HENRY G. VERMILLION

Volume 20, No. 1 of the Eastland County Record, which that our newspaper has reached another milestone and is as old as of this issue. It doesn't seem like it, but all five of those years have been my editorship, which just puts me in the position of an old-timer.

The mobile X-ray unit of the State Health Department is in the shop building of the Texas Electric Service Company, at the rear of the firm's office.

Hours of X-raying are 8:30 a. m. to 5 p. m. Friday, Saturday, Monday and Tuesday.

Residents of Carbon, Gorman, Desdemona, Olden, and rural portions of the county near and between those points and Eastland were invited to come to Eastland on any of the four days to have the free X-rays made.

Business and industrial firms were asked to let employees have time off to have the X-rays made. It was announced that employees of the Hollywood Corset Company will get off Tuesday beginning at 1 p. m. for that purpose.

All women's civic clubs have been asked to help in the program, with six women from each of the clubs in Eastland requested to help register those X-rayed at various times.

The program here is sponsored by Beta Sigma Phi sorority.

The Spain Feed and Grain store will hold open house Saturday in the building formerly occupied by Moser Nash Motors at 403 South Seaman Street.

Refreshments will be served throughout the day, said the owner, W. D. Spain. He said that gifts will be awarded at 3:30 p. m., but none will be given to anyone not present.

D. J. Fowler of Fort Worth, Nutrena Mills representative, and Bill Palm of Brownwood, representative of the turkey division of Nutrena Mills, will be on hand Saturday to welcome guests and to answer any questions concerning the proper care and feeding of stock and poultry.

A school for U. S. Census enumerators of Eastland County will be held in the Courthouse in Eastland Monday through Friday of next week, it was announced at the district census office in Abilene.

Actual taking of the census, which happens only once each 10 years, will begin April 1.

Co-operation of every citizen to insure full and correct answers to questions to be asked by enumerators was asked by Donald F. Pulver, district supervisor, of Abilene.

Farm census questionnaires are in the mail now to farmers, Pulver said, and farmers were asked to have the questionnaires filled in and ready for the enumerator when he calls at the farm during April.

## X-Ray Program To Begin Friday; Last Four Days

Eastland High School students will be the first to be X-rayed Friday in the mass chest X-ray program for Eastland, and for four days, skipping Sunday, the public has been invited to come in and have the X-rays made.

There is no charge, sponsors said, although the program definitely is not for charitable purposes.

### Tommy Cooper Has Pneumonia, Improves

Tommy Cooper, 10-year old son of Mr. and Mrs. J. T. Cooper, was reported much better Thursday after suffering from pneumonia.

Tommy injured himself internally Friday of last week when he slipped and fell on the sidewalk and hit his abdomen on some steps, and the pneumonia apparently developed from the injury, his mother said.

He was recuperating at the family home on South Seaman Street.

### Farm Bureau Heads Go To Abilene Session

Mr. and Mrs. E. E. Blackwell of Ranger and Mr. and Mrs. John Love of Alameda attended a Farm Bureau district meeting in Abilene Tuesday at which plans were made for service programs in the various communities of Eastland County during April.

Blackwell is president of the Eastland County Farm Bureau, Mrs. Love is secretary, and Love is a director.

### Not All Peaches And Cream, Record Contestant Discovers

(The following article was written by Joe Williams, coach at Eastland Junior High School and candidate in the recent Eastland County Record Circulation Contest, based on his experiences in the contest. Williams won \$200 cash as first prize in the contest, in which a new Ford was won by Mrs. Jack Lusk.)

By JOE WILLIAMS

During the local contest I found out that a salesman's life is not all peaches and cream. If all of them have experiences like I had, it is quite interesting.

### Buy Licenses Now, Avoid Late Rush

Automobile licenses are selling somewhat slower than usual in Eastland County this year, and car owners had better hurry or they may find themselves waiting in line in a last minute rush, was the warning given this week in the office of Tax Assessor-Collector Neil Day.

Truck and farm vehicle licenses are going just about as well as they did a year ago, it was reported, but passenger car licenses are about 200 or 300 behind last year's total in the Eastland office.

Licenses also are being sold at Gorman, Rising Star, Cisco and Ranger.

### Four Seek Places On School Board

Four candidates seeking three places on the Board of Trustees of the Eastland Independent School District are M. H. Perry, director of the Eastland County Vocational School, Bill Adams, Eastland insurance man and former teacher and coach, Mrs. James Horton, present board member, and Dr. W. K. Cowan, Eastland physician.

The three new members will be elected Saturday of next week, April 1, with voting to be held in the basement of the Courthouse in Eastland.

Those whose terms expire and who are not seeking re-election are Robert Vaughan and Jack Muirhead.

Election judges and clerks are to be C. C. Allison, Mrs. Marene Johnson and Mrs. Maud Braly.

All qualified voters who have lived in the school district for six months may vote, it was said.

### 'Womanless Wedding' To Be Held Monday In High School Auditorium

One of the highlights of the social season in Eastland will be the elaborate wedding to take place Monday night, March 27, at the High School auditorium at 7:45, when Miss Nellie Day will become the bride of Mr. Scotty Scott. Both are popular members of the local young set.

All this is part of the "Womanless Wedding", a play sponsored by the fifth grade students of South Ward School, and promises to be a hilarious affair. The cast is composed of prominent local business men, who have generously donated their time and talent.

The dainty Flower Girls, Diana Crump and Priscilla Jones, will be dressed in the bride's chosen colors, as will the Ring Bearer, petite Miss Frankie Hightower, "Preacher" E. K. Henderson, widely known for his voluminous speech and frequent lecture tours, will perform the ceremony. The names of other in the bridal party have not been announced, but Miss Day said they are all socially prominent members of the Eastland elite.

Proceeds from the play will be used for installing a refrigerated water fountain in South Ward school. The public is urged to attend to aid a worthy cause and enjoy an evening of wholesome entertainment. Tickets can be purchased from students, obtained at Neil Day's office, or from Mrs. Frank Hightower, or admission can be paid at the door. Tickets are selling for 50 cents for Adults, 25 cents for Jr. and Sr. High school students and 15 cents for elementary children.

### W.S.C.S. TO HAVE RUMMAGE SALE

Members of the W.S.C.S. of the First Methodist Church will hold a rummage sale in the former Club Cafe building on the square in Eastland Friday and Saturday March 31-April 1.

Mrs. Frank Castleberry asked that anyone having anything to donate for sale bring it to the building the afternoon of March 31 or morning of April 1.

### All-District Band To Give Concert In Gorman Saturday

An All-District Band made up of 140 band students from 15 high schools of this area, including 12 band members from Eastland, will play in the Gorman High School auditorium at 7 p. m. Saturday.

Eastland band members who will take part are Nancy Frey-schlag, G. W. McBee, Don Smith, Guyrene Robinson, Beth Hurt, Jim Ed Willman, Mozelle Pullman, Bob Vaughn, Janelle Patterson, Tommy Patterson, Sarita Seale and Stanley Stephen.

Eastland Band Director T. R. Atwood said the concert will be the first of its type in this area, and is more or less of an experimental nature.

If the affair is successful, he is looking forward to repeating it later in Eastland, Atwood said.

The group to be composed of players selected by their own band directors as first class. The fact that they will play with little or no rehearsal will test the players' abilities as band performers to the utmost, Atwood said.

Members of the band will represent high school bands of Eastland, Cisco, Ranger, Brackenridge, Gorman, De Leon, Comanche, Dublin, Brownwood, Santa Anna, Coleman and Goldthwaite.

Atwood expressed appreciation to the Band Boosters Club and to the public of Eastland for the fact that the appearance of the performers Saturday will be in debt-free uniforms, since the last indebtedness on the uniforms recently was cleared.

The concert will be free to the public.

### Play Begins Sunday At New Golf Course

Play, on an informal and rather pioneering basis, began Sunday on the new Lakeview Country Club golf course at Eastland.

The warm afternoons of this week found quite a few of the town's golfers hitting little white balls on the greening fairways of the course.

The greens were in pretty good shape, it was reported.

The pro shop and caddy house at the course, completed largely with the manual labor of members, is complete, it was reported, except for the rest rooms.

Club officers said a formal opening of the course will be held later, when all is in readiness.

### Long Nominated As Lion President

Judge Milburn S. Long Tuesday was announced as nominee for president of the Eastland Lions Club. Other officers nominated by a committee are George Fields for first vice-president; C. A. Ranney for second vice-president; Dr. Edward Adelsten for third vice-president; Milton Fullen for Tail Twister, and Wes Harris, now the club president, for his assistant; Bruce Pipkin for Lion Tamer, Joe Collins for secretary-treasurer, and Theo Lamb and Ernest Jones for directors.

The club will have a Ladies Night box supper at the American Legion Hall at 7:30 p. m. Friday. Each Lion is to have his wife or date bring a box supper, to be auctioned off. The party-goers are to be dressed in hill-billy costumes for the affair, it was announced.

The club Tuesday heard an interesting and amusing talk by Mrs. Lettie Faucett, long-time society editor of the Abilene Reporter-News, who told of a lot of humorous incidents during her 30 years with the newspaper. She recounted at some length the tortures she underwent while being photographed 1100 times in eight days for an article that appeared in Life magazine recently about her.

Dr. Kuykendall said he was open to any suggestions, but that his board had started the program and he felt it was on the right track.

Freese said he feels that his figures on the dam on the Leon are about right, despite the Reclamation Bureau's much higher figures.

Keller said that an important factor in any water program is the present bond debt of the municipalities concerned. Eastland, he explained, now must pay \$18,000 a year out of its water and sewer revenues, and any new program would have to take care of that bond load first.

Gorman is in debt heavily, also, he said, and so is Ranger, though not against its water system.

At the Courthouse meeting, Eastland City Manager I. C. Heck said he was not speaking for the City Commission, but it was his personal opinion that Eastland was not interested in joining in on the Reclamation Bureau project, and Benny Butler, manager of the Cisco Chamber of Commerce, voiced the same unofficial views concerning his town.

### Revival Started At Harmony Church

The Harmony Baptist Church of Morton Valley began a revival Wednesday night that will run daily at 10 a. m. and 7:30 p. m. with Rev. "Ted" Brian of Plains, Texas, doing the preaching. The singing is led by Rev. Joe Smith, Jr., pastor of the church.

A varied selection of musical numbers is to be given each evening.

Saturday night and Sunday Miss Ann Self, twice voted the most beautiful girl in Howard Payne College, will sing and give her testimony. Said Mr. Smith, "Miss Self is one of those unusual persons who, although a beautiful girl, is a devoted Christian." She is expected to be accompanied by one or more students from Howard Payne.

Mr. Smith said capacity crowds are expected at the services. He invited the public to attend.

Mr. and Mrs. Oscar Rutherford of Canadian were the week end guests of his mother, Mrs. Ruth-erford, and a sister, Mrs. L. C. Harlow, of 205 N. Walnut Street.

O. E. Baker, manager of Perry's, was in Stephenville several days this week on business.

### Two Meetings Held Concerning Dam For Leon

Eastland and Cisco apparently bowed out Thursday on a proposed five-city project to obtain municipal water from a Leon River dam projected by the U. S. Bureau of Reclamation.

The remaining three cities, Ranger, Gorman and De Leon, asked Harry Burleigh, planning engineer for the bureau, to report back on the cost of water from the dam to them, and Burleigh said he would in about three weeks.

Later, after the meeting of the city delegations in the Courthouse, many members of the same group met in the office of the Eastland Chamber of Commerce and discussed whether a less expensive project than the \$4,000,000-plus Reclamation Bureau deal might not be put through, perhaps on the basis of the \$1,350,000 estimate by the engineering firm of Freese & Nichols. Si Freese of the firm was at both meetings.

After Eastland Chamber of Commerce Secretary H. J. Tanner had explained the purpose of the meeting, Dr. P. M. Kuykendall, president of the Eastland County Water District, of Ranger, said the board of the water district now is preparing plans for the development of the dam and a water system to towns in this area, including mainly Ranger, Eastland and Gorman, and would be ready to submit figures to those towns in 15 to 30 days.

Dr. Kuykendall said the water board is open to suggestions from anyone, will visit Eastland or any other town if it wants to join the water district on a feasible basis, and fully appreciates the immense problems involved.

Henry Keller, Fort Worth bond man, told Dr. Kuykendall he believed the water board should go forward on a different basis, form a committee of officials and citizens from each of the towns interested in getting more city water, and study the program on that basis.

Dr. Kuykendall said he was open to any suggestions, but that his board had started the program and he felt it was on the right track.

Freese said he feels that his figures on the dam on the Leon are about right, despite the Reclamation Bureau's much higher figures.

Keller said that an important factor in any water program is the present bond debt of the municipalities concerned. Eastland, he explained, now must pay \$18,000 a year out of its water and sewer revenues, and any new program would have to take care of that bond load first.

Gorman is in debt heavily, also, he said, and so is Ranger, though not against its water system.

At the Courthouse meeting, Eastland City Manager I. C. Heck said he was not speaking for the City Commission, but it was his personal opinion that Eastland was not interested in joining in on the Reclamation Bureau project, and Benny Butler, manager of the Cisco Chamber of Commerce, voiced the same unofficial views concerning his town.

### City To Enforce Dog Vaccination Law

Enforcement of the City of Eastland's ordinance requiring the vaccination of dogs against rabies will begin at once, City Manager I. C. Heck said Thursday. The action was taken at the order of the City Commission after reports of rabies had been received from various parts of the state, he said.

Dogs not bearing tags showing vaccination within a year will be impounded, and if not called for within three days, will be destroyed, he said. Before a dog can be reclaimed it must be vaccinated, and a fee of 25 cents be paid for food for every day it was held.

City Sanitary Officer E. E. Witt will be at the City Hall each Wednesday afternoon and Saturday morning to do the vaccinating, for which the fee is \$1.50, Heck said.

You forget about flats with  
 BFG Puncture-Sealing Safety  
 Tubes in your tires. A  
 gummy rubber inside the  
 tube seals punctures in-  
 stantly and permanently as  
 you drive. No repair jobs!  
 You're much safer! The tube  
 walls are thicker than ordi-  
 nary tube walls—there's less  
 danger from pinching and  
 chafing—less chance of  
 blowouts.

You save money, too! BFG  
 Puncture-Sealing Safety  
 Tubes usually outlast two or  
 more sets of tires.

The Fellow Who Sees Flying Saucers . . .

... may be somewhat like the one who buys land without an abstract. He sees and believes but he never knows! The land looks fine and so do the improvements, but how about the title? We can't see that on the ground, but there is a way of finding out. To have and to hold is the only real possession. Yes, brother, when you buy land without an abstract you may be seeing things, but is it flying saucers?

# Round-Up

PUBLISHED BY THE EASTLAND COUNTY RECORD ON BEHALF OF THE STUDENTS OF EASTLAND HIGH SCHOOL, WITH NEWS SUPPLIED BY A STUDENT STAFF.

## F. F. A. BOYS START 12 MONTH PROJECT

Mr. Fox, with the boys taking Vocational Agriculture, has started a project that will last for 12 months. They bought 250 Hy-Eine pullets from Kaymeier-Sherill Hatchery at Bryan and 250 "Best Egg" grade of standard White Plymouth Rock pullets from Colonial Poultry Farms at Sweetwater.

The boys got together and built facilities and arranged with Buddy and Edwin Aaron to feed and care for the chickens. Some of the boys go out there at various times to help take care of the chicks but the Aaron's are responsible most of the time.

Mr. Fox says he expects the hens to start laying about August 15th. Then they will keep a twelve month egg production record.

## JOB WELL DONE

The school would like to say "Thanks" to Mrs. Ethel Woloszyn and her second year typing students for typing the final reports of the evaluation committee.

Those who did the typing were Cuva Williams, Janeil Day, Virginia Wright, Christina Arther, Glenn Hogan and Jeannie Howard.

## LIBRARY IMPROVEMENT

We feel that our library has been greatly improved this year. This year we have ordered 87 books and have already received 65 of them. We have enjoyed these very much.

Last week during the evaluation the library was rated superior by Miss Virginia Clarke, the librarian of the North Texas Demonstration School. She was assisted by O. L. Stamey, President of Cisco Junior College, and Mrs.

Lloyd Browning, supervisor of 17 schools in Coryell County. This great improvement would not have been possible if it had not been for the untiring efforts of Mrs. Whatley and her student librarians who have spent many hours to give us a better library. We sincerely appreciate this and would like to say again, "Thank you" to Mrs. Whatley and to all who have helped in the work.

## SENIORS DISPLAY AUTOBIOGRAPHIES

The Seniors held their annual tea last Thursday and Friday at which time their autobiographies were on display. The evaluators attended the tea Thursday and the seniors' mothers Friday. Teachers from all towns surrounding also attended. The tea proved very interesting for all and was enjoyed by all.

## SURPRISE ASSEMBLY

The assembly program Monday was a surprise to most of the students. A report on our school from the evaluation committee was given. Everyone was pleased to learn we got a very high rating. Mr. Jones and Mr. Womack both expressed their appreciation for the students' and faculty's cooperation.

A piano truck was given to the school by the seniors of last year and this year. It is very nice and makes the piano easy to move around. Even though it looks like a simple affair, it cost about \$58 without the cost of express. Thanks to the seniors!!

An announcement was made that the annuals would cost only fifty cents more, and would be issued at noon.

## DELEGATES MEETING—STEPHENVILLE

Patsy and Florine are Carbon F. H. A. members. Area XI officers were elected for 1950-51, and will be installed on April 1, at Stephenville at the area meeting. Gayle was runner-up for corresponding secretary.

## Bob Wills Hears Folks Tell Of Hadacol's Many Blessings

Bob Wills Hears About HADACOL'S Blessings

Bob Wills, famous western music band leader, loves to talk with his fans at the Trianon Building auditorium in Oklahoma City about the blessings of HADACOL. In the picture above Miss Carol Jean White, 3636 West Park St., Oklahoma City, tells Bob how much HADACOL has helped her. Hundreds of folks who are obtaining rich blessings from the precious B Vitamins and Minerals in HADACOL visit Wills each week for his network broadcast, which is originated from KBYE, Oklahoma City, Oklahoma's western music station, and sent over a leased wire to stations, KRMG, Tulsa; KWHN, Fort Smith; KGLC, Miami, Oklahoma; KLYN, Amarillo, and KWFT, Wichita Falls.

"It looks like all my fans are getting wonderful benefits from HADACOL," said Wills. "It is a real pleasure to broadcast for HADACOL because the folks taking HADACOL are so enthusiastic that I feel like I am performing a real service for mankind." Hundreds have told Wills of the blessed benefits of HADACOL and the following statement by Miss Carol Jean White, 3636 West Park St., Oklahoma City, is a good example: "One of the luckiest days of my life was when I heard Bob Wills tell about the wonderful blessings of HADACOL. I had lost my appetite, my energy was down, I suffered with gastric disturbances and indigestion. I took the advice of Bob Wills and took HADACOL. I felt better right off and have felt better and better as I have continued to take HADACOL. I now recommend HADACOL to my friends." Miss White suffered with a deficiency of B Vitamins and important Minerals which HADACOL contains. A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances. . . . Your food will not agree with you. . . . You will have an upset stomach. . . . You will suffer from heartburns, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are

surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains. And if you suffer from such a disorder, there is no known cure except the administration of the Vitamins and the Minerals which your system lacks. HADACOL contains not only one, but 5 of the B Vitamins. HADACOL contains not only one, but 4 of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away. It is easy to understand, therefore, why countless thousands have already been benefited by this amazing tonic, HADACOL. So, it matters not who you are . . . it matters not where you live . . . or if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happy, comfortable lives again because HADACOL supplied the Vitamins and Minerals which their systems needed. Be fair to yourself. Give HADACOL a trial. Demand the genuine HADACOL. Accept no substitutes.
