FRYING EGGS IS AN ART How do you fry an egg? If you have tried to eat some of the leathery food sometimes served as fried eggs, you know that this question deserves consideration.

Any good cook will tell you that there is an art to frying eggs. First, you must start with top quality eggs. Such eggs have a large amount of firm white and a well rounded, upstanding yolk. This is essential to produce a fried egg that looks appealing.

Break the eggs into a saucer, one at a time and slip into a frying pan containing melted table fat, preferably butter or margarine. Use one tablespoon for every two eggs. High heat toughens protein, so the skillet should be just hot enough to melt the fat or to make a drop of water sizzle.

Cook the eggs over low heat until the whites are firm. This will take three or four minutes or longer, depending on how firm you want your eggs.

So cook the top of the eggs, dip the fat over them, cover the skillet tightly with a lid, or flip the eggs after they've begun to set.

Sprinkle with salt and pepper and serve at once. You might like to prepare eggs in the following way.

- Eggs A La King
- 1/4 cup butter or margarine
  - 1/4 cup flour
  - 1 teaspoon onion salt
  - 1/4 teaspoon pepper
  - 2 cups milk
  - 2 tablespoons ketchup
  - 1/2 cup cooked or canned peas
  - 2 tablespoons chopped pimiento
  - 1 cup sliced, canned mushrooms
  - 6 hard-cooked eggs, sliced
  - 6 slices tomato
  - 3 English muffins

Melt butter; add flour, onion salt, and pepper; blend until smooth. Gradually add milk, stirring constantly until thickened. Add ketchup, peas, pimiento, mushrooms, and sliced eggs. Heat thoroughly. Broil tomato slices 5 minutes. Split English muffins in half; toast. On each half place broiled tomato slice. Pour creamed mixture over. Serves six.

- Timely Tips
1. Eggs should be cooked at low temperature so as not to toughen the protein.
  2. Keep eggs in refrigerator and away from strong odors.
  3. Eggs are a good source of protein and minerals.
  4. Serve Eggs a la King on piping hot waffles, plain or whole wheat toast or biscuits.
  5. Eggs are on the top of the plentiful foods list for February.

FEB. 12 — A DATE TO REMEMBER

Saturday is Lincoln's Birthday. His story is one of those we know best from our nation's history, but well as we know it, we can still find in it inspiration for today and a guide for us to follow as we build for the future from the heritage of the past — a past made great by such men as Abraham Lincoln.

SOCIAL SECURITY DISABILITY CLAIMS CAN NOW BE FILED

"We are now ready to accept applications from disabled workers to have their earnings records declared frozen under the 1954 Amendments to the Social Security Act" R. R. Tuley, Jr., social security district manager, Abilene, announced.

Tuley pointed out that persons who have been totally disabled for 6 months or longer, and who worked in jobs covered by the social security law for as many as five years out of the 10 years before they were disabled should get further information about this new provision in the Social Security Act. By applying to have their social security earnings records frozen while they are disabled, they may prevent loss or reduction of future benefits.

WILL BE SAFER

Very soon now, a dream of more than two years' standing will come true in Texas. Because of that dream, every person in this state will be a bit safer.

By February, "minute men" from over the state will be learning how to perform rescue operations in case of enemy air attacks or natural disasters.

They'll be learning at the Firemen's Training School of the Texas Engineering Extension Service at Texas A. & M. in College Station. Sponsoring the instruction will be the Office of Civil Defense and Disaster Relief in Austin.

"As It Looks From Here"

**THE CHINA SITUATION** — The official position in Washington is that Red China will not fight. Although no one could be certain on this point, this much can be borne in mind to support that position.

Russia is not likely to get herself involved in a war on account of China. Communist China has no navy to speak of; her air force, except for fighter planes, is not strong enough for a sustained offensive; she has only a few developed resources; little oil and no industry to speak of. Human backs are the main means of transportation in many areas. An army and an air force, with no real industry to support them, lack staying power.

Be this as it may, the Chinese have the largest army in Asia and can be used to intimidate weaker nations in southeast Asia. In fact, it has paid her big dividends thus far.

The Communists began the fight in Korea under the impression that the United States would not enter the war against them. President Eisenhower and the Congress have now removed any such doubt regarding Formosa. I offered an amendment to the President's request that Congress back up his policy, stating that this action should not set a precedent which would lead either people in this country or overseas to think that the President had to take such action every time an emergency occurred.

It is my personal belief that the Chinese Communists have their eye more on southeast Asia than on Formosa, and that they may be throwing up a smoke screen as a diversionary tactic.

The existing situation is sensitive, to say the least, and there is no need to speculate on what may happen. The Chinese Communists have tasted victory in several instances, which has raised their prestige in Asia and it has caused the Communist leaders to become pretty drunk with power. This is a dangerous thing, and particularly for the Oriental mind, which could result in the worst.

**EMPLOYMENT PRACTICES** — According to persons who have studied the trends in employment practices, men over forty or forty-five years of age are finding it difficult to find employment. In the case of women, the age is around thirty-five or even younger.

The practice is said to grow out of the employers' desire to keep down their pension liability, which is increased when older workers are taken on.

**RESERVE PROGRAM** — With the President's program for a four-year extension of the draft, he has proposed an enlarged Reserve. Much will be heard about the Reserve program in the coming months. In brief, the general plan will allow boys seventeen to nineteen years of age to volunteer for six months basic training, to be followed by 9½ years participation in the military Reserve. In connection with this program, the President made a prediction that we must face the possibility of a 50-year period of "cold war."

This has a most pessimistic sound, but it should have been obvious to all of us for several years past that we are probably in a very long period of high tension, with no reasonable expectation that the world, with all the upheavals taking place, can soon settle down to the peaceful status we used to know.

**SIDNEY J. WILLIAMS HAS BEEN PROMOTED TO CORPORAL GRADE**

Sidney James Williams has been promoted from private first class to corporal. He is now stationed at Orland, France. He is the son of Mr. and Mrs. E. G. Williams. Sidney is with the engineering corps.

Persons aged 72 with at least 1½ years coverage under Social Security can collect even though not retired, beginning in 1955.

Farm workers paid at least \$100 in a year by one employer are due Social Security credits beginning in 1955.

Most farm families will begin building Social Security credits in 1955.

Claims denied in the 1940's for insufficient credits can be reopened if the deceased had at least 1½ years coverage under Social Security.

Only Car at its Price\*...  
**So Smart! So Big! So Powerful!**

\*You can buy a big, powerful Pontiac for less than many models of the lowest-priced cars!

Whatever you want most in a car—beauty, size or performance—you get it in extra measure in a Pontiac.

For example, take Pontiac's distinctive smartness. Pontiac is the one car that stands apart from all the others.

If it's size and big-car sure-footedness you want—Pontiac's your car! Pontiac's long wheelbase is the plus wheelbase that provides the roominess, the comfort, the satisfying road-hugging

security that only a big car can supply.

As for performance—once you get behind the wheel you have all the proof you need that Pontiac is way ahead in this department, too. Pontiac's spectacular performance starts with the most modern engine of all—the powerful new Strato-Streak V-8—specifically designed for Pontiac's all-new chassis to give you balanced performance. That means smooth, eager getaway in traf-

fic; power to spare on the open road; and even more of Pontiac's traditional economy, dependability and long life.

All this adds up to a wonderful car and—with Pontiac's remarkably low price tag—a very wonderful buy. Come in soon and talk dollars and cents. If you're in the market for any new car, you'll discover you can easily afford all the pride and pleasure of a big, powerful, luxury-loaded Pontiac.

**TWIN-STREAK STYLING**  
Pontiac's twin-streak front-end beauty is only a hint of its years-ahead styling that teams exclusive Vogue Two-Tone colors with luxurious interior fabrics and appointments.

**STRATO-STREAK V-8 POWER**  
Here is the most modern engine on the road, a compact, beautifully designed power plant that gives you spectacular performance at all speeds—for years to come!

Go Modern... Go **Pontiac**

By VERN SANFORD  
Texas Press Association  
Austin is full of "land-grab" investigations.

Both houses of the legislature have their own investigating committees. Also peering into the "land block sale" scandals are grand juries in Travis and DeWitt counties.

**Insurance Committee Action**  
Corrective insurance bills have run into slow-down.

Four were heard by a House Committee including one to regulate insurance company securities. All were sent to a sub-committee for two weeks.

In the Senate the insurance committees moved slowly on a mass of other bills awaiting their action.

Several labor bills were heard. One by Sen. George Parkhouse, dealing with "the Port Arthur sit-

uation", won favorable action. It would permit picketing only by employees representing a majority of the workers of a struck firm. Another bill by Parkhouse would prevent pickets from interfering with common carrier service to a struck plant; and would fine or jail common carrier employes for refusing to cross a picket line.

**Water Committees Busy**  
Two committees studied water legislation.

Rep. Harold Parish's constitutional amendment for a \$200 million bond issue and a 1-cent property tax, was reviewed by the constitutional amendments committee, and held over for action.

Sen. Dorsey B. Hardeman's constitutional amendment for a \$100 million bond issue and a 3-cent tax is awaiting committee action.

Legislators are studying an A. & M. College report that Texas farm population has slumped 47.9 per cent since 1940—as compared with a 28.3 per cent decline for the rest of the nation.

In 1954 the farm population was an estimated 1,126,000. That's 261,000 less than in 1950 and 1,297,000 under the record year of 1945.

Farms have increased in size to 517 acres average, or twice that of 1930.

## Adventure, Humor And Love Pack Show at Queen

Everything one wishes in a play is packed into "Green Fire," playing at the Queen Theatre Sunday and Monday. The stars are Stewart Granger, Grace Kelly and Paul Douglas.

The play is in South America, with jungles and mountains filling in the background for a show tense with adventure, humor and love.

## "3 Ring Circus" Rings Fun Bell At Queen Theatre

Those funny boys, Dean Martin and Jerry Lewis, are back again in "Three Ring Circus," playing at the Queen Theatre Tuesday, Wednesday and Thursday.

It is a fun fest from beginning to end. In it also as stars are Joanne Dru and Zsa Zsa Bagor. This "Three Ring Circus" is a real circus plus Martin and Lewis at their best.

## ROBERT H. WILLIAMS HAS JOINED NAVY AND IS AT SAN DIEGO

Robert Howard Williams has joined the Navy and is now at San Diego, Calif. He is the son Mr. and Mrs. E. G. Williams.

## JANICE WINDHAM ELECTED PRESIDENT OF 7TH GRADE ROOM

On Monday, Feb. 7, Miss Mable Phillips' seventh grade room elected officers. Results were:

President, Janice Windham; vice president, Carlton Pair; secretary, Betty Bailey; treasurer, Betty Odum; reporter, Mike Farley; assistant fire chief, Dewell Burden. The fire chief had been elected prior to this election.

## JANIS BLACK ELECTED HEAD OF MRS. SHOUSE'S 7TH GRADE STUDENTS

Mrs. Andy Shouse's seventh grade met on February 1 to elect officers. The following were elected:

Janis Black, president; Carole Perry, vice president; Robert Harris, secretary; Nita Moore, treasurer; Melba Horton, reporter.

In connection with their study of soil conservation Coleman O'Brien gave a talk on conserving soil and water. He showed some pictures and explained them.

On Thursday, Feb. 3, Mrs. Shouse's seventh grade visited the Taylor Electric Coop plant. Holt Vaughn showed them around and explained to them about electricity.

He showed a film about the bad snow in 1949 in which so many wires were torn down. He said they had a safety record of which they were proud. There had been no accident during the past 650 days.

W. W. TOOMBS

students at the University of Missouri, including foreign students, who is a very dear friend of ours, always has something interesting to say when she writes. Recently she wrote about a Japanese dinner she attended. She said:

"Just got home from the Japanese dinner. Liked it fine. It was in that house on Missouri Avenue where we lived. It is made over and so much nicer.

"What memories it had for me, more pleasure than I have ever had in all these long years. Do you remember the parties we had?"

The dinner was beef in small chunks, spinach with young onions, noodles, rice, cookies and assorted fruits and tea."

Yes, we remember the parties and the house on Missouri Avenue when we stayed with Prof. and Mrs. Wrench when we attended the University of Missouri. That was a long, long time ago. Verily, we grow older . . . or perhaps old.

**OUR SCHOOLS**

What about our schools? That is the question that the school faculty itself is trying to answer. And to do this they are making an intensive study of what is going on in the schools.

How will the schools go about this? In his article last week Supt. Mack Fisher stressed what the job is. The officials and the teachers

will study their own work. They will give values to their own subjects, their methods of teaching these subjects and what relationships they have to the community.

Then they will have to make conclusions, pass opinions, make judgements. More pointedly the school men will attempt to find out what is good in the school work, what can be improved and ideas for improving the work that needs improving.

The main points to be stressed, said Prof. Fisher, is to answer these questions: "How good a job are we doing in meeting community needs?" and "What areas in the instructional program needs to be improved?"

This is a far cry from the three R's: reading, 'riting and 'rithmetic. In the past all the schools had to do was to see that the student learned these three things. Today, something else has been added.

This addition is: Does what the student learns help in community life, how does it adjust him for

**HAPPY SNAPPY**

**LAUNDRY — HELP YOURSELF**  
We have drier. We pick up and deliver. We do wet wash and rough dry.

being a good citizen, how does it help him live a better life, how does it help him . . . in short . . . live.

The assignments that have been made to the different teachers carry out this new idea in education.

Take curriculum planning and development. In plain language it means what kind of subjects are being taught.

Take social skills and attitudes. What does that mean? Simply, how to be a good citizen, and the subjects that will help the students in citizenship training.

In short the school is growing up itself and is deeply interested in what it is doing and how it can better itself and thereby better the products they are producing.

It is work worth doing.

**"WHITE-ICISM"**

That's ALL — and the Sage of Figfield adds that the study of study is a deep problem.

**ITCH NO MORE. IN 15 MINUTES.**

IF NOT PLEASD, YOUR 40c BACK at any drug store. Use easily to apply ITCH-ME-NOT to allay the itch of eczema, athlete's foot, ringworm, poison ivy, insect bites. Feel the relief in 15 minutes or your money back at Merkel Drug Co.

Lone Star Gas Company

**No gasoline-no, not a single one- has higher octane than New 1955 GULF NO-NOX**

This lamp is burning the "DIRTY-BURNING TAIL-END" of gasoline which GULF refines out

This lamp is burning NEW SUPER-REFINED GULF NO-NOX, the clean-burning super-fuel

**but octane alone is not enough...**

That's why new Super-Refined Gulf NO-NOX is specially made to burn clean—to protect your engine—to give you thousands of extra miles of full engine power.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts! You'll get:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the short-trip, stop-and-go driving motorists do most.
- Stall-proof smoothness . . . instant starts . . . fast, fuel-saving warm-up.
- No knock, no pre-ignition—even in today's high-compression engines.

**This is GULF'S PLEDGE to the motoring public**

- We at Gulf make this promise to America's motorists. We will not permit a single competitor—no, not a single one—to offer a gasoline superior to our own superb No-Nox.
- It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest—in power, in performance, in engine protection.
- This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by the resources—and the integrity—of the Gulf Oil Corporation.

**New 1955 GULF NO-NOX**

**It's super-refined... to burn clean!**

The '55 gasoline for all high-compression engines

### "Lend a Hand" Neighbors Still Live Around Here

"Lend a hand." And that is what the good Mulberry Canyon neighbors of R. G. Toombs did recently. Here's the story.

Mr. Toombs was in the Sadler Hospital, ill. He came home, still unable to get about much. But his neighbors knew and did something about it. They came over, brought their tractors and plowed his 110 acres. The wives brought a banquet of food for the workers to eat at dinner time.

Those in this neighborly act are: Bert Harris, Messrs. and Mesdames Ernest Meeks, J. E. Meeks, E. J. Patterson, Dewel McLean, W. B. Toombs, J. W. Seymour, Tom Russom, N. J. Minatra, Jake Rhodes, Holbert Rister and A. L. Moore.

Mr. Toombs is up now and feeling much better.

Anyone who expects to live by his wits should first be sure he has his wits in his possession.

### SPEAKERS FROM FAR AWAY ON PROGRAM

Speakers from as far as Japan and Switzerland will appear on Abilene Christian College's 1955 Bible Lecture, scheduled Feb. 20-24. J. D. Thomas, lectureship director, announces the series will include eight mission speeches, two of which will be by Ed Brown, former evangelist in Japan, and Heinrich Blum of Zurich, Switzerland, now an ACC student.
