## Area . . . . . OIL . . . . . News

**EASTLAND COUNTY, Gorman**  
Following is a report of activities in the Gorman Field for Wednesday, July 14:

W. C. Whaley was in town today (Gorman) making locations doing some map corrections in the Desdemona-Gorman area. He will probably have his new map of this area within the next ten days to two weeks. He is attempting to correct line, owners' names, and to include lease holders wherever possible. He is making a location for F. A. Gillispie and Sons Co., on their No. 1 Walker. This is in the George French Survey—330 feet east and 330 feet south of the Bartlett Fry Survey, about 1.2 miles or so from the Earth-Comanche County line, and still further southeast of Desdemona than the Clayton well.

Today (Wednesday) Clayton No. 1 Ownby Drilling Co., are completing the pipe setting and killing job which became necessary when the well suddenly decided to send oil out through the 8 inch pipe just as they were drilling into the Marble Falls—they were between 5 and 10 feet into this strata. Halliburton helped and we understand they have been working all Tuesday night to complete the killing off so that they can proceed further in the exploration of the Marble Falls to see just what they do have.

Coast Oil Corp., et al. No. 2 Griffin will move in Thursday with J. C. Man, Jr., Drilling Co., in charge of drilling operations.

Coast Oil Corp., et al. will stake out their No. 2 Della Graham Wednesday afternoon.

Commercial Production No. 3 S. E. Mears have reacidized attempting to increase the gas pressure to bring oil to the surface. They have plenty of oil, apparently it is standing in the pipe, but the pressure is too low to bring it to the surface. It is still too early to give the results of the reacidization.

No. 1 W. P. Phillips drilling at 2723 feet. This is A. W. Gregg and Cecil Burton's well.

## Financial Condition Of Schools Told In Statement By The Board

Following a called session of the Eastland Independent School Board this week, which was attended by all but one member, the board issued the following statement which is self-explanatory: The school board met in called session during the week and discussed at length their financial problems. Our school system is confronted with the fact that during the current year of 1947-'48 a deficiency of approximately \$60,000.00 was accumulated which added to the deficit existing carried over from the previous year, of approximately \$6,000.00. The board finds itself near \$12,000.00 in the red.

It will be recalled that the tax rate is \$1.50 per hundred dollars valuation, 1-3 of which is applied to interest and sinking fund to serve its bonded indebtedness, 1-3 is absorbed under the State equalization law, and 1-3 is available as an operating fund. The operating fund necessarily takes care of repairs on buildings, utilities, janitors, janitor's supplies, equipment, plumbing, and electrical requirements, Secretary's salary, tax collections expenses and other incidentals.

Tax collections yield about \$35,000.00 per year, 1-3 of which may be used for these operating expenses.

The number of teachers employed is governed by the number of scholars on the roll, which is about 765, and the teachers is fixed by law, thus there can be no saving reducing the number of teachers or the salary paid to each. If the teacher is paid more than the minimum fixed by law, the amount above the minimum so fixed, must be paid from the operating fund, which is always necessary in the case of the foot

ball coach. The State law for the present school year increased teachers salaries slightly more than \$23,000, and increased our apportionment for the same purpose less than \$20,000 leaving us a deficit of approximately \$37,000 which is a part of our present deficiency in the operating fund. The records disclose that utilities for the four school buildings, gymnasium, and colored school aggregated \$2000. Public contributions and activities of auxiliary organizations have taken care of all expenses and improvements on the foot ball field, gymnasium, and band activities except approximately \$2000.00, which has been paid by the school board, on Mr. Atwood's salary. Ninety-two percent of current taxes have been collected, which is above the average of the entire State, and the school district has on its books \$14,000.00 delinquent taxes which are collectable over a period of from one to two years. The school board has entertained numerous suggestions for economy, one of which involves the closing of one ward school building and Junior High School building. This would require all elementary pupils to assemble from all parts of the district to one building and move the entire Junior High School pupils into the High School building, thus eliminating the utilities and janitor's service for two buildings, which would effect a saving of about \$2,000.00. Another suggestion involves an increase of taxable valuations which can be effected only through a board of equalization. It is pointed out, however, in order to raise \$6,000 per year for operating expenses it would be necessary that taxable values be increased about 50% above the present valuations as they appear on the tax rolls. The only alternative to the proposed increase in taxable valuations was an increase in the tax rate, which was denied by the voters in the April election, leaving the school board wrestling with an apparently unsolvable problem."

### ATTORNEY GENERAL

Attorney General Price Daniel, above, candidate for re-election without opposition, has announced that he will make a report to the people over a state-wide radio network, July 21, at 7:30 p. m. Daniel, now serving his first term as Attorney General of Texas, is the youngest Attorney General in the United States. The address will be carried over all stations of the Texas State Network and KRLL at 7:30 p. m., July 21.

## Clabe Eldridge Speaks To Voters Of The County

My father moved to Eastland County in 1903 and settled near Gorman, where we farmed. All the family left the county except me. I attended Hankin's College, and have taught school for more than thirty years. I served from 1934 to 1938 as your county superintendent. Since then I have been superintendent at Scranton and Desdemona, where I am now living. I have served you long and have done my best to serve you well. The thirty odd years in the schools of the county speak for themselves. That service is unbroken, except for World War I in which I served over seas, I have been an active member in both the American Legion and Veterans of Foreign Wars ever since they were organized. I served in various capacities, even as Post Commander. My Church and civic leadership also speak for themselves.

My friends, I believe, that I am a very careful and liberal consideration for the office of County Judge. I ran four years ago and have waited the required Democratic two terms to run again.

It has been a real pleasure meeting old friends and making new ones. You people have been extremely courteous and in appreciation for these many courtesies, I have run a clean race. Taking part in no campaign except my own. Running on my own merits and finding fault in no one. Since the office of County Judge is one primarily of business and common sense, I am positive I can give you the clean, courteous, dignified and efficient service you pay for and expect to get. I am also very, very positive that I can take good and satisfactory care of each and every legal issue that may be brought before the court.

If elected it shall be my every effort and desire to have a real spirit of friendship and co-operation among the members of the court with courtesy, fairness and justice to all the people alike. Again may I state that I have not had time to visit each and every voter in the county, my first duty was to the Desdemona schools which did not close until May 31. So please accept such means as I may use as a personal solicitation for your vote and influence.

Thanking you again and again for your gracious co-operation, friendship and vote. I am, Sincerely yours, C. E. Eldridge, Candidate for County Judge.

## SOME BELIEVE DEWEY MIGHT BREAK SOUTH

PHILADELPHIA, July 15 (UP)—Rebel Southern Democrats, angered over the triumph of President Truman and his civil rights program, predicted that Gov. Thomas E. Dewey would break the solid South in November.

The chairman of the Florida delegation, Frank D. Upchurch, Jr., even went so far as to say that Mr. Truman might not carry a single state in the entire country.

Gov. Beauford Jester of Texas, said, "the only thing to keep the Republicans from carrying Texas is they do not have a 'strong candidate' in Dewey. But he acknowledged that Dewey might get more votes than any GOP candidate since Herbert Hoover carried the state 20 years ago.

Representatives of at least five Dixie delegations were headed for a states rights conference in Birmingham. There they will pick a states rights candidate for President for whom Southern electors can vote in the electoral college Alabama, South Carolina, Arkansas, Florida and Mississippi will participate.

## WANTS REPUBLICANS TO MAKE GOOD THEIR CAMPAIGN PROMISES

### SEEKS OFFICE

Charles H. Dawson of the Cross Plains is a candidate for the office of representative of the 107th Flatorial District. A statement of his aims, if elected, appears in this edition of this newspaper.

## DAWSON TELLS VOTERS WHERE HE STANDS

Editor's Note:—The following speech was delivered by Charles H. Dawson of Cross Plains at the Cross Plains picnic on July 4. Dawson is a candidate for representative of the 107th Flatorial Texas Legislative District.

Mr. Chairman, Ladies and Gentlemen, I am glad to be with you today, not only because it affords me the opportunity to speak to you people but because it affords me the chance to tell you something about my campaign for the office of State Representative from this district.

Now folks, I am not a politician and do not want to evade, deceive or lie to you in any way, and if I am elected to go to Austin to represent you people I will do so without fear or without favor to anyone. You will never find me on the fence on any issue, and as long as the Legislature is in session I will stay on the job. You won't find me chasing around over the country on pleasure trips, or attending social functions in order to build-up a political machine to use two years from now.

Now friends, I am enemy to graft, rackets and high taxes. When you have graft you have rackets, and when you have rackets,

## Laws To Halt Rising Prices, Housing Legislation Head List For Congressional Action

PHILADELPHIA, July 15 (UP)—President Truman accepted the Democratic presidential nomination in the small hours of today and called Congress back into session effective July 26 to make good on Republican campaign promises.

Sen. Alben W. Barkley of Kentucky at the same time accepted the vice presidential nomination. The Democratic National convention then adjourned at 2:31 A. M. EDT.

The President put price and housing legislation at the top of his emergency list for Congressional attention. But he laid out an eight-point program which he said the Republican Congress could enact in 15 days.

Mr. Truman told the cheering delegates he would ask Congress to enact—

1. Laws to halt rising prices.
2. Housing legislation (Taft-Elliender-Wagner Bill.)
3. Aid to education.
4. National health program.
5. Civil rights legislation.
6. Increased minimum wage.
7. Extension of social security.
8. Public power and cheap electricity projects.

Mr. Truman's aggressive speech and his challenge to the Republican Congress finally tapped the store house of party enthusiasm. Weary delegates whooped and shouted and cried—"Harry, lay it on." The man from Missouri stood smiling before them, speak ag from notes in his new off-the-cuff technique.

From the rows of seats assigned to Mississippi there were neither cheers for the President, nor responses when that state's name was called from time to time on roll calls. Mississippi had taken a walk. Half the 26 delegates from Alabama had left the convention hall, too.

The call for a special session of Congress starting July 26 drew a quick cry of "politics" today from angry Republicans.

## Final Rites For S. A. Davis This Afternoon At 4

On summer days, food that looks cool gets a warm welcome, so I try to include something green on every menu. See how this cool color adds appetite appeal to a meal by serving the green-tinted tempters below!

**PALE GREEN AND PRETTY**  
Speaking of green things, here's how to make an avocado ring that'll make guests green with envy: Soak 2 tbsps. plain gelatin in 1/4 cup cold water. Add 1 cup boiling water, and stir till gelatin is dissolved. Add 1 cup grapefruit juice, 1/2 cup A&P's ANN PAGE SALAD DRESSING, 2 cups chopped avocado pears, 3 tbsps. chopped pimento, 1 tsp. finely cut onion, 1/2 tsp. salt and 4 thin orange sections. Pour into qt. ring mold; chill till firm; and unmold on salad greens. Serves 6.

**MINT GREEN AND MARVELOUS**  
A cool green tint plus the fresh tang of mint makes ice cubes extra-nice cubes. So fill your refrigerator tray with water to which a few drops of green vegetable coloring have been added, and freeze a sprig of mint in each section. Then, to make iced tea that tastes as refreshing as it looks, simply brew your favorite blend of Flavor Tested Tea, and pour it over these minted ice cubes. Each of A&P's famous Flavor Tested blends—OUR OWN, NECTAR and MAYFAIR—makes flavor perfect iced tea with long lasting goodness that survives melting ice. Each costs less than a cool cent a glass.

**LIME GREEN AND LUSCIOUS**  
In the summertime my favorite flavor is lime. My favorite way to enjoy it? In A&P's SPARKLE LIME GELATIN fixed like this: Pour 1 1/2 cups boiling water on 1 pkg. SPARKLE LIME GELATIN; stir till dissolved; add 1 cup crushed pineapple, 1 cup cottage cheese, 3 tbsps. lemon juice and 3 tbsps. mayonnaise; pour into 6 molds; chill till firm; and unmold.

We, the undersigned lawyers of Eastland County, hereby heartily endorse Judge J. E. Hickman for nomination to the first elective term of Chief Justiceship of the Supreme Court of Texas. Judge Hickman is now serving as Chief Justice, having been appointed following the death in January of this year of Chief Justice Alexander.

Never before has there been a Chief Justice from this section of Texas, and Eastland, Stephens, and Erath Counties should take great pride in giving him an almost unanimous vote July 24 as each of the three counties can justly claim him for their own as he resided in and practiced law in each of the counties and was on the Court of Civil Appeals at Eastland for many years, each of the three counties being part of the Eastland Court of Civil Appeals District.

All who are acquainted with him know him to be an outstanding judge, a good citizen, and a fine Christian gentleman. These combined should make him an ideal public servant.

Respectfully submitted,

ets you have graft, and when you have both you have a combination that increases taxation and destroys the foundations of good government. And the results are that the tax payers foot the bill.

They ask me what my platform is. I haven't any platform. As far as I am concerned that is just a word that has been used in every political campaign for as long as I can remember. I am going to throw my cards on the table, face up, and tell you exactly what I stand for, then if you want to vote for me I will appreciate it, and I will promise you that I will not betray your trust or the confidence you place in me.

I stand first and always to do the most good for the greatest number of people. Second, for more consideration and better treatment for the old folks, for they are some of the best people living today that ever was or ever will be and when they are gone you can't buy them back with any price, no matter if you owned all the world and its gold. I am in favor of a State Bonus for veterans, not only for World War II but for World War I as well, to be paid from taxes levied on natural gas. Natural gas that is consumed outside the state of Texas. I want to make that clear. I do not want to put any more tax burden on Texas people.

I would like to see more police protection for the rural communities. So the people living there and their property would be safe from deceptions of those who make a practice of prowling, stealing, trespassing and vandalism. I am in favor of separating the business of regulating oil and gas from the Railroad Commission and setting up a new commission to be known as the Texas Natural Resources Conservation Commission. The Railroad Commission has all it can do to run the railroads and transportation business. It should be run by persons who understand that business and the conservation of oil and gas. There are lots of other good laws that I would like to see passed.

I want you to vote for **CHARLES H. DAWSON** For State Representative from the 107th Floridal District, Callahan and Eastland Counties.

I thank you.

**NEWS FROM LONGBRANCH CARBON ROUTE 1**  
Mrs. G. W. Stowe, Cor.

LONG BRANCH, July 14—Mr. and Mrs. B. B. Poe were shopping in Eastland, Saturday, and visited in the home of Mr. and Mrs. Douglas Barton.

Mr. and Mrs. Elvis Vaughn and Mrs. A. W. Wright drove to Cisco Saturday on a shopping tour.

Mr. and Mrs. Henry Reed have had as a guest the past week the sister of Mrs. Reed, Mrs. Rosette Darby, from Lubbock.

Mr. and Mrs. Wilburn Curtis from Cook community drove here for church Sunday evening.

Mr. and Mrs. Al Ricci of Brownwood were week-end guests of Mr. and Mrs. W. H. Martin.

Mr. and Mrs. G. T. Alford had as week-end guests their daughter and her family, Mr. and Mrs. Pat Patterson and Linda Anne, from San Antonio.

Mr. and Mrs. E. N. Marsh from Okra visited in the home of Mr. and Mrs. Elzo Been Sunday afternoon.

Guests in the home of Mr. and Mrs. Elzo Been Sunday were Mr. and Mrs. Truett Been and children, Kay and Ray. Truett returned to his home in Abilene Sunday evening and his family remained for a week's visit.

Rev. Windle Lee from Abilene preached at Long Branch Sunday morning and evening with good attendance at each service.

Alfred Harris of Rising Star was a visitor Sunday in the home of Mr. and Mrs. Henry Carter and attended church at Long Branch Sunday evening.

Mr. and Mrs. John Dudley were out from Cisco for church Sunday night.

Mr. and Mrs. C. M. Burnett had as guests Wednesday, Mr. and Mrs. Henry Lovell and Jack Lovell from near Carbon.

Mr. and Mrs. Britt Dudley and Miss Lucille Furr shopped in Cisco Saturday.

Mr. and Mrs. A. R. Hastings and children, Jerry, Zaida and Linnie, drove to Cisco Saturday on a week-end shopping trip.

Mr. and Mrs. B. B. Poe visited in the home of Mr. and Mrs. S. N. Poe in Cisco, Monday.

Many of the Long Branchans attended the Eastland County Singing Convention at Mountain Top Sunday and carried basket for the

dinner that was served on the grounds at noon. A song service had been held there Saturday evening, with Stanley Webb of Cisco in charge.

With a crowded house Sunday afternoon, many special numbers were rendered to an appreciative audience. A trio with Mrs. Stanley Webb at the piano was given by Mrs. W. A. Wickland and Mrs. Greenwood and Miss Margaret Greenwood of Cross Plains. Arranged in different groups, several quartettes were sung with Mr. and Mrs. R. E. Head of Eastland, Mr. and Mrs. Stanley Webb of Homer Halford of DeLeon and Clyde Fisher of Eastland taking part. A young Pentecostal minister from South Texas assisted as pianist in many of the numbers throughout the convention. To help defray the expenses of the meeting \$16.61 was collected and turned over to the treasurer of the Mountain Top Church.

Henry Carter was elected president of the convention, which has as vice president Stanley Webb, and its secretary is Mrs. Truly Carter of Cisco. The meeting in October will be at the Church of God in Ranger.

### Bands Careful What They Play In Trieste

TRIESTE (UP) — This probably is the only town in the world where the band leader looks warily over his shoulder to see who's in the place before he plays a requested number.

If he's been here long, he will play only "safe" music. If he disregards that rule, he won't be here long.

The heat that is on Trieste is more painfully evident in the hot spots than anywhere else. Although it is on the edge of the sombre "iron curtain," and at the traditional cross-roads of western and Slavic cultures, Trieste has what are probably Europe's most monotonous night spots.

Orchestras play only music the artists know will get by. One hears an unending of Viennese waltzes, Hungarian czardas, time-

worn Neapolitan folk songs and old-time American jazz.

Most band leaders will play nothing else. Some even deny that they know of, or have heard, any other sort of music and only the most courageous will play the haunting, nostalgic songs of Dalmatia, or Trieste's own "Ragazza di Trieste."

#### Behind Closed Doors

Slavic and Russian numbers, except for Czarist-vintage tunes, may be heard only by private parties behind closed doors which are guarded by nervous managers, who know only too well the tempestuous nature of Triestians.

Trieste, of course, is run by an allied military government organization which is officially neutral. But the people of Trieste are no more neutral in their political thinking than any other folk of the Mediterranean. Waving of the red flag of Communism, even if it is figuratively waved by means of "hot" band music, sometimes has an explosive effect.

As far as night life generally is concerned, Trieste is one of the continent's duller capitals, but

its prices match those anywhere in Europe.

There is one full-fledged night club. There are several restaurants with song and dance halls attached, half a dozen taxi dance joints, a score of beereries and twice that number of beer and wine parlors.

#### Prices Come High

Politics has a good deal to do with the mediocrity of night life here. The clientele is limited by politics to the allied military, a few local personalities and a host of small-time black market operators.

Charges for food and drink are in the de luxe bracket. There are several ways of boosting the ante, customers find. Sometimes a few digits are carelessly added to the prices listed on the menus. A careful customer sometimes finds he is charged for food or drink he did not consume.

There is a 20 or 25 per cent service charge. There is also a cover charge, music charge, and an entry charge. Trieste waiters seem entirely unschooled in ele-

### Slight Difference

Jesse Owens, left, Olympic Games great of 1936, and Willie Steele compare their best broad jump marks as the former Ohio State champion visits San Diego State. Owens, holder of the world record, 26 feet, 8 1/4 inches, believes his mark will be bettered by Steele, who has done 26 feet, 6 1/2.

mentary mathematics and, strangely enough errors in their addition on the check always seem to favor the house.

### Vacation Cost Joins Bandwagon Of Rising Costs

MINNEAPOLIS (UP) — You can't win when it comes to vacations this year.

Take a trip, even a short one—nothing fancy—and it will cost from 20 to 100 per cent more than it did in 1940.

Maybe just stay at home and roast weiners in the back yard? Nope. Weiners are nearly three times as expensive as in 1940 and weiner buns are up about 90 per cent.

That cruise from New York to Nassau, Havana and Miami is an example. A little pinching here and there, and the wanderer could scrape up \$120 for the 12 day trip in 1940. Now the same cruise costs \$218.50 minimum, an increase of 82 per cent.

Almost all the trips are the same way, with one-third or one-fourth of the increase due to transportation taxes. The rest is just plain old inflation in summer clothes,

according to the family economies bureau of North eastern National Life Insurance Company.

It not only takes more dough to get to the vacation grounds, but such things as sports clothes and fishing tackle and tennis rackets have zoomed skyward also.

The only major drop has been in the area of coverage of women's swim suits—but the price still increased from 40 to 60 per cent.

Golf clubs have about doubled in prices, with 1940's \$6 woods now retailing at \$10 and irons jumping from \$5 to \$10 in the eight years. A steel casting rod that sold for \$11 before the war is \$17 today, with lower priced rods in about the same proportion.

Another place where inflation and taxes grip the traveler is a 100 per cent rise in the cost of luggage. Cameras have about doubled also, although camera film, along with auto tires, are two of the few items which have increased in price only through added taxes.

Gasoline is up about 40 per cent during the eight-year span, and the motorist has another thing to worry about when he gets out in the wide open spaces:

When he needs repairs on the car en route, he'll find that spare parts have gone up 40 to 75 per cent and the mechanic hat fixes the car gets 66 per cent more per hour for his labor.

## HOW LONG SHOULD A GOOD JUDGE SERVE THE PEOPLE

★ On July 24th the voters of Eastland County will choose a judge to preside over the 91st District Court for the next four years. Only one issue has been raised by the opponent of Judge George L. Davenport in this contest.

★ It is contended that after 28 years of distinguished service Judge Davenport should retire or seek promotion. In other words the voters are being asked to disqualify merit, to retire a public official solely because he has given 28 years of meritorious service to the district.

#### ★ Why?

★ Everyone familiar with the duties of a district judge realizes that experience is important—too important to risk the office to frequent changes. The voters of Texas have made a general practise of keeping able judges in office for as long as they ask.

★ A notable example of this fact is the record of the beloved Judge Truman H. Conner, now deceased, who served as judge of the 42nd District Court for twelve years and was then elected to the Fort Worth Court of Civil Appeals, where he served thirty-four years, making a total service on the two courts of forty-six years. Judge Conner was one of the great jurists of the State. It is reasonable to presume that he did not believe thirty-four years on one bench was too long, but recognized that character and ability, long experience and training were of supreme importance.

### THE SAME COST:

★ Whether the voters elect a new judge every term or keep the same judge in office, the cost is the same—the same amount of money is paid in salaries and expenses of the court. The concern of the voter should be to choose the judge best qualified by experience and knowledge—To get what he pays for!

★ As the judge, so the court. To preside successfully over a trial court demands qualities rarely joined in one person and proved only in experience. It demands knowledge of the law and of human nature. It demands patience, wisdom and courage of high degree. Judge Davenport's record, the distinction he has earned, and the respect he has gained for the 91st District Court prove these qualities in him.

★ Numerous cases can be cited to illustrate his ability as a judge, some of them tried during times of great public excitement when it took a judge of great composure and fairness to conduct trials to judgments that were sustained upon appeal. INCIDENTALLY, THE JUDGMENTS OF HIS COURT HAVE BEEN SUSTAINED WITH ENVIABLE REGULARITY.

★ As trial judge during the oil boom, when court dockets were clogged with strange litigation arising out of oil and gas development, Judge Davenport had an important part in shaping the body of State law affecting mineral rights and development. After the east Texas boom, he was called to try many cases of this nature in the courts of that area, because of his knowledge of the subject and his record in deciding correctly so many difficult and original problems in this field of controversy.

### AN IMPORTANT POINT NOW

★ This is a particular qualification of Judge Davenport that ought to be considered seriously now that Eastland County faces the prospect of another oil boom. These booms are always followed by extensive litigation. It is certainly true that a judge with experience and knowledge in such a field can dispose of these cases more quickly, with less cost and with greater accuracy than can a judge of less experience.

★ But, even so, more than efficiency is at stake in the choice of a judge to preside over a District Court—as important as efficiency is. The general character of justice is at stake. The District Court is the court which determines issues of personal and property rights. It is the only court in which the sentence of death can be passed.

★ Tomorrow your own interests may be involved in litigation before such a tribunal. Do you think that a fair and impartial judge, a judge of proven merit, should be disqualified to rule upon your rights merely because he has had twenty-eight years of experience on the bench?

Paid for by friends of Judge George L. Davenport (Pol. Adv.)

### She's An Artist, Beatrice Lillie Decides, And Starts To Prove It

By Walter Logan  
 United Press Staff Correspondent  
 NEW YORK (UP)—Beatrice Lillie, the comedienne, has blossomed out as a painter of lilacs, geraniums and daphniums. She discloses that she got her artistic start by decorating doorknobs in her country place in Surrey.

"From doorknobs to canvas," she said, "was only a logical step." Miss Lillie, giving way to an urge to fill her country place with gaily painted knobs instead of the drab ones she was using, went to an ironmonger to place an order. There she discovered they had quit selling them during the reign of Queen Victoria.

So she took her brown knobs, dipped them in white paint, hung them out to dry and later covered them with sprays of forget-me-nots and other assorted flowers. The doorknobs presumably are lying where she left them. She decided at that point that she was an artist, went back to town and began painting on canvas.

Thus far she has painted only flowers, either in pots or spread out on a table. She prefers the pots because so far she hasn't learned how to paint a table. "Mine simply look as if they were hanging in space," she said. Some of the pots also look as if they were hanging in space.

### Burning Issue

Fire Prevention Week in Tokyo is serious business, since fire last year destroyed buildings amounting to 40 per cent of all new construction. But a spark of humor was added to the campaign when the translation of this warning from the Japanese came out: "Keep Your Home Burning."

Thus far she has about 20 paintings to her credit and hopes to give a one-woman exhibition for charity when she gets enough. That will be difficult because she rather absent-mindedly gives them away to almost anybody who admires them.

Miss Lillie has been hung once in Hollywood, where she exhibited a painting of blossoms of a tree—they were pink and white and she isn't sure what kind of tree they came from. She signed that one "Blossoms by Daisy Peel" but no one knew who Daisy Peel was and she put her other name on it (Miss Lillie in private life is Lady Peel.)

Miss Lillie thinks she will do paint brushes. Now she has only one which she dips variously in different colors, achieving a rather blurred effect which is considered excellent modern art because she usually does her painting at night after performing in the Broadway revue "Inside U. S. A." She has no easel and paints while sitting on the floor with the canvas in one hand and the lone brush in the other. Her latest achievement is a painting of some lil-

### She Almost Missed the Boat

Marie Moyson, 68, is hoisted aboard the French liner De Grasse in New York harbor after she almost missed the Paris-bound vessel. Arriving at the pier moments after the ship sailed, Mrs. Moyson hired a tug and managed to catch it. Willing hands helped her aboard after she nimbly climbed the ladder from tug to liner.

### Barrel Experts Searching For Whiskey Leaks

CINCINNATI, O. (UP)—Distillers here are employing "leak hunters" in an effort to cut down large annual losses of aged whiskey.

Evaporation, leakage and absorption claim one out of every four and a half barrels while the beverage is being mellowed four to eight years in oak barrels, according to Carl J. Kiefer, production vice president for Schenley Distillers Corp.

Kiefer said the average annual loss is some 20,000,000 gallons.

### Stop Encouraging Them Birds, Gal

San Francisco's Mayor Elmer Robinson has decreed that pigeons and sea gulls around the city's public places are a nuisance. So feeding them in Union Square, like 3-year-old Susan Smyk of San Bruno, Calif., is doing, is out. A city cleaning bill provides for trapping or killing the birds.

according to federal reports. The leak hunters, he explained, scrutinize the barrels for signs of excessive leakage.

### Don't Beat Your Car, Judge Advises

POTTSVILLE, Pa. (UP)—Justice of the Peace Lawson Dietrich feels that property rights go just so far. Apparently it's all right to kick your car in anger if it won't start. But you can't roll it down embankments and set it afire, in Dietrich's opinion. That's disorderly conduct. He fined Earl A. Iandis \$5 and costs for doing just that.

Here's Uncle Sam's Newest Man O'War

Incorporating lessons learned during World War II, the light cruiser USS Worcester, just completed in Camden, N. J., is the latest addition to the American fleet. The 17,000-ton ship, shown in the Delaware River, was named after the Massachusetts city which raised the \$30,000,000 it cost. The Worcester, armed with six-inch guns, has a watertight hull. If hit below the water line, only the hold actually damaged would be flooded.

Petite Political Pressure Group

Juvenile residents of the District of Columbia march on the Capitol with determined step to protest levying of a sales tax on D. C. purchases. One solid citizen whose step was short on determination drops out of the lobbying party momentarily. The children were brought to the Capitol by grown-up lobbyists of the Washington Committee for Consumer Protection.

the teachers an "out by suggesting that some of the instructors might have to skip school a few days each month and work at other jobs to make a living. However, it is admitted that even school teachers probably don't like being indoors when the grass is green and the water in the village pond is warm.

The thing that really upsets the ministry of education officials is a report that teachers in one school have been throwing sake parties during school hours. Japanese sake is a potent rice wine that gets quick results when served hot.

said these sake parties have got to stop because it is undemocratic for women teachers to wait on male colleagues by serving drinks to them and "obeying their orders as though men were superior to women."

Little Red School House Passing Illinois Concludes After A Survey

By PAUL E. SVOBODA United Press Staff Correspondent SPRINGFIELD, Ill. (UP)—The "little red school house" is on the way out in Illinois. "For sale" signs have been posted on hundreds of country schools. More are going on the block in the most drastic shakeup

of the states system of public education in Illinois history.

Small school districts are being merged into larger ones, some of them embracing whole counties. Before the school consolidation program got started three years ago, Illinois had more than 11,500 school districts. The number has been slashed to around 9,000 and educators hope to have it down to about 1,500 in the next few years.

Two Chief Aims Behind the consolidation are two chief aims: 1. Better schools and better teachers for Illinois' rural school children. 2. More efficient administration to get the most from the tax dollar. The movement slow getting started, shifted into high gear this year.

Vernon L. Nickell, said parents in smaller communities and on farms are beginning to realize that their children can have just as good an education as those in cities if they combine their tax dollars.

Three years ago the state legislature passed a law permitting counties to set up survey committees. The committees had until last June to make final recommendations for merging school districts in their counties.

But many areas didn't wait for the committees to report. There now are 117 consolidated districts—called community school districts.

Nickell has predicted that Illinois will have less than 3,000 school districts by next spring—a cut of better than 300 per cent in three years.

But it hasn't been easy. Educators and civic leaders have to fight "farmer stubbornness" to change; a fear of increased taxes, and the opposition of local politicians bent on maintaining the status quo.

Two things hurried the job. Most important was the shortage of teachers and the inability of smaller districts to match the higher pay scales in city schools.

The other was the example of successful consolidated schools. Mothers and fathers saw children in neighboring counties attending modern schools where they learned more than just the "A-B-C's."

One hurdle remains. The constitutionality of the redistricting law is being challenged in the state supreme court.

Teacher And Pupil Both Play Hookey

TOKYO (UP)— Japanese school children who play hookey have to be careful or they will run into their teachers at the swimming holes and pool halls. The situation is deplorable, according to ministry of education officials, who made a private check on schools and found 40 per cent of the teachers absent. In one prefecture, 60 per cent of the principals were playing hookey the day the officials drop-

ped in unexpectedly. It's probably embarrassing for all concerned when the teachers and pupils meet on the street during school hours. Of course, there always is the possibility that they got together in advance and decided to go to a ball game.
