No. 80 UNITED PRESS WIRE SERVICE

EASTLAND, TEXAS, WEDNESDAY, AUGUST 16, 1950

NEA FEATURE SERVICE

PRICE FIVE CENTS

40 Gridders Out For Fall

Forty prospective players reported to Eastland High School Football Coach Wendell Siebert at the high school Tuesday afternoon.

Only four lettermen, Eddie Haines, Gerald Davis, Doug King and Dick Evans, were in the group. Siebert's fifth letterman returning from last year, Ed Aaron, is confined to bed with a case of mumps, and is expected to miss the early part of the season.

Activities for the first day were mostly for organization, and a short discussion of new rules and rule changes. Siebert discussed rule changes and the season schedule.

Siebert said that he would count heavily on the lads coming up from junior high.

SHOES AND SOCKS WERE the only equipment issued at the Tuesday meeting. Actual work will begin today, with conditioning on the schedule for about a week or ten days.

The first game of the season is slated with Coleman at Coleman on September 8. Siebert said that there was a lot of work to be done before that time.

Workouts begin at 5 p.m. each day. Siebert said that he expects some other boys to report soon and bring the total number attending workouts to near 50.

INCLUDED AMONG THOSE reporting Tuesday were James Freeman, Eddie Haines, Lowell Herring, Derrell Black, Buddy Aaron, James Allison, John Burlison, Guy Warden, Harold Justice, Herman Hassell, Gerald Davis, Fred Williams, Doug King, Bob Womack.

Don Martin, Morris Riggan, Gail Hogan, Larry Miller, Dick Evans, June Davis, Jamie Jessop, Richard Lane, Gerald Ables, Herman Watson, La Verne Meroney, Don Chrisman, Rodney Stephen, Niel Van Geem, Raymond Greenwood, Eckey Jordan, Bobby Cooper, John Whately, Gene Boles, Hill Gaeta, Alan Vermillion, Carol Massingale, Robert Burdick, Bob Frost, Don Roloff, and Gerald Harris.

Among those who have indicated they will report for workouts are Boyd Franklin, Roy Carey, Joe Muirhead and Ed Aaron.

Special Showing Of 'Stars In My Crown' At Cisco

The following is a message for theatre goers in this area: "As manager of the Palace Theatre, Cisco, Texas, it gives me great pleasure to tell you that our city has been honored by being chosen for a special showing of the M-G-M production, 'Stars In My Crown.'"

'Stars In My Crown' tells the stirring story of a typical American town and its people and its fighting parson. "Two Gun" Parson Gray was a man whose words were loaded as well as his guns. You'll admire and understand him."

Starring Joel McCrea, Ellen Drew and Dean Stockwell, the picture is already being hailed as one of the finest family pictures of 1950. It has been awarded the Parents' Magazine medal for outstanding merit. It is based on a series of Saturday Evening Post stories and the book by Joe David Brown that thrilled countless readers.

"I personally consider 'Stars In My Crown' an exceptional entertainment and I urge you all to see it."

Sincerely, J. T. Edwards.

There will be a matinee at 2:45 both Thursday and Friday, August 17 and 18.

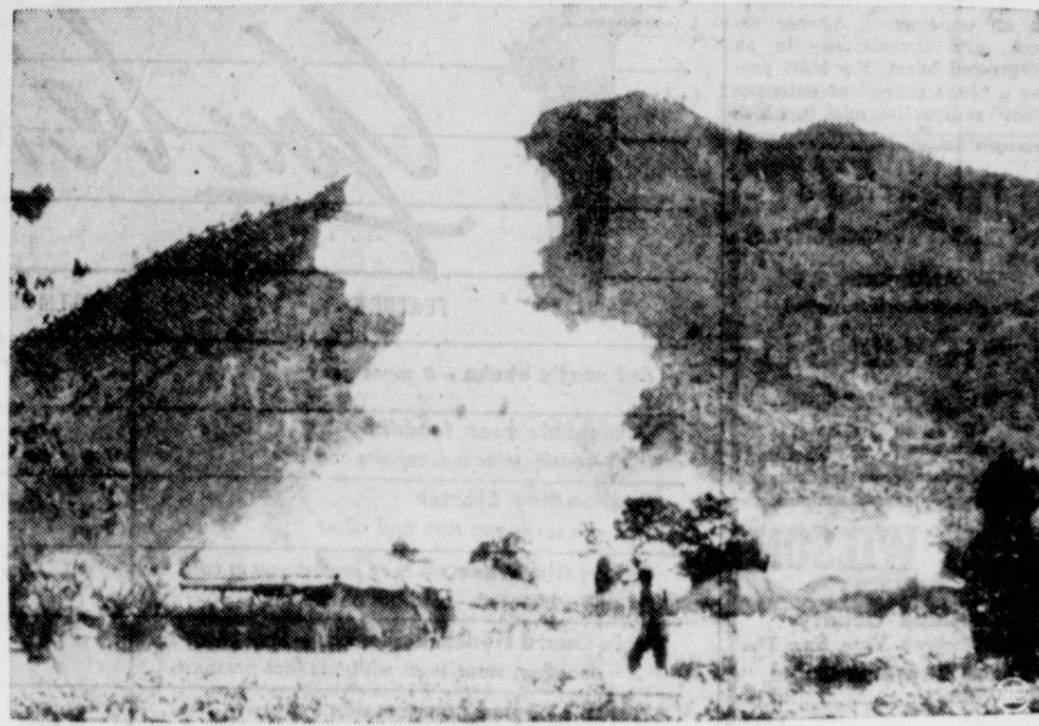

Budget Hearing Set

A public hearing of the 1950-51 school budget of the Carbon Independent School Board will be held Thursday night, August 22, it has been announced.

Partial Relief In Sight

MINNEAPOLIS, Aug. 16 (UP)—At least partial relief is available today for 80 to 90 per cent of the millions of hay fever sufferers due to start their annual sneezing marathon.

For Good Used Cars (Trade-ins on the New Olds) DeSoto Motor Company, Eastland

MORTAR BARRAGE BURNS KOREAN VILLAGE—Infantrymen cautiously prepare to advance on a South Korean village which was set afire by a mortar barrage in fighting near Masan. (NEA Telephoto).

Ko Reds Drive Boys Armed With Fire Crackers To Lead Attacks

WITH 8TH U. S. ARMY, Korea, Aug. 16 (UP)—South Korean schoolboys armed only with noisy firecrackers have been driven forward by the Communist army as the first wave of its infantry attacks, a South Korean spokesman charged today.

He said Red police drove the boys forward as cannon fodder. Behind the police, he said, comes the third wave—North Korean regulars.

Col. Sun Keun Lee, South Korean army public relations officer, displayed firecrackers he said were picked up from dead and captured boys after a successful counter-attack today against a Red regiment on the eastern flank of the Naktong river bridgehead five miles northeast of Waegwan.

The captured boys—about 15 or 16 year old—were questioned. T. Lamb Named GMC Community Relations Head

General Motors has announced that Theo Lamb, local Chevrolet and Frigidaire dealer for the past seven years, has been re-appointed to serve the next year as GMC Community relations chairman for Eastland and vicinity.

The chairmanship carries a community service responsibility. GM's department of public relations makes available to the public a variety of interesting and educational materials in the form of motion pictures, booklets and presentations.

As GM's community relations chairman, Lamb, well known locally for active interest in Red Cross, Boy Scouts and 4-H Clubs, also will be in a position to cooperate with club groups, the schools, or any other local organizations which may find the General Motors material of interest for use in the development of programs.

General Motors also is the sponsor of the National 4-H Club Farm Contest and Lamb will be able to aid local 4-H Clubs which have members participating in that contest.

JP Rules Oilman Cullinan Sr. Shot Himself

HOUSTON, Aug. 15 (UP)—A verdict of suicide was returned late yesterday in the gunshot death of Craig Cullinan, Sr., wealthy Houston oilman.

Justice of Peace W. C. Reagan said all evidence pointed to Cullinan's shooting himself through the heart.

THE PAJAMA CLAD BODY of the 55-year-old millionaire was discovered yesterday in a spare bedroom at his home by Craig Cullinan, Jr., his son.

A .45 caliber revolver, one shot fired, was near the body sprawled on a bed.

Young Cullinan said his father had been in bad health since the death of Mrs. Cullinan last year.

THE ELDER CALLINAN was president of American Republic Oil, a corporation founded by his father, the late J. S. Callinan. American Republic is a large oil producer and also has tanker operations.

Cullinan was chairman of the board of regents of the Texas State University for Negroes until he resigned early this year.

BULLETINS

AUSTIN, Aug. 16 (UP)—Police broke all previous records in Texas last week with 131 cases reported from 48 counties, State Health Officer George W. Cox, reported today.

WASHINGTON, Aug. 16 (UP)—The United Nations and the United States have accepted Thailand's offer, to send 4,000 combat troops to Korea.

MIAMI, Fla., Aug. 16 (UP)—The first hurricane of the year curved toward the Florida coast today, packing winds that increased from 100 miles to 140 miles per hour in the last six hours.

The weather bureau called it a "severe hurricane." Winds of gale force fanned out over an area 250 miles in diameter.

Local Draft Board Can't Give Names

Thirty Eastland and Stephenville county boys left today for pre-induction examinations at Dallas. Mrs. Jewell Reeves released the following statement from the draft board headquarters concerning publication of names:

"There may be disclosed to the newspapers, radio stations, and the general public the number of men being sent for physical examination on any call and the number of men being sent for induction on any call from State headquarters. Names of men sent for physical examination may not be disclosed to the public by the local board.

"Names of men sent for induction may not be disclosed until the proper forms have been received from the induction station that they have actually been inducted. The names of those finally rejected may not be disclosed."

Earthquake Rocks Roof

NEW DELHI, India, Aug. 16 (UP)—One of history's worst earthquakes rocked the "roof of the world" in mountainous eastern Tibet last night and violent echoes still shook the earth's surface some 10 hours later today.

State Renews Oil Fight

AUSTIN, Aug. 16 (UP)—The state renewed its anti-trust fight today against 10 major oil companies, filing an amended petition in 98th District Court pressing charges of price-fixing on gasoline.

Local Board Asked For Fifty More Men; Total Now At 150

The local draft board has asked for an additional 50 men to be sent for armed forces pre-induction physical examinations on September 7, Mrs. Jewell Reeves, board clerk, has announced.

The group will bring the total taking physicals from the local board to 150. The board includes Eastland and Stephens counties.

Thirty men were examined from the local board Tuesday at Dallas. Twenty had previously been sent. Fifty will be sent to Abilene August 24.

First induction calls are expected after the middle of September Mrs. Reeves said.

General Says Troops Holding After B-29 Raid

TOKYO, Aug. 16 (UP)—A spokesman for Gen. Douglas MacArthur's headquarters said tonight that the Americans were holding on all fronts in Korea, no significant changes had occurred and the usual midnight communique would be omitted.

TOKYO, Aug. 16 (UP)—A huge fleet of B-29s poured 850 tons of fiery death and destruction today on 40,000 to 60,000 Red troops imminent offensive against Taegu.

Across the river from the smoking, flaming target area, infantrymen of the 1st Cavalry division re-captured battle-scarred Waegwan, wiped out an enemy bridgehead south of the town and contained a second Red bridgehead to the northeast.

The 98 superforts dumped more than 3,000 bombs totalling a record 850 tons on four to six enemy divisions paced into a 26-square-mile rectangle just northwest of Waegwan, 12 miles northwest of Taegu.

20 Per Cent Of Texans Ignore Draft Orders

39 Per Cent Found Unacceptable For Duty

AUSTIN, Aug. 16 (UP)—State Selective Service headquarters ordered a crackdown on draft delinquents today with announcement that one out of five young Texans were failing to report when ordered.

State Selective Service headquarters revealed that of 607 men called for physicals from 19 local boards, 41 per cent were found acceptable at examining stations, 39 per cent were found unacceptable and 20 per cent failed to report.

BRIG. GEN. PAUL L. WAKEFIELD, state director of selective service reminded registrants that disobeying the Selective Service law is a federal offense punishable by five years imprisonment, a \$10,000 fine or both.

"We are urging local boards," he said, "to send these (delinquent) men orders to report for induction as delinquent registrants." He explained that "where failure to report was caused by something over which a man had no control — we have asked local boards to consider such circumstances."

Orders for induction as delinquent registrants would be issued to take effect in the latter part of September, Wakefield said.

"IF ANY REGISTRANT DISOBEYS one of these orders," he said, "he will do so on his own responsibility. Such delinquent men who do not report in response to order to report for induction as delinquents will be turned over to the federal district attorney for prosecution."

He blamed part of the situation on failure of registrants to notify local boards of changes in address. As a result, many men were not receiving their orders.

Charles To Be Matched

BUFFALO, N. Y., Aug. 16 (UP)—In the wake of Buffalo's first and probably last heavyweight championship fight, Edward Charles was expected to be matched today for his fourth title defense against Joe Louis at New York's Yankee stadium, Sept. 27.

The raid, twice as heavy as most previous B-29 strikes against the North Koreans, was believed to have killed or wounded thousands of enemy troops and wrecked Communist plans for an early attack on Taegu, temporary capital of South Korea.

Returning airmen reported "excellent" results. They said the target area—7½ miles long and 3½ miles wide—was "saturated." However, an air force communique said a detailed evaluation of the results would have to await reconnaissance photographs.

FOR TWO HOURS AND 10 minutes, a steady parade of B-29s sowed 500-pound bombs every 150 feet through the rectangle, from north to south. Then 5th air force Mustangs thundered over the area to shoot or rocket anything that moved.

Southwestern front — American forces hemming in the enemy bridgehead in the Naktong river Taegu repulsed a light Communist elbow 25 miles southwest of attack after giving ground earlier on the northern rim of the bulge. American artillery was reported to have killed 160 Reds in the bridgehead today.

Southern front — Army and Marine units continued to mop up enemy pockets by-passed in their advance to the Nam river opposite Chirju. An 8th Army communique said the by-passed enemy troops totalled 1,300, although official sources yesterday placed them at 3,000.

NORTHERN FRONT — THE South Korean 1st division stopped an enemy infantry attack north of Taegu, but seven tanks penetrated their lines. Allied planes and infantry bazookas later knocked out all but one of the tanks and a South Korean counter-attack drove the enemy back 2,000 yards.

Dairy King Cafe Opening Again

The managers of Dairy King have announced that the Dairy King Cafe is opening again. Mr. and Mrs. Otis Coleman, and Mr. and Mrs. Eugene Richards are in charge of the establishment.

Civil Defense Prepares

Government Figures It Doesn't Have To Worry About Men Caught Within Half-Mile Of Atomic Blast

By Joseph L. Myler United Press Staff Correspondent
WASHINGTON, Aug. 16 (UP)—The government has told civil defense planners not to worry about what Atomic radiation does to people closer than 2,100 feet to an A-bomb explosion.

Nearer than 2,100 feet so many death-dealing agents—blast, heat, falling buildings, etc., as well as radiation—would be operating that you'd never know which killed you. At 2,100 feet, however, you might escape some of the other hazards only to fall certain victim—if unprotected—to radiation.

At that distance to have a 50-50 chance of surviving you would have to be shielded with 29 inches of concrete, 30 inches of tightly-packed soil, three inches of lead, or their equivalents.

At 4,200 feet, if unshielded, half the persons exposed would die. Some 9,000 feet away, though still within the range of painful heat burns, you would be safe from nuclear radiation.

The government figures that half a mile from a target center

of Taegu, but seven tanks penetrated their lines. Allied planes and infantry bazookas later knocked out all but one of the tanks and a South Korean counter-attack drove the enemy back 2,000 yards.

Eastern front — American and South Korean units seized commanding terrain in advances through the mountains to isolate North Korean troops in the east coast port of Pohang. However, an Air Force announcement conceded that the enemy had reached Angang-Ni eight miles southwest of Pohang in the road to Taegu, 36 miles farther southwest.

AMBASSADOR TO MEXICO—Mayor William O'Dwyer of New York had a twenty minute conference with President Truman at the White House after which it was announced he will become the new Ambassador to Mexico. The President will formally nominate O'Dwyer about September 1, after he has resigned as Mayor. (NEA Telephoto).

is the "practical" point at which to undertake realistic efforts to protect people and property from the A-bomb.

At that distance, it prescribes two feet of concrete as "adequate protection" against radiation. Since not all buildings have concrete walls that thick, the best place to be when the bomb goes off, if special shelters aren't available, is an inside room.

Buried or semi-buried shelters and home basement rooms protected outside by soil or sandbags equivalent to two feet of concrete will do the trick.

The government's emphasis is on the so-called "initial radiation" that a bomb emits when, and for a brief while after, it goes off. That is the only kind that did any harm in the Japanese A-bombings. It is blamed for 5 to 15 per cent of the deaths at Hiroshima and Nagasaki.

Government

(Continued From Page 1) But the shallow underwater explosion at the Bikini bomb tests in 1946 proved that there is another and deadly category of radiation called "residual". It can be dangerous for a couple of months.

It could force temporary evacuation of a target area or costly and painstaking efforts at decontamination. Fortunately, dangerously intense radioactivity decays quickly. The book calls time "the universal decontaminating agent."

In an underwater Atomic explosion, and theoretically in an underground burst, the blast produces a "base surge" of extremely "hot" radioactive mist in which

the bomb's radioactive matter has been trapped. At Bikini where the wind speed was about five miles an hour, the base surge spread about 3 and one half miles down wind, "poisoning" ships enveloped by it.

It is conceivable that an enemy might perfect means of dusting a city with radioactive materials from Atomic piles—although the

government considers this still an unlikely form of attack.

But if it happened, or if the enemy set off underwater or underground explosions, it would be essential to have trained monitoring teams equipped with radiation measurement instruments ready to gauge the area of contamination and determine whether water and food supplies were safe.

Ultimately it might be necessary to decontaminate "infected" buildings. The book lists several ways of doing this—such as wet sandblasting or use of acids. It suggests even that it might be feasible for port cities to coat their vulnerable installations with plastic paint.

When the surge passes, strip off the paint and dispose of it where it will do no harm.

What a wonderful bargain!

Mrs. J. E. Brasac, 118 Greta Street, Houston, Tex.

Tuesday—Ordered a baby gift, to be gift wrapped and delivered. Saved 10 miles.

Wednesday—Mrs. M. can make my new slip covers. Only 2 blocks, but lucky I phoned before she started another job.

Thursday—Felicia, my daughter, asked advice on new refrigerator. 12 miles to her office.

Friday—Felicia called. Some good buys advertised in morning paper.

Saturday—Evening paper wasn't delivered. Complained to circulation department. 3 miles to their office.

For five days Mrs. J. E. Brasac kept an accurate record of all the telephone calls she made and received—and here's just a sample of the shopping she did and the steps she saved. Altogether, she carried on 44 telephone conversations, figures they cost her less than 2¢ each and covered a total of 183 miles.

"I don't know where you'd get a bigger 2¢ worth," she comments. "My telephone keeps me in touch with my family and friends, helps me run my household, and it's always there to call for help in an emergency. Thanks for a wonderful bargain!"

 Thank you, Mrs. Brasac, for your kind words. We are working constantly on technical improvements so you can hear better, get your calls through quicker, enjoy more trouble-free service. And every year we're adding new telephones so that you can call more people, more people can call you. Our aim is to give you the best possible bargain today . . . and to keep it growing in value every year. Southwestern Bell Telephone Company.

What else gives so much for so little?

Not Since Leyte Cooks, Clerks Grab Rifles When KoReds Attack Pohang Air Base

ADVANCE AIRSTRIP, Korea, Aug. 16 (UP)—They're still talking about the way the cooks, clerks, mechanics, radio men, weather men and air police of the U. S. Air Force unit at the Pohang airfield went into foxholes as improvised "infantry" and fought off the Reds.
 This probably was the first time such a fight occurred since the Japanese parachuted into Leyte.
 Rifles and carbines crackled through the night. Communist guerrillas tried to come in from three sides but didn't get a single man across the airstrip perimeter alive.
 A hard-bitten infantry Captain paid the Air Force boys this compliment:

"I've got combat infantry badges for any of them who want to transfer to my outfit."

Two air police and a cook drew first blood when a Korean in civilian clothing fired on them while they were digging in on the perimeter.
 Staff Sgt. Frazier Whitt, of Fair Oaks, Calif., Sgt. Jack L. Kingery, of Los Angeles, and Sgt. Robert O. Engler, of Billings, Okla., took

care of the Red and went on with their work.
 Shooting was new to Kingery and Engler but it was old stuff for Whitt, who fought with a Ranger unit in Europe during World War II.
 The Air Force pulled out the next day to another base and the cooks, clerks and mechanics turned over the ground job to the regular infantry.

Your Health

AUSTIN, Special.—Parents, has your child had a physical examination this summer? Next month he will be starting to school, and if he is in good health he will have a happier, more profitable year. It's up to you to give him a healthful send-off, says Dr. George W. Cox, State Health Officer.

After he has his check-up by the family doctor, be sure to take him to the family dentist. Teeth are mighty important, and decayed ones often cause a heap of trouble. They may start infection in other parts of the body. Strong, healthy teeth add attractiveness to appearance and personality. Help your child to grow up with good teeth. . . see that he has a dental examination twice a year.
 Sometimes children need glasses and their parents don't realize it. An examination by an eye specialist is important. A child who needs glasses, if taken to an eye specialist now will have time to get used to them before school starts.

When children are grouped together in a classroom, they expose each other to communicable diseases. Has your child been immunized against diphtheria and smallpox? Does he know he should use only his own drinking glass? Does he know he should avoid boys and girls who are victims of colds? Do you keep your child at home when he shows signs of a cold.

Plenty of exercise and recreation, the right kinds of food daily, and 12 hours of sleep a night, are necessary for a child of elementary school age.

Get your child an appointment for a checkup today. . . the first day of school is not far away!

Tap Put on Santa
 NASHVILLE, Tenn. (UP) — Not everyone loves Santa Claus. A department store St. Nick's salary was garnished here for \$25 which a woman who "recognized him" claimed he owned her.
