#### A. C. Kyle Candidate for State Legislature From 116th District have some relief for our high living

A. C. KYLE.

A. C. Kyle of Abilene has authorized The Merkel Mail to announce his candidacy for the office of state you an experienced, capable and courrepresentative from the 116th dis-

His statement to voters follows: "In making my announcement for the office of State Representative, I fully realize the responsibilities that a man assumes when selected to rep- tion, resent the people in the Texas legis-

"First, he should have some definite program and, if elected, exert every effort to carry out that program to the best of his ability. Below I state some of the things that I think should be accomplished and pledge my best efforts to that end, if

"I have always been both in state affairs and in my own business conservative in the spending of money, yet I am not a penny pincher, and believe that money well spent is a wise investment.

"I am strong for the proposed improvements suggested by the Prison Board and for the needed expansion for our prison system and then should go beyond our present system and take in other elements of our institutions such as schools for the bling, the deaf and dumb and the insane asylum. We have only to drive out a short distance from Abilene to realize the poor conditions that exist there and this is the condition of the majority of our institutions throughout the state. This should be attended to new and not deferred five or ten years.

"I stand for a strong farm-tomarket road program and hope to see within a few years every community taken out of the muddy lanes and all have all-weather reads.

"I am for better schools, and will support any legislation for a better school and to better compensate the teacher. I am strongly in favor of the pension fund for firemen and policemen and think it should be strengthened to afford a reasonable retirement when these men are shelved from their employment because of old age or disabilities.

"I am for the removal of the present ceiling on the old age assistance

#### Bullock Announces For Re-Election To State Senate

Pat Bullock of Colorado City, mem ber of the state senate of Texas from the 24th district, has authorized The Merkel Mail to announce his candidacy for re-election, subject to the action of the Democratic primary in July.

His statement follows:

To the Voters of the 24th Senatorial District:

Early in January of this year I announced my candidacy for reelection to a second full term in the Texas Senate. I now want to take this opportunity to solicit the votes and influence of the citizens of this district in the July primary.

During my service as your Senator the lieutenant governor has seen fit to place me on a number of the most important committees in the senate.

In addition to my regular assignments, I was appointed on the following special committees: The powerful Senate Investigating committee; the Educational Investigating committee and the Joint Legislative Rural Aid committee which supervises the distribution of Rural Aid to the vacious school districts of Texas qualifying to receive aid under the law.

I have tried earnestly to represent the people of the 24th Senatorial district as well as all of the people of Texas while serving on committees and when casting my vote on the Senate floor. I have never dodged an issue nor have I ever ridden the fence en any measure.

Since becoming a member of the senate I have consistently opposed new taxes of any type. Our tax burden is too heavy now. If and when the new taxes are needed to adequately finance our state government, they should come from sources other than an ad valorem or sales tax. I am unalterably opposed to a general sales

Picture above shows subsoiling with the Williams Tool Bar Subsoiler, using nine 2-inch chisels spaced 14 inches apart on tractor tool bar, taking 10-foot once through, doing the subsoiling, as you have probably seen other subsoilers do while being pulled behind tractors. Either job is fine for taking in and retaining the moisture but the tool bar job has the advantage over the other type in several ways. . . It is cheaper to buy, works closer to tractor, has tractor power lift to handle it without any extras to be added.
