Power Envoys Confer After Stalin Break

Area OIL News

EASTLAND COUNTY — Gorman:

Following is a report on activities in the Kirk field, Gorman, for Monday, August 23:

Commercial Production building oil tanks on their first lease to take care of oil on their No. 1 J. A. Hirst which played pranks the other day and also on their No. 2 which they are now preparing to set surface pipe on.

W. B. Johnson No. 1 George T. Stone shut down with engine trouble at 2741. They have been closed down since Saturday and may not be able to resume operations earlier than Tuesday.

W. B. Johnson No. 1 Koonce had Halliburton run a straight line at 3081. This well has been showing rainbows for perhaps a hundred feet and the formation is such — largely black lime right now — that they can only make approximately 30 feet each day with the cable tool rig which they are using.

Rushing well is taking an Electrolog today.

Mellard and Hunter No. 1 Blackwell drilling at 3220. They found a pretty good show at 2804, and also the shallow show of 3-5 feet at 657.

Gillespie No. 1 Waller out South of Desdemona is drilling at 1300 feet.

Edwards et al No. 1 Anderson expect to hit pay some time today. They are drilling at slightly over 2900 feet and have topped the Marble Falls.

U. S. Air Force Procurement Team To Be In Abilene

A special United States Air Force procurement team will arrive in Abilene on the 27th and 28th of August to interview young men in this area who are interested in pilot training with the Air Force, Captain Wayne Hall, Commanding Officer of the U. S. Army and US Air Force in Abilene said today.

The team, headed by Major George P. Owen, is prepared to give all the qualifying tests required except the final physical examination and personal interview. Captain Hall said that interviewed young men therefore could terminate at once whether they can qualify.

To be eligible for the Aviation Cadet Program an applicant must be an unmarried male citizen between ages of 20 and 26 1-2 years; have had two or more years of college or be able to pass an educational examination to measure its equivalent. A sound physique and excellent character also are required.

The team also will interview young men for Officer Candidate training for non-flying administrative jobs. This course is open to applicants between 20 1-2 and 28 years of age who are high school graduates and of sound physique and excellent character.

The team will be in Abilene the 27th and 28th of August, Friday and Saturday, and will present its program at various meetings in this area. The Recruiting Station at Eastland is arranging the interviews.

Staff Baptist To Have Revival Meet Aug. 29th

A revival meeting will begin at Staff Baptist Church Sunday, Aug. 29 and continue through September 5, with services each night.

Rev. Jasper Massague of the Second Baptist Church of Ranger will conduct the services to which the public is cordially invited.

Baldwin, Harmon Active In Kirk Field At Gorman

Among the most successful operators in the Kirk pool, along the Eastland and Comanche boundary, are J. W. Baldwin of Wichita Falls and Sam Harmon of Gainesville, who have seven producing wells, one drilling and room for eight more locations.

Some of their wells are capable of producing 1,000 barrels a day or more each but are throttled down because of the allowable.

These producers are flowing through a choke which is reduced to 5-64ths of an inch, an opening about as thick as the big black lead in a pencil that a newspaper editor uses. Even through an opening that tiny, a well will produce 50 barrels a day.

It is considered better to have the wells flowing 24 hours a day than to have them make three allowable in less time and then shut them down.

The casing shortage which is afflicting the oil industry has resulted in an arrangement which is proving successful. Some of the wells in the Kirk pool are using old drill pipe for casing. This is feasible, it is explained, because an operator instead of setting his casing on top of the pay and then drilling in (as in the old days,) drills through the Marble Falls and about 20 feet lower. Then it is never necessary for him to drill deeper but the narrower width of the drill pipe still gives room for cleaning out, swabbing and running the bailer.

The Baldwin and Harmon wells are on 352 acres of leases, three producers being on the Roscoe Sanders, one on the Arland Watson, one on the Bryant, two on the J. N. Watson, with a third well drilling there.

Propose Troops Be Withdrawn From Border Area

BERLIN, Aug. 24 (UP) — American authorities proposed informally to Russia today that the troops of all four powers be withdrawn from Berlin sector boundary lines to east-west territory.

The proposal was placed before Russian junior officers by American junior officers.

It was understood the recommendation had been transmitted to Maj. Gen. Alexander Kotikov, Russian commander in Berlin, with the approval of high American authorities.

The move was made in hope a formula could be devised to quiet the border areas, where heavily armed Soviet patrols are facing British and American riot squads across a vaguely defined frontier in the heart of Berlin's bomb-battered business district.

The recommendation was that German police of the three main sectors be permitted to patrol the border areas without the supervision or assistance of military police of the occupying powers.

Fifth Sunday Singing At Cisco Sunday Afternoon

Stanley Webb of Cisco announces that the regular Fifth Sunday singing will be held at Cisco Sunday afternoon at the Wesley Methodist Church (East Side) at 1:30 p. m.

All singers and lovers of gospel music are invited to be present.

There's Always A Way BLOOMINGTON, Ind. (UP) — A mother found a way to keep her three energetic children out of mischief. When he parked the family car to go to the grocery, she left them behind to put pennies in a parking meter each time a violation registered. She says they enjoy themselves and are well behaved now.

Russians Release American Official

C. C. Streets Return From Family Reunion

C. C. Street and wife have just returned from Abilene where they attended a reunion of the J. W. Street family, which is an annual affair and which was held at Abilene State Park.

J. W. Street, (deceased) father of C. C. Street, came to Abilene in 1899.

Mrs. Bob Burkett and children, daughter of Mr. and Mrs. Street, returned to Eastland with them for a visit.

Eastland Child Has Slight Case Of Polio

Nan Estes, four years of age, and daughter of Mr. and Mrs. R. D. Estes, who was carried to the Parkland Hospital, in Dallas Sunday for treatment; was returned home Monday.

Dallas doctors said she had a mild case poliomyelitis, and said the child could be treated by her local doctor.

Mrs. Estes said Tuesday morning the family was isolated. The child had been ill several days when carried to Dallas.

Ward Completes 30 Years Service With Magnolia

The Connelee Hotel Roof Garden was the setting for a banquet given by the Magnolia Petroleum Company Production Department in honor of James Ward, Thursday night.

Mr. Ward was presented with a Magnolia button representing thirty years of continuous service with the company. He worked the entire thirty years in the Olden District.

Those present to enjoy the occasion were: Mrs. Ward, Rev. and Mrs. Chapman, Mr. and Mrs. Carl Crone, Mr. and Mrs. W. K. Gulledge, Mr. and Mrs. R. L. White, Mr. and Mrs. Joe Langdon, Mr. and Mrs. Guy Hendricks, Mr. and Mrs. Loyce Groves, Mr. and Mrs. A. D. Campbell, Mr. O'Brien, District Superintendent from Electra, and Mr. R. T. German, Division Superintendent from Midland.

Mr. German presented the emblem to Mr. Ward.

OBEY TRAFFIC REGULATIONS—CHIEF LANEY

Bicycles ridden on Eastland streets, must in the future, display a red reflector on the rear and a white light in front. The operator must have a license and must obey all other rules and traffic regulations that apply to cars, Police Chief R. A. Laney stated this morning.

"Traffic on Eastland streets is becoming so heavy that the enforcement of driving rules and regulations must be enforced as to bicycle operators the same as operators of motor vehicles else they become a threat to the safety of the public," Chief Laney said.

Laney said that within a few days riders of bicycles who did not have their license and who were not displaying the proper lights on their machines and otherwise complying with driving regulations, would be given tickets.

Chief Laney also stated that hereafter all pedestrians, bicycle riders and operators of motor vehicles of all kinds must obey all traffic regulations or they would be given tickets if apprehended. "This is absolutely necessary if we are going to prevent accidents and expedite the movement of cars, trucks, etc., through the city streets," Laney said.

Laney said he did not anticipate any trouble as the public had always been very considerate and anxious to co-operate in matters of this kind, realizing that it was for the safety of all.

Many Locations Being Made In The Kirk Pool

The Kirk pool along the Eastland Comanche line continues the scene of intensive activity, with six locations made during the past week.

In addition, no less than three wildcats are being started south of Gorman.

Three producing wells were completed in the same period: Della Graham No. 2 of the Coast Oil Corporation and the J. W. Baldwin No. 3 G. R. Sanders, among the best wells in the pool, and Skelly Oil Company's No. 3 S. D. Mears, gauged 20 barrels in 24 hours through 1-4 inch choke.

Wildcats are: Star Oil Company No. 1 J. B. Anderson, four and a half miles southwest of Gorman, 330 feet from north and east lines of west half, Sec. 21, D & DA Survey.

W. B. Johnson Drilling Company No. 1 G. T. Stone, four miles south of Gorman, 906 feet from North and 200 feet from east line, Sec. 33 D & DA Survey.

Haynes B. Ownby Drilling Company No. 1 Robert D. Lindley, three and a half miles southeast of Gorman, 330 feet from north and 990 feet west line of NE Quarter, Sec. 52, H&TC Survey.

Locations in the Kirk pool are Commercial Production Company (3 wells) No. 1 J. A. Hirst, No. 2 J. A. Hirst and No. 1 S. E. Mears; Coast Oil Corporation (2 wells), No. 3 Della Graham and No. 5 Della Graham; Kirk, Man and Griffin No. 1 Millington.

Dr. Kenneth Cowan Was Rotary Club Speaker Monday

Dr. Kenneth Cowan, speaking before the Eastland Rotary Club at Monday's noon meeting, discussed briefly certain types of cancer prevalent in men.

"Most cancers can be cured if their presence is detected in time," Dr. Cowan said. He also listed a number of symptoms of cancer chief among which was the evidence of bleeding.

Out of the Soviet Union's 180,000,000 population the Communist party has a membership of only 6,000,000 and altogether, Alexander Kerensky estimates in the American Magazine, not more than 20,000,000 Russians are loyal to the Red party.

ENVOYS AWAIT INSTRUCTIONS FROM THEIR GOVERNMENTS

MOSCOW, Aug. 24. (UP) — Generalissimo Josef Stalin has cleared the way for a whole new series of negotiations on Germany and the western envoys are now awaiting new directives from their governments before requesting another Kremlin conference, authorized sources said today.

U. S. Ambassador Walter Bedell Smith, British Envoy Frank Roberts and French Ambassador Yves Chataigneau spent four hours and 45 minutes with Stalin and Foreign V. M. Molotov at the Kremlin last night and early today.

Smith, emerging from the talks at 1:45 a. m., indicated that Stalin in person had broken the deadlock over Germany and that the talks would go on.

Authorized sources said at least one additional but probably more joint meetings may be expected as a result of the record-breaking meeting with Stalin last night.

Smith, Roberts and Chataigneau conferred at the American embassy for more than two hours early this morning after returning from the Kremlin.

Roberts and Smith left at 4 A. M. But Smith remained with his staff, preparing reports for Washington, until 3:30 a. m. He then went to his residence for a brief nap and returned to his office later in the morning.

It is expected that new instructions from the western capitals will take a day or two to arrive. Then the western envoys will ask the Kremlin to fix another appointment.

Says Communist Regime Not One For World Peace

AMSTERDAM, Aug. 24 (UP) — The Soviet Communist regime "is not a regime of peace" and it confronts "those who seek peace with a difficult problem," Republican Foreign Policy Adviser John Foster Dulles told the World Council of Churches today.

This problem "cannot be solved by trying to crush Communism by force," Dulles said. "The solution is for those who have faith to expert themselves more vigorously to translate their faith into works."

As a delegate for the Presbyterian churches of the United States, Dulles addressed representatives of 150 churches in 42 countries at this first assembly of the world council. He spoke in the impressive New Church of Amsterdam.

Nazarene Revival Slated For Sept. 15 To 26, Here

Reverend William C. Emberton, pastor, Church of the Nazarene, announces the services of Dr. O. J. Finch of Dallas, has been secured as the evangelist in the fall revival slated to begin September 15.

Rev. Emberton says, "Dr. Finch is well qualified for his calling having had experience as pastor, district superintendent and for several years, president of Bethany-Peniel College at Bethany, Oklahoma. He has been in the evangelistic work for the past few years and we consider it a privilege to have him come our way. We urge our friends of the city to make their plans now to attend."

The name Arizona has been included in the title of 36 different motion pictures.

UNCLE SAM'S SELECTIVE SERVICE

(Editor's note: Below is one installment of a series of questions and answers on the second peacetime military training program. It has been prepared under the direction of the Texas Director of Selective Service, Maj. Gen. K. L. Berry.)

SELECTION AND REGISTRATION

1. Q—Will there be a lottery, or national drawing, as there was in 1940, to determine who will be classified and inducted into service first?

A—No. 2. Q—If there is to be no national drawing, just in what order will the registrants be considered for classification and induction.

A—The oldest men, that is, those in the 25-year-old age group, will be considered first.

3. Q—Will each local registrant receive a definite number that will identify him?

A—Yes. It will be an identification number which will identify him as to state, local board, year of his birth, and his numerical position with respect to other registrants of his local board having the same year of birth, generally according to the sequence of their dates of birth.

4. Q—After the initial registration period is over (the period from August 30 through September 18, both dates inclusive), will men who become 18 after that date have to register?

A—Yes. They will have to register continually as they become 18 within five days after the 18th anniversary of their births.

5. Q—Where will these men re-

gister after the initial registration period?

A—They will register at places designated by their local boards.

6. Q—Will ignorance of the law be accepted as an excuse for failure to register?

A—No. Ignorance of the law excuses no one. The Selective Service Act specifically provides that everyone will be deemed advised when the President proclaims dates for registrations. This he did on July 20.

7. Q—Will single men be considered first for classification and induction into the armed forces?

A—Single men who are not fathers or not veterans probably will be considered first. The term "single man" is understood to include an unmarried man who does not live with his wife or who is separated, divorced or a widower.

N. Y. Police Poor Shots Critical Judge Says

NEW YORK (UP)—Special Sessions Justice Frank Oliver says city policemen can't shoot.

Lecturing to defendants on the dangers of target practice within the city limits unless they were expert shots, the judge remarked by way of example that 10 per cent of New York city policemen "can't hit a door 200 yards away on the level."

The judge said it was because the officers can't afford to buy their own ammunition for practice. The police department should buy it for them, he said.

Either Way, It Hurts PEARL RIVER, N. Y. (UP)—

The Bee Keepers Association devoted a meeting to experimentation. The members let bees sting them to determine whether a bee left its stinger in the person it stung or kept the stinger. After an afternoon of stinging, it was decided that the bee left its stinger.

The greater part of the nation's flax is produced in Minnesota and North and South Dakota.

Indian Lore Seekers Invade Albuquerque

ALBUQUERQUE, N. M. (UP)—Albuquerque which has long been a tourist center, is making a bid for a different type of visitor the pick-and shovel anthropologist.

The city lies in the center of a 100-mile area known to hold more than 1,000 ruins of ancient Indian villages. Excavations are being made more and more each year by students of prehistoric times.

Five well-known ruins lie within the city limits of Albuquerque. They were turned up by men digging irrigation ditches. Another was discovered when workmen were digging up soil to make adobe bricks.

In Tijeras Canyon, west of Albuquerque, 40 separate ruins can be seen from one spot. One of the ruins is a 90-room mud pueblo.

Gen. John J. Pershing's first assignment after graduation from West Point was to be military instructor at the University of Nebraska.

College Rolls Swelling
NEW YORK (UP) — Registrars of the four city colleges, Hunter, Brooklyn, Queens and City, predict a new high enrollment of 29,150 this fall. Veteran students will be fewer, but the drop will be more than offset by new civilian entrants, it was predicted.

People Run Own Newspaper In "Atomic" City

By Fred J. Green
United Press Staff Correspondent
RICHLAND, Wash. (UP)—In this government-owned "atomic" city there is a newspaper as unusual as the community itself.

The newspaper is owned and operated by a corporation composed of all the people of the city, and city-wide elections are held to choose members of the board of directors who make policies and direct the business of the paper. The name of the corporation is "Villagers, Inc." and the newspaper is the Richland Villager.

Before the war, Richland was a tiny farming community on the Columbia River with a population of 300. Then came the "Manhattan" project and the United States government in 1943 bought the land where Richland stood and much more, too.

Atomic plants arose on the vast sagebrush lands around Hanford to the north and Richland became the living center for thousands employed on the project. Richland is still expanding and its 1949 population is expected to reach 26,000.

Newspapers spring up just as naturally in an American community as blue grass does in Kentucky and quickly the weekly Richland Villager came into existence as a spontaneous creation of the entire community.

Now, like its community, it is growing and plans to go into daily publication area, taking shape. The elected board of 15 directors of Villagers, Inc., is composed of men who came from all parts of the country and represent many professions, such as engineers, chemists, accountants, architects, business men.

All money received by the Villager from advertising and job printing above the cost of operation are set aside in a fund for community enterprises. A town library has been established and donations are made to youth activities, city Christmas decorations a swimming pool, band concerts, a community sports scoreboard and many others.

The board gives the editor of the Villager wide autonomy and they selected after careful deliberation Ted Best, a native of the state of Washington, formerly editor of the West Seattle Herald and of the Kent, Wash., News-Journal. The original editor who served for the first three years was N. Paul Nissen.

The Villager concentrates on

rivals in noise making honors, an acoustics expert has discovered. Dr. Howard C. Hardy is making a 12-months study of Chicago's Loop noises.

He and an assistant parked their mobile laboratory at a busy downtown intersection. A sound level meter registered 100 decibels as an old-style street car clanged around the corner.

Boiler factories tests have shown, usually score 110. Chicago's city council will use Hardy's findings in drafting new noise abatement laws.

There are 105 weekly newspapers in West Virginia — one for every 20,000 persons.

for TEXAS and Freedom...

TEXAS WILL FIGHT for THURMOND and WRIGHT

Texans, your personal freedom and the freedom of your children is in danger. Truman's so-called civil rights program will destroy our way of life. Truman's tidelands program will rob our children of their badly needed school funds. Never since the Alamo has Texas been in such danger.

If we are to be saved, we must unite today... all creeds, all factions, farmers, laborers, businessmen, EVERYBODY! It is now or NEVER!

If the Truman forces steal the Fort Worth Convention on September 14 by unseating the States' Rights delegations, you will still have the opportunity to vote for STROM THURMOND and FIELDING WRIGHT.

Money must be raised... it is YOUR fight.
