PRICE FIVE CENTS

YOU NAME IT

By Everett Taylor

THE 1950 EDITION OF THE Eastland High School Maverick football squad will meet for the first time at the high school gym at 5 p. m. today.

With only five lettermen returning, none of them offensive starters last year, Coach Wendell Sieber, and his aides will have a tough job of building a team which will give district foes a close game.

Cisco has dropped down from class AA to add to coach's problems in this district. Comanche has 13 of 15 lettermen returning, and Ranger is expected to be tough again after winning the title last season.

Nevertheless, coach Siebert will field a team which will put up a hard scrap for each game win or not.

The first week or so will be spent in conditioning. Siebert said workouts would be in the late afternoon, and some at night if conditions permit. Conditions being mosquitoes which are particularly bad around the field at this time of the year.

With football beginning to steal the spotlight from baseball weary fans, we must conclude that fall is not too far away.

THE OIL RIP HORNS TOAD Derby is over, and the affair is being hailed as a success by most corners.

Everything went about according to schedule, and the crowd was well behaved with no disturbances reported by police.

Some disappointment was expressed because an Eastland toad did not take first place, but the second and third spot local winners helped soothe that letdown a great deal.

Failure to have a section of Commerce Street blocked off on the south side of the courthouse during the coronation of the Queen caused some disturbance to that otherwise very impressive ceremony.

Most of the concessions reported a good intake to go to the benefit of their respective sponsors, the clubs and organizations of the city.

None of the profits went to individuals, except from the prizes paid for the winning toads.

All of which makes the whole affair seem to be a great success, with flaws of course, which officials hope to iron out next year.

SPEAKING OF FLAWS, WE made one in the Sunday column.

We regretfully learned that the column was written in such a manner as to give the impression to some readers that we believed our present physicians of the city to be inefficient. Nothing could have been farther from our purpose.

Most of Eastland's doctors have been here for a number of years, giving their lives to the city's health. Too much credit cannot be given these doctors. They have served and are still serving local citizens, with the highest degree of their professional skill. We feel that their great records here cannot be blemished in any manner.

Their was the decision to serve Eastland, even when other cities may have offered them better advantages in their profession. They are still serving the city which still lacks these advantages, and no doubt will continue to serve the city until they find it no longer possible.

We would not in any manner wish to take from them any portion of the great amount of credit and honor they deserve as first class citizens of the city, and as first class members of their profession.

The point we were trying to make in our fallible manner was that the city may not be fortunate enough to secure and hold such competent doctors in the future without a hospital.

Most of our present doctors have served long and honorable for the city, and are still serving, and serving well.

But of necessity, they will have to be replaced sometime in the future. The point which alarms citizens is the city's inability to attract and keep young, general physicians. They wonder who will replace these veteran doctors who now are tending our sick when they must be replaced.

A hospital would be of inestimable aid to our present physicians. It may be a necessity to attract new physicians as they are needed.

Labor Roundup CIO UNITED AUTO WORKERS WALK OUT OF PACKARD PLANT; RAILROAD TRAINMEN THREATEN TO CALL NATIONWIDE STRIKE

CIO United Auto Workers walked out at the Packard Motor company plant in Detroit today, and 300,000 railroad conductors and trainmen threatened to call a nationwide strike unless there was an immediate break in stalemated negotiations.

The Packard strike, second to hit the automobile industry this year, idled 8,000 employees just as the company prepared to put 1951 models on display.

John H. Kleiner Funeral Services Set Wednesday

Funeral services for John Hartman Kleiner, 54, Cisco oilman, will be held at 4 p. m. Wednesday at the First Presbyterian Church in Cisco with Rev. Stuart McRehore of Rusk, former pastor, officiating.

Rev. Len Orr, pastor, will assist in the services. Burial will be in the Oakwood cemetery in Cisco, directed by Thomas Funeral home. Kleiner died at 3 a. m. Monday in an Abilene hospital after a four month illness.

Born Jan. 29, 1896 in Cisco, Kleiner lived in and near Cisco his entire life. He was one of the developers of the shallow oil pool in Callahan and Eastland counties. He was a World War II veteran and a member of the Presbyterian church.

Kleiner married the former Johnne Mae Jensen, Dec. 25, 1925 in Cisco.

R. W. Kleiner of Eastland is a brother of the oilman. Survivors include his wife, one sister, Mrs. Ethel Atkinson of Wichita Falls; two brothers, R. W. of Eastland and M. H. of Graham; two half brothers, Joseph Woodard of Houston and Harvey Woodard of Cisco.

Cisco High School Gets New Principal

CISCO—Medford Conger of O'Donnell has been named principal of Cisco High School, Arlin Bint, school superintendent, has announced.

Conger succeeds P. O. Hatley who resigned to become superintendent of the Scranton school system after serving one year at the Cisco school.

Conger, a former Cisco resident, has been teaching 13 years in the O'Donnell Schools, the last several years as high school principal. He will assume his duties the first of September.

Lamb Beats King

The Lamb Motor team downed King Ford, 8-4, in a softball game at city park last night. It was the first time of the season that Lamb defeated the King nine.

Briggs manufacturing company, which supplies bodies for Packard, said it would have to lay off "several thousand" of its employees. The UAW walked out at midnight. Forty-five minutes later, negotiations resumed. They were to be resumed this afternoon. Union officials said the strike was called because the company was "stalling" on contract talks. C. Wayne Brownell, Packard's industrial relations manager, retorted that the union's attitude was "excessive and unreasonable."

The old contract expired June 12 and had been extended on a day-to-day basis. Negotiators said pensions and insurance demands were the major stumbling blocks. Chrysler corporation was shut down for 100 days earlier this year by a UAW strike.

In Washington, officials of the Brotherhoods of Railroad Trainmen and Railway Conductors threatened to hand the White House a "seizure or strike" ultimatum but agreed to continue talks with the carriers today under the guidance of Presidential Assistant John R. Steelman.

President W. Park Kennedy and Roy O. Hughes, president of the Conductors Union, said very little progress had been made toward a settlement of the workers' demand for a reduction in the work week to 40 hours without a cut in pay.

J. S. Lewis Spots Wildcat Oil Well Here

J. S. Lewis of Lampasas has spotted location to drill the No. 1 Gordon Woods as a 3,700 foot rotary wildcat, six miles northwest of Eastland.

The prospect is located 330 feet from the east and 990 feet from the south lines of the north-east quarter of section 55, Block 4, HTC Survey.

Bankline Oil Company has staked the No. 6 Briggs-Owen as an offset to Lake Sand production in the Briggs-Owen field about three miles west of Eastland.

The exploration is located 330 feet from the north and 810 feet from the east lines of Section 48, Block 4, H&TC Survey.

The well is slated for 3,850 feet with rotary.

THE WEATHER

Scattered thundershower activity was building up in parts of West Texas early today, indicating possible rainfall for that section of the state late today.

Elsewhere, the U.S. Weather Bureau expected little variation from the generally hot and dry weather of the past several days.

But Steelman, the government's top labor trouble-shooter, and management spokesmen said they believed the negotiators came closer together last night.

Representatives of the New York World-Telegram and Sun and the CIO American Newspaper Guild scheduled a negotiating session today as the Guild strike against the newspaper entered its 10th week. Federal mediators said negotiators were "prepared to sit in continuous session until agreement is reached."

Investigators Examine Wreck Of Big Bomber

FORT WORTH, Aug. 15 (UP)—The seared wreckage of a B-29 bomber was examined today by Air Force investigators to determine what caused the big ship to crash and kill four of its 12 crewmen.

Hundreds of Fort Worth residents saw the four-engine plane circle Carswell Air Force Base twice yesterday, then slowly veer to the north and crash five miles away.

THE BIG CRAFT WAS ON A TRAINING MISSION FROM Barksdale Air Force base near Shreveport, La. It was attached to the 91st Strategic Reconnaissance wing and was fully armed.

Witnesses said it obviously was in trouble as it slowly lost altitude and crashed 50 yards from a row of houses. Some said the ship was on fire.

IT SKIMMED CLOSE TO houses in the Indian Oak suburb, clipped a utility line and skidded 250 yards in a pasture. A series of small explosions occurred and eight dazed crew-members staggered to safety.

A loud blast followed and the plane became a funeral pyre for the four fliers still aboard.

Houston Oilman Found Shot To Death In Home

HOUSTON, Aug. 15 (UP)—Craig Cullinan, Sr., prominent Houston oilman and son of the late famous J. S. Cullinan, fabulous financier and oilman, was found shot to death today in a spare bedroom of his home.

Police said a .45 caliber revolver with one shot fired from it was found within three feet of the body. Cullinan was found slumped across a three-quarter bed when police arrived, a bullet wound in his heart. He was dressed in blue pajamas and a white, dotted dressing gown.

City Council Orders New Fire Truck

City commissioners voted Friday to order a new fire truck for Eastland, I. C. Heck, city manager has announced.

The new truck will be an American La France with 750 GPM pumper. Delivery was promised in 125 days from when chassis is turned over to them.

It is believed that prompt delivery can be obtained on the chassis. The chassis will be a Ford F-3, 145 horsepower.

Bids were asked from four different manufacturers for the truck, Heck said. Bids were received from three companies, and the commission chose the La France offer.

Cost of the truck will be \$9,500 delivered, installed on the chassis.

The 750 GPM pumper will protect the 2 per cent credit on insurance in the city, Heck added.

"The city's fire department has been in poor condition," Heck said. He added that the Seagraves hook and ladder had been brought up into good condition.

He said that the present truck pumper would be re-worked with the delivery of the new truck.

The city will pay one third cash on delivery of the truck and approval one third one year after delivery and one third the following year. Payment will be at 6 per cent simple interest.

"Delivery of the new truck will bring the city's fire equipment into first class shape," Heck concluded.

Rotarians Hear Wesson On PCA At Monday Meet

Dick Wesson gave members of the Rotary Club an inside view of the Production Credit association at their regular meeting in the Connell Hotel Monday.

David McKee, president, was in charge of the meeting. Wesson explained that the PCA is designed especially to meet the needs of the agriculture group, which has special problems, unlike those of commercial industries.

The PCA was originally sponsored by government money Wesson told the Rotarians.

"PCA in Texas is now entirely owned by farmers and ranchers," he said. "There are 36 associations in Texas and they are the only ones in the United States which have refunded to the government all capital the government had in them. This was done by their own wish. The government did not request it."

Wesson explained that the PCA was especially useful to the farmers today since farming is becoming more scientific each year, and requires a greater outlay of cash.

Following the program, Dr. J. H. Caton presented a gift to Dr. K. W. Cowan for his service to the club last year as president.

McKee announced that a board meeting would be held at 8 p. m. Wednesday at the home of Gene Hickman.

BULLETINS

WASHINGTON, Aug. 15 (UP)—Naval Reservists were notified today that applications for postponement of their recall to active duty must be submitted within 48 hours after they get their orders.

But the Navy said no applications filed before the orders are received will be considered.

Reservists ordered up will be allowed a minimum of 10 days, including travel time, before reporting, the Navy said.

LONDON, Aug. 15 (UP)—Princess Elizabeth gave birth today to a six-pound girl who may be Queen some day.

The birth of the Princess, first daughter and second child of the 24-year-old heiress presumptive to the throne, touched off celebrations throughout the British empire.

Republicans Disagree

WASHINGTON, Aug. 15 (UP)—Senate Republicans failed today to get together on party policy toward emergency economic controls for President Truman.

McMath To Ask H-Bomb

WASHINGTON, Aug. 15 (UP)—Gov. Sidney McMath of Arkansas said today that he will ask President Truman to build the H-bomb in Arkansas.

US Hits Back At Commies

By Earnest Hoberecht

United Press Staff Correspondent

TOKYO, Aug. 15 (UP)—American and South Korean troops counterattacked successfully today in two sectors at the north end of the Nakdong river line where the Communists had seized two new bridgeheads in the approaches of Taegu.

Front reports said the Communists had thrown back about 6,000 men across the river into the two new pockets.

U. S. Eighth Army headquarters announced the effective counter-blows in the Taegu area. There

the North Koreans were battling for toe-holds in the west bank of the Nakdong from which they could launch an offensive against the emergency capital of South Korea.

A few miles to the south, the U. S. 24th division slugged away at the Communist bridgehead at the bend of the Nakdong. A spokesman for Gen. Douglas MacArthur said the minimum depth of the pocket was 2.7 miles and the maximum length five miles. The Americans drove half way through it in their first assault Monday.

The predicted offensive on the Nakdong line by the Communists Monday on the anniversary of Korean independence and of the liberation from the Japanese failed to develop.

Dispatches from Eighth Army headquarters said the apparent misuse in the Communist plans could be attributed to the fact that in their constant probing at the line they had found the going rough and paid heavily.

The North Koreans managed to set up bridgeheads 15 miles southwest and 16 miles northwest of Taegu.

An eighth Army communique reported that the South Korean first division, which was handling the northern of the two enemy pockets in the Taegu sector, carried out a successful counter-attack Tuesday afternoon.

Just to the south, troops of the U. S. 1st cavalry division counter-attacked successfully, killed the gun crews of three guns and captured the weapons, the Eighth Army reported.

Its communique said the 34th regimental combat team in the 24th division area repulsed an attack by 200 North Koreans. It did not say whether this fighting was in the elbow bridgehead, where enemy troops were estimated to number 10,000 to 12,000. The 24th division was waging the attack which had reduced the pocket sharply.

Thirty Report To Dallas For Pre-Induction

Thirty men from Eastland and Stephens counties left Eastland by bus this morning for Dallas where they will take Armed Forces pre-induction physical examinations under the selective service act.

The 30 raised the total sent from the local board to date to 50. Another 50 men are scheduled to report for pre-induction examinations on August 24.

The latter group will take examinations in Abilene.

Pre-induction examinations are to choose those men physically able for duty in the armed forces. Induction calls will be sent out later.

Induction calls are expected to come after mid-September.

Grand Jury Opens

HOUSTON, Aug. 15 (UP)—A special grand jury investigation into charges that night police chief M. M. Simpson and Sgt. Andy Divine accepted "bribes" to allow a night club to operate after curfew opens tomorrow.

Ferguson Reports

Signs KoReds Are Preparing To Challenge US Control Of Skies

By Harry Ferguson
United Press Foreign News Editor

The problem that is keeping the Communist high command awake at night is how to put some planes in the air and keep them there. The United States Air Force has drawn blood in Korea. There are signs today that the Communists are about to take some desperate measures in an attempt to stop the ceaseless rain of bombs on their troops and supply centers.

American pilots have returned to their bases with some interesting pictures and observations. They flew over the Korean east coast city of Wonsan which has been well plastered with American bombs. They observed that the Communists are trying to repair the Wonsan air field and the going in for an elaborate system of revetments designed to protect fighter planes on the ground.

From that they drew the conclusion that the Red Air Force is about to come out of hiding and challenge our fighters and bombers. The Reds haven't much choice. No matter what is happening on the ground, the United Nations is winning the war upstairs and the Communists are smart enough to know that no modern army has won a war without having at least equality in the air.

The Communists had about 300 planes when they invaded South Korea. There was a flurry of fighting in the air for about a week after our planes joined in the battle and then the Red Air Force pulled out of the fight. They were using mostly Yak and Il-8 planes, manufactured in Russia. Those planes are obsolete, slow and un-piloted had what they call "a turkey shoot" every time there was a fight.

There are no plane factories in North Korea and none of any consequence in Communist China. If the Reds are going to make any serious challenge in the air, they are going to have to get on

the telephone to Moscow. They will have to ask, not only for planes, but for pilots. That means Russian pilots and if and when Stalin is forced to make that decision he also will have to decide whether he is ready for World War III.

EVEN OUR GROUND FORCE officers admit that the U. S. Air Force saved the day in Korea. We probably would have been pushed into the sea in the early days of the fighting if our planes making over water hops from Japanese bases, had not torn into the Communists in ground-support actions. Now we have bases in Korea and can step up the air assault.

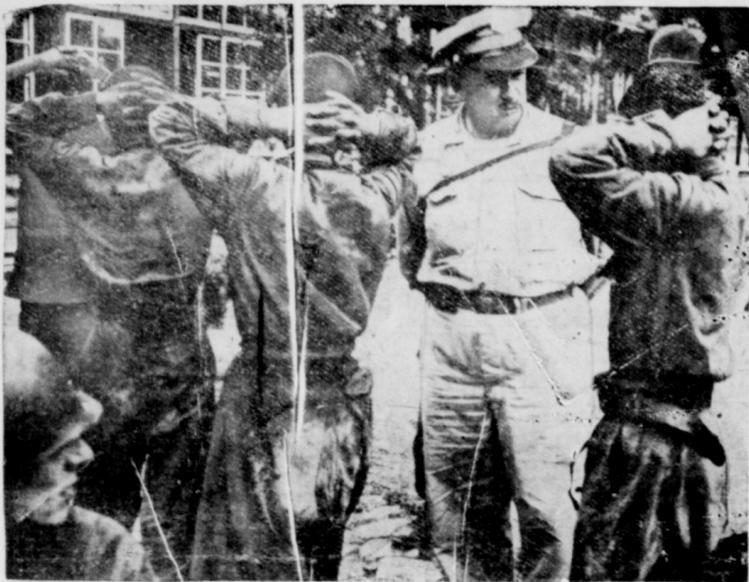

But from a long-range standpoint it is Maj.-Gen. Rosy O'Donnell's big bombers which are giving the Communists bad nights and days. They are hitting at the places where the Communist ground forces get their gasoline, guns and ammunition and gradually are drying up the enemy's sources of supply.

Charles Cordry, United Press aviation writer, sends this note from Korea telling how the B-29s are pin pointing their strategic targets:

"I SAW THE PICTURES today of the result of the raid by 50 superforts on the Chosen Oil Refinery at Wonsan. The refinery was flattened. Across the river the residential areas were untouched. O'Donnell's bomber command has far exceeded the 5,000 tons of bombs per month which he promised to deliver, and more than half that tonnage has been dropped on five strategic targets."

There is a saying that an Army travels on its stomach. That was true in Napoleon's day, but it isn't true any more. A modern Army travels on gasoline.

Hollywood Film Shop

By Patricia Clary
United Press Staff Correspondent
HOLLYWOOD (UP)—Joan Fontaine, one of Hollywood's best hostesses, says her secret is to act at her parties as if she were a guest.

"I do my worrying first," she says. "Then when my guests arrive I relax."
Miss Fontaine entertains effortlessly, a result of grace, charm, elegance, originality and lots of practice. Her parties are so famous around town that she was asked to serve as technical adviser in Paramount's "Mr. and Mrs. Anonymous."

The script called for a formal dinner party for 50 in a small but elegant New York apartment. Miss Fontaine coached as hostess at the same time she was acting her part in a tense dramatic scene.
"Don'ts" for Hostesses
These are Miss Fontaine's "don'ts" for good hostesses:
Don't starve your guests until midnight and then in surly desperation blame the cook. Plan the time for serving and stick to it.
Don't try to revive a conversation that seems to be dying. Nine times out of ten, the conversation isn't worth reviving.
Don't be a superorganizer at your own party, and don't encourage any guests who are. Let the party roll, make suggestions but don't rush.
Don't overheat and watch out for fresh-air friends.
Don't plague guests with food and drink. They may be allergic not thirsty, on the wagon, or stuffed to the gills. And they may prefer that you don't notice it.
It Never Works
Don't play cupid. Don't drag an unattached woman to the first bachelor in sight and announce "you two must get together." It never works.
Don't try out new recipes on guests. Experiment on the family first and save frayed nerves for you and the cook (if any).
Don't get in a rut, serve new foods or new drinks, and try to make them all attractive to the eye.
Don't insist on people staying later than they want to. They'll be bored, and so will you.

Dallas Youth Shot During Robbery Try

SAN ANTONIO, Aug. 15 (UP)—A Dallas youth tried to hold up a San Antonio filling station attendant today and received a shot in the chest for his efforts. Police identified the hijacker as Rufus Ivy, 22. His condition was reported as critical.
ATTENDANT JOHN YATES said the gunman entered his filling station, took money from the cash register and searched his pockets, but overlooked a gun concealed in his shirt.
Yates said a motorist drove into the station and the gunman ordered him to wait on the customer. He said he walked toward the automobile, pulled his gun and shouted: "Okay, buddy, put your hands up."

Pierce Brooks Asks New Blood

WACO, Aug. 15 (UP)—Pierce Brooks, Dallas insurance man seeking the Democratic nomination for Lieutenant Governor, called last night for "injection of new blood" into state government to eliminate "existing confusion."
Voters will choose between Brooks and Ben Ramsey, former state senator and secretary of state, in the Aug. 26 runoff election.
Brooks, renewing his assault against "professional office holders," charged they have brought Texas "to the brink of its worst financial crisis in history."
Meanwhile at Seton hospital in Austin, Ramsey's condition from an intestinal ailment was reported "much better." He marked his absentee ballot for the runoff election yesterday.

Venezuela Chief Visits

SAN ANTONIO, Aug. 15 (UP)—Lt. Col. Felix Roman Moreno, chief of Venezuela's armed forces, will visit Lackland Air Force base tomorrow and study its methods of indoctrinating personnel.

KoReds Have Plenty Men

NAKTONG RIVER FRONT, Korea, Aug. 15 (UP)—Maj. Gen. John H. Church, commander of the 24th division, said tonight that the North Koreans apparently still had ample manpower to throw into the war.

End of a Chapter

By Edwin Rutt
THE STORY: Soon after taking the job of secretary to the popular writer "Jo Polkrose," who is really Mrs. Muriel Hallick, Alice Pine wages a tension between Muriel and her husband, Brent. Village gossip with Molly Tremayne holds up Brent as aimless and aimless. However, Alice decides not to pry into private lives. She does, however, take an interest in four-year-old Rick, the adopted son of the Hallicks. On the afternoon off of the maid strike, Alice plays nursemaid and takes Rick to the beach. There Alice meets Brent, who is an artist. Brent angers her with his sardonic attitude. But Brent insists that she sit down on the sand beside him.
VIII
ALICE PINE looked at Brent Hallick almost pityingly. His habitual mockery did not deceive her or, unquestionably, anyone else. It was only a poor camouflage for an inner and esoteric discontent.
"Where were you talking about Rick," Alice reminded him.
"Where were you talking about Rick," Alice reminded him.
"Where were you talking about Rick," Alice reminded him.

Nash Signs World Famed Designer

Pinin Farina, internationally known Italian designer and body builder of some of the world's most exclusive special cars, has been appointed a consultant to Nash Motors, according to George W. Mason, president of Nash-Kelvinator Corporation. The car shown is one of the Farina-designed "specials" and was built on a Cisitalia chassis. Farina, now visiting in this country, is head of the renowned European custom body factory that bears his name. It is located at Turin, Italy.

Air Force Works

United States Unveils Potent New Weapon—11.75 Inch Rocket

By Charles Moore
United Press Staff Correspondent
TOKYO, Aug. 14 (UP)—The United States unveiled a potent new weapon—an 11.75-inch "Tiny Tim" rocket—in its air offensive against the North Korean Reds today.

A spokesman for Gen. Douglas MacArthur disclosed that carrier-based Corsair planes used the new "Tiny Tim" rockets to smash the Han river bridge at Chungju yesterday.

But that was only one raid in one of the most successful days since the American air offensive against the Communists began. Allied communiques also reported that: 1. American B-26 bombers literally blasted "Seoul City Sue," counterpart of World War II's "Tokyo Rose," off the air with an attack on the Seoul radio transmitter. "Seoul City Sue" was about to broadcast when the B-26's attacked with 200-pound fragmentation bombs. The transmitter went off the air.

2. Carrier-based planes blew up a landing vessel and a minesweeper and set fire to a 200-foot freighter and a liberty-type freighter in raid on Chinnampo, west coast port for Pyongyang, capital of North Korea.

3. Other carrier planes destroyed 13 locomotives and damaged 23 yesterday, set fire to two fuel oil trains and hit three others trains with rockets and napalm bombs, causing "major damage." They also destroyed five Yak fighters and damaged two others on the ground at Seoul's Kimpo airfield.

4. Fifth Air force fighters damaged eight enemy tanks, 56 trucks and other vehicles, two locomotives, two supply dumps, 10 warehouses, three bridges and five gun emplacements.

5. B-29 superfortresses hit bridges in North Korea and dropped bombs squarely on remote portions of the Konan chemical plant which had survived earlier bombings.

Rear Admiral John H. Hopkins, tactical air commander of the U.S. Fleet's Task Force 77, said his carrier planes had their biggest single day of the war Sunday. He said that carrier planes had stopped 35 per cent of North Korean supplies from reaching the fighting front during the past week.

The only sour note on the air front was the evacuation of Pohan airfield in the east coast biggest and best Allied airfield in Korea. Mustang fighters and their air and ground crews were pulled out because of "harrassing enemy ground fire at aircraft flying normal traffic patterns," a communique said.

MacArthur's spokesman said the Navy's new "Tiny Tim" rocket measures exactly 11.75 inches in diameter and is carried under the Corsair's wing like smaller rockets.

Each plane usually carries two, one under each wing, the spokesman said. He said the rocket has an armor-piercing charge and was designed originally for use against ships.

5. B-29 superfortresses hit bridges in North Korea and dropped

5. B-29 superfortresses hit bridges in North Korea and dropped

Civilian Defense

Defense Against Atomic Blast Possible Outside 1/2 Mile Zone

Editor's Note: The government has issued a long-awaited report on "the effects of Atomic weapons". The following dispatch is the first of a series on what A-bombs do and what the government says can be done to protect people and property from Atomic death and destruction.

By Joseph L. Myler
United Press Staff Correspondent
WASHINGTON, Aug. 14 (UP)—Something can be done about the Atomic bomb.

That is the theme of the government's newly published report on "the effects of Atomic weapons."

True, the bomb is the greatest killing and destroying weapon ever devised.

But, the government says, a lot of "practical" measures can be taken at least to reduce its lethal range.

As a defense official said in commenting on the book:

"We don't have to sit back and say that 60,000 people are going to die because a bomb goes off." The book does not purport to be a civil defense blueprint. The National Security Resources Board the agency responsible for civilian defense, plans to give the country such a blueprint Sept. 8.

But the A-bomb effects book tells as precisely as possible what to defend against and it details the major requirements for doing it.

It says frankly that mass protection within half a mile of an Atomic explosion "would not generally be feasible."

But protection outside that limit—and the book says it is possible—would save thousands of lives and millions of dollars worth of property.

Half a mile is 2,640 feet. Without protection nearly 80 per cent of the people 3,000 feet from an Atomic target center would die. At 4,000 feet nearly 60 per cent.

At 6,000 feet 20 per cent. At 7,000 feet 15 per cent.

The book says it is "practical" to try to save them.

In Japan property suffered damage ranging from total to light out to eight miles.

The book says it is "practical" to try to minimize that damage outside the half-mile range.

But to protect against the A-bomb defense planners must know what the A-bomb does.

It kills and injures, destroys and damages with air blast, ground or water shock, heat radiation, nuclear radiation, short-lived or long-lived, and with the widespread fires it sets.

Protect against a single weapon that does all that, much of it in a matter of seconds?

Sanitation and thorough cleanliness in the home are instinctive with the average housewife, but at this time their importance to health must be re-emphasized.

Home sanitation includes those taken-for-granted measures as washing the dishes in hot soapy water and rinsing them in hot clear water; keeping sinks, bathtubs and fixtures scoured clean and rinsed with a mild antiseptic solution; sunning and airing bed clothes, ridding the home of flies, rats and roaches which, since poliomyelitis is believed to be a

filth-borne disease, are suspected as being responsible for transmission.

"If good personal hygiene is combined with good community sanitation and hygiene, it is hard for any disease to get a foothold," Dr. Cox said. "With such a dread disease as poliomyelitis prevalent in the state, no precaution should be overlooked and no bars should be left down for its entrance."

Your Health

AUSTIN, (Spl.)—In addition to the general instructions for community sanitation which are important in preventing poliomyelitis, Dr. George W. Cox, state health officer, today issued an urgent warning to every individual in Texas to practice strict personal hygiene to protect his own health and that of those about him.

"Of course, cleanliness and personal hygiene are ordinarily taken for granted," Dr. Cox said, "but at this time with the incidence of poliomyelitis having reached a total of 1395 cases I would like to re-emphasize some personal sanitary measures which may help

Dive Bombers, Fighters Plaster Pyongyang With Rockets, Bombs

By Jack Burby
United Press Staff Correspondent
WITH U.S. TASK FORCE 77,
off Korea, Aug. 13—(Delayed)—
(UP)—Dive bombers and fighters plastered Pyongyang with bombs, rockets and cannon fire today in the Korean war's largest single carrier strike against the enemy capital.

Other carrier-based planes hit railroad marshalling yards within 15 miles of the Manchurian border.

There was high overcast over Pyongyang and pilots had to thread their way through the heaviest flak they have encountered so far. Nevertheless they reported that they "never had it so good."

It was the first meaty target offered this task force's warplanes after more than a week of hunting along central Korean highways and trails for the hard-to-spot Communist supply lines.

Lt. Commander Jerry Lake, 35, of Los Angeles, who led a five-bomber attack on the Pyongyang air field, said, "they walked big puffs of flak right in with us, but it was not very accurate. We pushed over near the air field, and the first three planes got their bombs right in the machine shop and building area. I think we ruined that air field."

Lake then led his dive bombers along the railroad tracks and they wiped out eight locomotives on their way home.

"I caught a live one with a burst of 20-millimeter," Lake said. "It was the first locomotive I've

seen moving, and it really blew up."

While the bombers hit the air field, Corsair fighters lugging bombs and rockets circled above the overcast over Pyongyang trying to get their bearings.

"We didn't have to look too long," said Commander R. W. Vogel, Jr., "They sent up some ack ack to show us we were right over the target."

Vogel's planes hit the railroad tracks after Lake's.

"I dove right in close to one locomotive and let go with my last rocket," Vogel said. "My wing man said it just disintegrated."

Other Sky Raiders and Corsairs dragged Communist supply lines above the 38th parallel, strafing southbound troop trains near Pyongyang, and blowing up eight ammunition boxes, ten ammunition trucks, and a highway bridge.

One bomber group hurled incendiaries and rockets into the Haeji marshalling yards.

Takes A Doctor's Advice Gas Station Man's Neuritis Pains Leave Completely After 3 Bottles Of Hadacol

Father helped, too, who also had deficiencies of Vitamins B₁, B₂, Iron and Niacin

Wesley Scallions, energetic young gas station attendant in Peoria, Illinois, tells how HADACOL keeps him on the job feeling fine. Wesley Scallions has this to report:

"I took HADACOL upon the advice of my father who has taken it regularly for some time. He could not eat, was unable to get around, lost sleep and was generally run-down. My brother who is a doctor recommended HADACOL to Dad. Since taking HADACOL, Dad has been feeling like a different man; he now has a hearty appetite, sleeps well and gets around once again on his own.

"I have had pains in my right arm and legs. Due to this condition I lost many days of work until I started to take HADACOL. After my third bottle the pains left me completely and now I work every day and overtime also, without having any pains. I am a gas attendant and need full use of both arms and legs in my line of work. Thanks to HADACOL I can now perform my job satisfactorily and feel fine."

Don't Be Satisfied With Symptomatic Relief

No longer do you have to be satisfied with symptomatic relief—HADACOL now makes it possible to actually relieve the REAL CAUSE of those fiendish, stabbing neuritis aches and pains when due to lack of Vitamins B₁, B₂, Iron and Niacin in the system. I can now perform my job satisfactorily and feel fine.

AND LISTEN TO THIS! Continued use of this great HADACOL not only gives continuous, complete relief but helps keep such painful distress from returning. That's the kind of product you've been waiting for — the kind you should buy and start taking at once.

Many doctors recommend HADACOL. It is also wonderful for stomach disturbances (gas pains, indigestion, bloating, heartburn) constipation, insomnia and a general nervous run-down condition due to such deficiencies.

Be fair to yourself! Why go around feeling half-alive — a burden to others when you can get this great HADACOL at any drugstore. Remember — HADACOL must help you or your money back. Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50. Any drugstore.

THE STATE OF TEXAS
COUNTY OF EASTLAND

NOTICE

The City Commission of the City of Eastland, Texas, having determined by resolution and order duly adopted at a meeting of said commission at which all members thereof were present, that it is advisable to make an oil, gas and mineral lease or leases on certain lands owned by the City, described as follows:

all those certain tracts or parcels of land, containing 355.84 acres, more or less, a part of Sections 25 and 26, Block No. 4, H. & T. C. Railway Company survey, and being all of the property described in the deed from Homer Brelsford, Administrator of the Estate of H. P. Brelsford, Deceased, to the City of Eastland, dated March 10, 1941, recorded in Volume 363, page 281, Eastland County Deed Records, SAVE AND EXCEPT, that portion of the property described in the deed from the City of Eastland to R. N. Grisham and N. E. Grisham, dated May 22, 1941, recorded in Volume 362, page 350, Eastland County Deed Records, and SAVE AND EXCEPT that portion of the property described in mineral deed from the City of Eastland to Eastland Investment Company and G. L. Brelsford, dated March 31, 1941, covering the Southwest Quarter of Section 13 in said Block 4, and 91.5 acres out of the Northwest Quarter of Section 13, Block 4, H. & T. C. Railway Company Survey and which deed is duly recorded in the Eastland County Deed Records and is here referred to, hereby including all of the property commonly known as the Brelsford Lands in Sections 25, 26, and 13, Block 4, H. & T. C. Railway Company Survey, excepting that portion above specifically referred to;

the City Commission of the City of Eastland will on the 8th day of September, 1950, at 7:30 p.m. at the City Hall in Eastland, Texas receive and consider any and all bids submitted for the leasing of said lands or any portions thereof, and in its discretion shall award the lease or leases to the highest and best bidder submitting a bid therefor, provided that if, in the judgment of said City Commission, the bids submitted do not represent the fair value of such lease or leases, the governing body, in its discretion, may reject same.

SIGNED this 11th day of August, 1950.

Truman, Rhee Predict Victory Over "Savage" KoRed Invaders

By Rutherford Poats
United Press Staff Correspondent
TAEQU, Korea, Aug. 15 (UP) — President Syngman Rhee of South Korea and President Truman of the United States predicted today that the Communist invaders of Korea will be defeated.

In a speech marking the second anniversary of the Korean republic, Rhee said the United Nations forces eventually would smash the North Korean invaders and that the country would be unified under his republic.

Truman sent the 75-year-old Rhee a telegram acknowledging the anniversary and declaring that the "savage and ruthless Communist invader" would be defeated.

but the day of their total defeat will soon be here and we shall complete the unification of the north and south of Korea for all time to come."

"If this had been simply a civil war we would fight it out and decide the issue among ourselves, but the facts have proved that that is not the case," Rhee said. "A strong power behind the northern puppet is using them to overthrow our republic and make the entire peninsula one of their satellites. That is why the free world rose up in indignation."

Truman's reassuring telegram to Rhee said that the principles of "right and democracy" would win out in the end.

BOYCE HOUSE

A mother and her daughter were busy with the wedding plans when the bridegroom-to-be was called and watched the preparations.

"Darling," the young lady said, "We have so many things to do and we want to make our wedding a success; we mustn't forget even the most insignificant detail."

"Oh," he said, "I'll be there all right."

NEUTRALIZATION OF FORMOSA—A study of the map of the Far East, in the light of Communist methods of operation and the lessons of World War II, will show the importance of the decision to neutralize Formosa. Airfields on that island are only 400 miles from targets on Okinawa, a little farther from targets in the Philippines, and less than 800 miles from targets in Japan. Along with these points and Indo-China, Formosa might be in the first line of defense against Communist aggression in the Far East. If the Communists should seize Formosa now, they would not only break that line but also pave the way to conquest of the other points. Remembering the long years of costly, bloody island-hopping in World War II, it is easy to picture the hard road back that the forces of freedom would face.

Formosa is separated from the mainland of China by a strait from 90 to 200 miles wide. An island about 235 miles long and from 70 to 90 miles wide, it is about as large as Massachusetts and Connecticut combined and has a population of 7,000,000.

Ezzard Charles Figures To Take Opponent Early

BUFFALO, N. Y., Aug. 15 (UP)—Ezzard Charles plans to knock out Freddie Beshore within three rounds tonight in their heavyweight title fight at Memorial auditorium.

That's what the brown-skinned champion told friends before today's weigh-in and physical examination.

"I'll make it quick; I'll make up for lost time," said the slender broad-shouldered Cincinnati Negro who is returning to the ring after an absence of 10 months for their twice-postponed 15-round bout.

Charles, who is recognized as champion only by the National Boxing Association, had two reasons for his determination to belt out the blond Pennsylvania Dutchman in a hurry. They were:

(1) Because of Ezzard's fractured rib and bruised heart-muscle that had caused the two postponements, he did not relish the prospect of subjecting his midsection to a lengthy bombardment by Beshore, a body-punching specialist.

(2) He wanted to appear like a tiger against Freddie so that his proposed title fight with Joe Louis at New York, Sept. 27, would draw more than \$500,000.

Officials of the International boxing club probably will announce the Charles-Louis match immediately after tonight's scrap, if Charles wins as almost unanimously expected.

Apparently Beshore and manager Ralph Gold were the only ones who gave the challenger from Harrisburg, Pa., a chance. There was no betting although Charles' admirers were offering 5-1 and higher on a victory, and 3-1 and higher on a knockout.

Despite the pessimism of promoter Dewey Michaels, tonight's indoor show was expected to attract more than \$70,000. A sellout would mean 12,800 fans and \$78,000. Although the ticket sale had picked up briskly yesterday, the promoter held his gate-prediction of \$65,000. It will be Buffalo's first heavyweight title fight.

This charming, traditional Junior dining set has all the fine styling of a full-size group. The drop-leaf table may be folded against the wall when not in use. Of fine mahogany with chairs upholstered in a handsome fabric. Hutch cabinet has space for china, silver, linens and other accessories. (Drexel Furniture Co.)
