WEDNESDAY, FEBRUARY 3, 1965

BOVINA, TEXAS

VOL. IX, NO. 31

WHITTLIN'

BY DOLPH MOTEN

When Harold Carpenter, the Oklahoma Lane Little League manager, starts talking about baseball, even early in February, surely spring and baseball season can't be far away.

And Harold was talking baseball this week. Maybe the warmth of the weather this winter has whetted his interest in the sport. He says he's had a couple of offers from people to sell his team, but that it isn't for sale and he left the impression it would be operated again in '65 just as it had been the past four years.

We didn't expect any changes, frankly, but it was good to hear him say that Oklahoma Lane boys' baseball teams were ready to get started again.

Also, down at Muleshoe the other day, they had a Little League baseball meeting to make plans for the summer's program.

Maybe we should get started on plans for Bovina.

Anyone want to volunteer to be Commissioner of Baseball in Bovina for the 1965 season?

The pay isn't much, but the satisfaction can be tremendous.

The job isn't a bad one, if you have the cooperation of about 100 men in the community who are ready, willing, and able to work plus the same devoted cooperation of about 200 women, including the mothers of the boys who play.

The players themselves, will bring about a minimum of problems, but they'll furnish the bulk of the satisfaction!

.....
Bovina High Basketball Coach Milt Fitts is in an unusual situation this year, it appears from here. He coaches both the Mustangs and the Fillies, and surely there's never been a greater contrast between two teams coached by the same man.

The Fillies were undefeated in district play at the beginning of this week to win the championship.

The Mustangs, on the other hand, were winless in district play until this week and have a good chance to end the season in the league cellar.

Fitts, who is outwardly an easy-going type coach, has an attitude which is admirable about both teams.

But certainly he has had to view the current basketball season with mixed emotions.

Our opinion is that the Mustangs will improve as the season, and the years, progress until they're once again a constant basketball threat as they were in the '50 and early '60's.

Prospects for the Fillies look bright, too, not only for this year, but for years to come as well.

.....
Back to the aforementioned Carpenter:

He's on the county historical committee and says if you know of any historical buildings to let him know. We understand the buildings will be appropriately marked and will be given deserving publicity because of their historical value.

From the standpoint of history, Parmer County is pretty much a new area, as we see it. At least, that's the case as far as buildings are concerned.

However, we greatly appreciate the efforts of the historical committee and the commissioner's court for allotting funds to be used by the committee.

.....
Sugar beets, which were grown here for the first time last year, came in for their share of conversation.

Since they were new here, most of the knowledge natives had about them came from other individuals or out of books.

Both the informed individuals and the books were wrong part of the time.

We've been especially interested in the beets from the standpoint of their value for cattle grazing purposes after they were dug.

Reports we've heard have varied all the way from tremendous gains in weight by

(Continued on page 2)

AT BOVINA--

New Post Office Site Announced

Plans to acquire a new post office building in Bovina were announced today by Postmaster General Gronouski.

The building will be located at the westernmost corner of the intersection of Avenue B and Second Street.

It will be constructed under the Department's Lease Construction Program, with the government's capital investment limited to postal equipment. While leased to the Government, the building will remain under private ownership and the owner will pay local real estate taxes. The property is presently owned by Mrs. Pearl Murray.

Plans and specifications for the new building, as well as bidding forms and other pertinent data, will be made available to prospective bidders at an early date, at which time the Department will advertise for bids. The site option will be assigned to the successful bidder, who will purchase the land, construct the building and lease it to the Department.

Postal space presently occupied by the Bovina Post Office will be available for other purposes when the new facility is ready for occupancy.

"The new building," Mr. Gronouski said, "is designed to

carry out the Post Office Department's objective of a more efficient postal service com-

bined with improved working conditions for our employees. President Johnson has asked us

to exercise frugality in conducting our governmental opera-

(Continued on page 2)

COMMUNITY-WIDE--

Church Census Slated Sunday

A community-wide church census is scheduled to be conducted Sunday afternoon.

Fall Hurts Mrs. Dixon

Mrs. John F. Dixon was injured in a fall at her home Tuesday morning of last week. She slipped on a small patch of ice on the driveway near the back door.

She was taken to Parmer County Hospital for treatment of a broken pelvis.

She is still hospitalized but was reported to be showing improvement the first of this week. It is not known how long she will remain in the hospital.

Workers from all churches in the community will cooperate in taking the church census, Don Stone, minister of Bovina Church of Christ, announces. Census headquarters will be First Baptist Church.

A crew of about 60 is expected to work on the project, Stone says.

Work will begin at 2:30. Census cards will be handed out to people attending church services in Bovina Sunday morning. Those who receive them will be asked to fill them out and leave them on the front doors of their homes. They will then be picked up by the census workers.

FOR MARCH OF DIMES--

Benefit Game Earns \$109

Bovina's March of Dimes fund for 1965 is \$109.75 richer following a benefit basketball game here Thursday night between Lions and Jaycees.

Admission to the game was a contribution to the March of Dimes fund.

"We were pleased with the large number of people who attended and the amounts they contributed," Sonny Spurlin, community chairman for the drive, commented.

Lions Club team won the game, 69-30. Paced by the sharpshooter of Erith Hawkins, Don Caldwell and Gary Cox, the Lions went ahead early and were in command of the game throughout.

Score by quarters was 17-5, 34-14, and 52-20.

Hawkins was high scorer in the game with 20. Caldwell made 14, Cox 13, Bobby Calaway eight and Don Cumpston six for the Lions.

Donnie Young paced the Jaycee scorers with seven. Kenneth Webb made six, Don Owens

five, Charles Haney five, Billy Whitcotton, Wyndol Davies and Glenn Hromas two each, and Bobby Holcomb one.

Other Jaycee players included Bob Filipot, Charles Smith, Spurlin, Alfred Moody, Vernon Colberth, Billy Johnson, John Gamble and Larry Webb.

Other Lions points were scored by Darrel Read, who made four, Troy Christian two and Dolph Moten two. Leon Grissom and Wendol Christian were also members of the Lions team.

The game was arranged between the two civic organizations to raise money for the March of Dimes.

Spurlin says plans now call for MOD containers, located in businesses in the community, to be picked up Wednesday of next week.

The drive ordinarily runs during the month of January, "but we got the containers out a few days late and will leave them until next week," Spurlin points out.

Considering Pay Raises For Teachers

Otis Spears, superintendent of Bovina Schools, favors the teacher pay increase proposed by Texas State Teachers Association rather than the plan announced by Governor John Connally.

Governor Connally proposes a teacher salary increase based on a 10-year period. The TSTA program would take effect in September of this year.

Teachers would get less money under the governor's program and school district would have to pay about 90 per cent of what they do get, explains Spears.

The governor's proposals are inadequate for the immediate and long-range needs of teachers, the TSTA believes.

School boards, which would have to raise most of the money under the governor's program, can raise money only by taxing local property while the state has man tax sources, Spears points out.

Both plans -- those proposed by the governor and the teachers association -- are currently being considered by the state legislature.

AT AMARILLO SHOW--

Eddi Corn Exhibits Reserve Champ Lamb

Eddi Corn, member of Bovina FFA, showed the reserve champion lamb in the Other Breeds class of the Amarillo Stock Show in Amarillo last week.

Also placing in the lamb division was Alan Carson with fourth place in the lightweight Hampshire class.

Jerry Roach had a fifth in the lightweight Other Breeds class. Lane Gober placed seventh in the heavyweight Hampshire class and Garry Beauchamp placed eighth in the same class.

Kregg Wilson took eighth place in the heavyweight Other Breeds class.

In the Southdown division, Lynn Murphy placed two lambs, one sixth and one seventh, in the lightweight class.

Billy Marshall had a 10th place in the lightweight Southdown class and Darrell Kirkpatrick placed 12th.

In the swine division of the show Mike Grissom place a lightweight Duroc seventh in a class of 60. He also placed eighth with his barrow in the lightweight Chesterwhite class.

Entering the livestock judging competition was a team composed of Lynn Murphy, Alan Carson and Darrell Kirkpatrick. They placed 12th in the over-all judging and third in the

cattle judging. There were 50 teams entered. The boys are freshmen and are coached by John Paul Jones, vo-ag instructor.

The only animal that was sold at the show was the lamb

shown by Beauchamp. He received 46¢ per pound for the lamb. Next stock show on the calendar for FFA members is the Friona show scheduled for March 6.

AT HART--

Mustangs Win Season's First

Bovina Fillies lost their district basketball game last (Tuesday) night with a 45-48 heartbreaker from the Hart lassies in a game played here.

Leading scorer for Coach Milt Fitts' girls was Judy Strawn with 20.

The Mustangs picked up their first win of the season with a 45-42 verdict over the Longhorns. Leading Pony scorers were Scotty Rundell with 14 and Roman Ramirez with 12.

The Fillies' record is now 6-1 in district. They must defeat Nazareth in a game here

Tuesday night and Lazbuddie the following Friday to clinch the championship.

.....
Playing Happy here Friday night, the Fillies picked up district win No. 6 against no losses with a 48-38 verdict over the Cowgirls.

The game was close most of the way, but the Bovina girls kept control of the lead. They led at the rest periods, 10-7, 20-13, and 32-27.

Lynn Looney was high point with 22. Sandra Patterson made 14 and Judy Strawn 12.

Seeing action on the guard end of the court were Tonya Ivy, who was fouled out in the third period, Linda Estes, Cathy Minyen, Brenda Pruitt and Connie Vaughn.

The Mustangs put up a better-than-expected fight against the Cowboys before accepting a 40-48 defeat.

They rallied in the last quarter to cut the margin of Happy's win down to the eight points. Jerry Roach was high scorer with nine, Roman Ramirez and

(Continued on page 2)

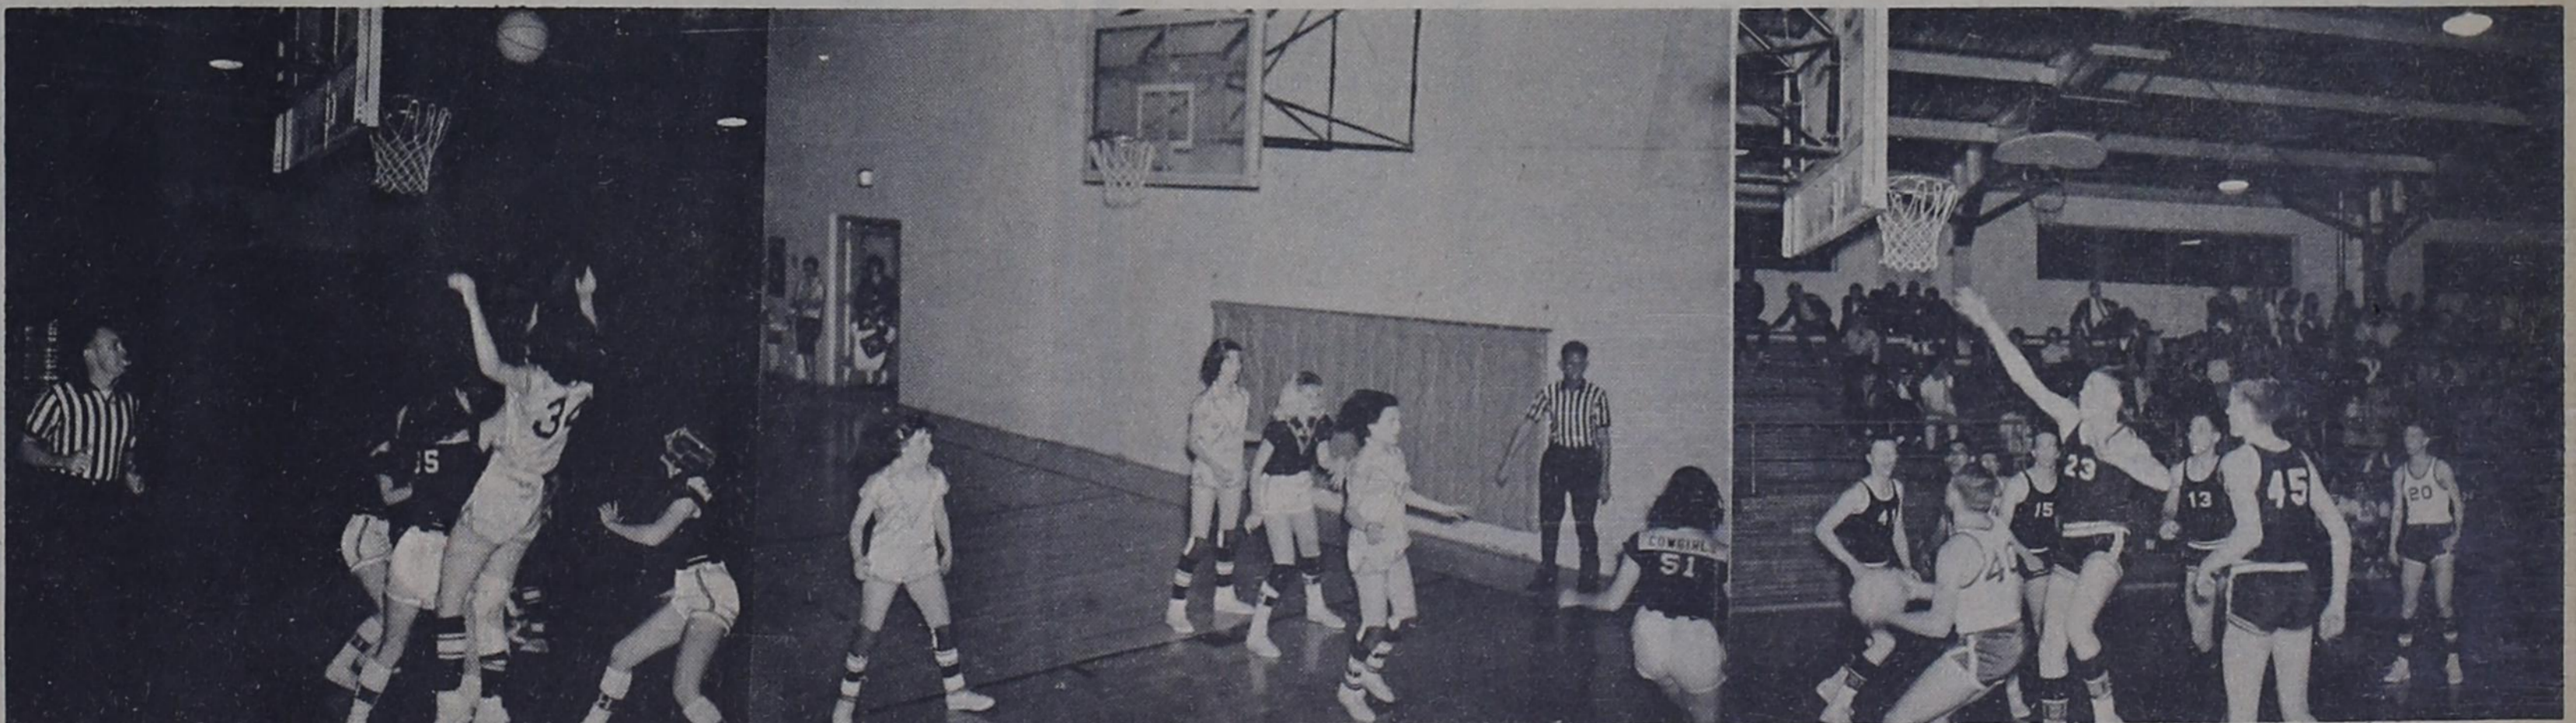

SCHOOL CROSSING -- Traffic signs have been erected in Bovina on Third Street and Highway 86 designating two block areas on each street as school crossing. The city has yet to install time clocks which will regulate the flashing lights during the times of the day students will be going to and from school. The signs proclaim a speed limit of 20 miles per hour in the areas. The school crossings zones are between Avenues D and F on Third Street and between Sixth and Eighth Streets on Highway 86.

Weather by Willie

Six more weeks of Winter. Chance for moisture by weekend.

Somewhere around the 15th of this month, we're going to have a whizzing. ---Willie

BASKETBALL ACTION -- Bovina High basketball teams are shown in action here during Friday night's games with Happy. At left, Lynn Looney, Fillies' forward is shown getting a jump shot away. In center, Fillies' guards, in light uniforms, are shown at work as a Cowgirl attempts to get into position

to shoot. Left to right are Linda Estes, Cathy Minyen and Tonya Ivy. At right, Gene Pruitt, No. 40 in white shirt, of the Mustangs, prepares for a shot. Preparing to get the rebound, on the other side of Pruitt are Roman Ramirez and Richard Carson. Scotty Rundell is No. 20 at right.

Party Honors Denise Clements

Denise Clements celebrated her 13th birthday Friday and her mother, Mrs. Jimmy Clements, hosted a party for her at their home. Several of Denise's friends spent the afternoon with her playing games and listening to records. The table decorations carried out the Valentine motif and the guests were served sandwiches, chips and dips, cokes, birthday cake and ice cream. The cake was white with pink rosebuds. Guests were Pam Grissom, Doris Corn, Suzanne Wilson, Candy Wilson, Nancy Mitchell, Krita Morris, Karen Bell, Buddy and Janie Clements and the honoree.

FOR SCHOOL, CITY ELECTIONS - -

Filing Deadlines 30 Days Away

Both City and school elections have been set for the early part of April, just two months away.

City election will be held on Tuesday, April 6. Place for the voting has not been set. Deadline for filing as candidate for council positions is March 6. This is just over four weeks from now.

There will be two vacancies filled in the April election. Those whose terms of office expire are Harry J. Charles and Jim Russell. Each man served a two-year term.

Members who will continue for another year include Boyd Gilreath, mayor, and Councilmen Mario Trevino, Tom Bonds and Lloyd Gober.

Voters may mark an absentee ballot for the election, if they so desire. Dates for voting absentee are March 17 through April 2. Absentee ballots may be obtained during this time at the city offices.

Candidates may file personally or names may be placed on the ballot by petition. In either case, filing must be done at the city office. There were no "hats in the ring", to date, according to Mrs. Ruth Martin, city secretary.

Election for school trustees will be held three days prior to the city election, Saturday, April 3. Balloting will be done at the school.

Board members whose terms expire are Johnnie Horn, Vernon Estes and J.W. Harris. Each of these men has served a three-year term.

Hold-over members of the

board are Don Murphy, Grady Sorley, Robert Read and Durward Bell. Murphy and Sorley have served two years of three-year terms, while Read and Bell are completing their first year of three year terms.

No names have been filed for the positions. They may be filed at the school tax office with Mrs. Pearl Dodson. Candidates may file their own name or a name may be placed on the bal-

lot by petition. Five names are required on each petition filed. Deadline for filing is 30 days prior to the election which would be March 4.

Absentee ballots may be cast in the election. This is also done with Mrs. Dodson, at the tax office. Dates for absentee

voting are March 14 through March 30.

Bible Quiz Feature Of Church Page

A new church page series begins in this week's issue of The Blade.

Sponsored by individuals and businesses in the community, the series a church cartoon, a weekly devotional by area pastors, a schedule of services at churches and a Bible quiz.

The Bible quiz, which is being handled by Don Stone, minister of Bovina Church of Christ who is in charge of the page, will offer religious books as prizes to monthly winners.

Details of the quiz are available on the church page.

Tire Stolen From Pickup

Theft of a wheel and tire from a pickup has been reported by Amos Steelman, according to a report from Bill Denney, city marshal.

The spare tire for Steelman's pickup was stolen while the vehicle was parked near Williford Gym during Friday night's basketball game.

The tire, a new mudgrip, is mounted on a blue wheel, Denney reports.

Representative Appointed To Committees

Representative Bill Clayton of Springlake was named to five standing committees in the Texas House of Representatives by Speaker Ben Barnes.

The Springlake Legislator will serve on the following: Aeronautics; Conservation and Reclamation; Municipal and Private Corporations; Public Health; State Affairs.

Barnes said: "Many hours of study have been devoted to the make-up of these committees and every effort has been made to place members on committees which will permit them to render service not only to the people in their district, but to the entire State as well. I enjoyed working with Mr. Clayton during the past session and look forward to working with him again in the days ahead."

Wish I'd Said THAT

"It takes work to develop science for the improvements we enjoy. Unless a man has to do more than he can do he will not do all that he can do." - Gordon Cooper, Lambertville (N. J.) Record.

"We spend so much time planning to give our children things we didn't have that we forget to see that they have at least some of the things we did have." - Elbert Forester, East Point (Ga.) Atlanta's Suburban Reporter.

"Junk is anything that lies around in your way for ten years and you throw it away two weeks before you need it." - Robert E. Lee, Woodward County (Okla.) Journal.

"Marriage may be inspired by music, soft words and perfume, but its security is manifest in work, consideration and well fried bacon." - Douglas Meador, Matador (Tex.) Tribune.

If you go through life with a clenched fist, nobody can ever put anything into it.

Some of the greatest bounces are the result of the fall that pride went before.

Whittlin'--

THIS PIPELINE WAS BUILT BY THE ROMANS AND SERVED FOR 2,000 YEARS. THIS PIPELINE IS EVEN MORE DEPENDABLE !! LOCK-SEAL GIFFORD-HILL-WESTERN

NEWSLETTER
From U. S. Senator
RALPH W. YARBOROUGH

Dear Fellow Texan:

For the first time in more than 20 years since the plan for medical care for the aged was first proposed to Congress, the chance for passage looks good.

I believe that whenever one party to a controversy has a commanding majority of votes, then that party has a special responsibility to be sure that it is in the right, in addition to being in the majority.

Under this test, there are compelling reasons for a pre-paid program of hospital insurance for the aged.

The advance of medical science has played a cruel trick on our older citizens, as a new pattern of living has emerged.

The life expectancy of the average American goes up each year. A person who attains his 65th birthday can reasonably expect to reach the 80th.

Our citizens live longer but retire sooner. In a time of advancing medical costs, they live on sharply reduced incomes. The years they most frequently must pay high medical bills are the years they can least afford them.

The best way to meet this new challenge is to create a pre-paid system of hospital insurance for the aged. It is a system in which one pays into a fund during his working years, so he may receive benefits from it after 65.

Benefits under S. 1, the Administration Bill, would include 60 days at a time of both inpatient hospital services and post-hospital extended care, home health services up to 240 visits a year, and outpatient hospital diagnostic services with a small deductible to be paid by the patient.

The program would be financed through a completely separate Hospital Insurance Trust Fund established in the Treasury. Allocations would be made to the fund in amounts equal to .3 of one per cent of earnings beginning in 1966 and increasing to .45% of one per cent in 1969 and thereafter. On the maximum wage base of \$5600 the most that an individual and his employer each would contribute to the fund would be \$25.20 a year.

To provide coverage for medical expenses not included in the plan, the bill authorizes the creation of an association of private insurance carriers to sell, on a non-profit basis, approved policies covering these additional health costs. This provision should be a real boon to the private insurance industry, in addition to fulfilling a necessary and valuable role supplementary to the main program.

Hearings begin soon, and all these provisions will be subjected to intense scrutiny. I'm confident that we will enact a sound program, responsive to the needs of our elderly citizens.

School Menu

Monday, February 8
Corn dogs, baked beans, cornbread and butter, half pint milk, orange halves.

Tuesday, February 9
Roman Holiday, English peas, sliced tomatoes, cornbread and butter, half pint milk, banana pudding.

Wednesday, February 10
Turkey and dressing, giblet gravy, cranberry sauce, green beans, hot rolls and butter, half pint milk, fruit jello.

Thursday, February 11
Barbeque burgers, buttered corn, cabbage slaw, pickles, half pint milk, rice pudding.

Friday, February 12
Red beans, potato salad, buttered spinach, cornbread and butter, half pint milk, peach halves.

New Member Joins Club

The young women's bridge group met Wednesday afternoon in the home of Mrs. L.E. Ford. They welcomed a new member into their club, Mrs. Jon Lin Riddle. They also had a visitor present, Mrs. Paul Holcomb. Mrs. Riddle was winner of high prize for the afternoon with Mrs. Scott Gober winning traveling prize.

Refreshments of sandwiches, relishes, pie, brownies, cakes and coffee were served.

Other members present were Mrs. Bob McMeans, Mrs. Glenn Hromas, Mrs. Nickle Foster and Mrs. Don Owens.

Junior Teams To Tourney This Weekend

Bovina's Junior High Basketball teams journeyed to Lazbuddie Thursday for a pair of district games.

Lazbuddie was victorious in both encounters, taking the girls' game, 29-6, and winning the boys 42-23.

High scorer for Bovina girls was Beth Hutto with four points. J.B. Taylor was high point maker in the boys game with 12.

In games played last Tuesday night at Hart, the girls lost 29-5, and the boys were defeated 40-18.

Starting lineup for the girls was Martha Adams, Beth Hutto and Jan Gromowsky at forward and Vickie Hawkins, Brenda Dilger and Linda Riley at guard.

Starting action for the boys team was Taylor, Jackie Hall, Tommy Spears, Johnie Hugh Horn and Rodney Murphy.

The girls record in district is now seven losses and no wins with the boys standing one win and six losses.

They have one remaining district game with Farwell, on February 11, to be played at Bovina. The district tournament is scheduled for February 18, 19 and 20 at Springlake.

The teams will take part in an invitational tournament this week-end at Springlake. They will play their opening games Thursday against Anton with the girls to play at 4:30 and the boys to follow at 5:45.

Ivy-Bartley Wedding Read In Denver City

Mr. And Mrs. Clyde Bartley

Miss Jeanne Ivy and Clyde Bartley were married in a ceremony Sunday, January 24, at 3 p. m., at the First Baptist Church in Denver City.

The bride is the daughter of Mr. and Mrs. Tony Ivy of Bovina and the groom is the son of Mr. and Mrs. W. F. Bartley of Muleshoe.

Officiating at the single ring rites was Rev. John M. Ferguson, pastor there and former pastor here.

The altar was centered with a bouquet of white roses flanked on either side by a basket of white gladiolas.

For her wedding, the bride chose a street length sheath of white boucle lined with taffeta, featuring a round neckline and wrist length fitted sleeves.

Her elbow length veil was double nylon net attached to a tier of pearls and crystal beads. She carried an arrangement of white carnations tied with pink ribbon and seed pearls atop a white Bible. A corsage from the arrangement was worn for the reception.

Carrying out tradition, the bride wore a string of pearls belonging to her grandmother, her veil was borrowed, she wore a pair of blue earrings belonging to Mrs. John Ferguson and her dress was something new.

Attending the bride as matron of honor was Mrs. Jim Russell of Bovina. She was attired in a pink double-knit suit accented with white accessories.

Jim Russell of Bovina served as best man.

Following the ceremony Mrs. John Ferguson hosted a reception in her home. The table was laid with a white lace linen cloth over pink. The centerpiece featured a bride and groom enhanced with white flowers and pink ribbon with pink candles on either side.

Wedding cookies and pink punch were served the guests by Mrs. Jim Russell and Mrs. A. L. Nuttall.

The bride is a graduate of Bovina High School and has been attending Texas Tech. The groom attended Muleshoe High School.

The couple will make their home in Lubbock where the groom is employed with the Engineering Department of Methodist Hospital.

Out of town guests were Mr. and Mrs. A. L. Nuttall and children and Mr. and Mrs. Jim Russell and daughters of Bovina and Mr. and Mrs. W. F. Bartley and Beverly of Muleshoe.

The most thoroughly wasted of all days is that on which one has not laughed.

4-H Clubs See Film

There were approximately 40 members present Monday night at the school auditorium for the monthly meeting of the 4-H Clubs.

Mike Beauchamp, president, presided over a short business session. Brenda Dyer, secretary, read the minutes and called the roll. They voted to change their meeting time from 7 p. m. to 7:30. The next meeting will be March 1.

Gary Cox, grade school principal, showed a film. It was titled "Don't Be A Litterbug."

Following the film the group gathered around the piano and sang a number of songs. They were accompanied by Mrs. Earle Hise.

They closed the meeting with refreshments of cokes and cookies.

Party Fetes 4-Year-Old

Buddy Hutto, four-year-old son of Mr. and Mrs. Ed Hutto, celebrated his birthday Wednesday afternoon when a group of his playmates gathered at his home to play.

The children played games and raced the miniature cars they were given as favors.

The circus theme was carried out and they were served ice cream cones sprinkled with candy confetti, birthday cake and orange punch. The cake was a replica of a clown.

Children present were Mike Wiseman, Roy Lee Stone, Clay Ford, Kyle Ray and Dana Harris, Nancy, Twila and Tammie Hutto and the honoree, Buddy Hutto.

Mrs. Wilson Hosts Bridge

Mrs. Bob Wilson hosted the Thursday afternoon bridge club last week at her home.

Mrs. A. M. Wilson was winner of the high prize with Mrs. Johnnie Horn winning low.

The hostess serving Chinese snacks and a frozen cranberry dessert with coffee and tea.

Others present were Mrs. Durward Bell, Mrs. Dean McCallum, Mrs. J. E. Sherrill, Mrs. Leon Grissom, Mrs. Jimmie Charles, Mrs. Jim Hemke, Mrs. Vernon Willard and Mrs. Jim Ware.

Charity Circle Meets Tuesday

Charity Circle of the WSCS met Tuesday in the parlor of Bovina Methodist Church.

The group continued its study of the book of Genesis which is being taught by Mrs. Vernon Willard. Mrs. Milt Fitts presided over a short business meeting.

Mrs. Jimmy Clements was hostess and she served the ladies pecan coffee cake and coffee.

Other members present were Mrs. Ralph Roming and Mrs. Oakley Stevenson.

Linda Johnston Worthy Advisor

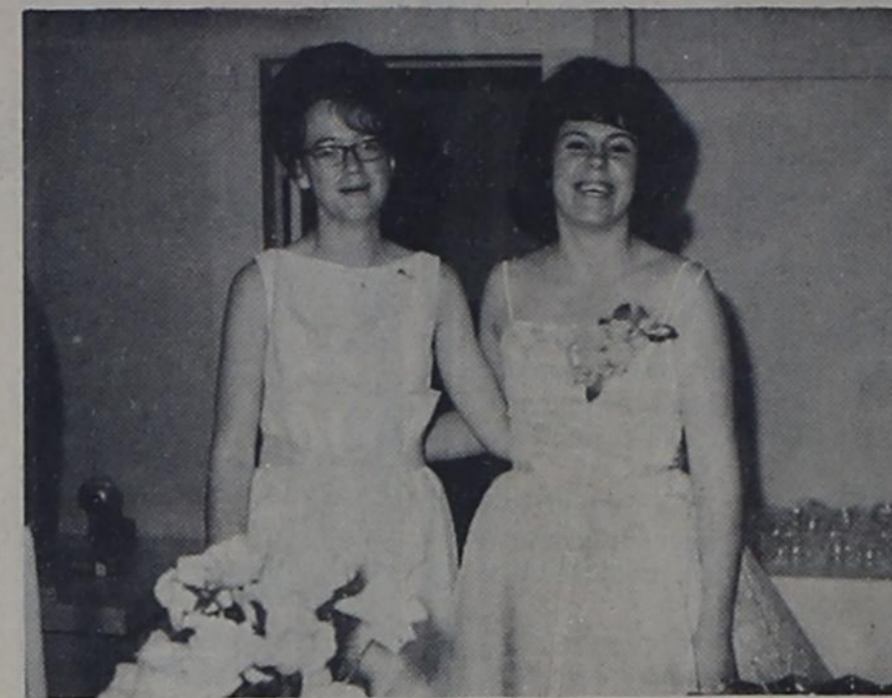

Miss Linda Johnston was installed Worthy Advisor of Rainbow Assembly 158 in formal installation ceremonies Saturday at the Masonic Hall.

Miss Johnston's colors were yellow and white with "Love" chosen as her theme.

Other officers installed were Worthy Associate Advisor, Brenda Dilger; Charity, Myrna Ritchie; Hope, Sheryl Lane; Faith, Teresa Page; Recorder, Martha Coffey; Treasurer, Linda Langston; Chaplain, Carmen Ward; Drill Leader, Melissa Pruitt; Love, Denise Clements; Religion, Karen Bell; Nature, Doris Corn; Immortality, Cindy Crump; Fidelity, Meredith Anderson; Patriotism, Carolyn Ward; Service, Kathy Estes; Confidential Observer, Pamela Grissom; Outer Observer, Nancy Mitchell; Choir, Camille Hobbs; Musician, Suzanne Wilson; Choir Director, Cathy Sikes.

Installed as Mother Advisor was Mary Jane Wilson. Advisory Board Members installed were Alma Ford, chairman, Harold Morris, Mary Morris, Julia Leake, Bonnie Ward, Lorina Brock, Harry J. Charles and Margaret Charles.

Installing Officer was Martha Coffey, Past Junior Worthy Advisor. Other installing officers were Linda Sudderth, Chaplain, Lorina Brock, Recorder, Harriett Lou Glasscock,

RAINBOW OFFICERS - Miss Martha Coffey, left, outgoing Worthy Advisor, and Miss Linda Johnston, recently installed Worthy Advisor.

Marshall and Leola Williams, organist.

Miss Johnston presented her parents, Mr. and Mrs. Bob Johnston, the Worthy Matron and Past Worthy Advisors.

Radford and Margaret Jo Venable presented a duet accompanied by Doris Wilson.

Rev. Harold Morris presented awards to Brenda Dilger, Teresa Page, Myrna Ritchie, Sheryl Lane, Karen Bell, Cindy Crump, Melissa Pruitt, Linda Johnston, Peggy Eason, Suzanne Wilson, Nancy Mitchell and

Denise Clements. Ero, Morris then gave the Benediction.

Jan Gromowsky presided at the guest book.

The serving table carried out Miss Johnston's colors with a white cloth centered with yellow roses and yellow candles. Rainbow cake and punch were served the guests by Miss Johnston and Miss Coffey.

Announce Lutheran Services

Holy Communion will be observed in the 10:30 service Sunday morning at St. John Lutheran Church, Lariat, according to the church's pastor, the Rev. Herbert F. Pelman.

The pastor's sermon for this "Transfiguration Sunday" will be "The Breath-taking Glory of God".

Liz Kaltwasser, president of the Lutheran Women's Missionary League, announces the regular monthly meeting of that organization for Thursday afternoon at 2:30. Frieda Ramm will lead the devotional and the educational topic. Her theme will be "A Closer Walk with God". Refreshments will be served by Evelyn Beal and Pat Haseloff.

Sides Return From Houston

Mr. and Mrs. Don Sides returned to their home Friday night from Houston where Don had been hospitalized at St. Luke's.

AT MEETING - -

Club Hears Panel Group

A panel discussion highlighted the afternoon Thursday, when Bovina Woman's Study Club met at the club house.

Taking part in the discussion were Don Stone, minister of the Church of Christ; Rev. Harold Harold Morris, pastor of Bovina Methodist Church; Rev. Ralph Aday, pastor of First Baptist Church; and Rev. Archie Cooper, pastor of the Pentecostal Holiness Church. Mrs. John Dixon served as moderator.

Subject for discussion by the panel was "Decisions of Our Supreme Court Concerning Prayer."

Following the program Mrs. A. E. Crump and Mrs. A. L.

Shower Honors Mrs. Bartley

Mrs. Clyde Bartley, the former Jeanne Ivy, was honored with a lingerie shower Thursday afternoon in the home of Miss June Gay Douglas.

Hosting the affair were Miss Douglas, Miss Patsy Lloyd, Miss Lynn Looney, Miss Linda Estes, Miss Elaine Fuller, and Miss Judy Strawn.

The serving table carried out her colors with a white lace cloth over pink and a centerpiece of an old-fashioned girl. The cake was white with pink roses and was served with mints, nuts and hot cranberry punch.

Other guests present were Miss Pam Webb, Miss June Webb, Miss Maurine Hammonds, Miss Patricia Crook, Miss Nellie B. Crook, Mrs. Phillip Lloyd, Mrs. Dickie Clayton and Mrs. Joe Tarter of Lazbuddie.

"And as we consider the awesome challenges confronting our world in the New Year just ahead, I think the less said about it the better . . ."

This Week's DEVOTIONAL

God's Remedy

If we say that we have no sin, we deceive ourselves. 1 John 1:8

When we pick up our newspaper, what do we read first, the headlines, the editorials, or the classified ads? Our youngsters probably head for the comic section. The men probably turn to the sports pages. The ladies undoubtedly read the advertisements to see what bargains are being featured at the stores. Maybe it is just as well that we stay away from the front page. Those headlines do not make very pleasant reading, do they? Are we surprised when we read of the wickedness of our world — of wars and rumors of wars, of nation striving against nation, and brother against brother? Are we shocked by the stories of prison riots and holdups, of divorce and drunkenness, and of juvenile crime and vandalism?

We need not be too surprised! You see, it is all a sordid tale of plain unvarnished sin. Of course, we would rather be lulled into the sleep of indifference with the chocolate-coated lie that every day in every way we are getting better and better. This sounds very nice, but it just is not true.

What shall we do? Where is the cure? Who has a remedy? Listen! God says: "Come now and let us reason together. Though your sins be as scarlet, they shall be as white as snow; though they be red like crimson, they shall be as wool."

H. F. PEIMAN, Pastor

BIBLE QUIZ

...by Don Stone

The high scorer in February wins:
A religious book; THE HEART OF THE NEW TESTAMENT by H. L. Hester (\$4.00 retail).
Mail your answers to Box 422.
(10 points each question)

1. Prophecy telling the birthplace of Christ. (Book, chapter and verse)
2. Name, tribe, and hometown of young man who killed the Philistine giant, Goliath.
3. The first baby born in the world, in the Genesis record, was _____.
4. The man whom God called to lead Israel out of Egyptian bondage was _____, whose name means _____.
5. When we hear the phrase "den of lions", we think of God's prophet, _____, whose name means _____.

Answers will be published in March.)
The whole answer must be correct to count. In case of ties, a drawing will determine the winner. Winner will be announced the first week of the month following. The first 5 runners-up will be listed.

LEGAL NOTICE

THE STATE OF TEXAS

TO: W. S. Merrill and Mrs. Cleo Merrill, and should either of them be married, then to their unknown husband or wife, and should either be deceased, then to their unknown heirs, assigns or legal representatives, a to THE CAPITOL FREEHOLD LAND TRUST, which operated under a Declaration of Trust dated December 23, 1933, and recorded in Volume 50, page 151, of the Deed Records of Parmer County, Texas, and to its unknown trustees, successors, assigns or legal representatives, Defendants, GREETING:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of the issuance of this citation, same being Monday the 8th day of March, 1965, at or before 10 o'clock A.M. Before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas. Said Plaintiff's Petition was filed in said Court on the 19th day of January, A.D. 1965, in this cause, numbered 2543 on the docket of said Court, and styled BOVINA WHEAT GROWERS, Inc. Plaintiff, vs W. S. Merrill et al, defendants, the names of the parties to the cause are as follows: BOVINA WHEAT GROWERS, Inc. is Plaintiff, and W. S. Merrill and Mrs. Cleo Merrill, and should either of them be married, then their unknown husband or wife, and should either be deceased, then their unknown heirs, assigns or legal representatives, and THE CAPITOL FREEHOLD LAND TRUST, which operated under a Declaration of Trust Dated December 23, 1933, recorded in Volume 50, page 151, of the Deed Records of Parmer County, Texas, and its unknown trustees, successors, assigns or legal representatives, are defendants.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff is suing in trespass to try title to recover title to and possession of lots 8, 9 and 10, of Block 33, of the Original Town of Bovina, Parmer County, Texas, and in the alternative pleads and invokes the 19 year statute of limitations as applied to land titles in the State of Texas, and seeks to establish a lost deed from defendant The Capitol Freehold Land Trust to Cash Richards dated about 1940 conveying lot 8 above described, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

ISSUED and given under my hand and the Seal of said Court, at Office in Farwell, Texas, this 19th day of January, A.D. 1965.
Dorothy Quickel
Clerk, District Court, Parmer County, Texas.
Endorsed:
No. 2543, in District Court, BOVINA WHEAT GROWERS, INC. vs W. S. Merrill, et al. CITATION BY PUBLICATION. Issued this 19th day of January, A.D. 1965.
Dorothy Quickel Clerk.

FU Slates Series Of Meetings

Members and prospective members are invited to a series of three meetings this month, announces Travis Dyer, county president.

First of the sessions is Monday night at 7:30 in Bovina Restaurant.

Thursday noon of next week, February 11, State President Jay Naman will be in the county to discuss the 1965 cotton program. That meeting will also be in Bovina Restaurant.

Farmers Union annual meeting is scheduled for Monday, February 22, in Hub Community Building. New officers will be elected at that time, Dyer points out.

Party Honors Jana Rogers

Jana Rogers was honored with a surprise birthday party at her home Saturday. The guests helped her celebrate her eighth birthday.

They were served sandwiches, Kool-ade, cake and ice cream by the honoree's mother, Mrs. Jerry Rogers. The birthday cake was red and white and shaped in the form of a heart.

During the afternoon the children played games and were given favors of jacks and balls.

Attending the party were Rita Nuttall, Rhonda Nuttall, Susan Lance, Cissy Minter, Darla Hawkins, Michelle Bonds, Joni and Jana Rogers. Mothers attending were Margaret Minter and Lou Nuttall.

A hillbilly grandfather was laboriously writing a letter. "Lucifer," he said, "how do you spell 'rat'?" "That's easy, Grandpaw," replied Lucifer, "R-A-T." "Now, I don't mean mousey rat, I mean rat now."

Wanting to work is so rare a merit that it should be encouraged.

SAVE 10% with GULF

WARRENGAS

Save up to 10% OR MORE... on tractor fuel and upkeep costs

REDUCE TOTAL TRACTOR COSTS. Save money with Gulf-Warregas® fuel over diesel, the so-called economy fuel—and over gasoline, too. Consider all costs.

SLASH REPAIR AND UPKEEP COSTS. Cut these costs about one-third with Gulf-Warregas, compared with gasoline engines. Save more than \$100 a year for 1000 hours of use with a 4-pow tractor.

FEWER OIL AND FILTER CHANGES. You go three times as long as diesels and one and one half times as long as gasoline engines between changes. Spark plugs last longer—no foul-up due to fuel residues.

Gulf-Warregas® is the LP-Gas member of the Gulf family of quality petroleum products.

OUR PROMISE! You'll have better living and better farming with Gulf-Warregas.

Chemical Weed Control Meeting Next Monday

The latest herbicide recommendations for crops grown in Parmer County will be discussed Monday afternoon, February 8 at 1:30 in the Hub Community Center.

The County-wide meeting is sponsored by the Commodity and Weed Committees of the

Program Building Committee. "Every farmer should attend this important meeting," reports Joe VanZandt, Parmer county agent.

Dr. Allen Wiese, Agronomist in Weed Control, at the Southwestern Great Plains Research Center at Bushland, will be the main speaker on the afternoon program. Wiese is well known for his work in weed control research and has presented several programs in Parmer County previously.

Holly Sugar Corporation will have a representative at the meeting to discuss weed control in Sugar Beets for this year.

"If you have questions about weed control chemicals such as soil residues, results you can expect, rates, methods of application or others, make plans to attend this meeting," stresses VanZandt. Dr. Wiese should be able to give everyone a good reliable report on the various herbicides that are on the market.

Herbicide dealers are invited to set up displays on the weed chemicals they are handling. This will enable the farmers in attendance to read leaflets on the chemicals available and discuss their weed control situation with the herbicide dealers.

We were fortunate in getting Dr. Wiese scheduled for this meeting in early February as he has been busy getting his recommendations together. We believe this meeting on February 8 is the first county meeting Wiese will hold for 1965, according to VanZandt.

Herbicides can help to our farmers this year, especially since our labor situation looks doubtful.

However, everyone must use caution in applying herbicides and know what results to expect and if any residues will be left in the soil after this year's crop is removed. With the use of some chemicals you sure have to plan for next year's crop now.

DR. ALLEN WIESE

Buy Registered Milking Shorthorns

The sale of three registered milking shorthorns have been announced by the American Milking Shorthorn Society of Springfield, Mo. The cattle were all purchased from F. E. Kepley of Farwell.

Animals sold by Kepley were a polled senior yearling bull, Red Improver P312477 to Andrew H. Wilson, Friona; two heifer calves, a bull calf and a two year old bull to John Hadley, Texico and a bull calf, Victor's Bud P316253 to Eddie B. Smith of Farwell.

Transfer of ownership was made recently by the American Milking Shorthorn Society.

THE HIGH PLAINS FARM AND HOME

Cotton Outlook Due In Lubbock

The outlook for U. S. cotton will be presented at Lubbock during the first session of the annual Western Cotton Production Conference, March 2-3.

Dr. M. K. Horne, Jr., chief economist for the National Cotton Council, will discuss current domestic and export programs and analyze cotton's competitive situation.

The two-day conference, oriented specifically for the Western growers, will convene at the KoKo Palace. General chairman is Roy Forkner, president of Plains Cotton Growers, Inc., Lubbock.

Dr. G. A. Niles, associate professor at Texas A & M University, will discuss cotton quality with particular emphasis on the High Plains. Dr. Niles also will deal with staple length and its relationship to varieties planted, the quality in terms of fiber properties and spinning performance of leading High Plains varieties.

Farm Management Specialist John J. Seibert, Texas Tech, Lubbock, will discuss the use of electronic systems for production cost analysis, going into its potential in assisting cotton producers to define their production costs in more accurate detail. This program, he will point out, has definite advantages in pinpointing areas where costs can be reduced.

DT - E. M. Rushing - Fed. Land Bank - Part NE/4 Sect 2 & part NW/4 Sect 1 T3S R3E.

James S. Parker of Plains Cotton Growers, Inc., will outline mill quality requirements in years ahead, discussing changing mill technology, chemical finishing, blends, and synthetic competition.

The conference is sponsored jointly by the Southwest Five-State Cotton Growers Association and the National Cotton Council. Local host will be Plains Cotton Growers, Inc.

Cooperating in the meeting will be the agricultural chemicals industry, U. S. Department of Agriculture, Arizona Cotton Growers Association, El Paso Valley Cotton Association, Western Cotton Growers Association, land-grant colleges, vocational agriculture and farm organizations.

The conference is open to anyone interested in cotton. There are no registration fees.

AMMO NOTES

By W. F. "Bill" Bennett
Agronomist
Western Ammonia Corporation

Wheat topdressing time is just around the corner. This week I am listing some guidelines on need, rates, sources and time of application.

Whether nitrogen topdressing is needed will depend on the amount of ammonia applied last fall and whether the wheat has been grazed. A general rule of thumb on rate is a total of around 80# N per acre on ungrazed wheat for moderate yields. Where grazing is done, a total of about 120# N is needed for moderate yields. This means that if 100# ammonia were applied prior to seeding, additional nitrogen would not be needed if the wheat was not grazed. If wheat were grazed, an additional 40# N should be topdressed. If growth of wheat was exceptionally good and if grazed heavily, a higher rate could be profitably used. Or if you are shooting for higher yields, say 50 to 60 bushels, more topdressed nitrogen should be profitable.

There are several sources of nitrogen available. Commonly used sources are ammonium nitrate, ammonium sulphate, urea, nitrogen solutions and ammonium nitrate-phosphate (30-10-0). Applicators are now available for applying ammonia without hurting the wheat. Any one of these sources are satisfactory. Ammonium nitrate will give the quickest response because of the nitrate form. Most nitrogen solutions contain some nitrate nitrogen and some urea nitrogen. Slight losses of nitrogen can occur from urea under certain conditions. I'll

discuss this and other nitrogen losses next week. The 30-10-0 is a good source where phosphorus might be needed.

Time of application will depend on our season. One guideline is that nitrogen topdressing should be done by the time plants start to joint in the spring. It can be applied any time if wheat is not grazed or after cattle are removed. A general deadline for nitrogen topdressing is March 1. It is still possible to topdress after March 1 but only under special conditions.

The low price of wheat will cause many to have a question about profits from topdressing wheat. The answer is profits obviously depends on need for nitrogen and increases in yield. If needed, 40 to 50# N can give an extra 6 to 12 bushels. This is a good return. If you can afford to grow wheat, you can afford to topdress nitrogen if sufficient ammonia was not applied last fall.

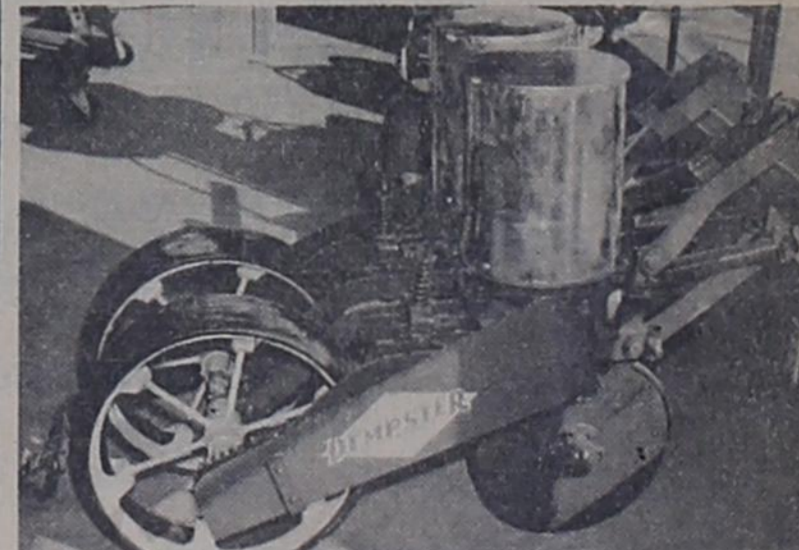

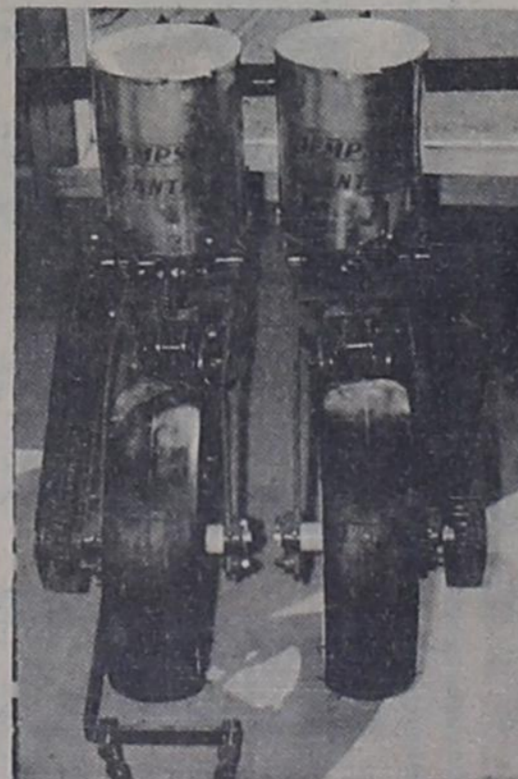

She: "I cook and bake for you day after day and what do I get? --nothing!"
He: "You're lucky. I get indigestion."

On The Farm In Farmer County

By JOE VAN ZANDT
County Agent

BUG ANTI-FREEZE
Some bugs make their own anti-freeze! That's why cold weather doesn't kill many bothersome pests. When temperatures rise, they're ready to start giving you trouble again.

Although sub-freezing temperatures slow down insect activity, nature provides many pests with ways of beating cold. Some manufacture their own glycerol, an effective anti-freeze similar to the product made by man for the same purpose.

When temperatures drop below the freezing point, these insects -- by some process not yet fully understood -- gradually adjust to it. The glycerol they manufacture gives them the hardiness to withstand all but the most extreme cold weather. Among the insects that can make their own anti-freeze are certain species of ants, beetles, aphids, cankerworms, and flies.

Nature gives another protection from the cold, too. Most go through a metamorphosis

which includes a dormant period when they are completely inactive. If insects stay dormant -- in the pupal or larval stage -- during the winter, they often survive the cold weather. Some insects have been found frozen in solid ice and thawed to full activity.

Animal pests can withstand extreme cold, too. Mice simply grow thicker fur. Many species of squirrels and other warm-blooded animals hibernate when the mercury drops.

Insect and animal pests, like man, have learned to live with their surroundings. Very cold weather rarely controls these pests effectively.

WEED CHEMICAL MEETING

Everyone should plan to attend the herbicide meeting, Monday, February 8 in the Hub Community Center starting at 1:30 p. m.

Dr. Allen Wiese will bring us all up-to-date on the latest recommendations for chemical weed control on our major Farmer County crops.

Holly Sugar Corporation will also have a representative to discuss weed control in sugar beets as a part of the afternoon's program.

If you have any questions about weed control, Monday afternoon, at Hub, is the time and place to get them answered.

TERMITE DANGER

Metal shields, as installed, are ineffective in protecting homes and other structures from termite attacks. Recent studies have shown that metal shields are ineffective usually due to installation faults.

Inspection of crawl spaces of 310 homes in Georgia revealed nearly 1,500 installation defects, all sufficient to allow an avenue of entry for termites. Most important, not a single home had properly installed metal shields. Several of the homes contained evidence of termite activity. In some instances, these insects will actually bypass the shields to attack the wood structure.

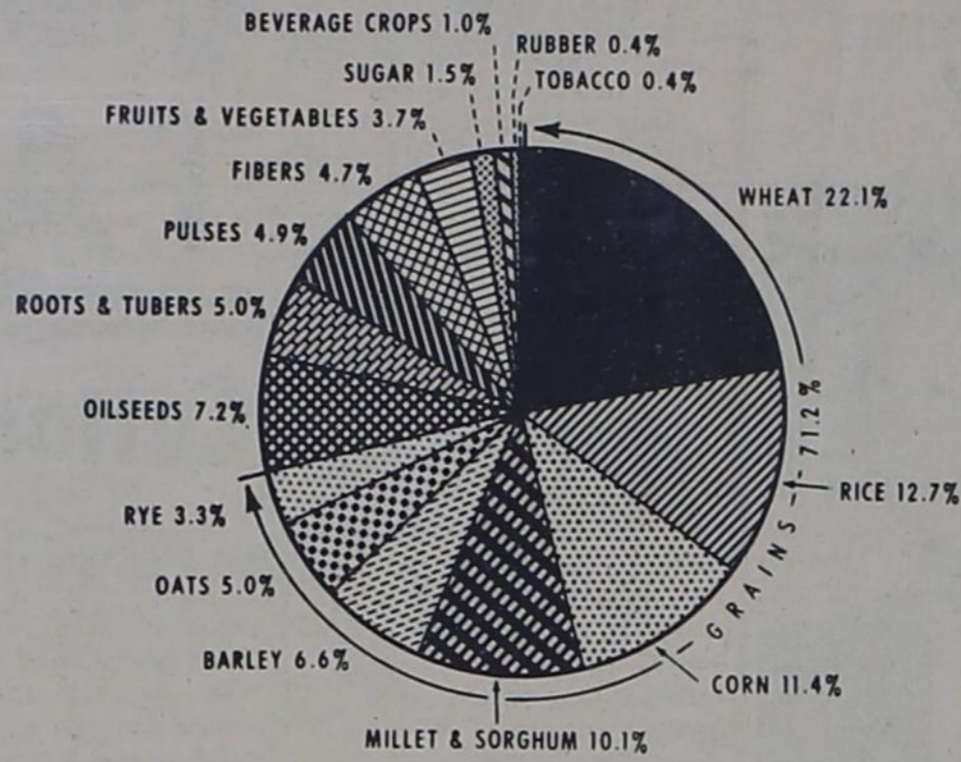

A better method than metal shields for termite protection is chemical treatment of the soil. Several good chemicals such as chlordane and dieldrin are available for this purpose. They should be applied to the soil prior to construction, or if need be, in trenches adjacent to foundations after the building is completed.

Also, wooden sills and joists in contact with concrete should be treated with chemical preservatives for added protection.

Further information on protecting homes and other structures from termite attacks may be found in Home and Garden Bulletin No. 64, "Subterranean Termites, Their Prevention and Control in Buildings." A copy

WORLD HARVESTED AREA OF PRINCIPAL CROPS

Excluding Forage and Fodder Crops

U. S. DEPARTMENT OF AGRICULTURE NEG. ERS 2235-63 (8) ECONOMIC RESEARCH SERVICE

of this publication may be obtained at the County Agent's office, in the Courthouse, AGRICULTURAL CHEMICALS CONFERENCE In the Union Building on the Tech Campus in Lubbock on February 11 and 12, an Agricultural Chemicals Conference will be held.

This two day conference will cover herbicide research, fertilizer research and usage, business management, pesticide residues, entomology developments. It has been planned primarily for Agricultural Chemical dealers, distributors, processors and manufacturers, but is open to anyone interested in chemicals.

Sign-Up Programs Begin Next Week

The sign-up for the 1965 feed grain and cotton programs will begin February 8 and will last until March 26, 1965. At this time, also, a farmer may change his intentions under the wheat stabilization program.

Small cotton farms (those with original allotments of 15.0 acres or less) will not need to sign up for domestic cotton payments. Farmers with 15.0 acres or more of cotton will need to sign up to plant their domestic allotments and re-

ceive their payments, say Prentice Mills, officer manager.

4-H Horse Program

A 4-H Horse program for Farmer County was started on January 26. Eight 4-H leaders from over the county met in Bovina and made plans for 4-H Horse project groups in each community area of the County.

Those in attendance at the meeting where plans for a County 4-H Horse Program were made included: from Bovina, C.E. Trimble, Robert Read and Jess Walling; from Farwell, Pike Jordan and Mitz Walling; from Friona, Homer Linderman and from Lazbuddie, Jack Templar and Jack Smith.

The 4-H Horse Program is open to any boy and girl, age 9 to 19, who wants to join a 4-H Club and have a horse project. 4-H members with horse projects can expect to learn;

safety, breeding, feeding, care, training and showing of horses and other interesting Horse activities. A County-wide 4-H Horse Show is planned for around June. Winners in the County Show will be eligible to compete in a District Show.

If you want to learn more about Horses and the 4-H program, write your name, address and phone number on a card and send it to the Farmer County Agent, Box 285, Farwell, Texas. You should do this immediately as the horse groups want to get started with their edu-

cational and training meetings real soon. If the County Agent has your name, you can be assured of getting in on the first of the horse project meeting.

Texas farmers and ranchers received \$254.7 million during last November from the sale of all crops, livestock and poultry products, according to the Texas Crop and Livestock Reporting Service. Cash receipts for all marketings were down 18 per cent from Nov. 1963. The total cash receipts came from crop sales of \$166.1 million and livestock and livestock products sales of \$88.6 million.

Five men lived for a month in 1963 in a shelter 36 feet below the surface of the Red Sea.

If You Have FARM MACHINERY TO SELL Call Big Nick Trienen at Machinery Supply Highway 60 Bovina Phone 238-4861

Wheat Carryover Declines Again

The third decline in as many years was registered in the wheat carryover on July 1, 1964. This decline, explains John G. McHaney, Extension economist of Texas A&M University, is the result of the special acreage diversion programs and the high levels of exports during recent years.

However, the expected carryover on July 1, 1965, should amount to about 901 million bushels. This would about equal the 1964 carryover on the same date.

McHaney said the domestic use of wheat during the current

1964-65 marketing year should be around 615 million bushels, somewhat above the five year average. The use of wheat for feed in 1964-65 will account for most of the expected increase, he said.

Exports of wheat and flour in the 1964-65 season is expected to be around 1.5 billion bushels.

What Goes Down The Drain With Irrigation Tailwater

What losses does a farmer experience when he allows irrigation tailwater to escape from his farm?

One definite loss, discovered from tests conducted by the High Plains Water District, was the loss of fertilizer.

A number of irrigation tailwater samples was collected and analyzed to determine if any beneficial chemical compounds were being lost.

The analysis indicated that beneficial quantities of nitrate nitrogen were being lost in samples examined.

The average, of the samples tested, revealed that approximately 30 pounds of nitrate nitrogen were being lost per acre foot of water. Other primary elements discovered to be lost in an acre foot of tailwater were calcium, 145 pounds and magnesium, 188 pounds.

The value of fertilizer lost in irrigation tailwater is estimated at 5-1/2¢ per pound plus 1¢ for application cost. It would cost approximately \$1.95 to replace to the soil nitrogen lost in an acre foot of tailwater. (Anhydrous ammonia is normally 82% pure, so it would take 122 pounds for each

100 pounds of pure nitrogen.) By re-circulating the tailwater, much of this nitrogen is left in the soil.

(Continued from page 2)

pected to total about 675 million bushels, considerably below the record 860 million bushels in 1963-64, but still above the average. Crop prospects in Europe and the Soviet Union are up from last year and the world wheat crop is expected to set a record. This will give U. S. wheat increased competition in 1964-65.

Based upon the present supply and demand outlook for the cereal grain often referred to as the 'staff-of-life,' McHaney believes prices to farmers during the current crop year 1964-65, will be near the national average price support loan rate of \$1.30 per bushel. The national average price support loan rate for the 1965 crop will be \$1.25 per bushel.

The Texas Safety Association warns hunters that "gunpowder and alcohol don't mix." Hunting while under the influence of alcoholic beverages is extremely dangerous. Two drinks can reduce visual acuity as much as wearing dark glasses at night. Drinking also affects your judgement, balance and reflexes.

CHANGING WORLD BRINGS NEW PROBLEMS

We are living in a world of wonderful time-saving, convenient and beautiful household equipment. Every homemaker has or dreams of having some of these "push-button" conveniences. The highly competitive advertising, the many companies, and many models by each company make the selection of appliances and equipment difficult and can be a problem to the average homemaker.

Consumer information about products and appliances can save the homemaker time, money, and dissatisfaction. Knowledge of what is available, how to choose the product to fit individual needs in relation to resources, and most important is how to use the product correctly, whether its an automatic dishwasher or household cleaning agents.

Programs on consumer information for homemakers are made available through the

County Extension programs available to all homemaker groups and Home Demonstration Clubs. Home Economics is no longer just "Cooking and Sewing" but with new products, new materials, and a change in family living pattern the emphasis is placed upon broader programs to meet today's need. For instance, clothing today's family does not mean just learning to construct clothing, in fact a much greater part of our clothing is bought ready made than made at home. Broader programs are included in County Extension Programs. They may include, selection of clothing for good appearance (includes line and design for various figures), spending the clothing dollar to meet needs of all family members, and alteration of ready made dresses and many other programs which Mrs. Homemaker can benefit.

QUESTION OF THE WEEK:
Why do my clothes look yellow? I use bleach and it does not seem to help.

ANSWER:
There can be several reasons for this. First, when do you add bleach? If bleach is added at same time that detergent is added - neither the detergent nor the bleach have any effect on the cleanability of the clothes. The detergent should be given time to do its work, (at least 5 or 6 minutes) before adding the bleach. Second, do you use one detergent one time and another brand another

1964 WATER WELL DRILLING STATISTICS

1964 proved to be the most active year for drilling irrigation wells in the High Plains Water District since 1957. An unusually dry year has contributed greatly to the increased activity during the past year.

1,985 new wells were drilled within the district as compared to 2,137 in 1957. The record number of new wells recorded by the district since its existence was in 1955 when 3,998 wells were registered with the district.

During 1964 there were 109 replacement wells drilled, 93 wells were drilled that were dry holes or non-productive for other reasons.

Listed below by counties are the 1964 drilling statistics for the High Plains Underground Water District.

County	New Permits	New Wells Drilled	Replacement Wells	Dry Holes
Armstrong	18	20	0	0
Bailey	98	112	10	13
Castro	252	221	11	11
Cochran	86	71	1	4
Deaf Smith	372	296	10	3
Floyd	262	262	8	5
Hockley	291	211	1	6
Lamb	227	173	23	4
Lubbock	414	248	16	25
Lynn	122	82	0	4
Parmer	262	209	28	2
Potter	1	2	0	0
Randall	121	84	1	16

What does the future hold? Permits rolling into the county offices during January indicate 1965 may be the largest year for well development in the District. The district has 22,669 wells recorded in the offices of the High Plains Water District.

time? There is sometimes a build-up of detergent in clothes, and mixing detergents cuts down on the effectiveness. If this is your condition now, try this: "Strip" your clothes of the build up of residue by using 1/2 to 3/4 cup of water softener in the machine (the amount depends on size of machine) using hot water, let clothes go thru cycle. Most usually they are clean when cycle is completed and no soap or detergent was used. After this, select a brand of detergent and stay with it, using it in the right amount (measure, please do) and your clothes should take on a brighter look. Never mix detergents, they will not work together.

What is your question? Send to the County Extension Office, Home Dem. Agent, in Farwell Courthouse. It will be answered in the next column.

Per capita food consumption in 1964 was about one per cent above a year earlier, says Mrs. Gwen Clyatt, Extension consumer marketing specialist. The increase was due largely to sizable increases in consumption of beef, turkey and fresh fruits -- particularly apples and citrus.

THIS PIPELINE WAS BUILT BY THE ROMANS AND SERVED FOR 2,000 YEARS

This photo, from the Smithsonian Institute in Washington D. C., shows a section of the original aqueduct that served the water needs of the conquered city of Cologne, Germany. It was constructed in 80 A.D. by the engineers of Fabius Sabinus Titus, Emperor of Rome. The aqueduct extended 56 miles underground between Cologne, and Eiffel and served as the main artery for the Cologne water supply until the late 1920's.

THIS PIPELINE IS EVEN MORE DEPENDABLE !!

Because of modern materials and manufacturing techniques, Gifford-Hill-Western's LOCK-SEAL provides an even more dependable underground pipeline. The close tolerance design makes the pipe more suitable, and joint flexibility eliminates the effects of expansion and contraction due to soil conditions and temperatures. By combining a superior product with modern day design and installation know-how, you have an underground irrigation system that serves dependably year after year... generation after generation. LOCK-SEAL is the product, Gifford-Hill-Western is the Company.

Sterile Fly Drops Discontinued In Texas

Sterile screwworm flies, which have been released by the billions during the three years of the campaign against the costly livestock pest has been in existence, are no longer being dispersed in the United States, but instead are virtually all being air-dropped in northern Mexico.

No sterile flies will be released in Texas or neighboring states except for those required to treat isolated screwworm outbreaks that may occur this year, eradication officials have announced.

This action is expected to greatly decrease the possibility of the Southwest becoming reinfested as result of fertile flies migrating northward out of Mexico where the insect has not yet been eradicated. Fertile flies, when mated with the sexually-sterile, plant-reared flies, do not produce offspring.

The move is part of the second step in the eradication program, that of establishing a fool-proof barrier zone along the international boundary to prevent reinfestation of "screwworm-free" areas. Attainment of the first goal -- eradication of the insect from the Southwest -- was declared a year ago by the U. S. Department of Agriculture and its partners in the

project, the Texas Animal Health Commission and Southwest Animal Health Research Foundation.

Although the barrier zone stretches from the Gulf of Mexico to the Gulf of California, eradicators are presently concentrating their resources on the eastern and western coasts of Mexico where colonies of fertile screwworms pose the principal threat to the Southwest.

With fly drops discontinued in Texas, eradication workers will be relying heavily on farmers and ranchers for information on infestations that result from flies that do manage to slip through the barrier. Further outbreaks can be headed off if cases are treated during early stages of development, officials said.

A man took his dog to a movie house and set it in the seat beside him. The usherette was going to throw the dog out until she noticed that it was paying close attention to the film.

After the movie she went up to the man and said, "It really amazed me to see your dog enjoying the picture."

"Amazed me, too," replied the man. "He didn't like the book at all."

"I've pondered long about it, Won't someone tell me this, Why aren't more people happy If ignorance is bliss?" —Eugene P. Bertin, Pennsylvania School Journal.

FROM PLAINS COTTON GROWERS, INC.

PCG Mill Tour Sign-up

Over 40 people on the High Plains have already indicated to Plains Cotton Growers their intention of participating in the textile mill tour to be sponsored by the organization February 16, 17 and 18. There is still room on the tour for about 25 or 30 more people, and reservations should be made as soon as possible.

The group will tour textile plants in the Spartanburg, South Carolina area, leaving Lubbock at about 9:00 a. m. on February 16 and returning to Lubbock on February 18. Spartanburg County is one of the most progressive textile areas in the U. S. and offers an excellent opportunity for High Plains residents to get a first hand look at latest industry developments.

Travel will be by chartered plane at a cost to each tour member of around \$125, and with the exception of two breakfasts, all meals on the tour are furnished. J. D. Aldridge of Lamesa said on returning from the last such tour: "Every High Plains farmer should have made this trip or should make a similar one." Interested parties can make reservations and get additional details by contacting Plains Cotton Growers, 1720 Avenue M, Lubbock, Phone PO-2-0553.

Cotton Legislation

Groups of cotton producers, grinders, merchants, spinners and the National Cotton Council which encompasses all of these groups plus others, have been in session over the past few weeks to consider their position with regard to cotton legislation. The agricultural Act of 1964 under which the cotton industry is now operating is due to expire July 31, 1966, and where to go from there is sure to be a leading subject for discussion during this session of Congress.

To date, only one thread of continuity runs through the resolutions passed by these various groups. Virtually all

are in favor of a "one-price" system for cotton, but there is wide diversity of opinion as to how this should be achieved. Some have resolved to support the present program "with minor changes," but what one group considers "minor" is often considered by another as monstrous, so there is a long way to go before the cotton industry can present a united front to Congress.

As a start toward at least getting cotton producers seeing more closely eye to eye, the American Cotton Producers Associates, made up of some 17 cotton producer organizations across the cotton belt, is meeting during the first week of February and Plains Cotton Growers, Inc. will be represented at that meeting.

At the moment most are withholding opinions as to what Congress might or might not do with respect to cotton legislation pending delivery of the President's farm message to Congress expected early in February. Some sources within the industry have predicted that the President's message will call for a simple extension of the present law. Others predict a request for sweeping changes. Right now it's anyone's guess.

"My wife and I have been happily married for twelve years," said a man to his friend. "We go out twice a week and have steak, imported wine, soft music and candle-light."

"Gee," said his friend admiringly, "that's wonderful." "It sure is," answered the married man. "She goes out on Tuesdays and I go out on Fridays."

An insurance man was teaching his wife to drive, when the brakes failed going down a hill. "I can't stop it," she cried, "What'll I do?"

Don't panic," her husband replied. Just hit something cheap."

Cleaning Agents Can Be Hazardous-Leaders Told

Home Demonstration Club products for the various metals leaders, in a meeting recently held at Hub, were told about the dangers of improper use of Household Cleaning Agents by Home Demonstration Agent, Cricket B. Taylor.

"Numerous new cleaning agents have appeared on the market, as well as many new metals and surfaces to be cleaned in the home. Improper methods and poorly chosen cleaning products can cause expensive losses to families in both money and satisfaction", Mrs. Taylor said.

Mixing of Household Cleaners can be dangerous, as well as dissatisfaction in the results from such practice. Some very common substances in the home, as vinegar when mixed with bleach, or adding bleach to other cleaning preparation cause vapor that is poison and can even cause death, the demonstrator said.

Other points discussed and demonstrated in the meeting were: How to select cleaning

How The March of Dimes Fights Birth Defects

BY VIRGINIA APGAR, M.D.

Director, Division of Congenital Malformations, The National Foundation-March of Dimes

The phase of the March of Dimes attack on birth defects which promises the most exciting results in eventual prevention of these conditions is the research program supported by 35 grants at 29 universities, colleges or hospitals located in 17 states and Canada.

You have a stake in this program, for the dimes and dollars you contributed over the years have helped support this quest.

Perhaps the briefest and most accurate description of the scope of these various projects is that dedicated men and women in laboratories and hospitals all over the country are attempting, each in his own way, to find some clue which will, in time, help provide the answers to these questions:

- Why are 250,000 children born with a birth defect each year in this country?
- Why does something go wrong when these tiny embryos are being formed?
- Can more of these children be helped with present medical knowledge?
- What more must we know to prevent this from happening to babies not yet born?

I'd like to describe six of these important projects, which differ vastly from each other, but they have this in common: All are part of a nationwide search which has as its ultimate aim the prevention of birth defects in human beings. At present, these scientists might be working with test tubes or with animals, but each bit of knowledge sheds light on the problem of birth defects in humans.

At the University of California in San Francisco, Dr. C. Willet Asling and his colleagues are studying birth defects caused by temporary deficiencies of vitamins and minerals at crucial stages during pregnancy. They are experimenting with rats, trying to learn why certain embryonic tissues are affected by dietary lack. This work may throw light on the mechanism of some birth defects in man.

At the University of Colorado in Denver, Dr. Theodore T. Puck and his group are study-

ing the ways human cells operate and what those cells need as food. This work is vitally important because every human being is the result of the union of two cells -- the egg cell from his mother and the sperm cell from his father. This union forms one cell which in turn divides to become different cells with many different functions. There are special kinds of cells for bone, for example, and for the retina of the eye, and for the lungs and skin. Usually, this process of differentiation works well and a healthy baby results, but sometimes, something goes wrong and the infant has one or more birth defects. If scientists knew more about the normal growth from single cell to baby, they would be closer to understanding how this process can break down, and perhaps be closer to preventing birth defects.

Dr. Appar

At Yale University in New Haven, Conn., Dr. Dorothy M. Horstmann is studying the spread of the rubella virus, seeking means of detecting its presence in the body, and, in general, laying the groundwork for the development of a vaccine against this virus. Rubella -- German measles -- is usually only a minor annoyance to children, but it is a potential tragedy to women during the first three months of pregnancy. Research shows that if a woman gets this disease early in pregnancy, her baby has a one-in-four chance of being born with one or more serious birth defects.

At the University of Miami in Coral Gables, Fla., Dr. Casimer T. Grabowski is conducting tests on the effects of oxygen deficiency and other metabolic disturbances in producing birth defects in chick embryos. These studies are important because it is known that lack of oxygen can lead to some types of deformities in birth as readily as can certain chemicals or radiation. Dr. Grabowski's studies with chick embryos will add to the knowledge of how certain agents produce specific birth defects.

At Columbia University in New York City, the work of Dr. Melvin T. Grumbach and his associates revolves around these questions: Do people born with abnormal sexual charac-

DR. CASIMER T. GRABOWSKI, University of Miami, Fla., is conducting tests on the effects of oxygen deficiency and other metabolic disturbances in producing birth defects in chick embryos.

teristics have an abnormal chromosome pattern? Could these physical abnormalities be related to the specific chromosome defects?

At Vanderbilt University in Nashville, Tenn., a team headed by Dr. Robert W. Noyes is studying the way a sperm cell penetrates an egg cell at the moment of conception in rabbits. They especially want to know whether abnormalities in that first penetration could be the cause of birth defects which show up at birth or even in later years.

by a mass walkout of women in the audience. (The ballerina, Madame Francisquy Hutin, was thought to have dressed in such flimsy attire that the women felt obliged to leave.)

February 10, 1933—The first singing telegram was introduced to New Yorkers.

February 16, 1607—John

Sprat, archdeacon of a London church, became the subject of the now famous nursery jingle, "Jack Sprat could eat no fat..." Neighborhood children set his eating habits to rhyme and serenaded him for the first time. (The archdeacon had a reputation for eating daintily, while his wife had an enormous appetite.)

MR. WHEAT FARMER!

TIDE Has The Ideal Fertilizer To Top-Dress Your Wheat - - -

NITRATE - SULFATE

This Fertilizer Is A Combination Of Ammonium Nitrate And Ammonium Sulfate Fertilizers Into One Single Sulpher Coated Granule With An Analysis Of

30 - 0 - 0 - 5

N - P - K - SULPHUR

FACTS ABOUT NITRATE - SULFATE

1. At Present Only TIDE Can Offer You This SPECIAL FERTILIZER.
2. It Supplies Nitrogen For Quick Plant Response.
3. It Supplies Nitrogen In Two Forms.
4. There Is Very Little Loss Of Nitrogen In The Form Of NH₃.
5. It Is Reasonable Priced.
6. This Fertilizer Can Make You \$\$\$\$.
