BOVINA, TEXAS

VOL. VII, NO. 17

WHITTLIN'

BY DOLPH MOTEN

This is latest Republican story to hit this grain sorghum producing country:

"Kennedy maize is a new variety.

"It's the kind that has a big, bushy head, but nothing in it." We didn't think the story funny. It's offered here only to aid The Blade's circulation among members of GOP.

And there are more of them around than good Democrats might think.

Writer of this department made his first mounted appearance in a parade during the homecoming here one Friday afternoon.

Our mount was Cuero Ann, six-year-old Quarterhorse mare furnished courtesy of Keith Garner, who farms north of town. Cuero Ann stood second in aged mare class in recent Bovina horse show. First place winner in the class was the eventual grand champion. She also was fourth in cutting horse contest.

Certainly, we hadn't planned to be a part of the parade. As a matter of fact, until just a few minutes before parade time to were getting ready to take our more familiar post of parade photographer. Then Garner came wheeling up with Cuero Ann in his trailer.

Not until then did we remember asking him, several days before, if he was going to loan us a horse to ride in the parade.

Upon his arrival, he announced, "Here's your horse." We made some half-hearted attempts to back out, but they weren't successful.

Garner loaned us a pair of chaps, too, in addition to the horse and saddle. But we wore our own hat.

It was a pleasure to ride such a good horse as Cuero Ann for a few minutes and we're ham enough that we enjoyed being in the parade in spite of all the auto horns which were honked and the voices that yelled, "Rawhide!"

Frankly, we think it was extremely kind of us not to mention here a week ago that Texas A&M slaughtered Texas Tech on the gridiron October 7.

Score of the game, just in case any Tech supporters didn't hear about it, was A&M 38-Tech 7. Still bubbling over with kindness, we wouldn't mention it now except for the fact Tech fans have been telling about Red Raiders 10-0 win over TCU last week.

After loss to A&M, Tech fans were saying their team just wasn't any good. They failed to give any credit to the fact that A&M might have as good a team as we commented here earlier that they might have.

Now, though, they have renewed confidence in TT. But that confidence comes 10 days too late to give A&M any credit for its one-sided win over the Red Raiders.

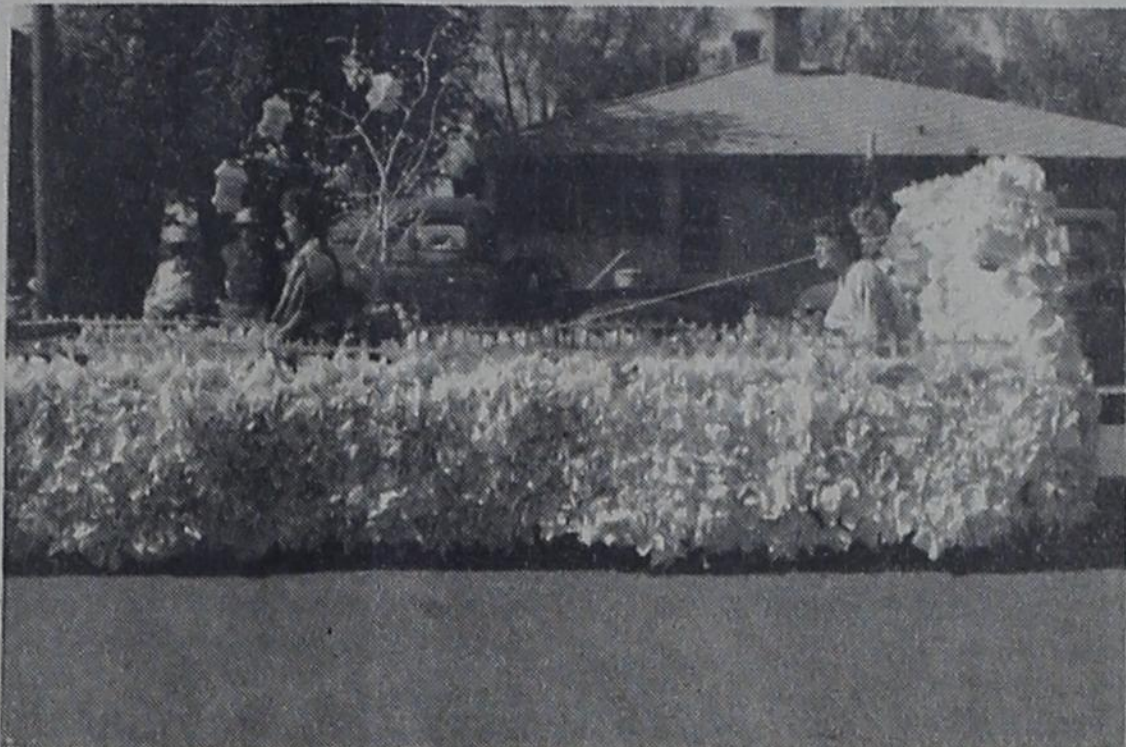

We still think A&M will be in thick of the fight for Southwest Conference flag. (It's permissible to laugh now if you want to. We'll take our turn laughing when our prediction comes true.)

Bovina Mustangs are on threshold of having their best team in years. Already they've won four games with three regularly-scheduled ones left. If memory serves us correctly, and we haven't checked otherwise, that's most games a Bovina football team has won in one season in past six years.

Too, Mustangs will have an opportunity Friday night here to earn their first win over Happy. According to long time sports fans, like Gene Ezell, Bovina has never defeated Happy in football.

In spite of fact that 1954 Mustangs won district, they still lost to Happy, we understand, because Happy was Class A that year. The Cowboys were still Class A in '55, but they dropped back to Class B and into our district in '56. Blade files show that Happy has won all games

(Continued on page 8.)

PRIZE WINNING FLOATS--With "countries" as theme, these three floats were judged first, second, and third in Bovina's Homecoming parade Friday

afternoon. At left is Eighth Grade's first place Holland; Center is Freshmen's Second place Japan; and at right is Africa which was sponsored by Cicero Smith Home Center and McCallum Agency.

Bovina High Student Council, which sponsored homecoming activities awarded prizes of \$15, \$10, and \$5 to respectively winning float entries.

Large Crowd Attends Homecoming

MORE COLORFUL FLOATS--Receiving honorable mention in homecoming parade were Seniors' France, left, and Juniors'

Mexico, center. Student Council's entry, at right, featured football queen candidates. Queen candidates are, left to right, Judy Strawn, Elaine Fuller, Dixi Hartzog

and Paula Howard. Miss Howard was crowned football queen at halftime ceremonies Friday night.

Highlights of homecoming for ex-students of Bovina Schools Friday included a parade, a barbecue dinner, Bovina-Hart football game and crowning of a football queen and hero at half-time of the game.

A host of floats and other exhibits made up the parade which began at 2:30. Parade started on east end of Main Street and ended at school.

Using "countries" as their theme, winning floats were prepared by eighth grade, Holland, first; freshmen, Japan, second; and Cicero Smith Home Center and McCallum Agency, Africa, third.

They were awarded cash prizes of \$15, \$10, and \$5 respectively by Bovina High Student Council, parade sponsor.

Winners in go-cart and bicycle division were Roxie Hutto, first; Bobby Redden, second; and Bill Caldwell, third.

Honorable mention in float division went to juniors for their float concerning Mexico and to seniors for theirs on France.

A large crowd lined Bovina streets to view the gaily decorated floats.

Neil Smith was elected president of ex-students association at the dinner, which was in school cafeteria.

Only formality was the brief business session which featured new officer election. S. A. Barbee, outgoing president, presided.

Other officers elected included Jimmy Ware, vice-president; Mrs. Scott Gober, treasurer; and Mrs. Bob Johnston, food chairman. Named to secretary committee were Mrs. Tom Ware, Mrs. Lou Marot and Mrs. Mable Ellison.

There was a total of 137 present for the meal.

At halftime ceremonies at the football game, Paula Howard was named football queen. She was elected by vote of members of football squad. Other queen candidates were Dixi Hartzog, Elaine Fuller, and Judy Strawn.

Elected by members of pep squad as football hero was Jerry Frazier, Mustang fullback. An estimated crowd of 1200 was present at the game to see Mustangs beat Hart, 41-6, in a 2-B contest.

HAPPY NEVER SAD--

Ponies Hope To Break Jinx

Happy's Cowboys, who haven't lost a football contest to Bovina in past decade, if ever, furnish opposition for Mustangs here Friday night.

This will be second District 2-B game of 1961 campaign for both teams. Happy lost to Vega last week in a game that saw score tied, 14-14, with Vega getting the nod on penetrations, 3-2. Bovina had an easier-than-expected time in downing Hart, 41-6.

Happy will be coming into the game with an even, 3-3, record while charges of Coaches Hallie Gee and Malcolm Kennedy stand, 4-3.

The Cowboys have won over Silverton, Claude and O'Donnell while losing to Kress, Boys Ranch and Vega.

Only mutual foe this season for the teams has been Boys Ranch. The Rough Riders blanked Happy, 14-0, and won over Bovina, 14-6.

The two teams have been in same district since 1956 and Happy has won all five of those games. They also won in 1955, when they were Class A, over a good Bovina team, 28-0.

Scores of district games were 27-12 in '56, 34-0 in '57, 30-0 in '58, 42-0 in '59 and 20-12 last year.

Coach Gee says Happy's offense runs wide and features a lot of passing. They don't have a big man in backfield as most of Bovina's previous opponents have had, but they offset that

lack with their razzle dazzle type play.

"They have same quarterback who beat us with his passing last year back again this year," Gee says.

Vega's defeat of Happy was considered a mild upset. (Continued on page 8.)

MEN TAKE BACK SEAT--

3 Women Win Football Contest

Ladies took over in last week's Bovina Business Cotton Bowl Football Contest. They captured all three first places during the week which furnished largest number of upsets this season.

Mrs. Bill Read was only one of 108 entrants to pick nine of 11

Vandals Throw

Rocks Through Three Windows

Vandals went on a rock-throwing spree in Bovina during weekend.

Stones were hurled through plate glass windows of three business buildings, Deputy Henry Minter reports.

Victims of the vandals, who were possibly frustrated baseball players, were City Drug, Bovina Dry Goods and Hammonds Electric, all on Main Street.

Minter points out that parents are liable for damage caused by their children.

SERVICE IMPROVED--

Trash Hauling Charges Go Up

Trash hauling rates in Bovina are going up.

City commissioners, in a regular meeting last week, voted to increase rates for trash disposal services for both residences and businesses, effective next month.

However, service will be improved along with the price increase.

Trash has been hauled on a monthly basis in the past. Effective November 1, the service will be provided twice monthly, Mayor Emmett Tabor announces.

For residences, the rate increase is from 35 cents a month to 75 cents. Business trash hauling rate goes up from 65 cents to \$1.

Lewis Murrieta was recently hired to haul the trash. Under the new set-up, he will receive \$150 per month for the chore and city will furnish a trailer to be used to do the hauling.

The twice-a-month schedule will mean that trash will be hauled from all residences and businesses around first and 15th of each month, Tabor says. "If anyone is missed, we'll appreciate their calling city hall and telling us of the oversight," he points out.

Tabor says city wants to provide service which is twice as good as it has been for the additional cost.

Income to the city for the service will gross between \$300

Grass Fires Likely

Bovina Volunteer Fire Department has answered calls to "three or four" minor grass fires during recent weeks, Fire Chief James Taylor reports.

"Up to now, we've been lucky and haven't had a serious fire," the chief says. "However, we want to ask people to watch their burning trash to see that it doesn't cause a serious grass or weed fire."

Burning trash is considered most likely cause of such a fire. "We will appreciate people's cooperation in helping guard against grass fires during this fall season," the chief says.

(Continued on page 8.)

LAST WEEK--

3 Wrecks Occur Here

Three auto accidents occurred in area last week. People involved escaped injury in all cases.

Wednesday afternoon, a '57 Chevrolet pickup driven by Winburn Hardage was in a minor collision with a '50 Dodge driven by a man from Amarillo at intersection of Highway 86 and FM Road 1731.

Damage was slight to both vehicles, Deputy Henry Minter reports.

Thursday about 6 p.m., a '55 Ford driven by Salvador Perez of Texico crashed into Warren Auto Supply building on Highway 60.

Perez had pulled into Northside Service Station, next door

to Warren's, from the east. When brakes on his car failed, he slammed into the building. Minter estimated damage to the car at \$100.

Most serious of three accidents last week was about 2 p.m. Friday.

The accident occurred some three miles south of town on FM Road 1731. Involved were Benny Shelby, driving a '58 GMC pickup, and Lawrence Kriegel, who was driving a '60 Chevrolet car.

At time of collision, Shelby was going south and Kriegel was attempting to make a U-turn. Damage to the car was estimated at \$300. Pickup was damaged to extent of \$100, Minter estimated.

prediction of score of Bovina-Hart game.

Others who had eight correct but lost out on tiebreaker were Mrs. Kieth Garner, Mrs. Howard Looney and Boyd Gilreath.

Erith Hawkins, who named seven right, continued out front in season-long race for grand prize, an expense-paid trip for two to Cotton Bowl January 1, 1962.

Hawkins now has picked 57 of 70 winners for a percentage of .814.

Crowding him, with 54 each, are Ed Hutto, Johnie Horn and James Lawlis. Tied for third place, with 53, are Glenn Hromas, John Wilson, and Mrs. Garner.

Five points off the pace with total of 51 are Allen Cumpton, H. J. Charles, J. W. Harris, H. N. Turner, Mary Jane Wilson, and Bobby Cumpton.

Last week's tally sheet shows that in addition to the one nine and five eights, 17 entrants named seven winners, 40 had six correct, 29 had five right, 12 named four winners, and three named three winners.

Contest is now in its eighth week. It will end November 22.

FIRST TIME IN HISTORY--

Bovina Colts Dist. Champs

For probably first time in history, Bovina Colts, junior high football team, are district champions.

Coached by Doug Beaty, who is in his first year in the profession, the Colts sewed up the title, and an undefeated district season, with a 16-0 blanking of Vega last week.

That was fourth consecutive win for the Colts in their sweep

of the district.

They were scored on only one time in district play. That six-pointer came against the second unit in a game with Hart which was already salted away. Final score of the game was 28-6.

Other district wins were over Lazbuddie, 24-0, and Happy, 28-0.

Team's only loss was in opening game of the season against

Farwell, 16-8.

Coach Beaty had about 26 boys out for the team at various times during the year with usual number out being 23.

Dean Mayhew, who is considered to be fastest junior high boy in the district, was team's leading ground gainer and scorer. He averaged over 200

(Continued on page 8.)

WEATHER by WILLIE

After such a warm, dry spell, it is a little hard to tell when the change is coming. Looks like some threatening weather this weekend.

Gibson Joins Santa Fe Here

Edward Gibson, assistant operator for Santa Fe, has been assigned to Bovina depot. Announcement of Gibson's coming here was made this week by Agent Dean Hastings. Employed by Santa Fe for past three months, Gibson has been working in Panhandle. His home is in Amarillo. He plans to move here when housing is available. He is married and has two pre-school age children and is looking for a two-bedroom house to rent, Hastings says.

Miss Joan Rooks of Edinburg visited in the home of her aunt, Mrs. J. T. Jones, recently.

Bridge Club Entertained

Mrs. Dean McCallum entertained members of Thursday Afternoon Bridge Club at the home of her mother, Mrs. George Turner, Thursday. Mrs. Leon Grissom won both high and traveling prizes and Mrs. Bedford Caldwell won low. Refreshments of cake topped with whipped cream, coffee, tea and candy were served to guests. Those present included Mrs. Jimmy Charles, Mrs. Durward Bell, Mrs. R. E. Wilson, Mrs. A. M. Wilson, Mrs. Bedford Caldwell, Mrs. Mack Ragsdale, Mrs. Leon Grissom, Mrs. Don Sides, Mrs. Johnnie Horn, Mrs. Jim Henke, Mrs. Vernon Willard and the hosts.

SURPRISINGLY EASY 41-8 WIN--

Ponies Kick Horns In First District Tilt

With surprising ease, Bovina Mustangs galloped over Hart Longhorns here Friday night in first District 2-B game for both teams by a 41-8 count. Bovina was a slight favorite going into the contest and the game's outcome was expected to be much closer. Hart's starting unit was handicapped by injuries. Mustangs scored almost at will and blanked the visiting Longhorns until late in final period when their big, outstanding fullback, Larry Lee, picked up a six pointer against Bovina's second unit. Bovina led 28-0 at halftime and had built the lead up to 34-0 at end of three quarters. Hart was never in the ball game as Bovina racked up two TDs in opening minutes of game. Bovina received the kickoff, but fumbled on second play from scrimmage, losing possession.

Hart returned the favor, however, giving the ball back on a fumble on Bovina's 44-yard line. Mustangs went the 56 yard distance in 11 plays with a pair of passes from Quarterback Don Cumpton being biggest ground gainers. End Mac Glasscock gathered in a 19 yarder and Halfback Rocky Hance caught one for 10 yards. Halfback Buddy Turner went over right side from two yards away for the

initial score. Turner was stopped in an attempt for extra points. Hart still had fumble after the kickoff and gave the ball back to Bovina on first play from scrimmage on their own 36. From that point, Halfback Hance burst through left side of Mustang line, then chalk-lined it through secondary for the score. Cumpton passed to Glasscock for extra points and Bovina was on its way, 14-0. After an exchange of punts, Mustangs took over on downs on their own 31-yard line. First play from that point, Turner took a handoff from Cumpton, scooted through a big hole in the line, and was off on longest scoring play of season for Mustangs, 69 yards. Almost caught from behind, Turner did a beautiful job of faking, headed for coffin corner and went across the goal line untouched. Again Cumpton passed to Glasscock for extra points to boost score to 22-0.

Mustangs final first half TD came after Linebacker Cumpton gathered in a stray Hart aerial and returned it to Longhorns' 43. Hance shook loose for 13 yards to set stage for a 30-yard scoring pass play from Cumpton to Tally Kelso. Extra points attempt was no good. Mustangs first second half TD was set up by a blocked punt. Hart received kickoff to begin half. Longhorns gained one first down before being forced to punt. Kicking from the 35, the blocked punt was recovered by Bovina on 26. Turner made five before a 15-yard penalty moved Ponies back to 36. Cumpton passed to Glasscock for 20 to the 16. Another penalty shoved ball back to the 21. From that point Cumpton and Hance teamed up for a 21-yard pass play and the score. Cumpton was stopped in attempt to run extra points over to leave score at 34-0. Final scoring effort came midway through fourth chapter with Mustangs' second unit in action. They captured a Hart fumble on visitors' 20 yard line and scored seven plays later with Kelso, running at fullback, going over from four yards away. Ball carriers in the drive included D. Johnson, Kelso, and Quarterback Ken Horn. Turner returned to the game to kick the extra point to make score 41-0. Hart came back to score its single TD on an 11-play drive following kickoff. Lee did most of damage against Mustang reserve. His scoring effort was from eight yards out. Turner was Bovina's leading ballcarrier with 96 yards in eight tries. Kelso, playing his first game at fullback, went 11 times for 44 yards. Hance made 56 yards in five attempts. Big lineman John Sikes and End Pat O'Brien led Mustang linemen defensively.

Firemen Aid Boys Ranch

In a fund-raising campaign, members of Bovina Volunteer Fire Department will begin raffling a shotgun in next few days. Purpose of the promotion is to raise funds to aid other area fire departments in purchasing a new fire truck for Boys Ranch, Ed Hutto, BVFD member says. Several area fire departments recently agreed to give \$300 each toward purchase of the new truck for the boys' home. Tickets on the shotgun, which will actually be a donation to the cause, will be sold for \$1 each. Drawing for the gun will be Saturday, December 23, Hutto says. The gun to be awarded is a 16-gauge Remington with a retail value of \$140. Selling of chances will begin by October 24 at latest, Hutto says, and will continue until December 23. "To make this effort a success, we'll have to move co-operation of the people," Fire Chief James Taylor says, "and we feel sure they'll be proud to aid us in helping Boys Ranch."

Burglars Hit Two Businesses

Burglars Hit two businesses. Burglars continued their periodic breakins in Bovina Thursday night. Two businesses, Cicero Smith Home Center and Hartwell Machinery Co., were victims of thieves. Losses were minor at both businesses. Cicero Smith lost approximately \$13 in change. Change from soft drink machine was only thing discovered missing from Hartwell's. Entrance to buildings, in each case, was made by breaking rear doors so they could be unlocked. Sheriff Chas. Lovelace and Deputy Henry Minter investigated. They found same tracks at both places, indicating that both breakins were committed by same people.

Civil Defense Course Possible

Roy Crawford, Bovina High vocational agriculture instructor, is now qualified to teach a civil defense course. He earned the qualification by attending such a course at Muleshoe October 2-7. The course was conducted on Monday, Tuesday, Wednesday and Thursday nights, Friday afternoon and Saturday morning. Such a course, if there is enough interest and demand for it, will be taught here, Crawford says. The course would require 12 hours, probably six, two-hour sessions, he suggests. About 30 people from Parmer and Bailey Counties became qualified instructors at the school which Crawford attended. It was taught by a representative of Texas Education Agency.

Horns Host Party

Mr. and Mrs. Johnnie Horn hosted a bridge party for several couples last Thursday evening in their home. Following an evening of bridge refreshments of pie and coffee were served to guests. Attending the party were Mr. and Mrs. Bedford Caldwell, Mr. and Mrs. Vernon Estes, Mr. and Mrs. Tom Caldwell, Mr. and Mrs. Gene Ezell, Mr. and Mrs. Dean McCallum and the hosts.

Mrs. Morris Opens Study

Mrs. Harold Morris presented opening chapter of study, "The Meaning of Suffering," to members of Wesleyan Service Guild of Methodist Church Monday evening in the church parlor. The study is open to anyone who would like to attend. Next meeting is scheduled for October 23 at 7:30 p.m. at the church. Those present included Mrs. C. O. Edens, Mrs. Bedford Caldwell, Mrs. Dean Hastings, Mrs. H. J. Charles, Mrs. Alan Ehersman, Miss Grace Paul, Miss Belva D. Lowrance, Mrs. Hodge Rigdon, Mrs. W. E. Williams, Miss Rita Caldwell and Mrs. Margaret Caldwell.

Visiting in the home of her son and family, Mr. and Mrs. M. H. Carson, recently, was Mrs. Gertrude Stephan of Pittman, Nev.

Firemen Aid Boys Ranch

Good Neighbor Club Meets With Mrs. Lane

Mrs. Alfred Mills was feted with a surprise birthday party at Good Neighbor Sewing Club Thursday afternoon in the home of Mrs. Bill Lane.

During a short business session the group decided to have a bake sale Saturday, October 14, at Wilson Super Market. Proceeds from the bake sale will be sent to Girls Town.

After the business session refreshments of cake and ice cream were served to those present.

Among those attending were Mrs. Bessie Webb, Mrs. Alfred Mills, Mrs. Earl Dean Boyd, Mrs. Lester Williams, Mrs. T. J. Hoplingardner, Mrs. Howard Loohey, Mrs. Bob McMeans, Mrs. Henry Spicer and

two guests, Mrs. Myra Sherrill and Mrs. Finley Rogers.

Next meeting is scheduled at the home of Mrs. Henry Spicer.

Baptist Youth Have Picnic

Bovina roadside park, west of town, was scene of a wiener roast and picnic for members of Intermediate Department of First Baptist Church and their guests last Monday evening. Approximately 40 young people were present.

Hosting the party were teachers and directors of Intermediate Department. They are Tony Ivy, Mrs. A. L. Glasscock, Mrs. Alva Hudson, Mrs. H. N. Turner, and Mrs. H. D. Bradshaw.

Visit Parents

Visiting in the home of Mr. and Mrs. Gene Ezell over the weekend were Mr. and Mrs. Larry Ezell and family of Lubbock and Mr. and Mrs. Dick Horn and son of Plainview.

Congratulations

Congratulations to Mr. and Mrs. James Stevens, of Amarillo on the birth of a baby girl born Sunday at Northwest Texas Hospital in Amarillo. The infant weighed 7 1/2 pounds and was named Shelly Ann. Maternal grandparents are Mr. and Mrs. Charles King of Amarillo and Mr. and Mrs. J. D. Stevens of Bovina are paternal grandparents.

Class Has Installation Of Officers

Mrs. Travis Dyer installed officers for Mary-Martha Sunday School Class of First Baptist Church Tuesday evening at the parsonage.

Preceding the installation ceremonies, the group had dinner at a Clovis restaurant.

Mrs. Malcom Kennedy was installed president, Mrs. Billy Don Read, vice-president; Mrs. Weldon Moody, secretary; Mrs. Paul Holcomb, assistant secretary; Mrs. Jerry Rogers, class minister; Mrs. Jim Heard, Mrs. Dickie Steelman and Mrs. Douglas Beaty, group captains; and Mrs. John Ferguson, class teacher.

Mrs. Ferguson served refreshments of pie and coffee to the group.

Others present were Mrs. James McLeRoy, Mrs. Norman Taylor, Mrs. Charlie Owen, Mrs. Travis McPhearson and Mrs. Keith Garner.

Mrs. J.B. Barrett Has WMU Program

"That Thy Way May Be Known In Malaya and Indonesia was theme of W.M.U. meeting Tuesday at First Baptist Church.

Program chairman was Mrs. J. B. Barrett, "Way To Malaya" was given by Mrs. John Ferguson, "Way of Life on Java," Mrs. Keith Garner, "Way In Indonesia" was presented by Mrs. Don Murphy and Mrs. James McLeRoy gave "Way To Singapore and Malaya." Mrs. Barrett closed the program with a devotional.

Among those present were Mrs. J. D. Kirkpatrick, Mrs. Doug Beaty, Mrs. Bobby Englant, Mrs. P. A. Adams, Mrs. Arnold Hromas, Mrs. R. N. Williford, Mrs. J. O. Combs, Mrs. E. H. Moody, Mrs. J. W. Gooch, Mrs. W. W. Wilcox and Mrs. Robert Taylor.

Visit Relatives At Lake Tahoe

Mr. and Mrs. Buck Ellison returned recently from Lake Tahoe, Calif., where they visited her sister and family, Mr. and Mrs. Byron Turner. The Turners are former residents of Bovina.

ASC Distributes Grain Sorghum Loan Notices

Farmer County farmers have received notices from The Agricultural Stabilization and

Conservation department in Farwell stating the number of pounds of grain which they are entitled to place in loan under the ASC programs.

"Farmers should keep in mind that the figure shown in the notice is the amount for the entire farm and not for the individual," Prentice Mills, office manager, said.

"The farmer is asked to inform the ASC office as to how much of the grain is credited to him and how much is to be credited to other persons or producers," he added.

Grain sorghum is generally divided between the landowner and the farmer on a one-third and two-thirds basis, according to Mills. If this is the case, the total loan allowable

should be multiplied by the four digit fraction .3333 to comply with Government regulations.

To compute the two-thirds portion, the total should be multiplied by .6666. Dividing by three is not accurate enough to comply with the set requirements.

Farm operators are advised to have their warehouse receipts issued jointly in the name of the landowner and operator or other interested parties. Mills further advises farm operators to obtain authority to act for the landowners in those cases where the owner is not available.

Obtaining joint receipts will facilitate and speed handling through the ASC office.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

You can look for more, not less, government control in agriculture next year. This is the consensus of ever writer on the subject so far as we know. And if you don't want more controls, only one thing will help you prevent them: membership and active support of the organizations opposing them. Farm Bureau is the one specifically for farmers. There are others covering other phases of freedom for American businessmen and individuals.

Bill Wedemeyer, research and promotion director for Texas Farm Bureau, says "It is most interesting to note that the state deficit continues to increase during the month of September." The actual deficit increase in dollars is \$24,696,381.

The executive Secretary of Christian Crusade says in a report on his trip to London, "One of our guides in London reminded us that the first offense for DWI in England was 30 days in jail and 6 months suspension of drivers license. The second offense was 90 days in jail and the permanent cancellation of driver's privileges." Then he observed, "How does that fit in with the fact that we cannot even get a chemical test law in Texas?"

Let us suggest that you meet with your directors on November 6 at about eight o'clock in the office in Friona. Get acquainted with them and let them know what your ideas are concerning the farm situation and what you think should be done about it. Chances are that some of the things you would favor are already in the resolutions file locally, and you may help the directors in executing the ideas proposed.

We hope there was good attendance and interest in the self-help cotton meetings held over the county this week.

Consider this: "A good name is rather to be chosen than great riches, and loving favor rather than gold and silver," Proverbs 22:1.

Heavy heads of grain almost hide the combine from view as it inches along. In this field near Hub, the grain was so thick and leaves were so interwoven that it was a struggle for a

man on foot to move through it. Grain harvesting in the area reached the halfway point this week, according to informed sources.

Parmer Harvest Gains Momentum

Combines, trucks, elevators and gins have been operating at an ever increasing pace for the past week as Parmer County harvesting continues to gain momentum.

Grain harvesting in the southern sections of the county is nearing the 60 per cent completion point, according to estimates of area elevator operators and farmers. Moisture content of grain taken from the southeast part of the county averaged 11.3 per cent according to elevator reports and is getting dryer with each day of fair weather.

As checks were made on grain deliveries further north, it was

discovered that harvesting from Friona north was only about 25 per cent completed and moisture content ranges from 9 to over 16 per cent. One elevator reported turning away a few loads of grain because of the high moisture content.

"A good, heavy frost and a week of sunshine and soft breezes is what I need more than anything else," one farmer near Friona commented.

Over 10 million bushels of grain sorghum were reported delivered to six county elevators by Monday evening.

A light frost which settled over parts of the county last week wasn't heavy enough to harm many of the late crops and did very little good for the farmers awaiting a light freeze to begin their cotton harvesting. Several fields of cotton in the Bovina and Farwell areas are nearly ready for stripper operations but most farmers are waiting a few more days in hopes of a light freeze.

Two farmers near Bovina are reported to have started trial runs with a cotton stripper Tuesday. Small areas in the fields still have a few too many green bolls but they are expected to reach the stripper stage by the end of the week, if the dry weather holds.

Most gin operators indicate that cotton harvesting has al-

ready reached the stage equal to that at the end of October last year. It should be moving into full swing within the next two or three weeks, depending upon weather.

Cotton fields which have been sprayed with shed-a-leaf are showing as large expanses of white as the leaves fall away to

reveal the stalks laden with large fluffy bolls.

In the northern parts of the county, there is still a considerable number of immature grain and green cotton. A heavy freeze would do appreciable damage to these fields. Most of the crops however, are reaching the stage where a freeze would do more good than damage.

4-H Clubs Eligible For Certificates

Local 4-H Clubs are eligible for 4-H Club Certificates according to achievement requirements completed each year. A 4-H Club is entitled to one certificate and or seal per year.

According to information received from the State 4-H Club Office by Extension Service Agents, Ette Musil and Deryl Coker, there are four levels of achievement. A club may meet the requirements for a 4-H Club certificate, a certificate with a red seal, a blue seal, or a purple seal.

It is not unusual for a club to qualify for the highest level of a purple seal the first year. If a 4-H club cannot reach the

purple seal requirements perhaps they can reach the requirements of one of the lower levels.

To qualify for a certificate for a 4-H Club the club shall be composed of boys and girls between the ages of 9 and 20. The club shall have a membership of at least 5 with at least one adult leader responsible for the club and club activities during the year. At least 50 per cent of the members must complete result demonstrations or projects and submit records.

Requirements for red seal and blue seal are harder than for the certificate. For the purple seal the 4-H club must have at least 10 boys and girls with two local adult organization leaders, a man and woman. Subject matter leaders trained in each subject with club meetings planned a year in advance. Meetings shall be planned by subject matter leaders. 4-H members of subject matter group with the advice of the County Extension Agents.

Monthly club meetings shall be planned a year in advance that are of interest to all 4-H club members, parents, and leaders. Meetings shall consist of inspiration, business, program, and recreation. Each member shall have at least one active demonstration.

At least 90% of the members must complete demonstrations and submit records. Each member shall be active in method demonstrations, program and county-wide events as shows, fairs, camps, community improvement.

"Many of our clubs and members are so active in club work now that it would not take much more effort for the club to qualify for these seals" encouraged Miss Musil.

For more detailed information contact either of the Extension Agents in the County Courthouse.

FOOTSAVING EDUCATION

by James E. Edwards

Why Does My Baby Walk Like Charlie Chaplin?

Charlie Chaplin, for the benefit of the younger generation, was a comedian who walked and ran with his feet turned out. His humorous appearance did much to discourage the "ten minutes to two" walk and stance which were highly recommended in World War I days.

It is quite normal for babies to toe out until they learn to walk with confidence. Adults toe out, too, if we try walking on high scalloping. When practice overcomes the fear of falling the adult and the baby learn to tread straight.

If your child still toes out five or six months after learning to walk you should call it to the attention of your doctor.

HD Agent's Notes

BY MISS ETTIE MUSIL

Thinking of doing some painting, papering or refinishing before winter comes? If so, choose colors for a reason. That is to get the special effects you may want. At the same time you can have the comfortable, pleasant background for every day living that you want.

Decide how you want the room to look. Will it be light and gay, restful or formal? Do you want the rooms to seem warm or cool? Its' use, shape and exposure will determine colors that will be best suited.

A good color plan has few colors. Usually no more than two or three colors in different dullness or brightness are used. The best color schemes grow from a dark color, a light color and a bright color. Black, white and gray are not considered colors.

If you have a picture, upholstery, or draperies which you must keep, choose your color scheme from that. When you place the colors in a room, choose the color for the lar-

gest areas first. This could include floor covering, walls, and large upholstered pieces. In most cases, these should be your most livable colors.

Next choose colors for small upholstery and the window draperies or curtains. This may be a blend of the room colors, or match or contrast with the walls. Lastly, choose your colors for accessories and small areas, such as pillows, lamps, ash trays, etc. Usually, this accent color is the brightest color.

Remember, that good proportion of the different colors is important. This means that your color scheme will be definitely dark or light and that either warm or cool colors will predominate. Proportions of 60 percent of area for one color is good for the main color. For a second color as in upholstery, draperies, bed spreads, 30 percent could be used. Then for accent color 10 percent will insure good proportions. There are so many tricks

of color in the size and shape of a room. It can also suggest a sense of direction as well as space. To make rooms look larger use one color predominantly. A few colors in variations of light and dark, bright and dull tones will also make a room look larger.

A room will seem larger if you use the same solid color for walls, woodwork, and wall to wall carpeting. You can raise the apparent height of a ceiling by making it lighter than the wall color. A dark floor will also help give the appearance of greater up and down spaciousness. Of course, the opposite tricks of color will make a large room seem smaller.

While you are looking over your home to make every day living a little easier what about your utility closets? Make the most of limited wall space in your utility closet or cabinet, and in the closet where you store household cleaning equipment. Have you ever thought of using peg-board for wall construction in those places.

Peg-board, with its maze of small holes, is handy for attaching hooks or pegs. Mops, brushes, cloths, dust pans, brooms and other supplies can be hung with easy reach. This makes for a neater, more efficient closet. The peg board is washable, too.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Those of you who make suits, coats and tailored dresses will surely want to try some of the new pelon. It comes ready to iron onto other material and can be stitched without any stay stitching or basting. It is available at most department stores.

At this time of year many persons seem to be in a quandary about whether to take flu shots or not. The following paragraph was lifted from the October Texas Health Bulletin and may contain information which will help our readers decide on the issue.

"FLU SHOT TIME--A definite upswing in the influenza cycle is predicted for this fall and winter according to Dr. Luther L. Terry, Surgeon General of the Public Health Service. Especially vulnerable are persons in the three groups which accounted for most of the 86,000 flu triggered deaths between September 1957 and March 1960. These groups are: persons with heart disease; pulmonary disease; diabetes and other chronic illnesses;

persons over 65 and pregnant women."

Several readers have passed the word along that the pumpkin bread, for which we ran a recipe recently, is very good. Maybe the following recipe for cookies will be equally as popular with our reading audience.

- PUMPKIN COOKIES**
- 2 1/4 cups flour
 - 1/2 teaspoon baking powder
 - 1/2 teaspoon baking soda
 - 1/2 teaspoon salt
 - 1 teaspoon cinnamon
 - 1 cup sugar
 - 1/3 cup shortening
 - 1 egg
 - 1 teaspoon vanilla
 - 1 cup cooked pumpkin
 - 1/2 cup raisins
 - 1/2 cup nuts, ground
- Sift flour, salt, baking powder, soda and cinnamon. Cream sugar and shortening. Add egg, vanilla. Mix well. Add pumpkin and flour alternately, mix well. Add raisins and nuts. Drop by teaspoonfuls on greased cookie sheet. Bake 15 minutes in 350 degree oven.

When cutting cookies that you want sprinkled with nuts, sugar or other decorations, remove both ends from a small tin can and use it as a cutter. Sprinkle cookies before removing cutter from dough. This eliminates waste and spillage.

Celery tops are a tasty and attractive addition to any tossed green salad.

When making stuffed animals, use nylon hose or nylon ma-

HD Agent Gives Ideas On Canning Freezing Pumpkin

Pumpkins, pumpkins, everywhere pumpkins! The little tots are looking forward to Halloween with a Jack-o-lantern made from a great big pumpkin. There are so many funny and spooky faces that can be made in a pumpkin.

"How about pumpkin pie now or for Thanksgiving? Have you thought of freezing or canning pumpkin for pie, pudding or souffle later on?" asks Miss Ettie Musil, County Home Demonstration Agent.

To freeze pumpkin simply wash each one. Then cut into small pieces and remove seeds and peel. Cook the pieces in boiling water or pressure cooker until soft. Mash the pulp or put through a sieve. Cool by placing pan containing pumpkin over chopped ice. Stir pumpkin occasionally to cook quicker.

Package the pulp in freezer jars or soft plastic freezer containers and freeze immediately. For convenience, package only enough in each package for each pie or family serving.

For canning pumpkin wash, remove seed, and pare pumpkin. Cut into one inch cubes. Steam until tender about 25 minutes, mash or put through food mill or strainer. Simmer until heated through, stirring to keep from sticking to pan.

Pack hot to one-half inch from top of standard jar. Add no liquid or salt. Close jar with new lids and rings. Process at 10 pounds pressure for pint jars for 65 minutes and quart jars for 80 minutes.

material cut into strips for filling. This makes them very practical as they can be tossed into the washer then dried quickly.

Bananas look so much prettier when fluted. Just run the tines of a fork down the side of the fruit and then slice across as usual. Cucumbers can be decorated this way, too.

An old plastic raincoat which has become too shabby to wear has not outlived its usefulness. You can cut it to waist length, remove the sleeves and use it as a cosmetic cape. This cape will afford excellent protection when you are applying make-up or washing hair.

To keep delicate white synthetics (nylon, dacron, orlon) fresh and white, follow these laundering tips. Always launder white nylons in an all white wash, and launder them often, each day after wearing if possible.

Use a heavy duty detergent and a chlorine bleach and rinse thoroughly. The clothes should be allowed to remain in the wash water 10 to 15 minutes to get the full bleaching action.

Scorching can be retarded by washing a new cotton ironing board cover before using to remove sizing. After washing and rinsing thoroughly, put the cover on the ironing board and allow it to dry there.

Try combining celery and cheese for a very tasty vegetable dish.

- CELERY AU GRATIN**
- 1 large bunch Pascal celery, cut into 6-inch lengths
 - 1 chicken bouillon cube
 - 1/4 cup butter
 - 1/3 cup bread or cereal flake crumbs
 - 1/2 cup chopped onion
 - 3 tablespoons flour
 - 1 1/2 cups celery stock and milk
 - 1/4 teaspoon salt
 - 1/8 teaspoon pepper
 - 1/8 teaspoon garlic salt
 - 2 tablespoons chopped green pepper
 - 2 tablespoons chopped pimiento
 - 2 cups coarsely shredded sharp cheddar cheese (about 1/2 pound)

Cover cleaned celery with boiling water. Add bouillon cube. Cover and simmer until barely tender. Drain and save stock. Melt butter in saucepan over low heat. Remove 1 tablespoon butter and mix with crumbs. Save crumbs. Saute onion in butter until tender. Blend in flour. Add celery stock and milk to butter-flour mixture, stirring constantly.

Cook over low heat, stirring until sauce is smooth and thickened. Stir in seasonings, green pepper, pimientos and cheese. Stir just until cheese melts.

Place celery in buttered shallow 1 1/2 quart baking dish (10x6x1 3/4 inches). Cover with sauce. Sprinkle top with buttered crumbs. Bake in 350 degree oven for 20 minutes. Serves 4 to 6.

AGRICULTURAL BRIEFS

The Texas Agricultural Extension Service in recent weeks has released two publications which should be especially valuable to grain and forage producers. They are B-975, "Insects Attacking Forage Plants" and L-217, "Control of Insects in Farm-Stored Grain." Copies are available from the offices of local county agents or the Agricultural Information Office, College Station, Texas.

Due to recent weather conditions, many Texas farmers have had stored supplies of cottonseed damaged while others have been unable to harvest good quality seed from this year's crop. As a result, seed for next year's planting could be in short supply, advises Fred Elliott, extension cotton specialist. He suggests that farmers carry over good seed now on hand and save seed which has been harvested under favorable conditions.

The average American is eating more vegetables today than did his ancestors of 50 years ago, according to the U. S. Department of Agriculture. The report indicates there has been a shift away from fresh processed vegetables.

Rings may be removed after jars are sealed. Older rings may be used if they will be removed. To insure good seal and well processed food, do not use jars that are larger than quart size. Standard jars and lids of the same brand as jar will insure good seals because they were made to fit the top of the same brand jar. These directions are available in two free bulletins "Frozen Foods, How to Freeze, How to Cook" and "Home Canning Fruits and Vegetables". Call, write, or come by the office of the County Home Demonstration Agent in the courthouse in Farwell.

The Hunt County Agricultural Workers Association spearheaded a soil testing drive in the county which resulted in 500 soil samples being taken in a one week period.

4-H Council To Meet

Farmer County 4-H Council will meet Saturday morning, October 21, at 9:30 in the District Court Room in Farwell. All new 4-H Club presidents and council delegates are urged to attend this important council meeting. For clubs who have not elected new officers they should send president and council delegate elected for 1961 club year.

Election of officers will be main business. Plans will be made for the Annual 4-H Achievement Program to be held in November.

Dr. C. M. Patterson, extension veterinarian, reports there are indications that the drive in Texas against brucellosis is lagging. He cautions Texas livestock producers that the drive must go on with even more vigor if the costly disease is to be stopped. He recommends the area control plan.

Real progress is being made under the Rural Areas Development Program, says Dr. R. E. Patterson, dean of agriculture, Texas A&M College and chairman of the Texas Resource Development Committee. He believes local leaders in all Texas counties will find it profitable to study the economic, agricultural, business, population and other trends having a bearing upon economic development. And further that the long range plans developed under RAD could well become the blueprints for progress in rural Texas.

YOUR NEWSPAPER

A HERITAGE OF TRUTH... A FRONTIER OF FREEDOM... LIGHTING AMERICA'S WAY-- YOUR NEWSPAPER

Ever think about what you get for your money in your daily paper? Of course you get the news and many other features, but your pennies purchase a great deal more. In a sense, you're investing in a heritage left by our founding fathers... freedom to print the truth as we see it. You're also buying a stake in the future — our obligation to advance the cause of freedom, wherever there's news.

YOUR HOMETOWN NEWSPAPER

Dear Mr. Farm Owner:

Here are a few good reasons for borrowing money. Do you want to build a new home? Perhaps you need underground irrigation tile to conserve water and increase your yield. Or maybe you would like to buy more property.

These are major projects and few of us have the capital to finance them without borrowing money.

We would like the opportunity to discuss a long term low interest rate farm loan with you. We will loan the maximum on your farm, you pay no brokerage or appraisal fees.

If I may be of help to you on arranging a loan or assisting you on your real estate to buy or to sell, please do not hesitate to call me.

Very truly yours,

BOB SUDDERTH REAL ESTATE

James Ray Stevick, son of Mr. and Mrs. Glen Stevick of Friona, helps his mother gather tomatoes in their field south of Friona. Cold weather during the past few weeks drove young and old alike to dig out their winter coats. Brilliant, early morning sunshine turned the cornfield in the background into a jewel-like backdrop.

Wheat--Barley Programs Begin

Farm operators in Farmer County began signing up for participation in the 1962 ASC wheat and barley programs this week.

In order to earn a deviated acreage payment and be eligible for a price support, operators must file intentions with the ASC office before Dec. 1, 1961.

Persons who received a notice of wheat allotment or wheat marketing quota exemption, except new farms, are eligible to participate in the 1962 wheat stabilization program.

The farm allotment that operators received has already been reduced the 10 per cent. Farmers may be eligible for price support on the 1962 wheat crop by designating the acreage to be diverted in an amount as large as the 10 per cent already deducted from their allotment. Those who wish to divert only the 10 per cent may plant the acreage as shown on their notices.

But, they must sign up and treat the 10 per cent acres as

diverted acres. The maximum amount that may be diverted on any farm is 40 per cent of the original wheat allotment for the farm--40 per cent of the highest planted acreage on the farm in 1959, 1960, 1961, or 10 acres, whichever is larger.

Grazing of the diverted acreage will be permitted until the spring sign-up date for both the barley and wheat programs. This date has not yet been set.

No harvesting of a 1962 crop will be permitted on diverted acreage after an operator has filed intention to participate.

Advance payments will be made upon request for 50 per cent of the proposed payment at the time the operator signs the intention to participate, according to ASC reports.

Barley bases were established from the information given by the farmers when the 1961 feed grain information was obtained earlier this year. The minimum amount that may be diverted on a farm is 20 per cent of the established farm

base. The maximum amount that may be diverted is 40 per cent of the base or 20 acres plus 20 per cent of the base, whichever is larger.

For example, a farm with a 30 acre barley base could divert from barley production, 20 acres plus 20 per cent of the base, or 26 acres. If the barley base for a farm is 100 acres or more, the maximum diversion that could be made for payment would be 40 per cent of the base.

Winter Care Helps Summer Lawn

You won't crab about your grass next spring if you fertilize it this fall. Without adequate plant food your grass will be unable to grow vigorously. And if the grass is cut too closely it is robbed of vigor and can't compete with weeds--particularly crabgrass.

Fall is the ideal time to fertilize because many annual weeds such as crabgrass and dandelions die out and the grass has a chance to fill in the bare spots. When spring arrives, the are covered by young grass and weeds don't have room to thrive.

Nitrogen is usually the fertilizer element lawns lack for healthy growth and a drab green color. Urea formaldehyde, a slow acting source of nitrogen, is one of the best nitrogen sources for lawns. Because it is non-burning and resistant to leaching it is used as the source of nitrogen in the better turf fertilizers.

After urea formaldehyde nitrogen is applied to the soil, the soil bacteria break it down slowly. It becomes available to the plants as needed. Heavy rains will not leach it out of the soil and Turf will be fed evenly throughout the growing season.

Because all of the nitrogen is not available at once, there will be no heavy growth requiring frequent mowing, followed by poor growth and poor color as the turf runs out of nitrogen. With the even feeding provided by urea formaldehyde fertilizers lawns will be green all season. Since grass plants consume

more nitrogen than any other element, it must be supplied to them in sufficient amounts. Otherwise, lawns may be scrubby. Be sure turf fertilizer contains more nitrogen than phosphate or potash. Analyses such as 10-6-4, 20-10-5, 15-5-10 etc., are all good turf fertilizers.

To develop the greenest, grassiest lawn take these steps:

1. In early fall apply 20 to 30 pounds per thousand square feet of a complete fertilizer containing nitrogen, phosphate and potash. The fertilizer should contain more nitrogen than phosphorus or potash. Early the following spring application of 10 pounds per thousand square feet should be made. Two or three additional applications at six week intervals may be made for lawns which need more plant food. The heaviest application should be made in late summer or early fall to avoid disease problems associated with tender, lush growth in late spring.

2. Make a soil test. Apply lime if needed.
3. Each time you water, soak the soil to 6 or 12 inches. Don't water lightly each evening. This only promotes crabgrass.
4. Set your lawn mower to cut 1 1/4" to 1 3/4" high. Blue grass cut closer than this is not vigorous and can't compete with weeds. Fertilizer applied to lawns cut too closely may promote weed growth rather than the growth of good turf grasses.

Crop Insurance Expanded, Texas And New Mexico

Federal crop insurance in 1962 will offer an improved cotton insurance program to both dryland and irrigated growers in Texas and New Mexico, according to Secretary of Agriculture Orville L. Freeman.

For the first time a new irrigated grain sorghum insurance plan will be offered in Lubbock, Bailey, Castro, Crosby, Floyd, Hockley, Lamb and Swisher counties. Dryland grain sorghum will be added in Wilbarger, Williamson, Nueces and San Patricio counties, and cotton in Denton and Wilbarger counties, according to the Secretary's announcement.

The Federal Crop Insurance Corporation, already offering a new citrus and cotton program in Cameron, Hidalgo and Willacy counties, expects to improve its protection to rice farmers in the coastal counties of Ft. Bend and Wharton.

Under the Federal Crop Insurance Corporation, farmers in counties where the insurance is available pay premiums for

protection of designated crops against loss from causes beyond their control such as weather, insects and disease.

"This self-help plan of insurance protection against crop disaster will be expanded to more counties and crops as rapidly as possible and it should be more widely utilized by farmers where it is available," Secretary Freeman said. "Due to the high production costs necessary to produce a crop, it takes more years to recover from the effects of a crop loss than ever before in our history."

This year all-risk crop insurance provided Texas and New Mexico farmers with over \$11 million of protection on money spent to produce crops, and a sharp increase is expected in 1962," the Secretary said.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL * OUR STRENGTH

What would you do if in the next few minutes the TV program that you are watching is interrupted? The interruption warns you of a possible nuclear attack. Will you have adequate shelter, food and water for two weeks for you and your family.

Survival is possible. There are three main hazards of a nuclear explosion. They are blast, heat and radiation. The latter is the one that we are concerned with in Farmer County. The blast and heat injuries will occur within a few minutes after the explosion, but the radiation injuries and deaths will occur for several days.

This is where the bomb shelter will mean the difference between life and death to you and your family. The best possible protection is an underground shelter with a top cover of three feet of dirt or two feet of cement or seven inches of steel.

Enough food should be available to last seven days. Seven gallons of water for each member of the family should be sufficient for two weeks. Empty containers that can be closed tightly for water should be in your shelter.

This is an excellent place to store your camping equipment such as lantern, stove and sleeping bags. These can be used in case of an emergency. One of the most important items is a small battery operated radio. Tune it to 1240 or 640, your Conelrad stations. These stations will give you information as to when you can get out and how long you can stay.

Local Soil Conservation personnel attended a Civil Defense radiological monitoring training session at Pampa last December. The Friona work unit is one of 9 Panhandle units that received this training.

This was given so that local SCS employees could monitor fallout in case of an atomic attack. Contact Bob Crozier, Bill Liston or J. D. Sanders for more information.

Proper Ration Essential To Profitable Calf Feeding

Drylot feeding of calves weighing from 250 to 400 pounds requires a much better understanding of feeding principles than does the feeding of heavier ones. It takes a better ration to achieve the desired results in the lighter animals because they do not have their mother's milk to balance their diet.

In the first place, their stomachs will not hold as much as those of heavier calves so the small amount of feed they do consume must contain enough nutrients to satisfy their needs, explains U. D. Thompson, extension animal husbandman. Due to their small size, they have a small storage capacity for even those nutrients which they can hold in reserve in their bodies.

As an example of this storage capacity, consider vitamin A. If cattle have an ade-

quate supply of this vitamin, they store the excess in their body fat and livers. As long as they have access to greengrazing they get their vitamin A. When no green grazing is available, they use their stored supply to satisfy their needs. Here is where a calf's needs are taken care of by milk. When this calf is weaned and placed on drylot, he must be supplied these nutrients in his ration. In 250-400 pound calves vitamin A deficiency can develop within 45 to 60 days unless the ration takes care of his needs.

Either leafy green alfalfa hay, alfalfa leaf meal or pellets are good sources of vitamin A, says Thompson. Calves nearly always do better on rations which contain alfalfa than on those which do not, he continues. Also, commercial syn-

thetic vitamin A preparations are now available for mixing in rations. These may be used if good alfalfa is unavailable or expensive.

Calves do not have the ability to utilize large quantities of roughage. Their digestive system requires feeds high in food values. Shelled corn, sorghum grain, oats, barley and high protein feeds like cottonseed meal are full of some of the nutrients required by calves. A small amount of roughage is essential, but their diet should consist mainly of these high protein feeds. A 300 pound calf on drylot, when on full feed, will need about 6 pounds of concentrates and 3 pounds of roughage daily, says Thompson.

For more detailed information on feeding young calves, contact your local county agent and ask for a copy of "Vitamins For Beef Cattle" and "Rations for Fattening Cattle."

Lubbock Boy Shows Grand Prize Steer

KANSAS CITY...A summer yearling, "Champ", owned by Jimmie Thompson of Lubbock won the junior grand championship award of the American Royal Livestock Show last Saturday. The American Royal is one of the two biggest National shows on the circuit.

Jimmie is a 12 year old Lubbock 4-H Club boy, and a seventh grade pupil at Atkins Junior High in Lubbock.

Champ was selected from a herd of animals on the D. W. Lewter Ranch near Lubbock. He won the 4-H club championship earlier, and as the junior show champion he is eligible to compete for the grand championship of the show this week.

A Shorthorn steer from Hinton, Iowa, won the reserve champion honors.

High production per cow is one of the most important factors in profitable dairying. A recent study of 1959 Texas Dairy Herd Improvement records by Joel Hillin and Tom Prater, extension farm management specialists, shows that increasing the size of the dairy herd does not always mean an increase in profits but increased income does result when the per cow production is upped.

America's Largest Independent Telephone System

Unseen people at work

What's behind your telephone?

Well, many things. Miles of wire, hundreds of poles, intricate equipment. . . . and, unseen people.

Trained, experienced, dedicated people who work hard to provide good telephone service. People who are interested in you and in this community.

Yes, behind your telephone are people . . . the people who are, in actual fact, your telephone company.

GENERAL TELEPHONE COMPANY OF THE SOUTHWEST

Death Takes Former Resident

Mrs. Andrew Morman of Clovis, formerly of Bovina, died Saturday afternoon at Memorial Hospital.

Mrs. Morman was a long-time resident of Bovina. She is survived by her husband, a son, Arthur Morman of Clovis and three daughters, Mrs. Dick Martin and Mrs. Lawrence Rhodes of Clovis and Mrs. Bill Coleman of South America.

Funeral services will be at the First Baptist Church in Clovis at 3:30 p. m. (Texas time) tomorrow (Thursday).

Sylvia Sherrill Has B'day Party

Sylvia Ann Sherrill, daughter of Mr. and Mrs. James Sherrill, celebrated her fourth birthday with a party Saturday morning at her home.

Birthday cake, decorated with pink candles, and candied apples were served to youngsters present.

Attending the party were Sherrill Lane, Myrna, Susie, James and Randy Ritchie, Kerry and Stephan Lane, Jeanie Kay Rodgers, Dala and Gail Boyd, Jennifer Crisp and Joe Don Sterum.

Ponies--

The Cowboys were pre-season favorites to win district while Vega wasn't expected to be exceptionally strong. Commenting on this, Gee says, "We think Happy is every bit as good as we thought they were and Vega is a lot stronger than we first believed."

In other district action this week, Vega meets Lazbuddie, who was idle last week, while Hart sits one out to nurse its Mustang-inflicted wounds.

Bovina rounds out its schedule against Lazbuddie October 27 and Vega November 3. Both games are away from home.

If both Bovina and Vega are victorious this week, they will be established as district favorites with district winner to be decided, in all probability, in season's final game at Vega.

Mustang squadmen escaped injuries in the Hart fray and all are expected to be ready to play this week.

Trash Hauling--

Other business at the meeting last week included approving minutes of previous meeting and paying of city's current bills, according to City Secretary Virgil Tritsch.

Present other than Tabor and Tritsch were Commissioners Bud Crump and Al Kerby.

When Millie Wright was asked her age she said: Atomic.

District Champs--

yards gained per game, Coach Beatty reports, and he made over 300 yards in the Vega win.

During the five game season, Mayhew scored over 60 points. His most dramatic individual play was a punt return of 104 yards in the Hart game.

Radford Venable played full-back and was the team's power runner, Scotty Rundell played halfback and is considered a good shifty runner by his coach. From a scoring standpoint, Rundell had a disappointing season--he had four touchdowns called back because of penalties. However, he made several extra points.

Richard Carson was the team's quarterback most of the season. He shared signal calling duties with Steve Lehenbauer late in the season.

Coach Beatty says he had as good a group of running backs "as I've ever seen on a junior high team."

Other members of the backfield group included Fullback Andy Ancira and Halfback Billy Marshall, Truman Von Trim and Robert McCullough.

Ends were Jerry Roach, Greg Mahan, Randy Jones, Wayne Davies, Raymond Drager, and James Chesney.

List of tackles includes Marshall, Lehenbauer, Dean Stanberry and Delbert Lorenz. Filling guard positions were James Burnett, Mario Espivezo, Curtis Griffin, Ricky Kunselman, Kregg Wilson, and James Lee Calaway.

Centers were Lane Gober and Ancira.

The squad worked out one hour each day during P. E. period and worked some after school prior to beginning of district play.

This time a year ago, Coach Beatty was a student at Hardin-Simmons University at Abilene, receiving his degree in May of this year.

Commenting on his success in his first year as a coach, he said, "The squad of boys I had this season was a coach's dream."

With football season over for them, the junior high boys began working out for basketball this week. Beatty will also serve as coach in this sport.

The squad was composed of seventh and eighth graders. Eighth graders will move up to the varsity next to lend support to Mustang squad. Seventh graders will remain another year with Colts hoping for another district championship team.

Has Luncheon

Hosting Dorcas Circle luncheon Wednesday at Methodist Church was Mrs. Pat Kunselman.

Opening prayer was given by Mrs. I. W. Quicquel, after which Mrs. Mable Newberry read the minutes of the last meeting. Mrs. Billie Sudderth met with the group and discussed the float the W. S. C. S. is going to enter in the homecoming parade. Dorcas Circle agreed to help with it.

Others present than the above mentioned were Mrs. T. J. Hoppingardner, Miss Ellen Reminsider, Mrs. C. O. Edens, Mrs. Frank Wilson and Mrs. John Wilson.

Former Minister Seriously Ill

R. A. Hartsell, former minister of Bovina Church of Christ, underwent surgery recently and is reported to be in serious condition.

His address is 614 South 6th, Yachmore, Wash.

Whittlin'--

with Bovina since '55.

We predict the ice will be broken this year, however, and the maroon and white will get its first taste of pigskin victory over the boys from Swisher County. At the same time, we remember that Bovina was a slight favorite to win last year's game, but Happy didn't realize that and won 20-12. This is going to be our year.

Boyd Gilreath tells us this is Bovina's history-breaking year and that past history doesn't mean a thing this season. We think he might be right.

Clements Host Couples Club

Entertaining Couples Bridge Club Thursday evening in their home were Mr. and Mrs. Jimmy Clements.

Mrs. Vernon Willard and Leon Ware won high for the evening and Mrs. Leon Ware won traveling prize.

Following an evening of bridge refreshments of pumpkin pie topped with whipped cream, cherry pie ala-mode, coffee and tea were served to guests.

WHAT IS A TESTAMENTARY TRUST?

When the will of a deceased person sets up a trust (for example to pay an income to the widow for life and at her death distribute the principal to the children), it is often called a Testamentary Trust. In such cases it is wise if a bank is named as executor. Our bank serves as an experienced, fair administrator to handle property in a manner which is in the best interest of all.
