## Two Teen-Agers May Face Charges Of Car Theft

BROWNWOOD, March 10 (UP)—Two Austin teen-agers who say they fled their home town to escape the threats of older boys probably will be returned there to face car theft charges.

Brown County Sheriff Otis Shaw said the youths had signed statements admitting they stole a 1940 Ford convertible Tuesday in Austin, then "tore out like a bunch of maniacs" in a wild, 24-hour drive into Oklahoma, back to Austin, then to Brownwood.

The boys, one 16 and the other 17, were captured yesterday in a Camp Bowie maneuver area by Highway Patrolmen Aubrey Crockett and W. D. Lawler, Jr., who wrecked their squad car in the chase.

Seven cars of officers and two planes from Brownwood had converged on the Camp Bowie area after the youths bought gasoline at Brady, and drove off without paying.

The teen-agers, when arrested, had in their possession a small arsenal including a shotgun, two rifles and ammunition. They dropped their weapons, however, when the patrolmen overtook them on foot. The confessions failed to bear out the story of Phillip Waters, 16, who initiated the manhunt by telling authorities the accused youths had "kidnapped" him at gunpoint. He said he was released unharmed late Tuesday near San Saba.

The youths said they were en route to Oklahoma again to seek employment when arrested in the stolen auto, which Sheriff Shaw said belongs to Mrs. Susie Landris of Austin.

The Sheriff said the younger boy would be returned to Austin for juvenile court proceedings, while a warrant has been issued for the older boy.

## Group Attends Floral School

Mrs. J. C. Poe of the Poe Floral Shop accompanied by her daughter, Margie June and Mrs. Frances Zener of Eastland and Mr. and Mrs. Fred Bonner of Ranger attended a school in the display room of the Fort Worth Floral Company in Fort Worth Wednesday evening.

Conducting the class was the nationally known F. T. D. stylist and designer, who demonstrated as he taught the newest styles in flower arrangements for parties, weddings and for all occasions formal and informal.

About 300 florists from this area attended Mrs. Poe said.

## Recruits Still Needed At Local U S. Army Office

Due to a sharp cutback in recruiting for the Regular Army and Regular Air Force many qualified persons in this area have received the impression that no more enlistments are being accomplished, according to S-Sgt. James Hendrick of the Eastland Recruiting Station.

This certainly is not true. The recruiting Service is still accepting applications and is especially interested in men and women who are exceptionally qualified for specialists training and attendance at various officer candidate schools and Aviation Cadet flight training.

The choice of service in the Army is more liberal than in the past few months.

Although quota ceilings for the Regular Army is more liberal than in the past few months.

Although quota ceilings for the Regular Army and Regular Air Force are limited, there is no quota on the enlistment of 18 year old men for one-year enlistments in the Air Force of the United States and men re-enlisting in the Army and Air Force within 90 days from date of discharge.

Men and women interested in service or a career in either the Army or Air Force are urged to go to the Recruiting Station, located at 311 West Main Street in Eastland, for complete interview and initial processing.

## Soil Conservation Bill Given Boost

AUSTIN, Tex. March 10 (UP)—Legislation appropriating \$10,000,000 for state soil conservation work jogged forward another step today.

Members of a Senate finance sub committee, hearing testimony on the measure yesterday, voted to report the bill back next Monday.

However, hope for final passage of the full appropriation dimmed in the light of a \$22,000,000 downward revision on the state's estimated income for the next two years.

R. M. Boswell of Kenedy, a director of the State Association of Soil Conservation Supervisors, presser the argument in support of the measure.

Boswell, posing the threat of compulsory federal conservation warned:

"If the states don't do it, then the federal government will take it (Soil Conservation Work) over and administer it on a socialistic basis. We've set this up, (the proposed bill) upon a Democratic basis where we can run our own business."

Benjamin Franklin, born Jan. 17, 1706, was the youngest of 17 children born to Josiah Franklin. Curiously, his direct ancestors for five generations had been youngest sons of youngest sons.

### To Give Concert In Eastland

Alfred and Herbert Teltschik

## DUO-PIANISTS NEXT ON ASS'N CONCERT PROGRAM

The Eastland County Community Concert Association will present the second concert of the season Tuesday night at 8 o'clock at the Eastland High School Auditorium.

Scheduled for appearance on this date are Alfred and Herbert Teltschik, duo-pianists. Where ever the two have appeared they have astounded audiences of music lovers with their fine performances, and those in charge of bringing the program to Eastland county, feel that it will be one of the most appreciated concerts yet sponsored.

The two pianists were born respectively 29 and 30 years ago in Floresville, Texas, of Austrian parents, the Teltschiks began their musical training at an early age under the tutelage of their father, an old-world musician. After moving to Houston, they continued their studies under Aldridge Kidd—a musical education that continued for a decade. Later, they went to New York where they entered the Julliard School

of Music, studying under such eminent personalities as Sascha Goro-dnitzki and Mme. Olga Samaroff Stokowski. Upon graduation from Julliard, they returned to Houston, married, and settled down to teach piano in the city's public school and in their own studio.

To satisfy their own love of making music for audiences, they began giving two-piano recitals on the side. They soon encountered the usual occupational hazard in their field, the problem of finding two evenly matched pianos in out-of-the-way places. They solved this difficulty neatly with what their friends term "Operation Trailer." To their car, they have attached a trailer rigged for storing and transporting two pianos. They also know how to repair and tune their own pianos, thus achieving further logistic independence.

Called to active duty at the beginning of the war, they were assigned to military orchestras, but their special talents were recognized and they gave numerous two-piano recitals for the armed forces, thus gaining rich experience for the career they were to pursue.

Organizational plans for the Carbon Community Club will be discussed tonight at a banquet in the Carbon High School cafeteria at 7:30 P. M. Bob E. Stone, territorial development representative of Texas Electric Service Co., will be guest speaker.

Following the banquet a meeting will be held to organize the club on the lines of a chamber of commerce. Membership will consist of business men and farmers and plans call for the election of officers tonight.

Tickets may be obtained at the Eastland Chamber of Commerce or at John's Cafe in Carbon. Stone is a widely known speaker in the area specializing in discussions on the development of natural resources. In the past few months he has appeared before clubs and organizations in Eastland, Gorman, DeLeon and Ranged.

By United Press  
Israeli troops were reported on the march in southern Palestine today within 35 miles of the Trans-Jordanian port of Aqaba, defended by a British garrison.

There still was no confirmation of a Trans-Jordanian defense ministry announcement last night that units of Trans-Jordan's Arab Legion had clashed with the Israeli troops at a point about 32 miles northwest of Aqaba.

Israeli officials at Tel Aviv denied there had been a clash. But they did not deny Trans-Jordan's claims that two Israeli columns have started to move through the southern Negev at the southern tip of Palestine toward Aqaba.

British military sources in Cairo said the bulk of an Israeli force about 1,000 strong had reached Burj El Muleila, 35 miles northwest of Aqaba. Advance patrols may have penetrated farther south, they said.

The British said they did not believe the Israelis had crossed the Palestine border into Trans-Jordan, nor that they intended to attack Aqaba.

Rather, the British said, the Israeli advance appeared aimed at controlling the highway from the Trans-Jordan border into the Negev and occupying the strategic Negev triangle bordered by Trans-Jordan on the east and Egypt on the west. Aqaba lies at the head of the gulf of Aqaba just inside the Trans-Jordan border opposite the tip of the Negev triangle.

The southern tip of Negev is still in dispute and Trans-Jordan forces may be inside it. Its future pending a formal peace treaty is being discussed at Rhodes by Israeli and Trans-Jordanian armistice delegations.

Other foreign news included: Berlin—Authoritative sources said the U. S. Military government has completed a letter rejecting Soviet demands that a restitution mission be permitted to enter the U. S. Zone of Germany to hunt for Soviet property stolen by the Nazis. The letter was expected to be signed late today by Gen. Lucius D. Clay, U. S. Military governor.

London—The British cabinet was reported to have approved in principle the draft of the proposed North Atlantic Security pact. No details were available.

Rangoon, Burma—Rebel Karen Tribesmen captured the central Burma town of Maymyo after heavy street fighting. Maymyo is 30 miles northeast of Mandalay.

Sydney, Australia—Eighteen passengers and three crewmen were believed killed when an airliner crashed and burned shortly after taking off for Brisbane.

**GENERAL MEETING**  
All Eastland citizens interested in having a golf course located here are urged to attend a general meeting tonight at the high school gym at 7:30 P. M. The Quarterback Club requests non-members as well as members to attend this important meeting.

Recently plans were outlined for the improvement of the former course under the sponsorship of the Quarterback Club. Equipment and the grounds will be furnished and club officials are hoping for increased local support to push the project through.

## THE WEATHER

East Texas — Fair this afternoon and tonight. A little colder in extreme south portion this afternoon. Scattered frost in northeast portion tonight. Friday partly cloudy, warmer in the afternoon. Moderate north and northeast winds on the coast, becoming variable tonight.

West Texas — Partly cloudy this afternoon, tonight and Friday with rising temperatures.

## JUNIOR CLASS PRESENTS ANNUAL PLAY TOMORROW

Tomorrow evening the Junior Class of Eastland High School will present a three act comedy, "A Little Honey" in the high school auditorium at 7:45 P. M.

A cast of 12 has been working for the past three weeks under the direction of Mrs. Harold Durham. Mrs. J. C. Whately is sponsor for the presentation.

Ticket prices for adults will be 50 cents, for high school and junior high students 40 cents and for children 25 cents. All profit from the play will go into the Junior Senior Banquet fund which is given by the junior class each year.

The play is given with the permission of the Dramatic Publishing Company.

Other committees who have worked to make the play a success include Mrs. James Horton, Mrs. D. E. Frazer and E. E. Layton, in charge of casting, Mrs. Freyschlag, Mrs. Neil Day, Mrs. Harvey, H. H. Hardeman, Don Anderson, Richard Bumpass, Larry Falls, Glen Hogan and Henry Parsons, in charge of set decorations, Christina Arther, Janeil Day and Paula Harvey, business managers, Beth Hurt, script girl and George Lane and Maxine Lambert, stage managers.

Willy-Willy Furniture Mart provided the furniture for the sets while Poe Floral Shop were in charge of floral arrangements. Characters in order of appearance:

Jerry Minton, a teen ager—Jeanne Howard.  
Albert Parker, boy next door—Gerold Wingate.  
Scotts, Jerry's younger sister—Jane Hart.  
Diana Minton—Jerry's older sister.

## TRAIN ROBBERS TAKEN IN WASHINGTON GUN BATTLE

WASHINGTON, March 10.—(UP)—The two gunmen who held up a Baltimore & Ohio streamliner in West Virginia were captured by police here today after a gunbattle in which one was shot and wounded critically.

Police said both confessed they held up and terrorized the B&O railroad passenger train before fleeing it last night near Martinsburg, W. Va.

Police said that loot taken in the daring train robbery was recovered. The bandits took about \$1500 in cash from the terrified passengers, some of whom were gun-whipped by the desperadoes.

Police listed the names of the gunmen as:  
Luman Ramsdell, 23, of Youngstown, O., who was shot and critically wounded below the heart.  
George Llewellyn Ashton, 21, also of Youngstown.

ter.—Nancy Freyschlag.  
Delores, the cook—Cuvva Williams.  
Tom Corning, Diana's friend—Stanley Stephen.  
Mr. Minton, the father—Lenard Quarles.  
Mrs. Tyler, a southern widow—Betty Bennett.  
Mrs. Minton, the mother—Janella Patterson.  
Mrs. Simmons, a nurse—Virginia Wright.  
Grandma Thornton — Jesse Whaley.  
The Sure-Shot Man—Bill Sikes.

## Methodist Church Plans Campaign

The Methodist Church throughout America plans to act more directly upon the slogan of John Wesley, her founder, who said, "The World is My Parish."

Consequently, a campaign is now on to go forward all along the line, with more fields of service opened, and of course more workers. They are determined that instead of Communism-taking the world, Christianity must take the world for God, and Methodism seeks to do her part.

On March 20th every Methodist will be asked to re-dedicate his or her life to Jesus Christ, and to make a free-will offering to help launch this program. There are no quotas, or assessments. It is hoped that there will be a very general response to this appeal.

The state flower of New Mexico is the yucca.

## Jury Deadlocked Over Axis Sally

WASHINGTON, March 10.—(UP)—A deadlocked Federal court jury resumed deliberating today whether Mildred (Axis Sally) Gillars is guilty or innocent of treason.

The seven men and five women of the jury returned to Federal Court at 9:40 A. M. EST to resume weighing the evidence.

In 10 and one-half hours of study yesterday, the jury was unable to decide whether the American-born defendant was guilty of being a traitor to her country by broadcasting over the Nazi radio during the war.

Miss Gillars, dressed in the same black dress she has worn through most of her six-week trial, was brought to court from district jail in a bus loaded with other prisoners.

If convicted by the jury, the sultry-voiced siren of the Nazi radio faces a sentence ranging from five years imprisonment to death. But the United States has never executed a traitor in peacetime.

The members of the jury spent last night at a hotel.

## Proves His Theory

ESSEX, Mass. (UP)—On his 98th birthday, Arthur M. Norton demonstrated his theory of longevity, which is hard word and good habits, by getting out and shoveling several inches of snow from his front walk.

In the battle for Quebec in 1759 both commanders, Gen. James Wolfe, for the British, and Marquis de Montcalm, for the French were mortally wounded.

## Wool Production In Texas Low

AUSTIN, Tex., March 10 (UP) — Texas wool production last year was 10 per cent below 1947 and the lowest since 1931, the United States Department of Agriculture reported today.

An estimated 55,653,000 pounds of wool was produced in 1948. The highest record year was 1934 with 80,713,000 pounds.

"The smaller total clip," the USDA said, "is due entirely to reduced number of sheep in the state."

## Housing for your telephone voice is scarce, too

Like new houses, telephone cable is not yet plentiful. It takes telephone cable to "house" your telephone voice as it travels.

Perhaps telephone poles near your house carry a telephone cable (the thick, lead-covered carrier for a bundle of wires strung from pole to pole). Why can't we connect a telephone for you to this cable?

Ordinarily we could. But today most of these cables have no idle wires in them.

So new telephones take new cable.

That new cable is being made as you read these words. It is spinning out of

telephone factories twice as fast as prewar. It is hurried to wherever we need it. There we hustle it into place—at the rate of a million miles of wire in cable this year alone.

Compared with normal production, telephone cable isn't scarce—it's abundant. But when 50,000 more people order telephones every month in the Southwest—as they do—even yesterday's abundance is today's shortage.

We're closing the gap, however, and we owe a lot to your patience and trust that we'll get the job done. For we're just as anxious to get you a telephone as you are to get one.

## Work On Cotton Bowl Starts Soon

DALLAS, Tex. March 10 (UP)—A second enlargement program on the big Cotton Bowl saucer to give it a seating capacity of 75,189 by opening games this fall was scheduled to hit the hammer-and-saw stage by the end of this month, State Fair of Texas officials said today.

The boost in size by 7,758 seats fell shy of fair officials' original hopes to add more than 12,000 seats to the state's largest stadium, but still moved it up into top rank among the nation's gridiron sites. All of the seats will be in a double-decked section to be erected on the east side of the stadium and at least 5,000 of them will be under option for the next 20 years to buyers of \$50 per seat option.

The remaining 2,758 seats also may be spoken for, State Fair president R. L. Thornton said, if grid fans still want to take advantage of the fair's offer to help finance the construction by purchase of the options.

Only 5,000 of the 12,000-plus options offered for public sale by the fair were taken up, Thornton said.

## Arkansas, Arizona To Meet In NCAA Playoffs Tonight

DALLAS, Tex. March 10 (UP)—A pair of smooth-working, ball-stealing underdog quintets from Arkansas and Arizona meet tonight to settle the question of which one will represent district 6 in the NCAA regional playoffs at Kansas City next week.

Using the same tactics to rattle their favored opponents the tall, red-shirted Razorbacks from Arkansas and the smaller, but speedy wildcats from Arizona knocked Rice and Baylor, respectively, out of the running in opening games of a four-game playoff last night.

Arkansas, playing in the final game of the night before 3,700 fans without towering center Bob Ambler, pulled away from a 21-18 halftime lead to eliminate Rice 56-34.

Arizona came from behind to eke out a 26-24 halftime lead over Baylor, then breezed in front 55-47.

Despite the closeness of the first-half scores in both games, there never was much doubt as to the ultimate winners being in command of their games.

With ambler out of the lineup because of a slugging incident in the first three minutes, lanky Ken Kearns, a guard, took over the offensive spotlight with a 15-point performance.

Bill Tom, Rice's sparkplug, was throttled almost completely by Mike Schumchik until the final minutes when he managed to rack up enough points to wind up as second high man with 12.

Leon Blevins, the sliickets ball handler seen on a Dallas court this season, stole the show in the opener as Arizona baffled the Southwest Conference Baylor team that knocked the wildcats out of the playoffs last year. Blevins scored 25 points, but continually kept Baylor off balance with his faking and pass interceptions.

Nebraska Leads NCAA KANSAS CITY, Mo. March 10 (UP)—Nebraska held a half game lead in the big seven basketball race today, but by Saturday night Oklahoma was expected to be the loop's entry against Oklahoma A. & M. in an NCAA playoff feature, March 14.

It should work out like this—Nebraska has finished with a 9-3 record in the conference. Oklahoma stands at 8-3 today, but the sooners finish up Saturday night at home against Colorado. They are expected to win, throwing big seven race into the confusion of a final tie.

Then conference officials would be obliged to nominate the team

likeliest to have a chance against the Oklahoma A. & M. Cowpokes, champions of the Missouri valley Conference. That would be Oklahoma, since the Sooners have beaten Nebraska twice this season and broken even in two games against Hank Iba's Cowpokes.

If Oklahoma loses to Colorado, then Nebraska, of course, would be the Big Seven champion. Next Monday night's clash in the municipal auditorium is a cinch to play to a full house of about 10,000 fans, no matter who plays the Ibas. The game will determine the district 5 entry in the NCAA western championships to be played here March 18-19.

Fred Robertson, 64 of Ozark, Mo., was killed and three other persons injured in a head-on collision on a steep hill on Highway 123, five miles south of Nixa.

J. C. Joslin, 85, Springfield, was killed instantly when his car struck a truck headon near Mount Vernon, Mo., last night.

Mrs. Fay Hendrix, 52, Fairview, Mich., and Mrs. Bessie Mae Fisher, 45, Pruet, Ill., were killed in an automobile mishap on highway 66 near Waynesville, Mo.

At the height of the storm last night, city police said as many as seven calls a minute were received at headquarters reporting minor collisions on slick streets.

A school bus full of children skidded off into a ditch on Highway 65, 12 miles north of here, but there was no injuries reported.

A highway patrolman radioed that his scout car and some 85 other vehicles were stuck near Cedar Gap, south of here. At the James River bridge approach on Highway 60, about 160 cars were stranded on the incline.

**SOPHOMORE SPOTLIGHT**  
The gleam of our spotlight stopped quickly when it hit on a black-headed, brown-eyed boy named Jimmy Spaulding. Jimmy is five feet seven and a half inches tall, and weighs one hundred and thirty-six pounds. We want to tell you some of the things this popular boy likes.  
First we shall take school for a subject and say that Jimmy's favorite teacher is Mr. Alexander, and he would rather study World History of anything. His pet peeve is Biology.

It's Not Fiddle-Fiddle

John Alpin Graydon, 72-year-old Ridgefield, N. J., inventor, scientist and philosopher, has developed this unique violin bow. It's actually four bows together, and can play all four strings at once. A noted violinist will soon use the bow on a radio broadcast.

Next on his list of favorites has to do with movies and music. We find that not only do girls like Montgomery Cliff as an actor, but boys do too, and Jimmy is one of them. For an actress he will take pretty Elizabeth Taylor, and for a show, "The Wake of the Red Witch". In music he likes "My Darling" by Buddy Clark.  
Everyone knows two things about Jimmy, and those are that Gene Griffin is his favorite girl and football is his favorite sport.

Other things we know about him are that blue is his favorite color, that his food is fried chicken, his favorite college is T. C. U. and oh boy!—does he like cherry sodas. Good luck Jimmy. You deserve it.

**JUNIOR SPOTLIGHT**

This week our spotlight discovered a new face in the hall of E. H. S. The face belongs to a new junior girl who hails from Gainsville. Her name is Barbara Bennett, and she has beautiful red hair, green eyes, is five feet seven inches tall and weighs one hundred and thirteen pounds.

To begin with we asked her favorites in the movie world. She had a hard time deciding, but finally picked Dane Clark as her favorite male star and Betty Grable for her female star. She has no favorite shows, but likes many of them very well.

Next we entered into the subject of music and found that "Far Away Places", that recent favorite, played by Harry James, orchestra is all right by her. Barbara herself plays a clarinet in our Maverick Band and does it well too. Although Barbara is now in

**Investigation Of Three Rivers Incident Opened**

THREE RIVERS, Tex. March 9 (UP)—A legislative committee today was to begin digging into a racial controversy which caused a Latin-American soldier to be buried in Arlington National Cemetery instead of in his home town. "We'll let the chips fall where they may," said Attorney Cecil Storey of Longview, head of the five-man House committee.

Storey said the investigation would be confined to charges that a Three Rivers funeral home director had been reluctant to accept the body of Felix Longoria, who was killed in the Philippines in World War II. He said the committee would accept only testimony which has a bearing on "things we are authorized to investigate by the House resolution."

Storey had a list of 20 witnesses who were expected to be subpoenaed. First witnesses were to be called shortly after 9 A. M., when the committee was to convene at the Three Rivers Rotary Club building. A court interpreter was on hand to translate testimony of the Spanish-speaking witnesses. Longoria's father and Doctor Hector Garcia of Corpus Christi, an official of the League of Latin American citizens, were expected to testify early in the proceedings. Deadline for the committee's report to the state legislature was March 15.

### TEXAS NEWS BRIEFS

By UNITED PRESS  
TYLER, March 10 (UP)— State legislators, now worrying about a \$22,000,000 income deficiency, will be asked to ponder an additional problem.

The city of Tyler will ask the lawmakers to help solve its downtown parking problem. Specifically, they will ask the legislature to pass a bill permitting the city to finance a proposed parking building by means other than a bond issue.

Tyler has suggested borrowing the money from a bank and repaying the loan with revenue received from the parking building.

COLLEGE STATION, March 10 (UP)—Boastful Texas could add another item to its list of "firsts" today.

State Highway Engineer D. C. Greer, speaking at Texas A. & M. College highway engineering short course, said Texas has built more miles of paved highways and farm-to-market roads since V-J day than any of the other 47 states.

Greer said Texas has completed 12,000 miles of paved highways and will pave 3,000 miles more soon.

WICHITA FALLS, March 10 (UP)—Authorities here today searched for two men who robbed a downtown liquor store of \$512 at gunpoint last night and left the manager locked in a rear toilet.

Elis Bonham, 36 year old manager of the establishment, said the government price support loans has more than offset lower prices, the department said.

The boost in marketings resulted from last fall's record high harvest. Furthermore, farmers who took government loans on crops got more cash that way than the current market price would bring them.

This was especially true for corn. The cash market price has been averaging little more than half as much as last year, the department said.

The department gave this estimate of January-March marketing receipts:

Livestock and products—\$3,800,000,000 (B) or slightly less than last year, with meat animal receipts about the same. Larger n...

pair entered the brightly lighted store and looted the cash register after locking him in the rear.

Bonham, who said the holdup men were armed with a sawed-off shotgun, escaped out the window of the toilet, but the man had already fled.

McALLEN, Tex. March 10 — Proposed legislation to give Rio Grande water priorities to lands under irrigation three years ago faced a stiff fight today from "Riparian" farmers who claim their rights were derived from old Spanish grants.

A bill sponsored by the Valley Water Conservation Association, would give water priorities to lands actually using water on the date of the U. S.-Mexican Water

### Missile Mystery

American authorities in Germany are baffled over the origin of four mysterious projectiles, which have landed and exploded in the same area, just east of Schweinfurt, since October, 1946. The last of the rocket- or jet-propelled missiles landed last Jan. 31, 1949, and eye-witnesses said it came from the northeast and had a 20-foot-long flaming tail. Experts have so far been unable to reconstruct the projectiles from the small bits recovered from the craters.

ODESSA, March 10 (UP)— The four-day annual Sand Hills Hereford Show opened today with a

showing of registered Herefords and club steers.

The show will end Saturday with the auctioning of prize stock.

Officials reported record entries of steers, calves, sheep, capons, quarter horses and other stock.

The federal government grades meat in four categories: choice, good, commercial and utility.

The Irish legislature passed a law in 1634 against the "cruel and common practice of plowing by fastening the plow to the tail of an ox or horse."

Chicago, (UP)— The best way to remove warts is to freeze them off. Dr. Herman V. Allington of Oakland, Calif., told a group of doctors here that the warts can be removed by simply swabbing them with liquid nitrogen. There is little pain and no scarring, Dr. Allington said. The warts disappear in about three weeks.

WASHINGTON, March 10 (UP)— Farm income is running higher

than last year, although farm prices are averaging about 10 per cent lower, the agriculture department reported today.

The department said farmers during the first quarter of 1949 probably will get \$330,000,000 (M) more from the sale of their products than they did in January-March, 1948. That's an increase of about five per cent.

R. H. Patterson No. 1 Brown near Desdemona drilling at 970 feet.

Skelley Oil Co. No. 1 Tompson near Cisco are still swabbing after the Mississippi test of a few days ago—they treated with 100 quarts of nitro the area from 4010 to 4120 feet.

Snowden Haynes and Kirk No.

Glover are making tests after periodic shutdowns attempting to gauge the gas pressure that they really do have. So far the gauge they had was not large enough to accurately show the full pressure according to Mr. L. Humphries who is here working with Homer Snowden in his interest in this well and also the wells on the Kinney Estate lease.

Commercial Production No. 2 E. L. Parks drilling at 1499 feet.

Commercial Production Co. No. 1 J. Smith drilling at 1850 feet.

National Cooperative Refinery Association No. 1 McFatter drilling at 2150 feet.

National Cooperative Refinery Association No. 2 Krell have decided that they will have to add more plastic and perhaps rework the plastic job, so the water evidently is still coming through some.

J. Parker drilling at 2650. They are nearing the place where they may begin to have gas shows any way.

A. W. Gregg No. 6 Philips have really had trouble. A pipe split on this operation. Then they had cement to plug in the hole. Now they think they may have to drill one about 1400 feet of this cement. One man told Mr. Simpson who is drill supt., for Gregg out here that he would be right on

that one job until this time next March without a letup. Drilling a cemented plug of any depth out is a job, but that size!

R. B. W. Oil Co. No. 1 Byrd are drilling at 165 in Sandy Lime. Skeeter and Curry are about down on their operation near Duster. They had some trouble with the first hole and had to skid the rig and begin again, but even so they are approaching the pay if and when.

## Million Dollar Plant Plans Out

TEXAS CITY, Tex., March 10 (UP) — "Indefinite suspension" of a planned \$1,000,000 building program at the Pan American Refining Corp. plant here was revealed today.

P. J. Sweeney, Pan-Am vice president, said the move was necessary because of "conditions in the oil industry."

The company had planned a new main office building and research laboratory facilities, and original work on the project started last summer. A portion of the foundation work has been completed and no workers were idled by the firm's decision.

**The Story Behind a "Special Edition"**

This is the news behind the news—the facts behind a vicious and unwarranted attack made upon the doctors of medicine of Texas, and slurring insinuations made against the honesty of your State Legislators. Here are the facts behind the paid "Special Edition," heavily financed by interests who are making an all-out attempt to cloud the one and only issue in the proposed Minimum Standards Law. That issue is: The Health of All Texans. The State Medical Association of Texas and your physician present these facts behind the news to help you decide whether or not Minimum Standards are needed in the practice of healing in Texas. We are convinced that they are needed for your protection.

An 8-page "Special Edition" appeared in the Houston Post on Feb. 28th. It was a paid "Special Edition," packed with misrepresentations. However, it was written to look like a real news section so that its misrepresentations might appear to be legitimate. It was an obvious attempt to smokescreen the merits of the Minimum Standards Bill, which already has been recommended for passage by Public Health Committees of both the Texas House and Senate.

**THESE ARE EXCERPTS FROM THIS CHIROPOIC NEWS LETTER WHICH WENT ONLY TO CHIROPOICISTS**

"The fire at Austin is real! Make no mistake about it! And it's going to take buckets and buckets of cold... liquid... cash to put the fire out."

"If the Naturopaths get their bill, and Chiropractors muff it, expect to see a lot of Chiropractic signs repainted... quick. Wonder where all this Naturopath money is coming from. There must be gold in them thar herbs."

"Many will be glad to send money to Austin to make it possible for our lobby to wrest victory from the threatening laws of defeat... if that money can be obtained from new patients. There's a bottom to the well, and new springs must be tapped to keep the bucket from coming up dry."

"He (the medical doctor) stands for everything good, fine and sincere in the mind of the average person. Of course, we know, in most cases, he's a scheming, conniving scoundrel, because we know him by his works."

"The average person does not know the medical doctor is an allopath. In fact, John Q. Public would have a difficult time explaining the difference between a homeopath, osteopath, naturopath, allopath or chiropractor. We can call the 'allopath' a scoundrel, gangster, fraud, cheat and hypocrite, and make it stick."

"We racketeers are made of the same material as the rest of the world. We racketeers must have our milk tin compet."

"Not only the Special Edition will be the maximum of misrepresentation, a confession."

**Nutrition Authority Speaks To Club Women**

"Women are the controlling factor on America's health," Mr. Carl Palmen told members of the Civic League and Garden Club at their meeting Wednesday afternoon at the Woman's Club, and proved it by facts a survey showed that women buy 85 per cent of everything in the world either directly or indirectly.

Mr. Palmen is a merchandising counselor and in his talk on Nutrition urged that more milk, cheese, and ice cream be added to the daily diet. "War's great lesson taught us that the American population get only one half of the necessary food elements in their diet," he said, "that one out of three men was rejected by the selective service during the recent war because of physical deficiency." The greatest deficiency proved to be lack of calcium. "During a recent survey facts proved," said

Palmen "the majority of women in America, the cooks of our country, could not name the functions of food. They are (1) to furnish energy, (2) to build and repair the body (3) to regulate body processes.

A question and answer period followed his discussion. The South Ward Choral Club, dressed in cowregalia, sang a group of songs under the direction of Mrs. Harold Durham, who also accompanied them on the piano.

Mrs. J. W. McClain was hostess and introduced the speaker. She announced that Mrs. Herbert Emory of Fort Worth will review a book in the High School auditorium, April 19, at 8 P. M. to which the public is invited. Present were Mesdames Earl Conner, T. E. Holmsley, Dave Fiensy, Don Parker, Billie Walters, Jr., Milburn S. Long, A. L. Murrell, Jack Frost, H. L. King, E. R. Townsend, Frank Day, Johnnie Hart, Harold Durham, B. O. Harrell, J. W. McClain and Mr. and Mrs. Johnnie Kilgore.
