Garrett and Henry Wilson.

Grain Sorghums demonstrations for the purpose of making, plant-

ing seed available another year were set up. Boys placing orders for good seed were Howard Wilson, Charles Driver and Monte Walker. The seed to be purchased will be Texas Double Swarf Milo and Plainsman. Both were developed by the Lubbock Experiment Station. Plainsman is recommended where combines are used. The Texas Milo for heading.

Can I Place My Order Now and Secure one of the First Deliveries?

YOU CAN

now secure priority delivery on gas all-year air conditioners and refrigerators

The magic gas appliances that cool with the wonder flame (air conditioners and refrigerators) are so desired for postwar living that we are having many inquiries about their purchase now so a priority delivery can be secured. In answer to these requests, Lone Star Gas Company is now offering a simple "Priority Purchase Plan" which gives you the opportunity to contract for a priority delivery on either appliance. You simply pay a small amount now, which is applied on purchase price and a priority delivery number is secured. Once the factory is released from important war work and production is resumed on these appliances, delivery will be made according to numbers on priority contracts. Be among the first to enjoy real home comfort and convenience. Get complete details at your gas company office and sign up today!

THE Gas AIR CONDITIONER

In summer, it brings scientific relief from hot, sticky weather... providing refreshing, invigorating, cooled, and dehumidified air. In winter, it provides dependable warmth and correct humidity throughout the home on coldest days. In every season of the year, it supplies clean air without drafts... filtering out dust, dirt and pollen. It is a complete air-conditioning unit for all seasons. It is an amazing and revolutionary development—a startling advance in cooling for the home and smaller business establishments.

THE Gas REFRIGERATOR

Wartime is proving—as never before—the value of the one refrigerator that freezes with no moving parts. For, no moving parts means nothing to wear. Nothing to make noise. Nothing to need fixing. And today, with repair men so hard to get, this is more important than ever to a refrigerator owner. Tomorrow, as well as today, owners will be grateful for this trouble-free operation. Make your next refrigerator a gas refrigerator!

PRIORITY PURCHASE PLAN ON GAS REFRIGERATORS IS ALSO AVAILABLE FROM SERVEL GAS REFRIGERATOR DEALERS OR LONE STAR GAS SYSTEM

Cadet James Frank Vaughn is now stationed at San Antonio Aviation Center where he is undergoing training. He is a graduate of Carbon High School. His parents, Mr. and Mrs. Joe Vaughn now reside at Sundown.

Paris Designer Bemoans Dress Of U. S. Women

CHICAGO (UP) — "Too much make-up, too much jewelry, too many furs, and those huge flowers they wear. Some of them look like a well-kept grave." is the way Henri de Chastillon, Parisian fashion designer, described American women, as he stopped here en route to Mexico City.

He believes, however, that the American woman is the most beautiful of all in the face and in form. But "she does not wear her beauty well, except for a chic few." Her dress should be shorter with softer lines, and more feminine appeal. Her hats according to Henri, are "atrocious."

Slacks made de Chastillon feel "sick all over—and positively livid with shame."

There was nothing drab about Henri as he talked about women's fashions, wearing a pink shirt, wine-red tie, and navy blue suit, and with a brilliant fuchsia hat streaked with purple-blue lying on the dresser.

De Chastillon favors simple, graceful gowns with broad hats to shade the face. "Even a young

Hereford Show Site Is Changed To Fair Grounds
DALLAS, Tex., Sept. 30—The Texas State Fair Grounds in Dallas will be the site of the Greater Pan-American Hereford Exposition instead of Arlington Downs as was first planned, Jack Frost president of the Texas Hereford Association, announces.

Opening on Armistice Day, Nov. 11, the show will run through Nov. 19th.
Difficulties in transportation of an expected attendance of possibly 100,000 or more can be met far better to the Fair Grounds than to the Arlington site, it was decided by the association officials. Availability of night lighting and other facilities were also determining factors in making the change.

From the opening on Armistice Day, to be featured by a patriotic program, to the closing night, a continuous and of events has been planned. In addition to the exhibition and judging of some of the finest Herefords in the world, a rodeo will be held and a Palomino show, a quarter horse show and a number of top flight entertainment events will be staged.

GRAY HAIR?
Get Grayvita Vitamins
You can't see the color, but you can feel it. Grayvita Vitamins contain the same amount of "anti-gray hair vitamin" (Plus 450 Int. units) as is found in a leading household magazine. Of those tested, 79% had return of hair color. GRAYVITA Vitamins are non-laxating, easy to take, "no-irritant." 30 day supply \$1.50; 100 days, \$4.00. Phone EASTLAND DRUG CO. PHONE 58

The Methodist Broadcaster
Weekly News Of
First Methodist Church
L. Durwood Fleming, Pastor

WORLD WIDE COMMUNION DAY OBSERVED
In cooperation with the desire and wish of the Protestant leadership among churches, we observed last Sunday morning for Holy Communion. Across the world—in church, in camp, on the sea and in the field of battle, the sacred elements of the Lord's Supper were offered to millions of worshippers. This act of re-dedication on the part of Christendom was also the symbolism of sharing in the fellowship of suffering.

To make the value of the day as realistic as possible, each worshiper taking the sacrament was asked to leave an offering on the altar for the war sufferers and for work in our camps here at home. A total of \$66.75 was received and a few more dollars will yet come.

The response was generous and our people blessed. We had a good day!
NEW PROGRAM FOR NIGHT SERVICES LOOKS GOOD

A forty-five (45) minute program will be the length of our evening services throughout the winter months. We feel that we can concentrate on carrying right through with the evening plans and promise you that you will be out each Sunday evening in the 45 minutes. The services will be from 8:00 to 8:45.

A choir of men will take their places next Sunday evening and in a few Sundays there will be musical strength in this group. They are meeting on Wednesday evenings from 7:30 to 8:00 for a thirty minute rehearsal (only thirty minutes, mind you) and this will go on for each week. Men of Eastland join a real "he-man's" choir and help your church.

Mr. Fleming is now beginning a series of sermons at the evening service on the Parables. They are short but to the point. Come Sunday!

SENIOR CHORUS BEGINS FALL AND WINTER REHEARSALS

Miss Drago is beginning this week regular rehearsals with the Senior (Adult) Chorus. The rehearsal time will be each Thursday evening at 8:00 and it will last for about one and one-half hours. If you are interested in assisting your church in the music department, you will be more than welcomed to come right along on Thursdays.

DINNER FOR CHURCH SCHOOL WORKERS HELD
An attractive and well-planned dinner was served last Tuesday evening to more than 35 teachers and general officers of our church school. It was one of the best attended functions that we have had for quite some time.

Mrs. Williams took the general chairmanship for the meal and many efficient helpers assisted her. Food was donated by some while others simply brought enough money to take care of their part. The decorations were very nice.

Mr. Fleming and Mr. McGlimery had charge of the program and others assisted in it. The objective

of the meeting were to bring forth a group spirit, to catch the inspiration and thrill of working together and to receive some definite instructions as to the carrying on of the new year's work.

It was a fine occasion and this beginning month of the new church school year will find us far advanced for our work. We need more group dinners! **STEWARDS TO MEET OCTOBER 9**

The last meeting of the Stewards, unless there be the necessity of a "called meeting," later will be this next Monday night at 8:00. The meeting will last no longer than one hour and Mr. Jackson and the minister are hopeful that we will have 100 per cent attendance.

ALTAR FLOWER PROGRAM IN NEED OF SUPPORT
Many have intimated that they intend signing for a Sunday to furnish the altar flowers; but few have signed. We felt that the plan was exceptionally good in that the flowers could be a memorial to loved ones or in honor of some living person such as your son or daughter in service. The idea is still good. We believe the response is potential but is not definite enough to count on.

Therefore, if signatures are not actually placed on the cards and turned to the church office we will either withdraw the program or readjust it. So its action we need, friends, A-C-T-I-O-N!

IMPORTANT ANNOUNCEMENT AHEAD!
We are now in the last week of the Conference Year. Only four more Sundays remain and there are many things that must be done.

(1) Our annual church debt project must be raised in the next ten days.
(2) We will have "New Members Sunday" on October 15 at which time some new people will join our church fellowship.
(3) We will observe Pledge Sunday on October 22 at which time will subscribe our new budget for the new year beginning Nov. 1.

(4) We must finish this present financial year on Sunday, October 29 for Annual Conference convenes on the 31st.
No casual interest and delayed action will see your church successfully through these extreme responsibilities. We need every member doing his or her part and church-going is no small part. So we'll see you Sunday and every Sunday. We're on our way out; please help.

STUDENT POLITICANS
AUSTIN, Tex.—University of Texas students are interested in national as well as campus politics, it is indicated by the fact that enthusiastic and substantial support for both the Roosevelt-Truman and the Dewey-Bricker presidential vice presidential tickets have been set up.

The Baptist Herald
First Baptist Church
H. J. Starnes, Pastor

The attendance for both training union and Sunday school was up Sunday—so was the offering. How much fine, interested, cooperative, and sweet spirited people mean to the work. It was likewise cheering to see the good attendance at the worship service. Most heartily do we welcome the six new members who came during the day into the fellowship of the church. May other Baptists in Eastland soon find their place in the church.

Next week can be a most important one for our workers and work. Miss Clara May will be present Sunday to start our Training Union revival. Then there will be a class each night next week for each age group as follows: adults, "Growing a Church," young people, "Training in Church Membership," intermediates, "Meaning of Church Membership," juniors, "The Junior and His Church," primaries, "Bible Stories," and for the Leaders of the T. U. Miss May will teach the B. T. U. Manual. Everyone is urged to attend these classes whether enrolled in Training or not.

On Thursday night, October 12 at 8:00 o'clock our church will be host to the men of the Cisco Association. Word has come that some of the neighboring churches will have a number of men here for that meeting. We are favored by having this meeting in our own church. Surely many more men from our church will be present than from any other church. Lawson H. Cook, Southwide Brotherhood President will be the speaker for the occasion and is cordially invited.

The Finance Committee has designated Sunday October 8th as session. The Women and the public are cordially invited. Pledge Sunday. Each one present will have the privilege and opportunity of making a pledge to the church budget. Then a card will be put in the hands of every member of the Church not present. The work of the church is a cooperative work. It is able to fulfill its mission because christian people recognize their stewardship responsibility. Let everyone as quickly as possible return the pledge cards filled out to the church office.

The month of October is thought of as Round-Up Month for the cause of State Missions. The main emphasis this year is placed on the endowing of our hospitals, school, etc. The money given will go for that purpose unless otherwise designated. Many can give a bend or cash to this worthy cause. Now is the time to endow our institutions. The Finance Committee has designated October 29 as "Round Up Day" in our church. However many should have already given liberally before that time.

We take this means of extending a warm welcome to everyone to attend our services. We urge upon those who do not have a church home to come with us. It is our desire to help all and hinder none; to bless all and hurt none; to make life more meaningful and to give strength and hope for life's problems.

Alex Miller Dies Monday; Burial Is At Alameda
Funeral services were conducted Monday afternoon at 5:30 o'clock at the Alameda Tabernacle for Alex Miller, 81, who died at the home of his son, C. A. Miller, Monday morning.

Mr. Miller had been a resident of the Alameda community for a number of years, though he had just returned from a few months' stint elsewhere when death occurred.

Rev. A. B. English was in charge of the services and burial was in the Alameda cemetery. Arrangements were by Morris Funeral Home.

Collector Asks Patience On Refund of Taxes

Thousands of inquiries concerning income tax refunds are reaching the Collector of Internal Revenue, Dallas, Texas, from taxpayers in every county and practically every town in the Northern half of Texas. Many inquiries are received from taxpayers having moved to other states since filing their 1943 income tax returns with the Dallas Collector. In answer to all such inquiries, W. A. Thomas, Collector of Internal Revenue, Dallas, Texas, issued the following statement relative to refunds.

"To every taxpayer of this District who is entitled to a refund on his 1943 return, I would like to say that your refund is being processed as rapidly as possible. I cannot tell you exactly when your refund will come through, because it might be today, and it might not be for a few months. But I promise you that you will be paid interest at the rate of 6 per cent per year for every month your refund is delayed after March 15, 1944.

"Throughout the country, we have about 18 million refunds to make. We estimate that between 275,000 and 300,000 refunds will clear through the Dallas office. In each case, the return must be compared with employer's withholding tax receipts and other documents. In many cases, returns contain errors that must be corrected.

"This involves a tremendous amount of work that must be done with comparatively small staffs. Obviously, the entire 18

REDS SCORING GAINS ALONG THREE FRONTS

NEW YORK (UP)—The Moscow radio reports that Russian troops are fighting in the suburbs of Riga, the capital of Latvia.

The British radio says Russian and Romanian troops have reached the southeast border of Hungary. Peace demonstrations reportedly are being held in many Hungarian towns.

Radio Berlin says the Red Army has opened a strong offensive in the area of the Transylvanian capital of Cluj. Berlin admits that local branches have been scored.

According to Col. T. C. Gerber Army Ordnance director of safety accident statistics prove that a woman worker is far safer in a powder plant than she is in her own home.

Sold on 15 days' trial! Ask for "Willard's Message" which fully explains this treatment—free—at Eastland Drug Co.

Collector Asks Patience On Refund of Taxes

Thousands of inquiries concerning income tax refunds are reaching the Collector of Internal Revenue, Dallas, Texas, from taxpayers in every county and practically every town in the Northern half of Texas. Many inquiries are received from taxpayers having moved to other states since filing their 1943 income tax returns with the Dallas Collector. In answer to all such inquiries, W. A. Thomas, Collector of Internal Revenue, Dallas, Texas, issued the following statement relative to refunds.

"To every taxpayer of this District who is entitled to a refund on his 1943 return, I would like to say that your refund is being processed as rapidly as possible. I cannot tell you exactly when your refund will come through, because it might be today, and it might not be for a few months. But I promise you that you will be paid interest at the rate of 6 per cent per year for every month your refund is delayed after March 15, 1944.

"Throughout the country, we have about 18 million refunds to make. We estimate that between 275,000 and 300,000 refunds will clear through the Dallas office. In each case, the return must be compared with employer's withholding tax receipts and other documents. In many cases, returns contain errors that must be corrected.

"This involves a tremendous amount of work that must be done with comparatively small staffs. Obviously, the entire 18

Pacific Theatre Pilots Flying Shortest Missions

7th AAF HEADQUARTERS, Central Pacific, (UP)—The Seventh Air Force, credited with flying the longest regular bombing missions of any theater, is now also credited with flying the shortest.

The short missions were flown in the Marianas from Saipan to Tinian and sometimes lasted only 18 minutes from takeoff to landing. Ground crews, standing on the Saipan hillside, could watch their planes during the whole of their bombing and strafing missions.

Because the trips were short, the pilots were given credit for only half a mission, no matter how shot-up the planes were. The pilots called them "missionettes."

Army ordnance artillery ammunition plant at Joliet Ill. has thus far used 22,000 miles of two-inch adhesive tape in staling ammunition.

In the future all applications for supplemental rations must be accompanied by this form. To facilitate handling of your application, send this form in to this office with each application for supplemental rations.

The Terminal Tower, Cleveland's principal railroad station is the tallest building in Ohio, rising to a height of 52 stories.

We Depend on YOU . . . and You Can Depend on Us!

THE WELL-BEING of a whole nation depends on the farmers of America. The wheels of industry could not turn without the support of this essential one-fourth of the Nation. And with today's developments in organic chemistry we people of America are becoming more and more aware how many industries are dependent for their very existence upon the farmer. Through the channels of sound finance we hope we can partially repay this indebtedness to you. When you need help, you can depend on us.

Have a Coca-Cola = Eat, drink and enjoy yourself

. . . or adding refreshment to a backyard barbecue
One of the secrets of any successful home barbecue is plenty of ice-cold Coca-Cola. Everybody enjoys its life, sparkle and refreshment. Plan to have frosty bottles of "Coke" ice-cold and ready to drink. When you shop, remember to ask for Coca-Cola. Everywhere, Coca-Cola stands for the pause that refreshes—has become a high-sign of hospitality in the American home.
