Churchill Lays German Surrender Terms To FDR

SAYS COMMITMENT MADE WITHOUT HIS CONSENT

BY R. H. SHACKFORD
UNITED PRESS STAFF CORRESPONDENT
LONDON, July 21 (UP)—Winston Churchill placed on the late President Roosevelt today the full responsibility for the "unconditional surrender" policy regarding Germany, and admitted that the British cabinet would have rejected such a policy.

Mr. Roosevelt made the "unconditional surrender" statement at Casablanca without consulting him, the wartime prime minister told the House of Commons.

Churchill conceded that he had "not the slightest doubt" that the British government would have turned down the policy if the cabinet had been consulted in the matter.

The secrets of the Casablanca conference came out in commons debate on foreign policy, marked by an angry exchange between Churchill and Foreign Secretary Ernest Bevin.

Bevin sought to lodge a major share of blame for the sad state of affairs in Germany upon the "unconditional surrender" declaration of Churchill and Mr. Roosevelt.

Churchill interrupted Bevin to say:

"The first time I heard that phrase used was from the lips of President Roosevelt."

"I never heard it until I saw it in the press," Bevin retorted. "If it had ever been put to me as a member of your cabinet I would never have agreed to such a thing."

Churchill explained that he was with Mr. Roosevelt when the latter made the statement and "I had very rapidly to consider whether the state of our position in the world was such as to justify me in not giving support to it." He said he agreed, although it was not his idea.

Then he acknowledged that if it had been put up to the British cabinet for discussion, the cabinet would have rejected it.

Bevin had blamed "most of the shambles" of allied policy toward Germany which he inherited at the end of the war on the unconditional surrender statement.

It was then that Churchill disclosed that the statement was made by Mr. Roosevelt "without consultation with me," and he had to decide quickly whether to agree to it.

"I was there on the spot," Churchill said, referring to the joint press conference he held with Mr. Roosevelt at the end of the Casablanca conference.

He agreed to support it, he said, "but it was not the idea I had formed in my mind. I have not the slightest doubt that the British cabinet had they considered the phrase around the table, would have decided against it. But working in a great alliance we have to accommodate ourselves."

Suicide Verdict Returned In Ranger Shooting

A verdict of suicide was returned this morning by Justice of the Peace Charles Bobo in the death of James E. Roberts at his home, 316 Hunt Street, in Ranger.

On hearing the shot in the bedroom of his home, Mrs. Roberts investigated and upon finding the husband, called a physician. Police W. G. Pounds and Policemen Alired Ames were also summoned and investigated the shooting. The suicide was laid to despondency.

Funeral services were incomplete today, pending contact with relatives but interment will be in Desdemona cemetery. Killingsworth's is in charge of arrangements.

DR. SMUTNY FLEES FROM PRAGUE TO AMERICAN ZONE

FRANKFURT, Germany, July 21 (UP)—U. S. Army authorities said today that Dr. Jaromir Smutny, Chancellor of Czechoslovakia at the time of President Eduard Benes' death, has fled to the American zone of Germany.

Smutny was appointed chancellor to Benes in 1937. He fled to England with Benes when the Germans invaded Czechoslovakia. He returned to Prague after the war and resumed his duties as head of Benes' personal office.

They indicated Smutny was being interrogated by American intelligence officers.

Reputable Czech emigrants in the western zone said the former chancellor probably knows more about the inside story of the Communist group of Czechoslovakia than any other non-Communist Czech on this side of the Iron Curtain.

These sources said they believe Smutny could reveal details of the Communist seizure of power in Prague which are unknown to western intelligence agents.

Smutny was at Benes' bedside when the Czech president died shortly after the Communist group a year ago last February.

He also reportedly was in the same room when Benes gave notice to Klement Gottwald, then Communist premier of Czechoslovakia, that he was resigning.

Smutny later served as chancellor to Gottwald when Gottwald was elevated to president.

Snelling To Face Embezzling Of Red Cross Funds

SANTA FE, N. M., July 21 (UP)—Tracy Snelling, suspended as director of public information at the Los Alamos Atomic installation when he disappeared for a week, was expected to appear in federal court today on charges of embezzling Red Cross funds.

Snelling, 37, turned up at FBI headquarters in Dallas, Tex., yesterday, ending an intensive four-state search for him.

He was flown back last night in a plane chartered by the Atomic Energy Commission. He was hustled from the airport to the office of Los Alamos County District Attorney Bert Prince.

Prince said that Snelling gave him a lengthy statement but the prosecutor refused to divulge its contents. Snelling was lodged in city jail for the night pending his appearance today in district court on charges of embezzling \$1,008.96 from the Red Cross.

"Nothing to say," the tall, thin Snelling mumbled to newsmen as he was arrested on the embezzlement warrant at the airport.

He shielded his face from photographers and shook his head to all questions. A mustache he wore before his disappearance last week had been shaved off.

The embezzlement charges were filed against Snelling in Los Alamos County District Court yesterday by Prince after a complaint was lodged by Sam Musser, chairman of the Los Alamos Red Cross chapter.

Musser said Snelling failed to account for money collected as chairman of a fund-raising drive at the atomic installation last March.

Priest To Tell Of Kidnapping

BLACKWELL, Okla., July 21 (UP)—A Catholic priest leaves his hospital bed today to tell FBI agents how he was kidnapped from Wichita, Kan., by an ex-convict and forced to drive to Oklahoma.

The Rev. Frank N. Heyer, 31, told officers that the former convict, Arthur Andrew Hancock, held him up with a pistol Tuesday evening.

Heyer said his kidnaper pulled the gun from a sweater draped over his arm, asked him how much money he had on him, and then forced him to drive across the state line here.

The young priest said Hancock took his wallet at the north edge of Blackwell and then left the car after wiping his fingerprints off the doors, steering wheel and dashboard.

Police and federal agents captured Hancock in a hotel room yesterday. They found \$67 strapped to his wrist.

Hancock was taken to Ponca City, Okla., and charged with kidnapping under the Hindberg Law after Heyer identified him.

He was later removed to Oklahoma City.

Hancock was released from the Kansas State Prison at Lansing only 13 days ago. A pardon certificate found in his clothing showed he had served part of a one to five year term for grand larceny.

D. A. Bryce, chief FBI agent at Oklahoma City, said Hancock's record went back to when he was 16.

Legal Advice Sought In Parker County Licenses

AUSTIN, Tex., July 21 (UP)—State Highway Engineer Dewitt Greer said today his department will ask the attorney general for legal advice regarding charges that Parker County illegally issued some \$24,000 in license plates to out-of-county residents.

"The state and county," Greer said, "are seeking legal advice on the case."

Meanwhile, another avenue of settlement was kept open.

Fred Wemple, chairman of the Texas Highway Commission, told Parker County Judge Joe Dodson, in a telegram, that the commission would "be glad to give future consideration" to any "definite method by which it (Parker County) may discharge in full its financial obligations to the department"

This meant, Greer explained, that the county could pay to the commission the amount the state would have received if the license plates had been sold in the residents' counties.

Greer estimated that the sum "would be about half of the \$24,000."

The question arose, Greer said, when the commission discovered that Parker County apparently had been issuing plates to non-residents of the county in a "flagrant violation" of the law.

Issuance was made particularly, he said, to Fort Worth and Daland car owners. He explained that the practice drew off revenue which might normally go to the state.

After a certain amount in license plates had been raised by a county, Greer said, the state is cut in on revenue over that amount. Thus, he explained, the state shares in revenues mainly from larger counties such as those where Dallas and Fort Worth are located.

Father Coughlin Unable To Hold Murphy Rites

HARBOR BEACH, Mich., July 21 (UP)—Father Charles E. Coughlin, former Catholic radio lecturer, said today that a previous engagement would prevent him from delivering the funeral sermon of Supreme Court Justice Frank Murphy.

Coughlin came from his shrine of the Little Flower in Royal Oak yesterday to call on the Murphy family. He said he was sorry he could not officiate at the requiem high mass tomorrow for the hair-died bachelor jurist known as "the fighting liberal."

Murphy's brother, Recorder's Judge George Murphy, said he was still undecided whether the body of the former Michigan governor who died Tuesday would be taken to Detroit today to lie in state at city hall. Murphy said it depended on the health of his sister, Mrs. William Teahan.

The Murphy family had asked Coughlin to deliver the funeral address even though the militant priest had been one of the bitterest critics of the late President Roosevelt, one of Murphy's closest friends. Roosevelt appointed Murphy high commissioner of the Philippines, attorney general, and to the Supreme Court bench.

Singing Chick Likes Cowpoke Tunes The Best

(UP)—F. T. Barber, owner of BAYTOWN, Tex., July 21 of a Baytown feed store, laid claim today to a nine-day-old chick of notable talents.

Barber said the chick, discovered among 300 others, could whistle like a canary. He discovered the talented young chicken when he heard bird-like noise under the brooder and investigated.

According to Barber, the chick will not sing when it is too hot. In fact, it will sing only to radio accompaniment, preferably a radio playing hill-billy music.

While it will chirp a note or two when popular music is being played, it bottles up when it hears classical music, Barber said.

Ann York Given \$39,300 Damages

SAN ANTONIO, July 21 (UP)—Ann York, only member of her family to survive a rural ambush laid by Dr. Lloyd I. Ross two years ago, was awarded \$39,300 in damages by a Civil Court jury yesterday.

Of the judgment against Ross, approximately \$1800 will be used to pay hospital and doctor bills, Ann's attorney said. The 15-year old girl will benefit personally in

The jury's award to Ann was comprised of \$15,000 for the death of her father, \$7,500 for the death of her mother, and \$16,800 for personal injuries. The remainder was earmarked for hospital and doctor bills.

Dr. Ross was convicted and sentenced to die for the Quadraple slaying, but was adjudged insane last month in the same court at LaGrange where he heard his doom pronounced, October, 1947. Now confined at the Texas State Hospital for the Insane at Austin for a 30-day commitment period, Ross will face death in the

electric chair if he is adjudged sane at any time.

The jury yesterday held that Ross willfully shot to death the four persons on May 27, 1947. It also held, however, after some discussion, that the Harvard-born physician was insane at the time of the slayings.

Attorneys Charles Lieck, representing the York girl, said the conclusions were contradictory but he was confident the apparent

—ELECTRICALLY!

Either an electric refrigerator or an electric home freezer is an extremely valuable asset in any home but the combination of the two multiplies their individual benefits many times over.

For perishables which don't lend themselves to solid freezing—milk, eggs, beverages, left-overs, jellies and the like—an electric refrigerator is the complete answer to the food storage problem. For berries, fruits, meats, poultry, game birds and animals, vegetables and other important food items, the electric home freezer provides ample protection over long periods of time.

Together, these two—the electric refrigerator and the electric home freezer—form an unbeatable food-storing combination.
