Captain Mike takes the buns offered him by Vance Blauser as Jesse Searey looks on. Mike has been meeting the truck each day for about a year to get his buns. Then he runs back to his adopted home with Mr. and Mrs. J. B. Churchwell, 309 South Lamar, to eat them. (Photo by Lyon).

Captain Mike Knows The Hand That Feeds Him; Does Not Bite

Captain Mike knows the hand that feeds him, and he doesn't bite that hand.

In fact, according to Captain Mike's adopted keepers, Mr. and Mrs. J. B. Churchwell, Mike does not bite at all.

Mike is a ferocious looking bulldog, but he has a heart as warm and friendly as any you will ever find. And when he finds a friend, Mike considers him a friend for all time.

For example, Mike found two friends about a year ago. The friends run a Mrs. Baird's bread truck which makes a daily visit to the Clover Farm Store just across from where Mike stays. They gave Mike a few buns.

Mike didn't forget. Every since that day, when the bread men, Vance Blauser and Jesse Searey, drive up, there is Mike waiting for his bread.

Blauser has been on the run since 1927, but Mike only discovered it last year.

The truck comes about 10 a. m. each morning, and Mike is usually lying on the grass across from the store.

One day he almost forgot about the truck, and when he thought about it, he ran for the store. The truck was pulling out, but Mike ran up to the side of the truck and gave out with his heartiest bark. The driver heard him and stopped to give Mike his buns.

Since that time he is usually waiting for them when they come. After he gets his buns, Mike trots back to his adopted home with Mr. and Mrs. Churchwell at 309 South Lamar St.

Mike will be three years old in October. He is a registered bulldog and belongs to Mr. and Mrs. Bob King.

When Mr. and Mrs. King were married, Captain Mike was just a pup. They lived in an upstairs apartment and found it impossible to keep the dog.

Mr. and Mrs. Churchwell, Mrs. King's grandparents, were elected to keep Mike until they could keep him.

The Kings have recently moved into their own home, but Mike refuses to leave his adopted home. He likes it there and he intends to stay.

Besides, if he moved, Mike might not be able to meet his friends who drive the bread truck each day, and the ones who gave him hand-outs at the Piggy-Wiggly store.

Yes, Captain Mike knows the hand that feeds him, and not only does he intend not to bite it, but he also plans to keep well within its reach.

US PRISONERS SHOT

Korean Fight Take Months, 100,000 Men

By Lyle C. Wilson

United Press Staff Correspondent

WASHINGTON, July 10 (UP)—American officials today gravely viewed the Korean fighting in terms of many months and perhaps 100,000 men.

A substantial Korean expeditionary force was alerted yesterday by request of Gen. Douglas MacArthur for early movement to the Far East.

Ground troops now in Korea or under orders to be ready probably add up to 30,000 or 40,000 men.

Alerted yesterday were units estimated unofficially to number 15,000 to 20,000. They were:

The entire Second Infantry division, Fort Lewis, Wash.; two anti-aircraft artillery units and supporting troops from the Sixth Army commands.

These alerts were revealed at yesterday's army department briefing.

The Second Infantry is commanded by Maj. Gen. Laurence B. Keiser. The Army said it would move "in the near future."

An estimate that 100,000 American fighting men would be deployed in Korea "sooner or later" came from Chairman Walter F. George, D., Ga., of the Senate Finance Committee.

Military sources here revealed that this peak effort—whatever the number of troops involved—probably will not be reached until the end of the Korean rainy season. That normally comes in mid-October.

George also believes the Korean fighting will zoom national defense spending by \$5,000,000,000 above current estimates in the next eight or nine months. That would boost the cash outlay to more than \$18,000,000,000 for this fiscal year. It would double fiscal 1952 deficit estimates which had been placed at more than \$5,000,000,000 before Korea exploded.

The foregoing summary of the Korean situation as of today does not represent any doubt on the part of American officials that the situation there can be handled. But it commits the United States to a major military effort costly in men, time and money.

George said he does not expect a victory until "late winter or early spring."

Military authorities said the Korean rainy season could cut both ways. It might slow the Communist push from the North, but at the same time it surely would hamper the deployment and movement of American and Southern Korea forces.

Former Ranger Man Recently Dies; McRae

John Dewey McRae, 53, formerly in the insurance business in Ranger, died recently in a Ventura hospital.

McRae had lived in Ventura for a number of years. He is survived by his widow, Gladys, and a daughter, Martha of Ventura; three brothers: Homer D. of Los Angeles; Grady S. of Temple; and Duncan of Tulsa, Okla.; a sister, Mrs. Ruth Hall of Royce City.

AFL, CIO About To Split

WASHINGTON, July 10 (UP)—The AFL and CIO, which have their shoulders to the same political wheel in many states, may split wide open in Oklahoma's run-off for the Democratic senate nomination.

WASHINGTON—House foreign affairs committee meets to approve \$1,222,500,000 arms aid program. Members ready to adopt arms bill already passed by senate because of urgency to get more arms and ammunition into hands of U. S. allies.

William Stanley Named Eastland H.S. Principal

William Henry Stanley, 28, has been elected principal of Eastland High School, Ross Rucker, secretary of the school board has announced.

Stanley is at present living at Grandview, Texas where he was principal last year. He was re-elected principal of Grandview High School, but had already resigned to accept a similar position with the Grandbury public schools, if he should be unsuccessful in getting the position in Eastland.

He was previously principal of Dublin High School for two years.

Stanley is married and has a son 2½ years old. He attended Sunset High School in Dallas where he graduated in 1941.

North Texas State at Denton was Stanley's next school, and there he received a Bachelor of Science degree in 1946. At present he is doing work on his Master's Degree in Education at Texas Christian University in Fort Worth.

Rucker also announced that James Edward Cantwell, 22, had been named Assistant Coach at Eastland High School.

At present, Cantwell lives at Brownwood. He is a graduate of Blanket High School. He is to receive his Bachelor of Science degree in Education from Daniel Baker College in August, 1950.

Cantwell lettered at Daniel Baker in both football and basketball last season. He will teach science in addition to his coaching duties.

Stanley expressed himself frequently as to his impressions of Eastland, mentioning the cleanliness of the town, friendliness of the people he had met, and the splendid appearance of the well-kept interior of the school buildings.

It was pointed out that the way in which the school buildings have been preserved is an item about which all visitors comment and that the majority of the credit for this condition should be given to the students of the school and secondarily to the parents and teachers who guide them.

Baptist Assn. Workers Meet At New Hope No. 3

The workers' conference of the Cisco Baptist Association will meet Tuesday, July 11, at New Hope No. 3, north of Ranger.

The conference will open with a song service under the direction of Harry Grantz. Scripture reading and prayer will be given by John Lance.

Clifford Nelson, Jasper Massee and David C. Ham will also be on the morning program. Special music will be given at 11:30 a. m. with Frank Foster bringing the sermon at 11:35.

A board meeting will be held at 1:30 p. m. Also scheduled at 1:30 is the W. M. U. program with Mrs. Grant Adams presiding. Meetings are quarterly meetings and quarterly reports will be made by local chairmen.

North Koreans Mass; Threaten Flanking Move

BULLETIN

WITH THE AMERICANS AT THE KOREAN FRONT, July 10 (UP)—An American Lieutenant said today that seven American soldiers who surrendered to the North Koreans were lined up along a road and machine gunned to death.

Lt. D. C. Gates, Joinersville, Tex., said he saw four of the men surrender to the Communists early today in an area which the North Koreans infiltrated and held for a short time before being driven out.

After the Communist retreat, Gates said, he found the bodies of the four men and three others lying beside the road. Their hands had been tied behind their backs and they had been machine gunned through the face.

By Ernest Hoberecht
United Press Staff Correspondent

M. Jane Haag Buried After 2 Months Wait

The body of Mrs. Mary Jane Haag, 40, who was killed in a highway crash near Olden April 12, was buried at 1 p. m. Saturday in the Eastland cemetery.

Hammer Funeral Directors were in charge of the burial.

The body had been kept at the Hammer Funeral Home since her death. Justice of the peace E. E. Wood issued the order for the burial of the body Saturday.

Mrs. Haag was killed when the pickup in which she was riding collided with a truck on Highway 80 near Olden, April 12. The driver of the pickup was also killed.

The identity of Mrs. Haag was not known for a few days following the accident, but officials established her identity as a former resident of Indianapolis, Ind.

She was also established as the mother of three children, Betty, 15, Jimmy, 8, and another child whose age was between the two named. They were reported to be inmates of a Catholic home in Indiana.

Mrs. Haag's husband was killed in an automobile accident eight years ago. In the same accident Mrs. Haag received an injury which resulted in a scar that helped officials establish her identity.

Waters Flood Crete, Neb.

(UP)—High waters of the Blue River rushed over sandbag dikes today into Crete, Neb., in an area where flash floods have taken five lives and forced hundreds of persons from their homes.

Life-As-Usual Out

WASHINGTON, July 10 (UP)—The American public was on notice today that life-as-usual is out for the duration of the Korean war.

The heaviest American air and artillery attack of the Korean war stopped the Communist offensive temporarily, today. But Gen. Douglas MacArthur reported that the North Koreans were massing for a new drive.

U. S. Bombers and fighters had their second straight field day smashing at the Communist columns moving up to the battle area 15 to 20 miles north of Taejon. American men and arms were pouring Northward into the Kum river valley just north of Taejon for the showdown battle.

A U. S. Army spokesman in Washington said the U. S. forces were building up a "line of no retreat" which the Communists would not pass. While he said he did not know where the line would be set up, the looping KUM river was the natural barrier at which the Americans might be expected to make their stand.

MacArthur's midnight communique reported that the North Korean vanguard was in contact with U. S. forces just north of Chochiwan, 20 miles North of Taejon.

The communique reported a long range threat to the key communications center at Taeju, 70 miles southeast of Taejon. The possibility of a wide flanking movement in that direction suggested that the U. S. forces in the Taejon area might have to pull back to protect Taeju.

Jubilant American airmen reported that for the second straight day they struck smashing blows at the North Korean columns moving with burned out tanks and trucks.

Selective Service headquarters said they would have no idea when and if the draft machinery will be used until they hear from the armed services. But officials know the man they want first if the time comes. He is:

Twenty-five, going on 26. (The oldest between 19 and 26 go first. The youngest of the group go last.)

Without a dependent of any kind.

Hasn't service in the armed forces before.

Out of work or in a job from which he can be spared.

Has a top health rating.

Altogether, 9,700,000 men from 19 through 25 have registered for the draft. Of these, 1,440,000 have been classified 1-A, or available for duty.

Crucial Week

Stalin Must Decide On World War Three

By Harry Ferguson
Foreign News Editor

This is the week when Stalin is going to have to make up his mind. If he is looking for World War III, he knows where he can find it—in the rice paddies of Korea.

All he would have to do to make the match that would set the world aflame is to send some Russian troops and fliers into Korea. Send them in openly, that is, with the Red Star of the Soviet Union on their planes and helmets.

But there is a growing belief at Washington, London and Lake Success that Stalin doesn't want World War III. At least not right now.

So where does that leave Stalin and the other men in the Kremlin? It leaves them in a bad dilemma. The Americans are beginning to build up their strength in Korea and if Russia doesn't act quickly in the next seven or eight days the entire picture of the war may change.

In the last five days these things have happened:

1. American fliers have won control of the Korean skies. Reports from the front say that only rarely does a Communist plane appear and when it does it runs for the 38th parallel as soon as it sights an American. Right now the U. S. Air Force's worst enemy is not the Communists but the weather. And Lt. Gen. George E. Stratemeyer, commander of the U. S. Far Eastern Air Force, told a press conference in Tokyo today that he was about to lick the weather. He said his men

had started round-the-clock bombing of the Korean Communists and that this would continue regardless of the weather.

2. American tanks, artillery and anti-tank weapons have reached the front lines. The day is about passed when the G.I.'s are going to have to try to hold off Red tanks with Garand rifles and sub-machine guns.

3. Our South Korean allies have taken new heart and are in

Cisco JC Coach Resigns Position

The resignation of R. N. (Stormy) Davis from his position as head coach at Cisco Junior College has been announced.

Davis had been with Cisco Junior College for the past two seasons—last season as head coach. N. C. Huston of the school board reported that Davis' successor would probably be announced this week.

A graduate of Hardin-Simmons University, Davis started his coaching career as freshman mentor there. Then he moved to Paducah where he was head coach until he came to Cisco in 1948.

Davis plans to enter the insurance business.

L. B. Russell, Baird High School coach, is considered to be in line for an offer of the job.

Air Force Bombing

TOKYO, July 10 (UP)—Lt. Gen. George E. Stratemeyer said today his Far East Air Force had begun round-the-clock bombing of the North Koreans and that the attacks would go on regardless of the weather.

the battle again.

4. The British and American navies rule the coast of Korea.

Those are the factors Stalin is pondering as he tries to decide his next move. He knows that if he sends in his own army he has a World War on his hands. He knows that if he gives the signal for the Chinese Communist armies to join the fight, the war probably will spread beyond Korea.

So he may do what he has done before—abandon the Korean Communists to their fate and sit back and wait for a better time and place to perform what he calls "liberation of the world proletariat."

There have been two times in recent history when Stalin has been in the same position he finds himself in today. Both times he retreated in the face of determined men with guns in their hands. The first time was in the Spanish Civil War. The Russians sent aid to the Republicans, organized "international brigades" and furnished commissars to give political advice. But Adolf Hitler was riding high in those days and he sent in the Luftwaffe. Stalin backed down and pulled out his men and material.

The second time was in Greece. Communist forces, armed and advised by Russians, swept down out of the hills toward Athens. For a time it appeared that they would seize Greece. But the United States threw in weapons, ammunition and military advisers. When last heard of the Greek Communists had taken to the hills and gone over the border. Stalin made no further move to help or encourage them.

It could be that history is about to repeat itself in Korea.

For Good Used Cars (Trade-ins on the New Olds) Osborn Motor Company, Eastland

HOUSTON, July 10 (UP) — Police hunted thieves with a silver cache today after J. B. Christian reported a robbery at his home.

Christian said the \$1500 burglary had ruined his life-time hobby. The loot was all in dimes, which Christian had saved through the years.

BRENNHAM, July 10 (UP) — Mrs. Lizzie Robertson, 80, widow of Confederate Gen. Felix D. Robertson, will be buried here today.

Mrs. Robertson died in a hospital Sunday after a brief illness. Her husband died 15 years ago.

Surviving are a son, Jerome, of Terre Haute, Ind., and a sister, Mrs. Emma Tiber of Angleton.

LET'S GO FISHIN'

By Onous Dick

The Texas Game, Fish and Oyster Commission recommended a straight 45-day waterfowl shoot-

ing season beginning November 10. An earlier request for a zoning season to benefit Panhandle counties has been placed before the Federal Fish and Wildlife Service as has also a proposed bag limit of eight ducks per day and eight in possession instead of the four ducks per day and four in possession allowed last fall.

The commission authorized a nine-day antelope season west of the Pecos to be patterned after the 1948 special season in which 702 permits were issued to bag male antelope. The number of 1950 permits to be issued has not yet been determined.

Game and fish seasons for the newly created regulatory authority in the new twenty-eight county Panhandle area also were approved. They call for a deer and turkey season from November 17 to November 26 for all Panhandle counties except Armstrong, Randall and Briscoe. The limit will be one buck deer and two turkey gobblers for each hunter. The three counties were exempted because of recent restocking activities by the game department.

The commission approved a

whitewing dove season for September 15, 17 and 19 beginning at 4 p. m. and lasting until sunset with a limit of ten birds a day and ten in possession. The commissioners voted for a statewide dove season of 45 days, beginning October 20 and lasting until December 3 in the south zone and beginning September 1 and running through October 15 in the north zone, with a daily bag limit of ten and a possession limit of ten.

The Panhandle area was granted a quail season from December 1 to January 16, which are the same dates as the general state law, but the bag limits for the new regulatory area were cut from 12 per day to 10 per day and the possession limit was cut from 36 per week to 20 in possession at any one time. The commission abandoned plans for open seasons on antelope, prairie chicken and pheasants in the Panhandle because of insufficient data and a policy of "playing it safe" until more information on these species could be obtained.

For the regulatory area west of the Pecos, the commission authorized a deer season and quail season similar to 1949. In this area, El Paso and Terrell counties were eliminated from the antelope shooting regulations.

The commission, after a lengthy hearing, authorized an increase in the quota of commercial fishing licenses from 1550 to 2325. It also approved experimental studies in connection with authorizing

CENTRAL HIDE AND RENDERING CO.

Under the college Reserve Officers Training Corps system, cadets are divided into basic and advanced groups. Ordinarily the basic course extends through the freshman and sophomore years and the advanced course extends through the junior and senior years.

George Serpas Now Walks With Ease—Hadaacol Licked His Neuritis Pains
 caused by deficiencies of Vitamins B₁, B₂, Iron and Niacin in the system!

George Serpas, Sr.,* who lives at 730 South Genois Street, New Orleans, Louisiana, is a happy man indeed because he discovered it's now possible to actually relieve the REAL cause of neuritis pains caused by deficiencies of Vitamins B₁, B₂, Iron and Niacin in the system.

But let us hear what Mr. Serpas himself has to say about this great new HADACOL everyone is talking about.

"I'd been suffering for quite some time with neuritis pains throughout my whole body. My condition became so bad it was necessary for me to give up work. I could hardly walk and suffered great pain.

"After taking HADACOL, the pains left. I am now able to walk with ease. In fact I can now bend over touching the floor with my hands without any pain at all.

"I am able to eat anything and everything. I've taken about twelve bottles (three times daily). I would definitely recommend HADACOL for anyone suffering from such a condition."

Mr. Serpas is indeed a man to be admired. When he was struck down by such dreadful neuritis pains—he didn't give up hope. He did something for himself! He heard about and took this great new HADACOL. And what a different man he is today!

Helps you feel WONDERFUL
 HADACOL is not a quick-acting pill which gives symptomatic relief—HADACOL actually relieves the REAL cause of such aches and pains due to these deficiencies in your system. And continued use helps prevent such painful conditions from coming back!

A big improvement is often noticed within a few days' time. You start getting that wonderful, wonderful HADACOL feeling everyone is talking about and you'll want to keep it.

and Niacin but also beneficial amounts of precious Calcium, Phosphorus and Manganese—elements so vital to help maintain good health. And these important vitamins and minerals come in special liquid form so that they can be more quickly absorbed by the blood—ready to go to work at once. HADACOL combines these important vitamins with these wonderful minerals because they are more often effective this way.

Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin of red blood cells (where Iron is needed) to course through your body, carrying these great health-building elements to every body organ—to the liver, lungs, heart, kidneys—even to the nails, hair and eyes. No wonder HADACOL helps you feel wonderful!

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief is as close at hand as your nearest drugstore? This great HADACOL is inexpensive too—costs only a small amount a day. Trial size, only \$1.25. Large family or hospital size \$3.50.

PLUG 'N TRIGGER

By J. Fred Eder
United Press Outdoors Consultant
Fishing reports in general remain in the good to excellent classification this past week, but such is based mostly on the excellent sand bass fishing. Plugs and flies are coming back into more general use with the advent of summer. Black bass are even more so on the elusive side, according to latest reports, but anglers with the know how are reporting excellent black bass strings.

Top water burping lures and the deep running violent action lures still head the list on Mr. Bass' menu. Small deep running midget lures and flies are the favorites of the sand bass. Early morning and late evening are still the pay-off periods, each week getting later and later in the evening for the best results. Many anglers are now reporting their best luck at around ten o'clock at night on both black and white bass. Some sensational strings of white bass have been reported this past week with a rather unique method of trolling. By taking a small violent action midget lure, preferably shad finfish, and tying a three foot leader in to the rear hook screw eye and then adding two or three brightly colored flies to this three foot length of leader, anglers trolling with such a jig have had the unusual thrill of bringing in not one, but as many as three sand bass at a time. Black bass are definitely slowing their pace in Texoma and will be-

come increasingly harder to catch as hot weather approaches. A number of inquiries have been received regarding the amazing new firelacker finishes used by some bait manufacturers. Firelacker is the most phenomenal development that has been introduced to anglers in years. The success of firelacker lures has been so remarkable that such finishes on plugs stand a good chance of literally rendering obsolescent the usual finishes applicable to artificial lures. The effectiveness of firelacker plugs in attracting fish has been proved conclusively and beyond all doubts. Such lures reflect the ultra violet rays of the sun, throwing off a fluorescent like glow which is approximately 900 per cent brighter than standard lacquer or enamel finish lures.

During early morning and late evening hours, when ultra-violet rays are strongest, the brilliance of firelacker baits has an irresistible attraction for fish, provoking a strike from greater depths and distances and deeper cover, proving a decided preference for firelacker lures to identical lures in the conventional or standard finishes. Firelacker plugs will not glow at night. This seems to be taken for granted by a lot of anglers who are confusing firelacker fin-

US Oil Industry Can Meet
WASHINGTON, July 10 (UP)—Government and industry officials said today the U. S. oil industry can meet all military needs in Korea without rationing supplies to civilians.

Border Line Twins
QUINEBAUG, Mass. (UP)—The village of Quinebaug is adjacent to the village of Quinebaug. Only the state line separates this Massachusetts village from an identically named community in Connecticut.

ishes with the old fluorescent night fishing finishes applied to some lures. Firelacker finishes on lures are in their infancy.

The smart angler will watch manufacturers licensed to apply firelacker to their lures for some startling designs will be developed in the near future. In the meantime, keep some handy in your tackle box and greater fish catches will result.

Annual Homemaker's Picnic Set 7:30 Tuesday Night

Members of the Home Makers Class of the First Baptist Church will meet at 7:30 p. m. at the City Park for their annual family picnic. Each member was asked to bring a basket lunch, dishes and drinking glass for each of their family or guests. Iced tea will be furnished. All members and prospective members were invited.

Anniversary To Be Celebrated At Benefit

Members of the Women's Society of Christian Service are celebrating their 12th anniversary Monday evening at 7, July 17th with a benefit ice cream supper on the lawn at the home of Mrs. W. P. Leslie, 507 Hillcrest Street.

Tables will be placed for the convenience of guests that they may come and go. Curb service has also been promised those who do not care to leave their cars.

Only home made ice cream and cakes will be served, the spokesman said.

LIVESTOCK MARKET
By United Press

FORT WORTH, July 10 (UP) (USDA)—Livestock:

Cattle 5100. Active, all classes stronger, some sales higher. Good fed steers and heifers 28.00-29.00, medium largely 25.00-27.50, common 20.00-23.00. Common and medium cows 18.00-20.50, good 21.00-22.00, canners and cutters 13.00-18.00, some shelly canners under 13.00. Medium and good sausage bulls 21.00-23.50, cutter and common 17.00-20.00. Stocker yearlings 20.00-28.00. O-

der feeder steers 20.00-27.00. Stocker cows 18.00-22.00. Calves 1700. Active, strong. Good and choice slaughter offerings 25.00-29.00, a few to 30.00, common and medium 18.00-25.00, culls 16.00-18.00. Stocker calves 20.00-30.00. Hogs 1100. Active. Butchers 50 75 higher than Friday's average, sows 50 higher, feeder pigs 1.00 higher. Good and choice 185-265 lb. barrows and gilts 23.00-25, highest since December 1948, good and choice 160-180 lbs. and 270-325 lbs. 21.00-23.00. Sows 17.00-19.00. Feeder pigs 18.00-20.00. Sheep 7700. Spring lambs active and strong, other classes about steady. Medium and good slaughter spring lambs 25.00-27.50, good and choice 75-82 lbs. 28.00. Most slaughter yearlings around 20.00, one load 21.00. Cull to good aged ewes 10.00-11.50, few good aged wethers 12.00-50, one load 13.00. Old bucks 9.50-10.00. Feeder spring lambs 20.00-22.50. Feeder yearlings 16.00-18.50.

DALLAS, July 10 (UP)—Dallas police dusted off an old city ordinance prohibiting "driving a motorboat while drunk" yesterday when two boats crashed together at White Rock Lake. Park police arrived as the two "admirals," one of them a couple of sheets in the wind, had docked their boats and threatened to mix it in a fist fight. Both men were taken to jail. The tipsy mariner, 45, was released on \$100 bond and the other was freed without being charged. Officers said it was the first instance in several years the "naval law" had been invoked.

DALLAS, July 10 (UP)—The U. S. Marine recruiting office declined to reveal how many young men want to become leathernecks but admitted "we're keeping busy." Possible recruits, including many former marines, appeared at the recruiting office in increasing numbers over the week-end.

Even more than meets the eye!

Look—The beauty you see on the surface of this sleek new Chrysler is only a hint of the value that lies beneath! When you feel the surge of life that stirs through this entire silent beauty as it takes off, you'll know there's nothing like it! When you feel its comfort . . . as you settle down in the softness of chair height seats, you'll say, "There's no comparison!" Before you decide on any car, look into Chrysler's value all the way through!

Beautiful Chrysler 4-Door Sedan . . . Today's Style Classic

Chrysler Driving Advantages:
Fluid Drive . . . automatic gear shifting with exclusive car control! High Compression Spillfire Engine . . . extra power at all speeds. Super-finished parts for longer life. Chemically treated cylinder walls for greater wear! Waterproof Ignition System . . . prevents stalling in flood or storm. Full Flow Oil Filter keeps oil clean.

Chrysler Comfort Advantages:
Chair Height Seats . . . no crumpling on the floor . . . Functional Design . . . room for your head, legs, shoulders. Easy to enter and leave. Center-arm Steering . . . minimizes road shock, wheel lift. Rubber Body Mountings . . . Floating Power . . . eliminate vibration, help give softest, smoothest ride in history.

Chrysler Safety Advantages:
Safety Rim Wheels . . . won't throw tires after blowouts at normal speeds. Constant Speed Windshield Wiper . . . electrically operated. Safe Guard Hydraulic Brakes . . . balanced brake power, smoother stops, less pedal pressure. Cyclebonded linings for double the wear. Full vision . . . wherever you need it.

See it—drive it . . . there's built-in value all the way through!

The Beautiful **CHRYSLER** with Fluid Drive
